Both Departments have a range of stress-related initiatives that staff in the Scotland Office can access ranging from employee assistance programme which offer a free, confidential 24-hour support hotline for all staff, providing the opportunity to discuss any issues (including work-related stress) with a trained counsellor to training for staff in helping with stress to Welfare Services. These initiatives are available to all staff in these Departments and it is not possible to attribute the costs involved to the Scotland Office.

## TRADE AND INDUSTRY

### Advantage West Midlands

**Paul Farrelly:** To ask the Secretary of State for Trade and Industry how much has been spent by Advantage West Midlands in each relevant *(a)* parliamentary constituency and *(b)* local authority area since 1997. [7619]

**Alun Michael:** When the Agency was formed in 1999, the sponsoring departments required expenditure to be monitored on a programme budget basis, and there was no geographical analysis. This changed in 2002–03 as a result of changes in the way the Government requires Regional Developed Agencies to report on their spending. After 2002–03 a record was kept on the basis of Regeneration Zones but was not disaggregated to local authority or parliamentary constituency levels.

Advantage West Midlands has recently introduced a new reporting mechanism that will allow projects to be defined by local authority and parliamentary constituency. This information will cover current and future expenditure and will not provide a similar analysis of past projects.

### Directorate Staff

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many members of each Directorate have taken early retirement since October 2003; and for what reasons. [10519]

**Alan Johnson:** The following table shows the number of staff in each Directorate who have taken voluntary early severance and voluntary early retirement since October 2003.

Their reasons for doing so are not recorded.

| *Directorate* | *Voluntary early severance* | *Voluntary early retirement* |
|---|---|---|
| Business Relations | 51 | 84 |
| Business Support | 3 | 0 |
| Consumer and Competition Policy Directorate | 7 | 19 |
| Corporate Law and Governance | 4 | 16 |
| Energy Industries and Technology Unit | 8 | 23 |
| Energy Markets Unit | 3 | 9 |
| Employment Relations | 8 | 15 |
| Energy Resources and Development Unit | 4 | 8 |
| Energy Strategy Unit | 2 | 2 |
| Europe and World Trade | 7 | 10 |
| Finance and Resource Management | 5 | 13 |
| Human Resources and Change Management | 3 | 15 |
| Industry Economics and Statistics | 2 | 3 |
| Innovation Group | 14 | 23 |
| Information and Workplace Services | 8 | 22 |
| Legal | 16 | 12 |
| Ministerial and Parliamentary Support Team | 8 | 13 |
| Office of Manpower Economics | 2 | 5 |
| Office of Science and Technology | 6 | 8 |
| Project Work Team | 6 | 6 |
| Regions | 3 | 9 |
| Small Business Service | 13 | 23 |
| Strategy Communications Unit | 7 | 6 |
| Shareholder Executive | 2 | 3 |
| UK Trade and Investment | 35 | 28 |
| Women and Equality Unit | 5 | 3 |
| Export Control and Non-Proliferation | 4 | 9 |
| Other small directorates[1] | 2 | 9 |

[1] This represents British National Space Centre, Internal Audit, Low Pay Commission and the Strategic Policy Analysis Unit where the numbers are small and there is a risk staff could be identified.

### Internal Market Services Directive

**Mr. Davidson:** To ask the Secretary of State for Trade and Industry (1) what assessment he has made of regulations which might be considered a barrier to trade under the terms of the EU Directive on Services in the Internal Market; [9332]

(2) what his definition of remote provision of services is in relation to the EU Directive on Services in the Internal Market; [9562]

(3) what his definition of *(a)* Services of General Economic Interest and *(b)* Services of General interest is with reference to the EU Directive on Services in the Internal Market; [9563]

(4) what the process will be by which national governments justify regulation in the public interest under the terms of the EU Directive on Services in the Internal Market; [9564]

(5) how the EU Directive on Services in the Internal Market differentiates between services in the public and private sectors; [9567]

(6) pursuant to the answer of 15 June 2005, *Official Report*, column 437W, on EU Directives, what his definition of temporary is in relation to the EU Directive on Services in the Internal Market; [9568]

(7) which service sectors would be excluded from the scope of the EU Directive on Services in the Internal Market under the provisions of paragraphs 15 and 16 of the Directive. [9569]

**Ian Pearson:** The draft EU Directive on Services in the Internal Market is currently under negotiation in both the Council of the European Union and the European Parliament. The Government see this dossier as a priority and wishes to progress negotiations during their Presidency of the Council of the European Union.

*Barriers to trade*

Since the publication of the Commission's proposal in 2004, the Government have been identifying areas of regulation to which the Directive would apply and those which might be considered to constitute a barrier to trade of services. Although this work is ongoing its current status is reflected in the partial Regulatory Impact Assessment published on the DTI's website www.dti.gov.uk/ccp/topics2/pdf2/servicesria/pdf

*Definition of remote provision of* services

The Directive does not define "remote" provision of a service, however, the Treaty itself does make clear the freedom to provide services applies both to a situation where a provider physically moves to another member state and where he remains in a member state and provides his service cross-border. Remote provision of a service then is where the provider remains in one member state while providing his service to a recipient in another member state; it would include services provided over the internet or telephone and also mail order services.

Definition of Services of General Economic Interest and Services of General Interest. The term "Services of General Interest" is not found in the Treaty (which only refers to services of general economic interest), but it is often used to mean both economic services and non-economic services in which there is a public service element. While the term "Service of General Economic Interest" is referred to in the EC Treaty it is not defined. The Services Directive only covers economic services where there is economic consideration provided by or on behalf of the recipient.

*Process for justifying regulation in the public interest*

The Directive obliges member states to report on their authorisation schemes. They will have to justify their schemes as being non-discriminatory, based on a strong public interest reason, and proportionate. The reports will go to the Commission and to other member states. There will be a peer review of member states' regulations. Following that the Commission will prepare a summary report.

What is a strong public interest reason? The Directive refers to

"overriding reasons relating to the public interest"

these are strong reasons recognised by the European Court of Justice, and its definition has been, and may continue to be, developed by the ECJ. The protection of workers and protection of consumers are two reasons that have been recognised by the ECJ as constituting overriding reasons relating to the public interest.

*Public and private sector services*

Only services which are economic in nature are covered by the Services Directive. Economic services in this sense can be provided by either the private or public sectors. Many public sector services are not economic in nature, for example, the ECJ held there was no economic consideration in relation to state education which is therefore not economic in nature. The Directive does not apply the country of origin principle to certain services which in some countries will be provided by the public sector, namely, gas, electricity, post and water services.

*Definition of temporary*

The Directive does not have a definition of "temporary", which is also the case for a number of other European Directives; instead it uses the case-law of the European Court of Justice to define "establishment" as

"the actual pursuit of an economic activity, as referred to in Article 43 of the Treaty, through a fixed establishment of the provider for an indefinite period".

Whether a provider is temporary or not defends on looking at the circumstances of each case. The ECJ has said that the criteria to be applied to this assessment are not limited to the duration of the provision of services, but should also include its regularity, periodical nature and continuity.

*Service sectors excluded from the Directive*

The service sectors that are excluded from the scope of the Directive are listed in Article 2. The country of origin principle has derogations listed in Article 17 for specific service sectors, namely, postal services and the distribution of electricity, gas and water.

## TRANSPORT

### A102

**Mr. Amess:** To ask the Secretary of State for Transport for what reasons the speed limit on the A102 between the A11 and the A13 has been reduced from 50 mph to 40 mph. [10400]

**Dr. Ladyman:** This length of road is now classified as the A12 and forms part of the Greater London Authority Road Network—now known as the Transport for London Road Network—and is the responsibility of the Mayor and Transport for London. This includes the setting of speed limits. Further

information concerning the speed limits on the road may be obtained from:

Keith Ollier
Director of Street Management
Transport for London
Windsor House
42–50 Victoria Street
London SW1H 0TL

## A11/A13

**Mr. Amess:** To ask the Secretary of State for Transport how many *(a)* minor and *(b)* serious accidents occurred on the A102 between the A11 and the A13 in each of the last 10 years for which figures are available. [10401]

**Dr. Ladyman:** The information requested is in the table.

*Minor and serious accidents on the A102[1] between the A11 and the A13*

| | *Serious accidents* | *Slight accidents* |
|---|---|---|
| 1995 | 6 | 23 |
| 1996 | 3 | 16 |
| 1997 | 4 | 17 |
| 1998 | 4 | 15 |
| 1999 | 0 | 26 |
| 2000 | 6 | 24 |
| 2001 | 4 | 35 |
| 2002 | 3 | 21 |
| 2003 | 3 | 30 |
| 2004 | 1 | 18 |

[1] The section of the A102 between the A11 and A13 was renamed as the A12 in 2000.

## A21 Upgrade

**Gregory Barker:** To ask the Secretary of State for Transport what representations he has received regarding funding for the proposed A21 upgrade between Flimwell and Robertsbridge. [10619]

**Dr. Ladyman:** No representations have been received regarding funding for the proposed A21 upgrade between Flimwell and Robertsbridge.

**Gregory Barker:** To ask the Secretary of State for Transport what representations he has received opposing the proposed A21 upgrade; and if he will make a statement. [10622]

**Dr. Ladyman:** Following the 2002–03 public consultation for the sections of the A21 from Tonbridge to Pembury, Kippings Cross to Lamberhurst and Flimwell to Robertsbridge, 221 representations were received opposing the proposed improvements and 1,028 representations were received supporting the improvements. The improvements have been classified as having regional importance and will be progressed subject to regional priorities.

## A38

**Mr. Robathan:** To ask the Secretary of State for Transport pursuant to the answer of 28 June 2005, *Official Report*, column 1412W on the A38, how many households at *(a)* each location referred to and *(b)* the M1 in the Narborough/Enderby area are affected by noise; and at what decibel count. [10135]

**Dr. Ladyman:** The information requested is as follows:

| | *Number of properties/noise level dB* | | |
|---|---|---|---|
| *Road* | *68 to 72* | *72 to 75* | *Greater than 75* |
| A38 Shobnall Road | 520 | 294 | 71 |
| A38 Wyggeston Street | 88 | 55 | 6 |
| M6 Western Downs | 277 | 105 | 61 |
| A38 Branston and Ashmole—Branston B—Near A38 Junction | 15 | 9 | 2 |
| A38 Branston and Ashmole—Branston A —Lichfield Road | 0 | 0 | 19 |

For the Enderby/Narborough area:

| | *Number of properties/noise level dB* | | |
|---|---|---|---|
| *Locality/street name* | *68 to 72* | *72 to 75* | *Greater than 75* |
| *Enderby* | | | |
| Blaby Road | 1 | 1 | 0 |
| Queens Drive | 5 | 6 | 0 |
| Packhorse Drive | 25 | 1 | 0 |
| Cumberwell Drive | 0 | 2 | 22 |
| Leicester Road | 9 | 10 | 4 |
| Total | 40 | 20 | 26 |
| *Narborough* | | | |
| Roy Close | 12 | 7 | 14 |
| Leicester Road | 5 | 3 | 1 |
| Alexandra Street | 8 | 11 | 1 |
| Princess Street | 4 | 1 | 0 |
| Carlton Avenue | 1 | 0 | 0 |
| Total | 30 | 22 | 16 |

## A40

**Mr. Crabb:** To ask the Secretary of State for Transport how many fatal accidents occurred in each year between 1984 and 2004 on the A40 road between *(a)* Carmarthen and St. Clears and *(b)* St. Clears and Haverfordwest. [9034]

**Dr. Ladyman:** The information requested is shown in the table.

*Number of fatal accidents on the A40: 1984 to 2004*

| | *Section between Carmarthen and St. Clears* | *Section between St. Clears and Haverfordwest* |
|---|---|---|
| 1984 | 3 | 0 |
| 1985 | 0 | 0 |
| 1986 | 1 | 4 |
| 1987 | 2 | 2 |
| 1988 | 0 | 1 |
| 1989 | 1 | 0 |
| 1990 | 0 | 1 |
| 1991 | 2 | 1 |
| 1992 | 1 | 3 |
| 1993 | 2 | 1 |
| 1994 | 1 | 0 |
| 1995 | 2 | 0 |
| 1996 | 0 | 2 |
| 1997 | 1 | 1 |

*Number of fatal accidents on the A40: 1984 to 2004*

| | *Section between Carmarthen and St. Clears* | *Section between St. Clears and Haverfordwest* |
|---|---|---|
| 1998 | 1 | 3 |
| 1999 | 2 | 2 |
| 2000 | 0 | 0 |
| 2001 | 0 | 3 |
| 2002 | 0 | 1 |
| 2003 | 1 | 2 |
| 2004 | 0 | 0 |

## Advertising Hoardings

**Jim Dowd:** To ask the Secretary of State for Transport what assessment he has made of the implications for road safety of the unregulated use of advertising hoardings in the immediate proximity of motorways and other major trunk routes. [10438]

**Dr. Ladyman:** Although there is anecdotal evidence to suggest that advertising hoardings in the immediate proximity of motorways, and other major trunk routes, can have a detrimental effect on road safety, the results of studies carried out to date have been inconclusive.

## Blue Badges

**Mr. Amess:** To ask the Secretary of State for Transport (1) how many disabled person's Blue Badges were issued in each local authority in each of the last two years; [10388]

(2) how many people were refused a disabled person's Blue Badge in the last five years. [10390]

**Ms Buck:** I will place information on the numbers of badges issued by local authorities in England for the year up to 31 March 2003 and the year up to 31 March 2004 in the House Library.

The Department for Transport does not keep information on the numbers of badges that are refused. Local authorities are not legally required to provide this information to the Department.

**Mr. Amess:** To ask the Secretary of State for Transport what the current criteria are to receive a disabled person's Blue Badge. [10389]

**Ms Buck:** The information is as follows.

To qualify for a blue badge the applicant must:

receive the higher rate of the mobility component of the disability living allowance; or

receive a war pensioners' mobility supplement; or

use a motor vehicle supplied for disabled people by a Government Health Department; or

be registered blind; or

have a severe disability in both upper limbs, regularly drive a motor vehicle but cannot turn the steering wheel of a motor vehicle by hand even if that wheel is fitted with a turning knob; or

have a permanent and substantial disability which means they are unable to walk or have very considerable difficulty in walking.

## Civil Aviation (Missile Defence)

**Mr. Ian Austin:** To ask the Secretary of State for Transport if he will make a statement on the use of anti-missile technologies in the UK civil aviation industry. [8747]

**Ms Buck:** There are a number of technologies capable of defeating shoulder-fired missiles. The Government are keeping under consideration whether such systems could be realistically applied to civil aviation.

## Cyclists

**Mr. Amess:** To ask the Secretary of State for Transport what steps he is taking to raise awareness amongst cyclists of the need to stop at red traffic lights. [9688]

**Dr. Ladyman:** The Highway Code and road traffic law apply to cyclists as much as to anyone else. It is common knowledge among road users that there is a requirement to stop at red traffic lights. The Department has run frequent publicity campaigns educating cyclists to cycle safely and one third of children receive some form of cycle training, which teaches the rules of the road.

It is an offence under section 36 of the Road Traffic Act 1988 to fail to comply with a traffic sign and the maximum fine is £1,000. The police can also prosecute cyclists who ride carelessly or dangerously and these offences carry maximum fines of £1,000 and £2,500 respectively. Enforcement of the law is a matter for the police.

We disapprove strongly of the behaviour of those cyclists who ride through red lights. It is a danger to others, who might be vulnerable pedestrians such as the elderly or children, and it brings cycling into disrepute with other road users.

**Mr. Amess:** To ask the Secretary of State for Transport how many cyclists were *(a)* injured and *(b)* killed in road traffic accidents in *(i)* the Metropolitan Police area of London, *(ii)* Southend, *(iii)* Essex and *(iv)* England and Wales in 2004–05; and how many were killed in each of the preceding nine years. [10473]

**Dr. Ladyman:** The information requested is as follows.

*Number of cyclists killed and injured*

| *Year* | *Killed* | *Injured* | *Total* |
|---|---|---|---|
| *Metropolitan Police* | | | |
| 1995 | 18 | 4,672 | 4,690 |
| 1996 | 19 | 4,478 | 4,497 |
| 1997 | 12 | 4,543 | 4,555 |
| 1998 | 13 | 4,437 | 4,450 |
| 1999 | 12 | 4,253 | 4,265 |
| 2000 | 15 | 3,458 | 3,473 |
| 2001 | 21 | 3,225 | 3,246 |
| 2002 | 18 | 2,971 | 2,989 |
| 2003 | 18 | 2,970 | 2,988 |
| 2004 | 6 | 2,874 | 2,880 |

*Note:*
Excludes the City of London

*Number of cyclists killed and injured*

| *Year* | *Killed* | *Injured* | *Total* |
|---|---|---|---|
| *Southend* | | | |
| 1995 | 1 | 120 | 121 |
| 1996 | 0 | 114 | 114 |
| 1997 | 0 | 114 | 114 |
| 1998 | 0 | 95 | 95 |
| 1999 | 1 | 93 | 94 |
| 2000 | 0 | 101 | 101 |
| 2001 | 0 | 82 | 82 |
| 2002 | 1 | 71 | 72 |
| 2003 | 0 | 74 | 74 |
| 2004 | 0 | 60 | 60 |

*Number of cyclists killed and injured*

| *Year* | *Killed* | *Injured* | *Total* |
|---|---|---|---|
| *Thurrock* | | | |
| 1995 | 1 | 45 | 46 |
| 1996 | 1 | 49 | 50 |
| 1997 | 1 | 64 | 65 |
| 1998 | 1 | 51 | 52 |
| 1999 | 0 | 43 | 43 |
| 2000 | 0 | 48 | 48 |
| 2001 | 1 | 56 | 57 |
| 2002 | 1 | 35 | 36 |
| 2003 | 0 | 30 | 30 |
| 2004 | 1 | 31 | 32 |

*Number of cyclists killed and injured*

| *Year* | *Killed* | *Injured* | *Total* |
|---|---|---|---|
| *Essex County (excluding the Unitary Authorities of Southend and Thurrock)* | | | |
| 1995 | 2 | 520 | 522 |
| 1996 | 6 | 516 | 522 |
| 1997 | 2 | 525 | 527 |
| 1998 | 1 | 542 | 543 |
| 1999 | 1 | 473 | 474 |
| 2000 | 5 | 437 | 442 |
| 2001 | 5 | 394 | 399 |
| 2002 | 5 | 344 | 349 |
| 2003 | 4 | 348 | 352 |
| 2004 | 4 | 356 | 360 |

*Number of cyclists killed and injured*

| *Year* | *Killed* | *Injured* | *Total* |
|---|---|---|---|
| *England and Wales* | | | |
| 1995 | 202 | 23,421 | 23,623 |
| 1996 | 188 | 23,100 | 23,288 |
| 1997 | 174 | 23,191 | 23,365 |
| 1998 | 145 | 21,639 | 21,784 |
| 1999 | 164 | 21,657 | 21,821 |
| 2000 | 115 | 19,617 | 19,732 |
| 2001 | 128 | 18,070 | 18,198 |
| 2002 | 122 | 16,156 | 16,278 |
| 2003 | 100 | 16,133 | 16,233 |
| 2004 | 127 | 15,749 | 15,876 |

**Mr. Amess:** To ask the Secretary of State for Transport how many cyclists have been *(a)* injured and *(b)* killed in each of the last 10 years in road traffic accidents caused by passing a red traffic light. [10474]

**Dr. Ladyman:** The information requested is not available.

## Driver Vision

**Mrs. Gillan:** To ask the Secretary of State for Transport if he will take steps to introduce a lesser sanction than removal of a driving licence for an individual who marginally fails the minimum standard of at least 120 degrees horizontal width in the visual field. [10360]

**Dr. Ladyman:** Where the prescribed standard for visual field is not met, there is already provision for the issue of a licence in exceptional cases supported by a favourable medical opinion.

## Four-wheel Drive Cars

**Mr. Davey:** To ask the Secretary of State for Transport what estimate he has made of the number of cars owned in *(a)* Kingston and Surbiton, *(b)* South West London, *(c)* London and *(d)* England; and what percentage of these cars he estimates are four-wheel drive. [9221]

**Dr. Ladyman:** The numbers of cars licensed at the end of December 2004 in the areas for which information is available are:

(a) Kingston and Surbiton—46,000

(b) London—2,523,000

(c) Great Britain—27,028,000

Local figures are not available but, of new cars registered in 2004, 6.99 per cent. were 4-wheel drive (figures derived from SMMT data).

## Learner Drivers

**John Smith:** To ask the Secretary of State for Transport how many refunds have been given to purchasers of the Complete Official Learner Driver packs; how many more he expects to issue; and what the total cost has been. [9416]

**Dr. Ladyman:** We have provided one refund, and sent replacement DVDs to three people free of charge.

We do not expect demand for refunds to be significant, given that we are offering a replacement disc. DSA's publishing activities are commercially self-funding. Providing refunds and replacement DVDs represents no direct cost to the public.

**John Smith:** To ask the Secretary of State for Transport how many Complete Official Learner Driver packs have been withdrawn from sale; and at what cost. [9417]

**Dr. Ladyman:** All sales of the Learning to Drive DVD to retail outlets were suspended following the discovery of the error. DSA's publishing activities are commercially self-funding. Replacing stock represents no direct cost to the public.

## Maximum Driving Times

**Mr. Drew:** To ask the Secretary of State for Transport what assessment he has made of the adherence of foreign drivers in the UK to EU regulations on maximum driving times. [9740]

**Dr. Ladyman:** The enforcement of drivers hours legislation is carried out by the Vehicle and Operator Services Agency (VOSA). The outcomes of VOSA's enforcement activities are included in an annual Effectiveness Report which is available on their internet site.

### Mini-Motos

**Jim Dowd:** To ask the Secretary of State for Transport what measures he intends to introduce to prevent the use of miniature motorcycles (mini-motos) on public highways. [10452]

**Dr. Ladyman:** New measures are not necessary. It is for the courts to provide an authoritative interpretation of the law, but the Department's view is that it is already illegal to use vehicles which are not compliant with road traffic law on public highways. Powered vehicles (whether internal combustion or electric) are motor vehicles within the meaning of the Road Traffic Act 1988 as amended. Any powered vehicle used on the public highway must comply with all aspects of road traffic law, including construction requirements, registration, road tax, insurance etc. The rider/driver should hold an appropriate licence and, where required, wear a suitable helmet.

Enforcement is a matter for individual Chief Officers of Police. Powers under the Police Reform Act 2002 allow a constable in uniform, after giving a warning, to stop and seize a motor vehicle if he/she has grounds for believing that it is being used in a careless and inconsiderate manner, or being driven illegally off-road, or being used (or is likely to be used) in an antisocial manner causing harassment, alarm or distress.

I understand that that the packaging on powered items such as miniature motorcycles generally includes a warning that they are not for highway use. However it may be that, once such packaging is discarded, this is overlooked or ignored. My Department is working with the Home Office to consider how advice reminding purchasers and others of this issue might usefully be disseminated.

### Motorway Advertising

**Mark Tami:** To ask the Secretary of State for Transport what discussions his Department has had with motoring and road safety organisations on the impact of advertisements situated next to motorways. [9226]

**Dr. Ladyman:** The Department has not had any recent specific discussions with motoring and road safety organisations on the impact of advertisements situated next to motorways.

**Mr. Ian Austin:** To ask the Secretary of State for Transport what discussions he has had with the police about advertising boards in fields adjacent to the motorway network. [8748]

**Dr. Ladyman:** My Department has not had any recent specific discussions with the police about advertising boards in fields adjacent to the motorway network.

### Pedestrian Crossings

**Daniel Kawczynski:** To ask the Secretary of State for Transport what criteria the Highways Agency takes into account before a decision is taken to install a pedestrian crossing. [8694]

**Dr. Ladyman:** The Highways Agency has adopted the advice provided by the Department for Transport in Local Transport Note 1/95: The Assessment of Pedestrian Crossings.

Factors taken into account include:

the widths of carriageways and footways

surroundings, including lighting, accesses, side roads, street furniture, and the visibility for drivers and pedestrians

vehicle and pedestrian flows and composition, including the proportion of children and elderly people, and the proportion of heavy goods and public service vehicles

the accident record.

There are three types of crossings:

1. A pedestrian refuge island is the minimum provision and can be used on roads with national speed limit.

2. Light signal controlled Pedestrian crossings are for heavily used roads and can be used wherever the speed limit is 50 mph or less.

3. Zebra Pedestrian crossings minimise delays to pedestrians but should only be used with moderate vehicle flows on roads with a 30 mph speed limit or less.

The choice of crossing will consider pedestrian delays and difficulty in crossing, vehicle delays, vehicle speeds, costs and local representation.

### Railways

**Gregory Barker:** To ask the Secretary of State for Transport whether he expects existing rail services at stations on the *(a)* Hastings to Charing Cross and *(b)* Bexhill to London lines to be maintained at their current level. [9308]

**Derek Twigg** *[holding answer 4 July 2005]:* There are no current plans for significant service changes between Hastings and Charing Cross until December 2009. Bidders for the Integrated Kent Franchise have then been asked to make bids based on the service pattern set out as follows. For Bexhill passengers travelling to London Victoria via the Brighton Main Line, there is a proposal in the Strategic Rail Authority's draft Brighton Main Line Route Utilisation Strategy that would increase capacity on the Main Line, but would require passengers from Bexhill to change trains at Eastbourne or Polegate.

*Table: Services arriving in London in the 3 hour morning peak*

| | *Current service* | | *Change to service in December 2009* | | |
|---|---|---|---|---|---|
| | *Charing Cross* | *Cannon Street* | *Charing Cross* | *Cannon Street* | *Net change (all trains)* |
| High Brooms | 9 | 3 | +3 | −1 | +2 |
| Tunbridge Wells | 9 | 3 | +3 | −1 | +2 |
| Frant | 4 | 3 | −1 | −3 | −2 |

*Table: Services arriving in London in the 3 hour morning peak*

| | *Current service* | | *Change to service in December 2009* | | |
|---|---|---|---|---|---|
| | *Charing Cross* | *Cannon Street* | *Charing Cross* | *Cannon Street* | *Net change (all trains)* |
| Wadhurst | 5 | 4 | +1 | –2 | –1 |
| Stonegate | 4 | 3 | –1 | –3 | –2 |
| Etchingham | 5 | 4 | –2 | –2 | None |
| Robertsbridge | 4 | 3 | –1 | –1 | None |
| Battle | 5 | 4 | +1 | –2 | –1 |
| Crowhurst | 4 | 3 | –1 | –3 | –4 |
| West St. Leonards | 4 | 3 | –1 | –3 | –4 |
| St. Leonards Warrior Sq. | 5 | 4 | +1 | –2 | –1 |
| Hastings | 5 | 4 | +1 | –2 | –1 |
| Ore | 2 | 0 | –2 | None | –2 |

**Anne Main:** To ask the Secretary of State for Transport (1) whether his Department will fund the fitting-out of the interchange box under St. Pancras Station; and if he will make a statement; [9663]

(2) if he will estimate the cost of fitting-out the interchange box under St. Pancras Station; and if he will make a statement on the current industry estimates; [9664]

(3) who owns the interchange box under St. Pancras Station; and if he will make a statement; [9665]

(4) how much public money has been invested so far in the *(a)* construction and *(b)* planning of the interchange box under St. Pancras Station; and if he will make a statement. [9666]

**Derek Twigg:** The box which has been built for the planned Thameslink Midland Road station is intended to be fitted out by Network Rail as part of the Thameslink 2000 project, for which statutory powers and funding arrangements have yet to be settled. The Government remains committed to completing the station, estimates the cost of the fit-out and associated track and signalling work to be around £60m, and is looking further at the options for completing the work in advance of Thameslink 2000.

The Secretary of State for Transport owns the freehold of the Thameslink box and has agreed to grant a long lease (999 years) to Network Rail.

The station box was financed by London and Continental Railways (LCR) as part of the Channel Tunnel Rail Link project (CTRL). It is not possible to separately identify that element of Government support for the CTRL project that has been expended on the Thameslink box.

### Renewable Transport Fuels

**Mr. Hancock:** To ask the Secretary of State for Transport if he will make it his policy to set annual targets towards achieving a 5.75 per cent. market share for renewable transport fuels by 2010. [9111]

**Dr. Ladyman:** The Government are currently conducting a feasibility study into the prospects for a Renewable Transport Fuel Obligation as a mechanism to promote renewable fuels into the long-term.

**Mr. Hancock:** To ask the Secretary of State for Transport what plans he has to introduce a renewable transport fuels obligation; and if he will make a statement. [9112]

**Dr. Ladyman:** The Government are currently considering whether an obligation might be an appropriate mechanism to support the introduction of renewable road transport fuels, but no decision has yet been taken.

### Road Improvements

**Gregory Barker:** To ask the Secretary of State for Transport if he will list the road improvement schemes managed by the Highways Agency in *(a)* the Kent, East and West Sussex area and *(b)* England in each year since 1991; what the cost of each scheme was; and which schemes are awaiting action. [8442]

**Dr. Ladyman:** A table showing all Highways Agency major schemes, either completed, currently on site or in preparation, that have been taken forward since 1994 has been placed in the Libraries of the House. The Highways Agency does not retain cost information for schemes completed before its creation in 1994.

### Road Tax

**Mark Tami:** To ask the Secretary of State for Transport what research his Department has carried out into alternatives to road tax. [9230]

**Dr. Ladyman:** Decisions on fiscal policies are a matter for the Chancellor of the Exchequer, who keeps all forms of taxation under review. Officials in this Department provide advice as necessary to HM Treasury officials on the potential impacts of a number of transport tax policies.

The Government in 2003 commissioned a feasibility study of road pricing, published in 2004.

In line with our manifesto commitment, we are currently examining the long-term potential for moving away from the current system of motoring taxation towards a national system of road pricing.

**Mark Tami:** To ask the Secretary of State for Transport what steps his Department is taking to reduce the level of non-payment of road tax. [9231]

**Dr. Ladyman:** A system of Continuous Registration (CR) was introduced on 1 January 2004. The registered keeper of a vehicle is now responsible for licensing it until DVLA has been notified that it is off the public road or has been sold, transferred, scrapped or exported. DVLA issues £80 penalties (£40 if paid within 28 days) to the registered keepers of those vehicles that have been unlicensed for two consecutive months.

DVLA seeks to clamp the vehicles of persistent evaders. The Agency has a permanent wheel clamping operation based in larger vehicle population location, supported by mobile teams operating in rural areas. DVLA aims to clamp 100,000 unlicensed vehicles this financial year. Those evaders who have ignored the CR process will be specifically targeted. In addition, the Agency has partnership agreements with 64 local authorities and five 5 police forces to use DVLA's devolved powers to clamp and impound unlicensed vehicles.

The Agency works closely with the police forces using Automated Number Plate Readers. The police can stop those vehicles that are unlicensed for enforcement action to take place.

DVLA has introduced a telephone hotline number that members of the public can call to report unlicensed vehicles.

**Mark Tami:** To ask the Secretary of State for Transport what estimate he has made of the number of vehicles using the roads which have not paid road tax. [9232]

**Dr. Ladyman:** Estimates of vehicle excise duty evasion are determined by national roadside surveys undertaken by DfT statisticians. The latest survey took place in June 2004 and estimated that the total number of unlicensed vehicles was 1.2 million. This compares with 1.9 million in the previous (2002) survey.

## Road Traffic Accidents

**Jo Swinson:** To ask the Secretary of State for Transport how many road traffic accidents have been caused by loads breaking free of cargo trucks in each month since January 2003; how many of these resulted in one or more fatalities; and if he will make a statement. [9487]

**Dr. Ladyman:** The Department's Personal Injury Road Accident Database records, for each reported accident, whether a dislodged vehicle load in the vicinity of the accident formed a carriageway hazard. The table shows the number of reported accidents for which such a hazard was recorded. It cannot be determined whether the load forming the hazard broke free from a cargo truck, or whether the load caused the accident.

*Number of Injury Road Traffic Accidents in the United Kingdom where a dislodged vehicle load in the carriageway was a hazard[1]: by month from January 2003*

| *Month* | *Fatal Accidents* | *All Accidents* |
|---|---|---|
| *2003* | | |
| January | 0 | 29 |
| February | 0 | 29 |
| March | 1 | 31 |
| April | 0 | 27 |
| May | 0 | 29 |
| June | 0 | 46 |
| July | 0 | 21 |
| August | 0 | 30 |
| September | 0 | 35 |
| October | 0 | 28 |
| November | 0 | 26 |
| December | 0 | 20 |
| Total | 1 | 351 |
| *2004* | | |
| January | 0 | 19 |
| February | 0 | 16 |
| March | 0 | 19 |
| April | 0 | 21 |
| May | 0 | 30 |
| June | 0 | 31 |
| July | 0 | 25 |
| August | 0 | 36 |
| September | 0 | 37 |
| October | 0 | 26 |
| November | 0 | 20 |
| December | 1 | 17 |
| Total | 1 | 297 |

*Source:*
Department for Transport and Police Service of Northern Ireland
*Note:*
[1] These figures do not include accidents where the vehicle load which formed a carriageway hazard was dislodged as a result of the accident in question or a previous accident.

## Road Transport Fuels

**Gregory Barker:** To ask the Secretary of State for Transport (1) what percentage by weight of road transport fuel was comprised of *(a)* liquefied petroleum gas and *(b)* compressed natural gas in the last 12 months; [8438]

(2) what percentage by weight of UK road transport fuel is expected to be comprised of biofuels by the end of *(a)* 2005 and *(b)* 2010; [8440]

(3) what incentives are in place for motorists to use *(a)* biodiesel and *(b)* bioethanol; [8508]

(4) what incentives are in place for motorists to use *(a)* liquefied petroleum gas and *(b)* compressed natural gas. [8601]

**Dr. Ladyman:** The Government incentivises the use of biofuels and road fuel gases primarily by means of fuel duty incentives, as set out in the Chancellor of the Exchequer's Alternative Fuels Framework, published in the November 2003 pre-Budget report. Current and historic duty rates for all road fuels are published on the website of HM Revenue and Customs. The current duty rates for biofuels and road fuel gases are as set out in table 1.

*Table 1: Fuel duty rates as at 29 June 2005*

| *Fuel* | *Fuel duty rate* |
|---|---|
| Ultra-low sulphur petrol | 47.1 pence per litre |
| Ultra low sulphur diesel | 47.1 pence per litre |
| Liquefied petroleum gas | [1]9 pence per kg |
| Compressed natural gas | [2]9 pence per kg |
| Biodiesel | 27.1 pence per litre |
| Bioethanol | 27.1 pence per litre |

[1] Equivalent to c.5.4 pence per litre.
[2] Equivalent to c.6.1 pence per litre.

The Government have also, until recently, provided grants to help meet the additional purchase or conversion costs of certain clean and alternatively fuelled vehicles. These grant programmes are currently under review pending state aid clearance from the European Commission.

Current and historic sales figures for all road transport fuels are also published on the website of HM Revenue and Customs. Provisional figures for biofuels and road fuel gases for the financial year 2004–05 are as set out in table 2.

*Table 2: Sales of road transport fuels in 2004–05*

| *Fuel* | *Sale by volume (million litres)* | *Sales by mass (kilotonnes)* | *Approximate percentage of total by mass* |
|---|---|---|---|
| Ultra Low Sulphur Petrol | 26,561 | 19,549 | 51.1 |
| Ultra Low Sulphur Diesel | 22,304 | 18,557 | 48.5 |
| Total road fuel gases (Liquefied petroleum gas and compressed natural gas)[1] | [2]225 | [3]c.1103 | 0.3 |
| Biodiesel | 21 | 18 | 0.05 |
| Bioethanol | 14 | 11 | 0.03 |

[1] Figures not available separately, but at least 95 per cent. of this is likely to be LPG.
[2] Million litres at standard storage pressures.
[3] Assuming a 95/5 per cent. split between LPG and CNG.

Sales of biofuels have risen sharply since the beginning of 2005 with the introduction on 1 January of the 20 pence per litre fuel duty incentive for bioethanol. By the end of 2005, sales of biofuels are likely to comprise at least 0.3 per cent. of total road transport fuel sales by volume, or 0.32 per cent. by mass. This is in line with the target that the UK has set under the EU's Biofuels Directive, and would represent at least a five-fold increase over sales in 2004.

## Roads

**Gregory Barker:** To ask the Secretary of State for Transport if he will list his Department's planned road building programmes, broken down by county. [8446]

**Dr. Ladyman:** The Department's planned road building programme consists of motorway and trunk road schemes in the Highways Agency Targeted Programme of Improvements and schemes that this Department has fully approved or provisionally accepted for funding, subject to completion of the necessary statutory procedures and the conditions set out in the relevant approval letters. A list of schemes that fall within these categories, by county or unitary authority, have been placed in the Libraries of the House.

**Gregory Barker:** To ask the Secretary of State for Transport which road schemes that have been proposed by local authorities in England in local transport plans will affect *(a)* sites of special scientific interest, *(b)* areas of outstanding natural beauty, *(c)* national parks and *(c)* internationally designated sites; and in each case whether a preferred route has been announced. [8448]

**Dr. Ladyman:** In view of the number of road schemes involved, the information could be assembled only at a disproportionate cost.

**Gregory Barker:** To ask the Secretary of State for Transport which completed road building programmes have affected designated *(a)* sites of special scientific interest, *(b)* areas of outstanding natural beauty and *(c)* national parks in each year since 1997. [8449]

**Dr. Ladyman:** Since 1997 we have completed over 118 Highways Agency and Local Highway Authority major road schemes outside London which cost over £5 million. The table identifies those schemes that impact on *(a)* sites of special scientific interest, *(b)* areas of outstanding natural beauty and *(c)* national parks.

| *Road scheme* | *Completion year* | *(a) Site of special scientific interest* | *(b) Area of outstanding naturalbeauty* | *(c) National park* |
|---|---|---|---|---|
| A13 Thames Avenue to Wennington | 1997–98 | Rainham Marshes SSSI | — | — |
| A564 Derby Southern BP and Derby Spur | 1997–98 | Hilton Gravel Pit SSSI | — | — |
| M25J8–10 Widening | 1997–98 | — | Surrey Hills AONB | — |
| North of Stratton-Nettleton Improvement | 1997–98 | — | Cotswold AONB | — |
| Latton Bypass | 1997–98 | — | Cotswold AONB | — |
| A34 Newbury Bypass | 1998–99 | Snelsmore Common SSSI | — | — |
| M66 Denton-Middleton Contract I | 2000–01 | Hollingwood arm of Ashton Canal SSSI | — | — |
| M66 Denton-Middleton Contract III | 2000–01 | Rochdale Canal SSSI | — | — |
| A27 Polegate Bypass | 2002–03 | — | Adjacent to Sussex Downs AONB | — |
| A2/M2 Cobham to Junction 4 Widening | 2003–04 | Shorne and Ashen Bank Woods and Cobham Woods SSSI | — | — |
| A41 Aston Clinton Bypass | 2003–04 | — | Chilterns AONB | — |
| M6 Toll | 2003–04 | Chasewater Heath SSSI and River Blythe SSSI | — | — |
| A120 Stansted-Braintree Improvement | 2004–05 | Landtake from corner of one ancient woodland SSSI (unnamed) | — | — |
| A34 Chieveley M4 J13 Improvement | 2004–05 | — | Within Chilterns/North Wessex Downs AONB | — |
| A10 Wadesmill Colliers End | 2004–05 | Near Plashes Wood SSSI | — | — |
| A21 Lamberhurst Bypass | 2004–05 | — | Within High Weald AONB | — |

| Road scheme | Completion year | (a) Site of special scientific interest | (b) Area of outstanding natural beauty | (c) National park |
|---|---|---|---|---|
| South Stockton Link Road | (Substantially complete) 2005 | — | — | — |
| A617 Mansfield Ashfield Regeneration Route | 2004 | —[1] | — | — |
| Wyre Piddle Bypass | 2002 | —[2] | — | — |
| Burntwood Bypass Staffordshire | 2005 | —[3] | — | — |
| Broome-Ellingham Bypass (Norfolk) | 2002 | — | — | —[4] |

[1] Mansfield Ashfield Regeneration Route affected Fowlevil Brook which runs into Rainworth Lake SSSI. However, measures were taken to ensure the water quality in the brook was not affected (and hence the SSSI was not affected either) so I have assumed this does not need to be included.
[2] Wyre Piddle Bypass in Worcestershire was completed in 2002. Although the bypass did not affect any SSSIs, AONB or national parks, it did affect Piddle Brook, a site of special wildlife interest.
[3] While the scheme avoided direct affect on the adjacent SSSI's, it skirted the boundaries of the Biddulph Pool and No Man's Heath SSSI and the Chasewater Heaths SSSI.
[4] The Broome-Ellingham Bypass affected the area of the Norfolk Broads, which has the status but not the designation of a national park, and this was taken into account when the scheme was considered and approved.

**Gregory Barker:** To ask the Secretary of State for Transport how many *(a)* accidents and *(b)* fatalities were recorded on the A253 between (i) Hastings and Bexhill and (ii) Bexhill and Pevensey with particular reference to King Offa Way, Bexhill, in each year since 1997. [8450]

**Dr. Ladyman:** The information requested is shown in the following table. Accidents and fatalities occurring on King Offa Way are not included as part of the figures for the section between Bexhill and Pevensey.

| | Section between Hastings and Bexhill | Section between Bexhill and Pevensey | King Offa Way |
|---|---|---|---|
| *(a) Accidents on the A259: 1997–2004* | | | |
| 1997 | 45 | 30 | 3 |
| 1998 | 42 | 32 | 8 |
| 1999 | 43 | 24 | 10 |
| 2000 | 23 | 22 | 7 |
| 2001 | 29 | 18 | 5 |
| 2002 | 32 | 33 | 8 |
| 2003 | 42 | 22 | 9 |
| 2004 | 32 | 28 | 10 |
| *(b) Fatalities on the A259: 1997–2004* | | | |
| 1997 | 1 | 1 | 0 |
| 1998 | 0 | 0 | 0 |
| 1999 | 1 | 0 | 0 |
| 2000 | 0 | 1 | 0 |
| 2001 | 0 | 1 | 0 |
| 2002 | 0 | 0 | 0 |
| 2003 | 1 | 0 | 1 |
| 2004 | 0 | 0 | 1 |

**Harry Cohen:** To ask the Secretary of State for Transport how many private contractors have traffic cones which they can use to block road lanes; how many cones are in the possession of *(a)* private contractors, *(b)* emergency services and *(c)* others; and what system his Department operates for the distribution and return of cones. [9385]

**Dr. Ladyman:** The Department for Transport does not collect information about the number of private contractors who have traffic cones that they use to block road lanes or how many cones are in the possession of private contractors, the emergency services and others.

On the trunk road and motorway network the distribution and returning of traffic cones is a matter that is left to individual contractors.

The Highways Agency's Traffic Officers have a number of cones that are stored in their vehicles for their use while patrolling the network and dealing with broken down vehicles and providing mobile and temporary road closures. The Traffic Officers collect these cones after use.

**Mr. Amess:** To ask the Secretary of State for Transport how much he has allocated to the *(a)* improvement and *(b)* maintenance of the (i) A127 and (ii) A13 in the Southend area in each of the next three financial years. [9689]

**Dr. Ladyman:** Funding for the maintenance and minor improvement of A127 and A13 is included within the block allocation made to Southend-on-Sea borough council under Local Transport Plan procedures. The firm allocation for FY 2005–06 is £1.622 million and the provisional allocation for FY 2006–07 is £1.707 million. Improvements to the A13 public transport corridor are included in an LTP major scheme and the council's application for further funding is currently under consideration by my Department.

**Mr. Amess:** To ask the Secretary of State for Transport how many speed cameras are situated on *(a)* the A127 between the M25 and Southend and *(b)* the A13 between the M25 and Southend; and what plans there are to install new speed cameras in the next two years. [9915]

**Dr. Ladyman:** The information requested is not held centrally by the Department. The location and number of all safety camera sites within the national safety camera programme are available on the Department's website at www.dft.gov.uk. Further site specific information will be available from the Essex Safety Camera Partnership who can be contacted via their website at www.essexsafetycameras.co.uk.

**Mr. Amess:** To ask the Secretary of State for Transport how many *(a)* minor and *(b)* serious road accidents occurred on the A127 between the M25 and Southend in each of the last five years for which figures are available. [9916]

**Dr. Ladyman:** The information requested is in the table.

*Minor and serious accidents on the A127 between the M25 and Southend*

| | *Serious accidents* | *Slight accidents* |
|---|---|---|
| 2000 | 35 | 204 |
| 2001 | 38 | 209 |
| 2002 | 22 | 182 |
| 2003 | 32 | 185 |
| 2004 | 28 | 172 |

### Safety Cameras

**Lynne Featherstone:** To ask the Secretary of State for Transport how many speed cameras there are in England and Wales, broken down by borough; how much money has been raised in fines, broken down by borough, since the installation of each camera; and if he will make a statement. [8687]

**Dr. Ladyman:** For information on the number of fixed and mobile speed camera sites broken down by partnership, I refer to my answer of 9 June 2005, *Official Report*, columns 617–19W.

The Department's information on fines following offences detected by safety cameras relates to the totals for safety camera partnerships, and not to individual camera sites or boroughs. Information on the total fine receipts and number of fines for each partnership for the last audited year 2003–04 is available on the Department's website of responses to Freedom of Information requests.

**Mr. Amess:** To ask the Secretary of State for Transport how many speed cameras are situated on each side of the road on the A102 between the A11 and the A13. [10472]

**Dr. Ladyman:** I refer the hon. Member to the answer given today (UIN 9915).

### Traffic Accidents

**Mr. Burstow:** To ask the Secretary of State for Transport pursuant to the answer of 16 June 2005, *Official Report*, column 537W, on traffic accidents (London), if he will set out the equivalent figures for the London borough of Sutton in 1985. [8421]

**Dr. Ladyman:** There were 12 fatal accidents and 800 injury accidents in the London borough of Sutton in 1985.

### Traffic Calming

**Mark Tami:** To ask the Secretary of State for Transport what research his Department has evaluated on the effects of traffic calming measures on *(a)* reducing speed and *(b)* preventing accidents. [9224]

**Dr. Ladyman:** The Department has commissioned an extensive programme of road safety research covering a wide range of topics, including the development and evaluation of a variety of traffic calming measures designed to reduce vehicle speeds and road accidents. These evaluations have helped to develop guidance and best practice which is set out in Traffic Advisory Leaflets and other publications.

The Department's *Traffic Calming Bibliography*, Traffic Advisory Leaflet 2/05 published in January this year, lists the main items of published advice and research into the design, use and effectiveness of traffic calming measures. Copies of this leaflet have been placed in the House Library.

A Local Transport Note on Traffic Calming is being drafted. This will summarise existing information on the design and effectiveness of traffic calming measures. The Department hopes to publish this Local Transport Note later this year.

### Traffic Management Act

**Mr. Don Foster:** To ask the Secretary of State for Transport when he intends to lay regulations under section 6 (Civil Enforcement of Traffic Contraventions) of the Traffic Management Act 2004; and if he will make a statement. [10014]

**Ms Buck:** I refer the hon. Member to my answer of 9 June 2005, *Official Report*, column 620W.

### Traffic Statistics

**Mr. Geoffrey Robinson:** To ask the Secretary of State for Transport what assessment his Department has made of the effect on *(a)* carbon dioxide and *(b)* other exhaust pollutants of the 25 foot turning circle of London taxis. [8290]

**Dr. Ladyman:** None. Transport for London is the Licensing Authority for taxis in London. They are undertaking a review of the requirements for London licensed taxis, including the turning circle.

**Mr. Hollobone:** To ask the Secretary of State for Transport for what reasons plans to upgrade the A14 around Kettering have been put back from 2012 to 2016 to 2017 to 2021. [8383]

**Dr. Ladyman:** The Highways Agency is currently developing a scheme to improve the A14 around Kettering. The Regional Spatial Strategy for the East Midlands, published in March 2005 gives the implementation date for this scheme as between 2017 and 2021. The implementation date is the time at which the road is open to traffic and the start of construction will be two-three years prior to this. This is in line with the Secretary of State's announcement on the multi-modal study in July 2003 although the precise timing of the scheme will be subject to availability of funding and satisfactory completion of statutory procedures.

### Transport Infrastructure

**Lynne Featherstone:** To ask the Secretary of State for Transport if he will make a statement on transport infrastructure needs in *(a)* London, *(b)* Kent and *(c)* Surrey. [8926]

**Ms Buck:** Transport in London is primarily the responsibility of the Mayor and Transport for London (TfL). In October 2004, TfL published a five year,

£10 billion investment programme designed to delivery infrastructure improvements through to 2010.

For Kent and Surrey, the county councils and the unitary authority for the Medway area assessed local transport infrastructure needs in the Local Transport Plans (LTPs) that they produced in 2000. Over the past five years, the Department has allocated £150 million for expenditure in Kent and £124 million for Surrey to support delivery of local schemes. These figures cover local authority capital expenditure on major projects (costing over £5 million) and on programmes of smaller schemes, but they exclude expenditure on rail schemes and on Highways Agency schemes on its motorway and trunk road network.

Local transport authorities outside London are due to submit new provisional LTPs, covering the 2006–2011 period, to the department by the end of July 2005, with final versions following by the end of March 2006.

### Vehicle Registration

**Mark Tami:** To ask the Secretary of State for Transport what estimate he has made of the number of vehicles on the roads which are not registered to their owners. [9216]

**Dr. Ladyman:** The Jill Dando Institute of Crime Science estimated that, in 2004, there were some 0.5m vehicles in use that, while taxed, were not registered to their current keepers. DVLA's own database of vehicles for which there is no current keeper contains some 2.9m records, both taxed and untaxed. Whilst the majority of these vehicles will no longer be on the road (but DVLA has not been notified that they have been scrapped), DVLA makes the database available to police forces for use in conjunction with their Automatic Number Plate Reader system.

**Mrs. Spelman:** To ask the Secretary of State for Transport how many vehicles were reported to the Driver Vehicle Licensing Agency via V28 forms in each year since 1996–97. [9546]

**Dr. Ladyman:** The form V28 is used by local authorities and other enforcement agencies to notify DVLA of abandoned vehicles. The numbers of vehicles reported in this way were as follows:

*Notifications of abandoned vehicles*

| *Year* | *Abandoned vehicles* |
|---|---|
| 1996–97 | 11,533 |
| 1997–98 | 14,267 |
| 1998–99 | 19,529 |
| 1999–00 | 42,589 |
| 2000–01 | 75,291 |
| 2001–02 | 130,854 |
| 2002–03 | 161,304 |
| 2003–04 | 128,043 |
| 2004–05 | 121,173 |

**Mr. Gregory Campbell:** To ask the Secretary of State for Transport how many *(a)* applications and *(b)* renewals were processed by the Driver and Vehicle Licensing Agency in Swansea in each of the last five years. [9733]

**Dr. Ladyman:** The number of Driver Licence applications received by DVLA are:

| | *First applications* | *Renewals* |
|---|---|---|
| 2000–01 | 727,117 | 1,017,113 |
| 2001–02 | 840,663 | 1,045,751 |
| 2002–03 | 923,422 | 1,121,416 |
| 2003–04 | 971,316 | 1,161,611 |
| 2004–05 | 978,462 | 1,205,102 |

**Mr. Gregory Campbell:** To ask the Secretary of State for Transport what the average time taken to process *(a)* applications and *(b)* renewals at the Driver and Vehicle Licensing Agency in Swansea was in the last year for which figures are available. [9734]

**Dr. Ladyman:** In 2004–05, 98.4 per cent. of the 978,462 first applications for a driving licence were processed by DVLA within eight working days (date of receipt at the Agency to date of delivery to the customer's address). This bettered the target set for processing 98 per cent. of first applications within eight working days.

In the same period 98 per cent. of driving licence renewals were processed by DVLA within 10 working days which met the target set for the Agency for this transaction.

**Mr. Gregory Campbell:** To ask the Secretary of State for Transport how many complaints were received regarding problems in the processing of applications and renewals at the Driver and Vehicle Licensing Agency in Swansea in each of the last five years. [9735]

**Dr. Ladyman:** The number of driver licence processing time and procedures complaints are:

| | *Number* |
|---|---|
| 2000–01 | 312 |
| 2001–02 | 213 |
| 2002–03 | 243 |
| 2003–04 | 326 |

## TREASURY

### Births

**Mr. Amess:** To ask the Chancellor of the Exchequer how many babies were born in *(a)* England and Wales and *(b)* the Southend area, broken down by maternal age in each of the last five years for which figures are available; and how many were under (i) 2,500g and (ii) 3,000g in each case. [9944]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. David Amess, dated 7 July 2005:*

The National Statistician has been asked to reply to your recent question asking, how many babies were born in *(a)* England and Wales and *(b)* the Southend area, broken down by maternal age: and how many were

under (i) 2,500g and (ii) 3,000g in each case, in each of the last five years for which figures are available. I am replying in his absence. (9944)

Figures covering live births to women resident in England and Wales, for the years 2000 to 2004, are given in the attached table.

*Total number of live born babies by maternal age and selected birth weight to women resident in Southend and in England and Wales, 2000–04*

| | England and Wales | | | Southend | | |
|---|---|---|---|---|---|---|
| | Total number | Under 2,500g | Under 3,000g | Total number | Under 2,500g | Under 3,000g |
| *2000* | | | | | | |
| Under 20 | 45,833 | 4,251 | 13,346 | 172 | 20 | 49 |
| 20–24 | 107,705 | 8,973 | 30,010 | 334 | 21 | 84 |
| 25–29 | 170,607 | 12,203 | 40,509 | 515 | 42 | 125 |

[1] Provisional

### Carbon Capture and Abatement Technologies

**Mr. Salmond:** To ask the Chancellor of the Exchequer if he will provide additional tax and financial incentives to *(a)* promote the development of carbon capture and abatement technologies and *(b)* support the development and construction of carbon capture and abatement plants. [10301]

**John Healey:** As the Chancellor announced in the Budget, the Government are examining how it might support the development of carbon capture and storage within the Climate Change Programme Review, including the potential for new economic incentives. Carbon capture and storage is also eligible for funding through the £25 million Carbon Abatement Technology strategy launched by the Minister for Energy on 14 June.

### Cost Recovery

**Bob Spink:** To ask the Chancellor of the Exchequer pursuant to the answer of 28 June 2005, *Official Report*, column 1424W, on cost recovery, what advice his Department has given to the NHS on reaching agreement with hospices on levels of service and prices reflecting the full cost of services provided in relation to *(a)* adults and *(b)* children. [10403]

**Mr. Ivan Lewis:** Treasury has worked with the Department of Health to embed in the NHS principles set out in the 2002 Treasury "Cross cutting review of the role of the voluntary and community sector in service delivery". These apply equally when government funds any service delivered by the voluntary sector, including adults' and children's hospices: *(a)* working towards agreed levels of service with providers; *(b)* ensuring that the price for the agreed level of service reflects the full cost of the service to be provided, including the legitimate portion of overhead costs; and *(c)* achieving this by coming together in partnership with the sector in a compact-compliant manner. More detailed guidance on implementing the principle of full cost recovery will be published in a revised version of "Guidance to Funders" by the end of the year.

## EC Officials

**Mike Penning:** To ask the Chancellor of the Exchequer what the average pension is of each grade of retired European Communities official; and if he will make a statement. [10083]

**Mr. Ivan Lewis:** This information is not available.

## Government Debt

**Chris Huhne:** To ask the Chancellor of the Exchequer if he will estimate the effects on debt servicing costs if the Government refinanced its debt of 10-year maturity or longer at the same 10-year interest rates paid by *(a)* Greece, *(b)* Italy and *(c)* Spain. [9895]

**Mr. Ivan Lewis:** The Government issues gilts at a range of maturities in order to fulfil its commitment to long-term minimisation of debt servicing costs while taking account of risk. The Government issues gilts in economic conditions that differ from those faced by the Eurozone countries when issuing in euros. Therefore, it would not be meaningful to base the costs of financing the Government's borrowing needs on Eurozone interest rates. In particular, the UK economy is growing more rapidly than the Eurozone and is, therefore, at a different point in the interest rate cycle. It would also be misleading to compare debt-servicing costs based on financing borrowing through 10-year bonds only because this would not take account of the range of maturities and yields at which governments issue bonds.

**Chris Huhne:** To ask the Chancellor of the Exchequer what factors underlie the level of long-term interest rates (or bond yields) paid by the Government on their debt with a maturity of 10 years or more; and what assessment he has made of the level of such rates in comparable countries. [10449]

**Mr. Ivan Lewis:** The main factors underlying the level of gilt yields are: (i) the level of short-term interest rates; (ii) investor demand for gilts of different maturities; and (iii) market expectations about macroeconomic factors such as future inflation and interest rates. The Government issue gilts (denominated in sterling) in economic conditions that differ from those of other sovereign issuers (for example the United States that issues in dollars or Eurozone countries that issue in euros). In particular, the UK economy is growing at a different rate from the Eurozone and US economies and is, therefore, at a different point in the interest rate cycle. It would not be meaningful to assess the costs of financing the Government's borrowing needs by looking at the level of interest rates in other countries.

## Hypothermia

**Mr. Amess:** To ask the Chancellor of the Exchequer how many deaths linked with hypothermia there were in *(a)* the United Kingdom, *(b)* England, *(c)* Scotland, *(d)* Wales, *(e)* Essex and *(f)* the Southend area of those aged (i) 60 to 64 years, (ii) 65 to 79 years, (iii) over 80 years and (iv) all ages in each of the last five years. [9910]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Mr. David Amess, dated 7 July 2005:*

The National Statistician has been asked to reply to your recent question asking how many deaths linked with hypothermia there were in *(a)* the United Kingdom, *(b)* England, *(c)* Scotland, *(d)* Wales, *(e)* Essex, and *(f)* the Southend area of those aged (i) 60 to 64 years, (ii) 65 to 79 years, (iii) over 80 years, and (iv) all ages in each of the last five years. I am replying in his absence. (9910)

Available information relates to the number of deaths where hypothermia was mentioned on the death certificate. The latest year for which these figures are available is 2004. Figures for the areas requested are given in the attached table, for each of the years 2000 to 2004.

*Deaths with a mention of hypothermia[1] on the death certificate, for the United Kingdom by area,[2] 2000 to 2004[3]*

| | 2000 | 2001 | 2002 | 2003 | 2004 |
|---|---|---|---|---|---|
| *(a) United Kingdom* | | | | | |
| (i) 60–64 | 14 | 16 | 15 | 10 | 12 |
| (ii) 65–79 | 105 | 91 | 51 | 43 | 58 |
| (iii) 80 and over | 183 | 155 | 121 | 101 | 108 |
| (iv) All ages | 374 | 344 | 255 | 217 | 222 |
| *(b) England* | | | | | |
| (i) 60–64 | 7 | 12 | 12 | 8 | 8 |
| (ii) 65–79 | 82 | 70 | 40 | 32 | 44 |
| (iii) 80 and over | 154 | 123 | 98 | 86 | 85 |
| (iv) All ages | 300 | 250 | 195 | 180 | 167 |
| *(c) Scotland* | | | | | |
| (i) 60–64 | 7 | 3 | 1 | 2 | 2 |
| (ii) 65–79 | 15 | 12 | 5 | 6 | 6 |
| (iii) 80 and over | 20 | 18 | 15 | 9 | 13 |
| (iv) All ages | 49 | 60 | 32 | 22 | 30 |
| *(d) Wales* | | | | | |
| (i) 60–64 | 0 | 1 | 1 | 0 | 2 |
| (ii) 65–79 | 5 | 6 | 3 | 2 | 4 |
| (iii) 80 and over | 4 | 6 | 5 | 4 | 7 |
| (iv) All ages | 13 | 18 | 14 | 7 | 14 |

*Deaths with a mention of hypothermia[1] on the death certificate, for the United Kingdom by area,[2] 2000 to 2004[3]*

| | 2000 | 2001 | 2002 | 2003 | 2004 |
|---|---|---|---|---|---|
| *(e) Essex* | | | | | |
| (i) 60–64 | 0 | 0 | 0 | 0 | 1 |
| (ii) 65–79 | 3 | 4 | 0 | 1 | 0 |
| (iii) 80 and over | 1 | 4 | 4 | 1 | 1 |
| (iv) All ages | 7 | 10 | 6 | 2 | 2 |
| *(f) Southend* | | | | | |
| (i) 60–64 | 0 | 0 | 0 | 0 | 0 |
| (ii) 65–79 | 0 | 0 | 1 | 0 | 0 |
| (iii) 80 and over | 1 | 0 | 0 | 0 | 2 |
| (iv) All ages | 2 | 0 | 1 | 0 | 2 |

[1] Deaths with a mention of hypothermia defined using the International Classification of Diseases, Ninth Revision (ICD-9) code N991.6 for the year 2000 for England and Wales and Northern Ireland, and the International Classification of Diseases, Tenth Revision (ICD-10) code T68 for Scotland from 2000 to 2004, and for England and Wales and Northern Ireland from 2001 to 2004.
[2] Deaths of usual residents for these areas.
[3] Figures are for deaths registered in each calendar year and are provisional for Northern Ireland.

### Poverty Reduction

**Mr. Amess:** To ask the Chancellor of the Exchequer what steps he is taking to reduce poverty in persons aged over 65 years; and if he will make a statement. [10539]

**Mr. Ivan Lewis:** Poverty and social exclusion are complex and multi-dimensional issues, affecting many aspects of people's lives—including their living standards, health, housing, the quality of their environment and not just low income. The Department for Work and Pensions "Oppor unity for all" report sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of measures.

However, 2003–04 data show nearly 2 million pensioners have been lifted out of absolute low income since 1997. Compared with the 1997 system, in 2005–06, as a result of the Government's measures including the pension credit, pensioner households will be on average £29 a week better off while the poorest third of pensioner households will be on average £39 a week better off.

Alongside a 7 per cent. real increase in the basic state pension, winter fuel payments and free television licences, pension credit has been key to this increase in income. Pension credit which now pays over £6 billion a year to our poorest pensioners, guaranteeing a minimum income of £109.45 a week for single pensioners and £167.05 couples (over age 60). 2.7 million pensioner households (3.3 million individuals) were receiving pension credit at end March 2005. The Government are committed to increasing the guarantee credit element of pension credit by earnings next year and in the next spending round 2006–08.

### Public Borrowing

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how he calculates the start and end points of the economic cycle; when, for the purposes of calculating the golden rule, the current economic cycle *(a)* started and *(b)* is expected to finish; and when his Department estimates that the next economic cycle will start. [9857]

**Mr. Ivan Lewis:** The Treasury's transparent and consistent methodology for dating the cycle uses a wide range of survey and other information and is explained in "Trend Growth: Recent Developments and Prospects" published alongside Budget 2002 and "Fiscal Policy: Public Finances and the Cycle" published alongside Budget 1999. The most recent "Financial Statement and Budget Report 2005" (HC 372) gave an assessment of when the current cycle is judged to have started and is expected to end.

### Science Investment

**Dr. Iddon:** To ask the Chancellor of the Exchequer whether the projected figures for increasing public investment in scientific research set out in the 2004 Spending Review are contingent on increases in investment by the private sector; and if he will make a statement. [9838]

**John Healey:** The 10-year Science and Innovation Investment framework set out the Government's intention to increase investment in the public science base at least in line with the trend growth rate of the economy through the 10-year period, increasing science spending as a proportion of GDP.

However, the Government's overall ambition is that overall levels of R and D in the economy should reach 2.5 per cent. of GDP.

The 10-year framework recognised that this scenario represents a considerable challenge for both Government and UK business, which can only be achieved if the Government's commitment to invest substantially in the science base is matched by the private sector and leading charitable funders, and in particular that it is clear that private sector R and D funding is on a new and growing trajectory.

### Tax Avoidance Schemes

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer if he will introduce legislation to prevent accountancy firms selling aggressive tax avoidance schemes from securing contracts awarded by his Department. [9408]

**Dawn Primarolo:** The Government will continue to award contracts in accordance with procurement procedures. I refer my hon. Friend to my answer of 15 June 2005, *Official Report*, column 391W.

## Tax Credits

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of the proportion of overpaid tax credits for 2003–04 which so far have been written off; and if he will make a statement. [8576]

**Dawn Primarolo:** I refer the hon. Member to the reply I gave him on 4 July 2005, *Official Report*, column 96W.

**Mrs. Iris Robinson:** To ask the Chancellor of the Exchequer, what *(a)* the total amount of tax credit payments claimed in Northern Ireland since their introduction, *(b)* the total amount of overpayments, *(c)* the value of overpayments which have been written off and *(d)* the value of overpayments retrieved is. [8801]

**Dawn Primarolo:** Estimates of the total amount of tax credits entitlement, broken down by country and region, appear in the HMRC publication "Child and Working Tax Credits Statistics. Finalised Awards 2003–04.Geographical analyses."

The numbers of tax credits awards where there was an underpayment or overpayment at 5 April 2004 following finalisation also appear in the publication "Child and Working Tax Credits Statistics. Finalised 2003–04. Supplement on payments in 2003–04. Geographical analyses."

The estimates in both these publications are based on samples and are subject to significant sampling uncertainty. These publications can be found on the HMRC website at http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm.

Information about the amounts written off is not available at a regional level.

**Mr. Laws:** To ask the Chancellor of the Exchequer what assessment he has made of the performance of the tax credits system against targets set for it over the period March 2003 to June 2005; and if he will make a statement. [8846]

**Dawn Primarolo:** Details of the Inland Revenue's performance against their tax credits targets for 2003–04 were published in their annual report and accounts in October 2004, and can be found on the HMRC website at http://www.hmrc.gov.uk/about/reports.htm.

The spring departmental report 2005, which can be found at the same address, gives progress against the targets in 2004–05. The Department will publish final results for 2004–05 in its annual report, which will be available on its website at www.hmrc.gov.uk.

The results for April and May 2005 will be covered in the 2005–06 annual report when that is published.

**Mr. Laws:** To ask the Chancellor of the Exchequer, if he will list the management information collected on a regular basis and reported to Ministers on the tax credit system. [8859]

**Dawn Primarolo:** I hold regular meetings with senior officials responsible for the delivery of tax credits at which I ask for various types of information.

Section 40 of the Tax Credit Act requires the Board of Inland Revenue, now HM Revenue and Customs, to make an annual Report to the Treasury about tax credits. Section 40(2) requires the Treasury to publish the annual Report and lay a copy before both Houses.

**Mr. Redwood:** To ask the Chancellor of the Exchequer (1) how many people have been notified of overpayments of tax credits since 5 May; [8879]

(2) how many people received overpayments of tax credits before 5th May. [8883]

**Dawn Primarolo** *[holding answer 4 July 2005]:* Almost all families whose 2003–04 awards were overpaid at finalisation had been notified of this by 5 May 2005.

Overpayments are not identified until awards are finalised after the end of the financial year. For 2004–05 awards, this process is currently under way. Therefore estimates of numbers of overpayments or underpayments for 2004–05 awards at 5 April 2005 will not be available until after family circumstances and incomes for 2004–05 have been finalised. The most recent estimates available for the net amount paid in tax credits and the net amount of overpayments is for awards at 5 April 2004 based on final family circumstances and incomes for 2003–04. They appear in the HMRC publication "Child and Working Tax Credits Annual statistics. 2003–04 Payments." The estimates are based on samples and are subject to significant sampling uncertainty.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how many complaints about tax credits have been made to HM Revenue and Customs in each of the last three financial years. [9729]

**Dawn Primarolo:** For 2003–04 and 2004–05 (the first two years of the new tax credits), I refer the hon. Gentleman to the answer I gave my hon. Friend the Member for Walsall, North (Mr. Winnick) on 15 June 2005, *Official Report*, columns 394–95W.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how many people are employed to work for the tax credit helpline, broken down by where staff are based in the UK. [9730]

**Dawn Primarolo:** The following table shows the staff numbers in full time equivalents (FTE) employed to work on the tax credit helpline by UK location at the end of May 2005.

| *UK location* | *Staff numbers (FTE)* |
|---|---|
| *May 2005* | |
| Belfast | 100 |
| Peterlee | 600 |
| Livingston | 300 |
| Merry Hill | 350 |
| Dundee | 600 |
| Bathgate | 650 |
| Newcastle | 600 |
| Total | 3,200 |

**Mr. Jim Cunningham:** To ask the Chancellor of the Exchequer if he will make a statement on the progress made in recovery of overpaid tax credits. [9739]

**Dawn Primarolo:** No estimates of recovered overpayments can be made until the departmental accounts for 2004–05 have been prepared and the trust statement published.

**Mr. Laws:** To ask the Chancellor of the Exchequer by what date he intends to introduce a statutory test for recovery of overpaid tax credits; whether the test will include an independent right of appeal; and if he will make a statement. [9842]

**Dawn Primarolo:** I refer the hon. Member to my statement of 26 May 2005, *Official Report*, column 802, on tax credits.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how many people are employed within Her Majesty's Revenue and Customs to handle complaints relating to tax credits. [9844]

**Dawn Primarolo:** At 28 May 2005 HM Revenue and Customs (HMRC) had nearly 400 full-time equivalent staff working in the Tax Credit Office handling tax credit complaints. These staff also deal with compensation in accordance with complaints and redress procedures explained in the Department's Code of Practice 1: "Putting things right".

**Mr. Laws:** To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* number and *(b)* total value of excess tax credit payments and overpayments where there was no disregard of income rises of up to £2,500 in (i) 2003–04 and (ii) 2004–05; and if he will make a statement. [9866]

**Dawn Primarolo:** I refer the hon. Member to my reply to him 4 July 2005, *Official Report*, column 98W. The £2,500 disregard applies to all tax credit awards.

### VAT (New Build Projects)

**Mr. Hollobone:** To ask the Chancellor of the Exchequer what representations he has received from charitable organisations which zero-rate the VAT on new build projects and have an unfunded future liability for the repayment of the VAT should the use of the new building be changed at a later date. [10222]

**Dawn Primarolo:** In the last year a small number of letters from charitable organisations and hon. Members have been received by Treasury Ministers about the VAT zero rate for the construction of certain charity buildings. Zero-rating applies to the construction and sale of new buildings intended to be used by charities solely for a qualifying purpose. This qualifying purpose must be either use for non-business purposes or use as a village hall or similar.

If the building is put to a non-qualifying use within 10 years of completion of the building, the VAT originally saved must be repaid to HM Revenue and Customs. However, the full amount of VAT saved will only be repayable if the use changes in the first year following completion. Otherwise, the VAT repayable is adjusted according to the number of complete years of qualifying use that have elapsed.

As a concession, minor non-qualifying use of a building can be disregarded.

Officials are examining the issues arising from this in certain circumstances.

## WORK AND PENSIONS

### Benefits (Dundee)

**Mr. McGovern:** To ask the Secretary of State for Work and Pensions how many people were in receipt of *(a)* incapacity benefit, *(b)* jobseeker's allowance, *(c)* income support and *(d)* income support for lone parents in (i) Dundee West and (ii) Dundee East (A) in the most recent year for which figures are available and (B) one year previously. [10339]

**Mr. Plaskitt:** The information is in the tables.

*Number of incapacity benefit (IB) and severe disability allowance (SDA) claimants in the parliamentary constituencies of Dundee East and Dundee West at February 2004 and February 2005*

| | *IB/SDA* | *IB* | *SDA* |
|---|---|---|---|
| *February 2004* | | | |
| Dundee East | 4,800 | 4,000 | 800 |
| Dundee West | 5,000 | 4,300 | 700 |
| *February 2005* | | | |
| Dundee East | 5,000 | 4,200 | 800 |
| Dundee West | 5,000 | 4,400 | 700 |

*Notes:*
1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. "Claimant" figures include all incapacity benefit and severe disability allowance (including incapacity benefit credits-only cases).

*Source:*
Information Directorate, 5 per cent. Samples.

*Jobseekers allowance (JSA) and income support (IS) claimants in the Parliamentary constituencies of Dundee East and Dundee West at February 2004 and February2005*

| *As at February each year* | *All JSA* | *All IS* | *IS lone parents* |
|---|---|---|---|
| *Dundee West* | | | |
| 2004 | 2,000 | 4,300 | 1,500 |
| 2005 | 2,100 | 4,200 | 1,500 |
| *Dundee East* | | | |
| 2005 | 2,300 | 4,400 | 1,500 |
| 2004 | 2,300 | 4,200 | 1,400 |

*Notes:*
1. Figures have been rounded to the nearest hundred.
2. IS claimants may also be in receipt of incapacity benefit/severe disablement allowance.
3. All IS category includes IS lone parents.
4. JSA figures include claimants receiving Nil benefit, (ie. those receiving national insurance credits only).
5. IS lone parents are defined as single claimants with dependants not receiving the disability or pensioner premium.

*Source:*
Information Directorate, 5 per cent. samples.

### Earnings-Related Pensions

**Mr. Laws:** To ask the Secretary of State for Work and Pensions pursuant to the answer of 14 June 2005, *Official Report*, column 260W, on earnings-related pensions, what estimate he has made of the cost *(a)* in real terms and *(b)* as a percentage of GDP of pension credit if income taken into account for pension credit is assumed to increase (i) in line with price growth and (ii) halfway between price and real earnings growth in (A) 2010, (B) 2020, (C) 2030, (D) 2040 and (E) 2050. [8858]

**Mr. Timms:** The requested information is in the following tables.

Estimated costs, £ billion, 2005–06 prices:

| | *Pension credit income increasing with prices* | *Pension credit income increasing midway between prices and earnings growth* |
|---|---|---|
| 2010 | 9.8 | 9.6 |
| 2020 | 16.7 | 15.0 |
| 2030 | 30.0 | 25.4 |
| 2040 | 49.1 | 40.1 |
| 2050 | 71.5 | 57.2 |

Estimated cost as a percentage of GDP:

*Percentage*

| | *Pension credit income increasing with prices* | *Pension credit income increasing midway between prices and earnings growth* |
|---|---|---|
| 2010 | 0.7 | 0.7 |
| 2020 | 0.9 | 0.8 |
| 2030 | 1.4 | 1.2 |
| 2040 | 1.9 | 1.5 |
| 2050 | 2.2 | 1.8 |

*Notes:*

1. Both tables provide figures on a UK basis.
2. Figures are consistent with published projections.

*Source:*

DWP projection models

### Financial Assistance Scheme

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will list the pension schemes expected to be eligible for the Financial Assistance Scheme, broken down by parliamentary constituency in which the company's headquarters is located. [8866]

**Mr. Timms:** We published a list of pension schemes that are potentially eligible for help from the Financial Assistance Scheme on 22 February. The list was compiled from information provided by trustees and administrators during our data collection exercise at the end of last year. We asked for scheme specific information including the name of the scheme, trustee contact details, and the date scheme wind up commenced.

Information on the location of each scheme's sponsoring employer was not collected as part of the exercise and could be obtained only at disproportionate cost.

### Incapacity Benefit

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions what the average time between an initial personal capability assessment for claimants of incapacity benefits and a follow-up assessment has been in each of the last five years, broken down by *(a)* sex, *(b)* age and *(c)* medical condition. [10227]

**Mrs. McGuire:** The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

*Letter from Lesley Strathie to Mr. Frank Field, dated 7 July 2005:*

The Secretary of State has asked me to reply to your question asking what the average time between an initial Personal Capability Assessment for claimants of incapacity benefits and a follow up assessment has been in each of the last five years, broken down by *(a)* sex, *(b)* age and *(c)* medical condition. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Information about the average time taken between initial personal capability assessments and follow up assessments is not recorded centrally.

Re-referral is based on the advice of a Medical Services doctor. The doctor's advice is based on the likely improvement in the person's condition over a 3 to 18 month period. Where the doctor considers the condition is unlikely to change significantly in the longer term, cases will be looked at again at a later date, normally within 3 to 5 years.

### Pension Credit

**Mr. Hood:** To ask the Secretary of State for Work and Pensions how many pensioners in the Lanark and Hamilton, East constituency are in receipt of the pension credit; how much they receive on average; and if he will make a statement. [10063]

**Mr. Timms:** The information is not currently available. Information on numbers of households and individuals in receipt of pension credit and average awards in each constituency at 31 March 2005 is contained in the most recent quarterly pension credit progress report, which was published on 20 June. A copy of the report is in the Library. The next progress report, with information as at the end of June, will include the new constituencies which came into being at the general election.

**Julie Morgan:** To ask the Secretary of State for Work and Pensions how many recipients there are of pension credit in Cardiff, North constituency; and what the average award is. [10312]

**Mr. Timms:** Information on numbers of households and individuals in receipt of pension credit and average awards in each constituency at 31 March 2005 is contained in the most recent quarterly pension credit progress report, which was published on 20 June. A copy of the report is in the Library.

### Pensions

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions what estimate has been made of the effect on projected expenditure for the basic state pay as you go pension if all those currently contracted out from the state scheme were to return for the next *(a)* 10, *(b)* 20, *(c)* 30, *(d)* 40 and *(e)* 50 years. [9947]

**Mr. Timms** *[holding answer 5 July 2005]:* While there would be an impact on future state pension expenditure if those currently contracted out were to contract back

in, it would be on the state second pension and not the basic state pension. The effect of such a move is shown in the table.

*Annual increase in state second pension expenditure that would arise if everyone contracted back into the state scheme*

| | *Annual increase to S2P (£ million)* |
|---|---|
| 2015–16 | 400 |
| 2025–26 | 2,700 |
| 2035–36 | 9,400 |
| 2045–46 | 15,700 |
| 2055–56 | 21,700 |

*Notes:*

1. The estimates show the effect on state second pension expenditure in the selected years if contracting-out of the state second pension were abolished from April 2006.
2. Estimates are for Great Britain only, not UK, and are consistent with the December 2004 update of the "Government Actuary's Quinquennial Review of the National Insurance Fund".
3. Figures are expressed in 2005–06 price terms and are rounded to the nearest £100 million.
4. Figures given are for specific years, rather than the range of years, and do not reflect the total increase for each year in between.

*Source:*

Government Actuary's Department.

### Social Security Office (Aberystwyth)

**Mark Williams:** To ask the Secretary of State for Work and Pensions (1) what assessment he has made of the likely effect of the proposed closure of the social security office in Aberystwyth upon delivery of his Department's services; and if he will make a statement; [10338]

(2) what timetable has been set for the proposed closure of the social security office in Aberystwyth. [10342]

**Margaret Hodge:** The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

*Letter from Lesley Strathie to Mr. Mark Williams, dated 7 July 2005:*

The Secretary of State has asked me to reply to your questions concerning the proposed closure of Aberystwyth Social Security Office. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

I know that David Anderson, the former Chief Executive of Jobcentre Plus, wrote to you on 11 May, about our proposed changes to service delivery in Aberystwyth. In his letter David set out in detail the background to these changes and the benefits that the new integrated Jobcentre Plus service would bring to our customers.

We have considered the effects on service delivery and expect that through the better use of IT and telephony we will be making our services more accessible than ever. The new integrated service will be delivered from the site of the current Jobcentre, and the enhanced Personal Adviser service for customers on Incapacity Benefit and Income Support, will enable us to increase the help we offer to some of our most disadvantaged customers.

In terms of timescales, we currently plan to introduce the new service in Aberystwyth by the end of this year. At this point, although the Social Security Office will close to the public, we will continue to process benefits at this site until the work is eventually transferred to our Benefit Processing Centre in Llanelli.

We have not set a date for the closure of the Social Security Office as detailed planning for the transfer of Benefit Processing work is still continuing. However, nationally, we aim to complete the migration of this work to our network of Processing Centres by March 2008 and as local timescales become known, I have asked Pam Sutton, the Jobcentre Plus District Manager for West Wales, to ensure that you are kept fully informed.

I hope this is helpful.

### Training and Enterprise Council Pension Schemes

**Mr. Laws:** To ask the Secretary of State for Work and Pensions (1) whether approaches have been made to the *(a)* Pensions Protection Fund and *(b)* Financial Assistance Scheme in respect of former Training and Enterprise Council pension schemes; [8749]

(2) whether applications have been made to the *(a)* Pensions Protection Fund and *(b)* Financial Assistance Scheme in respect of any former Training and Enterprise Council pension schemes. [9323]

**Mr. Timms:** No.

# Written Answers to Questions

*Monday 11 July 2005*

## SOLICITOR-GENERAL

### English Wine

**Mr. Dismore:** To ask the Solicitor-General if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9164]

**The Solicitor-General:** I have no current plans to host any dinners, receptions or parties specifically for the EU presidency. Generally, all procurement is undertaken in line with the EC's procurement rules and must represent value for money. Wherever possible British products are used.

### European Court of Justice

**Mr. Amess:** To ask the Solicitor-General if he will list each item of UK legislation which has been or is being subjected to legal challenge in the European Court of Justice *(a)* on the grounds of an alleged conflict with Article 30 of the Treaty of Rome, *(b)* on the grounds of an alleged conflict with another article of the treaty and *(c)* on other grounds, together with the date (i) on which each challenge was instituted and (ii) of the court decision. [10483]

**The Solicitor-General:** The information requested is extremely broad covering a period of over 30 years and could be provided only at disproportionate cost. Information about European Court of Justice cases is widely published, in particular on their website and in the European Court Reports.

### Fraud Convictions (Essex)

**Mr. Amess:** To ask the Solicitor-General how many people have been convicted of fraud in *(a)* Southend and *(b)* Essex in each year since 1997. [10578]

**The Solicitor-General:** The following table shows the number of offenders convicted at all courts of fraud offences from 1997 to 2003, in the south-east Essex petty sessional area (which covers Southend and some parts of Rayleigh, Benfleet and Canvey) and the Essex police force area. The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

| | *South-east Essex psa* | *Essex police force area* |
|---|---|---|
| 1997 | 78 | 355 |
| 1998 | 64 | 358 |
| 1999 | 79 | 338 |
| 2000 | 79 | 319 |
| 2001 | 60 | 316 |
| 2002 | 54 | 311 |
| 2003 | 56 | 314 |

### Laptop Computers

**Lynne Featherstone:** To ask the Solicitor-General how many laptop computers have been used by *(a)* Ministers, *(b)* special advisers and *(c)* officials in the Law Officers' Departments in each year since 1995; how many have been (i) lost and (ii) stolen in that period; what the cost was of the use of laptops in that period; and if he will make a statement. [4111]

**The Solicitor-General:** Details on the use of laptop computers by the Law Officers' Departments between 1995–96 and 2004–05 are given, where available, in the following table. Details have not always been held centrally and would incur disproportionate cost to obtain for the periods not available.

Laptop computers have facilitated greater flexibility of working for all staff and are particularly useful for prosecutors working out of office at police stations and courts.

*Law Officers' Department use of laptop computers*

| | *Attorney General's Office*[1] | | | *Treasury Solicitors Department* | |
|---|---|---|---|---|---|
| | *Ministers* | *Officials* | | *Officials* | |

| 2004–05 | 967 | 714,644 | 10 | | 337 | n/a |
| Lost and/or stolen[6] in period | 20 since 2002–03 | | 0 since 2003–04 | | 3 since 1999–2000 | |

[1] There are no special advisers
[2] Figures for the CPS include HM Crown Prosecution Service Inspectorate. The CPS does not own laptop computers; since 2002, it has had a Public Finance Initiative contract for IT equipment under which a monthly charge is made for laptops.
[3] RCPO was established in April 2005. Previously, as the Customs and Excise Prosecutions Office it owned the laptops identified in the table. It also had the use of some 17 laptops provided by HM Customs and Excise and the latter provision is included in the response for HM Revenue and Customs.
[4] Laptops not in use.
[5] RCPO and CEPO, its predecessor, not established
[6] Records do not differentiate between laptops which are lost or stolen, except where specified

### Serious Fraud Office

**Malcolm Bruce:** To ask the Solicitor-General pursuant to the answer of 16 June 2005, *Official Report*, column 600W, on the Serious Fraud Office, when he will place the guidance which governs implementation of the revised version of the Memorandum of Understanding in the Library. [9770]

**The Solicitor-General:** The answer of 16 June 2005 was partially in error. There is no current intention to issue separate guidance governing the implementation of the revised version of the Memorandum of Understanding (MOU). The MOU is currently in the process of being revised and this is being co-ordinated by the Home Office. The MOU will be placed in the House of Commons Library after all parties to the MOU have agreed the revised version. The MOU will also be available upon request from any of the involved parties, including the Serious Fraud Office.

### Police Officers (Speeding Prosecutions)

**Lynne Jones:** To ask the Solicitor-General how many *(a)* successful and *(b)* unsuccessful prosecutions of police officers for speeding there have been in each of the last three years. [10200]

**Hazel Blears:** I have been asked to reply.

The information is not collected centrally.

## CHURCH COMMISSIONERS

### Stipends

28. **Mr. Gordon Prentice:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners if the Church Commissioners will make it their policy to withhold the payment of stipends to clergymen and clergywomen who do not believe in God. [10651]

**Sir Stuart Bell:** The Commissioners have no power to withhold stipends paid by or through them on the grounds of a cleric's beliefs.

## ELECTORAL COMMISSION COMMITTEE

### Election Pilots

**Mr. Heald:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether the Electoral Commission will issue guidance to local authorities with regards to applying for *(a)* all-postal voting pilots and *(b)* other forms of election pilot in (i) forthcoming by-elections and (ii) the 2005 local elections. [9807]

**Peter Viggers:** The Commission informs me that there is no requirement for it to issue guidance for local authorities on applications for electoral pilot schemes and I understand it has no present plans to do so.

### Individual Registration

**Mr. Heald:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what research the Electoral Commission has conducted into the effect of individual registration on the electoral roll. [9809]

**Peter Viggers:** The Electoral Commission informs me that it has published several research reports and updates on the impact of individual registration on overall levels of registration in Northern Ireland, the only part of the United Kingdom where there is individual registration at present. All of the Commission's reports, including the 2002 report "The Electoral Fraud (Northern Ireland) Act 2002: An assessment of its first year in operation", are available on its website. The Commission is also currently undertaking research that will provide a better understanding of the extent and nature of under-registration across Great Britain.

### Welsh Assembly

**Mr. Heald:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission if the Electoral Commission will make a statement on the Government's plan to amend the electoral system for the Welsh Assembly to stop Party List candidates also running for constituency seats. [9808]

**Peter Viggers:** The Electoral Commission informs me that it is considering what response, if any, to make to the White Paper 'Better Governance for Wales', in which a proposal to this effect features.

## CULTURE, MEDIA AND SPORT

### Sports Bodies

12. **James Brokenshire:** To ask the Secretary of State for Culture, Media and Sport what steps the Government are taking to reduce the burden of administration on sports bodies for which she is responsible. [10634]

**Mr. Caborn:** In March this year, having consulted widely in the sports sector, my Department and the Cabinet Office published a joint report, entitled Making a Difference—Reducing Burdens in School and Community Sport, on reducing administrative burdens in school and community sport.

As sponsoring Minister for the report it is my belief that the successful implementation of its recommendations will enable staff and volunteers in sporting bodies to focus on what they do best—delivering successful and rewarding sporting opportunities.

### Drinks Pricing

13. **Greg Mulholland:** To ask the Secretary of State for Culture, Media and Sport what steps she has taken to raise awareness of the implications for responsible drinking of the Office of Fair Trading's ruling on minimum drinks pricing. [10635]

**James Purnell:** As part of the Alcohol Harm Reduction Strategy, Government are working with the alcohol industry to ensure that irresponsible drinks promotions can be addressed. I understand that the Office of Fair Trading (OFT) has not made any ruling on this matter. However, they have provided advice on the application of competition law to measures that may be taken in this area, to a number of local authorities and to the Local Authorities Co-ordinators of Regulatory Services (LACORS). LACORS has circulated this advice to the licensing specialists of local authorities as well as posting it on its website.

### Young People (Sports)

14. **Mr. Robathan:** To ask the Secretary of State for Culture, Media and Sport what her policy is on competitive sports for young people. [10636]

**Mr. Caborn:** In December 2004, the Government announced the creation of Competition Managers. These new posts will play a key role in delivering the Government's aim of a high quality school sport national competition framework by 2010 by co-ordinating the planning, management and implementation of competitive sport between schools. This will complement the principles of long-term athlete development by identifying talented young people with the potential to reach elite or even Olympic levels of performance. It will also increase and widen the opportunities for all children to take part in competitive sports at school. By September 2005, 20 managers will be appointed in England and Wales, a further 45 managers are due to be appointed by September 2006 and 90 managers by September 2007.

### Digital Television

15. **John Robertson:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on progress towards digital switchover. [10637]

**James Purnell:** Great progress has been made. 62 per cent. of households are now estimated to have digital television.

As we said in our Manifesto, we will achieve digital switchover between 2008 and 2012 ensuring universal access to high-quality, free-to-view and subscription digital TV. This will happen region by region, and we will make sure that the interests of elderly people and other vulnerable groups are protected.

**Mr. Moore:** To ask the Secretary of State for Culture, Media and Sport when she expects the switchover from analogue to digital television to take place in the Border Television region; and if she will make a statement. [9617]

**James Purnell:** As we said in our manifesto, we will achieve digital switchover between 2008 and 2012 ensuring universal access to high-quality, free-to-view and subscription digital TV. This will happen region by region, and we will make sure that the interests of elderly people and other vulnerable groups are protected.

The indicative regional order published by Ofcom in February suggests that Border will be the first region to switch. The Government will confirm the region-by-region timetable in due course.

**Mrs. James:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on digital television coverage in Swansea East. [9779]

**James Purnell:** The vast majority of households in Swansea can, with the appropriate equipment, receive digital television services via at least one of digital satellite, digital terrestrial or cable.

**Mr. Rob Wilson:** To ask the Secretary of State for Culture, Media and Sport (1) how many applications for Local Digital Service Programme Licences there have been in the past five years; and how many were *(a)* granted and *(b)* refused; [9978]

(2) how many applications for National Digital Service Programme Licences there were in the past five years; and how many were *(a)* granted and *(b)* refused. [9981]

**James Purnell:** The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator. Accordingly, my officials have asked the chief executive of Ofcom to respond directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

**Mr. Rob Wilson:** To ask the Secretary of State for Culture, Media and Sport what plans she has to change the number of *(a)* Local Digital Service Programme Licences, *(b)* National Digital Service Programme Licences and *(c)* National Radio Licences. [9980]

**James Purnell:** I have no plans as this is a matter for the Office of Communications (Ofcom). Ofcom's duties and responsibilities for licensing digital programme services and digital sound programme services are set out in the Broadcasting Act 1996 and the Communications Act 2003.

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of households affected by restrictive covenants that prevent external satellite dishes on properties; what proportion of these households are unable to obtain digital television via any other means; and if she will make a statement. [7971]

**James Purnell:** Restrictive covenants are private agreements that prevent an owner from carrying out certain actions on their own land. Some covenants are intended to benefit and bind the original parties only, whereas others are intended to benefit and bind successive owners of the land.

No information is held centrally about the number of homes which may have an operative restrictive covenant which may either explicitly or implicitly prevent the installation of an external satellite dish or aerial.

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport whether it is her policy to support the use of integrated reception systems to provide digital services in multiple dwelling units; and if she will make a statement. [7973]

**James Purnell:** Many residents living in multi-dwelling units are already able to access digital television services either through communal systems that are capable of transmitting digital signals or through the use of other antennae.

We recognise that all landlords who own or manage communal TV systems need to start taking steps to prepare for digital switchover. In association with the Chartered Institute of Housing, we are developing comprehensive new guidance for landlords who have properties with analogue communal systems which need to be upgraded. The guidance, which will be published shortly, will be aimed at both the private and social sector landlords.

However, it is for individual landlords consulting as appropriate with residents, to determine how to upgrade communal television systems for digital services.

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport if she will make it her policy to offer incentives to landlords to update communal reception arrangements to integrated reception system standards; and if she will make a statement. [7974]

**James Purnell:** We have no plans to offer financial incentives to landlords to update communal television systems for digital television services.

### National Lottery

16. **Mr. Evennett:** To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from charities in respect of the distribution of National Lottery grants. [10638]

**Mr. Caborn:** I receive representations from time to time about the distribution of Lottery grants, some of these are from charities. The National Lottery Bill will create a better framework for distributing Lottery money to charities and other voluntary and community organisations. My predecessor discussed this with representatives of the voluntary sector and I will be meeting them again soon to renew those discussions.

**Mark Tami:** To ask the Secretary of State for Culture, Media and Sport how much has been provided from National Lottery funds to support the development of *(a)* netball, *(b)* tennis, *(c)* football, *(d)* rugby union, *(e)* rugby league, *(f)* cricket and *(g)* motor sport in England in each of the last five years. [9228]

**Mr. Caborn:** Lottery funding to support the development of sport in England is distributed primarily through Sport England. The Big Lottery Fund also administers lottery grants to individual sports through the Awards for All programmes. Details of this funding over the last five years can be found in the following table:

£

| | *2000-01* | | *2001-02* | | *2002-03* | |
|---|---|---|---|---|---|---|
| | *Awards for All* | *Sport England* | *Awards for All* | *Sport England* | *Awards for All* | *Sport England* |
| Netball | 269,674 | 1,856,225 | 283,745 | 4,334,320 | 625,746 | 3,278,965 |
| Tennis (including real and lawn) | 410,320 | 4,484,174 | 384,488 | 11,898,237 | 816,571 | 10,703,470 |
| Football | 1,836,937 | 5,568,920 | 1,705,632 | 26,218,174 | 3,390,823 | 9,281,074 |
| Rugby Union | 355,904 | 2,360,269 | 525,488 | 2,566,082 | 763,260 | 5,393,585 |
| Rugby League | 370,728 | 1,981,519 | 216,828 | 4,193,472 | 398,774 | 683,171 |
| Cricket | 1,341,312 | 22,197,439 | 1,695,650 | 5,919,613 | 2,366,232 | 13,702,207 |
| Motor sport | 7,945 | 16,051 | 21,148 | — | 17,806 | — |

£

| | *2003-04* | | *2004-05* | |
|---|---|---|---|---|
| | *Awards for All* | *Sport England* | *Awards for All* | *Sport England* |
| Netball | 639,760 | 2,185,632 | 174,479 | 1,143,214 |
| Tennis (including real and lawn) | 586,657 | 3,478,419 | 261,675 | — |
| Football | 3,252,416 | 7,092,736 | 1,598,545 | 2,095,669 |
| Rugby Union | 558,827 | 3,607,813 | 153,500 | 150,000 |
| Rugby League | 389,282 | 5,695,815 | 147,124 | — |
| Cricket | 1,840,244 | 9,010,458 | 661,856 | 1,822,875 |
| Motor sport | 10,000 | — | — | — |

Further lottery grants from Sport England were made through World Class Funding and through Whole Sport Plans (2004–05):

£

| Sport | World Class Funding (overall) | Whole Sport Plans |
|---|---|---|
| Netball | 9,258,470 | 500,000 |
| Tennis | 500,000 | 500,000 |
| Football | 500,000 | 500,000 |
| Rugby Union | 13,512,908 | 1,000,000 |
| Rugby League | 5,437,347 | 410,000 |
| Cricket | 6,862,528 | 500,000 |
| Motor Sport | — | — |

And additionally, a large number of the multi-sport projects Sport England has funded have benefited these sports. Since 1 April 2000, Sport England has awarded £364,201,963 to multi-sport projects.

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what assessment her Department has made of the likely impact on *(a)* public health, *(b)* education and *(c)* the environment of abolishing the Big Lottery Fund and instead equally dividing the National Lottery Good Causes' funds between charities, arts, heritage and sport from 2009; and if she will make a statement. [10192]

**Mr. Caborn:** The three new good cause areas of health, education and the environment were only created in 1998. They stand alongside, not in place of, the four other good causes. I have no intention of abolishing either them or the Big Lottery Fund, or of making an assessment of the opportunities which would be missed if we were to abolish them.

### Licensing Act

17. **Peter Luff:** To ask the Secretary of State for Culture, Media and Sport what progress she has made with the implementation of the Licensing Act 2003. [10639]

**James Purnell:** As I announced to the House on June 8, the Licensing Act 2003 will be fully implemented on November 24. My Department has initiated an intensive and targeted publicity campaign, and is working closely with industry and local authority representatives to advise licensees of the need to convert their existing licences before the deadline of 6 August and the recent upturn in applications reflects the impact of this campaign.

19. **Mr. Graham Stuart:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of amateur sports clubs which might have to pay more to operate as licensed premises following the implementation of the Licensing Act 2003. [10641]

**James Purnell:** We do not have figures for the numbers of sports clubs in particular that hold full justices' on-licences or club registration certificates. However, at 30 June 2004 there were 19,913 registered clubs in England and Wales. This number also includes political, ex-services, working men's and other clubs as well as Miners' Welfare Institutes.

It should be noted that sports clubs do not just pay the fee of £16 now for a registration certificate allowing them to supply alcohol. Those that obtain permanent extensions for their bars must pay an additional £25 for their special hours certificate. To obtain such a certificate, the club must first obtain a "certificate of suitability" from its local authority. This is essentially the same as a public entertainment licence and costs vary between local authority areas from £50 to £500 annually. Those clubs without permanent extensions of hours but which open their bars later for special occasions like Christmas and other holiday dances and functions, weddings, anniversaries or during periods like World Cups abroad, must pay for each permission to extend their hours. These are "occasional permissions" and "special orders of exemption". Each costs the club £10 and many clubs will have as many as 12 per year. All of this and the bureaucracy involved is swept away by the 2003 Act. Under the new licensing regime, the fee of between £100-£635 will cover all the activities and hours involved, and the majority of sports clubs will pay no more than £100, and £70 annually thereafter.

The new fees are intended to do no more than recover the licensing authorities' (local authorities') costs of administration, inspection and enforcement.

**Mr. Redwood:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of public houses which may lose their license as a result of failing to meet the *(a)* deadlines and *(b)* requirements of the Licensing Act 2003. [8789]

**James Purnell:** The information is as follows:

*(a)* No estimate has been made of the number of public houses which may lose their licenses as a result of failing to meet the deadlines set out in the legislation.

My Department estimates that *(b)* some 50 public houses and other licensed premises may lose their licenses under the new licensing regime, following possible objections from the police and others. The 2003 Act allows for such objections in the interests of giving local communities more say in licensing decisions. The estimate is low as the majority of public house licenses will have been reviewed relatively recently under the existing licensing regime.

**Miss McIntosh:** To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from the Local Government Association on the implementation of the Licensing Act 2003. [11050]

**James Purnell:** Ministers and officials have frequent contact with the Local Government Association about the implementation of the Licensing Act 2003. The association is also a member of the high level group of senior representatives of key stakeholders which we established to monitor and evaluate implementation of the Act. Minutes of the group's meetings are available on my Department's website www.culture.gov.uk

**Mr. Dismore:** To ask the Secretary of State for Culture, Media and Sport what discussions she has had with trade associations representing companies involved in the retail of alcohol who are or will be affected by the new licensing regime. [9141]

**James Purnell:** I chair a high level group to ensure the smooth running of the implementation of the Licensing Act 2003. This group contains representatives of trade associations as well as representatives of central Government, local government, and the police. The minutes of the meetings of this group are available on the DCMS website at http://www.culture.gov.uk/alcohol_and_entertainment/hlm_sogroup.htm.

**Mr. Moss:** To ask the Secretary of State for Culture, Media and Sport what representations she has received from the *(a)* Local Government Authority and *(b)* individual licensing authorities about the timetable for licensing applications before (i) 6 August and (ii) the second appointed day in November. [9457]

**James Purnell:** The Local Government Association has made clear that they are not in favour of changing either the 6 August date for transitional applications, or the second appointed day of 24 November, when the Licensing Act 2003 comes into force. Some individual local authorities have sought that these dates be delayed. We do not intend to move either of these dates. A change to the 6 August deadline would require primary legislation, which is not feasible before that date. Any delay in implementing the Act would be counter-productive as it would also delay the important powers under the Act to deal with alcohol-fuelled violence and antisocial behaviour.

**Mr. Moss:** To ask the Secretary of State for Culture, Media and Sport what her estimate is of the number of applications for licences under the Licensing Act 2003 received by licensing authorities by 30 June; what percentage of the projected total those represent; what proportion have applied for a variation; and what proportion have applied for an entertainments licence. [9553]

**James Purnell:** As at 30 June we estimate that approximately 47,500 applications for premises licences and club premises certificates under the Licensing Act 2003 have been made. This represents approximately 25 per cent. of existing licensed premises and registered clubs. We would expect 65 per cent. of these applications to involve variations. We have no estimate of the number of applications that will have included regulated entertainment as a licensable activity.

**Mr. Moss:** To ask the Secretary of State for Culture, Media and Sport what representations she has received from Action with Communities in Rural England on the impact of the Licensing Act 2003 on village halls and village social life. [9755]

**James Purnell:** Representations from Action with Communities in Rural England (ACRE) have primarily concerned the complicated nature of some aspects of the new legislation, the role of designated premises supervisors and the limitations placed by the 2003 Act on the number of temporary event notices that may be given in respect of any individual premises in a calendar year. In response, my Department have continued to work closely and constructively with ACRE. The organisation recently commented publicly that DCMS have been very helpful in explaining the new processes and providing guidance and legal interpretation of the new legislation.

### G8 Summit (Tourism)

18. **David Mundell:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to ensure that visitBritain maximises the tourism opportunities arising from holding the G8 summit. [10640]

**James Purnell:** In view of the events of last Thursday, it would be inappropriate to discuss the G8 summit in terms of tourism. VisitBritain works continuously to use major international events to promote Britain overseas. That work will continue.

### "The Market for Art" Report

**Derek Wyatt:** To ask the Secretary of State for Culture, Media and Sport when her Department expects to respond to the Sixth Report of the Culture, Media and Sport Committee, HC 414, Session 2004–05, on The Market for Art. [11530]

**Mr. Lammy:** My right hon. Friend the Secretary of State will respond to the Report of the Culture, Media and Sport Committee on The Market for Art before the summer recess.

**Mr. Andy Reed:** To ask the Secretary of State for Culture, Media and Sport what discussions she has had with manufacturers and installers of play equipment on the implementation of the play programme for England of the Big Lottery Fund. [10496]

**Mr. Caborn:** I have held no discussions with manufacturers or installers of play equipment regarding the Big Lottery Fund's play programme.

### Culture and Commerce Conference

**Mr. Hancock:** To ask the Secretary of State for Culture, Media and Sport if she will ensure representatives of European trade unions are invited to the Conference on Culture and Commerce, being organised by her Department. [11880]

**Mr. Lammy:** Yes.

### Opera

**Mr. Chaytor:** To ask the Secretary of State for Culture, Media and Sport if she will take further steps to make opera more accessible to wider audiences; and if she will make a statement. [10630]

**Mr. Lammy:** Government support for opera is channelled through Arts Council England (ACE). All of the opera organisations funded by the Arts Council have policies in place to improve access to a wider and more diverse audience including ticket pricing policies, touring and the work of their education departments.

### Osborne Estates Act

**Mr. Andrew Turner:** To ask the Secretary of State for Culture, Media and Sport what conditions she expects to be met before supporting measures to repeal the Osborne Estates Act 1902. [10105]

**Mr. Lammy** *[holding answer 7 July 2005]:* We are fully committed to seeking Parliament's approval to amend the Osborne Estate Act 1902. There are no conditions attached to this, other than the need to find a suitable legislative slot.

### Public Sector Spectrum

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what recent discussions her Department has had with the Treasury on releasing public sector spectrum to the market; and if she will make a statement. [10204]

**James Purnell:** My Department has regular discussions with the Treasury and other Departments, on a wide range of issues, including spectrum matters.

### Radio Station (Chorley)

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport if she will provide support for a radio station for Chorley; and if she will make a statement. [10803]

**James Purnell:** Planning, licensing and regulation of independent radio in the UK is a matter for the independent regulator, Ofcom.

My Department has made £0.5 million available for community radio for each of the years to 2007–08. The fund will be handled by Ofcom, who will take decisions on allocation in due course.

### Sport England

**Jon Trickett:** To ask the Secretary of State for Culture, Media and Sport what funding was allocated to Sport England by her Department in each year since 1997, broken down by *(a)* Government region and *(b)* parliamentary constituency; and if she will make a statement. [6942]

**Mr. Caborn:** Exchequer funding allocated to Sport England by the Department for Culture, Media and Sport can be broken down by Government region. This is shown in the following table:

*Regional costs 1997–2004*

£

| | Financial year | | | |
|---|---|---|---|---|
| | *1996–97* | *1997–98* | *1998–99* | *1999–2000* |
| Northern | 1,131,020 | 1,114,129 | 548,850 | 799,755 |
| Yorkshire | 1,303,919 | 1,272,570 | 740,530 | 1,102,934 |
| East Midlands | 1,262,237 | 1,242,020 | 772,700 | 1,017,987 |
| Eastern | 1,289,334 | 1,236,528 | 748,250 | 931,789 |
| London | 1,494,021 | 1,118,350 | 487,372 | 819,746 |
| South-east | 1,078,175 | 1,053,715 | 475,528 | 810,109 |
| Southern[1] | 1,080,764 | 1,208,279 | 493,871 | 945,355 |
| South-west | 1,164,165 | 1,227,023 | 607,950 | 813,456 |
| West Midlands | 1,193,329 | 1,301,333 | 733,750 | 1,122,526 |
| North-west | 1,359,291 | 1,412,961 | 759,320 | 1,262,145 |
| Total costs | 12,356,255 | 12,186,908 | 6,368,121 | 9,625,802 |
| Out of a total funding of: | 15,700,000 | 33,700,000 | 33,500,000 | 34,500,000 |

£

| | Financial year | | | |
|---|---|---|---|---|
| | *2000–01* | *2001–02* | *2002–03* | *2003–04* |
| Northern | 845,203 | 767,043 | 801,011 | 616,522 |
| Yorkshire | 929,366 | 1,101,121 | 1,026,042 | 589,873 |
| East Midlands | 923,216 | 865,806 | 765,791 | 554,271 |
| Eastern | 897,524 | 780,252 | 580,779 | 415,681 |
| London | 1,035,734 | 1,251,373 | 959,769 | 615,197 |
| South-east | 741,993 | 1,533,149 | 1,242,907 | 777,329 |
| Southern[1] | 967,330 | 0 | 0 | 0 |
| South-west | 948,582 | 917,756 | 844,576 | 585,641 |
| West Midlands | 982,481 | 1,006,831 | 1,032,574 | 636,513 |
| North-west | 1,204,827 | 1,343,257 | 1,211,431 | 634,001 |
| Total costs | 9,476,254 | 9,566,589 | 8,464,881 | 5,425,029 |
| Out of a total funding of | 34,500,000 | 34,500,000 | 34,725,000 | 39,475,000 |

[1] Sport England no longer recognise a separate Southern region.

*Note:*
These are the total regional costs delivered locally, it excludes any nationally delivered regional programmes.

It is not possible to provide figures on funding allocated to Sport England by parliamentary constituency.

### Television Licence

**Sandra Gidley:** To ask the Secretary of State for Culture, Media and Sport how many people in Hampshire have been prosecuted for not having a television licence in each of the last five years. [9788]

**James Purnell:** The data collected by the Home Office relate to all offences under the Wireless Telegraphy Acts of 1949 to 1967, most though not all of which involve television licence evasion. The number of people proceeded against for such offences at magistrates courts in Hampshire in each of the last five years for which information is available was:

| | *Proceeded against*[1] |
|---|---|
| 1999 | 1,728 |
| 2000 | 3,968 |
| 2001 | 3,282 |
| 2002 | 2,110 |
| 2003 | 1,814 |

[1] These data are on the principal offence basis.

**Mr. Rob Wilson:** To ask the Secretary of State for Culture, Media and Sport whether a television licence will be required for television-on-mobile devices. [9991]

**James Purnell:** The BBC, as television licensing authority, is responsible for interpreting the licensing regulations and determining the licensing requirements for specific equipment. However, the general position is that a television licence is required to install or use a television receiver, which is defined in regulations as any apparatus installed or used for the purpose of receiving any television programme service. Mobile or portable devices are not exempt from the licensing requirements, but a television licence for a person's home address covers the use, anywhere else in the United Kingdom, by the licensee or any person normally living with them at the licensed address, of a portable television receiver powered solely by its own internal batteries.

**Mr. Rob Wilson:** To ask the Secretary of State for Culture, Media and Sport how many prosecutions for failure to pay the TV licence fee there have been in each year since 2000. [9993]

**James Purnell:** The data available relate to all offences under the Wireless Telegraphy Acts of 1949 to 1967 in England and Wales, and to all offences under the 1949 Act in Scotland, most though not all of which involve television licence evasion. The number of people

proceeded against for such offences in England, Scotland and Wales, in each year since 2000 for which information is available, was:

| | *Proceeded against*[1,2] |
|---|---|
| 2000 | 123,153 |
| 2001 | 97,877 |
| 2002 | 111,671 |
| 2003 | 95,380 |

[1] Figures for Northern Ireland are not available.
[2] On the principal offence basis.

**Mrs. Dorries:** To ask the Secretary of State for Culture, Media and Sport how many households in the Mid-Bedfordshire parliamentary constituency are in receipt of the free television licence for over 75-year-olds. [10905]

**James Purnell:** TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in the Mid-Bedfordshire constituency in 2004–05 was 4,745, according to Department for Work and Pensions records.

## PRIME MINISTER

### Advertising

**David T.C. Davies:** To ask the Prime Minister how much his Office spent on advertising in each of the last five years. [10234]

**The Prime Minister:** I refer the hon. Member to the answer I gave to the hon. Member for Yeovil (Mr. Laws) on 3 February 2005, *Official Report*, column 1010W, and to the letter of 1 March from the then Minister for the Cabinet Office to the hon. Member for Yeovil, a copy of which was placed in the Library of the House.

### Departmental Bills

**Mr. Amess:** To ask the Prime Minister what criteria are used by him in selecting Government bills that he will co-sponsor; and if he will make a statement. [10466]

**The Prime Minister:** I support all Government bills whether sponsored or not.

**Mr. Amess:** To ask the Prime Minister if he will list bills that he has *(a)* sponsored and *(b)* co-sponsored in each session since 1997. [10467]

**The Prime Minister:** This information is not held in the format requested. However, it is a matter of public record and can be found in the *Official Report*.

### English Wine

**Mr. Dismore:** To ask the Prime Minister if he will ensure that English wine is made available at dinners and receptions which he hosts during the EU presidency at which hospitality involving wine is appropriate; and if he will make a statement. [8876]

**The Prime Minister:** All procurement is undertaken in line with the European Commission's procurement rules and to obtain value for money. Where possible British products are used.

### France

**Mike Penning:** To ask the Prime Minister what representations he has made to the French Government on the issue of public statements regarding British cuisine; and what representations he has received on this subject. [11748]

**The Prime Minister:** I have not made or received any representations on this matter.

### Illegal Immigration

**Bob Spink:** To ask the Prime Minister when *(a)* he and *(b)* his Office first became aware (i) of Home Office research into the number of people illegally in the country and (ii) that the research had made an estimate of the number of such people. [11384]

**The Prime Minister:** I refer the hon. Member to the afternoon press briefing given by my official spokesman on 30 June 2005, a copy of which is available on the Number 10 website.

### Iraq

**Adam Price:** To ask the Prime Minister pursuant to his oral answer of 29 June 2005, *Official Report*, column 1288, what evidential basis there was for Sir Richard Dearlove's assessment of United States administration policy contained in the memorandum. [10727]

**The Prime Minister:** I have nothing further to add to the answer I gave the hon. Member on 29 June 2005, *Official Report*, column 1288.

### Voting Record

**Mr. Amess:** To ask the Prime Minister how many times he has voted in *(a)* divisions on the floor of the House and *(b)* deferred divisions in each session since 1997. [10468]

**The Prime Minister:** This information is made available at the end of each parliamentary session in the Standard Note 'Members' participation in Commons Divisions'. Copies of which are available in the Libraries of the House.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Bird Scarers

**David Taylor:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what regulations are in place on the use of audible bird scarers by farmers; [10617]

(2) what her Department's policy is on the use of audible bird scarers by farmers. [10618]

**Mr. Bradshaw** *[holding answer 7 July 2005]:* The National Farmers Union has produced a code of practice on the use of bird scarers, on which the Department was consulted. This code of practice

recommends, among other things, that auditory bird scarers sound only four times in any one hour, and that they are placed as far away as is practicable from nearby hospitals, homes or schools in order to avoid causing a nuisance.

Should a local authority receive a complaint of noise from an auditory bird scarer, they have a duty to take reasonable steps, where practicable, to investigate the complaint under section 79 of the Environmental Protection Act 1990. If satisfied that the noise amounts to a statutory nuisance, or that a statutory nuisance is likely to occur or recur, the local authority must serve a notice requiring the noise to be abated or restricted. Failure to comply with an abatement notice can result in a fine of up to £20,000 upon summary conviction.

### Car Audio Systems

**Dr. Tony Wright:** To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions were made in relation to waste from car audio systems under *(a)* Regulation 97 of the Road Vehicles (Construction and Use) Regulations and *(b)* other legislation in the last year for which figures are available. [9772]

**Dr. Ladyman:** I have been asked to reply.

No data are available for prosecutions related to noise from car audio systems. Data are only available for noise offences committed against the Road Use (Construction and Use) Regulations 1986 in total. In addition to Regulation 97, this would also include offences against Regulations 54 to 58 that prohibit excessive noise from modified or poorly maintained exhaust systems and silencers. On this basis, the number of fixed penalty notices issued and prosecutions recorded by the Home Office during 2003 in England and Wales were as follows:

*Fixed penalty notices and court proceedings for aiding, abetting, causing or permitting noise offences[1], England and Wales, 2003*

| | *Number* |
|---|---|
| Fixed penalty notices issued | 1,262 |
| Total proceeded against | 2,653 |
| Total findings of guilt | 1,808 |

[1] Offences under the Road Vehicles (Construction and Use) Regulations 1986, Regulations 54–58, 97–99.

### Cetaceans

**Jeremy Corbyn:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken to protect *(a)* whales, *(b)* dolphins and *(c)* porpoises in coastal waters. [8640]

**Mr. Bradshaw:** The taking of whales, dolphins and porpoises is prohibited in EU and UK waters. In addition to EU measures adopted in 2004 to tackle the threat to small cetaceans from incidental capture in fisheries operating in Community waters, the UK has also put in place measures to protect common dolphins through a prohibition on pelagic pair trawl fishing for bass within 12 nautical miles of the south-west coast.

### Dog Microchips

**Harry Cohen:** To ask the Secretary of State for Environment, Food and Rural Affairs what her estimate is of the percentage of dogs in England which have not been micro-chipped; if she will initiate a campaign to increase micro-chipping of dogs; and if she will make a statement. [9350]

**Mr. Bradshaw:** Micro-chipping of dogs is currently undertaken through local registration schemes, therefore Government do not keep statistics on the number of dogs that have or have not been micro-chipped. There are no current plans for a national campaign to increase the micro-chipping of dogs.

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department takes to promote English wines. [9145]

**Jim Knight:** The Government have a continuing supporting role in helping the wine industry and in particular, their endeavours to produce and market quality wines. This is encouraged through the Quality and Regional Wine Schemes which have been introduced by the Department to promote the quality and reputation of English and Welsh wine. Officials meet regularly with the industry to discuss producer concerns, and to monitor how these schemes are operating. I am very pleased that more and more producers are being persuaded to take part in these schemes.

When suitable opportunities arise, we in the Department always endeavour to serve and promote national products including English wine. These occasions are an important means of introducing our wines to a new and influential audience. For example, British produce (including English wine) will be promoted generally during the UK presidency of the EU, and we plan to provide British produce and drink for all EU Council meetings in Brussels and Luxembourg over this period.

In addition, English wine producers have benefited from Defra grants in excess of £350,000 to help with production and marketing.

Defra has also been in recent contact with the United Kingdom Vineyards Association (UKVA), which represents a majority of English and Welsh wine producers, to encourage further uptake of marketing and processing assistance schemes available to the industry.

**Mr. Dismore:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will ensure that English wine is made available at dinners, receptions and parties she hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if she will make a statement. [9155]

**Margaret Beckett:** Since Defra was established in June 2001 I have followed a policy of serving British food and drink, including English wine. I am delighted that my Cabinet colleagues are intending to join me in promoting British food and drink more generally during the presidency. We are also planning to provide British produce and drink for all EU Council meetings in Brussels and Luxembourg during the UK presidency.

### Fly-tipping

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 16 June 2005, *Official Report*, column 552W, on fly-tipping, if she will break down the figures provided by *(a)* region and *(b)* local authority. [11406]

**Mr. Bradshaw** *[holding answer 11 July 2005]:* The data requested will be made available in the Library of the House.

### Food Subsidy

**Mr. Roger Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what subsidy was applied to food production in *(a)* the UK and *(b)* the EU in each year between 1999 and 2004, broken down by commodity. [9386]

**Jim Knight:** The tables show the value of subsidies that are directly linked to production of commodities as recorded by Eurostat in the Economic Accounts for Agriculture, for the EU 15 countries and the United Kingdom. They also show the value of other subsidies which are not linked to production but from which farmers have benefited as a consequence of engaging in production.

The figures provided in the table exclude public expenditure on market support measures (e.g. export refunds, intervention) and they also exclude payments which, according to national accounts conventions, are recorded as capital transfers (which for the UK means that these figures exclude the foot and mouth disease compensation payments of 2001).

Further detail may be obtained from the Eurostat website at http://epp.eurostat.cec.eu.int.

### Hazardous Waste

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what consequences hazardous waste producers face if they do not register by the 16 July deadline; and if she will make a statement. [10348]

**Mr. Bradshaw:** Anyone who produces hazardous waste is required to notify their premises to the Environment Agency unless those premises fall within one of the categories listed as exempt in the Regulations. The removal of hazardous waste from any premises that is not either notified or genuinely exempt will be prohibited from 16 July and the Regulations provide that those who fail to comply may, on summary conviction, be subject to a fine of up to £5,000. Alternatively, the Environment Agency may choose to issue a Fixed Penalty of £300.

In enforcing these Regulations, the Environment Agency will place the highest priority on the protection of human health and the environment and will expect all movements of hazardous waste to be accompanied by a consignment note. The requirement to notify premises will be enforced in line with their published enforcement and prosecution policy.

### Hedgehogs/Badgers

**Mr. Roger Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether there is a correlation between the decline in the hedgehog population and the increase in badger numbers; and if she will make a statement. [9960]

**Jim Knight** *[holding answer 6 July 2005]:* Mammals such as badgers and hedgehogs interact in a complex manner in the countryside. Badgers' main food source is earthworms but they will consume a wide variety of foods such as invertebrates, plant roots, fruits, cereals, animal carcasses, stored livestock feed and sometimes hedgehogs when conditions limit the source of earthworms.

Long term data on hedgehog populations, over the period covering the badger population increase, would be required in order to answer the above question. Such a dataset does not exist, therefore it is not possible to conclude that badger population increase is the cause of a hedgehog population decline.

Research is being carried out to obtain a greater understanding of these interactions. The Central Science Laboratory is conducting a replicated experimental assessment of the ecological consequences of badger removal within the Randomised Badger Culling Trial. The research includes estimating the abundance of hedgehog populations in selected regions of south-west England. Unpublished data from this research suggest that hedgehogs were less likely to be present in areas where badger sett density was high. Additionally, hedgehog numbers tended to increase when badgers were removed, suggesting that a relationship exists between badger density and hedgehog populations. It is hoped further analyses will reveal more on the nature of what is likely to be a complex relationship.

### Hill Farmers

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to ensure the economic survival of hill farmers in England. [11268]

**Jim Knight:** Farmers in the English uplands currently receive in excess of £180 million in CAP payments. In 2006 they will continue to be eligible for schemes under the England Rural Development Programme such as Environmental Stewardship and the Hill Farm Allowance, as well as the Single Payment Scheme.

The Secretary of State gave a commitment on 22 April 2004 to consider how upland communities could receive appropriate support from rural development funds. Future arrangements are currently being reviewed in the context of the new EU Rural Development Regulation which will come into effect in 2007.

### Identity Cards

**Mr. Garnier:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the implications of the introduction of identity cards for her Department. [9881]

**Jim Knight:** On 28 June 2005, my right hon. Friend the Home Secretary placed in the Library a paper containing the latest estimates of benefits of the Identity Cards Scheme which shows that the benefits outweigh the costs once the scheme is fully operational. The cost of equipping premises will depend on the nature of the use of the Identity Cards Scheme and the type of identity check(s) necessary to deliver the business benefits. In some cases, benefits could be realised without the use of card readers and the cost of installing any readers needs to be considered alongside future plans to refresh or upgrade IT systems. As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit, which will allow us to prepare estimates of costs and benefits.

### Llancloudy

**Mr. Keetch:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 30 June 2005, *Official Report*, column 1643W, on Llancloudy, if she will ensure that no route for removal of waste from Hill Farm Llancloudy is agreed before her officials meet the hon. Member for Hereford and a representative of the Llancloudy Residents Association; and if she will make a statement. [10984]

**Mr. Bradshaw:** I can assure the hon. Member that my officials will not finalise agreement on the route for the removal of waste from Hill Farm, Llancloudy until they have met with the hon. Member and a representative of the Residents Association. My officials will be in contact with the hon. Member's office to arrange a mutually convenient date for the meeting.

### Marine Noise Pollution

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs whether marine noise pollution was discussed at the recent International Whaling Conference; and if she will make a statement. [8905]

**Mr. Bradshaw:** At last year's (2004) annual meeting of the International Whaling Commission a special symposium was held on the impacts of anthropogenic noise on cetaceans. This year's meeting continued discussions on the potential negative impact of rising levels of disturbance on whale populations, due to factors such as ship traffic and seismic surveys, and it was decided to hold a scientific workshop to consider the effects of anthropogenic noise at next years meeting.

My Department has been working with other countries, through the Agreement on the Conservation of Small Cetaceans of the Baltic, North East Atlantic, Irish and North Seas (ASCOBANS) toward the prevention of significant disturbance to cetaceans, including that of acoustic disturbance.

## Recycling

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Department has to make recycling facilities more readily available; and if she will make a statement. [10347]

**Mr. Bradshaw:** Responsibility for the provision of recycling facilities rests with local authorities who have been set statutory performance standards for 2003–04 and 2005–06 for the recycling and composting of household waste.

Defra, and Government more widely, recognise the challenge local authorities in England face meeting these statutory performance standards and the increase in costs as waste is diverted away from landfill. Accordingly, we are providing increased levels of support and funding.

Local authorities' main source of funding for waste management is the Environmental, Protective and Cultural Services (EPCS) block of the revenue support grant distributed by central Government each year, supplemented by council tax. In last year's Spending Review (SR2004) the Government announced an increase in EPCS Formula Spending Share block of £888 million by 2007–08 over 2004–05.

Funding is also being provided from a variety of other sources to help authorities meet and exceed their targets. The Waste Performance and Efficiency Grant (WPEG) is providing unringfenced funding to local authorities worth £45 million in 2005–06 and £105 million and £110 million in the two following years. Through the private finance initiative (PFI), credits worth £355 million have been made available in the three years to 2005–06 as an extra source of funding, with a further £535 million available in 2006–07 and 2007–08.

Alongside the additional funding, we are providing increased support to local authorities through a number of organisations including the Waste Implementation Programme and the Waste and Resources Action Programme.

Local authorities decide how to invest this funding in the provision of local recycling services that best meet local circumstances and the wishes of their electorate.

**Mr. Amess:** To ask the Secretary of State for Environment, Food and Rural Affairs how many recycling points there are in each local authority in Essex per 1,000 population; and how many there were in each of the last five years for which figures are available. [10463]

**Mr. Bradshaw:** Results from the Defra Municipal Waste Management Survey and National Statistics mid-year population estimates are in the following table.

A recycling point has been reported as either a recycling site or a civic amenity site. All civic amenity sites under the control of Essex Waste Disposal Authority, have been allocated to the district where that site is situated.

| | *Recycling sites* | *Civic amenity sites* | *Total recycling sites* | *Recycling sites per 1,000 population* |

| Total all Essex | 741 | 25 | 766 | 0.47 |

[1] This figure is an estimated value used to replace a non-response on the survey questionnaire.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how many recycling points there are in *(a)* Lancashire and *(b)* Chorley. [10990]

**Mr. Bradshaw:** Results from the 2003–04 Defra Municipal Waste Management Survey are as follows:

| | Recycling sites | Civic amenity sites | Total sites |
|---|---|---|---|
| *(a)* Total Lancashire | 312 | 26 | 338 |
| *Of which:* | | | |
| *(b)* Chorley | 22 | 0 | [1]22 |
| *Total Lancashire derived from the following:* | | | |
| Districts within Lancashire | 275 | 0 | 275 |
| Blackburn with Darwin UA | 11 | 2 | 13 |
| Blackpool UA | 26 | 1 | 27 |
| Lancashire county WDA | 0 | 23 | 23 |

[1] Chorley borough council has one civic amenity site run by Lancashire county WDA within its boundary. This has been excluded from the Chorley total.

## Rural Employment

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs how many jobs have been created in rural areas in each year since 1997, broken down by *(a)* agricultural and *(b)* non-agricultural. [8916]

**Jim Knight:** Statistics on the creation of jobs are not collected by any Government Department in this format.

The Labour Force Survey details the number of individuals in employment and can reliably be examined at local authority district level, though not at any smaller geographical scale. It is not therefore possible to give a definitive breakdown of changes in employment levels between urban and rural areas within local authority districts.

However, using the current Countryside Agency broad classification of rural and urban Districts, and recognising that 'rural districts' contain many urban areas and vice versa, employment levels are as follows (changes in the survey approach do not allow for comparison before 2000–01):

| | Total in employment | | |
|---|---|---|---|
| | Rural districts | Urban districts | All districts |
| 2000–01 | 6,672,461 | 16,057,031 | 22,729,492 |
| 2001–02 | 6,741,084 | 16,234,694 | 22,975,778 |
| 2002–03 | 6,774,135 | 16,294,254 | 23,068,389 |
| 2003–04 | 6,845,578 | 16,397,862 | 23,243,440 |

*Source:*
Labour Force Survey, ONS

As can be seen over this period, overall employment levels increased by 3 per cent. in rural districts and 2 per cent. in all other districts.

The June Agricultural and Horticultural Survey records the labour force on all farms in England. Data are available since 1997 and the numbers of people employed in agriculture is as follows, again using the current Countryside Agency classification of rural and urban districts:

| | Rural districts | Urban districts | All districts |
|---|---|---|---|
| 1997 | 311,842 | 81,263 | 393,105 |
| 1998 | 315,396 | 81,161 | 396,557 |
| 1999 | 302,002 | 77,016 | 379,018 |
| 2000 | 298,141 | 76,147 | 374,288 |
| 2001 | 307,898 | 78,866 | 386,764 |
| 2002 | 295,326 | 76,498 | 371,824 |
| 2003 | 282,516 | 71,865 | 354,381 |
| 2004 | 292,783 | 74,707 | 367,490 |

*Source:*
June Agricultural and Horticultural Survey, Defra

These figures show that the labour force on agricultural holdings decreased by 6 per cent. between 1997 and 2004.

Defra will very shortly publish a new urban/rural classification of local authorities districts which will enable a more detailed analysis of rural and urban statistical data. The tables included in this written answer will be recreated using the new classification when this is published and I will write to the hon. Member with this information.

### Seal products

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy *(a)* to ban the importation of seal products into the United Kingdom and *(b)* to press for a similar ban in the EU. [6586]

**Jim Knight:** Council Directive 83/129/EEC (as amended by Council Directive 89/370/EEC) already imposes an EU-wide ban on the commercial import of certain seal skin products, including raw or tanned furskins, of whitecoat pups of harp seals and blueback pups of hooded seals. This Seals Directive is implemented in the UK by The Import of Seal Skins Regulations 1996.

We have been advised by the Commission that it does not currently see any scientific basis for proposing an extension of the Seals Directive. We agree with the Commission but will reconsider our position if new data show that the levels of take by seal hunting are unsustainable and pose a conservation threat to either harp or hooded seals.

### Trees

**Mr. Cameron:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to increase the number of native trees planted by the Forestry Commission; how many trees have been planted by Government agencies over the past 20 years in *(a)* England and *(b)* West Oxfordshire; and what targets to encourage the expansion of forests have been set. [11569]

**Jim Knight:** The Forestry Commission has embarked on a programme to restore 15,000 hectares of ancient semi-natural woodland on the public forest estate by 2020 and this will include planting and regenerating native tree species. In addition most new planting by the Commission, which is in the priority areas for improving the environment of disadvantaged urban communities, will be native broadleaves.

In the recently published Action Plan for our new Statement of Policy for England's Ancient and Native Woodland there is a clear action to promote woodland creation which extends, buffers and links ancient woodland through both the English woodland grant scheme and environmental stewardship grants. In order to respect the biodiversity values of ancient woodland much of this type of woodland creation will involve the use of native species.

Information on the number of trees planted by Government agencies is not recorded centrally. However, most new woodland planting is carried out by private landowners and is grant aided by the Forestry Commission. This has averaged over 4,600 hectares per year for the last 10 years and the majority of this planting has been with broadleaves and most of these have been native species.

Our policy for the expansion of forests and woodland is set out in the England Forestry. Strategy published in 1998. This seeks a continued steady expansion of our woodland area to provide more benefits for society and our environment. Within this policy we have established some short-term targets, for example the creation of 30,000 hectares of new woodland under the current (2000–06) England Rural Development Programme.

### UK-produced Food

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what guidance she has issued on the minimum acceptable proportion of the UK's food needs which should be sourced from home-grown producers. [8913]

**Jim Knight:** The Government do not have a policy regarding a minimum level of food production, and therefore, have not issued guidance. The Government have a food security policy to ensure consumers have access to a stable and adequate supply of food. The UK has long been a net importer of food and national and international food security is best facilitated through improved trading relationships based on more open international markets and reductions in trade distorting subsidies.

## DEFENCE

### Correspondence

**Mr. Ancram:** To ask the Secretary of State for Defence if he will list letters received by *(a)* him and *(b)* other Ministers in his Department from hon. Members during the period 1 February to 5 May; and how many of these letters were replied to. [6712]

**Mr. Touhig:** We do not capture this information in the form requested. However, according to our current ministerial correspondence database, of the 1,329 letters received during this period for answer by Ministry of Defence Ministers, my right hon. friend the Secretary of State for Defence has replied substantively to 149, while 1,167 have been responded to by other Ministers. Interim, or holding, replies have been sent to a further 10.

**Mr. Ancram:** To ask the Secretary of State for Defence if he will list occasions during the period 1 February to 5 May on which *(a)* he and *(b)* other Ministers in his Department stated in written parliamentary answers that they would write to hon. Members in order further to clarify a specific matter; and whether this commitment was not undertaken on any occasion. [6713]

**Mr. Touhig:** Defence Ministers undertook to write to various right hon. and hon. Members in answer to 32 parliamentary questions between 1 February 2005 and

5 May 2005. Our records show that this commitment was not followed through on 16 occasions as it was not possible to provide clarification before Prorogation.

### Departmental Conferences

**David T.C. Davies:** To ask the Secretary of State for Defence how much the Department spent on organising or sponsoring conferences in each of the last five years. [10262]

**Mr. Touhig:** This information is not held centrally in the form requested and could be provided only at disproportionate cost. Conferences and their associated costs are organised in accordance with departmental regulations.

### Iraq

**Mr. Ellwood:** To ask the Secretary of State for Defence whether he expects British troops to return to the UK when the British area of responsibility in Iraq is ready to hand over to Iraqi forces if the US area of responsibility is not ready for handover. [4828]

**Mr. Ingram:** The United Kingdom is committed to Iraq under the mandate of United Nations Security Council Resolution 1546, and for as long as the Iraqi Government judge that the coalition is required to assist and develop the Iraqi Security Forces (ISF) and provide security. Factors in determining the scope and timeline for eventual UK force level reductions in Iraq will include: the readiness of the ISF to take responsibility for the range of security tasks; the overall security situation; and progress on the political process. We will assess each of these factors as they affect both the four provinces covered by Multinational Division (South East) and Iraq as a whole, in close consultation with the Government of Iraq and our coalition partners, particularly the United States.

### Medal Citations

**Mr. Hancock:** To ask the Secretary of State for Defence how individuals can obtain details of citations accompanying medals awarded to deceased relatives. [8627]

**Mr. Touhig:** Individuals seeking details of citations for awards to relatives who are deceased should write to the honours and awards branch at the relevant service address:

*Royal Navy*

Naval Secretary (Honours and Awards)
Room 157A
Victory Building
HM Naval Base
Portsmouth
PO1 3LS

*Army*

Military Secretary 1
Block 7
Wellington Barracks
Birdcage Walk
London
SW1E 6HQ

*Royal Air Force*

MOD Medal Office
Building 250
RAF Innsworth
Gloucester
GL3 1HW

Surviving records pre-1937, or pre-1939 for the Royal Navy and Royal Marines, are available in The National Archives at the following address:

*The National Archives*

Ruskin Avenue
Kew
Richmond
Surrey
TW9 4DU

### Meteorological Office

**Malcolm Bruce:** To ask the Secretary of State for Defence if he will make a statement on the future role of *(a)* the Meteorological Office headquarters in Exeter and *(b)* the weather stations in (i) Aberdeen, (ii) Belfast, (iii) Birmingham, (iv) Cardiff, (v) London and (vi) Manchester. [9237]

**Mr. Touhig:** The Meteorological Office facility recently established at Exeter houses the HQ, operations and research centre (Hadley Centre). The operations centre provides a 24 hour, seven day capability for weather centre forecasting and for issuing severe weather warnings. The outputs are delivered in real time on a national and international basis.

The future of civil forecasting at Aberdeen, Belfast, Birmingham, Cardiff, London and Manchester is the subject of current consultation by the Met Office. I will make a decision about the way ahead, taking full account of representations received, following the completion of consultation in autumn 2005.

**Malcolm Bruce:** To ask the Secretary of State for Defence if he will place in the Library a copy of the strategic review of the Meteorological Office production network. [9256]

**Mr. Touhig** *[holding answer 5 July 2005]:* A copy of the consultation document will be placed in the Library of the House. I have already sent a copy of this document to those Members whose constituents may be affected by the final decision about the future of civil forecasting.

### Official Residences

**Mr. Prisk:** To ask the Secretary of State for Defence if he will list the residential properties his Department's Ministers are entitled to use as part of their duties. [6181]

**Mr. Touhig** *[holding answer 27 June 2005]:* Defence Ministers are not presently entitled to use any official residential properties as part of their duties.

### Premature Voluntary Release

**Mr. Moore:** To ask the Secretary of State for Defence how many *(a)* officers and *(b)* private soldiers of each

Army regiment and corps have left under Premature Voluntary Release terms in each of the last three years. [9626]

**Mr. Touhig** *[holding answer 5 July 2005]:* The information is as follows:

*UK Regular Army trained officer Premature Voluntary Release exits (PVR)*

| Arm/service | PVR 2002–03 | PVR 2003–04 | PVR 2004–05 |
|---|---|---|---|
| Staff | 40 | 40 | 50 |
| The Honourable Artillery Company/Royal Armoured Corps | 30 | 30 | 40 |
| Royal Regiment of Artillery | 30 | 30 | 30 |
| Corps of Royal Engineers | 30 | 40 | 30 |
| Royal Corps of Signals | 30 | 30 | 30 |
| The Infantry | 90 | 100 | 120 |
| Army Air Corps | 10 | 20 | 20 |
| Royal Army Chaplain's Department | [1]— | [1]— | [1]— |
| The Royal Logistics Corps | 60 | 60 | 70 |

| Army Physical Training Corps | 10 | 10 | 10 |
| Queen Alexandra's Royal Army Nursing Corps | 30 | 30 | 40 |
| Corps of Army Music | 40 | 30 | 50 |
| Long Service List | [1]— | [1]— | [1]— |
| Total | 4,610 | 4,500 | 4,880 |

[1] — represents zero, rounded to zero, or a percentage based upon a number rounded to or equal to zero.

*Notes:*

1. Data are rounded to the nearest 10.
2. Numbers ending in '5' have been rounded to the nearest 20 to avoid systematic bias.
3. Totals have been rounded separately and so may not appear to be the sum of their parts.
4. PVR occurrences broken down by regiment are not held centrally and could not be provided without incurring disproportionate costs.

### Royal Centre for Defence Medicine

**Mr. Robathan:** To ask the Secretary of State for Defence what the average waiting time was for military personnel attending the Royal Centre for Defence Medicine, Selly Oak to be given an appointment with a civilian consultant in the last period for which figures are available. [10412]

**Mr. Touhig:** The routinely collected data on waiting times for out-patients are specifically aimed at monitoring performance against the stated DMS targets.

DMS targets are for 45 per cent. of all referrals to be seen within four weeks and 85 per cent. within 13 weeks. The waiting times for the period April 2003 to March

2004 show that 52.9 per cent. of referrals were seen within four weeks and 92.24 per cent. within the 13 week target.

**Mr. Robathan:** To ask the Secretary of State for Defence what the average time taken to process a military patient through the Royal Centre for Defence Medicine in Selly Oak was in the last period for which figures are available; what assessment he has made of the operational implications of the waiting time; and if he will make a statement. [10413]

**Mr. Touhig:** It is not possible to give the average time taken to process military patients through the Royal Centre for Defence Medicine because of the wide variety of conditions that referred patients suffer from. At one end of the spectrum there may be, for example, patients with simple skin complaints who are seen and dealt with in a single out-patients. At the other extreme are patients with more complex or serious health problems which may be associated with a need for on going management programmes that can continue for months and even years.

No specific assessment has been made of the operational impact of the patient processing times at the Royal College of Defence Medicine.

**Mr. Robathan:** To ask the Secretary of State for Defence what the longest time taken for the result of a blood test for a military patient to be processed by the Royal Centre for Defence Medicine in Selly Oak has been since the centre was established. [10414]

**Mr. Touhig:** RCDM does not collect information on the time taken to process blood tests for their patients.

As with all blood tests the speed of the result depends upon the clinical priority of the patient and the type of blood test required.

This ranges from within four hours for an in-patient/ emergency patient to two to three weeks for more specialised blood tests.

If an out-patient requires urgent testing they are sent to the blood department by the consultant and samples are taken there and then.

### Scottish Infantry Recruitment

**Mr. Hood:** To ask the Secretary of State for Defence how much funding has been allocated for the recruitment of soldiers to the Scottish Infantry Regiments in 2005; what strategies have been employed to boost recruitment levels; and if he will make a statement. [10055]

**Mr. Touhig:** The Army's overall recruiting budget for the financial year 2005–06 is £85.355 million. It is not possible to accurately identify expenditure by region or for specific areas of the British Army.

The current recruiting climate is a demanding one and the Army is working hard to meet its enlistment targets. In Scotland, a multi-media marketing campaign was conducted between October 2004 and April 2005 with the aim of improving recruitment into the Scottish Infantry. A further campaign began in April 2005 and will run until Match 2006 to support all aspects of Army recruiting in Scotland.

**Mr. Hood:** To ask the Secretary of State for Defence how many new soldiers have been recruited in Scotland since January; what targets were set; and if he will make a statement. [10056]

**Mr. Touhig:** Overall manning targets are set on the Army Training and Recruiting Agency by Director Manning (Army). This takes account both of the forecast of the numbers required and the financial allocations for any given year.

Subsequently, HQ Recruiting Group allocates an indicative target to each of its 10 regional recruiting commands, of which Scotland is one.

The table shows the results for Scotland for all Arms and Services against the indicative targets for each quarter (Quarter) in financial year 2004–05 and the first quarter of 2005–06.

| *Financial year* | *Indicative target* | *Enlisted soldiers* | *Percentage achieved* |
|---|---|---|---|
| *2004–05* | | | |
| Quarter 1 | 160 | 200 | 123 |
| Quarter 2 | 500 | 400 | 80 |
| Quarter 3 | 150 | 180 | 124 |
| Quarter 4 | 470 | 360 | 76 |
| *2005–06* | | | |
| Quarter 1 | 210 | 150 | 69 |

**Mr. Hood:** To ask the Secretary of State for Defence what research his Department has *(a)* commissioned and *(b)* evaluated on the levels of recruitment to the Scottish Infantry Regiments in 2005; and if he will make a statement. [10057]

**Mr. Touhig:** None.

### Shackleton Planes (Hearing Loss)

**Julia Goldsworthy:** To ask the Secretary of State for Defence what representations he has received from veterans who claim to have been affected by hearing loss as a result of flying in Shackleton planes; and what estimate he has made of the number of veterans who have so far been affected. [7724]

**Mr. Touhig:** I refer the hon. Member to the answer I gave her on 22 June 2005, *Official Report*, column 1067. The additional information requested is not available and could be provided only at disproportionate cost.

### Trident

**Mr. Gordon Prentice:** To ask the Secretary of State for Defence what considerations he took into account in deciding to stop targeting the Trident nuclear deterrent. [9805]

**John Reid:** The missiles have been detargetted since 1994. The policy of detargetting the United Kingdom's Trident missiles was confirmed in the 1998 strategic defence review, to reflect improvements in the strategic environment since the end of the cold war.

## FOREIGN AND COMMONWEALTH OFFICE

### Bulgaria (EU Accession)

**Mrs. Ellman:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the outstanding areas of concern relating to Bulgaria's accession to the European Union. [9764]

**Mr. Douglas Alexander** *[holding answer 5 July 2005]:* The European Commission wrote to the Bulgarian Government at the start of June 2005. It stated that Bulgaria is 'generally on track in meeting its commitments and requirements arising from the accession negotiations in most areas'. But it noted that Bulgaria still needs to implement important elements of the acquis and identified five key areas requiring particular attention:

1. freedom to provide services;
2. company law;
3. agriculture;
4. environment;
5. justice and home affairs.

### Common Foreign and Security Policy

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's position is on the development and capability of the Common Foreign and Security Policy; and if he will make a statement. [9974]

**Mr. Douglas Alexander:** As stated in the White Paper issued on 30 June 2005, the Government are a strong supporter of developing more active, coherent and capable EU external policies, including the Common Foreign and Security Policy, as set out in the European Security Strategy of December 2003. The Government's priorities in this area are set out in paragraphs 75 to 101 of the White Paper. The Government are also committed to enhancing the military and civilian capabilities from member states available for missions carried out under the European Security and Defence Policy, as an integral part of an active Common Foreign and Security Policy.

### Departmental Conferences

**David T.C. Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Department spent on organising or sponsoring conferences for each of the last five years. [10273]

**Mr. Straw:** Details of these events are not held centrally within the Foreign and Commonwealth Office and could be provided only at disproportionate cost.

### European Union

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans the Government have to improve the regulatory environment in the EU during the UK presidency. [9975]

**Mr. Douglas Alexander:** Advancing Better Regulation in the EU is a priority during the UK presidency. Improving the regulatory environment is central to increasing EU competitiveness. For further information, I refer my hon. Friend to the White Paper on the UK's presidency of the European Union (Cm 6611).

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans the Government have to propose changes to the EU Services Directive during the UK presidency. [9977]

**Mr. Douglas Alexander:** I refer my hon. Friend to the White Paper on the UK's presidency of the European Union (Cm 6611). The Services Directive is a crucial next step for the Single Market, vital for growth and jobs. The UK presidency will take forward discussion with a view to resolving the political and social concerns about the Directive.

### Government Wine Cellar

**Mr. Burstow:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many bottles of *(a)* blue chip list wines, *(b)* fine wines, *(c)* reception or drinking wines and *(d)* spirits and liqueurs were held in the Government wine cellar, managed by his Department in each of the last five years; what the estimated value was in each year; what the total estimated value of the Government wine cellar was in each year; how much was spent on (i) blue chip list wines, (ii) fine wines, (iii) reception or drinking wines and (iv) spirits and liqueurs in each year; what the total expenditure on the Government wine cellar was in each year; and if he will make a statement. [9495]

**Mr. Straw:** The Government wine cellar holds approximately 37–39,000 bottles of wine at any given time. No distinction is made between "blue chip" and "fine" wines. Approximately 3–4,000 bottles of the stock are beverage or reception wines. Small quantities of spirits and liqueurs are held for general use. There has been no significant variation in the last five years.

From 2000–04 the valuation placed on the cellar was approximately £1.6 million. From 2004, on the advice of the National Audit Office, the valuation was changed to reflect the cost price of the stock rather than the previous market valuation. The cellar is now valued at around £0.7 million.

The total annual spend on the cellar varies from around £75,000 per annum to approximately £97,000, depending on stock levels and consumption.

### Iran

**Mr. Jim Cunningham:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Iran's pursuit of a nuclear program. [10302]

**Dr. Howells:** Our policy towards Iran is one of constructive, but critical engagement. We maintain a robust dialogue on issues of concern, such as Iran's nuclear programme.

Our Government, together with France and Germany, supported by the European Union High Representative, (the "E3/EU") has agreed to negotiations with Iran on long-term arrangements as laid down in the Paris Agreement of November 15 2004. These arrangements will provide objective guarantees that Iran's nuclear programme is exclusively for peaceful purposes.

### St. Helena's Chapel (Istanbul)

**Mr. Laxton:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether his Department plans to lease the churchyard of St. Helena's chapel in Istanbul to a commercial organisation; [10759]

(2) what plans his Department has to restore St. Helena's chapel which is part of the British consulate in Istanbul. [10760]

**Mr. Straw:** We are considering options for St. Helena's chapel with the Bishop of Gibraltar in Europe and will continue to work for an outcome which meets the needs both of the Foreign and Commonwealth Office and The Church.

### UK Consular Services

**Dr. Cable:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the capacity of consular services to assist stranded UK travellers in the event of a major scheduled airline failure in *(a)* peak season, *(b)* mid-season and *(c)* low-season. [9361]

**Dr. Howells:** I refer the hon. Member to the reply my hon. Friend the Minister for Europe gave him on 4 July 2005, *Official Report*, column 187W. The capacity of our consular services to assist stranded travellers in peak season would undoubtedly be stretched further than in mid or low season due to factors such as availability of alternative transport and numbers travelling. It is for this reason that the Foreign and Commonwealth Office strongly recommends that UK citizens travelling abroad take out comprehensive travel insurance.

### Visa Applications

**Mrs. May:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent policy of British consulates in *(a)* India and *(b)* Jamaica in respect of visa applicants who were young, single, and of marriageable age. [9830]

**Dr. Howells:** There is no specific policy relating to visa applicants from either India or Jamaica who may be considered young, single and of marriageable age. The UK welcomes all genuine applicants.

**Mike Gapes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the reasons for the length of time taken to process *(a)* the visit visa applications of relatives of Mr. Mirza lodged in July 2004 reference numbers 851813, 851815, 851816, 851832 and 851782 and *(b)* the appeals lodged in January 2004. [9448]

**Dr. Howells** *[holding answer 6 July 2005]:* I regret that I cannot provide my hon. Friend with this information as under the Data Protection Act, we cannot disclose details of individual cases in a public forum without the individual's written consent. My noble Friend the Lord Triesman of Tottenham, the Foreign and Commonwealth Minister responsible for entry clearance matters arising overseas, has however written to my hon. Friend about these applications.

## TRANSPORT

### A380 Aircraft

**Mr. Gordon Prentice:** To ask the Secretary of State for Transport if he will list those UK airports that will be able to handle the A380 aircraft; and if he will make a statement. [9676]

**Ms Buck:** I understand that both Heathrow and Manchester airports will be able to handle the A380 when it enters into service in 2006. Nottingham East Midlands airport will also accept the A380 from 2006 but for cargo purposes only.

Gatwick airport will be able to accept the A380 in 2006 on diversion only with plans for full operations in 2008. Stansted airport has plans to handle the A380 in 2011.

### Aircraft Noise (Twickenham)

**Dr. Cable:** To ask the Secretary of State for Transport what the average noise level above the Twickenham area for London Heathrow take-offs and landings *(a)* excluding and *(b)* including Concorde has been in each of the last 10 years for which figures are available. [10082]

**Ms Buck:** There is no specific noise monitoring of flights in the Twickenham area. The Civil Aviation Authority's Environmental Research and Consultancy Department produces annual noise contours at Heathrow on behalf of the Department. These are published on the Department's website. The latest report (ERCD 0401, July 2004) shows that Twickenham lies outside the 57dBA contour area normally considered to represent the onset of significant community annoyance.

### Blue Badges

**Mr. Amess:** To ask the Secretary of State for Transport (1) what steps he is taking to reduce the theft of disabled persons' Blue Badges; [10396]

(2) if he will make it his policy to set up a national register of disabled persons' Blue Badge holders to prevent the theft and reuse of disabled persons' Blue Badges; [10397]

(3) if he will introduce legislation to make it a criminal offence intentionally to use a disabled person's Blue Badge known, or reasonably known, to be stolen; and if he will make a statement; [10398]

(4) if he will introduce legislation to make it an offence to park in a designated disabled persons parking bay without displaying a Blue Badge. [10399]

**Ms Buck:** The Department has made provision for a power to inspect Blue Badges through Section 94 of the Traffic Management Act 2004 and we will shortly be consulting on the guidance for enforcement officers and badge holders. The new power will be introduced later in 2005 by Commencement Order once the necessary guidance is in place. We are also reintroducing a hologram onto the badge as part of a draft regulatory package that we hope to consult on during the summer with the intention of implementing later in the year. The

Department is also discussing with the Home Office ways in which the abuse of Blue Badges, including theft, can be tackled.

The Department has recently let a research contract looking into the feasibility of a national Blue Badge database. This is scheduled for completion in December 2005, when the final report containing recommendations should be available.

It is already an offence under Section 21 (4B) of the Chronically Sick and Disabled Persons Act 1970, as introduced by Section 35(4) of the Road Traffic Act 1991, to drive a motor vehicle displaying a badge unless the badge is properly issued and displayed. It is also an offence under Section 47 of the Road Traffic Regulation Act 1984 to park a vehicle which is not displaying a badge in a designated disabled persons' parking bay.

### Concessionary Travel

**Sandra Gidley:** To ask the Secretary of State for Transport how much money will be allocated to each local authority to cover the cost of the concessionary travel fare scheme for pensioners. [9787]

**Ms Buck:** Final decisions on the distribution of the extra funding have not been made.

### Consultation (North-West)

**Mrs. Ellman:** To ask the Secretary of State for Transport which organisations he consults when considering transport issues affecting the north-west region. [10427]

**Ms Buck:** On matters specific to the north-west we consult the local authorities, and regional representative bodies and a range of interest groups. National consultations on the whole range of transport matters will also include organisations representing the interests of those in the north-west.

### Crossrail

**Mr. Hayes:** To ask the Secretary of State for Transport if he will make a statement on private sector investment in the Crossrail project. [10369]

**Derek Twigg** *[holding answer 7 July 2005]:* I refer the hon. Member to the answer given to the hon. Member for Southport (Dr. Pugh) on 16 June 2005, *Official Report*, column 528W.

### Driving Licences (Eye Conditions)

**Mrs. Gillan:** To ask the Secretary of State for Transport what assessment he has made of the merits of issuing restricted driving licences to people with retinistis pigmentosa. [9036]

**Dr. Ladyman:** Based on current guidelines and expert advice, restricted licences (other than short period licences to allow for regular review) are not issued to those with retinitis pigmentosa.

A European Commission medical expert working group has been considering the medical standards applied across the European Union in relation to vision and driving and is due to report shortly. Existing licensing arrangements for people with visual problems will be reviewed in light of this report.

**Mrs. Gillan:** To ask the Secretary of State for Transport if he will assess the merits of introducing a restricted driving licence to drivers who marginally fail the mechanical 120 degree test resulting from European Directive (91/439/EEC) which would be indicated on a vehicle with an R sign and which would restrict drivers to a speed of 40 mph and prohibit them from driving on motorways. [9037]

**Dr. Ladyman:** A European Commission medical expert working group has been considering the medical standards applied across the European Union in relation to vision and driving and is due to report shortly. Existing licensing arrangements for people with visual problems will be reviewed in light of this report, but it is unlikely that we will introduce a restricted license of the type described.

### Driving Test Results

**Mr. Michael Foster:** To ask the Secretary of State for Transport how many *(a)* passes and *(b)* failures of motor car driving tests there were in each test centre in Worcestershire in each of the last five years. [11067]

**Dr. Ladyman:** The results of practical car driving tests conducted at Worcester driving test centre in each of the last five years are shown in the table:

*Worcester driving test centre pass/fail stats 2000–05*

| | *Fail* | *Pass* | *Total* | *Percentage pass* |
|---|---|---|---|---|
| 2000–01 | 2,368 | 1,987 | 4,385 | 45.6 |
| 2001–02 | 2,430 | 2,379 | 4,809 | 49.5 |
| 2002–03 | 2,436 | 2,378 | 4,814 | 49.4 |
| 2003–04 | 2,868 | 2,729 | 5,597 | 48.8 |
| 2004–05 | 3,961 | 3,150 | 7,111 | 44.3 |

### Hastings to Bexhill Link Road

**Gregory Barker:** To ask the Secretary of State for Transport what representations he has received opposing the proposed Hastings to Bexhill Link Road; and if he will make a statement. [10621]

**Dr. Ladyman** *[holding answer 7 July 2005]:* My Department has, over the last twelve months, received written representations both "for" and "against" the Bexhill to Hastings Link Road, a proposed local transport major road scheme. Around 750 representations were received opposing the scheme.

### Heathrow

**Mr. Davey:** To ask the Secretary of State for Transport what extra security measures will be put in place to deal with increased traffic through Heathrow as a result of a fifth terminal being built. [10307]

**Ms Buck:** Terminal Five, like the rest of Heathrow and other UK airports, will be subject to the UK national aviation security programme which is in place to prevent unlawful interference with civil aviation in the UK.

**Mr. Davey:** To ask the Secretary of State for Transport whether the noise insulation scheme will be applicable to Kingston as a result of the fifth terminal being built at Heathrow. [10308]

**Ms Buck:** There are no requirements for provision of noise insulation that relate to the construction or coming into use of the fifth terminal at Heathrow.

Government policy on measures to address the impacts of future airport growth are set out in the White Paper, "The Future of Air Transport"[1]. We expect airport operators to offer acoustic insulation to any residential property which suffers a daytime noise level of 63dBA Leq[2] and a large increase in noise (3dBA $L_{eq}$ or more). Noise contours to determine the relevant boundaries should be produced in 2007, comparing noise levels in 2006 with those in 2002, and at 5 yearly intervals thereafter.

Proposals for new noise insulation schemes in respect of night-time noise are set out in the consultation paper "Night Flying Restrictions at Heathrow, Gatwick and Stansted Airports: Stage 2 of Consultation on Restrictions to apply from 30 October 2005" that we published in June[3]. The map at annex G of the consultation paper shows the proposed boundaries for the Heathrow scheme do not include any part of Kingston-upon-Thames. The consultation closes on 16 September.

[1] Cm 6046, December 2003.

[2] A measure of long-term average noise exposure. For aircraft it is the level of a steady sound which, if heard continuously over the same period of time, would contain the same total sound energy as all the aircraft noise events.

[3] The forthcoming publication of the consultation paper was announced on 9 June 2005, House of Commons, *Official Report*, column 59WS.

**Mr. Davey:** To ask the Secretary of State for Transport what estimate his Department has made of the revenue that will be generated by the expansive shopping arena planned for the fifth terminal at Heathrow. [10310]

**Ms Buck:** The provision of retail facilities was considered during the Heathrow Terminal 5 planning inquiry. The inquiry inspector's conclusions and his recommendation that Terminal 5 should go ahead were accepted in the decision letter of 20 November 2001.

The retail revenue that will be generated from the shopping facilities planned for T5 is a matter for the airport operator.

### Identity Card

**Mr. Garnier:** To ask the Secretary of State for Transport what estimate he has made of the cost of equipping premises for which his Department has responsibility with identity card readers, with particular reference to *(a)* airports, *(b)* seaports and *(c)* the British Transport Police. [9888]

**Ms Buck:** We have been working with the Home Office to identify areas where the Identity cards Scheme could provide business benefits. On 28 June 2005, my right hon. Friend the Home Secretary placed in the Library a paper containing the latest estimates of benefits of the Identity Cards Scheme which shows that the benefits outweigh the costs once the scheme is fully operational. The cost of equipping premises will depend on the nature of the use of the Identity Cards Scheme and the type of identity check(s) necessary to deliver the business benefits. In some cases, benefits could be realised without the use of card readers and the cost of installing any readers needs to be considered alongside future plans to refresh or upgrade IT systems. As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit which will allow us to further refine our estimates of costs and benefits.

### Lancaster Link Road

**Geraldine Smith:** To ask the Secretary of State for Transport what objections his Department has made to Lancashire county council's proposals to build a link road to the motorway south of Lancaster. [10151]

**Dr. Ladyman:** In 2001 the Department for Transport considered the western bypass, a major scheme proposal to link Heysham with the M6. The Department's view, as expressed in the local transport capital expenditure letter, was that the proposal should be compatible with the Lancaster local plan. I understand that Lancashire county council are preparing new proposals as part of the local transport plan process. It would be inappropriate to comment further until the Department has received the authority's proposals and considered the scheme in accordance with our major scheme guidance.

### Merchant Navy

**Mr. Brazier:** To ask the Secretary of State for Transport what the size of the UK merchant marine was by *(a)* tonnage and *(b)* number of ships in each year between 1994 and 2004. [9961]

**Dr. Ladyman:** The tonnage and number of trading vessels of 500 gt and over registered in the UK at the end of each year between 1994 and 2004 were as follows:

| *End of year* | *Gross tonnage (Thousand)* | *Deadweight tonnage (Thousand)* | *Number* |
|---|---|---|---|
| 1994 | 3,637 | 3,889 | 282 |
| 1995 | 3,729 | 3,981 | 271 |
| 1996 | 3,260 | 3,285 | 257 |
| 1997 | 2,791 | 2,381 | 246 |
| 1998 | 3,051 | 2,669 | 257 |
| 1999 | 3,171 | 2,712 | 264 |
| 2000 | 4,550 | 3,730 | 305 |
| 2001 | 5,006 | 4,244 | 317 |
| 2002 | 7,085 | 6,661 | 386 |
| 2003 | 9,944 | 9,808 | 483 |
| 2004 | 10,221 | 10,499 | 486 |

*Note:*
The statistics are taken from "Maritime Statistics 2003", published by DfT.

**Mr. Brazier:** To ask the Secretary of State for Transport how many *(a)* officers and *(b)* seamen were serving in the merchant marine in each year between 1994 and 2004. [9962]

**Dr. Ladyman:** Estimates of the number of UK merchant navy officers and ratings are available for 1997 to 2004 only, as follows:

| | *Officers* | *Ratings* | *Total* |
|---|---|---|---|
| 1997 | [1]14,300 | 10,800 | 25,100 |
| 1998 | [1]13,500 | 10,800 | 24,300 |
| 1999 | 13,900 | 8,900 | 22,800 |
| 2000 | 15,100 | 10,300 | 25,400 |
| 2001 | 12,800 | 6,400 | 19,200 |
| 2002 | 14,000 | 8,900 | 22,900 |
| 2003 | 16,000 | 10,500 | 26,500 |
| 2004 | 15,800 | 9,600 | 25,400 |

[1] Certificated officers only

*Notes:*
1. Officers and ratings estimates comprise deck, engine, technical and hotel/catering grades. Cadets are excluded.
2. The estimates are taken from "UK Seafarer Statistics", published by DfT.

### Motorway Noise

**Mr. Robathan:** To ask the Secretary of State for Transport what estimate he has made of the number of households east of the M1 between junction 10 and junction 11 adversely affected by noise, broken down by decibel levels; and if he will make a statement on the acoustic screening on that stretch of motorway. [10358]

**Dr. Ladyman:** In a report completed in 2000, the Agency's consultants identified 772 properties in an area chiefly concentrated around Junction 11 with noise levels of 68 dB(A) or more. Of this number, 523 properties are located on the eastern side of the M1. The noise level ranges for the properties on the eastern side are as follows.

| *Noise level range* | *Number of properties* |
|---|---|
| 68–70 dB(A) | 279 |
| 71–75 dB(A) | 187 |
| 76–80 dB(A) | 51 |
| Over 80 dB(A) | 6 |

In September 2003 the Highways Agency completed the first phase of a scheme to provide acoustic fences on both sides of the M1 at Junction 11 at Luton. Phase 2 began in January 2005 and is due for completion in August 2005.

### Night Flights (Heathrow)

**Dr. Cable:** To ask the Secretary of State for Transport on how many nights there were disruptions or delays sufficient to cause an increase in flights above the scheduled number taking off between 23.30 and 06.00 from London Heathrow in each of the last five years for which figures are available. [10087]

**Ms Buck:** The arrangements under which aircraft may be granted dispensations from the night restrictions have applied for many years. They were confirmed as part of the present night restrictions regime at Heathrow, Gatwick and Stansted announced on 10 June 1999, *Official Report*, columns 378–80. Information on dispensations is given in the following table in the form in which it is held, showing the number granted each season. Some dispensations were for a single additional flight (either landing or take-off) on a particular night while on other occasions several dispensations have been granted on a single night for the same reason, eg delays resulting from widespread and prolonged air traffic disruption. The number of nights where there were 10 or more additional departures is also given.

| *Night restrictions season*[1] | *Dispensations for delays*[2] | *Dispensations for VIPs/ emergency relief etc*[3] | *Emergencies*[4] | *Nights with 10 or more additional departures* |
|---|---|---|---|---|
| Summer 2000 | 163 | 1 | 11 | 3 |
| Winter 2000–01 | 136 | 0 | 47 | 3 |
| Summer 2001 | 129 | 5 | 15 | 2 |
| Winter 2001–02 | 100 | 5 | 27 | 4 |
| Summer 2002 | 164 | 7 | 28 | 2 |
| Winter 2002–03 | 230 | 5 | 161 | 4 |
| Summer 2003 | 44 | 3 | 15 | 1 |
| Winter 2003–04 | 62 | 1 | 41 | 2 |
| Summer 2004 | 40 | 2 | 9 | 2 |
| Winter 2004–05 | 0 | 3 | 21 | 0 |

[1] The season change with the clocks.
[2] Delays to aircraft which are likely to lead to serious congestion at the aerodrome or serious hardship or suffering to passengers or animals; delays to aircraft resulting from widespread and prolonged disruption of air traffic.
[3] Dispensations granted by the Secretary of State, mainly where the aircraft is carrying a VIP or cargo intended for emergency relief.
[4] Emergencies where there is an immediate danger to life or health.

### Parking Penalties

**Tom Brake:** To ask the Secretary of State for Transport how many *(a)* appeals against parking penalty charge notices and *(b)* successful appeals there were in each local authority in England in the last five years for which figures are available. [8228]

**Ms Buck:** This information is collected by the National Parking Adjudication Service (NPAS) outside London and by the Parking and Traffic Appeals Service (PTAS) inside London and published by them in their annual reports. The latest NPAS report is for 2003 and PTAS report is for 2003–04 and can be downloaded from the following addresses:

www.parking-appeals.gov.uk/accessible/about/anreport.asp
www.parkingandtrafficappeals.gov.uk/annualreports.asp

### Pensioners (Free Travel)

**Mr. Drew:** To ask the Secretary of State for Transport if he will estimate the cost of providing a free bus pass for pensioners that can be used on all bus services in England. [10801]

**Ms Buck:** Initial analysis suggests the cost could be around £100 million a year on top of the additional funding (£350 million in 2006–07) already being provided.

**Mr. Betts:** To ask the Secretary of State for Transport if he will estimate the cost of extending the pensioner free travel scheme to cover journeys by light-rail. [10804]

**Ms Buck:** Initial analysis suggests that it could cost around £15 million per year on top of the additional funding (£350 million in 2006–07) already being provided to cover local bus services.

### Public Highways (Expenditure)

**Mr. Letwin:** To ask the Secretary of State for Transport if he will make a statement on levels of expenditure on *(a)* maintenance and *(b)* repair of public highways by highways authorities between 2003–04 and 2005–06. [9166]

**Ms Buck:** For the maintenance of trunk roads, the Government provided £1,060,408 in 2003–04, £1,062,755 in 2004–05 and has budgeted £1,186,049 for 2005–06.

Through the Local Transport Plan Settlement, the Government provided £610 million for local authority (capital) highway maintenance in 2003–04, £651 million in 2004–05 and £660 million in 2005–06.

In addition, revenue provision of £2,005 million for 2003–04, £2,055 million for 2004–05 and £2,053 million for 2005–06 has been made to local authorities, for highway maintenance through local authorities' formula for standard spending.

Funding provided to local authorities for road maintenance is not ring fenced. It is for the authorities themselves to decide upon their spending priorities, across the whole range of services that they provide.

### Public Transport

**Mr. Duncan:** To ask the Secretary of State for Transport if he will take steps to ensure public transport vehicles are equipped with forced air ventilation systems. [9307]

**Mr. Darling:** I refer the hon. Member to my answer given to him today (UIN 9017).

**Mr. Duncan:** To ask the Secretary of State for Transport what the health and safety requirements are for ventilation on public transport; and whether public transport vehicles are required to have forced air ventilation systems installed. [9017]

**Mr. Darling:** Although there are no legal requirements for ventilation on trains under health and safety law, the Health and Safety Executive publishes guidance which recommends that rail operators have on-board ventilation systems that

> 'should be capable of providing and maintaining a satisfactory environment throughout the range of foreseeable conditions the train may encounter (including delays and failures)'.

Buses (other than minibuses) and coaches in public service must provide adequate ventilation for the driver and passengers without the need to open any window. Ventilation may be provided by forced-air systems, such as fans or air-conditioning units, but are not required to be of this type.

### Rail Passengers Council

**Mrs. Ellman:** To ask the Secretary of State for Transport what *(a)* procedures and *(b)* selection criteria he used when making appointments to the Rail Passengers Council. [10425]

**Derek Twigg:** The Secretary of State made the recent 12 member appointments to the new Rail Passengers Council following the procedures set out in the code of practice for ministerial appointments to public bodies, which is issued by the Office of the Commissioner for Public Appointments (OCPA). The selection criteria were published as part of the open recruitment process which was regulated by OCPA and validated by an independent assessor.

**Mrs. Ellman:** To ask the Secretary of State for Transport what assessment he has made of the adequacy of representation of the interests of passengers in the north-west in the Rail Passengers Council. [10426]

**Derek Twigg:** The new Rail Passengers Council (RPC) is being established as a single, national body covering all of Great Britain. Members have been appointed to represent passengers on this basis, working in partnership with the RPC staff. The selection of members recently appointed to the new RPC provide the balance of skills and experience that will drive forward the work of the new RPC in future and build the organisation's standing and reputation among passengers and the rail industry.

### Railways

**Mrs. Riordan:** To ask the Secretary of State for Transport how many train operators have access agreements on the East Coast Main Line. [9303]

**Derek Twigg:** 36 train operators have track access agreements which include rights to operate trains on, or over part of, the East Coast Main Line.

### Roads

**Stewart Hosie:** To ask the Secretary of State for Transport what discussions he has had with the Scottish business community on proposals for road pricing. [5131]

**Dr. Ladyman:** In line with their manifesto commitments, the Government will examine the potential of moving away from the current system of motoring taxation towards a national system of road pricing. The Government have made clear the need for a broad consensus on this issue and continues to discuss transport matters with the business community.

**Mr. Amess:** To ask the Secretary of State for Transport what the *(a)* daily volume of traffic on the A127 between the M25 and Southend and *(b)* capacity of the A127 was in (i) 1997, (ii) 1999, (iii) 2000 and (iv) the last period for which figures are available; and what the projected traffic volume is for (A) 2006, (B) 2008 and (C) 2010. [9913]

**Dr. Ladyman:** Daily traffic volume on the A127 between the M25 and Southend measured using annual average daily flow (AADF) was in the following range:

| | *AADF (lowest and highest)* |
|---|---|
| 1997 | 54,000–70,000 |
| 1999 | 56,000–70,000 |
| 2000 | 55,000–62,000 |
| 2004 | 60,000–67,000 |

The capacity, measured using congestion reference flow, of the A127 in the same years was as follows:

| | *Capacity* |
|---|---|
| 1997 | 68,000 |
| 1999 | 68,000 |
| 2000 | 68,000 |
| 2004 | 68,000 |

For projected traffic volumes I refer the hon. Member to "The Future of Transport: A network for 2030" White Paper published by my Department in July 2004.

**Mr. Amess:** To ask the Secretary of State for Transport what the *(a)* daily volume of traffic on the A13 between the M25 and Southend and *(b)* capacity of the A13 was in (i) 1997, (ii) 1999, (iii) 2000 and (iv) the last period for which figures are available; and what the projected traffic volume is for (A) 2006, (B) 2008 and (C) 2010. [9914]

**Dr. Ladyman:** Daily traffic volume on the A13 between the M25 and Southend measured using annual average daily flow (AADF) was in the following range:

| | *AADF (lowest and highest)* |
|---|---|
| 1997 | 15,000–71,000 |
| 1999 | 15,000–74,000 |
| 2000 | 15,000–75,000 |
| 2004 | 21,000–88,000 |

The capacity, measured using congestion reference flow, of the A13 in the same years was as follows:

| | *Capacity* |
|---|---|
| 1997 | 59,000 |
| 1999 | 59,000 |
| 2000 | 59,000 |
| 2003 | 58,000 |

For projected traffic volumes I refer the hon. Member to "The Future of Transport: A network for 2030" White Paper published by my Department in July 2004.

### Safety Cameras

**Mr. Amess:** To ask the Secretary of State for Transport how many speed camera tickets have been challenged in each year since 1997 in *(a)* England, *(b)* Essex and *(c)* Southend; and how many were successful. [10914]

**Dr. Ladyman:** This information is not available.

**Mr. Amess:** To ask the Secretary of State for Transport what research his Department is undertaking into accidents around speed camera sites. [10395]

**Dr. Ladyman:** The independent three-year report into the National Safety Camera Programme, published in June 2004, showed a reduction in deaths and serious injuries at camera sites. A fourth year report, reflecting the roll-out of the programme to 35 safety camera partnerships, is in preparation. The Department's 2005–06 research programme also includes new research into understanding the mechanisms of change in accident occurrence and speed behaviour brought about by speed enforcement by cameras to help improve our understanding of the wider effects of safety cameras.

### Statutory Instruments

**Mr. Amess:** To ask the Secretary of State for Transport what statutory instruments have been sponsored by his Department since 1997. [10392]

**Ms Buck:** Lists of all statutory instruments (SIs) from 1 January 1998 to 30 June 2005, prepared by the Office of Public Sector Information (OPSI) have today been placed in the Library. These lists, prepared in alphabetical order by department, detail for each year from 1998 the number and title of each statutory instrument sponsored by the Department. There are separate lists for General and Local SIs. SIs which have been originated by departments but which were also Orders in Council are only listed under the Privy Council Office (PCO).

### Tonnage Tax

**Mr. Hancock:** To ask the Secretary of State for Transport how many certificates of non-compliance have been issued to companies and groups failing to meet their tonnage tax training obligations; and how many were subsequently cancelled. [11510]

**Dr. Ladyman:** No certificates of non-compliance have been issued.

**Mr. Hancock:** To ask the Secretary of State for Transport how many companies or groups have been required to make higher rate payments for failing to meet their obligations since the tonnage tax was introduced. [11511]

**Dr. Ladyman:** Three companies or groups have been required to pay a surcharge on their payments in lieu of training since tonnage tax was introduced.

**Mr. Hancock:** To ask the Secretary of State for Transport how many companies have submitted training commitments for his approval since the tonnage tax was introduced. [11512]

**Dr. Ladyman:** 88 company/groups have applied for approval of a training commitment since tonnage tax was introduced.

**Mr. Hancock:** To ask the Secretary of State for Transport how many companies have been allowed to make tonnage tax payments in lieu of training; what the total amount of such payments has been; and to whom such payments are made. [11722]

**Dr. Ladyman:** We have approved planned payments in lieu of training (PILOT) for 19 companies/groups. Other companies/groups have paid PILOT because of shortfalls in training against the training commitment, and/or to meet incremental training commitments arising from additional vessels entering their fleets. PILOT payments are made to the Maritime Training Trust (MTT), which is an independent body with members from the Chamber of Shipping and the maritime trade unions. The MTT allocates the monies received to promote UK seafarer training. The total amount of PILOT received by the MTT to date is £3,844,909.

**Mr. Hancock:** To ask the Secretary of State for Transport how many companies or groups made returns to him during the tonnage tax regime during the last full year for which figures are available on *(a)* training provided and *(b)* payments in lieu of training. [11723]

**Dr. Ladyman:** 66 companies/groups have provided end of period adjustment returns in respect of 2003–04, which is the last full tonnage tax training commitment year for which figures are available. With a few returns outstanding, a total of 11,090 months of actual training was provided, and 2,420 PILOT payments were due.

**Mr. Hancock:** To ask the Secretary of State for Transport what the minimum training obligation is for a company or group to qualify for tonnage tax exemption. [11724]

**Dr. Ladyman:** The minimum training obligation is to recruit and train one officer trainee per year for every 15 officer posts in the company/group's effective officer complement.

### Transport Infrastructure

**Bob Spink:** To ask the Secretary of State for Transport if he will make a statement on *(a)* road transport infrastructure needs and *(b)* rail infrastructure needs in (i) Castle Point and (ii) Essex. [10947]

**Ms Buck:** Road transport infrastructure needs of Essex are currently subject to appraisal by the three Essex transport authorities through their local transport plans. Provisional plans for the period 2006 to 2011 are due to be submitted by the end of July. The SRA have completed their regional planning assessment for rail covering the eastern region. They are due to report their findings shortly.

**Mrs. Dorries:** To ask the Secretary of State for Transport what recent discussions he has had with *(a)* ministerial colleagues and *(b)* others about transport provision in the county of Bedfordshire. [11094]

**Ms Buck:** The Government office for the east of England has met with chief officers at Bedfordshire county council to discuss the importance of transport provision in the county in relation to other services.

The Government office for the east of England has met a number of times with Bedfordshire county council officers in the last six months to discuss their delivery of local transport schemes and about their forthcoming second local transport plan.

### Untaxed Vehicles

**Mr. Amess:** To ask the Secretary of State for Transport how many drivers in *(a)* Southend, *(b)* Essex and *(c)* England and Wales have been convicted of driving without a road-tax licence in each of the last five years for which figures are available. [10475]

**Dr. Ladyman:** No figures are available for Southend. The information for Essex and for England and Wales is as follows:

| | *Essex* | | *England and Wales, including Essex* | |
|---|---|---|---|---|
| | *Successful prosecutions* | *Out of court settlements* | *Successful prosecutions* | *Out of court settlements* |
| 2000 | 4,127 | 3,942 | 196,134 | 177,099 |
| 2001 | 4,399 | 4,179 | 213,054 | 179,263 |
| 2002 | 4,092 | 3,315 | 222,328 | 167,747 |
| 2003 | 3,638 | 3,135 | 225,549 | 164,156 |
| 2004 | 3,349 | 2,275 | 182,691 | 97,943 |

The introduction of continuous registration at the beginning of 2004 gave DVLA the ability to enforce directly from the licensing computer record. As a result an additional 323,554 late licensing penalties were paid in 2004.

## WORK AND PENSIONS

### Child Support Agency

**John Cummings:** To ask the Secretary of State for Work and Pensions when he expects the problems with the Child Support Agency computer system to be resolved. [1593]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Stephen Geraghty to Mr. John Cummings, dated 11 July 2005:*

In reply to your recent parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, when he expects the problems with the Child Support Agency computer system to be resolved.

The Agency has acknowledged that there are problems with the IT system and there are some serious defects. Work to stabilise the system is ongoing and this has already brought about improvements. The Agency is continuing to work with the computer supplier (EDS) to remedy the problems and IT releases were successfully implemented in December 2004 and May 2005 to resolve various system performance issues and build upon the improvements already made.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what assessment he has made of the recommendations of the Child Support Agency's internal audit; and who carries out the agency's internal audit functions. [9324]

**Mr. Plaskitt:** The internal audit of CSA is undertaken by DWP Internal Assurance Services, a corporate team independent of the Agency and who operate in accordance with the Government internal audit standards.

The internal audit work in respect of CSA is overseen by the CSA Audit Committee which is chaired by an independent non-executive Director who is also a member of the CSA Management Board. The NAO also attend the CSA Audit Committee.

Internal audit recommendations and the implementation of them by management is reviewed at each Audit Committee meeting.

### Financial Assistance Scheme

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will give permission to pension scheme trustees eligible for the financial assistance scheme to start paying some pension to scheme members or widowed spouses of scheme members who *(a)* are beyond their scheme's pension age, *(b)* are terminally ill and *(c)* would qualify for ill health early retirement. [11618]

**Mr. Timms:** Decisions on when and in what circumstances payments should be made from pension schemes to pension scheme members are a matter for the trustees of the scheme, although we would encourage them to start paying pensions as quickly as possible

The draft financial assistance scheme (FAS) regulations that were laid before Parliament on 22 June and await parliamentary approval, provide for FAS initial payments to be made to eligible scheme members who have reached age 65 but the pension scheme has not completed wind up, and also to those aged under 65 with a terminal illness. These payments which would top up any payments made by the scheme trustees to 60 per cent. of core pension rights would be made as soon as possible after the affected scheme had been assessed as eligible for the FAS.

### Housing Benefit

**Jim Cousins:** To ask the Secretary of State for Work and Pensions what the average processing times for housing benefit claims are in each *(a)* London borough, *(b)* local housing authority in the North East and *(c)* Pathfinder area, broken down by tenure sector. [10909]

**Mr. Timms:** The information requested is in the table.

*Average housing benefit clearance times (calendar days) in local authorities listed; fourth quarter 2004–05*

| 31 March 2005 | All housing benefit | Rent rebate | Rent allowance |
|---|---|---|---|
| Alnwick | 35.93 | 25.24 | 44.07 |
| Argyll and Bute | 35.51 | 30.87 | 39.31 |
| Barking | 70.02 | 63.1 | 82.17 |
| Barnet | 35.47 | 31.24 | 37.01 |
| Berwick-upon-Tweed | 31.82 | 23.16 | 39.81 |
| Bexley | 44.71 | 34.76 | 46.14 |
| Blackpool | 18.48 | 13.18 | 19.45 |
| Blyth Valley | 24 | 22.51 | 25.88 |
| Brent | 37.35 | 32.24 | 38.93 |
| Brighton and Hove | 31.84 | 28.24 | 33.41 |
| Bromley | 29.62 | n/a | 29.62 |
| Camden | 34.79 | 30.69 | 37.99 |
| Castle Morpeth | 23.68 | 19.52 | 26.94 |
| City of London | 25.51 | 23.7 | 28.64 |
| Conwy | 32.01 | 29.88 | 32.68 |
| Coventry | 53.61 | n/a | 53.61 |
| Croydon | 32.85 | 17.52 | 43.52 |
| Darlington | 31.88 | 25.41 | 34.81 |
| Derwentside | 28.39 | 25.66 | 30.83 |
| Durham | 29.17 | 25.13 | 34.66 |
| Ealing | 61.2 | 59.91 | 61.86 |
| Easington | 36.01 | 35.86 | 36.16 |
| East Riding of Yorkshire | 29.46 | 22.1 | 33.78 |
| Edinburgh | 43.79 | 33.32 | 55.14 |
| Enfield | 39.08 | 32.91 | 41.83 |

Local authority reported data.

### Incapacity Benefit

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions what plans he has to help existing long-term claimants of incapacity benefit. [11444]

**Mrs. McGuire:** All existing claimants of incapacity benefit are offered personal help and support to return to work through a range of jobcentre plus and private and voluntary sector provision such as the new deal for

disabled people, work preparation and workstep. Financial incentives which make an eventual return to full-time work more viable are also available through the permitted work rules, benefit run-ons and tax credits.

Our Pathways to Work pilots offer a sophisticated range of back to work and rehabilitation support. We are expanding the coverage of our compulsory work-focused interview (WFI) regime to existing claimants to make sure they are fully aware and are actively encouraged to take up the help and support on offer. Our proposals for reforming incapacity benefit will build on Pathways to Work to enable as many recipients as possible to realise their own aspirations of a return to work. A Green Paper will be published later this year.

### Maternity Grant

**John Hemming:** To ask the Secretary of State for Work and Pensions what the value of the maternity grant was for each year between 1995 and 2002. [7501]

**Mr. Plaskitt:** A claim for a Sure Start maternity grant may be made from the 29th week of pregnancy and up to three months after the baby is born, adopted or the subject of a parental order in respect of a surrogate birth. Between 1995 and 26 March 2000, social fund maternity payments were paid at the rate of £100 per child.

These were gradually replaced by Sure Start maternity grants from 27 March 2000 and were paid at the rate of £200 per child for babies due, born, adopted or the subject of a parental order in respect of a surrogate birth on or after 11 June 2000. This was increased to £300 from 17 September 2000 for babies due, born, adopted or the subject of a parental order in respect of a surrogate birth on or after 3 December 2000.

From 31 March 2002, the Sure Start maternity grant was increased to £500 per child for babies due, born, adopted or the subject of a parental order in respect of a surrogate birth on or after 16 June 2002.

### Medical Assessment Centres

**Judy Mallaber:** To ask the Secretary of State for Work and Pensions from which towns and villages in Amber Valley claimants attend medical assessment centres in *(a)* Derby, *(b)* Chesterfield, *(c)* Mansfield and *(d)* Nottingham. [11220]

**Mrs. McGuire:** The information is not available in the requested format.

Information on the postcode areas that make up the Amber Valley constituency, and the medical examination centres that customers from that area would normally travel to for their medical examination, are in the table.

| *Postcode* | *Medical assessment centre* |
|---|---|
| NG16 | Derby |
| DE21 | Derby |
| DE5 | Derby |
| DE56 | Derby |
| DE6 | Derby |
| DE7 | Derby |
| DE75 | Derby |
| DE4 | Chesterfield |
| DE55 | Chesterfield |

*Notes:*
1. The postcode DE75 falls within the Amber Valley constituency only.
2. Remaining postcodes cover a number of constituencies, including Amber Valley.

*Source:*
DWP Medical Provision and Contracting Team

### Occupational Pensions

**Mr. Laws:** To ask the Secretary of State for Work and Pensions when he was first contacted by the parliamentary ombudsman in relation to her inquiry into complaints about occupational pensions; and when he completed his submission of evidence to the inquiry. [11616]

**Mr. Timms:** The parliamentary ombudsman wrote formally to my permanent secretary on 16 November 2004 regarding her investigation into complaints about occupational pensions. An initial response was sent on 20 December. The ombudsman's investigation continues and my officials continue to provide any information requested.

### Pension Scheme Records

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will ask the pensions regulator to instruct trustees of all pension schemes winding up either to keep all records or to forward them to the regulator or his Department. [11617]

**Mr. Timms:** The pensions regulator may by notice in writing require a trustee or manager, professional adviser or employer of an occupational or personal pension scheme to produce any document or provide any other information which is relevant to the exercise of the regulator's functions.

Legislation requires trustees to keep written records in connection with a scheme winding up. The pensions regulator has the power to see all documents relating to the pension scheme. A person who without reasonable excuse neglects or refuses to provide information or produce a document when required to do so is guilty of an offence.

## CABINET OFFICE

### Civil Service (Offensive Language)

**Mr. Beith:** To ask the Chancellor of the Duchy of Lancaster if he will take steps to discourage the use of offensive and obscene language in the civil service. [11191]

**Mr. Hutton:** Departments and agencies make clear to their staff through staff handbooks the standards of behaviour expected of them and the action that might be taken against them if their behaviour does not meet these standards. This will include any circumstances in

which the behaviour, action or inaction of individuals significantly disrupts or damages the performance or reputation of the organisation.

### Civil Service (Welsh Speakers)

**Hywel Williams:** To ask the Chancellor of the Duchy of Lancaster what review the civil service has undertaken of the *(a)* numbers and *(b)* location of Welsh speakers employed by the Government and Government agencies outside Wales. [10730]

**Mr. Hutton:** The numbers of Welsh speakers employed by Government Departments and agencies are not collected centrally. A review of Welsh speaking staff employed outside Wales has not been undertaken.

### Civil Service Reform

**David Taylor:** To ask the Chancellor of the Duchy of Lancaster what recent representations he has received on reforming the civil service; and if he will make a statement. [8051]

**Mr. Hutton:** I have received a number of representations on reforming the civil service since my appointment. These have focused on the role of the civil service in helping the Government to deliver better public services, covering subjects such as the Government's information technology (IT) strategy to transform public services, better regulation, the involvement of users in public services and the importance of effective leadership development.

The major programme of civil service reform currently under way addresses each of these issues. The latest position on reform was set out by the head of the home civil service on 20 June in the report, "Delivery and Values One Year On".

## INTERNATIONAL DEVELOPMENT

### Consultants

**Mrs. Dean:** To ask the Secretary of State for International Development what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7024]

**Hilary Benn:** I refer my hon. Friend to the response given by the Economic Secretary to the Treasury on 27 June 2005, *Official Report*, column 1286W.

### Education Projects (Great Lakes and Horn of Africa)

**Mark Simmonds:** To ask the Secretary of State for International Development if he will make a statement on his Department's involvement in education projects in the *(a)* Great Lakes and *(b)* Horn of Africa regions. [6935]

**Hilary Benn:** In Uganda, over the last 10 years we have provided £75 million of direct assistance to the education sector through projects and targeted budget support. The Ugandan Government prefer donors to provide support for the implementation of its Poverty Eradication Action Plan as general budget support and this is now the principal means through which the UK supports the continued expansion of the education sector. In addition, mindful of the continuing insecurity in the north, DFID is supporting UNICEF in funding projects through NGOs that are improving access to basic services, including education.

The UK is the co-ordinating donor for the education sector in Rwanda. We have supported education, through general budget support, £21 million was released between 2000 and 2003 via an 'education window', and our current Poverty Reduction Budget Support monitors education performance as an indicator of progress. Since 2001 we have targeted £13 million to a programme of capacity building. DFID has also worked with the Ministry of Education, with a particular focus on improving girls' education. We have also supported a number of measures to help reduce public financing on higher education.

The Democratic Republic of Congo (DRC) faces immense challenges. Education—like every other sector—deteriorated hugely under the impact of conflict over the past decade. The DRC is moving towards its first democratic elections since the 1960s and we hope this will signal a new start in DRC where an elected Government, with the support of the international community, can work to deliver services to the Congolese people. DFID is already providing some assistance to education; we have been supporting the Bank in the development of their Education Investment programme, and we are supporting the NGO Catholic Relief Services in its project in basic education in North Sankuru. More broadly, we are now looking hard at what DFID's most effective long-term role should be, as part of the wider donor community, in supporting the strengthening and expansion of service delivery in the DRC.

In Sudan, DFID is supporting UNICEF's work in basic education and the international NGO, GOAL'S country wide literacy and livelihoods programme. In the south we are in the process of developing a framework for service delivery which covers health, water and sanitation as well as education, and we are about to launch the second phase of our education and training scholarships scheme, which will be managed by the British Council (£1.4 million 2005–07). Our support for education in the Horn relates mainly to Ethiopia, with a small programme of support in Somalia.

DFID supports the Government of Ethiopia's Education Sector Development Plan (ESDP), which emphasises primary education, through Poverty Reduction Budget Support (PRBS) to the Government of Ethiopia (£30 million 2004–05). The Department works closely with the Ministry of Education and development partners to improve sector dialogue, policies and strategies in education. Gross enrolment rates in primary education have doubled over the last 10 years. In addition, we provide specific technical support in a number of areas (including education management capacity building and HIV/AIDS and education). In particular, we are supporting the Ministry of Education's Teacher Development Programme through a pooled fund with five other bilateral partners. DFID also has a small Innovatory Fund for Education which supports the development and dissemination of innovative practice in education, particularly by NGOs.

We are playing an active role in the coordination and development of the Somalia education sector with other development partners in Nairobi, including UNESCO, UNICEF, USAID, EU and the private sector. We are supporting UNESCO, Save the Children UK and Africa Educational Trust on projects in Somalia that aim to increase opportunities for girls as well as boys in accessing quality basic education, develop textbooks and establish an examination system.

### Gambia

**Mr. Lancaster:** To ask the Secretary of State for International Development whether it is Government policy to support an extension to the Hib disease vaccination programme in Gambia beyond 2007. [9901]

**Mr. Thomas:** The Government welcome the recent study, conducted by the World Health Organisation and the Medical Research Council, showing that the routine immunisation of young children against Hib disease, a major cause of meningitis and pneumonia in developing countries, has virtually eliminated the disease in The Gambia. We hope that these results will encourage other countries in sub-Saharan Africa to persevere with their own immunisation efforts.

Routine Hib vaccination was introduced in The Gambia in 1997 as part of the country's expanded programme of immunisation. No cases of invasive Hib have been detected since 2002. The programme is being supported by the Global Alliance for Vaccines and Immunisation (GAVI), to which DFID has contributed since its inception in 2000. The GAVI is providing $3,229,000 for the Hib and Hepatitis vaccination programme for the period 2002–06 and is currently considering a second phase of support from 2007, taking into account priorities, performance and results, in consultation with the countries concerned. DFID has presently pledged support to the GAVI up to 2007–08.

### Special Advisers

**Bob Spink:** To ask the Secretary of State for International Development if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8816]

**Hilary Benn:** I refer the hon. Member to the response given by the Prime Minister on 4 July 2005, *Official Report*, column 36W.

### Tibet

**Lynne Featherstone:** To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Tibet. [9920]

**Mr. Thomas:** Tibet is one of the poorest provinces in China. DFID is providing £0.5 million per year through Save the Children to meet the costs of programmes on health, sanitation and basic education in Tibet. The FCO also financed several small projects in Tibetan areas of other Chinese provinces over the last year.

### United Nations Population Fund

**Mr. Amess:** To ask the Secretary of State for International Development (1) who the British representative is on the executive board of the United Nations Population Fund; [10563]

(2) whether the UK representative on the executive board of the United Nations Population Fund has connections to non-governmental organisations concerned with abortion related issues. [10891]

**Mr. Thomas:** The UK representatives on the executive board of the United Nations Population Fund do not have any connections to non-governmental organisations concerned with abortion related issues. The British representatives on the executive board of the United Nations Population Fund are DFID officials from its United Nations Commonwealth Department (UNCD) and Foreign and Commonwealth Office (FCO) officials from the UK mission in New York.

## TREASURY

### Alcohol/Drugs-related Deaths

**Mr. Amess:** To ask the Chancellor of the Exchequer how many deaths in which the primary cause was *(a)* alcohol and *(b)* illegal drugs there were in (i) Southend and (ii) Essex in each of the last 10 years for which figures are available. [10557]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. David Amess, dated 11 July 2005:*

The National Statistician has been asked to reply to your recent question asking how many deaths in which the primary cause was *(a)* alcohol and *(b)* illegal drugs there were in (i) Southend and (ii) Essex in each of the last 10 years. I am replying in his absence. (10557)

The most recently available information is for deaths registered in 2004 and deaths occurring in 2003. Relevant figures are only readily available for deaths where the underlying cause was either related to drug poisoning or directly related to alcohol (alcohol abuse, dependence and poisoning, and diseases directly related to alcohol use). It is not possible to identify from death certificates which substance was the primary cause when more than one was involved.

Figures for alcohol-related deaths to usual residents of Southend and Essex registered in the years 1995 to 2004 are given in the attached table. ONS compiles a special database to analyse mortality from drug-related poisoning adding more detail than is available on routine annual extracts. This database is compiled using the annual occurrences extract of mortality data. Figures showing deaths related to drug poisoning involving controlled drugs occurring in the years 1994 to 2003, to usual residents of Southend and Essex, are given in the table below. Information on deaths involving illegal drugs is not available, as how the deceased obtained a particular drug is not recorded at death registration.

It should be noted that the figures on drug-related poisoning are not directly comparable to the figures on alcohol for the following reasons.

The figures on drugs do not include long-term effects of drug taking, whereas the figures on alcohol include cirrhosis of the liver.

Deaths from poisoning which involved both drugs and alcohol are coded as due to drug poisoning, in accordance with international rules for coding cause of death.

The figures on alcohol include only those where the underlying cause was alcohol-related. The figures on specific drugs include any mention of a substance on a death related to drug poisoning.

*Number of alcohol-related deaths[1] and deaths from drug-related poisoning[2] involving controlled drugs,[3] Southend and Essex,[4] 1994 to 2004[5]*

| | 1994 | 1995 | 1996 | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 |
|---|---|---|---|---|---|---|---|---|---|---|---|
| *(a) Alcohol-related deaths* | | | | | | | | | | | |
| (i) Southend | — | 12 | 17 | 17 | 16 | 12 | 18 | 19 | 21 | 26 | 24 |
| (ii) Essex | — | 60 | 82 | 88 | 101 | 95 | 96 | 113 | 102 | 111 | 113 |
| *(b) Deaths from drug-related poisoning involving controlled drugs* | | | | | | | | | | | |
| (i) Southend | 9 | * | 8 | * | 5 | 5 | 7 | 12 | 5 | 10 | — |
| (ii) Essex | 19 | 20 | 15 | 29 | 22 | 28 | 35 | 16 | 21 | 17 | — |

* Fewer than 5 deaths

[1] For the years 1995–2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes selected to define alcohol-related deaths are listed below:
291—Alcoholic psychoses
303—Alcohol dependence syndrome
305.0—Non-dependent abuse of alcohol
425.5—Alcoholic cardiomyopathy
571—Chronic liver disease and cirrhosis
E860—Accidental poisoning by alcohol
For the years 2001–04 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were selected:
F10—Mental and behavioural disorders due to use of alcohol
142.6—Alcoholic cardiomyopathy
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fibrosis and cirrhosis of liver
X45—Accidental poisoning by and exposure to alcohol
The selection of codes to define alcohol-related deaths is described in:
Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. Health Statistics Quarterly 17, pp 5–14.

[2] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E962.0 and E980.0-E980.5for 1994 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes F11-F16, F18-F19, X40-X44, X60-X64, X85 and Y10-YJ4 from 2001 onwards.

[3] Drugs mentioned on the death certificate of a death where the underlying cause was drug poisoning.

[4] Deaths of usual residents of:
(i)—Southend-on-Sea unitary authority
(ii)—County of Essex
Data for the county of Essex does not include deaths to residents of the unitary authorities of Southend-on-Sea or Thurrock.

[5] Data are for deaths registered in each calendar year for alcohol-related deaths and for deaths occurring in each calendar year for deaths related to drug poisoning.

### Bedfordshire (Statistics)

**Mrs. Dorries:** To ask the Chancellor of the Exchequer how much revenue was raised from personal taxation in the constituency of Mid-Bedfordshire in the last financial year for which figures are available. [11010]

**Dawn Primarolo:** The information on revenue raised from personal taxation by parliamentary constituency is not available therefore I refer the hon. Member to the answer I gave to the hon. Member Reading, East (Mr. Wilson) on 21 June 2005, *Official Report*, column 940W.

### Conferences

**David T.C. Davies:** To ask the Chancellor of the Exchequer how much the Department has spent on organising or sponsoring conferences in each of the last five years. [10245]

**John Healey:** Records of the cost of activities such as conferences are not held centrally and so the information requested could be obtained only at disproportionate cost.

### Corporation Taxes

**Chris Huhne:** To ask the Chancellor of the Exchequer what assessment he has made of the impact of the potential mobility of corporations on the yield of corporation taxes to the Exchequer. [11041]

**Dawn Primarolo:** The Government are committed to maintaining a modern, fair and competitive corporation tax system. The UK compares favourably to other major economic partners and tax is only one factor in businesses' location decisions.

### Corruption (Procurement)

**Malcolm Bruce:** To ask the Chancellor of the Exchequer what the definition is of general interest as used by his Department in the draft regulations to implement Article 45 of the EU procurement directive 2004/18/EC; and if he will make a statement on the overriding requirements through which a contracting authority can disregard the duty not to select an economic operator that has been convicted of corruption or bribery as described in that directive. [10081]

**John Healey:** The Government believes that Article 45 of the new procurement directive is very helpful in the fight against fraud and corruption by requiring, for the first time under the EU procurement rules, contracting authorities to exclude suppliers convicted of such offences. At present, such exclusions are voluntary. The article only enables member states to derogate from this requirement for "overriding requirements in the general interest", which is designed to cover exceptional circumstances of national emergency, for example related to the protection of life and security. Our proposed guidance on this article will cover these matters and will provide additional advice to authorities on when the derogation should be invoked. This guidance will be informed by the current consultation exercise on the regulations to implement the new directive.

## Electoral Registration

**Chris Ruane:** To ask the Chancellor of the Exchequer how many people of voting age were *(a)* registered to vote and *(b)* resident in each ward in each constituency in each region in 2001. [10941]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mr. Chris Ruane, dated 11 July 2005:*

The National Statistician has been asked to reply to your question concerning how many people of voting age were *(a)* registered to vote and *(b)* resident in each ward in each constituency in each region in 2001.1 am replying in his absence. (10941)

I have arranged for the data requested to be placed in the House of Commons library.

Electorate Counts

The ward electorate counts are for February 2001 parliamentary electors, including attainers (persons attaining the age of 18 after 16 February 2001 but before 16 February 2002). The counts relate to England and Wales only. There are a number of wards which are split by parliamentary constituency i.e. they fall within two or more parliamentary constituencies. The ward electorate and population counts are repeated for each parliamentary constituency which they fall within, and are indicated by an asterisk * alongside their ward name, electorate and population figures for the whole ward are shown. Some wards will therefore be double counted. Split ward electorate and population counts by parliamentary constituency are not available.

Electoral Wards

The electorate counts are not necessarily consistent with the statutory electoral register return RPF 29, due to the need for population estimation purposes to use and convert historic electorate counts on different ward geographies to a consistent ward geography i.e. the Census Area Statistics (CAS) ward geography (CAS wards were used for 2001 Census outputs).

The electorate counts therefore do not necessarily relate to wards which were in existence in February 2001, and some wards which were in existence in February 2001 may have had subsequent boundary changes.

Population Estimates

The ward population estimates for persons aged 18 and over relate to mid-2001 i.e. 30 June 2001 and are for CAS wards. Due to their small population size, population estimates for wards in City of London and Isles of Scilly are shown for the local authority areas only. For comparative purposes, the electorate counts for wards within these local authorities have been similarly aggregated.

Limitations with the data

The parliamentary electorate excludes European Union citizens and includes overseas electors. The former will be included in the population estimates and the latter excluded. Comparable ward counts of local government electors are not readily available.

There is inevitably some double counting of the registered electorate as electoral registration officers vary in how quickly they remove people from the registers after they have moved away from an area or after they have died. In addition, people can register in more than one place.

There is a relatively small number of wards (44) where the electorate counts are more than 10 per cent. greater than the population estimate, the majority of such cases are likely to be attributable to a limitation in the methodology used to convert electorate counts from a non-CAS ward geography onto a CAS ward geography. There may however also be valid reasons why the electorate count may exceed the estimated population, as described above.

## Flexible Service Delivery Programme

**Mark Williams:** To ask the Chancellor of the Exchequer (1) if he will make a statement on the implications of Her Majesty's Revenue and Customs flexible service delivery programme for employment levels within the Department; [10340]

(2) what account is being taken of rurality issues within Her Majesty's Revenue and Customs flexible service delivery programme. [10341]

**Dawn Primarolo:** HM Revenue and Customs is preparing business plans to meet its efficiency savings target for 2005–08. The Department's targets are to reduce the number of its staff by 12,500 net of re-deployments. The Department is also developing its plans to meet its targets under 'Lyons' to move 1,950 posts from London and the South East by 2008 and a further 2,300 by 2010.

In developing its plans HM Revenue and Customs is assessing and taking account of their potential social and economic impact in the local area.

## Fuel Duty

**Mr. Amess:** To ask the Chancellor of the Exchequer (1) what assessment he has made of the impact of increases in fuel duty on those *(a)* on low incomes and *(b)* without access to alternative modes of transport; [10393]

(2) what research his Department has evaluated on the effects of rises in fuel duty on the growth of carbon dioxide emissions; and if he will place in the Library copies of such research; [10394]

(3) what research his Department has evaluated on the effects of the cost of petrol on use of vehicles; and if he will place in the Library copies of such research. [10417]

**John Healey:** I have been asked to reply.

When taking decisions on fuel duty rates, the Chancellor of the Exchequer takes account of all relevant economic, environmental and social considerations.

No specific research has been published on the impact of increases of fuel prices on those on low incomes; however, some reports have been published by the Department for Transport analysing the relationship between fuel costs, vehicle use and carbon emissions, which are relevant. These are:

"Review of Income and Price Elasticities in the Demand for Road Traffic" by Mark Hanly, Joyce Dargay and Phil Goodwin, UCL, March 2002;

"Development of an Aggregated Transport Forecasting Model (ATFM)" by Joyce Dargay, Phil Goodwin and Mark Hanly, UCL, September 2002; and

"Review of income and price elasticities of demand for road traffic" by Daniel Graham and Stephen Glaister, Imperial College, July 2002.

These reports are all available on the Department's website (www.dft.gov.uk) and copies have been placed in the House.

### Green and White Papers

**Mr. Amess:** To ask the Chancellor of the Exchequer how many *(a)* Green and *(b)* White papers his Department has produced since 1997; and if he will list these in date order. [10558]

**John Healey:** A chronological list, prepared by the Office of Public Sector Information, of all Command Papers produced by individual Departments since 10 May 2001 has been placed in the Library of the House and is also accessible at www.opsi.gov.uk.

It is not possible to differentiate between Green papers and White papers. Information prior to May 2001 is not available and could be obtained only at disproportionate cost.

### Health Expenditure

**Adam Price:** To ask the Chancellor of the Exchequer whether the figures for capital expenditure on health in the nations and regions included in the Public Expenditure Statistical Analysis include those amounts invested through the private finance initiative. [11365]

**Mr. Des Browne:** The capital expenditure figures in the Public Expenditure Statistical Analysis do not include investments through the private finance initiative, except where PFI schemes have been classed as on the public sector balance sheet.

### Identity Cards

**Mr. Garnier:** To ask the Chancellor of the Exchequer what estimate he has made of the cost of equipping Revenue and Customs premises with identity card readers. [9756]

**Dawn Primarolo:** No such estimate has been made.

**Mr. Oaten:** To ask the Chancellor of the Exchequer when the timing of the Identity Cards Scheme Gateway 1 review was decided; and whether the timing has been revised in the last 12 months. [10069]

**Mr. Des Browne:** The Identity Cards Programme is scheduled to have a Gateway 1 review in July 2005. The current dates were agreed with the Home Office in May 2005. There had been a provisional intention to hold the Gateway 1 review in March 2005.

### Men:Women Ratio

**Mr. Amess:** To ask the Chancellor of the Exchequer what the current ratio between men and women is aged *(a)* 20 to 65 years and *(b)* 65 years and over; and what the equivalent figures were for (i) 1976 to 1980, (ii) 1981 to 1985, (iii) 1986 to 1990, (iv) 1991 to 1995, (v) 1996 to 2000 and (vi) 2001 to 2004. [10543]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Mr. David Amess, dated 11 July 2005:*

The National Statistician has been asked to reply to your question concerning the sex ratios for the current year and between 1976 and 2004. I am replying in his absence. (10543)

The table below shows the average sex ratios of persons in England and Wales aged 65 and over, and of those aged 20 to 64 inclusive, for mid-2003, the latest available year.

*Population England and Wales mid-2003*

| *2003*[1] | *Number/Ratio* |
|---|---|
| Males 20–64 (number) | 15,522,600 |
| Females 20–64 (number) | 15,727,200 |
| Ratio M/F | 0.99 |
| Males 65 + (number) | 3,606,800 |
| Females 65 + (number) | 4,853,900 |
| Ratio M/F | 0.74 |

[1] Mid-2003 population estimates are the latest data available.

*Note:*
Population estimates are shown to the nearest 100 people.

*Source:*
Office for National Statistics

The attached table gives equivalent data for the years you requested, though 2001 to 2003 is shown, rather than the 2001 to 2004 you requested, as 2003 are the latest available data. Mid-2004 population estimates will be published on 25 August 2005.

*Population England and Wales mid-1976 to mid-2003*

| | *Males 20–64* | *Females 20–64* | *Ratio M/F* | *Males 65 +* | *Females 65 +* | *Ratio M/F* |
|---|---|---|---|---|---|---|
| 1976 | [1]13,686,500 | 13,779,500 | | 2,772,600 | 4,346,500 | |
| 1977 | [1]13,706,900 | 13,794,600 | | 2,817,800 | 4,396,400 | |
| 1978 | [1]13,728,200 | 13,815,400 | | 2,863,100 | 4,452,700 | |
| 1979 | [1]13,779,400 | 13,840,600 | | 2,907,100 | 4,502,500 | |
| 1980 | [1]13,835,000 | 13,892,600 | | 2,950,400 | 4,555,000 | |
| Average population 1976 to 1980 | [1]13,747,200 | 13,824,500 | 0.99 | 2,862,200 | 4,450,600 | 0.64 |

*Population England and Wales mid-1976 to mid-2003*

| | *Males 20–64* | *Females 20–64* | *Ratio M/F* | *Males 65+* | *Females 65+* | *Ratio M/F* |
|---|---|---|---|---|---|---|
| 1981 | 13,894,600 | 13,971,300 | | 2,970,500 | 4,577,600 | |
| 1982 | 13,953,100 | 14,051,500 | | 2,970,100 | 4,579,800 | |
| 1983 | 14,094,400 | 14,188,600 | | 2,947,200 | 4,558,000 | |
| 1984 | 14,283,100 | 14,349,200 | | 2,936,300 | 4,546,300 | |
| 1985 | 14,364,800 | 14,419,800 | | 3,014,100 | 4,632,900 | |
| Average population 1981 to 1985 | 14,118,000 | 14,196,100 | 0.99 | 2,967,600 | 4,578,900 | 0.65 |
| 1986 | 14,435,000 | 14,503,600 | | 3,071,800 | 4,695,800 | |
| 1987 | 14,511,700 | 14,583,000 | | 3,123,300 | 4,742,400 | |
| 1988 | 14,587,600 | 14,662,400 | | 3,157,600 | 4,774,300 | |
| 1989 | 14,673,500 | 14,750,000 | | 3,192,400 | 4,804,700 | |
| 1990 | 14,758,600 | 14,828,000 | | 3,217,200 | 4,815,800 | |
| Average population 1986 to 1990 | 14,593,300 | 14,665,400 | 1.00 | 3,152,500 | 4,766,600 | 0.66 |
| 1991 | 14,827,600 | 14,927,900 | | 3,248,100 | 4,832,200 | |
| 1992 | 14,887,200 | 14,998,700 | | 3,274,900 | 4,843,000 | |
| 1993 | 14,930,000 | 15,053,200 | | 3,298,600 | 4,850,500 | |
| 1994 | 14,958,100 | 15,107,300 | | 3,315,400 | 4,848,200 | |
| 1995 | 15,002,700 | 15,139,800 | | 3,342,400 | 4,856,400 | |
| Average population 1991 to 1995 | 14,921,100 | 15,045,400 | 0.99 | 3,295,900 | 4,846,000 | 0.68 |
| 1996 | 15,031,300 | 15,172,000 | | 3,367,000 | 4,854,400 | |
| 1997 | 15,044,900 | 15,206,500 | | 3,391,500 | 4,845,100 | |
| 1998 | 15,074,400 | 15,256,700 | | 3,417,100 | 4,840,900 | |
| 1999 | 15,164,800 | 15,355,000 | | 3,437,400 | 4,824,900 | |
| 2000 | 15,273,100 | 15,485,100 | | 3,465,600 | 4,821,400 | |
| Average population 1996 to 2000 | 15,117,700 | 15,295,100 | 0.99 | 3,415,700 | 4,837,400 | 0.71 |
| 2001 | 15,376,600 | 15,579,900 | | 3,509,900 | 4,831,700 | |
| 2002 | 15,446,400 | 15,655,300 | | 3,557,400 | 4,842,900 | |
| 2003 | 15,522,600 | 15,727,200 | | 3,606,800 | 4,853,900 | |
| Average population 2001 to 2003 | [2]15,448,500 | 15,654,200 | 0.99 | 3,558,000 | 4,842,800 | 0.73 |

[1] Data for 1976 to 1980 may contain small founding errors as it has been aggregated from rounded quinary age group data.
[2] Mid-2003 population estimates are the latest data available. Mid-2004 population estimates will be published on 25 August 2005.
*Note:*
Population estimates are shown to the nearest 100 people.

Office for National Statistics

### MG Rover

**Charles Hendry:** To ask the Chancellor of the Exchequer whether he met representatives of the Shanghai Automotive Industry Corporation during his visit to China in February; and if he will make a statement. [9358]

**John Healey** *[holding answer 4 July 2005]:* No. The Chancellor discussed MG Rover with the Chinese Government during his visit to China in February 2005.

### Ministers (Tax Treatment)

**Chris Huhne:** To ask the Chancellor of the Exchequer in what ways the income tax treatment of Ministers differs from the tax treatment of individuals receiving comparative pay and emoluments in the private sector, with particular reference to *(a)* residences and *(b)* cars. [11038]

**Dawn Primarolo:** The tax rules which apply when someone is provided with accommodation because of his or her office or employment are the same for Government Ministers as for other taxpayers.

The tax treatment of transport and subsistence for the Speaker, Ministers and Opposition office-holders is covered by specific legislation in section 295 of the Income Tax (Earnings and Pensions) Act.

**Chris Huhne:** To ask the Chancellor of the Exchequer what the total value was of the imputed rent for tax purposes on official residences provided to Government Ministers in each of the last 10 years. [11039]

**Dawn Primarolo:** This information is not available. However the same general tax rules would be applied as in any other case where living accommodation is provided by an employer.

**Chris Huhne:** To ask the Chancellor of the Exchequer whether Ministers who have residences provided by the Crown are taxed on the value of those residences on the basis of benefits in kind. [11040]

**Dawn Primarolo:** The tax rules which apply when someone is provided with accommodation because of his or her office or employment are the same for Government Ministers as for other taxpayers.

### Occupational Pensions

**Mr. Laws:** To ask the Chancellor of the Exchequer when he was first contacted by the Parliamentary Ombudsman in relation to her inquiry into complaints about occupational pensions; and when he completed his submission of evidence to the inquiry. [11620]

**John Healey:** The Parliamentary Ombudsman wrote to the Permanent Secretary to the Treasury on 16 November 2004 to indicate that she would conduct

an investigation into complaints she had received relating to occupational pensions. The Permanent Secretary wrote to the Parliamentary Ombudsman on 17 December 2004 in response to those elements of the investigation relating to the Treasury.

### Oil Prices

**Mr. Amess:** To ask the Chancellor of the Exchequer what assessment he has made of the effect of oil price changes on items made from by-products of oil. [10541]

**John Healey:** The ONS produce a number of price indices that measure oil price changes and changes in the by-products of oil. These include individual price indices published as constituent parts of the producer prices index, and the retail and consumer price indices, including the by-products of oil. For example, the producer input prices index is disaggregated by commodity group, which separately identifies the changes in crude oil prices, fuel prices, chemical prices and other groupings. All of these published indices are available on the ONS website: www.statistics.gov.uk.

### Perinatal/Infant Mortality

**Mr. Amess:** To ask the Chancellor of the Exchequer what the rates of *(a)* perinatal mortality and *(b)* infant mortality in each primary care trust were in (i) the Southend area, (ii) Essex and (iii) England and Wales in each of the last five years for which figures are available. [10559]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. David Amess, dated 11 July 2005:*

The National Statistician has been asked to reply to your recent question asking what the rates of perinatal mortality and infant mortality in each primary care trust were in *(a)* the Southend area, *(b)* Essex and *(c)* England and Wales in each of the last five years for which figures are available. I am replying in his absence. (10559)

Information on infant and perinatal mortality is routinely published for local authorities and strategic health authorities. Figures for England and Wales, Essex and Southend unitary authority are given in the attached table.

Figures cannot be provided for primary care trusts because of the risk of disclosing information about individuals as a result of differences between trust and local authority boundaries.

*Perinatal and infant mortality rates by selected area, 1999 to 2003.*

| | *England and Wales* | *Essex* | *Southend UA* |
|---|---|---|---|
| *Perinatal mortality rate*[1] | | | |
| 1999 | 8.2 | 6.8 | 7.0 |
| 2000 | 8.2 | 6.9 | 6.9 |
| 2001 | 8.0 | 5.8 | 7.8 |
| 2002 | 8.3 | 8.1 | 7.9 |
| 2003 | 8.5 | 6.8 | 8.3 |
| *Infant mortality rate*[2] | | | |
| 1999 | 5.8 | 4.4 | 3.5 |
| 2000 | 5.6 | 3.8 | 3.2 |
| 2001 | 5.4 | 4.3 | 3.2 |
| 2002 | 5.2 | 4.8 | 4.2 |
| 2003 | 5.3 | 4.5 | 5.2 |

[1] Per 1,000 live and stillbirths
[2] Per 1,000 live births

*Source:*
For 1999 to 2001, rates are available in Key Population and Vital Statistics, table 4.2 and for 2002 to 2003 rates are shown in table 4.1b. http://www.statistics.gov.uk/statbase/Product.asp?vlnk=539

### Petrol Duty

**Mr. Amess:** To ask the Chancellor of the Exchequer what the rate of duty was on a litre of unleaded petrol in each month since 1997. [10540]

**John Healey:** Duty rates for all hydrocarbon oil products, including unleaded petrol, since 1997 are available on the Revenue and Customs website at www.hmrc.gov.uk.

### Public Sector Spectrum

**Mr. Don Foster:** To ask the Chancellor of the Exchequer what progress his Department has made in assessing the potential to release public sector spectrum to the market; and if he will make a statement. [10203]

**John Healey:** The Chancellor announced an independent audit of spectrum holdings—focusing on the public sector—in his pre-Budget report in 2004. The audit is being carried out by Professor Martin Cave, who intends to publish a consultation paper on emerging issues before delivering his final report ahead of the 2005 pre-Budget report.

### Random Audits

**Mr. Quentin Davies:** To ask the Chancellor of the Exchequer how many self-assessing taxpayers were selected for random audits in the 2004–05 financial year; how many such audits were carried out; what the cost was; and what their yield was in terms of *(a)* unpaid tax and *(b)* penalties received by HM Revenue and Customs. [10921]

**Dawn Primarolo:** In the tax year 2004–05 the Inland Revenue (now part of HM Revenue and Customs) selected 6,482 Income Tax Self Assessment taxpayers for random enquiry. 401 Corporation Tax Self Assessment taxpayers were selected for random enquiry in the same year. The deadline for opening these enquiries has not yet passed. Therefore no figures are available to show how many of these inquiries have been carried out. It is also too early to determine what yield these inquiries will produce.

### Revenue and Customs

**Hywel Williams:** To ask the Chancellor of the Exchequer when he expects to publish the business plan for meeting Her Majesty's Revenue and Customs efficiency savings for 2005 to 2008. [10731]

**Dawn Primarolo:** Further to the written answer I gave the hon. Gentleman on 26 May 2005, *Official Report*, column 191W, HM Revenue and Customs (HMRC) is preparing business plans to meet its efficiency savings for 2005–08.

Inland Revenue and HM Customs and Excise (now HMRC) did publish a joint Efficiency Technical Note last October which set out how the efficiency savings would be achieved and measured.

The Efficiency Technical Note is published on HMRC's internet site.

### Road Pricing

**Tom Brake:** To ask the Chancellor of the Exchequer (1) what the estimated revenues for the lorry road user charging project are; and what proportion of the estimated revenues for the project are expected to come from each part of the UK; [5177]

(2) when he expects the lorry road user charging scheme to become operational in the UK; [5180]

(3) what discussions have taken place between his Department and Her Majesty's Revenue and Customs about lorry road user charging; and what the outcome was of those discussions. [5181]

**John Healey:** I refer the hon. Gentleman to the statement made by my right hon. Friend the Secretary of State for Transport on 5 July 2005, *Official Report*, column 171.

### Tax Avoidance

**Jim Cousins:** To ask the Chancellor of the Exchequer how many disclosures of *(a)* direct tax and *(b)* VAT avoidance schemes have been made under the 2004 rules; and how many promoters of such schemes have made disclosures. [10910]

**Dawn Primarolo:** There have been 524 disclosures for direct tax and 787 for VAT up to 30 June 2005. The number of promoters who made disclosures in that period is 102. These figures attest to the success of the disclosure rules.

### Tax Credits

**Mr. Laws:** To ask the Chancellor of the Exchequer (1) what his estimate is of the time needed to resolve the problems identified in the Ombudsman's report in the administration of tax credits; and if he will make a statement; [8844]

(2) if he will write off all excess and overpaid tax credits caused by official error in (1) 2003–04 and *(b)* 2004–05; and if he will make a statement. [8849]

**Dawn Primarolo:** I refer the hon. Member to the statements I made to the House on 26 May 2005, *Official Report*, column 23WS and 22 June 2005, *Official Report*, column 801.

**Mr. Laws:** To ask the Chancellor of the Exchequer, what plans he has to ask Revenue and Customs to contact everyone who has been overpaid tax credits as a result of official error to inform them that that was the reason for the overpayment; and if he will make a statement. [8850]

**Dawn Primarolo:** I refer the hon. Member to the statement I made to the House on 26 May 2005, *Official Report*, column 23WS on tax credits.

**Mr. Laws:** To ask the Chancellor of the Exchequer what the accuracy levels for processing tax credit claims were in each year since 2000–01; and if he will make a statement. [9296]

**Dawn Primarolo:** Accuracy levels for processing working families' tax credit and disabled person's tax credit applications in 2001–02 and 2002–03 can be found in the Board's Annual Reports for those years.

Similarly, performance against the accuracy target for processing new tax credits claims for 2003–04 was published in the Annual Report for the year ended 31 March 2004. These reports are available on the internet at:

http://www.hmr.gov.uk/about/reports.htm.

Indicative results for the Department's performance for 2004–05 can be found in HMRC spring departmental report 2005 at the aforementioned link.

**Jim Cousins:** To ask the Chancellor of the Exchequer (1) whether the calculation of overpayments of tax credit takes into account *(a)* pension contributions and *(b)* charitable contributions; and whether this information is routinely requested by Her Majesty's Revenue and Customs before sending out calculations of overpayment; [9870]

(2) whether information on *(a)* pension contributions and *(b)* charitable contributions is routinely requested in the calculation of tax credits; and what percentage of tax credit claimants provided such information in the last period for which information is available. [9871]

**Dawn Primarolo:** Pension contributions and charitable contributions are both taken into account in calculating tax credit awards, as are Gift Aid, trading losses and non-taxable expenses.

In both the tax credits claim form and accompanying guidance notes, claimants are advised to obtain a working sheet (TC825) to help them calculate the deductions they can make against the family's gross income on which their tax credit award is assessed.

Claimants are given the same advice in their renewals form and accompanying guidance, which is sent out at the end of the tax year.

No data are available on numbers who make such deductions.

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will publish the advice given by *(a)* the Inland Revenue to the Government and *(b)* EDS to the Inland Revenue about system problems relating to the introduction of the new tax credits between June 2002 and May 2003; and if he will make a statement. [10015]

**Dawn Primarolo:** Advice provided by the Inland Revenue to Ministers during this period drew on information and guidance provided by EDS. HMRC are in ongoing discussions with EDS about compensation for the system problems that arose and if these discussions do not lead to an acceptable offer the department will commence legal proceedings. In the circumstances, any advice provided to Ministers has to remain confidential.

**Mr. Laws:** To ask the Chancellor of the Exchequer what comparison he has made of error rates for payments of the *(a)* working families tax credit and *(b)* the child and working tax credits; how the error rates compare with those forecast by the Department in (i) 2001, (ii) 2002, and (iii) 2003; and if he will make a statement. [10016]

**Dawn Primarolo:** HMRC are currently undertaking a programme of work on finalised 2003–04 awards—the first year of working tax credit and child tax credit—to provide more information on the level of claimant error and fraud. child and working tax credits (CTC/WTC) are very different in scale and scope compared to their predecessors, working families' tax credit (WFTC) and disabled persons tax credit (DPTC) because of the annual nature of awards and because they are designed to react to any changes in personal circumstances during the period of an award. Also, significantly more families benefit from them, including a large proportion that are only receiving the family element. These fundamental differences do not lend themselves to direct comparison.

**Danny Alexander:** To ask the Chancellor of the Exchequer how many open days have been held by the Inland Revenue in the last 12 months for staff and volunteers of independent advice services providing assistance to tax credit claimants; how many people have attended such open days; and if he will make a statement on *(a)* feedback received and *(b)* resultant action. [10269]

**Dawn Primarolo:** Between 1 April 2004 and 31 March 2005 Tax Credit Office attended 151 events around the country. The events were attended by around 3,600 people from the voluntary and community sector (VCS).

*(a)* An average 90 per cent. of attendees rated the events as "good" or "excellent".

*(b)* TCO representatives undertake to answer separately any advisers' questions that could not be answered immediately at the event. They also report back any points that have arisen to colleagues as appropriate, in case any further follow up action may be required.

**Mr. Frank Field:** To ask the Chancellor of the Exchequer what plans he has to delay the transfer of the families who currently receive their child tax credit through Jobcentre Plus, but whose awards are due to be transferred to HM Revenue and Customs in 2005–06. [11442]

**Dawn Primarolo:** I refer the right hon. Gentleman to my statement of 22 June 2005, *Official Report*, column 805.

### Travel Concessions

**Mr. Clelland:** To ask the Chancellor of the Exchequer if he will abolish the taxation applied to employer-provided travel concessions. [11218]

**Dawn Primarolo:** Employees who receive free or cheap travel concessions from their employer, for themselves or members of their families, will generally be taxable on the benefit by reference to the cost to the employer. We have no plans to change this.

### VAT

**Mr. Soames:** To ask the Chancellor of the Exchequer if he will take steps to harmonise the VAT imposed on new builds and renovated properties. [11489]

**Dawn Primarolo:** While agreements with our European partners allow us to keep our zero rates as they currently stand, we cannot extend them or introduce new ones. This means that in order to harmonise the rates of VAT on all building work and renovation, we would first have to give up our current zero rates for construction, including those for the construction of new charity buildings and new housing, and for approved alterations to listed buildings. While we continue to keep the impact of VAT on different types of building work under review, we have no plans to give up our existing construction zero rates.

### Young People

**Chris Ruane:** To ask the Chancellor of the Exchequer how many young people are not in employment, education or training, broken down by *(a)* constituency and *(b)* local authority (i) in total and (ii) as a percentage of each age group, in descending order grouped by region for the last year in which figures are available. [10384]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Chris Ruane, dated 11 July 2005:*

The National Statistician has been asked to reply to your recent parliamentary question asking how many young people are not in employment, education or training, broken down by *(a)* constituency and *(b)* local authority (i) in total and (ii) a percentage of each age group, in descending order grouped by region for the last year in which figures are available. I am replying in his absence. (10384)

I am placing in the House of Commons Library, tables showing the numbers of people aged 16 to 24 not in employment, or in full-time education or government training for each constituency and local authority in Great Britain, during the 12 months ending February 2004. Estimates for similar areas in Northern Ireland are not available.

These estimates, based on annual local area Labour Force Survey, depend on small sample numbers and are therefore subject to relatively large sampling errors. The comparisons between the percentages for different areas (quoted in tables 2 and 4) should be treated with particular caution.

## TRADE AND INDUSTRY

### Business and Industry Skills

**Mr. Soames:** To ask the Secretary of State for Trade and Industry what steps he is taking to encourage the supply of science, technology, engineering and mathematics skills for young people for business and industry. [9410]

**Malcolm Wicks:** The Department and DfES are working closely together to ensure that the skills which business and industry require are those which are delivered in schools and through the sector skills councils. For example the 14–19 White Paper (DfES) recognised the need to do more to increase the

appreciation among tomorrow's citizens of the contribution that science and technology make towards our way of life; and also to increase the numbers who leave school equipped to pursue careers using skills in Science, Technology, Engineering and Mathematics.

The DTIs key focus is on the informal side of science education. We are supporting SETNET, the Science, Engineering, Technology and Maths Network, for the next three years with funding in excess of £10 million. SETNET co-ordinates a UK-wide network of some 50 SETPOINTS and also the Science and Engineering Ambassadors programme (SEAs) which provides a framework within which people, working in science and technology environments can be trained to go into schools and act as role models to help teachers convey the excitement of careers using STEM skills.

### Crèche Facilities

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what crèche facilities are provided by his Department; and at what cost to *(a)* the Department and *(b)* employees in 2004–05. [10525]

**Alan Johnson:** DTI staff in central London have access to a 32 place holiday play scheme in our 1 Victoria Street building which is highly rated by both parents and children for its quality. DTI HQ staff in Cardiff have access to a local holiday play-scheme.

London-based DTI staff also have access to six full-time subsidized nursery places for under 5's, currently occupied by five children. DTI plans to end the contract in December 2005 and to introduce a Salary Sacrifice scheme that will benefit more parents, enabling them to make savings on their child care fees. Costs for *(a)* the department is £63,214 *(b)* employees the holiday play scheme costs £14.00 per place towards the £31.00 daily fee, and nursery places cost £118 per week.

### Cut and Sew Contract

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what discussions officials of his Department have had with the Ministry of Defence about the cut and sew contract. [9121]

**Alun Michael:** My officials have discussed the cut and sew contract with the Ministry of Defence and understand the contract fully complies with the requirements of EU procurement guidelines, UK Defence Industrial Policy, and MOD's Supplier Base Optimisation Programme.

### European Charter for Researchers

**Mr. Hayes:** To ask the Secretary of State for Trade and Industry if he will make a statement on UK plans to implement the European Charter for Researchers. [9025]

**Malcolm Wicks:** It is for individual institutions to decide whether they wish to subscribe to the European Charter for Researchers, which draws heavily upon UK practice. The UK presidency of the European Union will in addition be hosting an international conference on 8 and 9 September at which the Charter and its practical implementation will be discussed. The Charter will also influence on-going work on a possible revision to the "Concordat for the Management of Research Staff in UK Universities and Colleges".

### Export Control and Non-Proliferation Directorate

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry if he will place in the Library a copy of the Report by ASE Consulting into privatising the Export Control and Non-Proliferation Directorate; and if he will make a statement. [10138]

**Malcolm Wicks:** I have placed in the Libraries of the House copy of the Report recently released under the Freedom of Information Act 2000. A few extracts have been withheld under Section 43 of the Act.

### Measurement Advisory Committee

**Charles Hendry:** To ask the Secretary of State for Trade and Industry what reports have been published by the Measurement Advisory Committee in each year since 2001. [9339]

**Malcolm Wicks:** Annual reports have been published for 2001–02, 2002–03 and 2003–04. These are all available for download from the DTI website at www.dti.gov.uk/nms/mac/ The report for 2004–05 is currently being prepared.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry what *(a)* remuneration and *(b)* expenses are received by members of the Measurement Advisory Committee. [9340]

**Malcolm Wicks:** Members of the Measurement Advisory Committee receive reimbursement for travel and subsistence while on Committee business. This is the only remuneration they receive.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry what the terms of reference of the Measurement Advisory Committee are; and if he will make a statement. [9341]

**Malcolm Wicks:** The objective of the Measurement Advisory Committee is to offer the Department of Trade and Industry strategic advice on:

the effectiveness with which the NMS (National Measurement System) supports innovation and competitiveness within UK business and industry; the priorities the Department should assign to programmes of work undertaken to meet the needs of the NMS;

the broad objectives, balance and strategy for UK Government support of measurement.

These objectives are achieved by advising on:

the needs of users in business, industry and the community;

priorities for funding;

the effectiveness of steps to ensure that good value is achieved from investment in NMS programmes and that the right balance is struck between measurement research and the needs of all users;

the effectiveness of steps to secure greater engagement with business and industry and improve dissemination of the results of investment in NMS;

commercial opportunities resulting from the research and development carried out by contractors, in support of the NMS;

input to the Department's longer forward looks;

key priorities for the UK measurement system within a European and global context.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry what the total *(a)* running costs and *(b)* expenditure of the Measurement Advisory Committee have been in each year since 2001. [9342]

**Malcolm Wicks:** The information is as follows.

*(a) Running costs*

DTI provides secretariat support for the Committee. The Committee does not have a budget or staff.

*(b) Expenditure: Travel and subsistence*

| | £000 |
|---|---|
| 2001–02 | 50 |
| 2002–03 | 66 |
| 2003–04 | 66 |
| 2004–05 | 100 |

*Note:*
Covers expenditure on 18 working groups which support the Committee.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry what the current work programme of the Measurement Advisory Committee is. [9343]

**Malcolm Wicks:** The work programme of the Measurement Advisory Committee will be established when the recently appointed Chairman, and four new members, first meet the rest of the Committee in October. The focus of the meeting will be on the review of the National Measurement System which is currently being carried out within the Department of Trade and Industry.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry what the criteria for membership of the Measurement Advisory Committee is; and how its members are selected. [9344]

**Malcolm Wicks:** The criteria for membership of the Measurement Advisory Committee is an active interest in, and the ability to comment authoritatively on, current and future measurement needs.

Members are recruited through open competition in accordance with the Office of the Commissioner for Public Appointments (OCPA) guidelines.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry what assessment he has made of the cost-effectiveness of the Measurement Advisory Committee; and if he will make a statement. [9678]

**Malcolm Wicks:** The current review of the National Measurement System is considering, among other things, appropriate advisory structures for the NMS.

## Miners' Compensation Scheme

**John Mann:** To ask the Secretary of State for Trade and Industry if he will list the 20 medical companies who have received the most in fees under the Miners Compensation Scheme for chronic obstructive pulmonary disease and vibration white finger since 1999, broken down by amount received. [10462]

**Malcolm Wicks** *[holding answer 7 July 2005]:* The medical companies who have received fees under the Miners Compensations Schemes are as follows.

| Company | Total approximate fees paid to date (£ million) |
|---|---|
| Healthcall | 120 |
| SEMA/ATOS | 180 |
| Capita Health Solutions | 2 |

**John Mann:** To ask the Secretary of State for Trade and Industry what discussions have taken place between his Department and IRISC in relation to eliminating fraud under the Miners' Compensation Scheme since 1990. [10336]

**Malcolm Wicks** *[holding answer 7 July 2005]:* Detection of potentially fraudulent claims has formed part of the Department's claims handlers' role since the schemes began in 1999. A process for managing the risk of fraud is in place and the Department holds regular discussions with the claims handlers on the issue.

**John Mann:** To ask the Secretary of State for Trade and Industry what training has been provided for officials on avoiding fraud under the Miners' Compensation Scheme in each year since 1999. [10337]

**Malcolm Wicks** *[holding answer 7 July 2005]:* Officials receive work-based training and guidance from external lawyers and consultants and the Department's own lawyers on fraud management on an ongoing basis.

**John Mann:** To ask the Secretary of State for Trade and Industry if he will list the top 20 solicitors in terms of *(a)* fees paid, *(b)* claims registered and *(c)* claims outstanding for (i) chronic obstructive pulmonary disease and (ii) vibration white finger deceased claims under the Miners' Compensation Scheme. [10344]

**Malcolm Wicks** *[holding answer 7 July 2005]:* The top 20 solicitors in each of the categories is as follows:

*(a)(i) Fees for handling deceased COPD claims*

£ million

| Solicitor | Fee |
|---|---|
| Thompsons | 35.5 |
| Mark Gilbert Morse | 31.3 |
| Hugh James Ford Simey | 28.3 |
| Raleys Solicitors | 21.9 |
| Beresfords Solicitors | 16.9 |
| Browell Smith and Co | 13.7 |
| Graysons | 6.6 |
| Randell Lloyd Jenkins and Martin | 6.0 |
| Watson Burton | 5.6 |
| The Legal Warehouse | 5.4 |
| Irwin Mitchell | 5.4 |
| Wake Smith | 5.3 |
| Ingrams Solicitors | 4.8 |
| Towells Solicitors | 4.6 |
| Moss Solicitors | 3.4 |
| O. H. Parsons | 2.9 |
| Birchall Blackburn | 2.7 |
| Corries | 2.3 |
| Kidd and Spoor Harper Solicitors | 2.1 |
| Barber and Co | 2.0 |

*(a)(ii) Fees for handling deceased VWF claims*

£000

| Solicitor | Fee |
|---|---|
| Thompsons | 1,147.9 |
| Browell Smith and Co | 549.0 |
| Raleys Solicitors | 497.8 |
| Hugh James Ford Simey | 369.7 |
| Union of Democratic Mineworkers | 336.2 |
| Graysons | 269.6 |
| Watson Burton | 186.5 |
| Moss Solicitors | 109.3 |
| Irwin Mitchell | 106.8 |
| Towells Solicitors | 103.6 |
| Beresfords Solicitors | 96.4 |
| AMS Law | 86.0 |
| Atteys | 72.5 |
| O. H. Parsons | 68.4 |
| Kidd and Spoor Harper Solicitors | 67.4 |
| Shaw and Co. Solicitors | 55.9 |
| Corries | 33.9 |
| Randell Lloyd Jenkins and Martin | 19.3 |
| Gorman Hamilton Solicitors | 15.4 |
| Simpson Millar Solicitors | 11.4 |

*(b)(i) Deceased COPD claims registered*

| Solicitor | Number |
|---|---|
| Beresfords Solicitors | 50,929 |
| Hugh James Ford Simey | 36,176 |

| Corries | 62 |
| Shaw and Co. Solicitors | 62 |
| O. H. Parsons | 58 |
| Ingrams Solicitors | 25 |

**Adam Price:** To ask the Secretary of State for Trade and Industry what role Ministers had in the decision to allow the Union of Democratic Mineworkers to process compensation claims directly under the coal health schemes. [9089]

**Malcolm Wicks** *[holding answer 4 July 2005]:* Following the judgments against British Coal in both the vibration white finger and respiratory disease litigations, the High Court ordered the DTI to set up schemes, in agreement with miners' solicitors, to assess compensation for both types of claim. Claims had by then been registered through the Claimants Solicitors Group (the CSG), some of which were sponsored by the main mining unions, the NUM and NACODS. The UDM had also registered a large number of claims directly on behalf of their members, through their dedicated claims handling company, Vendside Ltd. The CSG and the UDM were unable to work together or enter into single arrangements for historical reasons. Ministers agreed the DTI would negotiate the strategy with the UDM and Vendside in which the terms for compensation are the same as for the agreement with the CSG.

### Petrol Prices

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what steps his Department is taking to reduce the price of petrol. [10535]

**Malcolm Wicks:** The DTI closely monitors petrol price changes within the market, which recently have reflected high international oil prices.

While it is Government policy not to intervene in commercial price setting, because they believe that the consumer is best served by open competition between companies within the UK downstream oil sector, they do recognise the impact that high petroleum prices can have on various sectors. As a result they have acted by announcing that due to sustained volatility in the oil market the Government will not go ahead with the planned inflation increase on 1 September—including for rebated oils, biofuels and road fuel gases—and will review the position again at the time of the pre-Budget report.

The Government are also supporting efforts to improve stability in the international oil market by promoting greater market transparency and understanding, and encouraging greater investment throughout the global oil supply chain.

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what the average price per litre of *(a)* unleaded petrol and *(b)* leaded petrol was in (i) Great Britain and (ii) the United States, together with the amount of tax paid per litre in each case, in each of the last five years for which figures are available. [10536]

**Malcolm Wicks:** Data are only available for unleaded petrol (95 RON specification) and for the United Kingdom not Great Britain. Prices in pence per litre are given as follows.

*Pence/litre*

| | *Prices in the United Kingdom* | | | *Prices in the United States* | | |
|---|---|---|---|---|---|---|
| | *Including taxes* | *Total tax* | *Excluding taxes* | *Including taxes* | *Total tax* | *Excluding taxes* |
| 2000 | 79.93 | 60.32 | 19.60 | 29.56 | 6.66 | 22.89 |
| 2001 | 75.72 | 57.68 | 18.04 | 30.42 | 7.01 | 23.40 |
| 2002 | 73.24 | 56.73 | 16.51 | 27.51 | 6.76 | 20.75 |
| 2003 | 76.04 | 57.47 | 18.58 | 28.72 | 6.24 | 22.49 |
| 2004 | 80.22 | 59.05 | 21.18 | 29.78 | 5.63 | 24.15 |

*Source:*
International Energy Agency, Energy Prices and Taxes, Q1 2005.

### Public Telephone Boxes

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many public telephone boxes are in use. [9120]

**Alun Michael:** The regulation of telephone boxes is a matter for the independent regulator, the Office of Communications (Ofcom). I understand from Ofcom that there are currently approximately 68,000 public telephone boxes in the UK.

### Pyramid Selling Schemes

**John Penrose:** To ask the Secretary of State for Trade and Industry for what reasons his Department has continued to use the Companies Acts and the Insolvency Act 2000 to wind up companies operating pyramid selling schemes following the introduction of the Trading Schemes Act 1997; and if he will make a statement. [10243]

**Mr. Sutcliffe:** The Trading Schemes Act 1996+ and the Trading Schemes Regulations 1997 provide civil sanctions for breach of their provisions and the Fair Trading Act 1973 provides criminal sanctions. However, neither Act nor the regulations provide a power to wind up a scheme which is operating against the public interest. When there are grounds to suspect that a company is operating a scheme in breach of the regulations the company may be investigated under Part XIV of the Companies Act 1985 and, if the investigation findings point to the need to do so, my right hon. Friend the Secretary of State may present a petition in the public interest for the winding up of the company under section 124A of the Insolvency Act 1986. It is for the court to decide whether or not a winding up order should be made.

### Renewable Energy Schemes

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry if he will extend support and incentives available to renewable energy producers to include carbon capture and abatement schemes. [10298]

**Malcolm Wicks** *[holding answer 7 July 2005]:* We are currently examining the potential for economic incentives for the deployment of carbon capture and storage and other carbon abatement technologies in the Climate Change Programme Review as announced by the Chancellor in his Budget Statement this year. We expect to report on our findings in the autumn.

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry if he will increase funds available to support the development of carbon capture and abatement technologies in the UK. [10299]

**Malcolm Wicks** *[holding answer 7 July 2005]:* I have recently announced some £25 million to support the demonstration of carbon capture and storage and other carbon abatement technologies. This is new money and in addition to the £6 million per year allocated under the 2004 spending round.

### Wind Farms

**Mr. Hood:** To ask the Secretary of State for Trade and Industry what percentage of the energy mix wind power contributes to UK energy supply; and if he will make a statement. [10287]

**Malcolm Wicks:** In 2004 onshore and offshore wind together accounted for 0.49 per cent. of the electricity generated in the United Kingdom, up from 0.32 per cent. in 2003. In terms of primary energy supply the percentages were smaller at 0.07 per cent. in 2004 up from 0.05 per cent. in 2003.

In total in 2004 renewable sources accounted for 3.58 per cent. of the electricity generated in the UK (up from 2.67 per cent. in 2003) and 1.54 per cent. of energy supply in primary energy input terms (up from 1.32 per cent. in 2003).

## HEALTH

### "Delivering Race Equality"

**Mr. Burstow:** To ask the Secretary of State for Health what action has been taken towards the improvement of services for older people specified in "Delivering Race Equality". [6400]

**Mr. Byrne:** "Delivering Race Equality in Mental Health Care" (DRE) was published in January 2005. It is a five-year action plan for tackling discrimination and improving services for black and minority ethnic (BME) patients.

DRE was preceded in 2001 by the national service framework (NSF) for older people. Standard seven of the NSF is clear that older people from BME communities need appropriate and accessible mental health services. DRE recognises that older people from BME communities can face additional barriers to appropriate and effective mental health services. It also recognised that further action was needed for standard seven of the NSF to be implemented fully.

The Department's national clinical directors for older people's services and mental health services, Professors Ian Philp and Louis Appleby, will shortly launch a vision for the future of older people's mental health. This will outline the key components of a model service and build on the service developments that the NSF and DRE have initiated.

A number of focused implementation sites for DRE are being established. These sites will help to develop best practice in mental health care for BME communities, including older people, that can be disseminated across the country.

### Accident and Emergency Services

**Mr. Dismore:** To ask the Secretary of State for Health how many of those attending accident and emergency departments were not registered with a GP in each of the last three years, broken down by NHS region. [7062]

**Mr. Byrne:** The data are not collected centrally by the Department.

### Agency Staff

**Mr. Hoyle:** To ask the Secretary of State for Health what steps she is taking to reduce the number of agency staff working in the NHS. [7626]

**Mr. Byrne:** We have a well established work force strategy based on recruiting and retaining a high quality national health service work force. As part of this strategy, we recognise the need to use a flexible pool of staff through NHS banks or private agencies. We expect these staff to be of good quality and for the NHS to get value for money. To ensure that this is the case, we have developed agency framework agreements through our Purchasing and Supplies Agency and have established NHS Professionals as a special health authority. These are playing a significant part in securing the appropriate and effective use of agency staff.

According to a recent independent report, agency spending fell "for the first time in recent memory" in 2003–04 and improvements were led by a reduction of £65 million in spend on agency nurses.

**David Davis:** To ask the Secretary of State for Health what action her Department is taking to reduce the NHS's use of agency and bank nurses. [6550]

**Mr. Byrne:** I refer the right hon. Member to the reply I gave to my hon. Friend the Member for Chorley (Mr. Hoyle) today.

### Alcohol-related Illness

**Mr. Burstow:** To ask the Secretary of State for Health how many people *(a)* under the age of 18 and *(b)* over the age of 18 were admitted to hospital for alcohol-related problems in each of the last 10 years for which figures are available, broken down by region. [8009]

**Caroline Flint:** The table shows how many people under the age of 18 and over the age of 18 were admitted to hospital for alcohol-related problems in each of the years for which data are available—from 1996–97 onwards—broken down by region.

*Counts of finished admission episodes for selected[1] alcohol related diseases by strategic health authority (SHA) of residence and age grouping– national health service hospitals, England 1996–97 to 2003–04*

[1] Alcohol related diseases defined as following ICD-10 codes recorded in primary diagnosis
F10 Mental and behavioural disorders due to use of alcohol, K70 Alcoholic liver disease, T51 Toxic effect of alcohol

*Notes:*
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

*Source:*
HES, Health and Social Care Information Centre.

**Mr. Amess:** To ask the Secretary of State for Health how many *(a)* binge drinking and *(b)* other alcohol-related emergency cases there were in hospitals in (i) England and (ii) Southend in the last period for which figures are available. [9926]

**Caroline Flint:** Data are not collected that could distinguish binge drinking from other alcohol related emergency admissions. The following table shows a count of finished admission episodes for alcohol related cases where the method of admission was emergency in 2003–04.

*2003–04*

| *Primary diagnosis* | *Southend hospital national health service trust* | *England* |
|---|---|---|
| F10 mental and behavioural disorder due to use of alcohol | 57 | 26,049 |
| K70 alcohol liver disease | 54 | 9,251 |
| T51 toxic effect of alcohol | 11 | 1,451 |
| Total | 122 | 36,751 |

Hospital Episode Statistics, Health and Social Care Information Centre

## Ambulance Service

**Sandra Gidley:** To ask the Secretary of State for Health which ambulance trusts have trained their staff in the use of clot-busting drugs. [9790]

**Mr. Byrne:** 28 ambulance service trusts have trained their paramedics in the use of clot-busting or thrombolytic drugs. These are:

Avon
Bedfordshire and Hertfordshire
Coventry and Warwickshire
Cumbria
Dorset
East Anglia
East Midlands
Essex
Gloucestershire
Hampshire
Hereford and Worcestershire
Isle of Wight (service to commence shortly, training has taken place)
Kent
Lancashire
Lincolnshire
Mersey Regional
North East
Oxfordshire
Royal Berkshire
Staffordshire
Surrey
Sussex
Tees, East and North Yorkshire
Two Shires
West Midlands (only in Shropshire)
West Country
Wiltshire
West Yorkshire Metropolitan

London Ambulance Service is involved in piloting primary angioplasty services, an alternative treatment for heart attack requiring a similar level of skill and training by paramedics.

Greater Manchester Ambulance Service is using a fast track scheme for all patients thought to be suffering from heart attack to ensure rapid transfer to hospital for these patients. South Yorkshire Ambulance Service is piloting a similar scheme to Greater Manchester.

**Mr. Hoyle:** To ask the Secretary of State for Health how many ambulances are on call in Lancashire *(a)* on weekdays, *(b)* at weekends, *(c)* between 10 pm and 6 am during the week, *(d)* between 10 pm and 6 am on (i) Friday, (ii) Saturday and (iii) Sunday nights; and how many are stationed in Chorley constituency. [9618]

**Mr. Byrne:** This information is not available centrally and can be obtained from the Lancashire Ambulance Service National Health Service Trust.

## Anti-psychotic Drugs

**Mr. Burstow:** To ask the Secretary of State for Health how many adverse reaction reports were received through the yellow card reporting system for *(a)* all anti-psychotic drugs, *(b)* traditional anti-psychotic drugs and *(c)* atypical anti-psychotic drugs in each of the last five years; and how many prescriptions there were for each type of drug in each year. [6659]

**Jane Kennedy:** Table 1 shows the total number of suspected adverse drug reaction (ADR) reports received via the yellow card scheme from 1 January to 31 December for each of the last five years, for all anti-psychotic drugs, traditional anti-psychotics and atypical anti-psychotics.

*Table 1: Number of reports received via the yellow card scheme for anti-psychotics*

| | *Number of reports for all anti-psychotics* | *Number of reports for traditional anti-psychotics* | *Number of reports for atypical anti-psychotics* |
|---|---|---|---|
| 2000 | 1,000 | 100 | 913 |
| 2001 | 1,189 | 105 | 1,097 |
| 2002 | 1,395 | 90 | 1,316 |
| 2003 | 1,774 | 115 | 1,680 |
| 2004 | 2,004 | 78 | 1,933 |

*Notes:*
1: The sum of reports for traditional and atypical anti-psychotics do not equal the number of reports for all anti-psychotics because, although each report refers to one patient, some reports have more than one suspected anti-psychotic drug as the patient is taking several drugs.
2. It is important to note that a report of an adverse drug reaction does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships, including the possibility that the timing of the suspected reaction may be coincidental with the patient taking the drug, the possible contribution of concomitant medication and the underlying disease.

Table 2 shows the total number of prescriptions for all anti-psychotic drugs, traditional anti-psychotics and atypical anti-psychotics over the last five years supplied by the Prescription Pricing Authority (PPA).

*Table 2: Number of prescription items dispensed in the community for traditional and atypical anti-psychotics (for prescriptions dispensed in England)*

*Thousand*

| | *Number of prescriptions for all anti-psychotics* | *Number of prescriptions for traditional anti-psychotics* | *Number of prescriptions for atypical anti-psychotics* |
|---|---|---|---|
| 2000 | 4,939.7 | 3,790.3 | 1,149.5 |
| 2001 | 4,718.0 | 2,876.0 | 1,842.0 |
| 2002 | 4,978.5 | 2,507.2 | 2,471.3 |
| 2003 | 5,335.0 | 2,251.3 | 3,083.7 |
| 2004 | 5,521.4 | 2,196.5 | 3,324.9 |

*Note:*
The data does not cover drugs dispensed in hospitals, including mental health trusts, or private prescriptions. Anti-psychotics are commonly dispensed within hospital pharmacies.

### Breastfeeding

**Mr. Kidney:** To ask the Secretary of State for Health what budget provision she has made in her Department for supporting breastfeeding in *(a)* the 2005–06 financial year and *(b)* the 2006–07 financial year. [1319]

**Caroline Flint:** The Government are committed to increasing support for breastfeeding and has identified approximately £2 million for activities related to "Healthy Start" and breastfeeding, including national breastfeeding awareness week and a new national breastfeeding helpline. The five yearly national infant feeding survey to be conducted later this year will be funded separately. Primary care trusts are responsible for funding local breastfeeding support. The funding for financial year 2006–07 has yet to be agreed.

### Cardiac Care (Southend)

**Mr. Amess:** To ask the Secretary of State for Health how many trained medical *(a)* doctors and *(b)* nurses specialising in cardiac care there are in Southend hospitals. [9921]

**Ms Rosie Winterton:** There are eight cardiologists at Southend Hospital National Health Service Trust.

The number of cardiac care nurses is not held centrally. However, as at September 2004, which are the latest figures available, there were 1,119 qualified nurses at Southend Hospital.

**Mr. Amess:** To ask the Secretary of State for Health how many cardiac-related emergency cases have been treated in hospitals in Southend in each year since 1997. [9922]

**Ms Rosie Winterton:** The number of emergency, finished admission episodes of cardiac care in Southend Hospital National Health Service Trust and, as it was known prior to 1998–99, Southend Health Care NHS Trust, is shown in the table.

| | *Finished admission episodes* |
|---|---|
| 1997–98 | 87 |
| 1998–99 | 124 |
| 1999–2000 | 210 |
| 2000–01 | 232 |
| 2001–02 | 247 |
| 2002–03 | 269 |
| 2003–04 | 254 |

*Notes:*
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Figures have not been adjusted for shortfalls in data, that is, the data are ungrossed.
3. The main operation is the first recorded operation in the hospital episode statistics (HES) data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, eg time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.

*Source:*
HES: Health and Social Care Information Centre.

### Clostridium Difficile

**Mr. Hancock:** To ask the Secretary of State for Health what steps are being taken to prevent the spread of *Clostridium difficile* in hospitals in England. [8399]

**Jane Kennedy:** Our programme to control healthcare associated infection in England, including those due to *Clostridium difficile*, is set out in the Department's publications, "Winning Ways: Working together to reduce Healthcare Associated Infection in England" (December 2003) and "Towards cleaner hospitals and lower rates of infection" (July 2004). Specific measures will include incorporating high standard infection control procedures; appropriate antibiotic prescribing; and appropriate contingency, for example, appropriate disinfection or isolation, if an outbreak occurs.

### Connecting for Health

**Dr. Murrison:** To ask the Secretary of State for Health what instructions have been issued by Connecting for Health to suppliers to develop stand alone versions of their application which are not reliant on the NHS data spine; and for what reasons. [7385]

**Mr. Byrne:** None. Contracts governing service levels for the data spine require a very taxing standard of guaranteed availability on a 24 hours a day, seven days a week basis. Suppliers are required to develop highly reliable and resilient systems to meet these service levels. Earlier this year, suppliers were asked to consider the impact for their systems and services of the data spine being unavailable temporarily, but there are no current plans to progress this to an instruction to develop stand-alone systems.

### Conscientious Objection

**Mr. Amess:** To ask the Secretary of State for Health when she will reply to paragraphs 3.11 to 3.16 of the Twelfth Report from the Joint Committee on Human Rights of Session 2003–04, relating to conscientious objection; and if she will make a statement. [9965]

**Ms Rosie Winterton:** Parliament will debate the issues raised in the Assisted Dying for the Terminally Ill Bill on 10 October and the Government will listen carefully to this debate.

### Consultants' Contract

**Harry Cohen:** To ask the Secretary of State for Health whether she has fully funded the NHS for the costs its has incurred from implementing the consultants' contract; and if she will make a statement. [9352]

**Mr. Byrne:** We have invested substantial resources—some £250 million extra by 2005–06—for the new consultant contract, which rewards those national health service consultants who do the most for the NHS and aims to secure real changes in the way patient care is delivered.

This funding, based on the methodology agreed with the British Medical Association during negotiations, was allocated to primary care trusts (PCTs) in December 2002 as part of main allocations. The amount that went to main allocations was 0.3 per cent. 2003–04, 0.4 per cent. in 2004–05 and 0.5 per cent. in 2005–06.

We uplifted the provider tariff for 2005–06 to take account of any potential cost pressures, although our national survey subsequently demonstrated that the cost pressures anticipated by trusts were not being realised. The imperative remains for trusts to ensure that all consultants have job plans that reflect the current needs of patients and the service in line with local delivery plans.

### Category A Patients (Mortality Statistics)

**Sandra Gidley:** To ask the Secretary of State for Health what percentage of Category A patients were pronounced dead on arrival at hospital in the last period for which figures are available, broken down by ambulance trust. [9789]

**Mr. Byrne:** This information is not collected centrally.

### Dentistry

**Mr. Walker:** To ask the Secretary of State for Health what measures she is taking to increase the provision of dentistry services in Hertfordshire; and if she will make a statement. [7488]

**Ms Rosie Winterton:** The eight primary care trusts (PCTs) in Hertfordshire have received £1.03 million in capital grants in 2004–05 and £446,000 revenue access money in 2004–05. This additional funding has already delivered growth equivalent to 5.5 whole time dentists and delivered in excess of 10,000 additional patient registrations in Hertfordshire.

Through local recruitment activity, Dacorum PCT now employs three dentists from overseas and North Hertfordshire and Stevenage PCT employs two.

**Steve Webb:** To ask the Secretary of State for Health what orthodontic treatment is available on the NHS; and what the charges are for each type of treatment. [8090]

**Ms Rosie Winterton:** Full details of dental treatment available on the national health service are set out in the statement of dental remuneration (SDR), which details the availability of all NHS treatment and the fees payable by patients. A copy of the SDR has been placed in the Library. As with all NHS dental treatment, orthodontic treatment is free for children.

**Mr. Amess:** To ask the Secretary of State for Health what steps her Department is taking to improve NHS dentistry in the Southend area. [9929]

**Ms Rosie Winterton:** In 2004–05, the Department allocated £1.5 million to the Essex strategic health authority to improve access, choice and quality in national health service dentistry. Of this sum, Southend primary care trust (PCT) received £220,000. The PCT aims to create additional capacity of 23,400 places as a result. The PCT has a dental action plan in place which includes a range of measures to increase capacity and extend existing services, and has already negotiated two personal dental service contracts which has created an additional 13,000 patient registrations. The PCT has also recruited three Polish dentists as part of the Department's international recruitment scheme, with a fourth due to start later this month.

**Mr. Amess:** To ask the Secretary of State for Health how many dentists undertaking NHS work there are in *(a)* Essex and *(b)* Southend Primary Care Trust; and if she will list the practices which are taking new patients. [9968]

**Ms Rosie Winterton:** The table shows the number of dentists in Essex and Southend Primary Care Trust (PCT).

Information about dentists taking on new national health service patients is not collected centrally. However, information can be obtained from local PCTs or from NHS Direct.

*General dental service (GDS) and personal dental service (PDS)—number of dentists in the specified areas as at 31 March 2005*

| | *All dentists* |
|---|---|
| Essex Strategic Health Authority (SHA) | 628 |
| *of which:* | |
| Southend-on-Sea PCT | 61 |

*Note:*
The figures given by PCT and SHA include all dentists practising in that area. Some dentists may have an open GDS or PDS contract in more than one PCT or SHA and therefore they have been counted more than once.
*Source:*
Dental Practice Board.

### Disability Equality Training

**Helen Jones:** To ask the Secretary of State for Health what steps she is taking to ensure that all NHS staff receive disability equality training; how many trusts provide such training; and how many strategic health authorities monitor the availability of such training in their area. [2722]

**Mr. Byrne** *[holding answer 9 June 2005]:* The responsibility for diversity awareness training, which includes disability equality, lies with each national health service employer. We recommended in "Improving Working Lives Practice Plus" that NHS employers provide employees with diversity awareness training. All NHS employers are expected to conform to "Improving Working Lives" human resources practice by March 2006. General practitioner practices and foundation trusts, however, are not covered by these requirements. Compliance data are not held centrally.

## Doctor Numbers

**Mr. Maude:** To ask the Secretary of State for Health how many *(a)* general practitioners, *(b)* consultants, *(c)* junior doctors, *(d)* staff grade and *(e)* associate specialists were employed in NHS hospitals in (i) West Sussex, (ii) Surrey, (iii) Durham, (iv) the East Riding of Yorkshire and (v) each strategic health authority in each of the last eight years. [7911]

**Mr. Byrne:** The information requested has been placed in the Library. Between 1997 and 2004 in England, consultants increased by 43 per cent.; associate specialists by 70 per cent.; staff grade by 114 per cent.; doctors in training or equivalents by 38 per cent. and general practitioners by 16 per cent.

## Domiciliary Care

**Mr. Burstow:** To ask the Secretary of State for Health what the stages in the registration of domiciliary care providers are; and what standard is required at each stage. [9078]

**Mr. Byrne:** The Commission for Social Care Inspection (CSCI) is responsible for registering domiciliary care agencies in accordance with statutory regulations and national minimum standards. Information about registration is found on the application pack R1 and AppendixA3, both of which are available from CSCI at www.csci.org.uk.

**Mr. Burstow:** To ask the Secretary of State for Health how many people in *(a)* England and *(b)* each region have (i) met and (ii) not met the required standard at each stage in the registration of domiciliary care providers. [9079]

**Mr. Byrne:** I understand from the chair for the Commission for Social Care Inspection (CSCI) that, in 2004–05, the CSCI registered 2,118 domiciliary care agencies, making a total of 4,091 registered as at 31 March 2005.

A total of 17 registrations for domiciliary care agencies were refused in 2004–05.

The regional analysis is shown in the table.

*Domiciliary care homes registered with CSCI in 2004–05*

| *Region* | *Number registered* |
|---|---|
| East Midlands | 232 |
| Eastern | 341 |
| London | 319 |
| North East | 58 |
| North West | 309 |
| South East | 282 |
| South West | 163 |
| West Midlands | 292 |
| Yorkshire and Humber | 122 |
| Grand total | 2,118 |

## Carers Equal Opportunities Act

**Dr. Francis:** To ask the Secretary of State for Health (1) what mechanisms she is developing with the National Assembly for Wales Government to assess and share good practice in the implementation of the Carers Equal Opportunities Act 2004 in England and Wales; [9418]

(2) when the policy and practice guidance on the implementation of the Carers' Equal Opportunities Act 2004 will be issued. [9420]

**Mr. Byrne:** The Social Care Institute for Excellence (SCIE) is currently working on a web-based practice guidance to link with Departmental policy guidance. As SCIE covers England and Wales, this material will be relevant to both countries.

The Department hopes to publish the policy guidance for the Carers' Equal Opportunities Act 2004 by the end of July 2005. SCIE plans to produce the practice guidance and to publish it online in September 2005.

**Dr. Francis:** To ask the Secretary of State for Health what mechanisms will be put in place to assess the impact of the Carers Equal Opportunities Act 2004. [9421]

**Mr. Byrne:** The number of carers receiving assessments is increasing year-on-year. From 2004–05, new data will be collected on the outcomes of carer's assessments as well as the number of assessments. However, there are currently no specific plans to monitor precisely what service a carer receives as a result of their assessment.

## Euthanasia

**Keith Vaz:** To ask the Secretary of State for Health what representations she has received from *(a)* doctors and *(b)* nurses in support of (i) assisted suicide and (ii) voluntary euthanasia. [9606]

**Ms Rosie Winterton:** The Department has received regular correspondence over the last year on assisted suicide and voluntary euthanasia expressing a range of views and opinions. Correspondents do not necessarily include details of their profession.

## Food Poisoning (West Midlands)

**Mr. Michael Foster:** To ask the Secretary of State for Health how many cases of food poisoning there have been in each local authority in the west midlands in each of the last 10 years. [8977]

**Caroline Flint:** The number of notified cases of food poisoning in each local authority in the west midlands in each of the last 10 years is shown in Table 1.

Total notifications for the west midlands have shown a decrease since 1997.

Notified cases of food poisoning are not considered to be a reliable indicator of food-borne disease, due to considerable under-reporting. Very few notified cases will be based on evidence supporting a suspected association with food.

The Health Protection Agency has estimated that, in 2000, there may have been as many as 1.3 million cases of food-borne disease acquired in England and Wales, of which around 370,000 consulted a doctor[1]. In that year, only 86,528 cases of food poisoning were notified in England and Wales.

The annual totals of laboratory-confirmed cases of "Campylobacter" and "Salmonella" in the west midlands in the years 1995–2004 are shown in Table 2.

[1] Adak G. K. Long S. M. O'Brien S. J. Gut 2002; 51:832–841.

## General Practitioners

**Mr. Burstow:** To ask the Secretary of State for Health how many full-time equivalent general medical practitioners there were in each primary care trust in London on average in *(a)* 1997, *(b)* 2001 and *(c)* 2004, broken down by (i) single handed and (ii) two or more partner general practitioner practices; and what percentage these practices represented of the total number of general practitioner practices in each year. [8012]

**Jane Kennedy:** The information requested has been placed in the Library.

**Mr. Francois:** To ask the Secretary of State for Health how many general practitioners are practising in South Woodham Ferrers, Essex; and what the size of the patient list at each practice is. [9317]

**Jane Kennedy** *[holding answer 6 July 2005]:* The number general practitioners, GP practices, number of patients and average list size providing services to the residents of South Woodham Ferrers are shown in the table.

*Average list size of general medical practitioners, excluding retainers and registrars[1], and GP practices for specified organisations*
*As at 30 September 2004*
*Number (headcount)*

| *Primary care trust* | *All practitioners (excluding retainers and registrars)*[1] | *Patients* | *Average list size* | *GP practices* |
|---|---|---|---|---|
| Billericay, Brentwood and Wickford | 78 | 143,284 | 1,837 | 20 |
| Castle Point and Rochford | 91 | 175,019 | 1,923 | 27 |
| Maldon and South Chelmsford | 47 | 81,460 | 1,733 | 15 |

[1] General medical practitioners (excluding retainers and registrars) includes contracted GPs, general medical service (GMS) others, and personal medical service (PMS) others.
*Source:*
National Health Service Health and Social Care Information Centre GMS and PMS statistics.

**Mr. Amess:** To ask the Secretary of State for Health how many general practitioners there have been in the Southend primary care trust area in each year since 1997. [9966]

**Ms Rosie Winterton:** The table shows the number of general practitioners in the Southend area, with information for Southend on Sea primary care group (PCG) for 1999 and 2000 and then for its successor organisation, Southend on Sea primary care trust (PCT) for 2001 to 2004.

*General medical practitioners (excluding retainers and registrars)[1] for specified organisations: 1999–2004*
*Numbers (headcount)*

| | | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *[2]2004* |
|---|---|---|---|---|---|---|---|---|
| 4KH89 | Southend On Sea PCG | 84 | 84 | [3]— | [3]— | [3]— | [3]— | [3]— |
| 5AK | Southend On Sea PCT | [3]— | [3]— | 82 | 79 | 87 | 111 | 103 |

[1] General medical practitioners (excluding retainers and registrars) includes contracted GPs, general medical service (GMS) others and personal medical service (PMS) others. Prior to September 2004 this group included GMS unrestricted principals, PMS contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (Para 52 SFA), PMS other, flexible career scheme GPs and GP returners.
[2] As at December
[3] Denotes data not applicable

## General Social Care Council

**Mr. Burstow:** To ask the Secretary of State for Health how the General Social Care Council measures the impact of its codes of practice on *(a)* the recruitment of social workers and *(b)* service users. [9076]

**Mr. Byrne:** Information on the impact of the General Social Care Council's (GSCC) codes of practice on the recruitment of social workers is not collected centrally.

The GSCC conducted a major consultation on the impact of the codes on the social care sector as a whole in 2004. The results of this exercise and other

information from the sector suggests that the codes are highly valued by the workforce, are being used in practice, are having a positive effect for service users and are seen as part of everyday activity.

The GSCC is planning further research on the codes of practice and how they are being embedded and the impact on service users.

**Mr. Burstow:** To ask the Secretary of State for Health what estimate *(a)* her Department and *(b)* the General Social Care Council has made of the number of (i) domiciliary care workers, (ii) outreach workers, (iii) residential child workers, (iv) social care managers and (v) staff responsible for recruitment and supervision of social care staff who would be covered by future requirements for registration with the General Social Care Council. [9445]

**Mr. Byrne:** There are an estimated 1.4 million social care workers in England, around a quarter of these are people working in domiciliary care.

Detailed information on the number of social care workers is collected by Skills for Care in relation to adult services and by the Children, Young People and Families Workforce Development Council (CWDC) in relation to children's services.

During 2004, the General Social Care Council (GSCC) carried out a widespread consultation about the order in which the remaining groups of social care staff should be brought into registration. I am considering their report of the outcome of this consultation in the context of the continuing development of our social care policies following the publication of the social care Green Papers, "Independence, well-being and choice" and "Every Child Matters". I expect to announce my decision shortly.

The GSCC will then work closely with Skills for Care and CWDC in preparing for registration of the new groups in the social care work force in light of information about the numbers in each category.

### Healthcare and Associated Infections

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 13 June 2005, *Official Report*, column 104W, on healthcare and associated infections, what the terms of reference are for the work referred to; what funding is planned for it; and when *(a)* the confidential study and *(b)* the qualitative study is expected (i) to start, (ii) to be completed and submitted to Ministers and (iii) published. [8028]

**Jane Kennedy:** The terms of reference are:

"A national audit of deaths from healthcare associated infections will be established and will investigate a proportion of the deaths that occur, to identify avoidable factors and lessons to be learned from them."

A sum of £450,000 was allocated from 1 April 2005 for two years. The six month pilot phase of the confidential qualitative study is about to start and an interim report is expected next year. The main phase will be completed in the following 18 months and a report will be submitted to the Department and published at the end of the study. The quantitative study will be undertaken over the same period.

**Mr. Hendrick:** To ask the Secretary of State for Health when she will introduce legislation to combat healthcare-associated infection; and if she will make a statement. [10922]

**Jane Kennedy** *[pursuant to the reply, 7 July 2005, Official Report C.579W]:* I regret that my previous reply was incorrect. It should read as follows:

We will be publishing on Friday 15 July a consultation document that sets out detailed proposals for tackling healthcare-associated infections, as outlined in the Gracious Speech. Copies will be available in the Library, and on the Department's website at: www.dh.gov.uk/Consultations/LiveConsultations/fs/en.

### Healthcare Commission

**Steve Webb:** To ask the Secretary of State for Health how many complaints have been referred to the Healthcare Commission in each month since July 2004; and in respect of how many complaints the Healthcare Commission has *(a)* commenced and *(b)* concluded its inquiries. [9373]

**Jane Kennedy:** I understand from the chair of the Healthcare Commission that the number of requests for an independent review of complaints received, up to and including 30 June 2005, is as shown in the table.

| | *Complaints received* | *Complaints resolved (concluded)* | *Complaints where investigation has commenced* |
|---|---|---|---|
| *2004* | | | |
| August | 1,057 | 752 | 305 |
| September | 736 | 443 | 293 |
| October | 619 | 284 | 335 |
| November | 694 | 325 | 369 |
| December | 527 | 226 | 301 |
| *2005* | | | |
| January | 623 | 272 | 351 |
| February | 654 | 193 | 461 |
| March | 776 | 186 | 590 |
| April | 648 | 104 | 544 |
| May | 590 | 21 | 569 |
| June | 637 | 12 | 625 |
| Total | 7,561 | 2,818 | 4,743 |

### Hepatitis C

**Mrs. Dean:** To ask the Secretary of State for Health what estimate she has made of the number of people in the Burton constituency infected with hepatitis C; how many people in the constituency have been diagnosed with hepatitis C; and how many people in the constituency were treated for hepatitis C in *(a)* 2003 and *(b)* 2004. [4422]

**Ms Rosie Winterton:** The information requested is not held centrally.

### Human Embryos (Research)

**Dr. Gibson:** To ask the Secretary of State for Health whether the three additional purposes for which human embryos may be used in research as contained in the Human Fertilisation and Embryology (Research Purposes) Regulations 2001 give effect to the recommendations of the joint Human Genetics Advisory

Commission and Human Fertilisation Embryology Authority report Cloning Issues in Reproduction, Science and Medicine that regulations should add the purposes of developing methods of therapy for mitochondrial disease and therapy for diseased or damaged tissues or organs. [8684]

**Jane Kennedy:** Following the report from the Chief Medical Officer's expert group reviewing the potential of developments in stem cell research and cell nuclear replacement to benefit human health[1], the Human Fertilisation and Embryology (Research Purposes) Regulations 2001 were introduced. They extended the purposes for which the Human Fertilisation Embryology Agency (HFEA) may grant licenses for research involving embryos to include increasing knowledge about the development of embryos, or about serious disease, and enabling any such knowledge to be applied in developing treatments for serious disease.

The HFEA may only grant licences for research projects if it appears that the activity is necessary or desirable for one or more of the research purposes listed in the Act, as extended by regulations, and the use of human embryos is necessary for the purposes of the research. Licence applications for research projects involving embryos for the purposes of developing methods of therapy for mitochondrial disease and therapy for diseased or damaged tissues or organs are considered in accordance with this procedure. The question of whether something is a serious disease is in the first instance for an HFEA licensing committee, and ultimately for the courts to decide.

The Government announced on 21 January 2004 their intention to undertake a review of the provisions of the HFEA to ensure that it remains effective in the 21st century. This will include a full public consultation exercise in 2005.

[1] Stem Cell Research: Medical Progress with Responsibility, Department of Health, July 2000.

## Liver Transplants

**Mr. Amess:** To ask the Secretary of State for Health what the average waiting time is for a liver transplant. [9999]

**Ms Rosie Winterton:** The average waiting time for a liver transplant is 60 days for adults and 69 days for children.

## Malaria

**Sandra Gidley:** To ask the Secretary of State for Health how many people have been diagnosed with malaria in the Hampshire and Isle of Wight strategic health authority area in each of the last five years, broken down by hospital trust. [9793]

**Caroline Flint:** The information requested is shown in the following table. The figures given do not relate to the number of people diagnosed with malaria, but the number of admitted care episodes in national health service hospitals where malaria was the primary diagnosis. Numbers lower than five have been suppressed for reasons of patient confidentiality.

*Count of finished admission episodes, strategic health authority of residence—Hampshire and Isle of Wight. Primary diagnosis—malaria (ICD-10 = between B50-B54), NHS hospitals, England, 1999–2000 to 2003–04*

[1] For reasons of confidentiality, figures between one and five have been suppressed.

*Notes:*

1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
4. Malaria defined as one of the ICD-10 codes in the primary diagnosis:

B50 Plasmodium falciparum malaria
B51 Plasmodium vivax malaria
B52 Plasmodium malariae malaria
B53 Other parasitologically confirmed malaria
B54 Unspecified malaria

### Maldon and South Chelmsford Primary Care Trust

**Mr. Francois:** To ask the Secretary of State for Health what the capital budget of the Maldon and South Chelmsford Primary Care Trust is for *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08; and how much of this money is (i) allocated to programmes and (ii) unallocated. [9316]

**Jane Kennedy** *[holding answer 6 July 2005]:* Maldon and South Chelmsford Primary Care Trust's (PCT) allocations are shown in the table.

| | *Budget allocation (£ million)* |
|---|---|
| 2005–06 | 70.6 |
| 2006–07 | 84.7 |
| 2007–08 | 94.4 |

It is for the PCT to decide how it spends the money allocated.

### Medical Centres (Attendance)

**Mr. Lansley:** To ask the Secretary of State for Health how many attendances at *(a)* walk-in centres and *(b)* minor injuries units there were in each quarter since September 2002. [7505]

**Mr. Byrne:** Data on the total number of visits to national health service walk-in centres is shown in the table. Data on minor injury units are published in the "Chief Executive's Report to the NHS—Statistical Supplement—May 2005".

*Total number of visits to NHS walk-in centres*

| *Period* | *Number of visits* |
|---|---|
| October to December 2002 | 332,586 |
| January to March 2003 | 335,358 |
| April to June 2003 | 391,940 |
| July to September 2003 | 412,829 |
| October to December 2003 | 387,570 |
| January to March 2004 | 389,784 |
| April to June 2004 | 477,667 |
| July to September 2004 | 503,144 |
| October to December 2004 | 516,406 |
| January to March 2005 | 571,305 |

*Source:*
Department of Health

### Medical Students

**Mr. Lansley:** To ask the Secretary of State for Health what estimate she has made of the number of students on medical courses offered by institutions outside the UK who undertook their clinical training in England in each of the last five years; and what assessment she has made of the proportion who subsequently worked in the NHS after qualification. [7449]

**Mr. Byrne:** The information requested is not collected centrally.

**Mark Simmonds:** To ask the Secretary of State for Health what the ratio of male to female first year medical students has been in each year since 1997; and if she will make a statement. [9245]

**Mr. Byrne:** The information requested is shown in the table.

*Number and gender of English medical school intake, 1997–98 to 2004–05*[1]

| | | *Male* | | *Female* | | *Ratio* |
|---|---|---|---|---|---|---|
| *Academic year* | *Total* | *Number* | *Percentage* | *Number* | *Percentage* | *Male: Female* |
| 1997–98 | 3,749 | 1,697 | 45.3 | 2,052 | 54.7 | 1:1.209 |
| 1998–99 | 3,735 | 1,690 | 45.25 | 2,045 | 54.75 | 1:1.210 |
| 1999–2000 | 3,972 | 1,748 | 44.0 | 2,224 | 56.0 | 1:1.272 |
| 2000–01 | 4,300 | 1,826 | 42.5 | 2,474 | 57.5 | 1:1.355 |
| 2001–02 | 4,713 | 1,959 | 41.5 | 2,754 | 58.4 | 1:1.406 |
| 2002–03 | 5,277 | 2,123 | 40.2 | 3,152 | 59.7 | 1:1.485 |
| 2003–04 | 6,082 | 2,418 | 39.8 | 3,664 | 60.2 | 1:1.515 |
| 2004–05[1] | 6,326 | 2,528 | 40.0 | 3,798 | 60.0 | 1:1.502 |

[1] These figures are provisional until November 2005, when the Higher Education Funding Council for England (HEFCE) will provide confirmed figures.

*Source:*
HEFCE.

Latest figures show that, in 2004–05, the intake of medical school students in England had risen by 69 per cent. since 1997.

### Medicines and Healthcare Products Regulatory Agency

**Mr. Burstow:** To ask the Secretary of State for Health for what reasons the Medicines and Healthcare Products Regulatory Agency does not break down the 'No established link to device' category causes of medical device-related adverse incidents. [9430]

**Jane Kennedy:** The Medicines and Healthcare products Regulatory Agency Adverse Incident Annual Report (DB2005(02)) includes a summary of information relating to the approximately 9,000 medical device related adverse incident reports received each year. The MHRA's adverse incident database holds detailed information on each of those incidents. MHRA staff using the database may select from 139 different categories and sub-categories when specifying incident causes. It would not be practical to provide this level of detail in the summary document, so these categories are grouped together under high level headings.

### Mental Health (Southend)

**Mr. Amess:** To ask the Secretary of State for Health how many medical doctors there have been in mental health facilities in the Southend, West constituency in each year since 1997. [9923]

**Ms Rosie Winterton:** The information requested is not held centrally by constituency. However, the number of medical staff at mental health trusts who provide care in Essex from 1997 to 2004 are shown in the table.

*Hospital, public health medicine and community health services (HCHS): medical staff within mental health trusts in Essex Strategic Health Authority—as at 30 September each year*

*Number (headcount) and full time equivalents*

| | 1997 | | 1998 | | 1999 | | 2000 | |

Health and Social Care Information Centre medical and dental workforce statistics.

### Misuse of Records

**Lynne Jones:** To ask the Secretary of State for Health what penalties are laid down for misuse of records by *(a)* permanent, *(b)* temporary and *(c)* agency NHS employees with access to patient records. [5918]

**Mr. Byrne:** There are no centrally laid down penalties for the misuse of patient records, as ensuring that records are managed to appropriate standards is a responsibility of each individual national health service organisation. However, departmental guidance, set out in "Confidentiality: NHS Code of Practice", published in November 2003, makes it clear that misuse of patient information should be treated as a serious disciplinary matter, possibly resulting in legal proceedings.

### National Institute for Health and Clinical Excellence

**Mr. Hands:** To ask the Secretary of State for Health what the average time has been for the National Institute for Clinical Excellence to issue guidance on cancer treatments once they have been licensed by the Medicines and Healthcare products Regulatory Agency in each year since 2000. [4834]

**Jane Kennedy:** It would be not possible to provide an average yearly figure that was in any way meaningful, given that many of the cancer drugs National Institute for Health and Clinical Excellence (NICE) has appraised were licensed some years, as much as six years in some cases, before the formation of NICE.

### National NHS Database

**Dr. Murrison:** To ask the Secretary of State for Health what provision will be made for NHS patients wishing not to have their data recorded on the proposed national NHS database. [7379]

**Mr. Byrne:** For national health service patients wishing not to have their data recorded electronically within the NHS care records service (CRS), provision will be made to exercise their rights as provided by section 10 of the Data Protection Act 1998. This requires NHS data controllers to cease processing data, where the processing "is causing or is likely to cause substantial damage or distress", where that damage or distress would be unwarranted, the processing is not necessary for compliance with legal obligations and is not necessary to protect the vital interests of the data subject.

Procedures to give effect to these rights in respect of records held electronically within the CRS are being developed by the Department, in consultation with organisations representing the interests of patients and health professionals.

### New Hospital (Maldon)

**Mr. Francois:** To ask the Secretary of State for Health whether a site has been identified for the construction of the new hospital in Maldon, Essex; and what the latest date is on which she expects the hospital to open. [9314]

**Jane Kennedy** *[holding answer 6 July 2005]:* A potential site has been identified, but technical legal issues are delaying the purchase and at present it is not possible to say when it will be completed. A wide range of factors can affect the speed of progress of a new hospital build, but experience from other similarly sized schemes indicated that it will take about 48 months to complete the hospital from when the initial approval in principle to proceed is given. In this case, initial approval cannot be given until the site is in the ownership of the national health service.

## NHS Direct

**Mr. Lansley:** To ask the Secretary of State for Health whether the study into the most appropriate organisational form for NHS Direct outlined in the Department's Implementation Framework for Reconfiguring the DH Arm's Length Bodies, published on 30 November 2004, is complete; and if she will make a statement. [7478]

**Mr. Byrne:** The further appraisal into the most appropriate organisational form for NHS Direct is expected to be completed this summer.

## NHS Finance

**Tony Baldry:** To ask the Secretary of State for Health within what period she expects an NHS trust which is in deficit to bring its budget into balance. [6802]

**Mr. Byrne:** National health service trusts have a responsibility to break even each and every year. It is the responsibility of strategic health authorities (SHAs) to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance. As long as SHAs can deliver overall financial balance across their organisations, they can agree a plan for individual organisations that phases the recovery of deficits over several years.

**Mr. Amess:** To ask the Secretary of State for Health what funds have been allocated to hospitals in Southend in each year since 1997. [9924]

**Ms Rosie Winterton:** National health service trusts do not receive funding as such as services are commissioned by primary care trusts. However, the income figures for Southend hospital NHS Trust are shown in the following table.

*Southend hospital NHS Trust total income*

*£000*

| | *Amount* |
|---|---|
| 1997–98 | 84,509 |
| 1998–99 | 93,139 |
| 1999–2000 | 107,598 |
| 2000–01 | 112,589 |
| 2001–02 | 125,771 |
| 2002–03 | 137,778 |
| 2003–04 | 150,235 |

*Note:*
NHS trusts do not normally receive funding direct from the Department, but receive income for service provision largely from health authorities and primary care trusts. Figures above show the total income of the trust, including all income from activities and all other operating income.

*Sources:*
Audited summarisation schedules of the Southend hospital NHS Trust 1997–98 to 2003–04.

**Mr. Amess:** To ask the Secretary of State for Health what the health expenditure per head of population in Southend, West constituency has been in each year since 1997. [9930]

**Ms Rosie Winterton:** It is not possible to provide expenditure on individual constituencies. The expenditure per head on health in South Essex health authority (HA), 1997–99, and the Essex strategic health authority (SHA), 1999–2004, geographical areas, of which Southend, West constituency is a part, is shown in the following table.

*£ per head*

| | *South Essex HA area* | *Essex SHA area* |
|---|---|---|
| 1997–98 | 568.75 | n/a |
| 1998–99 | 636.27 | n/a |
| 1999–2000 | 722.78 | n/a |
| 2000–01 | 806.50 | n/a |
| 2001–02 | 832.87 | n/a |
| 2002–03 | n/a | 850.90 |
| 2003–04 | n/a | 1,034.95 |

*Notes:*
1. Expenditure is taken from audited health authority summarisation forms and primary care trust (PCT) summarisation schedules, which are prepared on a resource basis and therefore differ from cash allocations in the year. The figures have not been adjusted for inflation.
2. Allocations per weighted head of population provide a much more reliable measure to identify differences between funding of HAs and PCTs.
3. Figures for 1997–98 to 2001–02 have been prepared using gross expenditure figures. Figures for 2002–03 and 2003–04 have been adjusted to eliminate expenditure which would be double counted where an authority acts as a lead in commissioning healthcare or other services.
4. In many HAs, there are factors which distort the expenditure. These include:
the HA acting in a lead capacity to commission healthcare or fund training on behalf of other health bodies; and
asset revaluations in national health service trusts being funded through HAs or PCTs.
5. The majority of general dental services expenditure is separately accounted for by the Dental Practice Board. An element of pharmaceutical services expenditure is accounted for by the Prescription Pricing Authority. Total expenditure on these items by the Dental Practice Board and the Prescription Pricing Authority cannot be allocated to individual health bodies. Therefore, the total expenditure in the answer by HA does not capture all NHS expenditure within the area.
6. For these reasons expenditure cannot be compared reliably between health authorities or between different years.
*Sources:*
1. South Essex HA audited accounts 1997–98 and 1998–99.
2. South Essex HA audited summarisation forms 1999–2000 to 2001–02.
3. Essex SHA audited summarisation forms 2002–03 and 2003–04.
4. PCT audited summarisation schedules 2001–02 and 2003–04 for bodies within the above HA areas' weighted population figures.

**Mr. Yeo:** To ask the Secretary of State for Health what guidance her Department has given *(a)* the West Suffolk Hospitals Trust and *(b)* the Suffolk West primary care trust about how to deal with its financial deficit. [9336]

**Ms Rosie Winterton:** National health service organisations are expected to plan for and achieve financial balance each and every year. Any deficits of

NHS trusts need to be matched by underspends by other NHS bodies each year. In the next year NHS trusts which overspend should make a surplus in order to ensure that other organisations can utilise the underspends from the previous year.

It is the responsibility of strategic health authorities (SHAs) to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance. However, there is a degree of flexibility in how this is managed at a local level. In circumstances where a surplus cannot be generated in the following year, SHAs can agree a recovery plan which phases the recovery of deficits over a number of years. This would require other NHS organisations within the health economy to underspend over the same period. Clearly, any such arrangements would have to be subject to the agreement of local providers, commissioners and the managing SHA.

**Frank Dobson:** To ask the Secretary of State for Health pursuant to the answer of 29 June 2005, *Official Report*, column 1610W, what the latest available information in her Department is on NHS Trust deficits in *(a)* 2004–05 and *(b)* the current financial year. [10011]

**Mr. Byrne** *[holding answer 5 July 2005]:* The latest year for which audited data on the financial position of national health service organisations is available is 2003–04.

For 2004–05 and 2005–06, audited information in respect of the financial position of all strategic health authorities, primary care trusts and NHS trusts will be published in their individual annual accounts. For 2004–05, this information will be available centrally in autumn 2005. For 2005–06, it will be available in the following autumn.

## NHS Logistics

**Mr. Mike Hall:** To ask the Secretary of State for Health (1) what assessment she has made of the fitness for purpose of the IT system at NHS Logistics; and what assessment she has made of the requirement for a new IT system to expand the market served by NHS Logistics; [9491]

(2) if she will publish the report by KPMG on IT systems used by NHS Logistics and the IT systems capacity required to service the NHS supply chain. [9493]

**Jane Kennedy:** The NHS Logistics Authority (NHSLA) undertakes an annual review of its information technology strategy, which covers issues such as system capacity and fitness for purpose. KPMG, NHSLA's internal auditor, has assisted NHS Logistics with these reviews. The reviews have concluded that the existing systems, with future planned enhancements, are capable of meeting the known medium term needs of the national health service and NHSLA.

KPMG prepares reports for their client, NHSLA, on a confidential basis and, therefore, it has no plans to publish these reports.

**Jonathan Shaw:** To ask the Secretary of State for Health when the last significant restructuring of the management of NHS Logistics was. [9632]

**Jane Kennedy:** The last significant restructuring of the management of NHS Logistics was implemented in April 2000. This restructure was a result of recommendations made by the 1998 Cabinet Office Review of NHS Procurement. NHS Logistics has been subject to one internal management restructure since 2000, which was implemented in April 2003.

**Jonathan Shaw:** To ask the Secretary of State for Health what growth occurred in the supply of goods by NHS Logistics, including the share of the NHS consumables market each year since 1997, broken down by *(a)* volume and *(b)* value. [9633]

**Jane Kennedy:** The NHS Logistics Authority (NHSLA) was formed in April 2000 and the income generated from the supply of goods is shown in the table. During this time, product revenues have grown by an average 8 per cent. per annum, which is a 38 per cent. increase on NHSLA's first year activity.

*Actual*

| | *Sales (£000)* |
|---|---|
| 2000–01 | 529,812 |
| 2001–02 | 560,695 |
| 2002–03 | 593,288 |
| 2003–04 | 677,928 |
| 2004–05 | 732,051 |

The national health service non-pay spend is circa £13 billion per annum and the consumable healthcare element, the area in which NHSLA operates, is estimated at around £4.2 billion.

This healthcare element has also grown by an average 8 per cent. per annum, resulting in a stable NHS logistics market share estimated at 18 per cent. by value and 70 per cent. by volume.

**Jonathan Shaw:** To ask the Secretary of State for Health whether NHS Logistics management has been asked by her Department to prepare a business plan relating to future expansion. [9634]

**Jane Kennedy:** As part of the business case process and evaluation of bidders' responses to the invitation to submit outline proposals, the NHS Logistics management was asked to prepare a 10-year forecast.

**Jonathan Shaw:** To ask the Secretary of State for Health (1) whether NHS Logistics management has prepared a business plan relating to future expansion; [9635]

(2) what the market growth target for NHS Logistics is. [9636]

**Jane Kennedy:** The NHS Logistics Authority has prepared a business plan for the 2005–2006 financial year, which was approved by the Department. NHS Logistics has also produced a three-year corporate plan approved by the Department.

NHS Logistics sales budget target for 2005–06 is £777 million.

**Judy Mallaber:** To ask the Secretary of State for Health what consultation has been undertaken with stakeholders on the future provision of each category of products used by NHS bodies but not supplied by NHS Logistics. [9904]

**Jane Kennedy:** The National Health Service Purchasing and Supply Agency and NHS Logistics have an established network and ongoing contact with NHS trust level supplies managers, supply management confederations and collaborative procurement hubs. This is supplemented by an extensive range of product and category specific commodity advisory groups, comprising NHS product users and other stakeholders.

These communication streams are consulted and provide input into the contracting process for the consumable products routed through NHS Logistics and also for those products that are supplied directly to the NHS. Selection of the most appropriate supply route for products is a key component of the contracting process and NHS Logistics is considered for all consumable product categories.

### NHS Pensions

**Harry Cohen:** To ask the Secretary of State for Health whether she has fully funded the NHS for the costs its has incurred from its commitment properly to contribute to its staff pensions; and if she will make a statement. [9351]

**Mr. Byrne:** The Government Actuary periodically assesses the current and prospective liabilities of the national health service pensions scheme and recommends a contribution rate at a level commensurate with those liabilities. The employer's contribution rate is currently set at 14 per cent. of pensionable pay.

The costs of employers' pension contributions are taken into account in setting allocations.

### NHS Supplies Service

**Judy Mallaber:** To ask the Secretary of State for Health if she will publish the business case for inviting companies to submit bids to provide the NHS supplies service. [9464]

**Jane Kennedy:** The business case contains commercially sensitive information and is not publicly available.

**Judy Mallaber:** To ask the Secretary of State for Health on what basis bidders to provide the NHS supplies service were accepted for the shortlist who may now be invited to negotiate. [9465]

**Jane Kennedy:** Under the European Union procurement rules, bidders were subject to a pre-qualification process. This process was conducted by the Department in conjunction with NHS Logistics and the NHS Purchasing and Supply Agency.

Pre-qualification assessed bidders on technical skills, financial standing and willingness to comply with the Transfer of Undertakings for Protection of Employment (TUPE) legislation and Treasury guidance on staff transfers and pensions.

**Mr. Mike Hall:** To ask the Secretary of State for Health whether potential bidders to run the NHS supplies service have been advised that they require a new IT system. [9492]

**Jane Kennedy:** The invitation to submit outline proposals did not refer bidders to the need for a new information technology system, but explained that change to the system was envisaged over the 10 years of a potential contract.

**Mr. Mike Hall:** To ask the Secretary of State for Health what assessment she has made of whether additional warehouse capacity that may be required for the expansion of the NHS supplies service provided by NHS Logistics or its successor should be *(a)* rented and *(b)* purchased. [9494]

**Jane Kennedy:** The NHS Logistics Authority has undertaken an assessment of its future warehouse capacity requirements. This indicated that the preferred option for future provision of additional capacity was through a contract with a third party service provider. The third party provider would be responsible for the provision of warehousing capacity and other resources needed to fulfil the contract.

**Judy Mallaber:** To ask the Secretary of State for Health what specifications for IT equipment have been laid down for potential bidders to run the NHS supply service. [9963]

**Jane Kennedy:** The current specifications for information technology equipment, as used by NHS Logistics, will continue to be used.

### NHS Suspensions

**Mr. Lansley:** To ask the Secretary of State for Health what estimate she has made of the proportion of *(a)* medical and *(b)* non-medical clinical staff who were suspended from work pending a fitness-to-practise investigation and subsequently return to work if they are cleared. [9362]

**Mr. Byrne:** This information is not collected centrally.

### Organ Donation

**Mr. Amess:** To ask the Secretary of State for Health what steps her Department is taking to increase public awareness of organ donor programmes. [10000]

**Ms Rosie Winterton:** "Saving Lives, Valuing Donors—A Transplant Framework for England", sets out our key aims for transplantation including initiatives to encourage more people to donate organs and tissues. The Department has provided more than £10 million to UK Transplant to promote the organ donor register and support hospital-based initiatives. In 2005–06, we have provided over £100,000 of section 64 funding to charities promoting organ donation and supporting patient groups. The success of the various local and national campaigns has resulted in over 12.3 million people now registered on the organ donor register and in 2003–04 the highest number of organ transplants ever performed in the United Kingdom.

From 1 October 2005, NHS Blood and Transplant will look for further opportunities to raise the profile of organ donation.

### Paddington Basin Health Campus

**Mr. Lansley:** To ask the Secretary of State for Health how much public money has been spent on developing

the Paddington basin health campus project, broken down by the date on which the costs were incurred; and if she will make a statement. [5591]

**Mr. Byrne:** Expenditure by year for Paddington health campus project and forecast to 30 June 2005 is shown in the table. The money spent is committed proportionate to the size and complexity of the project involved. Details on the cost involved in this project have been released in London strategic health authority board papers and, at different stages in the lifetime of this project, through other channels—in most cases, answers to parliamentary questions. We shall draw on the experience of this project in taking forward alternative developments in north west London.

*Expenditure by year for Paddington health campus project and forecast to 30 June 2005*

£000

| *PHC spend by year from 1999* | *WLPF 1999–2000* | *PHC 2000–01* | *PHC 2001–02* | *PHC 2002–03* | *PHC 2003–04* | *PHC 2004–05* | *PHC from 1 April 2005 to 30 June 2005* | *PHC and WLPF total cost to 30 June 2005* |

| Total | 1,652 | 502 | 926 | 2,099 | 4,938 | 3,262 | 460 | 13,840 |
| Estimated direct costs from Partnerships UK (PUK)[1] | — | — | — | 282 | 388 | 497 | 0 | 1,167 |

[1] Not charged to budgets—but payable by trusts on termination of project—additional commitment

*Notes:*

1. Carrying costs are chargeable on PUK direct and indirect costs—to be advised (and direct/indirect charges confirmed) by PUK.
2. Paddington Development Corporation Ltd is claiming costs totalling 257,000 following termination of the collaboration agreement. The trusts are taking legal advice in respect of the claim. They have provisioned for the claim in their 2004–05 accounts. The cost of the claim is excluded from the above.
3. WLPF—West London Partnership Forum (hosted by former Kensington, Chelsea and Westminster Health Authority.
4. PHC—Paddington health campus (St. Mary's NHS Trust as paymaster).

## Patient Choice

**David Taylor:** To ask the Secretary of State for Health what research her Department has conducted into NHS patient choice in the provision of primary medical services; and if she will make a statement. [6920]

**Mr. Byrne:** The Department has recently commissioned a survey by MORI to explore the choices in primary care which people exercise or would like to exercise. In addition, we are able to draw upon the response to the consultation "Choice, responsiveness and equity in the NHS and social care" which preceded publication of "Building on the Best". Patient choice is also expected to be a theme of the forthcoming public consultation on out of hospital services, announced by the Secretary of State on 23 June 2005.

## Patients' Forums

**Dr. Cable:** To ask the Secretary of State for Health what assessment she has made of the ability of new primary care trust-based patients' forums to monitor the London Ambulance Service as a pan-London body; and when she expects the current Patients' Form to cease operating. [8921]

**Ms Rosie Winterton:** Currently the makeup of the London Ambulance Service (LAS) patient forums does not adequately represent the perspective of the capital overall. With 12 members, there are large parts of the city that do not have patient experience representation.

It is the Government's intention to focus patient forum activity at the primary care trust (PCT) level but with arrangements in place to ensure the whole patients' journey is covered by forum activity. In the context of the LAS it is envisaged that all London PCT forums would work together to ensure that ambulance services are monitored and reviewed effectively from the patient perspective. It will be for the forums themselves to decide how best to achieve a comprehensive and robust arrangement, but one approach might be for each PCT forum to nominate one of its number to form a pan-London specialist ambulance review panel. Such an arrangement would mean that there was strong input from across the city with a membership of 29, with each London locality having a real chance to input into LAS at both strategic and operational levels.

It is envisaged that the reduction of forums to be based on PCT areas only will be during 2006.

## Photodynamic Therapy

**Mr. Lansley:** To ask the Secretary of State for Health (1) what representations she has received about the development of photodynamic therapy for the treatment of cancer in the NHS; when and from whom each was received; and if she will make a statement; [9951]

(2) what assessment she has made of the use of photodynamic therapy (PDT) in the NHS as a treatment for cancer; what plans she has to fund further research into the use of PDT; and if she will make a statement. [9952]

**Ms Rosie Winterton** *[holding answer 5 July 2005]:* The Department has received representations about photodynamic therapy (PDT) from several correspondents; a list of these correspondents is not collated centrally. David Longman, director of "Killing Cancer", has made recent representations about PDT.

As part of its programme of work on interventional procedures, the National Institute for Health and Clinical Excellence (NICE) is looking at the use of PDT in the treatment of several cancers. NICE has already issued

guidance on the use of PDT in the treatment of Barrett's oesophagus and advanced bronchial carcinoma and is preparing guidance on the use of PDT in the treatment of bile duct cancer, skin tumours and advanced bronchial carcinoma.

The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

The Department is not directly funding research on photodynamic therapy for cancer, but is providing national health service support through the national cancer research network for two trials of photodynamic therapy for biliary tract cancers.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by NHS organisations. Details of individual projects, including a number concerned with photodynamic therapy, can be found on the national research register at www.dh.gov.uk/research.

### Prescription Charging

**Mr. Lansley:** To ask the Secretary of State for Health whether she plans to conduct a review of the cost-effectiveness of prescription charging. [9292]

**Jane Kennedy:** I have no plans to review the cost effectiveness of the prescription charging arrangements.

### Primary Care Trusts

**Sandra Gidley:** To ask the Secretary of State for Health what legislation would be required to enable mergers of existing primary care trusts; and if she will make a statement. [9792]

**Mr. Byrne:** Primary care trusts (PCTs) are established by orders made by the Secretary of State under the National Health Service Act 1977. Each PCT is established for a specified area of England. Mergers can be effected by the Secretary of State dissolving or amending the area of an existing PCT or establishing a new PCT. Under the legislation, consultation is required on proposals to make such changes.

**Mr. Lansley:** To ask the Secretary of State for Health (1) how many primary care trusts in England did not meet their enhanced services floor (ESF) in 2004–05; what reasons have been reported to the Department for underspending on enhanced services; and what steps she is taking to ensure primary care trusts achieve their ESF in 2005–06; [7452]

(2) what sanctions can be imposed on primary care trusts which underspend against their enhanced services floor. [7453]

**Mr. Byrne:** Spend on enhanced services is monitored locally by strategic health authorities (SHAs) and nationally by the technical steering committee; a United Kingdom-wide committee incorporating representatives from all UK health Departments, NHS Employers and the British Medical Association (BMA). This indicates that overall investment in enhanced services by primary care trusts (PCTs) in 2004–05 is expected to be greater than the planned investment of £601 million, although a minority of PCTs planned to under-spend against their enhanced services floor. Slippage and slow uptake on enhanced services schemes appear to be the main reasons behind the forecast underspends.

As a consequence of this reported underspend, it has been agreed with the general practitioners' committee of the BMA that any underspends by PCTs in 2004–05 will be re-invested in 2005–06.

SHAs have the power to intervene if they believe PCTs are not delivering the necessary level of investment to provide good quality service for patients.

**Mr. Maude:** To ask the Secretary of State for Health what the per capita funding for primary care trusts in *(a)* West Sussex, *(b)* Kent, *(c)* Durham and *(d)* the East Riding of Yorkshire was in each of the last five years; what the average for England was for each year; and what estimate has been made of allocations for the next five years. [7910]

**Mr. Byrne:** The table shows the per capita funding for 2000–01 to 2007–08, as well as the England average. Allocations to primary care trusts (PCTs) are based on the population weighted for a number of factors.

The 2003–04 to 2005–06 revenue allocations to PCTs increased by an average of 30.8 per cent.

The PCT revenue allocations for 2006–07 and 2007–08 increased by an average of 19.5 per cent. Revenue allocations to PCTs for 2008–09 onwards have not yet been determined.

*Allocation per head of population*

| *Health authority (HA)/PCT* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* | *2005–06* | *2006–07* | *2007–08* |

| *County Durham* | | | | | | | | |
| Darlington | 745 | 808 | 884 | 1,006 | 1,096 | 1,189 | 1,398 | 1,508 |
| Derwentside | 745 | 808 | 884 | 1,041 | 1,143 | 1,249 | 1,460 | 1,592 |
| Durham and Chester-le-Street | 745 | 808 | 884 | 897 | 978 | 1,062 | 1,248 | 1,357 |
| Durham Dales | 745 | 808 | 884 | 1,024 | 1,117 | 1,216 | 1,436 | 1,561 |
| Easington | 745 | 808 | 884 | 1,030 | 1,158 | 1,296 | 1,664 | 1,912 |
| Sedgefield | 745 | 808 | 884 | 1,011 | 1,108 | 1,210 | 1,442 | 1,576 |
| *East Riding* | | | | | | | | |
| East Yorkshire | 677 | 741 | 814 | 834 | 909 | 987 | 1,114 | 1,209 |
| Eastern Hull | 677 | 741 | 814 | 999 | 1,094 | 1,195 | 1,412 | 1,541 |
| West Hull | 677 | 741 | 814 | 981 | 1,070 | 1,163 | 1,373 | 1,489 |
| Yorkshire Wolds and Coast | 677 | 741 | 814 | 890 | 970 | 1,052 | 1,175 | 1,287 |
| England average | 689 | 738 | 817 | 916 | 1,003 | 1,097 | 1,274 | 1,388 |

*Notes:*
There are several reasons why comparisons between allocations rounds cannot be made. For example:
1. 1999–2000 was the first year that unified allocations were made to HAs to cover hospital and community health services (HCHS), prescribing and general medical services cash limited;
2. 2003–04 was the first year revenue allocations were made direct to PCTs for three years. Prior to 2003–04, revenue allocations were made to HAs oh an annual basis. Prior to 2003–04, the table has assumed the same allocation per head across the strategic health authority area;
3. 2006–07 is the first year that primary medical services were incorporated into revenue allocations.

**Mr. Lansley:** To ask the Secretary of State for Health what plans she has to merge primary care trusts; and what *(a)* discussions she has had and *(b)* representations she has received on this issue. [7454]

**Mr. Byrne:** Primary care trusts (PCTs) are central to improving the health of their population by commissioning high quality care.

"Creating a patient-led NHS" sets out the next stages of system reform and makes clear that the impact of the creation of foundation trusts, the new financial regime including payment by results, free choice in elective, the delegation of commissioning to general practitioner practices and the bringing together of contract management and administration into shared services means that PCTs will need to change and develop.

The Department has set in train the preparation of guidance on the process and timescale for developing PCTs to ensure a broad consistency of approach across the country. This will be issued as soon as it is ready.

## Prostate Cancer

**Mr. Baron:** To ask the Secretary of State for Health (1) what discussions her Department has had with representatives of *(a)* patient groups and *(b)* professional organisations on the implementation of the waiting times targets for prostate cancer patients; [10223]

(2) what safeguards she plans to put in place to ensure that the cancer waiting time targets allow prostate cancer patients time to reflect before deciding on an appropriate course of treatment; [10224]

(3) what steps she has taken to inform *(a)* professionals, *(b)* hospitals trusts and *(c)* patient support groups of issues relating to the implementation of waiting time targets for prostate cancer patients; [10225]

(4) what safeguards will be put in place to ensure that prostate cancer patients are not directed towards a less effective form of treatment so as to meet waiting time targets. [10226]

**Ms Rosie Winterton** *[holding answers 7 July 2005]:* The NHS Cancer Plan sets out our strategy to reduce waiting times for cancer patients. There are two targets for prostate cancer to be achieved from December 2005; a maximum 31 day wait from diagnosis of prostate cancer to start of treatment and 62 days from urgent referral for suspected prostate cancer to first treatment.

A national cancer waits project was set up in December 2004 and has held two national conferences on achievement of the 2005 waiting times targets. An expert reference group, chaired by the national cancer director, consisting of representatives from special health authorities, primary care trusts, senior clinicians and national health service managers meets regularly to advise the project and discuss NHS implementation of the targets. The prostate advisory group, which includes membership from prostate charities, also discussed prostate cancer waits at its last meeting.

If a patient tells a clinician that they need time to reflect before deciding on treatment, then clinicians are allowed to suspend the time patients need to consider their treatment options. This means that when monitoring the time taken to achieve the targets, this time does not count as part of the 31 and 62 day waiting times. This ensures that patients have enough time to

make the right decision about their favoured treatment option. Decisions on the best treatment for each individual cancer patient must remain a clinical decision made by a multi disciplinary team. The targets ensure that agreed treatment is delivered quickly.

### Psoriasis

**Mr. Bruce George:** To ask the Secretary of State for Health what estimate she has made of the proportion of the NHS drug budget that was allocated to treating psoriasis in the last year for which figures are available. [5986]

**Jane Kennedy:** The information is not available in the form requested. However, in 2003–04, the net ingredient cost of preparations used in the treatment of psoriasis was £31 million. This is 0.4 per cent, of the total net ingredient cost of all drugs dispensed in the community in England.

### Residential Care

**Sandra Gidley:** To ask the Secretary of State for Health (1) what percentage of extra-care tenants died in *(a)* their extra-care home and *(b)* in hospital in the last period for which figures are available; [7756]

(2) what percentage of residents of nursing and residential care homes died *(a)* in their care home and *(b)* in hospital in the last period for which figures are available. [7757]

**Mr. Byrne:** The data are not centrally available.

### Sexually-transmitted Diseases

**Mr. Burstow:** To ask the Secretary of State for Health how many cases of *(a)* gonorrhoea, *(b)* syphilis, *(c)* Chlamydia and *(b)* thrush have been diagnosed in each primary care trust in London in each of the last five years. [8227]

**Jane Kennedy:** Information on the number of cases of gonorrhoea, syphilis, Chlamydia and thrush (anogenital candidosis) diagnosed in genitourinary medicine (GUM) clinics in each primary care trust (PCT) in London from 2000 to 2004 inclusive has been placed in the Library.

### Skin Cancer

**Sarah Teather:** To ask the Secretary of State for Health how many people have been diagnosed with skin cancer in London in each year since 1997. [8323]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Ms Sarah Teather, dated 11 July 2005:*

The National Statistician has been asked to reply to your recent question concerning how many people have been diagnosed with skin cancer in London in each year since 1997. I am replying in his absence. (8323)

The most recent available figures for the incidence of melanoma skin cancer are for the year 2002. Numbers of cases in London for the years 1997 to 2002 are given in the table below.

*Number of newly diagnosed cases of melanoma skin cancer[1] in London[2], 1997–2002*

| | *Persons* |
|---|---|
| 1997 | 484 |
| 1998 | 516 |
| 1999 | 482 |
| 2000 | 571 |
| 2001 | 508 |
| 2002 | 459 |

[1] Melanoma skin cancer is coded to C43 in the 10th edition of the International Classification of Disease (ICD-10).
[2] Government office for the region.

Office for National Statistics
Years 2000 & 2001—table 4 'Cancer statistics: registrations, England' series MB1.
http://www.statistics.gov.uk/StatBase/Product.asp?vlnk = 8843&Pos = &ColRank = 1&Rank = 240.

**Mark Tami:** To ask the Secretary of State for Health how many cases of skin cancer linked to exposure to the sun have been reported in each of the last five years. [9213]

**Dawn Primarolo:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Mark Tami, dated 11 July 2005:*

The National Statistician has been asked to reply to your recent question concerning how many cases of skin cancer linked to exposure to the sun have been reported in each of the last five years. I am replying in his absence. (9213)

The most recent available figures for the incidence of melanoma skin cancer are for the year 2002. Numbers of cases by sex for the years 1998 to 2002 are given in the table below.

*Number of newly diagnosed cases of melanoma skin cancer[1] in England, by sex, 1998–2002*

*Number of cases*

| | *1998* | *1999* | *2000* | *2001* | *2002* |
|---|---|---|---|---|---|
| Males | 2,149 | 2,161 | 2,541 | 2,638 | 2,832 |
| Females | 2,851 | 2,880 | 3,280 | 3,424 | 3,584 |
| Total | 5,000 | 5,041 | 5,821 | 6,062 | 6,416 |

[1] Melanoma skin cancer is coded to C43 in the 10th edition of the International Classification of Disease (ICD-10).
*Source:*
Office for National Statistics

Information on whether or not cases of skin cancer are linked to sun exposure is not available centrally.

### Smoking

**Keith Vaz:** To ask the Secretary of State for Health what representations the Government have received regarding circumstances when smoking does not have a negative effect on public health. [7129]

**Caroline Flint:** I refer my hon. Friend to the reply I gave on Tuesday 5 July 2005, *Official Report*, column 365W.

### Sterilisers

**Mr. Lansley:** To ask the Secretary of State for Health how many sterilisers for decontaminating surgical instruments were *(a)* over 16 years, *(b)* 11 to 15 years and *(c)* 10 or less years old in NHS hospitals in England, in the most recent period for which figures are

available, broken down by health authority; and what proportion of the total number of sterilizers this represents in each case. [9306]

**Jane Kennedy:** We do not routinely collect information about the number of sterilisers and their ages. Information collected in compiling the comprehensive survey report, "A Review of the Decontamination of Surgical Instruments in the NHS in England", published in December 2001, is shown in the table.

| *Age (years)* | *Number* | *Percentage* |
|---|---|---|
| Less than 5 | 251 | 29 |
| 6–10 | 200 | 22 |
| 11–15 | 199 | 27 |
| Greater than 16 | 242 | 27 |

As part of phase one of the decontamination programme, 160 sterilisers were procured by the National Health Service Purchasing and Supply Agency (NHS PASA) for NHS trusts in England. We have no information on sterilisers that may have been bought by NHS Trusts without involving NHS PASA.

### Trans Fats

**Dr. Kumar:** To ask the Secretary of State for Health (1) if she will introduce legislation to control trans fats in food products; [7524]

(2) if she will take steps to ensure that food labelling includes details of trans fats. [7525]

**Caroline Flint:** The Government are concerned about the possible health effects, in particular on coronary health, from consuming certain fats. Based on independent expert advice, the Government consider saturated fat intake reduction of particular public health significance and are working to reduce fat intakes, which will include both saturated and trans fatty acids. Currently average population dietary intakes of trans fats in the United Kingdom are considerably lower than those recommended by the committee on medical aspects of food policy (1994). There are currently no plans to introduce legislation to control the amount of trans fats in foods.

The Government are pressing for the labelling of trans fatty acids in foods at European Union level.

### Waiting Times

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 25 May 2005, *Official Report*, column 123W, on waiting time targets, whether the Department has agreed local delivery plans with strategic health authorities; and if she will make a statement. [7563]

**Mr. Byrne:** No. The Department are still in the process of agreeing local delivery plans with strategic health authorities.

**Mr. Hoyle:** To ask the Secretary of State for Health what the average waiting time is for an appointment at a drug rehabilitation clinic in *(a)* Lancashire and *(b)* Chorley; and if she will list the clinics available in Lancashire. [7595]

**Mr. Byrne:** All drug action teams have to report waiting times figures to the National Treatment Agency for Substance Abuse each quarter. The waiting time is defined as the time between the date an individual is first referred, or self-refers, for treatment, to the date he or she is admitted for structured treatment, following assessment.

The latest average waiting times figures for Lancashire are for the first quarter of 2005—January to March—and shown in the following table. Comparison is made with the waiting times in December 2001, when collection of waiting times began.

*Lancashire*

*Weeks*

| *Treatment modality* | *Average wait* | |
|---|---|---|
| | *December 2001* | *March 2005* |
| In-patient treatment | 12 | 3 |
| Residential rehabilitation | 12 | 0 |
| Specialist prescribing | 12 | 9 |
| General practitioner prescribing | 12 | 3 |
| Structured day care | 12 | 1 |
| Structured counselling | 12 | 2 |

Data is not reported on a sub-drug action team basis, so data for Chorley is not included in this response.

## HOME OFFICE

### Abandoned Vehicles

**Sarah Teather:** To ask the Secretary of State for the Home Department what assessment he has made of London's Operation Scrap-it; what plans his Department has for further funding of the project; and if he will make a statement. [8197]

**Hazel Blears:** I refer the hon. Member to the answer given to the hon. Member for Sutton and Cheam (Mr. Burstow) on 4 July 2005, *Official Report*, column 108W.

### Alcohol (Under-age Sales)

**Mr. Crabb:** To ask the Secretary of State for the Home Department (1) how many successful prosecutions were brought against shops and off-licences for sales of alcohol to persons under 18 years of age in England and Wales in each year between 1984 and 2004; [2586]

(2) how many convictions were made for sales of alcohol to persons under 18 years of age in England and Wales in each year from 1984 to 2004. [2589]

**Hazel Blears:** The number of prosecutions and convictions for sales of alcohol to persons under 18 years of age including those against shops and off-

licences, in England and Wales 1984 to 2003, are contained in the table.

Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against and found guilty at all courts for offences relating to the sale of alcohol to persons under 18 years of age, England and Wales 1984 to 2003* [1,2]

| *Offence description* | *Statute* | *Year* | *Proceeded against* | *Found guilty* |
|---|---|---|---|---|
| Selling etc., intoxicating liquor to persons under 18 for consumption on the premises | Licensing Act, 1964, Section 169(1); Licensing (Occasional Permisssions) Act 1983, Schedule (Sec. 3) para. 4(1) | 1984 | 314 | 164 |

| | | 2002 | 2 | — |
| | | 2003 | 12 | 3 |

[1] These data are on the principal offence basis.
[2] Staffordshire police were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.
[3] Not available.

## Antisocial Behaviour Orders

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many dispersal orders have been made under the provisions of section 30 of the Anti-social Behaviour Act 2003 since the Act came into force; and if he will list the areas designated. [9427]

**Hazel Blears:** The figures requested are not routinely collected centrally. We estimate that dispersal powers have been authorised in over 400 areas between January 2004, when the powers came into force, and September 2004. We do not have a breakdown of the areas designated.

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many *(a)* crack house closure orders, *(b)* housing injunctions for antisocial behaviour and *(c)* demoted tenancies have been issued under the provisions of the Anti-social Behaviour Act 2003 since the Act came into force. [9429]

**Hazel Blears:** The information is as follows:

*(a)* Under the powers of the Anti-social Behaviour Act 2003 over 150 Crack House Closure Orders have been issued between 20 January 2004 and the end of October 2004.

*(b)* The Office of the Deputy Prime Minister (ODPM) are committed to working with local authorities and Registered Social Landlords (RSLs) through the Housing Corporation, in order to develop means to collect data on the use of Housing injunctions from 2006–07 onwards.

*(c)* ODPM has requested that local authorities supply information on numbers of demoted tenancies from the current financial year onwards. The Housing Corporation are currently collecting this information from registered social landlords (RSLs) with the first set of annual data expected by late summer this year.

**Mr. Crabb:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been breached in *(a)* Pembrokeshire and *(b)* the Dyfed Powys police force area during each year since their introduction. [9732]

**Hazel Blears:** Data on convictions for breach of an antisocial behaviour order (ASBO) are currently available from 1 June 2000 to 31 December 2003 and are available at the criminal justice system (CJS) area level only. Of the 11 ASBOs reported to the Home Office as having been issued in the Dyfed Powys CJS area (which is coterminous with the police force area) during this period, five were breached on one or more occasions (all for the first time in 2003).Breach data for 2004 will be available towards the end of the year.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued since inception, broken down by *(a)* London borough and *(b)* local authority in Essex. [8549]

**Hazel Blears:** The available information is given in the table.

*Number of ASBOs issued at all courts, as reported to the Home Office, where restrictions are imposed within the local government authority areas of Essex and Greater London, 1 June 2000[1] to 31 December 2004*

| *Area* | *Total issued* |
|---|---|
| Basildon DC | 7 |
| Chelmsford BC | 4 |
| Colchester BC | 5 |
| Epping Forest DC | 6 |
| Harlow DC | 8 |
| Maldon DC | 3 |
| Southend-on-sea BC | 14 |
| Tendring DC | 2 |
| Thurrock BC | 1 |
| Uttlesford DC | 2 |
| Essex total | 52 |
| Barking and Dagenham | 2 |
| Barnet | 12 |
| Bexley | 16 |
| Brent | 12 |
| Bromley | 9 |
| Camden | 73 |
| City of London | 5 |
| Croydon | 14 |
| Ealing | 12 |
| Enfield | 4 |
| Greenwich | 11 |
| Hackney | 8 |
| Hammersmith and Fulham | 11 |
| Haringey | 17 |
| Harrow | 6 |
| Havering | 8 |
| Hillingdon | 12 |
| Hounslow | 22 |
| Islington | 12 |
| Kensington and Chelsea Royal Borough | 9 |
| Kingston-on-Thames | 7 |
| Lambeth | 17 |
| Lewisham | 13 |
| Merton | 14 |
| Newham | 7 |

| Southwark | 12 |
| Sutton | 10 |
| Tower Hamlets | 17 |
| Waltham Forest | 12 |
| Wandsworth | 12 |
| Westminster | 31 |
| Greater London total | 438 |

[1] Between 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area (pfa). During this period no reports were received of ASBOs issued in Essex and nine ASBOs were issued in Greater London.

**Mr. Crabb:** To ask the Secretary of State for the Home Department what proportion of antisocial behaviour orders since their introduction have been issued to under 16-year-olds from *(a)* two parent households, *(b)* single parent households and *(c)* local authority care. [10766]

**Hazel Blears:** The number of antisocial behaviour orders (ASBOs) issued to persons aged 10 to 15 years inclusive, as reported to the Home Office, from 1 June 2000 up to 31 December 2004 (latest available) is 1,047. Data collated by the Home Office for statistical purposes does not identify the personal circumstances of ASBO recipients.

**Mrs. Dorries:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in *(a)* the county of Bedfordshire and *(b)* the constituency of Mid-Bedfordshire in each year since 1999. [11025]

**Hazel Blears:** The available information is given in the table.

*Number of ASBOs issued at all courts in Bedfordshire, as reported to the Home Office, and where orders have imposed restrictions within the local government authority areas in which the Mid Bedfordshire constituency is situated, by period, up to 31 December 2004 (latest available)*

| | *Total issued* | | | |
|---|---|---|---|---|
| *Period* | *Bedfordshire* | *Bedford borough council* | *Mid Bedfordshire DC* | *South Bedfordshire DC* |
| 1 April 1999 to 31 May 2000[1] | 0 | [2] | [2] | [2] |
| 1 June 2000 to 31 December 2000 | 0 | 0 | 0 | 0 |
| 1 January 2001 to 31 December 2001 | 4 | 3 | 0 | 0 |
| 1 January 2002 to 31 December 2002 | 4 | 1 | 2 | 0 |
| 1 January 2003 to 31 December 2003 | 14 | 5 | 1 | 1 |
| 1 January 2004 to 31 December 2004 | 15 | 1 | 1 | 3 |
| Total | [3]37 | 10 | 4 | 4 |

[1] Between 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area.

[2] Not available

[3] Includes three ASBOs issued within the county of Bedfordshire where restrictions imposed relate to local government authority areas outside the county.

**Mr. Burns:** To ask the Secretary of State for the Home Department how many anti-social behaviour orders have been issued in the Chelmsford local authority area in the last two years for which figures are available. [9415]

**Hazel Blears** *[holding answer 4 July 2005]:* The number of antisocial behaviour orders issued, as reported to the Home Office, where restrictions have been imposed within the local government authority area of Chelmsford borough council, in 2003 and 2004, is four. All of them were issued in 2004.

## Asylum Seekers

**Alistair Burt:** To ask the Secretary of State for the Home Department on how many occasions in the last six months asylum detainees have been transported to and from Yarl's Wood and Oakington Detention Centres in vehicles not equipped with CCTV; and if he will make a statement. [8453]

**Mr. McNulty:** This information is not readily available and the provision of a reply would be at disproportionate cost.

**Alistair Burt:** To ask the Secretary of State for the Home Department what the grounds were for an order for deportation made against Anastancia Zulu, a Zimbabwean national detained at Yarl's Wood Detention Centre, on 14 June 2005. [8502]

**Mr. McNulty** *[holding answer 30 June 2005]:* I wrote to the hon. Member on 7 July 2005.

**Michael Connarty:** To ask the Secretary of State for the Home Department how many of those applying for asylum in the UK who had their application fast tracked during 2004 were detained for the duration of their application process; and what the average time taken to process a fast track application was in 2004. [8946]

**Mr. McNulty:** There are two separate detained fast track processes, which were operating in 2004. The Oakington process, which incorporates Non-Suspensive Appeals (NSA) and the Detained Fast Track at Harmondsworth.

During 2004, 6,520 applicants entered the Oakington process. The average length of stay for a detainee is not recorded centrally. However, the fast track process at Oakington is intended for claims which, upon initial screening, appear capable of being decided quickly in about 7 to 14 days. Claimants from countries listed on the designated NSA list at Section 94 of the Nationality, Immigration and Asylum Act 2002 are subject to the NSA procedure from the outset. Claimants who receive a clearly unfounded decision at Oakington can be immediately removed. Some claimants may stay at Oakington after their NSA decision pending re-documentation or because they are seeking to pursue a judicial review. Where appropriate to do so, they are detained at Oakington pending removal, others may be moved to other centres. The majority of claimants who do not receive a certified decision are released on temporary admission on completion of the Oakington process whilst their appeal is processed.

During 2004, 1,105 asylum applicants entered the Detained Fast Track at Harmondsworth. Since its inception in April 2003, the average time of detention for applicants in the fast track stands at 44 days from arrival at Harmondsworth to release and/or removal, this information is based on internal management information as such is not published within the official statistics.

**Mrs. Spelman:** To ask the Secretary of State for the Home Department how many asylum applications were received from Eritrean nationals in *(a)* 2000–01, *(b)* 2001–02, *(c)* 2002–03, *(d)* 2003–04 and *(e)* 2004–05; and how many Eritrean nationals were deported in each year. [9781]

**Mr. McNulty:** Information on asylum applications and asylum removals are published quarterly on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

*Removals and voluntary departures[1] of asylum applicants, excluding dependants, nationals of Eritrea, financial year 2001–02 to 2004–05[2]*

| | *Number* |
|---|---|
| 2000–01 | n/a |
| 2001–02[3] | 5 |
| 2002–03[3] | * |
| 2003–04[3,4] | 20 |
| 2004–05[4] | 60 |

n/a = not available.

[1] Includes persons departing 'voluntarily' after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration, and removals on safe third country grounds.

[2] Figures rounded to the nearest five and * = 1 or 2, may not sum due to rounding.

[3] Data have been estimated due to data quality issues.

[4] Provisional figures.

**Keith Vaz:** To ask the Secretary of State for the Home Department how many asylum seekers are appealing against refusals. [10101]

**Mr. McNulty:** Information on asylum initial decision outcomes and appeal outcomes is published quarterly and annually on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

**Mr. Hood:** To ask the Secretary of State for the Home Department how many asylum applications have been made in Scotland since January; and if he will make a statement. [10285]

**Mr. McNulty:** Applications are made for asylum in the UK as a whole. The available data relates to the UK. Data are not available for constituent countries within the UK. Applications, excluding dependants, fell by 17 per cent. in quarter one (January to March) 2005 compared with the previous quarter. Information on asylum applications in the United Kingdom by nationality are published quarterly on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

**Bill Wiggin:** To ask the Secretary of State for the Home Department what evidence his Department has collated on the treatment of people whose applications for asylum in the UK are refused and who are returned to Zimbabwe. [10330]

**Mr. McNulty:** We have not received any corroborated reports of systematic mistreatment of returnees to Zimbabwe. We do not routinely monitor the treatment of individuals once removed from the UK. But our assessment of the situation on the ground is constantly monitored from a wide variety of sources, including the Foreign and Commonwealth Office, media reports and UK Government contacts with NGOs on the ground. Through the Foreign and Commonwealth Office and with those NGOs operating within the country we follow up any specific allegations of ill-treatment of returned failed asylum seekers. The country of origin information used by Home Office caseworkers is publicly available on the Home Office website.

**John Bercow:** To ask the Secretary of State for the Home Department if he will make a statement on his Department's use of internal flight alternative as a reason for refusal of asylum applications. [10899]

**Mr. McNulty:** If a claimant has a well founded fear of persecution in their home area we will consider whether there is another part of their country in which they would be safe from persecution and to which it would be reasonable to expect the claimant to move. If there is, the claimant would not qualify for asylum. However, if there is no other part of the country that is safe from persecution or it would be unduly harsh to expect a claimant to relocate to a safe part of the country, then their fear of persecution in relation to the country as a whole would be well-founded. Instructions to caseworkers on the question of internal relocation are published on the Immigration and Nationality Directorate's website.

**John Bercow:** To ask the Secretary of State for the Home Department (1) what guarantees have been received by his Department that returned Darfuri asylum seekers will not be at serious risk of torture or inhumane treatment in Khartoum; [11061]

(2) what steps he has taken to ensure the UK fulfils its commitment to avoid refoulement of asylum seekers. [11429]

**Mr. McNulty:** Each asylum and human rights claim is considered on its individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Claimants who meet the definition of a refugee in the 1951 convention are granted asylum. If they do not qualify for asylum, but there are other circumstances that make them particularly vulnerable and engage our obligations under the ECHR, they are granted humanitarian protection or discretionary leave. If their application is refused, they have a right of appeal to the independent Asylum and Immigration Tribunal. In this way we ensure that we provide protection to those who need it. Conditions in the countries of origin of asylum applicants are continuously monitored.

Each application is considered against the background of the latest available country of origin information from a wide range of reliable sources including intergovernmental organisations (such as the UN), governmental sources (including the Foreign and Commonwealth Office) and human rights organisations (for example Amnesty International and Human Rights Watch). We fully recognise that the precarious conditions in Sudan for those of non-Arab ethnicity originating from Darfur are such that there are individuals who are able to demonstrate a need for international protection. In particular leading members of non-Arab ethnic Darfuri tribes, those classed as 'intellectuals' or who are prominent human rights activists from non-Arab ethnic groups. We do not however consider that each and every Sudanese national from Darfur who applies for asylum is in need of international protection. In a recent country guidance appeal determination (AE (Sudan) CG [2005] UKAIT 00101, promulgated 3 May 2005), the independent tribunal considered the most recent situation reports by a range of key sources including UNHCR, Amnesty International and Global IDP Project and ruled that ordinary non-Arab ethnic Darfuris may relocate internally to the capital Khartoum where they are safe from persecution. In accordance with these tribunal findings, we consider that, depending on the individual circumstances of the case, internal relocation for ordinary non-Arab ethnic Darfuris is a safe and viable option. In such cases, Khartoum is the most practical location in terms of safety and viability and we specifically advise that this profile of Darfuri is safe from persecution in the capital. We do not routinely monitor the treatment of individuals once removed from the UK. However, any specific allegations of ill-treatment of returned failed asylum seekers would be followed up through the Foreign and Commonwealth Office and with those NGOs operating within the country concerned.

**Mr. Austin Mitchell:** To ask the Secretary of State for the Home Department (1) what evidence he relies on to formulate a view that a country can take back asylum seekers without persecution; and how often such a view is updated; [11169]

(2) what steps the Government and their consular officials take *(a)* to help and *(b)* to keep track of returned asylum seekers in their home country. [11168]

**Mr. McNulty:** Each asylum and human rights claim is considered on its individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Claimants who meet the definition of a refugee in the 1951 convention are granted asylum. If they do not qualify for asylum, but there are other circumstances that make them particularly vulnerable and engage our obligations under the ECHR, they are granted humanitarian protection or discretionary leave. If their application is refused, they have a right of appeal to the independent Asylum and Immigration Tribunal. In this way we ensure that we provide protection to those who need it. Conditions in the countries of origin of asylum applicants are continuously monitored. Each application is considered against the background of the latest available country of origin information from a wide range of reliable sources including intergovernmental organisations (such as the UN), governmental sources (including the Foreign and Commonwealth Office) and human rights organisations (for example Amnesty International and Human Rights Watch). We do not routinely monitor the treatment of individuals once removed from the UK. However, any specific allegations of ill-treatment of returned failed

asylum seekers are followed up through the Foreign and Commonwealth Office and with those NGOs operating within the country concerned.

### Automatic Number Plate Recognition

**Tom Brake:** To ask the Secretary of State for the Home Department what proportion of alerts from the automatic number plate recognition system have been false positives; and what proportion related to *(a)* stolen vehicles, *(b)* non-payment of vehicle excise duty, *(c)* expired MOT certificates and *(d)* absence of insurance. [3956]

**Paul Goggins:** During Project Laser Two, the evaluation of Automatic Number Plate Recognition (ANPR) usage, a total of 101,775 vehicles were stopped by the police.

This study showed the following accuracy levels of databases used by the police:

Local force databases—83 per cent.

Police National Computer (PNC)—79 per cent.

Driver Vehicle Licensing Authority (DVLA)—40 per cent.

The PNC contains many more information reports than stolen vehicles, such as those used by persons wanted by the police. It is not possible, therefore, to identify "false positives" by the category of stolen vehicle alone. The police do not currently utilise databases specifically relating to expired Ministry of Transport (MOT) Certificates or the absence of insurance.

The Home Office is working closely with the Department for Transport to provide a method for electronically transferring data from the DVLA to the police so that information exchange is more timely and accurate. This is in addition to other improvements being made in this area by the DVLA such as the bar coding of Vehicle Excise Licences at the point of issue.

### Clear-up Rates

**Mr. Dodds:** To ask the Secretary of State for the Home Department what criteria are used to define the clearance of a crime for the purposes of reporting statistics on clear-up of offences by police forces in (i) England and (ii) Wales. [7514]

**Hazel Blears:** The way in which police forces in England and Wales should record and detect crime is governed by the Home Office Counting Rules for Recorded Crime. Section H of the General Rules in that document gives detailed information regarding the detecting of offences.

A copy of the Counting Rules is available on the Home Office website at: http://www.homeoffice.gov.uk/rds/countrules.html

### Community Sentences

**Sandra Gidley:** To ask the Secretary of State for the Home Department what percentage of *(a)* female and *(b)* male offenders have received community penalties in each year since 1997. [7821]

**Fiona Mactaggart:** The information requested is shown in table form for the years 1997–2003, which is the latest year for which data are currently available.

*Persons sentenced to community sentences 1997 to 2003*

*Percentage*

| | *Female* | *Male* |
|---|---|---|
| 1997 | 8.7 | 10.5 |
| 1998 | 8.9 | 10.5 |
| 1999 | 10.1 | 11.0 |
| 2000 | 9.2 | 11.4 |
| 2001 | 10.6 | 12.7 |
| 2002 | 11.0 | 13.7 |
| 2003 | 10.9 | 13.4 |

*Source:*

Sentencing Statistics, Home Office Statistical Bulletin 05/05, published February 2005.

### Correspondence

**Clare Short:** To ask the Secretary of State for the Home Department when he will reply to the letter of 6 April, ref 1064462, from the hon. Member for Birmingham Ladywood. [7976]

**Mr. McNulty:** The Immigration and Nationality Directorate replied to my right hon. Friend recently.

**Sir Gerald Kaufman:** To ask the Secretary of State for the Home Department when he expects to reply to the letter to him dated 22 March 2005 from the right hon. Member for Manchester, Gorton, with regard to Mr. N. Hussain. [10689]

**Mr. Charles Clarke:** I wrote to my right hon. Friend on 1 April 2005.

**Sir Gerald Kaufman:** To ask the Secretary of State for the Home Department when he expects to reply to the letter to him dated 10 May from the right hon. Member for Manchester, Gorton, with regard to Ms Zeinab Abdulrahman Al-hashmi. [10693]

**Mr. Charles Clarke:** I wrote to my right hon. Friend on 9 June 2005.

**Mr. Salmond:** To ask the Secretary of State for the Home Department when the Minister of State for Citizenship, Immigration and Nationality will reply to the letter dated 10 May from the hon. Member for Banff and Buchan regarding his constituent Ms R. Dyka of Boddam. [10986]

**Mr. McNulty:** The Under-Secretary of State for the Home Department, my hon. Friend the Member for Leigh (Andy Burnham), wrote on 13 June.

### Corruption

**Malcolm Bruce:** To ask the Secretary of State for the Home Department when he expects the members of the Review of the Law Relating to Bribery and Corruption team to meet. [6466]

**Fiona Mactaggart:** A review of the existing laws of corruption was completed by the Law Commission in 1998. The draft Corruption Bill, which was published

and received pre-legislative scrutiny in 2003, was based on proposals from this review. The Government response to the report of the Joint Committee which gave the Bill pre-legislative scrutiny set out the extent to which it agreed with the Joint Committee's recommendations. It remains the Government's aim to introduce the Corruption Bill when parliamentary time permits.

### Criminal Justice Act 1988

**Mr. Malins:** To ask the Secretary of State for the Home Department (1) how many *(a)* prosecutions and *(b)* convictions under section 141A of the Criminal Justice Act 1988 have taken place in each of the last five years; [4784]

(2) how many custodial sentences have been imposed on defendants convicted under section 141A of the Criminal Justice Act 1988 in each of the last five years. [4781]

**Fiona Mactaggart:** The information contained in the table gives the number of defendants proceeded against at the magistrates courts and found guilty and sentenced at all courts under the Criminal Justice Act 1988, Sec 141A as added by Offensive Weapons Act 1996, Sec 6(1) (Any person who sells to a person under age of 16 years, a knife; knife blade, razor blade, axe and any other article which has a blade, that is sharply pointed and which is made or adapted for use for causing injury to the person), England and Wales 1999 to 2003.Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts and found guilty and sentenced at all courts under Criminal Justice Act 1988, Sec 141A[1], England and Wales 1999 to 2003*

| | | | | Sentence breakdown | | | |
|---|---|---|---|---|---|---|---|
| | *Proceeded against* | *Found guilty* | *Sentenced* | *Absolute/ conditional discharge* | *Fine* | *Immediate custody* | *Otherwise dealt with* |
| 1999 | 3 | 2 | 2 | — | 1 | — | 1 |
| 2000 | — | — | — | — | — | — | — |
| 2001 | 9 | 8 | 8 | — | 8 | — | — |
| 2002 | 11 | 10 | 10 | — | 10 | — | — |
| 2003 | 17 | 17 | 17 | 2 | 14 | — | 1 |

[1] These data are on the principal offence basis.

### Criminal Prosecutions

**Mr. Hepburn:** To ask the Secretary of State for the Home Department how many young people of school age have been found guilty of committing a crime in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales in each year since 1997. [8353]

**Hazel Blears:** Data from the Home Office Court Proceedings database on the number of young people found guilty at all courts for all offences, in South Tyneside PSA, the North East region and England and Wales, 1997 to 2003 are contained in table A. It is not possible to identify those offenders in the Jarrow constituency, as the data do not go down to this level of detail.

In addition to court proceedings statistics, the number of young people of school age given Reprimands or Final Warnings in the North East region and England and Wales are provided in table B.

Statistics for 2004 court proceedings will be available in the autumn.

*Table A: Number of young offenders of school age found guilty at all courts for all offences, 1997 to 2003[1,2]*

| *Location* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|---|---|
| South Tyneside[3] | 157 | 263 | 282 | 281 | 326 | 442 | 441 |
| North East region | 4,273 | 5,018 | 5,275 | 4,810 | 4,531 | 4,483 | 4,288 |
| England and Wales | 45,561 | 50,990 | 54,266 | 55,954 | 59,152 | 58,171 | 57,144 |

[1] Young offenders of school age, aged 10–16 years.
[2] These data are on the principal offence basis.
[3] Includes Crown court where South Tyneside was the committing court.

*Table B: Number of young offenders of school age given a reprimand or final warning for all offences, 1997 to 2003[1,2]*

| | *Location* | |
|---|---|---|
| | *North East region* | *England and Wales* |
| 1997 | 8,578 | 83,822 |
| 1998 | 7,344 | 89,083 |
| 1999 | 6,741 | 84,786 |
| 2000 | 6,648 | 81,806 |
| 2001 | 6,764 | 82,839 |
| 2002 | 6,711 | 71,433 |
| 2003 | 6,670 | 75,906 |

[1] Young offenders of school age, aged 10–16 years.
[2] These data are on the principal offence basis.

**Mr. Djanogly:** To ask the Secretary of State for the Home Department how many criminal cases were prosecuted in each of the last 10 years, broken down by region. [9624]

**Hazel Blears** *[holding answer 5 July 2005]:* Data from the Home Office Court Proceedings database on the number of defendants proceeded against at the magistrates courts for all offences, by region, 1994 to 2003 are contained in the table. Statistics for 2004 court proceedings will be available in the autumn.

*Number of defendants proceeded against at the magistrates courts for all offences broken down by region, 1994 to 2003*[1]

| *Region* | *1994* | *1995* | *1996* | *1997* | *1998* |
|---|---|---|---|---|---|
| North East | 103,988 | 95,591 | 96,309 | 92,026 | 98,447 |
| North West | 277,260 | 289,783 | 311,974 | 299,987 | 312,525 |
| Yorkshire and Humberside | 180,527 | 163,213 | 186,463 | 188,984 | 199,511 |
| East Midlands | 152,086 | 138,208 | 146,259 | 145,397 | 153,844 |
| West Midlands | 208,743 | 194,545 | 202,221 | 209,582 | 231,112 |
| East of England | 158,979 | 147,488 | 159,690 | 158,485 | 163,316 |

[1] These data are on the principal offence basis

**Dangerous Severe Personality Disorder Programme**

**Tim Loughton:** To ask the Secretary of State for the Home Department which individuals and organisations were consulted in drawing up the criteria for referral to the Dangerous Severe Personality Disorder programme. [7989]

**Fiona Mactaggart:** The Dangerous Severe Personality Disorder programme (DSPD) is a pilot aimed at developing and evaluating pilot treatment services for dangerous offenders whose offending is linked to severe personality disorder. The referral and assessment processes are key elements of the pilot and are therefore also subject to on-going development and evaluation.

In establishing the current criteria for referral and assessment for the DSPD programme the following individuals and organisations were consulted:

Dr. David Thornton (Sand Ridge Sex Offender Treatment Centre, USA)

Dr. Linda Blud (HM Prison Service)

Ms. Gill Attrill (HM Prison Service)

Dr. Caroline Logan (University of Liverpool)

Ms Pam Wilson (HM Prison Service)

Prof. Don Grubin (Newcastle University)

Prof. Anthony Maden (Broadmoor Hospital)

Dr. Todd Hogue (Rampton Hospital)

Prof. Steven Hart (Simon Fraser University, Canada)

Mr. Ed Wozniak (Scottish Prison Service)

Dr. Kevin Douglas (University of South Florida, USA)

Prof. Brian Ferguson (Nottinghamshire Health Trust)

The DSPD Expert advisory group, which advises on all aspects of the programme, was also consulted. This group comprised the following individuals:

Prof. E.S. Paykel (University of Cambridge)

Prof. Jeremy Coid (Queen Mary College and East London and City Mental Health NHS trust)

Dr. Steve Wong (University of Saskatchewan, Canada)

Prof. Ronald Blackburn (University of Liverpool)

Prof. David Cooke (Douglas Inch Centre and Glasgow Caledonian University)

Prof Kevin Gournay (Institute of Psychiatry)

Ms. Kathryn Harney (Department of Health and University of Liverpool)

Prof. Sheilagh Hodgins (Institute of Psychiatry)

Prof. Roy King (University of Wales)

Dr. Pete Snowden (Ashworth Hospital)

Prof. Peter Tyrer (Imperial College London).

Key clinicians and stakeholders from HM Prison Service and the Department of Health were also consulted. This included the involvement of the DSPD units themselves. The DSPD referral and assessment criteria have also been presented and discussed at a variety of forums including academic conferences, the Royal College of Psychiatry and legal representatives.

**Tim Loughton:** To ask the Secretary of State for the Home Department what access to advocacy is provided to people in the Dangerous Severe Personality Disorder programme *(a)* prior to referral and *(b)* while on the programme. [7990]

**Fiona Mactaggart:** The Dangerous Severe Personality programme is based both in high security hospital and prison settings. The access to advocacy is dependent on which setting an individual comes from as well as the setting to which they are admitted (if they meet the criteria).

For those coming from, or being admitted to a High Secure Hospital the arrangements are the same as those available to all patients in high secure hospitals; full access to an independent advocacy service. The service includes provision of clinics for groups of patients and also on a one-to-one basis at their request.

For those coming from, or being admitted to a High Secure Prison the arrangements are the same as those available to all Prisoners. Although there is no dedicated service, advocacy can be sought from: friends and family; lawyers; the Independent Monitoring Board; the Probation Service seconded staff in prisons; and the Chaplaincy.

### Deportations

**Kate Hoey:** To ask the Secretary of State for the Home Department if he will stop the deportation to Zimbabwe of Timbha Mqubeli, Home Office reference No. T1053486. [9869]

**Mr. McNulty:** It is not our usual practice to disclose information about an individual's immigration case to anybody other than their nominated representatives or constituency MP.

### Domestic Violence (Haringey)

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many incidents of domestic violence were reported in the London borough of Haringey in each year since 1995; how many fatalities were recorded as a result of these incidents; and if he will make a statement. [2899]

**Fiona Mactaggart:** From the information collected centrally on recorded crime and court proceedings, it is not possible to identify cases of domestic violence. Such offences are not specifically defined by statute and details of the individual circumstances of offences do not feature in either data series.

### Dovegate Prison

**John McDonnell:** To ask the Secretary of State for the Home Department whether the Director General of the National Offender Management Service visited Dovegate Prison on or around 6 August 2004. [1379]

**Fiona Mactaggart:** Martin Narey, Chief Executive of the National Offender Management Service, visited Dovegate prison on 6 August 2004.

### Local Government Employees (Assault)

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many employees in local government have been the victims of offences of violence suffered in the course of their employment in each of the last 20 years. [7560]

**Hazel Blears:** The requested information cannot be supplied as there is no specific offence of assault on public sector worker defined by statute. Such incidents are recorded by the police depending on the severity of the violence used and in accordance with the relevant legislation, for example more or less serious wounding or common assault, and cannot be separately identified from recorded crime series data. Assaulting someone who is serving the public is an aggravating factor which will be considered by the courts in passing sentence.

### Engagements

**Mr. Hands:** To ask the Secretary of State for the Home Department what plans he has to visit Hammersmith and Fulham. [2097]

**Mr. Charles Clarke:** The hon. Member will be aware of my visit to Hammersmith on 30 June on behalf of the Department to speak at the GPA Celebrate Conference.

### EU Accession Countries

**Mr. Betts:** To ask the Secretary of State for the Home Department if he will list *(a)* education services, *(b)* health services, *(c)* publicly-funded housing, *(d)* benefits, *(e)* employment protection and *(f)* other public services to which (i) citizens of the EU Accession State countries who have not registered to work but who are living in the UK with families and (ii) their families are entitled; and to which services (A) those who have registered for work and (B) their families are entitled. [1815]

**Mr. McNulty:** With effect from 1 May 2004, A8 nationals have been able to take up employment in the UK provided that they are authorised to do so under the Worker Registration Scheme (WRS). A8 nationals who are registered and working are entitled to the same treatment in respect of benefits as would other EEA nationals. An A8 national who has worked legally under the WRS for a period of 12 months without interruption (periods of employment must not total more than 30 days in any 12 month period) is entitled to full free movement rights and is no longer required to register his or her employment. I will write to my hon. Friend with full details of how entitlements vary depending on an individual's circumstances, and place a copy of the letter in the Library.

### European Police College

**Mr. Hayes:** To ask the Secretary of State for the Home Department what courses *(a)* are and *(b)* will be made available at the European Police College. [8981]

**Hazel Blears:** The European Police College's 2005 workplan has been placed in the House Library: document reference 10058/04 ENFOPOL 61

The European Police College's 2006 workplan was approved by the Council on 24 June 2005 and has been placed in the House Library: document reference 9133/05 ENFOPOL 63.

### Female Genital Mutilation

**Chris McCafferty:** To ask the Secretary of State for the Home Department with which countries his Department has had discussions regarding the extra-territorial aspects of the Female Genital Mutilation Act 2004. [8507]

**Paul Goggins** *[holding answer 4 July 2005]:* The Home Office has not had any discussions with other countries about the extra-territorial aspects of the Female Genital Mutilation Act 2003.

The Foreign and Commonwealth Office, (FCO) which has responsibility for consular cases involving female genital mutilation, (FGM) has ensured that all posts are aware of this Act and has asked staff in countries with high prevalence rates to report on the action they could take to assist potential victims. In addition, the Foreign and Commonwealth Office has had discussions with relevant authorities in France about the action taken by French consular staff to assist victims of FGM and are planning to approach those in the Netherlands. Further guidance for consular staff is being developed by the FCO, in conjunction with the police and social services.

More generally, the FCO and DfID fund projects aimed at eradicating FGM overseas and providing adequate health care for girls and women affected by it. The FCO also works, through the UN and other international bodies, to encourage countries which have not done so to ratify the Convention on the Rights of the Child and the Convention for the Elimination of Discrimination Against Women.

## Firearms Offences

**Mr. Paice:** To ask the Secretary of State for the Home Department how many air weapon offences have been committed in England and Wales by *(a)* 14, *(b)* 15, *(c)* 16, *(d)* 17-year-olds and *(e)* those over 18 years since the Anti-social Behaviour Act 2003 came into force. [9422]

**Hazel Blears:** Offences under the Anti-social Behaviour Act 2003, Section 37 came into force on 20 January 2004. Statistics of court proceedings for 2004 will be published in the autumn of 2005.

**Mr. Paice:** To ask the Secretary of State for the Home Department what research has been carried out on the effects of the provisions relating to air weapons in the Anti-social Behaviour Act 2003; and on what basis the decision was taken to raise the age limit for air weapons. [9426]

**Hazel Blears:** There has been no central research into the effects of the provisions in the Anti-social Behaviour Act 2003 relating to air weapons. It is not possible to establish the age of offenders from offence statistics, which remain unacceptably high, but the Government believe that much of this misuse is carried out by young people and that a further increase in the age limit will help to prevent this.

**Stewart Hosie:** To ask the Secretary of State for the Home Department how many crimes were recorded by the police in which *(a)* a firearm was alleged to have been used and *(b)* an identified firearm other than an air weapon was alleged to have been used in (i) England and (ii) Wales from 1994 to 2004 in (A) total and (B) as a percentage of all crimes. [7259]

**Hazel Blears** *[holding answer 27 June 2005]:* The information requested is given in the following table.

*Recorded crimes involving firearms (excluding air weapons)*

| | *England and Wales* | *Wales* | *England* | *All recorded crimes* | *Percentage of firearm crimes to all recorded firearms* |
|---|---|---|---|---|---|
| 1994 | 5,822 | n/a | n/a | 5,252,980 | 0.11 |
| 1995 | 5,866 | 79 | 5,787 | 5,100,241 | 0.12 |
| 1996 | 6,063 | 116 | 5,947 | 5,036,552 | 0.12 |
| 1997 | 4,904 | 85 | 4,819 | 4,598,357 | 0.11 |
| 1997–98 | 4,903 | 95 | 4,808 | 4,545,337 | 0.11 |

| 2003–04 | 24,094 | 920 | 23,174 | 5,934,580 | 0.41 |

n/a = not available.

[1] There was a change in the counting rules for recorded crime on 1 April 1998.

[2] Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard in advance of national implementation.

[3] The National Crime Recording Standard was introduced on 1 April 2002. Figures before and after this date are not directly comparable.

**Stewart Hosie:** To ask the Secretary of State for the Home Department how many crimes were recorded by the police in which a firearm was alleged to have been used, broken down by *(a)* crime and *(b)* firearm used for England and Wales for each year since 2001. [7260]

**Hazel Blears** *[holding answer 27 June 2005]:* The information requested is given in the table.

*Table 1: Firearms offences (excluding air-weapons)—2001–02*[1]

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many people have been killed by firearms since 1997; and if he will make a statement. [8522]

**Hazel Blears:** The number of homicides involving firearms, including air weapons, in England and Wales is given in the table.

*Homicides involving firearms (including air weapons) in England and Wales*

| | Number of homicides |
|---|---|
| 1997–98 | 54 |
| 1998–99 | 49 |
| 1999–2000 | 62 |
| 2000–01 | 73 |
| 2001–02 | 97 |
| 2002–03 | 81 |
| 2003–04 | 68 |

**Mr. Garnier:** To ask the Secretary of State for the Home Department how many air weapon offences have been committed in England and Wales by persons aged *(a)* 14, *(b)* 15, *(c)* 16, *(d)* 17 and *(e)* over 18 years since the Anti-social Behaviour Act 2003 came into force. [8676]

**Hazel Blears:** Offences under the Anti-social Behaviour Act 2003, Section 37 came into force on 20 January 2004. Statistics of court proceedings for 2004 will be published in the autumn of 2005.

**Mr. Garnier:** To ask the Secretary of State for the Home Department what research has been carried out on the effects of recent changes in air weapon legislation in the Anti-social Behaviour Act 2003; and what the evidential basis was for raising the minimum age for air weapons to 18. [8680]

**Hazel Blears:** There has been no central research into the effects of the provisions in the Anti-social Behaviour Act 2003 relating to air weapons. It is not possible to establish the age of offenders from offence statistics, which remain unacceptably high, but the Government believe that much of this misuse is carried out by young people and that a further increase in the age limit will help to prevent this.

### Fresh Talent: Working in Scotland Scheme

**Stewart Hosie:** To ask the Secretary of State for the Home Department what action his Department will take to encourage those taking part in the Fresh Talent: Working in Scotland scheme to remain in Scotland following the expiration of the initial two-year visa. [9452]

**Mr. McNulty** *[holding answer 5 July 2005]:* We have provided, in the Immigration Rules and guidance on the scheme, that participants may remain in Scotland after the initial two years as long as they meet the relevant requirements. They may apply to extend their stay in a relevant managed migration category. This could be as a work permit holder, a highly skilled migrant, a business person or a business innovator.

### Homophobic Assaults

**Sarah Teather:** To ask the Secretary of State for the Home Department how many homophobic assaults there were in London in each year since 1997. [7464]

**Hazel Blears:** The requested information cannot be supplied as offences involving homophobia are not documented separately in the recorded crime series.

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many homophobic hate crimes there have been since recording began, broken down by London borough; and if he will make a statement. [2921]

**Hazel Blears:** The requested information cannot be supplied as offences involving homophobia are not documented separately in the recorded crime series.

In 2001 the Metropolitan Police Service (MRS) and the Royal Holloway University of London, funded by the Home Office Targeted Policing Initiative, undertook a joint project that aimed to develop a strategic overview of hate crime information recorded by the MPS. Information about the project can be found on the MPS's website at http://www.met.police.uk/urhc/index.htm and www.met.police.uk/urhc/ho_fact6.pdf

### Hunger Strikers

**Kate Hoey:** To ask the Secretary of State for the Home Department what procedures are in place to deal with hunger strikers in detention centres. [10494]

**Mr. McNulty:** The condition of the health and well-being of those who are declining to accept their meals is being carefully monitored and managed. Food is available to all hunger strikers and they are seen daily by a medical practitioner to check their condition.

### Illegal Immigrants

**Bob Spink:** To ask the Secretary of State for the Home Department whether the recently announced figures for people estimated to be illegally in the country included dependants; and what methodology was used to calculate the total. [10453]

**Mr. McNulty:** The estimate of the size unauthorised (illegal) population contained in RDS online report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" includes foreign born dependants. The methodology used is described on pages two to four of the report.

### Immigration and Nationality Directorate

**Keith Vaz:** To ask the Secretary of State for the Home Department how many reports the Immigration and Nationality Directorate's Complaints Audit Committee produced in 2004; and how many complaints were made to it. [6431]

**Mr. McNulty:** The Immigration and Nationality Directorate's (IND) independent Complaints Audit Committee (CAC) produced four quarterly reports following their audit of complaints completed during 2003–04. Their annual report for 2003–04 was published on 20 July 2004. Copies of the report were put in the Library of the House. It is also available on the IND's website.

The CAC do not deal with complaints. Their remit is to monitor the effectiveness of IND's procedures for investigating formal complaints about the conduct and efficiency of staff in IND, and since 1999 to comment on quality of service issues.

The CAC's annual report for 2004–05 was published on 29 June 2005; copies are available in the Library.

### Licensed Premises (Violent Crime)

**Mr. Don Foster:** To ask the Secretary of State for the Home Department pursuant to the answer of 20 June 2005, *Official Report*, column 764W, on Licensed Premises (violent crime), when he expects the statistics for violent offences committed in connection with licensed premises in each police area for 2004–05 to be available. [7996]

**Hazel Blears:** Data are expected to be available in autumn 2005.

### Live8 Concert (Policing)

**Mrs. Lait:** To ask the Secretary of State for the Home Department what discussions he has had with the commissioner for the Metropolitan police regarding the use of police officers from other forces to help police the Live8 concert; and what additional funding his Department will provide to meet these costs. [7375]

**Hazel Blears:** No discussions have been held with the commissioner, who is responsible for the operations of the Metropolitan Police Service.

He informs me that policing the 'Live 8' concert in Hyde Park involved a joint operation by the service and the British Transport police. No mutual aid from other forces will be required. No additional funding will be sought from the Government and, because of the charitable nature of the event, no charges will be levied on the organisers of the event.

### Methadone

**Mr. Fabian Hamilton:** To ask the Secretary of State for the Home Department what estimate he has made of the size of the black market in methadone in the UK. [6990]

**Paul Goggins** *[holding answer 28 June 2005]:* The Home Office has not made any estimate of the size of the black market in methadone although it is predicted to be very small, as production is strictly regulated.

### Metropolitan Police

**Mr. Dismore:** To ask the Secretary of State for the Home Department if he will rank each London borough Metropolitan Police Service by *(a)* number of officers, *(b)* number of crimes, *(c)* number of cases detected and *(d)* percentage of cases detected. [7072]

**Hazel Blears:** The information requested is given in the following table.

*Number of police officers[1], recorded offences and detections by Metropolitan Police Service basic command units (BCUs), 2003–04*

| BCU unit | Number of police officers[1] | Number of offences | Number of detections | Percentage of offences detected |
|---|---|---|---|---|
| Barking and Dagenham | 384 | 22,144 | 3,718 | 17 |
| Barnet | 541 | 36,288 | 4,930 | 14 |
| Bexley | 338 | 20,344 | 3,117 | 15 |
| Brent | 683 | 35,837 | 5,212 | 15 |
| Bromley | 459 | 30,918 | 5,108 | 17 |
| Camden | 794 | 51,016 | 8,476 | 17 |
| City of Westminster | 1,637 | 79,296 | 13,961 | 18 |
| Croydon | 659 | 37,043 | 5,463 | 15 |
| Ealing | 697 | 37,927 | 6,006 | 16 |
| Enfield | 538 | 29,998 | 4,344 | 14 |
| Greenwich | 583 | 31,347 | 4,127 | 13 |
| Hackney | 766 | 39,035 | 5,184 | 13 |
| Hammersmith and Fulham | 516 | 28,650 | 4,678 | 16 |
| Haringey | 682 | 36,807 | 7,494 | 20 |
| Harrow | 333 | 18,430 | 2,680 | 15 |

*Number of police officers[1], recorded offences and detections by Metropolitan Police Service basic command units (BCUs), 2003–04*

| BCU unit | Number of police officers[1] | Number of offences | Number of detections | Percentage of offences detected |
|---|---|---|---|---|
| Havering | 343 | 22,165 | 3,614 | 16 |
| Heathrow | 399 | 6,071 | 1,601 | 26 |
| Hillingdon | 484 | 29,349 | 4,399 | 15 |
| Hounslow | 472 | 30,416 | 4,593 | 15 |
| Islington | 680 | 40,816 | 6,190 | 15 |
| Kensington and Chelsea | 575 | 29,873 | 5,113 | 17 |
| Kingston upon Thames | 275 | 16,309 | 2,299 | 14 |
| Lambeth | 941 | 49,937 | 7,748 | 16 |
| Lewisham | 625 | 31,577 | 5,220 | 17 |
| Merton | 339 | 18,738 | 3,246 | 17 |
| Newham | 781 | 40,615 | 5,613 | 14 |
| Redbridge | 440 | 28,438 | 4,065 | 14 |
| Richmond upon Thames | 285 | 15,446 | 2,079 | 13 |
| Southwark | 869 | 46,276 | 6,043 | 13 |
| Sutton | 280 | 16,154 | 2,453 | 15 |
| Tower Hamlets | 760 | 39,188 | 4,625 | 12 |
| Waltham Forest | 533 | 30,912 | 4,237 | 14 |
| Wandsworth | 612 | 33,567 | 5,317 | 16 |
| Total | 19,304 | 1,060,927 | 162,953 | 15 |

[1] This excludes police officers seconded out to central services but includes those on career breaks or maternity/paternity leave.

**James Brokenshire:** To ask the Secretary of State for the Home Department what the pension and other benefits packages offered to new police constables joining the Metropolitan police in London are. [8703]

**Hazel Blears:** Police officers joining the Metropolitan Police Service become members of the Police Pensions Scheme, unless they opt out. The starting salary of a police constable is £19,803. Metropolitan police officers are additionally entitled to London weighting at £1,938 a year and London allowance at £4,338 a year.

### Miscarriages of Justice (Compensation)

**Mr. Pope:** To ask the Secretary of State for the Home Department what the Government's policy is on recouping the costs of bed and board incurred during imprisonment from the compensation moneys paid to people wrongly imprisoned due to miscarriages of justice. [3082]

**Fiona Mactaggart:** While the Home Secretary decides whether an applicant qualifies for compensation in respect of a miscarriage of justice, the assessment of the amount of compensation is undertaken by an Assessor appointed by him under the Criminal Justice Act 1988 (currently Lord Brennan QC). The amount of an award is wholly a matter for the Assessor, and the Home Secretary has no power to influence or vary his determination.

Saved living expenses for the period an applicant spent in prison are frequently referred to, incorrectly, as deductions for "bed and board" or "board and lodging". The compensation process involves two separate and distinct concepts of loss: pecuniary and non-pecuniary loss. The pecuniary element, the quantifiable financial loss, is intended to put the applicant back into the financial position they would have been in but for their wrongful conviction, but not to a position better than that. Any deduction for saved living expenses is made by the Assessor in respect of the costs an applicant would have been required to pay out of their net income, for example rent or mortgage payments. The deduction is restricted to the pecuniary loss element only, and is not intended to cover optional or enhanced expenditure, such as luxuries and leisure activities. A minimal monthly expenditure is therefore deducted.

The non-pecuniary loss award, however, is in recognition of, for example, loss of reputation, loss of liberty, hardship, mental suffering, injury to feelings, and inconvenience. It is an award in recognition of the miscarriage of justice itself.

### Missing Children

**Mr. Burstow:** To ask the Secretary of State for the Home Department pursuant to the answer of 20 June 2005, *Official Report*, column 766W, on missing children, what assessment his Department has made of the viability of collecting this information. [9431]

**Hazel Blears:** The Home Office has no plans to collect this information centrally. However, we have been working with the Association of Chief Police Officers and the National Missing Persons Helpline to establish joint working arrangements to improve the recording and information sharing and exchange, in order to improve the way in which missing persons are dealt with. Part of this work includes the establishment of a comprehensive national police database of missing and unidentified people reported either to the police or the helpline.

### Motoring Offences

**Mr. Amess:** To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were convicted of motoring offences in (i) Southend, (ii) Essex and (iii) England and Wales in each of the last five years for which figures are available, broken down by offence. [10509]

**Hazel Blears:** The information from the Home Office Court Proceedings database is contained in the tables and gives the number of males and females found guilty of motoring offences by offence class in Southend, Essex police force area and England and Wales 1999 to 2003. Statistics for 2004 will be available in the autumn.

*Number of offenders found guilty of motoring offences by gender and offence class at all courts in England and Wales, 1999 to 2003[1]*

| | Males | | | | |
|---|---|---|---|---|---|
| Offence class | 1999 | 2000 | 2001 | 2002 | 2003 |
| Dangerous driving | 3,871 | 3,974 | 4,046 | 4,760 | 5,236 |
| Driving etc. after consuming alcohol or taking drugs | 71,637 | 68,762 | 68,185 | 72,444 | 74,242 |
| Careless driving | 29,180 | 25,187 | 22,486 | 19,890 | 18,115 |
| Accident offences | 4,994 | 4,640 | 4,881 | 4,808 | 5,078 |
| Driving licence related offences | 37,800 | 37,931 | 39,259 | 42,169 | 49,580 |
| Vehicle insurance offences | 149,478 | 153,891 | 151,229 | 163,823 | 185,285 |
| Vehicle registration and Excise licence offences | 7,734 | 8,899 | 10,522 | 14,763 | 18,841 |
| Work record or employment offences | 4,709 | 4,197 | 3,503 | 2,931 | 2,654 |

*Number of offenders found guilty of motoring offences by gender and offence class at all courts in England and Wales, 1999 to 2003*[1]

| | | | Males | | |
|---|---|---|---|---|---|
| *Offence class* | *1999* | *2000* | *2001* | *2002* | *2003* |
| Operator's licence offences | 1,132 | 1,183 | 901 | 712 | 522 |
| Vehicle Test offences | 19,378 | 15,878 | 13,573 | 12,295 | 13,367 |
| Fraud, forgery, etc associated with vehicle or driver record | 3,737 | 3,177 | 3,220 | 3,039 | 2,973 |
| Vehicle, or part, in dangerous or defective condition | 13,740 | 10,950 | 8,704 | 7,284 | 6,656 |
| Speed limit offences | 125,076 | 113,660 | 107,890 | 97,640 | 109,664 |
| Motorway offence (other than speeding) | 1,260 | 1,816 | 1,330 | 1,612 | 1,101 |
| Neglect of traffic directions | 21,344 | 21,566 | 19,837 | 17,842 | 17,387 |
| Neglect of pedestrian rights | 3,597 | 2,696 | 2,174 | 1,823 | 1,901 |
| Obstruction, waiting and parking offences | 11,454 | 9,606 | 8,986 | 8,710 | 9,088 |
| Lighting offences | 3,904 | 2,913 | 2,274 | 2,146 | 2,071 |
| Noise offences | 1,011 | 756 | 646 | 467 | 419 |
| Load offences | 8,117 | 7,764 | 6,274 | 5,083 | 5,180 |
| Offences peculiar to motor cycles | 210 | 255 | 258 | 218 | 224 |
| Miscellaneous offences (including trailer offences) | 33,722 | 31,390 | 29,993 | 34,650 | 46,892 |
| Total | 557,085 | 531,091 | 510,171 | 519,109 | 576,476 |

| | | | Females | | |
|---|---|---|---|---|---|
| *Offence class* | *1999* | *2000* | *2001* | *2002* | *2003* |
| Dangerous driving | 137 | 116 | 128 | 155 | 215 |
| Driving etc, after consuming alcohol or taking drugs | 7,868 | 7,984 | 7,924 | 8,989 | 9,539 |
| Careless driving | 6,017 | 5,280 | 4,394 | 3,875 | 3,406 |
| Accident offences | 758 | 803 | 813 | 783 | 884 |
| Driving licence related offences | 2,729 | 2,882 | 2,695 | 2,914 | 3,512 |
| Vehicle Insurance Offences | 17,813 | 18,282 | 16,916 | 18,988 | 22,008 |
| Vehicle registration and Excise licence offences | 1,682 | 2,106 | 2,478 | 3,959 | 4,916 |
| Work record or employment offences | 92 | 65 | 71 | 40 | 44 |
| Operator's licence offences | 40 | 35 | 28 | 28 | 25 |
| Vehicle test offences | 2,407 | 1,984 | 1,542 | 1,503 | 1,581 |
| Fraud, forgery, etc associated with vehicle or driver record | 338 | 282 | 293 | 285 | 272 |
| Vehicle, or part, in dangerous or defective condition | 1,068 | 840 | 687 | 647 | 519 |
| Speed limit offences | 20,500 | 20,443 | 21,178 | 21,147 | 24,262 |
| Motorway offence (other than speeding) | 116 | 277 | 158 | 184 | 100 |
| Neglect of traffic directions | 4,254 | 4,407 | 4,151 | 4,016 | 3,799 |
| Neglect of pedestrian rights | 630 | 542 | 415 | 390 | 360 |
| Obstruction, waiting and parking offences | 3,141 | 2,636 | 2,605 | 2,570 | 2,729 |
| Lighting offences | 342 | 299 | 250 | 237 | 220 |
| Noise offences | 83 | 87 | 53 | 45 | 30 |
| Load offences | 210 | 198 | 175 | 140 | 130 |
| Offences peculiar to motor cycles | 11 | 17 | 17 | 14 | 17 |
| Miscellaneous offences (including trailer offences) | 6,869 | 7,584 | 7,107 | 7,856 | 9,467 |
| Total | 77,105 | 77,149 | 74,078 | 78,765 | 88,035 |

[1] These data are on the principal offence basis

### Mr. Crispen Kulinsi

**Kate Hoey:** To ask the Secretary of State for the Home Department if he will defer the enforced return of Mr. Crispen Kulinsi (Home Office ref K1188546) to Malawi pending consideration by his Department of the risks of Mr. Kulinsi's further deportation from Malawi to Zimbabwe. [7543]

**Mr. McNulty:** It is not our usual practice to disclose information about an individual's immigration case to anybody other than their nominated representatives or constituency MP.

### Murder Rate

**Mr. Amess:** To ask the Secretary of State for the Home Department what the murder rate per 1,000 of the population in *(a)* the constituency of Southend, West and *(b)* England and Wales was in each of the last five years. [10506]

**Hazel Blears:** Figures are provided for homicide (murder, manslaughter and infanticide) as, at the time of recording, the nature of the killing is often not known. Information for Southend, West is not available. The available data relates to the Southend Crime and Disorder Reduction Partnership (CDRP) area and homicide data at CDRP level has only been collected since 2001–02. Available data are given in the following table.

*Homicide rate per 1,000 population*

| | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|
| *Southend* | | | |
| Homicide | 5 | 6 | 2 |
| Rate/1,000 population | 0.028 | 0.037 | 0.013 |
| *England and Wales* | | | |
| Homicide | 891 | [1]1,043 | 853 |
| Rate/1,000 population | 0.017 | 0.020 | 0.016 |

[1] In 2002–03, 172 victims of Dr. Harold Shipman were recorded, all of which relate to offences committed in previous years.

### Nazi War Criminals

**Mr. Dismore:** To ask the Secretary of State for the Home Department whether his Department's information held on alleged Nazi war criminals includes information on any persons who were formerly detained

in the category known as black prisoners of war during the second world war; and if he will make a statement. [2680]

**Fiona Mactaggart:** Information of this nature is not held centrally and to provide it would incur disproportionate cost.

### Police

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many *(a)* cars, *(b)* vans, *(c)* trucks, *(d)* motor cycles, *(e)* push bicycles and *(f)* horses are operated by Lancashire police. [11070]

**Hazel Blears:** The chief constable is responsible for the operational management of the force. I will ensure that he receives a copy of the question and replies to my hon. Friend directly in response to my hon. Friend's concerns.

**Mr. Hollobone:** To ask the Secretary of State for the Home Department if he will meet a cross-party delegation from Northamptonshire, including hon. Members, to discuss funding for the county police force. [8415]

**Hazel Blears:** We have invested strongly in local policing in Northamptonshire. This investment has delivered record police officer numbers and police support staff and an increasing number of community support officers.

Northamptonshire Police Authority received an excellent funding settlement this year. It is receiving £67.8 million in general police grants for 2005–06, an increase of £3.5 million or 5.5 per cent. over last year, significantly higher than the minimum increase of 3.75 per cent. guaranteed to all police authorities. It also receives around £6.9 million in specific grants for targeted programmes.

The police funding formula is currently being reviewed to ensure it continues to reflect fairly the relative financial pressures on each police authority. We expect a 12 week consultation period on options for formula change to begin in late July with the aim of introducing a revised formula in 2006–07. The consultation will provide an opportunity for all interested parties to comment on a range of proposals.

Grant floors will continue to remain an integral part of the finance system to provide a financially stable system for all police authorities.

**Mr. Hollobone:** To ask the Secretary of State for the Home Department whether he plans to remove the floor damping scheme for police authority grant funding for 2006–07 and beyond. [11195]

**Hazel Blears:** Grant damping provisions to provide a financially stable system for all police authorities will continue to remain an integral part of the grant system in 2006–07. The general grant floor of 3.75 per cent. this year guaranteed a minimum increase for all police authorities, well above both police pay and inflationary pressures. Northamptonshire Police Authority received an increase above the floor, at 5.5 per cent.

### Pre-sentence Reports

**Mr. Amess:** To ask the Secretary of State for the Home Department what guidance his Department has issued to the Probation Service on the preparation of pre-sentence reports. [8379]

**Fiona Mactaggart:** Minimum standards for the preparation of pre-sentence reports are outlined in the National Probation Service National Standards. Supplementing the National Standards, detailed guidance has been issued to the Probation Service through a Probation Circular. Both these documents were published in March 2005.

### Prisoners (Deportation)

**Sarah Teather:** To ask the Secretary of State for the Home Department how many prisoners in London are held awaiting deportation having completed their sentences. [8273]

**Fiona Mactaggart:** Information on the number of people who were detained in prison establishments awaiting deportation after completing their sentence is not available.

Work is ongoing to improve the quality of the data held on those people detained under the Immigration Act powers in prison establishments.

### Prisons

**Dr. Vis:** To ask the Secretary of State for the Home Department how many prison staff were diagnosed as suffering from tuberculosis in the last year for which figures are available; and how many staff died from the disease. [1827]

**Fiona Mactaggart:** In the last year one member of staff contracted tuberculosis from which he later died. Tests have confirmed that he did not contract the disease from within the Prison Service.

**Harry Cohen:** To ask the Secretary of State for the Home Department what action he has taken following the recommendation in 2004 of HM Inspectorate of Prisons that the female centre at HMP Durham be closed down; and if he will make a statement. [8055]

**Fiona Mactaggart:** An announcement was made on 26 May 2004 that the women's unit at HMP Durham was to close.

By October 2004, 97 female prisoners previously held at HMP Durham were interviewed by the Women's Estate Management Team and relocated in a phased process to an area appropriate to their security status and resettlement needs, or were released at the end of their sentence. Only six female prisoners remain there, of whom five are Restricted Status.

A discrete unit within Durham was converted to accommodate these women, who will remain there while alternative facilities are being developed at another establishment. The former women's unit has now been adapted to accommodate male prisoners.

**Sarah Teather:** To ask the Secretary of State for the Home Department how many places there were in prisons in London in each of the last five years. [8393]

**Fiona Mactaggart:** The information requested is provided in the table.

*Number of places in London prisons over the last five years*

| | Total operational capacity |
|---|---|
| 2000 | 6,592 |
| 2001 | 6,657 |
| 2002 | 6,859 |
| 2003 | 7,023 |
| 2004 | 7,108 |
| 2005 | 7,463 |

*Note:*
Operational capacity has been used to represent the number of places. It is defined as the total number of prisoners that an establishment can hold without serious risk to good order, security, and the proper running of the planned regime.

### Probation Service

**Mr. Gerrard:** To ask the Secretary of State for the Home Department what steps he has taken in the last two financial years to improve the health and safety of staff at probation hostels in England and Wales. [6098]

**Fiona Mactaggart:** The "Revitalising Health and Safety Strategy" was launched by the Director General of Probation in March 2003. This followed a national audit on the levels of compliance with health and safety legislation in the 42 probation areas. This strategy has improved health and safety in probation hostels by introducing a national accident/incident recording system, by the prioritisation of the identification of asbestos and providing risk assessments with management guidance and best practice.

The National Probation Service has also been working in partnership with the Health and Safety Executive, Probation Boards Association and trade unions in order to develop and implement a first class health and safety management system.

### Religious Premises (Vandalism)

**David T.C. Davies:** To ask the Secretary of State for the Home Department how many acts of vandalism on *(a)* synagogues, *(b)* mosques, *(c)* churches, *(d)* temples and *(e)* Gurdwaras were reported in each of the last three years for which figures are available. [8064]

**Hazel Blears:** The information requested is not available. Apart from criminal damage to a dwelling, the recorded crime statistics do not separately identify the location of acts of vandalism.

### School-age Children (Protection from Crime)

**Harry Cohen:** To ask the Secretary of State for the Home Department what steps he is taking to ensure that children who are taken out of schools do not become victims of crime; and if he will make a statement. [9365]

**Hazel Blears:** Where there are concerns about children removed from schools these will normally be pursued through the local education authority. In some cases these concerns will be sufficient to warrant police involvement. For example, the Metropolitan police investigation into the 'Adam' case found that a number of African boys were missing from education. However, police inquiries in conjunction with Education Welfare Officers established that there was no evidence to suggest these children had come to any harm.

### Sentencing

**Mr. Andrew Turner:** To ask the Secretary of State for the Home Department what information he collects on the average sentence imposed for similar crimes in different police and courts' service areas; and for which crimes such information is available. [7947]

**Fiona Mactaggart:** Data on sentence lengths for all crimes are collected in all criminal justice and petty-sessional areas. Selected data are published annually in the Home Office Statistical Bulletin "Sentencing Statistics" and in the Criminal Statistics Supplementary Volumes. The "Sentencing Statistics" Bulletin for 2003, published in February 2005, includes the average sentences for major offence groups such as "violence against the person", "sexual offences", etc. for individual areas. The Criminal Statistics Supplementary Volumes provide more detailed information for individual offences.

### Speed Cameras

**Mr. Evans:** To ask the Secretary of State for the Home Department how much money has been raised from speed cameras in each of the last five years; how much of this money has been retained by road safety partnerships; and how much has been kept by the Government. [4510]

**Hazel Blears:** While information is not available on the amount of fines paid following speed offences detected by camera, table A shows the number of fixed penalties and court fines ordered to be paid for the offence of 'speeding detected by camera' in the calendar years 1999 to 2003 (latest available). Not all fines and fixed penalties will have been paid. Information for 2004 will be available in early 2006.

I am advised by my right hon. Friend the Secretary of State for Transport that the revenue figures for the National Safety Camera Programme in England and Wales are available from the start of the netting-off scheme as given in table B. The table shows data by financial year and indicates the number of Safety Camera Partnerships participating in the programme at each stage. It is only fixed penalty income from offences detected by cameras within the national scheme that can be netted off. Except where special provisions apply, such as have been made for supporting the operation of approved safety camera, the whole of offenders' fines normally accrue to the Consolidated Fund.

Details of programme funding for 2000–01 to 2002–03 are given in "The national safety camera programme—three-year evaluation report", copies of which have been placed in the Library of the House, and are available from the Department for Transport website.

*Table A: Fixed penalty and court proceedings data for speeding offences detected by cameras[1] England and Wales, 1999 to 2003*

*Number of offences*

| | Fixed penalties | | Court proceedings[2] | | |
|---|---|---|---|---|---|
| | Number of tickets[3] | Estimated revenue[4] (£) | Number of fines | Total amount of fine (£) | Average fine (£) |
| 1999 | 423,000 | 16,920,000 | 32,300 | 3,434,000 | 106 |
| 2000 | 599,200 | 25,965,000 | 31,800 | 3,400,000 | 107 |
| 2001 | 877,500 | 52,650,000 | 40,500 | 4,510,000 | 111 |
| 2002 | 1,135,000 | 68,122,000 | 46,300 | 4,778,000 | 103 |
| 2003 | 1,657,000 | 99,423,000 | 61,300 | 6,572,000 | 107 |

[1] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[2] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.
[3] Only covers tickets paid where there is no further action.
[4] Estimate based on £40 fixed penalty charge to October 2000. Raised to £60 from November 2000.

*Table B: Revenue figures for the National Safety Camera Programme in England and Wales, 2000–01 to 2003–04[1]*

£

| Year and (number of partnerships participating in programme) | Receipts from fixed penalties | Expenditure | Balance, accruing to the Consolidated Fund |
|---|---|---|---|
| 2000–01 (7 partnerships) | 10,362,440 | 8,985,247 | 1,367,193 |
| 2001–02 (7 partnership, 14 from October 2001) | 19,660,780 | 16,106,559 | 3,554,221 |
| 2002–03 (23 partnerships, 25 from July 2002, 29 from October 2002) | 68,872,320 | 54,256,502 | 14,615,818 |
| 2003–04 (Provisional) (35 partnerships) | 112,200,000 | 91,800,000 | 20,400,000 |

## UK Citizenship

**Keith Vaz:** To ask the Secretary of State for the Home Department how many people have been refused UK citizenship based on an insufficient standard of English in each of the last 10 years, broken down by nationality. [6440]

**Mr. McNulty:** The latest available statistics on the number of people that have been refused UK citizenship based on an insufficient standard of English in the last 10 years can be found in the table.

Data for 1995 to 2001 do not include nationality data as this was not reported at the time.

Information on grants of UK citizenship is published annually in the Home Office bulletin "Persons Granted British Citizenship United Kingdom", available on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html

*Person refused UK citizenship based on an insufficient standard of English, 1995 to 2004*

| Nationality | 1995 | 1996 | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 |

n/a = Data unavailable.
[1] Negligible (i.e. two or less).
*Note:*
Data is rounded to nearest five.

### UK-US Data Transfer

**Mr. Oaten:** To ask the Secretary of State for the Home Department whether UK data on criminal convictions are made available to United States customs and immigration agents; and on what basis. [4674]

**Fiona Mactaggart:** There are no arrangements for routinely supplying UK criminal record information to US customs and immigration authorities. However, information may be shared between agencies during joint criminal investigations.

### Vehicle Registration

**Mark Tami:** To ask the Secretary of State for the Home Department how many individuals in England and Wales have been *(a)* prosecuted and *(b)* convicted in relation to failing to register their vehicles in their name in each of the last five years. [9241]

**Hazel Blears:** It is not possible from the information held on the Home Office Court Proceedings Database to identify prosecutions for the specific offence of failing to register a vehicle separately from other types of offences under the Vehicle Excise and Registration Act 1994.

### Victims of Crime

**Mr. Amess:** To ask the Secretary of State for the Home Department how many young people of school age have been the victims of crime in *(a)* Southend, West constituency, *(b)* Essex, *(c)* Greater London and *(d)* England and Wales in the last five years for which figures are available. [10517]

**Hazel Blears:** The information requested is not collected centrally. Apart from specific sexual offences, it is not possible to identify the age of the victim in the recorded crime statistics.

**Keith Vaz:** To ask the Secretary of State for the Home Department what steps the victims of serious crime can take to prevent the perpetrators of such crimes from coming near their homes while on *(a)* temporary release, *(b)* conditional release and *(c)* permanent release. [3564]

**Fiona Mactaggart:** The national probation service has a statutory duty to work with victims of sexual or violent offences where the offender receives a custodial sentence of 12 months or more. This duty was conferred under the Criminal Justice and Court Services Act 2000 and is soon to be extended, under the Domestic Violence Crime and Victims Act 2004, to the victims of mentally disordered offenders.

Victims are provided with a single point of contact with the probation service, through Victim Liaison Officers (VLOs), from whom they can receive information about key stages in an offender's sentence, such as temporary leave and release on licence.

Many victims of serious crime will have concerns about an offender approaching them or their home once released from prison. The victim contact scheme provides an opportunity for victims to request that conditions be attached to an offender's licence on conditional release. These conditions may specify, for example, that the offender is not allowed to have any contact with the victim and may establish exclusion zones into which the offender is not allowed, such as the areas around the victim's house or place of work. Victims who have concerns about the risk posed to them by an offender on either temporary or conditional release can discuss their concerns with the VLO who can use this information in reports to the prison governor or Parole Board.

When an offender is released on licence, he/she will be subject to supervision by the probation service. During the period of the licence, the VLO will maintain contact with a victim and the victim's family. If victims have concerns about the offender breaching conditions not to contact them or entering an exclusion zone, they should inform the VLO who will in turn notify the offender's supervising officer. If the concerns are substantiated, the offender will either be warned about his/her behaviour, or recalled to custody if it is thought he/she presents an unacceptable risk of harm to the public and there is evidence he/she has breached the licence conditions.

### Worker Registration Scheme

**Keith Vaz:** To ask the Secretary of State for the Home Department whether the Government have commissioned research into the efficiency of the worker registration scheme; and how many people have registered with the scheme since 1 May 2004, broken down by country. [6909]

**Mr. McNulty:** No research into the efficiency of the scheme has yet been commissioned. The scheme will be reviewed after two years of its operation.

### Young Offenders

**Simon Hughes:** To ask the Secretary of State for the Home Department what financial penalties have been imposed on the contractors for *(a)* Hassockfield, *(b)* Medway, *(c)* Rainsbrook and *(d)* Oakhill secure training centres in each financial year that each centre has been operating; and what the reasons were for each such penalty. [8954]

**Fiona Mactaggart** *[holding answer 4 July 2005]:* The financial penalties imposed on secure training centre contractors are set out in the following tables:

*Financial penalties[1] imposed on secure training centre contractors*
*Rainsbrook secure training centre*

£

| | *Liquidated damages for late opening of centre* | *Non-availability of places* | *Performance points[2]* |
|---|---|---|---|
| 1999–2000 | 155,152.00 | 0.00 | 0.00 |
| 2000–01 | 0.00 | 0.00 | 0.00 |
| 2001–02 | 0.00 | 0.00 | 0.00 |
| 2002–03 | 0.00 | 0.00 | 0.00 |

n/a = not available

[1] All figures are exclusive of VAT

[2] Performance points are awarded for failure to deliver specific services.

**Simon Hughes:** To ask the Secretary of State for the Home Department what fees are paid by the Youth Justice Board for a bed in *(a)* a local authority secure children's home, *(b)* secure training centre and *(c)* a Young Offenders Institution. [8955]

**Fiona Mactaggart** *[holding answer 4 July 2005]:* The latest average daily costs per place calculated by the Youth Justice Board are as follows: young offender institution–£138; secure training centre–£396; and local authority secure children's home–£526. These are average costs. Actual payments vary according to a range of factors, including occupancy levels at establishments and regional variations.

## Young People (Secure Training Centres)

**Ms Keeble:** To ask the Secretary of State for the Home Department how many of the young people admitted from each secure training centre to hospital in each of the last four years had been involved in incidents in which restraint techniques were used on them during *(a)* the previous 24 hours and *(b)* the previous week. [1566]

**Fiona Mactaggart:** The figures in the following table are based on information supplied by the secure training centre operators.

*Admissions to hospital of secure training centre trainees following restraint during (a) previous 24 hours (b) previous week*

| | 2001 | | 2002 | | 2003 | | 2004 | | 1 January-27 May 2005 | |
|---|---|---|---|---|---|---|---|---|---|---|
| STC | (a) | (b) | (a) | (b) | (a) | (b) | (a) | (b) | (a) | (b) |
| Medway | 0 | 0 | 0 | 0 | 0 | 0 | 1 | 0 | 0 | 0 |
| Rainsbrook[1] | 0 | 1 | 0 | 1 | 0 | 0 | 0 | 0 | 0 | 0 |
| Hassockfield | 0 | 0 | 0 | 0 | 0 | 1 | 0 | 1 | 0 | 0 |
| Oakhill[2] | — | — | — | — | — | — | 0 | 0 | 0 | 0 |

[1] Rainsbrook 2004 figures do not include Gareth Myatt, who was pronounced dead on arrival at hospital following a restraint incident on 19 April.

[2] Oakhill opened 19 August 2004

**Ms Keeble:** To ask the Secretary of State for the Home Department on how many occasions young people have been admitted to hospital from each secure training centre in each of the last four years. [1567]

**Fiona Mactaggart:** The figures in the following table are based on information supplied by the secure training centre operators.

*Admissions to hospital of secure training centre trainees 2001–05*

| STC | Medway | Rainsbrook | Hassockfield | Oakhill[1] |
|---|---|---|---|---|
| 2001 | 2 | 2 | 0 | — |
| 2002 | 2 | 4 | 1 | — |
| 2003 | 2 | 3 | 1 | — |
| 2004 | 3 | 5[2] | 2 | 0 |
| 1 January-27 May 2005 | 2 | 1 | 0 | 0 |

[1] Oakhill opened 19 August 2004

[2] Rainsbrook 2004 figures do not include Gareth Myatt, who was pronounced dead on arrival at hospital following a restraint incident on 19 April.

**Ms Keeble:** To ask the Secretary of State for the Home Department how many of the young people admitted to hospital from each secure training centre in each of the last four years were admitted due to *(a)* illness and *(b)* non-accidental injuries. [1568]

**Fiona Mactaggart:** The figures in the following table are based on information supplied by the secure training centre operators.

*Admissions to hospital 2001–05*

| *STC* | *Medway* | *Rainsbrook* | *Hassockfield* | *Oakhill*[1] |
|---|---|---|---|---|
| *Due to illness* | | | | |
| 2001 | 2 | 1 | 0 | — |
| 2002 | 1 | 2 | 1 | — |
| 2003 | 1 | 2 | 0 | — |
| 2004 | 2 | 4 | 1 | 0 |
| Up to 27 May 2005 | 2 | 1 | 0 | 0 |
| *Due to non accidental injuries* | | | | |
| 2001 | 0 | 1 | 0 | — |
| 2002 | 1 | 0 | 0 | — |
| 2003 | 1 | 0 | 0 | — |
| 2004 | 1 | 0 | 0 | 0 |
| Up to 27 May 2005 | 0 | 0 | 0 | 0 |

[1] Oakhill opened 19 August 2004.
[2] Includes one termination of pregnancy.
[3] Includes one termination of pregnancy.

## DEPUTY PRIME MINISTER

### Advertising Expenditure

**Mr. Burstow:** To ask the Deputy Prime Minister how much the *(a)* Department and *(b)* non-departmental bodies for which the Department is responsible has spent on advertising, broken down by media type in the last three years. [9496]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created on 29 May 2002.

The total expenditure by *(a)* the Office of the Deputy Prime Minister on advertising media is as follows:

| | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| TV | 2,829,248 | 2,879,286 | 3,216,961 |
| Radio | 303,581 | 90,508 | 407,795 |
| Press | 214,114 | 709,205 | 372,924 |
| Other | 0 | 808,011 | 1,041,190 |
| Total | 3,346,943 | 4,487,010 | 5,038,870 |

Figures for *(b)* non-departmental bodies are not held centrally and could be provided only at disproportionate cost.

### Aston Down

**Mr. Drew:** To ask the Deputy Prime Minister if he will make a statement on his decision to order an environmental impact assessment on Aston Down; and what representations he has received on the matter. [6776]

**Yvette Cooper** *[holding answer 23 June 2005]:* The applicants requested the Secretary of State's screening direction on the matter of whether or not the application made to Stroud district council is an 'EIA application' within the meaning of the Town and Country Planning (Environmental Impact Assessment) (England and Wales) Regulations 1999.

The Secretary of State issued a screening direction on 11 May 2005. In the opinion of the Secretary of State, taking into account the selection criteria in schedule 3 to the 1999 regulations, the proposal is likely to have significant effects on the environment by virtue of factors such as its nature and location. The development proposed, namely, change of use of buildings to a mix of classes B1, B2, B8, and sui generis uses falls within the description at paragraph (10)*(a)* of schedule 2 to the 1999 regulations. The reason for this conclusion is the proposal is for an industrial estate development on a site in excess of 0.5 hectares. Since the proposal exceeds the threshold in column 2 of the table in schedule 2 to the 1999 regulations and is located in a sensitive area, the Secretary of State considers the application to be a 'Schedule 2 application' within the meaning of the 1999 regulations.

However, the Secretary of State's opinion on the likelihood of the development having significant environmental effects is reached only for the purposes of the screening direction. Since a further planning application is expected in respect of this site, it is possible that the site will come before the First Secretary of State in the future either as the subject of a call-in or on appeal, therefore any comments regarding the merits of any proposal for the site could prejudice the First Secretary of State's position.

Representations were received from English Nature, the Aston Down Action Group and from members of the public.

### Bridging Newcastle Gateshead Pathfinder

**Jim Cousins:** To ask the Deputy Prime Minister who gave the approval for Bridging Newcastle Gateshead Pathfinder to commission an area planning consultation from the Beyond Green consultancy on the area around the former Newcastle Brewery; what the cost was of the commission; whether Bridging Newcastle Gateshead Pathfinder knew that the same consultancy was also conducting planning consultations for a major developer in the area; and what protocols regarding the avoidance of conflicts of interest applied. [9877]

**Yvette Cooper:** Discussions on individual projects are devolved to the board of the Bridging Newcastle Gateshead Pathfinder and do not require approval from the Office of the Deputy Prime Minister. The pathfinder has standard processes for appraisal and approval of projects. No information on this project is held centrally.

**Jim Cousins:** To ask the Deputy Prime Minister who the members of the *(a)* Bridging Newcastle Gateshead Pathfinder Board and *(b)* North East Regional Housing Board are; if he will place in the Library a copy of the declaration of interest by each member; and whether each organisation is required to have board meetings open to the public. [9878]

**Yvette Cooper:** Membership of the Bridging Newcastle Gateshead Pathfinder Board is:

Leo Finn (Chair)

Cllr Greg Stone, Cabinet Member, Newcastle City Council

Steve Dunlop, Director, Newcastle City Council

Cllr David Napier, Cabinet Member, Gateshead Council

Sheila Johnston, Director, Gateshead Council

Douglas Taylor, Newcastle and Whitley Housing Trust, LSP Newcastle

Pauline Nelson, Gateshead Voluntary Organisations Council, LSP Gateshead

Pat Ritchie, One NorthEast

Malcolm Levi, Home Group

Mike Smith, Northern Rock

Donald Urquhart, English Partnerships

Eric Morgan, Sanderson Weatherall

Office of the Deputy Prime Minister (Observer)

Government Office for the North East (Observer)

Housing Corporation (Observer)

Board members are asked to declare interests at the beginning of each meeting and withdraw from discussion where appropriate. Records of declarations of interest are not held centrally.

Board meetings are not open to the public although it is proposed that the board should in future following board meetings provide information on its website.

Membership of the North East Regional Housing Board is:

Jonathan Blackie, Chair, Regional Director Government Office for the North East

Neil Bradbury, English Partnerships

Cllr Bob Brady, Association of North East Councils

John Carleton, Housing Corporation

Alan Clarke, Chief Executive, One NorthEast

Leo Finn, Chair of Bridging Newcastle Gateshead

Jolyon Harrison, House Builders Federation

Arthur Cross, The North East Council of Tenants and Residents (NECTAR)

Cllr Alan Napier, North East Assembly

The terms of reference for board members relating to declaration of interest are:

"It is the responsibility of all Board, Executive and related Task Group members to declare any personal interest in matters being considered, eg, issues which may result in financial gain to them.

Upon declaration of an interest the member will be expected to withdraw from that part of the meeting unless decided otherwise by the majority of members in attendance."

There have been no declarations of interest.

Meetings of the board are not open to the public but the minutes of meetings are publicly available on the North East Housing board website at www.nehb.org.uk

### Canal Boats

**Mrs. Spelman:** To ask the Deputy Prime Minister how moving canal boats which are a primary residence will be assessed for council tax purposes under the council tax revaluation. [11437]

**Mr. Woolas:** Boats are not in themselves subject to council tax. A mooring occupied by a boat which is somebody's sole or main residence is deemed to be a "dwelling" for council tax purposes and will therefore attract a council tax liability in the same way as other domestic types of property. A dwelling consisting of a mooring which is not occupied by a boat is exempt from council tax.

### Community Housing Task Force

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister whether the private sector makes a contribution to the *(a)* costs and *(b)* salaries of his Community Housing Task Force. [9552]

**Yvette Cooper:** No.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister how many people have left the Housing Task Force since its inception; and how many of them have gone into the private sector. [9654]

**Yvette Cooper:** Since its inception, eight people have left the Community Housing Task Force, three of whom have gone into the private sector, one to a housing association, and two as consultants.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister whether *(a)* councils, *(b)* registered social landlords and *(c)* private sector investors are charged for the services of his Department's Housing Task Force. [9657]

**Yvette Cooper:** No.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister in what circumstances the Housing Task Force advises councils to announce tenant ballots ahead of schedule. [9658]

**Yvette Cooper:** The Community Housing Task Force refer authorities to the Office of the Deputy Prime Minister's Housing Transfer Manual 2005 Programme which gives guidance on the procedures to be followed during the consultation process.

### Council Housing

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister how many consultants and tenants' advisers consulted by councils on housing options have recommended against transfer; and to which councils. [9637]

**Yvette Cooper:** Consultants and tenants' advisers do not make recommendations on housing options.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister whether his Department keeps a list of consultants for councils considering their housing options; and what criteria determine which consultants are on the list. [9639]

**Yvette Cooper:** The Office of the Deputy Prime Minister keeps a list of consultants for training and networking purposes. This is occasionally shared with councils when requested. No recommendations are made.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister how much his Department has paid in gap funding and to how many registered social landlords taking over council housing. [9655]

**Yvette Cooper:** To date one payment of £7.65 million has been made to Shoreline Housing Partnership.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister if he will estimate the number and value of council housing properties transferred to *(a)* registered social landlords and *(b)* arm's length management organisations since 1999. [9656]

**Yvette Cooper:** Since 1999 approximately 639,000 council dwellings have been transferred to registered social landlords at a total gross transfer price of approximately £3 billion. Proposals to pass the management of 796,000 dwellings to arm's length management organisations (ALMOs) have been approved since the programme was launched in 2001. It is not possible to estimate the value of the stock managed by ALMOs. As the stock remains in the ownership of the local authority, a valuation does not have to be carried out when an ALMO is set up.

## Council Tax

**John Hemming:** To ask the Deputy Prime Minister what assumed national council tax figure was used by central government in each year since the introduction of the council tax. [9209]

**Mr. Woolas:** Assumed national council tax (ANCT) was introduced in 2003–04. Before that, council tax for standard spending (CTSS) was used in an analogous way. The annual figures used are set out in the table.

| | *National band D CTSS/ANCT* |
|---|---|
| 1993–94 | 492.62 |
| 1994–95 | 527.40 |
| 1995–96 | 551.55 |
| 1996–97 | 568.94 |
| 1997–98 | 593.09 |
| 1998–99 | 634.62 |
| 1999–2000 | 664.88 |
| 2000–01 | 695.54 |
| 2001–02 | 730.89 |
| 2002–03 | 769.16 |
| 2003–04 | 1,037.46 |
| 2004–05 | 1,061.46 |
| 2005–06 | 1,101.96 |

**Mr. Amess:** To ask the Deputy Prime Minister what the council tax for a band E house in *(a)* each London borough and *(b)* each local authority in Essex is; and what the comparable figures for each of the last three years for which figures are available were. [10567]

**Mr. Woolas:** Details of the council tax for a band E property in *(a)* each London borough and *(b)* each local authority in Essex for the last four years are published on the Office of the Deputy Prime Minister's website and can be found under the heading "Information For Taxpayers—Council Tax" at:

http://www.local.odpm.gov.uk/finance/ct.htm

## Departmental Requests

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will place in the Library a copy of the internal guidance produced by his Department for its staff on handling *(a)* written parliamentary question requests, *(b)* Freedom of Information Act 2000 requests and *(c)* requests made under the Environmental Information Regulations 2004. [7401]

**Jim Fitzpatrick:** Answers to parliamentary questions are drafted in accordance with the Cabinet Office guidance to officials on drafting answers to parliamentary questions, copies of which are available in the Library of the House. In addition, guidance is available to officials in the Office of the Deputy Prime Minister (ODPM) on the processing of parliamentary questions, including written questions. A copy of that guidance has been placed in the Library of the House.

Guidance issued to ODPM officials on handling requests for information under the Freedom of Information Act 2000 and under the Environmental Information Regulations 2004 has been placed in the Library of the House.

## Development Tariffs

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will make a statement on the South East Regional Assembly's proposals for development tariffs across the South East. [5573]

**Yvette Cooper:** We understand that the South East England Regional Assembly is still in the process of developing and refining its proposals in respect of development tariffs and we have not yet seen the details of the proposals.

## Domestic Violence

**Mr. Drew:** To ask the Deputy Prime Minister how many refuge places for victims of domestic violence there are in England; how many *(a)* women, *(b)* children and *(c)* men stayed in them in the last year for which figures are available; and how much central Government funding was made available to such refuges in that year. [8410]

**Mr. Woolas:** Through the Supporting People programme information is collected by the Department from administering authorities on the number of units of support available to women who are at risk of domestic violence. A unit is either accommodation based, including places within a women's refuge, or a service that allows the victim to remain in their own accommodation where appropriate. At April 2003, there were 5,831 units of support for women at risk of domestic violence, of which 3,523 were accommodation based and 2,308 were other support services. No information is collected by the Office of the Deputy Prime Minister (ODPM) on the number of men who are victims of domestic violence.

Information is also collected by the ODPM from service providers on the number of new clients accessing services through the Supporting People programme, including the number of women who are at risk of domestic violence and the type of service provided to them. Between 1 April 2003 and 31 March 2004 some

22,200 women, with around 24,000 children, who accessed a service through Supporting People were at risk of domestic violence. Of these 22,000, 14,000 were placed in a women's refuge and 4,400 received other support. The remainder received other types of service.

In 2003–04 over £50 million was allocated by local authorities through the Supporting People programme for housing-related support for victims of domestic violence.

### English Wine

**Mr. Dismore:** To ask the Deputy Prime Minister if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9151]

**Jim Fitzpatrick:** All procurement in the Office of the Deputy Prime Minister is undertaken in line with the EC's procurement rules and to obtain value for money.

However, British products are used where possible, and we will certainly be considering British produce for events planned in connection with the Presidency.

### E-projects (Funding)

**Robert Key:** To ask the Deputy Prime Minister what the cost of the Environment and Community Online Residents E-Services project has been in each year since it was established. [6559]

**Mr. Woolas:** The Environment and Community Online Resident E-Services National e-Government project was allocated a total of £3.5 million in 2003–04. To date the project has claimed a total of £2,561,724.51. This includes—for 2003–04—no payment, 2004–05—£1,604,012.10 and 2005–06—£957,712.41.

### Fire-related Deaths

**Mr. Amess:** To ask the Deputy Prime Minister how many fire-related deaths in dwellings in *(a)* Southend and *(b)* Essex there were in each year since 1997. [10568]

**Jim Fitzpatrick:** The following information is as follows:

*(a)* Information for Southend is not held centrally.

*(b)* Information on the number of deaths in dwellings fires attended by Essex fire and rescue service is shown in the following table.

*Fire-related deaths in dwellings in Essex, 1997 to 2004*

| | Number |
|---|---|
| 1997 | 14 |
| 1998 | 6 |
| 1999 | 6 |
| 2000 | 10 |
| 2001 | 6 |
| 2002 | 7 |
| 2003 | 8 |
| 2004 (Provisional) | 6 |

*Source:*
Fire and Rescue Service FDR1 returns to ODPM.

### HMOs (Licence Fees)

**Sarah Teather:** To ask the Deputy Prime Minister (1) what his Department's most recent estimate is of the sum which will be raised from houses in multiple occupation licensing fees; and what methodology was used to make the estimate; [6426]

(2) what arrangements he will put in place to ensure houses in multiple occupation licence fees set by local authorities only recover costs; and when he expects these arrangements to be in place. [6419]

**Yvette Cooper:** I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 5 July 2005, *Official Report*, column 308W.

### Home Assessment Ratings

**Dr. Iddon:** To ask the Deputy Prime Minister how many homes in the *(a)* public sector and *(b)* private sector have standard assessment procedure ratings that fall into the (i) 0–20, (ii) 20–40, (iii) 40–60 and (iv) above 60 bands. [9832]

**Yvette Cooper:** The number of homes with specified standard assessment procedure (SAP) ratings in the public and private housing sectors is provided in the following table, using information from 2001 (the most recent figures currently available):

*Table: Public and private housing sector SAP ratings (banded), 2001*

*Thousands of dwellings*

| | 2001 | |
|---|---|---|
| *SAP rating:* | *Public* | *Private* |
| less than 20 | 128 | 887 |
| 20–39 | 340 | 3,078 |
| 40–59 | 1,325 | 9,618 |
| 60 or more | 1,020 | 4,811 |
| all | 2,812 | 18,395 |

*Note:*
Higher SAP ratings indicate more energy efficient homes. RSL-owned dwellings have been classified as private for the purpose of this table.

English House Condition Survey

### Homelessness

**Mr. Burstow:** To ask the Deputy Prime Minister how many people were *(a)* accepted as eligible for assistance, unintentionally homeless and in priority need, *(b)* found to be unintentionally homeless but not in a priority need category, *(c)* in temporary accommodation arranged by the local authority under homelessness legislation, *(d)* designated as homeless at home, *(e)* recorded as sleeping rough and *(f)* people on the housing register. [8079]

**Yvette Cooper:** Information about local authorities' actions under homelessness legislation is collected quarterly and is in respect of households rather than persons. Information on the numbers on local authorities' housing registers is collected annually and is also in respect of households.

The table presents information reported by each London borough on the number of households accepted as eligible for assistance, unintentionally homeless and

in priority need, and those found to be unintentionally homeless but not in a priority need category, for each year since 2001–02, along with the number of households in temporary accommodation arranged by local authorities under homelessness legislation, plus those additionally designated "homeless at home", as at 31 March of each year. Also shown is the number of households on each authority's housing register as at 1 April of each year, and the number of people who sleep rough—that is, those who were literally roofless on a single night during the year.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

*Reported household data 2001–02 (April 2001 to March 2002)*

| | | Decisions[1] during year | | Position on 31 March 2002 | | |

[1] Data shown where four quarterly returns were received, n/a denotes an authority failed to provide a return for one or more quarters.
[2] All households eligible under homelessness legislation, found to be unintentionally homeless and in a priority need category and consequently owed a main homelessness duty.
[3] Households in accommodation either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance.
[4] Households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative accommodation as those in accommodation arranged by the authority.

[1] All households eligible under homelessness legislation, found to be unintentionally homeless and in a priority need category and consequently owed a main homelessness duty.
[2] Data shown where four quarterly returns were received n/a denotes an authority failed to provide a return for one or more quarters.
[3] Households in accommodation either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance.
[4] Households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative accommodation as those in accommodation arranged by the authority.
*Source:*
ODPM: Homelessness returns (quarterly) and Housing Strategy Statistical Appendix (annual)

### Household Projections (South-east)

**Mr. Hancock:** To ask the Deputy Prime Minister what his timetable is for publication of household projections for the South East. [8614]

**Yvette Cooper:** Publication of 2003-based household projections for England and the Government Office Regions is planned for September. These will be National Statistics with the release date pre-announced on the Office for National Statistics' website.

### Housing

**Lorely Burt:** To ask the Deputy Prime Minister what *(a)* legislation and *(b)* other safeguards are in place (i) to protect public open space and parkland from housing development in the urban environment and (ii) to stop councils selling off public open space and parkland for housing development to fund other council services. [8923]

**Yvette Cooper:** National planning guidance set out in PPG17 (Planning for Open Space, Sport and Recreation) makes clear that open spaces that are needed by their communities should be protected and not developed for other uses. PPG17 indicates that planning authorities should undertake assessments of their communities' open space needs and only consider granting permission for development where open spaces are surplus to all requirements. PPG3 (Housing) complements this protection through the priority it gives to building new houses on previously developed land.

My right hon. Friend the Deputy Prime Minister must be notified of those major proposals for housing or that affect open spaces which are subject to relevant directions so that he can consider whether to call them in for his own determination. A local authority proposing to dispose of open space under the Local Government Act 1972 must advertise its intention in a local newspaper for two consecutive weeks and consider any objections.

Disposal of land by local authorities is governed by section 123 of the Local Government Act 1972. Local authorities may dispose of land in any manner they wish: my right hon. Friend the Deputy Prime Minister, the Secretary of State's only involvement is to grant or withhold consent where authorities wish to dispose of land at less than the best consideration reasonably obtainable and the proposed disposal falls outside the scope of the General Consent set out in ODPM Circular 06/2003.

**Mr. Soames:** To ask the Deputy Prime Minister who the zone agent is for West Sussex in the key worker living scheme. [10170]

**Yvette Cooper:** Moat Housing Group is the zone agent for the Sussex area.

**Mr. Soames:** To ask the Deputy Prime Minister what advice he has received from the Regional Housing Board on the amount of affordable housing needed in West Sussex *(a)* in 2005 and *(b)* over the next 10 years. [10171]

**Yvette Cooper:** The South East Regional Housing Board has not given any advice to my right hon. Friend the Deputy Prime Minister on the amount of affordable housing needed in West Sussex. The Board's role is to set out overall priorities for the region rather than to determine allocations between individual local authorities.

**Mr. Soames:** To ask the Deputy Prime Minister how many key workers in West Sussex he expects to benefit from the *(a)* Social Home Buy and *(b)* New Build Home programmes. [10217]

**Yvette Cooper** *[holding answer 7 July 2005]:* It is not possible to estimate at the moment how many people in West Sussex will benefit from the Government's proposals for low cost home ownership. The South East Region has been allocated £805.161 million of funding for housing for the two years 2006–08 and the Office of the Deputy Prime Minister is currently awaiting Regional Housing Board recommendations as to how and where this should be invested. Once priorities for investment have been established, housing providers will be invited to bid for funding. The number of people in West Sussex who will benefit will depend on which bids are successful.

With regard to Social HomeBuy it is a voluntary scheme and it will be up to the individual social landlords to decide whether to operate it in any given area.

**Mr. Soames:** To ask the Deputy Prime Minister how many first-time buyers in West Sussex he expects to benefit from the First Time Buyers Initiative. [10218]

**Yvette Cooper** *[holding answer 7 July 2005]:* It is too early to say how many first time buyers in West Sussex will be helped through the First Time Buyers Initiative. Our target for the initiative is to provide 15,000 affordable homes across England over the next five years to 2010. This target can be found in our Five Year Strategy, "Sustainable Communities: Homes for All", published by the Office of the Deputy Prime Minister in January 2005 (a copy of which is available in the Library of the House). English Partnerships is now developing a delivery plan for the First Time Buyers Initiative.

Our consultation document "HomeBuy; Expanding the opportunity to own" launched in April 2005 set out various proposals for simplifying, making fairer and expanding our low cost home ownership programme. The consultation process closed on 24 June, and the results will be fed into English Partnerships' delivery plan. English Partnerships will be working closely with stakeholders such as the Regional Housing Boards, local planning authorities and others to assess local demands and accommodate them where possible taking account of regional strategies and development plans. Regional Housing Boards will advise on groups to be given priority, reflecting the needs of the region.

**Mr. Soames:** To ask the Deputy Prime Minister how many people in West Sussex he expects to benefit from the Key Worker Living Scheme. [10219]

**Yvette Cooper:** *[holding answer 7 July 2005]:* Allocations are not made by individual counties. The Sussex area has been allocated over £8 million in 2004–05 and 2005–06 to invest in the provision of Key Worker Living Homebuy Equity Loans to help an estimated 250 households into home ownership by March 2006. In addition funding has been allocated to develop over 424 new homes to rent or buy through shared ownership in the area by March 2007.

**Mr. Soames:** To ask the Deputy Prime Minister how much public sector land the Government have released for housing in West Sussex in the last five years; and how much further such land he plans to release. [10220]

**Yvette Cooper** *[holding answer 7 July 2005]:* It is the responsibility of local planning authorities to identify and release land for housing as part of the planning process.

The Government have implemented a number of initiatives to assist with land supply in support of the Sustainable Communities Plan.

A register of surplus public sector land held by central Government bodies has been established. English Partnerships is currently reviewing the sites on the register to identify those which could have the potential for housing development. As at March 2005, there were 713 sites on the register. Sites are continually being added as they are identified as surplus by landowners and removed once expressions of interests are received after a site has been marketed. A list of the sites on the register, as at March 2005, can be found on the English Partnerships website at: http://www.englishpartnerships.co.uk/images/16EE954C904340DDAB44702EF5D2ADE6.pdf. English Partnerships will publish a quarterly update of sites on the register.

English Partnerships has also recently taken ownership of the first 67 sites from a portfolio of 96 surplus hospital sites. The sites are currently being assessed for their development potential and will then be taken forward in consultation with the relevant local planning authorities. English Partnerships and the Defence Estates have also signed a joint working agreement on surplus land. This sets out how the agencies will work together with the objective of maximising the potential of surplus defence sites to help deliver the Sustainable Communities Plan.

The Office of the Deputy Prime Minister and English Partnerships also maintain the National Land Use Database of Previously-Developed Land (NLUD-PDL). This covers vacant and derelict land and also land in use with potential for development. It covers land in both public and private ownership. Information on the sites is available from the NLUD website at www.nlud.org.uk.

In addition, English Partnerships is developing the National Brownfield Strategy which will provide a coherent vision for the future development of brownfield land to underpin national, regional and local development aspirations. The strategy will help our targets for building new homes on brownfield land thereby reducing the pressure on the green belt.

**Mr. Soames:** To ask the Deputy Prime Minister what definition he uses of the term affordable housing. [10221]

**Yvette Cooper** *[holding answer 7 July 2005]:* I refer the hon. Member to the answer given in the other place on 9 June 2005, *Official Report*, column WA99–100 to the noble Lord Marlesford.

**Dr. Iddon:** To ask the Deputy Prime Minister how many house *(a)* demolitions and *(b)* completions there were in (i) the public sector and (ii) the private sector in the last 10 years. [9835]

**Jim Fitzpatrick:** The numbers of demolitions and new build completions in each year since 1995–96 for England are tabled as follows.

*Thousands of dwellings*

| | *(a) Total demolitions*[1] | *(b) New build completions* | |
|---|---|---|---|
| | | *Private sector* | *Social (for rent) sector*[2,3] |
| 1995–96 | n/a | 123.6 | 31.0 |
| 1996–97 | n/a | 121.2 | 25.1 |
| 1997–98 | 14.1 | 127.8 | 21.7 |
| 1998–99 | 14.5 | 119.5 | 19.1 |
| 1999–2000 | 17.2 | 124.2 | 17.2 |
| 2000–01 | 20.0 | 116.4 | 16.7 |
| 2001–02 | 26.3 | 115.5 | 14.2 |
| 2002–03 | 23.4 | 124.3 | 13.4 |
| 2003–04 | 20.1 | 129.5 | 13.8 |
| 2004–05 | n/a | 137.8 | 16.8 |

n/a = not available

[1] Figures are not available separately for private and social for rent sectors

[2] Social (for rent) sector covers activity by councils and registered social landlords

[3] The figures may understate new build by Registered Social Landlords as such dwellings may be classified as 'private' by building inspectors.

*Source:*

Demolitions: Local Authority Housing Flow (HFR/P3J) returns to ODPM, also HIP Business Plan Completions: Local Authority P2 (also NHBC) returns to ODPM

### Local Authority Contractors

**Mr. Davidson:** To ask the Deputy Prime Minister if he will list contractors based in other EU member states that are providing services to local authorities in England. [9368]

**Mr. Woolas:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Local Authority Pension Funds

**Sarah Teather:** To ask the Deputy Prime Minister what estimate he has made of the likely shortfall in local authority pension funds under the *(a)* Local Government Pension Scheme (Amendment) Regulations 2004 and *(b)* Local Government Pension Scheme (Amendment) Regulations 2005. [6418]

**Mr. Woolas:** I refer the hon. Member to answer given to the hon. Member for Meriden (Mrs. Spelman) on 6 July 2005, *Official Report*, column 411W.

### Local Authority Targets

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will list the targets that his Department sets for local authorities; and if he will make a statement. [9536]

**Mr. Woolas:** Local authorities contribute to the delivery of the Office of Deputy Prime Minister's Public Service Agreement targets. These are set out in the ODPM Annual report, a copy of which has been made available in the Library of the House. They also contribute to the delivery of targets set out in the ODPM five-year plans, "Sustainable Communities: People, Places and Prosperity and Sustainable Communities: Homes for all". These do not include targets set by other Departments for local authorities.

### Motorway Advertisements

**Mark Tami:** To ask the Deputy Prime Minister what planning constraints apply to the *(a)* size and *(b)* location of advertisements adjacent to motorways. [9222]

**Yvette Cooper:** The limits to the size and location of advertisements which may be displayed with the deemed consent of the local planning authority are set out in the Town and Country Planning (Control of Advertisements) Regulations 1992, otherwise local planning authorities must consider amenity and public safety on a site-specific basis.

### Oil Firing Technology

**Mr. Peter Ainsworth:** To ask the Deputy Prime Minister if he will take steps to raise professional standards among oil fired heating installers by means of the oil firing technical association scheme. [10374]

**Yvette Cooper** *[holding answer 7 July 2005]:* The Oil Firing Technical Association for the Petroleum Industry Ltd. (OFTEC) is an industry body which installers can choose to join if they wish. It has robust entry competence standards and continuing training requirements for installers registered with it. Its installers have been found to deliver a high level of compliance with the requirements of the Building Regulations.

No information is available on the competence level of installers which are not registered with OFTEC. They are under a duty to inform local authorities of all installations that they carry out and the local authorities are responsible for making sure that these installations meet the minimum required standards in the Building Regulations.

**Mr. Peter Ainsworth:** To ask the Deputy Prime Minister when the Oil Firing Technical Association Scheme was last reviewed; and when the next review is scheduled to take place. [10375]

**Yvette Cooper** *[holding answer 7 July 2005]:* The building regulations competent person scheme operated by the Oil Firing Technical Association for the Petroleum Industry Ltd. (OFTEC) began operation on 1 April 2002. It was subject to a formal review after a year of operation. The review concluded that it had achieved a higher level of building regulations compliance than would otherwise have been the case and had helped to raise installation standards. Since that time the Office of the Deputy Prime Minister has kept OFTEC under informal review and believes that the conclusions reached by the formal review remain valid.

The next formal review of OFTEC will take place in conjunction with its application for UKAS accreditation to the appropriate standard, likely within the next 18 months.

### Planning Policy Guidance

**Mrs. Spelman:** To ask the Deputy Prime Minister (1) when he expects to publish his revision of Planning Policy Guidance 3; [9542]

(2) which national planning policy documents the Government are seeking to revise or update; and what timetable has been set. [9543]

**Yvette Cooper:** I refer the hon. Member to the answer given on 20 June 2005, *Official Report*, column 835W, which set out the Government's plans for revising planning policy guidance (PPG3) on housing.

The written statement made by my right hon. Friend the then Minister for Housing and Planning on 17 June 2004, *Official Report*, column 45WS, indicated that priority would be given to replacement of Planning Policy Guidance notes (PPGs) by Planning Policy Statements (PPSs) where it was required for good policy reasons. Progress on replacement of those PPGs (other than PPG3) identified in the statement as a priority is tabled as follows.

| *PPS Number* | *Subject* | *Consultation draft* | *Publication of revised PPS/PPG* |
|---|---|---|---|
| 1 | Delivering Sustainable Development | 23 February 2004 | 1 February 2005 |
| 4 | Economic Development | To be decided | — |
| 6 | Planning for Town Centres | 15 December 2003 | 21March 2005 |
| 7 | Sustainable Development in Rural Areas | 15 September 2003 | 3 August 2004 |
| 9 | Nature Conservation/ Biodiversity | 8 September 2004 | August 2005 |
| 10 | Waste Management | 6 December 2004 | Summer 2005 |
| 11 | Regional Planning | 13 October 2003 | 7 September 2004 |
| 12 | Development Plans | 13 October 2003 | 7 September 2004 |
| 22 | Renewable Energy | 5 November 2003 | 9 August 2004 |
| 23 | Pollution Control | February plus July 2002 | 3 November 2004 |
| 24 | Planning and Noise | Autumn 2005 | Summer 2006 |
| 25 | Development and Flood Risk | Autumn 2005 | — |

The review and replacement of other PPGs will take place as and when necessary in the light of their policy and strategic significance. In the meantime the current PPG will remain in place.

It is not proposed to produce any additional PPSs at present, although good practice guidance on specific topics may be produced from time to time.

### Private Rented Accommodation

**Danny Alexander:** To ask the Deputy Prime Minister what assessment his Department has made of the *(a)* regional and *(b)* local variation in availability of private sector rented accommodation. [10145]

**Yvette Cooper:** Estimates of the number of privately rented households in England during 2003–04, broken down by Government Office Region, are set out in the following table. The figures are derived from the "Survey of English Housing", which is an annual survey of around 20,000 households. While the survey is large enough to provide reasonable estimates of the number of private renters by region, it cannot be used to provide estimates at local authority level.

*Number of privately renting households by region, 2003–04*

| *Government office region* | *Privately renting households* | *All households* | *Private renters as a percentage of all households* |
|---|---|---|---|
| North East | 84,000 | 1,100,000 | 8 |
| North West | 235,000 | 2,822,000 | 8 |
| Yorkshire and Humber | 176,000 | 2,137,000 | 8 |
| East Midlands | 156,000 | 1,768,000 | 9 |
| West Midlands | 153,000 | 2,170,000 | 7 |
| Eastern | 241,000 | 2,250,000 | 11 |
| London | 507,000 | 3,013,000 | 17 |
| South East | 337,000 | 3,262,000 | 10 |
| South West | 260,000 | 2,105,000 | 12 |
| Total | 2,149,000 | 20,627,000 | 10 |

*Source:*

Survey of English Housing, 2003–04

A comprehensive breakdown of the number of privately rented households at the time of the 2001 census is available in a table entitled: "KS18 Tenure: census 2001, Key Statistics of local authorities"

This can be accessed via the National Statistics website using the following link: http://www.statistics.gov.uk/statbase/ssdataset.asp?vlnk=6579&More=Y

The number of households who were privately renting at the time of the last census can be determined by adding together the figures in columns H and I of this table.

### Safer Stronger Communities Fund

**Sandra Gidley:** To ask the Deputy Prime Minister how much money has been allocated to each Hampshire local authority from the Safer Stronger Communities Fund. [9796]

**Mr. Woolas:** There are no local authorities in Hampshire receiving Office of the Deputy Prime Minister (ODPM) funding from the Safer Stronger Communities Fund (SSCF).

### Social Housing

**John Hemming:** To ask the Deputy Prime Minister what the forecast availability of *(a)* council and *(b)* registered social landlord social housing is in each year to 2010, broken down by Government Office region. [8891]

**Yvette Cooper:** The Office of the Deputy Prime Minister has not made any forecasts of availability of social housing up to 2010.

Following the Spending Review 2004 the Office of the Deputy Prime Minister estimated that 75,000 additional social rented homes would be provided in England by 2007–08. The regional housing boards recommendations, being considered by Ministers, will inform the detailed investment priorities for 2006–07 and 2007–08.

Future delivery of social housing after 2007–08 will be dependent on the outcome of the Spending Review 2006.

## NORTHERN IRELAND

### Abandoned Vehicles

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland how much has been spent by each council in Northern Ireland on clearing abandoned vehicles in each year since 1997. [11124]

**Angela E. Smith:** The information requested was not held centrally until 2002–03. For 2002–03 and 2003–04, the net expenditure incurred by district councils on clearing abandoned vehicles is set out in the following table. Information for 2004–05 is not yet available.

| *District council* | *2002–03* | *2003–04* |
|---|---|---|
| Antrim | 0 | 0 |
| Ards | 1,493 | 1,323 |
| Armagh | 3,800 | 13,957 |
| Ballymena | 0 | 0 |
| Ballymoney | 0 | 0 |
| Banbridge | 0 | 0 |
| Belfast | 0 | 70,716 |
| Carrickfergus | 0 | 0 |
| Castlereagh | 4,108 | 4,306 |
| Coleraine | 0 | 0 |
| Cookstown | 1,846 | 1,504 |
| Craigavon | 0 | 0 |
| Derry | 13,465 | 12,897 |
| Down | 0 | 0 |
| Dungannon and South Tyrone | 3,200 | 3,187 |
| Fermanagh | 15,837 | 19,537 |
| Larne | 15,084 | 3,180 |
| Limavady | 75 | 5,858 |
| Lisburn | 0 | 0 |
| Magherafelt | 0 | 0 |
| Moyle | 943 | 951 |
| Newry and Mourne | 0 | 0 |
| Newtownabbey | 37,425 | 14,792 |
| North Down | 0 | 0 |
| Omagh | 27,214 | 32,935 |
| Strabane | 0 | 0 |
| Total | 124,490 | 185,143 |

### Auction Marts

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland if he will make a statement on the future of auction marts within Northern Ireland. [11123]

**Angela E. Smith:** I am aware that auction marts perform an important role within the agricultural industry in Northern Ireland. The future of such marts is a commercial issue for each mart operator taking account of the pattern of trade in live animals and statutory obligations in respect of animal health and welfare in the operation of their enterprises.

### Avian Flu

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland what precautionary measures have been put in place to prevent the spread of the avian influenza virus to Northern Ireland. [11127]

**Angela E. Smith:** If there is an outbreak of disease in an exporting country DARD takes appropriate emergency safeguard action in accordance with Community legislation. This may include a ban on imports of animals and animal products from all, or parts, of that country.

Safeguard measures in relation to Avian influenza (AI) were put in place for affected Asian countries in January 2004 and have since been extended to 30 September 2005. Restrictions were placed on South African imports in August 2004 and have now been extended to 31 December 2005.

The situation in affected countries is kept under review and controls on imports are modified in line with community decisions. Safeguard measures are currently in place to ban or restrict imports of animals, meat and other products of susceptible species in respect of highly pathogenic Avian influenza (HPAI) in Cambodia, Indonesia, Laos, Malaysia, Pakistan, the People's Republic of China, including the territory of Hong Kong, North Korea, Thailand, Vietnam and South Africa.

All poultry meat and birds imported into the EU from third countries must enter at designated border inspection posts where they are subject to veterinary inspections. All consignments are subject to documentary and identity checks. These checks ensure that these import conditions are met. Northern Ireland

has no border inspection posts approved to accept live poultry, although we can accept certain categories of frozen and chilled products for human consumption.

WHO is carefully monitoring the situation in South East Asia with regards to human cases of the disease. Northern Ireland maintains close links with the Department of Health and the Health Protection Agency in England in order to ensure we have up to date information on global developments.

Since the SARS outbreak in early 2003, surveillance for 'flu' and 'flu-like' illnesses is carried out throughout the year by a network of 24 GP spotter practices. These GPs are requested to obtain appropriate clinical samples for laboratory analysis from patients presenting with clinical features of 'flu', particularly if there are links with South East Asia.

### Bovine TB

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland how many cattle herds in Northern Ireland were placed under movement restrictions as a result of bovine TB during *(a)* 2003 and *(b)* 2004 in each of the six counties. [11126]

**Angela E. Smith:** During 2003 and 2004, there were 12,184 and 13,572 cattle herds placed under movement restrictions as a result of bovine TB. The distribution of movement restrictions is not available by county. The increase in herd restrictions in 2004 reflects the measures introduced to deal with herds whose test had not taken place by the due date. There is clear evidence that the incidence of TB in Northern Ireland is decreasing.

### Child Support Agency

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what percentage of Child Support Agency (CSA) cases in Northern Ireland were being calculated under the new system for CSA payments on 1 July. [11356]

**Mr. Hanson:** The percentage of child support cases in Northern Ireland being assessed on the new computer system (CS2) under the new rules as of 1 July 2005 is 29.4 per cent. A further 17.7 per cent. are also being processed on the new system. However, these cases have been assessed using 'old scheme' legislation and will be maintained for a transitional period until such times as Ministers decide to convert all remaining 'old scheme' cases to the 'new rules'.

### Common Agricultural Policy

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland how much money was spent within the delivery element of the Department of Agriculture and Rural Development in the last year for which figures are available; and what percentage of the Department's total expenditure was accounted for by common agricultural policy payments to individual farmers. [11118]

**Angela E. Smith:** The latest financial year for which audited accounts are available is 2003–04.

It has been assumed that the delivery element represents expenditure which is not classified as administration in estimates. On this basis expenditure on the delivery element totalled £354.2 million.

Total expenditure by the Department in 2003–04 amounted to £471.2 million. The total common agricultural policy expenditure amounted to £205.8 million, giving a percentage of 43.7 per cent. The breakdown of this expenditure between individual farmers and other recipients is not readily available and could be obtained only at disproportionate cost.

### Departmental Staff

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland how many days Department of Agriculture and Rural Development staff took off as sick leave on average in the last year for which figures are available. [11119]

**Angela E. Smith:** The last year for which official figures are available is the 2003–04 financial year and only relates to 3,875 non-industrial staff employed by DARD. During this period the statistics indicate that staff in the Department of Agriculture and Rural Development took on average 12.4 days sick absence per staff year. DARD is currently in the process of obtaining official figures for circa 600 industrial staff, but these will not be available until later in the year.

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland what salary is paid to the *(a)* Permanent Secretary and *(b)* each of the Deputy Secretaries within the Department for Agriculture and Rural Development; and what level of expenses each received in 2004–05. [11121]

**Angela E. Smith:** The salary, including performance pay, of the Permanent Secretary and the Deputy Secretaries is published annually in the resource accounts of the Department of Agriculture and Rural Development. The accounts for the 2004–05 financial year have not yet been published. They will be submitted for audit by 29 July 2005 and laid before Parliament by 31 October 2005.

As the salary information requested will be the subject of future publication it falls within the scope of Section 22 of the Freedom of Information Act 2000. I am therefore unable at this time to provide you with salary details for 2004–05.

The only expenses paid to the Permanent Secretary and the Deputy Secretaries were for travel and subsistence. The following amounts were paid to the relevant officers during 2004–05.

£

| *Name* | *Title* | *Travel and subsistence expenses 2004–05* |
|---|---|---|
| Mr. P. Toal | Permanent Secretary | 2,219.54 |
| Mr. G. Lavery | Deputy Secretary | 323.60 |
| Mr. R. Houston | Deputy Secretary | 2,647.29 |
| Mr. T. McCusker | Deputy Secretary | 4,934.32 |
| Mr. R. McClenaghan | Deputy Secretary | 3,058.21 |
| Dr. G. McIlroy | Deputy Secretary | 0 |

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland how many people are employed within the Department for Agriculture and Rural Development; and what the total wages bill was in 2004–05. [11122]

**Angela E. Smith:** At 31 March 2005 a total of 4,286 staff were employed by the Department for Agriculture and Rural Development. The total wages bill for 2004–05 was £108,653,000.

### Driving Tests

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland how many *(a)* passes and *(b)* failures of driving tests there were in each of the test centres within Northern Ireland in each of the last five years. [11117]

**Angela E. Smith:** The number of driving test *(a)* passes and *(b)* failures at each of the Driver and Vehicle Testing Agency's centres is provided in the following table:

| Centre | 2000 | | 2001 | | 2002 | | 2003 | | 2004 | | 2005 to date | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Pass | Fail | Pass | Fail | Pass | Fail | Pass | Fail | Pass | Fail | Pass | Fail |
| Armagh | 774 | 655 | 678 | 741 | 718 | 649 | 758 | 642 | 707 | 536 | 570 | 484 |
| Ballymena | 1,108 | 1,130 | 1,041 | 1,096 | 1,147 | 1,315 | 1,194 | 1,549 | 1,395 | 2,051 | 744 | 997 |
| Belfast Balmoral | 1,879 | 2,889 | 1,743 | 2,517 | 1,578 | 3,055 | 1,818 | 3,138 | 1,075 | 2,248 | 631 | 1,121 |
| Belfast Castlereagh | 1,589 | 1,905 | 1,622 | 1,883 | 1,472 | 2,008 | 1,534 | 2,229 | 990 | 1,715 | 664 | 1,020 |
| Coleraine | 1,270 | 1,123 | 1,196 | 1,235 | 1,242 | 1,145 | 1,531 | 1,620 | 1,205 | 1,375 | 790 | 833 |
| Cookstown | 1,575 | 1,128 | 1,385 | 1,648 | 1,848 | 1,867 | 1,839 | 2,029 | 2,069 | 1,901 | 1,019 | 851 |
| Craigavon | 1,126 | 1,091 | 1,060 | 1,335 | 1,050 | 1,255 | 1,211 | 1,504 | 1,186 | 1,088 | 668 | 568 |
| Downpatrick | 1,052 | 620 | 1,079 | 708 | 1,063 | 689 | 1,271 | 878 | 1,244 | 650 | 612 | 443 |
| Enniskillen | 897 | 406 | 875 | 434 | 851 | 480 | 998 | 496 | 861 | 645 | 544 | 375 |
| Larne | 1,653 | 1,274 | 1,412 | 1,731 | 1,447 | 1,965 | 1,408 | 1,982 | 1,071 | 1,728 | 812 | 1,182 |
| Lisburn | 1,099 | 847 | 1,025 | 1,039 | 901 | 1,160 | 1,150 | 1,411 | 804 | 1,285 | 577 | 978 |
| Londonderry | 1,730 | 1,331 | 1,375 | 1,687 | 1,533 | 1,801 | 1,607 | 1,889 | 1,339 | 1,866 | 788 | 1,196 |
| Newry | 1,238 | 893 | 1,116 | 1,066 | 1,228 | 1,190 | 1,332 | 1,071 | 1,105 | 846 | 866 | 639 |
| Newtownards | 1,555 | 1,007 | 1,541 | 1,179 | 1,507 | 1,303 | 1,602 | 1,384 | 1,461 | 1,329 | 1,042 | 915 |
| Omagh | 1,024 | 796 | 976 | 961 | 1,025 | 1,012 | 1,244 | 977 | 1,233 | 977 | 648 | 492 |

### Dyslexia

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland how much has been allocated to each education and library board to implement the Taskforce Group report proposals on dyslexia for *(a)* 2004–05, *(b)* 2005–06 and *(c)* 2007–08; and what assessment he has made of the use to which such resources have so far been put. [11606]

**Angela E. Smith:** Additional earmarked allocations to the education and library boards for pupils with dyslexia were £60,000 per board in 2004–05 and £136,000 per board in 2005–06. This represents a total investment of £980,000 over the two years. It is planned to make further funding available in 2006–07 and 2007–08, but exact allocations for those years have yet to be determined.

The boards are asked to monitor this expenditure and to provide reports to the Department of Education on a six monthly basis. To date enhanced support, through the peripatetic and educational psychology services, has enabled waiting times to be reduced and increased numbers of children to be supported. Training for teachers in identification techniques and teaching strategies has also been extended.

### Education and Library Expenditure

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will apply equality impact assessments to the recently announced changes in expenditure by the education and library boards, with particular reference to funding for English as an additional language support. [7048]

**Angela E. Smith:** The Department of Education will not be carrying out equality impact assessments in relation to any of the recently announced cutbacks in expenditure by the education and library boards, nor the reductions in funding made by the education and library boards for English as an additional language support.

Boards must consider carefully any reduction in their support for EAL Services as the additional funding provided to schools for this purpose through the common funding Formula is intended to supplement and not to replace board funding. Boards must be satisfied that the services they provide are sufficient to meet the needs of EAL pupils in their area. The change in EAL policy by the board may adversely affect children whose first language is not English and who are of a different race and could therefore place the board in contravention of section 75 of the Northern Ireland Act 1998. Boards are public authorities in their own right under the terms of the Act. Boards must advise the Department on the action they are taking to ensure the provision of adequate EAL services in their area.

### Education Finance

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how the recently announced additional funding of £12.5 million to education is to be divided between education and library boards; for what specific purposes within each Board the funding has been allocated; what the timescale for the availability of this funding is; and if he will make a statement. [11495]

**Angela E. Smith:** Consideration is currently being given to the arrangements for distribution of the £12.5 million to the five Education Boards and the other education authorities. The funding will be allocated to special education, school meals, school maintenance, and to help deal with the impact of falling pupil numbers and support the Boards in developing shared services. It is planned to notify allocations for special education, school meals and maintenance before the beginning of the next school year. Allocations in relation to falling pupil numbers and shared services will be conditional on Boards bringing forward robust plans.

### Electricity Expenditure

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland what the average amount spent by a household in Northern Ireland on electricity was in the last two years. [11177]

**Angela E. Smith:** The average household electricity bill in Northern Ireland for the year ended 31 March 2004 was £410, and that for the year ended 31 March 2005 was £412.

The Department of Enterprise, Trade and Investment is continuing to work towards securing EU State aid approval of a proposed Government intervention aimed at reducing electricity prices. As an interim measure, £8.8 million of the available funding has been allocated to assist with energy efficiency measures which will have the effect of an average 1.5 per cent. reduction in electricity tariffs for all customers in the 2005–06 tariff year.

### Fuel Poverty

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what steps he is taking to tackle fuel poverty in Northern Ireland. [11293]

**Mr. Hanson:** I refer the hon. Lady to the answer I gave the hon. member for Belfast, North (Mr. Dodds) on 13 June 2005 in *Official Report*, column 4150W.

### Public Sector Housing

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland what the Government's house building target is for the South Antrim constituency in the public sector over the next five years. [11116]

**Mr. Hanson:** In the South Antrim constituency the public sector house building targets are as follows:

| | *Schemes* | *Number of houses* |
|---|---|---|
| 2005–06 | 7 | 73 |
| 2006–07 | — | — |
| 2007–08 | 2 | 18 |
| 2008–09 | 2 | 16 |
| 2009–10 | 7 | 57 |

### Reading

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what assessment he has made of the use of synthetic phonics in the teaching of reading in Northern Ireland's schools. [11342]

**Angela E. Smith:** The Belfast Education and Library Board has developed and trialled a linguistic phonics programme (which is similar to synthetic phonics) within schools its area in the period 2003 to 2005. Feedback from the initial study of the programme was positive and in 2005–06, as part of the Northern Ireland literacy strategy, it is being expanded across other board areas.

### Secondary Education

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what the cost has been to date of the review of post-primary education, including the *(a)* Burns and *(b)* Costello report; and if he will make a statement. [11333]

**Angela E. Smith:** The Post-Primary Review was completed on 26 January 2004 when the Government announced they had accepted and were implementing the recommendations of the Post-Primary Review Working Group.

A total of £1,464,000 has been spent on the post-primary review as follows:

*(a)* £830,000 on research, the Post-Primary Review Body costs and the publication of the Burns report;

*(b)* £419,000 on consultation about the recommendations of the Burns report; and

*(c)* £215,000 on costs of the Post-Primary Review Working Group and the publication and distribution of the Costello report.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many responses were received by the Department of Education in its consultation on admissions criteria; when he expects the analysis of responses to be concluded; and what the cost has been to date of the admissions criteria consultation exercise. [11334]

**Angela E. Smith:** The consultation on new admissions arrangements closed on 30 June and all the responses received are currently being processed. It is not yet possible to confirm the total number of responses but this figure should be available shortly. Analysis of responses will take place over the summer months and we will be endeavouring to complete this as soon as possible to inform decisions on the way forward. I will write to the hon. Member with further information as soon as this is available.

The cost of the consultation to date is £71,777.

### Sewerage

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what improvements are planned for the sewerage infrastructure of the Laurelvale and Tandragee area. [10356]

**Mr. Woodward:** The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Lady in response to this question.

*Letter from Mrs. Katharine Bryan to Mrs. Iris Robinson dated 11 July 2005.*

You recently tabled a Parliamentary Question asking the Secretary of State for Northern Ireland what improvements are planned for the sewerage infrastructure of the Laurelvale and Tandragee area. (10356). I have been asked to reply as this issue falls within my responsibility as Chief Executive of Water Service.

The existing wastewater treatment works at Tandragee is overloaded and does not meet the regulatory discharge standard set by the Environment and Heritage Service. Water Service is therefore taking forward a major project to rationalise wastewater treatment in the Tandragee area. This includes the provision of a new wastewater treatment works at Tandragee and the closure of a number of smaller wastewater treatment works including Laurelvale. The wastewater from these smaller works will be pumped to the new Tandragee Works for treatment. The new treatment works has been designed to cater for future needs in the area up to the year 2028. Work on the project commenced in April 2005 and is due for completion in March 2007, at an estimated cost of £8.3 million.

Water Service is presently carrying out a Drainage Area Study on the Tandragee sewerage network to identify any improvements required to meet future capacity and environmental standards. The study is nearing completion and it is anticipated that it will recommend improvement works to the value of approximately £1 million. However, due to other priorities, arising mainly from the need to achieve compliance with EC Directives, it is unlikely that any improvement work on the sewerage network could commence before 2010.

### Speech Therapy

**Dr. Alasdair McDonnell:** To ask the Secretary of State for Northern Ireland what assessment he has made of the provision of speech therapy support to children with special educational needs at Belvoir Park Primary School in Belfast South; and if he will take steps to improve the provision of such support. [11280]

**Angela E. Smith:** Officials from the Department of Education have been in contact with the South Eastern Education and Library Board, in which area Belvoir Park Primary School is situated. The Board is aware of the problem and has written to the Eastern Health and Social Services Board, expressing deep concern and requesting an early meeting. I have asked to be informed of the outcome of that meeting.

### Staff Development

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland how much the Department of Education has spent on implementing its policy of staff development and performance review. [11368]

**Angela E. Smith:** My Department has spent £1.7k on implementing the Performance Review and Staff Development (PRSD) scheme which will apply to all teachers in grant-aided schools from the 1 September 2005. This covered the cost of training all principals, nominated school governors and the appointment, training and employment of the external advisors to provide quality, objective and focussed advice to school governors in the review of the principal.

### Teachers

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many teachers are employed in *(a)* Catholic maintained schools and *(b)* non-Catholic maintained schools; and what the average gross salary paid to teachers in each category was for the last year for which figures are available. [11352]

**Angela E. Smith:** There are 7,063 permanent teachers currently employed in Catholic maintained schools and 10,142 in non-Catholic maintained schools. The average gross salary for each category for the 2004–05 financial year was £221,287,678.38 for Catholic maintained schools and £306,271,691.36 for the non-Catholic maintained schools.

### Transfers Tourist Board

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland pursuant to his response of 13 June 2005, *Official Report*, column 92W, on the Northern Ireland Transfers Tourist Board, if he will break down the totals by district council area. [11072]

**Angela E. Smith:** The following table gives the total Northern Ireland Tourist Board (NITB) grant assistance paid to tourism related businesses in each Northern Ireland council area since 1999 (financial years).

It should also be noted that financial assistance was provided to accommodation projects by the NITB up until March 2002 however since April 2002 this assistance has been administered through Invest NI.

### Waste Management

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland what waste management options have been placed before councils by the Government. [11128]

**Angela E. Smith:** The Department of the Environment has recently published guidance on waste management options for municipal and non-municipal waste in Northern Ireland. The report on Best Practicable Environmental Option for Waste Management follows extensive stakeholder engagement involving District Councils and other stakeholders as part of the Waste Management Strategy review.

A broad range of options were considered comprising different combinations of technologies to divert waste from landfill including recycling, composting, anaerobic digestion, mechanical biological treatment, thermal treatment and advanced thermal treatment (pyrolysis and gasification). These options were assessed against key decision criteria of feasibility, environmental impact, cost and social impact.

The findings provide a framework for assessing the preferred combination of different technologies to meet targets on landfill diversion at 2020, in order to support progress on planning, procurement and funding for a new waste management infrastructure for Northern Ireland. The framework is intended to guide District Councils in the development of their Waste Management Plans and infrastructure procurement, while not constraining local choices to meet challenging Landfill Directive targets.

## CONSTITUTIONAL AFFAIRS

### Claim Management Companies

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the extent to which claim management companies are adhering to the Claims Standards Council's draft code. [11422]

**Bridget Prentice:** None. The Claims Standards Council (CSC) has submitted its draft code of practice to the Office of Fair Trading for approval. We will work with the CSC to ensure that compliance with the code is effectively monitored by them.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what steps she has taken to assess the effectiveness of the self-regulation of claim management companies. [11425]

**Bridget Prentice:** The Government have announced that they will introduce measures in the Compensation Bill to enable claims management companies to be effectively regulated.

### Conditional Fee Arrangements

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what plans she has to reform the rules governing the procedure for conditional fee arrangements. [11424]

**Bridget Prentice:** We published a consultation paper "Making Simple CFAs a Reality" in June 2004. We have considered the responses made and we plan to publish a report of the conclusions of the consultation by autumn 2005.

### Contingency Fees

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what research she has *(a)* commissioned and *(b)* carried out into the (i) effectiveness and (i) impact of contingency fees. [11423]

**Bridget Prentice:** The Better Regulation Task Force in its report, "Better Routes to Redress" recommended that research should be carried out into the potential impact and effectiveness of contingency fees. The Government rejected this recommendation. They believe that Conditional Fee Agreements (CFAs) should remain the principal form of private funding in the civil justice system and that the primary focus should remain on making CFAs work better rather than exploring the potential impact of allowing contingency fees beyond their existing use.

### Correspondence

**Mr. Winnick:** To ask the Minister of State, Department for Constitutional Affairs when she will reply to the letter from the hon. Member for Walsall, North of 26 May, reference 184373–1. [10728]

**Bridget Prentice:** My Department wrote to my hon. Friend on 1 June saying we would reply by the 29 June. I replied on 30 June one day late. For that I apologise. I understand my hon. Friend received the reply on 6 July.

### Criminal Defence Service

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what percentage of costs on average were claimed in applications for costs by the Criminal Defence Service in each of the last 10 years. [9831]

**Bridget Prentice:** The Criminal Defence Service (CDS) does not make an application for costs in criminal defence cases. Under the Criminal Defence Service (Recovery of Defence Costs Orders) Regulations 2001, it is the responsibility of the court to consider making a Recovery of Defence Costs Order (RDCO) at the conclusion of every case heard in the higher courts.

### Election Turnout

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs what the average turnout in *(a)* local, *(b)* general, *(c)* Welsh Assembly, *(d)* Northern Ireland Assembly, *(e)* Scottish Parliament, *(f)* London Assembly and *(g)* European Parliament elections was in each relevant year since 1975. [9767]

**Ms Harman:** The average turnout in general, Welsh Assembly, Northern Ireland Assembly, Scottish Parliament, London Assembly and European Parliament elections in each year since 1975 is set out as follows:

*General election turnout from 1945–2001*

| | *England* | *Wales* | *Scotland* | *Northern Ireland* | *United Kingdom* |
|---|---|---|---|---|---|
| 1945 | 73.4 | 75.7 | 69.0 | 67.4 | 72.8 |
| 1950 | 84.4 | 84.8 | 80.9 | 77.4 | 83.9 |
| 1951 | 82.7 | 84.4 | 81.2 | 79.9 | 82.6 |
| 1955 | 76.9 | 79.6 | 75.1 | 74.1 | 76.8 |
| 1959 | 78.9 | 82.6 | 78.1 | 65.9 | 78.7 |
| 1964 | 77.0 | 80.1 | 77.6 | 71.7 | 77.1 |
| 1966 | 75.9 | 79.0 | 76.0 | 66.1 | 75.8 |
| 1970 | 71.4 | 77.4 | 74.1 | 76.6 | 72.0 |
| 1974[1] | 79.0 | 80.0 | 79.0 | 69.9 | 78.8 |
| 1974[2] | 72.6 | 76.6 | 74.8 | 67.7 | 72.8 |
| 1979 | 75.9 | 79.4 | 76.8 | 67.7 | 76.0 |
| 1983 | 72.5 | 76.1 | 72.7 | 72.9 | 72.7 |
| 1987 | 75.4 | 78.9 | 75.1 | 67.0 | 75.3 |
| 1992 | 78.0 | 79.7 | 75.5 | 69.8 | 77.7 |
| 1997 | 71.4 | 73.5 | 71.3 | 67.1 | 71.4 |
| 2001 | 59.2 | 61.6 | 58.2 | 68.0 | 59.4 |

Comprehensive figures for local elections are not available centrally.

## Legal Aid

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how much was spent on administering the criminal legal aid system in each of the last 10 years. [9773]

**Bridget Prentice:** The information requested is not readily available and could be provided only at disproportionate cost. The Legal Services Commission's administration budget does not differentiate between administering the Criminal Defence Service and the Community Legal Service.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs (1) how many civil legal aid contracts awarded in each of the contract rounds since the enactment of the Access to Justice Act 1999 were terminated before the expiry of their term, broken down by region; and what the reasons for the termination were in each case; [9816]

(2) how many civil legal aid contracts awarded before July 2003 were terminated before the expiry of their term, broken down by region; and what the reasons for the termination in each case were. [9817]

**Bridget Prentice:** The number of civil legal aid contracts terminated before the expiring of their term since civil contracting was introduced in 2000, by region, is shown in the following table. Information on the termination of individual contracts is not held centrally by the Legal Services Commission (LSC). To investigate the reasons behind the termination of these contracts would involve considerable liaison with each regional office and could be achieved only at disproportionate cost to the LSC.

*Figures showing the number of civil legal aid contracts terminated before the expiring of their term since contracting was introduced in 2000, by region are given below. (Reference 9816/9817)*

| | Year terminated | | | | |
|---|---|---|---|---|---|
| *Region* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |
| West Midlands | 26 | 17 | 25 | 20 | 27 |
| South East | 37 | 27 | 57 | 53 | 13 |
| South West | 15 | 19 | 7 | 19 | 12 |
| Eastern | 4 | 13 | 27 | 6 | 3 |
| Wales | 37 | 15 | 22 | 9 | 1 |
| Yorks and Humberside | 16 | 6 | 19 | 17 | 8 |
| Merseyside | 11 | 1 | 18 | 9 | 16 |
| London | 52 | 19 | 20 | 17 | 3 |
| North West | 25 | 44 | 30 | 64 | 16 |
| North East | 16 | 12 | 11 | 24 | 9 |
| East Midlands | 18 | 10 | 6 | 10 | 2 |
| Total | 257 | 183 | 242 | 248 | 110 |

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs pursuant to the Answer of 27 June 2005, *Official Report*, columns 1331–2W, on legal aid/salaries, what the reasons were for the termination of the 104 active contracts which were terminated before the expiry of their term; and which regions they covered. [10009]

**Bridget Prentice:** Information on the termination of individual contracts is not held centrally by the Legal Services Commission (LSC). To investigate the reasons behind the termination of these contracts would involve considerable liaison with each regional office and could be achieved only at disproportionate cost to the LSC.

## National Archives

**Norman Baker:** To ask the Minister of State, Department for Constitutional Affairs if she will bring forward legislation to make it an offence to place forged documents in the National Archives. [10808]

**Bridget Prentice:** On 5 July the National Archives placed the following statement on its website:

"Reports in the press have questioned the authenticity of five documents within files FO 800/9868 and HS 8/944. The National Archives has taken these allegations extremely seriously. We commissioned an official forensic examination which has now concluded that these five documents are, indeed, forgeries. In the light of this, we are reviewing our own procedures and taking legal advice, with a view to taking further action."

It would be inappropriate to comment further at this time.

## Police Stations (Duty Solicitors)

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs whether she plans to change the number of duty solicitors at police stations. [8908]

**Bridget Prentice:** There are currently no plans to change the access of individuals held at police stations to free legal advice.

## Postal Voting

**Mr. Bone:** To ask the Minister of State, Department for Constitutional Affairs what the Department's policy is on all postal vote elections; and if she will make a statement. [9679]

**Ms Harman:** I refer the hon. Member to the reply I gave on 7 June 2005, *Official Report*, column 535W.

## Public Record Office

**Norman Baker:** To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the *(a)* integrity and *(b)* authenticity of documents held in the Public Record Office; and if she will make a statement. [10810]

**Bridget Prentice:** The National Archives has a duty to make its holdings publicly available under the Public Records Act 1958 but has put in place a range of security measures to safeguard their integrity and authenticity. In the light of a current case, these measures are being reviewed.

## Taxis

**David T.C. Davies:** To ask the Minister of State, Department for Constitutional Affairs how much the Department has spent on taxis in each of the last five years. [6500]

**Bridget Prentice:** It is not possible for the Department to provide full detailed information requested on how much was spent on taxis in each of the last five years without incurring disproportionate cost.

The Department has published rules for official travel in its staff handbook and all travel complied with the requirements of the Civil Service Management Code.

### Voter Registration

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs what research she has *(a)* conducted and *(b)* evaluated into the effect of individual registration on the electoral roll. [9766]

**Ms Harman:** The Electoral Commission has published a number of reports covering this issue. These include "The Electoral Fraud (Northern Ireland) Act 2002: An assessment of its first year in Operation" (December 2003) and "Statistical analysis of the Northern Ireland electoral register" (December 2003). Since the publication of these reports, the Commission has also periodically published updated statistical analysis. The most recent analysis was published in May 2005 and charts the impact of the Electoral Registration (Northern Ireland) Act 2005. The issue is also covered in the Commission's 2003 report "The Electoral Registration Process". All of these publications are available on the Electoral Commission's website.

This issue was also discussed in the Northern Ireland Affairs Select Committee report Electoral Registration in Northern Ireland (December 2004), and the Office of the Deputy Prime Minister and Constitutional Affairs Select Committee report "Electoral Registration" (March 2005).

## EDUCATION AND SKILLS

### Academic Research (Commercial Exploitation)

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills how many spin-offs from English universities there were in each year between 1994 and 2004; and what proportion of the total income of English universities she estimates was derived from the commercial exploitation of academic research in each of these years. [8036]

**Bill Rammell:** Information on spin-offs and income generated from the commercial exploitation of academic research is available from the Higher Education-Business and Community Interaction survey (HE-BCI) carried out by the Higher Education funding Council for England (HEFCE). Such information was not available before 2001. The first set of data to be published was for the academic year 2001/02. Data currently available are as set out in the following table:

*Income (£000)*

| | *2001/02 AY* | *2002/03 AY* |
|---|---|---|
| Contract research | 267,598 | 237,904 |
| Consultancy | 93,695 | 125,823 |
| Licensing income | 22,136 | 15,329 |
| Sale of spin-off equity | 10,425 | 13,490 |
| Number of spin-offs | 159 | 158 |

*Source:*
HE-BCI Survey—published figures

There is no formal requirement on Higher Education Institutions (HEIs) to provide information for this survey. The data in the previous table are therefore not necessarily a complete reflection of the number of spin-offs and income generated. Information on total income is available from the Higher Education Statistics Agency Financial Statistical Return as set out in the following table:

*HEFCE funded HEIs*

| | *Total income (£000)* |
|---|---|
| 2001/02 AY | 11,833,707 |
| 2002/03 AY | 12,722,703 |

*Source:*
HESA Financial Statistical Return

### Academies

**John McDonnell:** To ask the Secretary of State for Education and Skills (1) what governance arrangements will be used for new 16 to 19 academies; [10491]

(2) whether the new 16 to 19 Academy based on Brunel University's Uxbridge Campus will be *(a)* a school and *(b)* a further education college; and when she expects it to open for enrolments; [10490]

(3) whether the London West Learning and Skills Council Strategic Area Review took account of the plans to open a 16 to 19 academy based on Brunel University's Uxbridge campus; and whether the review recommended the opening of such an Academy. [10489]

**Jacqui Smith:** 16–19 academies will be established under the procedures for setting up new further education colleges as specified in the Further and Higher Education Act 1992. These academies will be subject to the same governance arrangements as for existing further education colleges, but tailored to reflect the ethos of an academy and the presence of a sponsor. Tailoring governance arrangements in this way is already established practice for a number of colleges in the FE sector, for example sixth form colleges. The governance arrangements for the academies will also need to take account of existing statutory requirements and will need to satisfy my right hon. Friend the Secretary of State before approval is given to the proposal.

If approved by the Secretary of State, the new Brunei HSBC Education Trust Academy will be legally established as a further education college but will reflect the ethos of an academy. It would open in September 2008. The academy would provide education for 800 16–19 year-olds drawing from the Learning and Skills Council London West area and beyond. It would be particularly aimed at those who might otherwise not have stayed on for post 16 education, including students from disadvantaged areas or who have achieved less than they might. (10490)

The London West Learning and Skills Council Strategic Review did not coincide with the proposal to establish the Brunel HSBC Education Trust 16–19 Academy. However, initial consultation by the sponsors involved Hillingdon LEA, West London LSC and the national LSC before the feasibility phase for the project began in December 2004.

The West London LSC are active members of the Brunei academy project board and chair the academy forum which is seeking the views of local secondary schools and FE Colleges on the proposal, on an on-going basis as the proposal is developed. The academy

sponsors are very keen to work closely with local schools and to provide a wider service to the community. Post 16 participation in Hillingdon is one of the lowest in West London and the academy will help to address this weakness. Further research into the need for places in the London West area, and the potential impact such an academy may have on local providers, has been commissioned by the local LSC and this should be available in the autumn for presentation to both the LSC and Ministers before a decision on the academy is made.

**Mr. Randall:** To ask the Secretary of State for Education and Skills (1) who has been consulted by *(a)* her Department and *(b)* the Learning and Skills Council on plans for a 16 to 19 Academy based on Brunel University's Uxbridge Campus; [10214]

(2) how much funding *(a)* her Department and *(b)* the Learning and Skills Council have allocated to the feasibility study into plans for a 16 to 19 academy based on Brunel University's Uxbridge Campus; [10213]

(3) what consultative arrangements are required to be in place when a new 16 to 19 academy is planned. [10212]

**Jacqui Smith** *[holding answer 7 July 2005]:* The project to establish a 16–19 Academy based on Brunel University's Uxbridge Campus is currently in its feasibility stage. Initial consultation with post-16 education providers in the area is already under way through a West London Learning and Skills Council (LSC) chaired Academy Forum. Formal and wider consultation on the proposal to establish the Academy will begin during July 2005 for three months involving organisations who would normally be consulted during the establishment of a Further Education College and an Academy. This will include local schools and FE colleges, the West London LSC, the national LSC, Hillingdon LEA and other LEAs in the areas surrounding Uxbridge. In addition details of the proposal will be published in a local newspaper. The Academy sponsors are very keen that it should develop a good relationship with local schools and colleges.

Academy projects in feasibility receive funding from the Department for Education and Skills depending on the expected length and complexity of the feasibility phase. The Learning and Skills Council is not involved in providing Academy feasibility funding. A final feasibility budget for the Brunel HSBC Education Trust Academy is likely to be decided shortly but is currently estimated to be £332,000. This will cover project management, consultation, legal and other costs until completion of the feasibility phase. This started in December 2004 and should finish in spring 2006.

Academies for 16 to 19-year-olds will legally be Further Education Colleges but with an Academy ethos. The consultation will follow the statutory requirements for establishing a Further Education college under section 51 of the Further and Higher Education Act 1992. Consultation requirements also include compliance with the Education (Publication of Draft Proposals and Orders) (Further Education Corporations) (England) Regulations 2001—S.I.2001/782. The responses to consultation will be included in the detailed information to both the national LSC and Ministers before a decision is made on the establishment of the Academy.

### Access to Learning Fund

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what resources she has set aside for the Access to Learning Fund for each year between 2005 and 2008. [10045]

**Phil Hope:** The funds set aside for the Access to Learning Fund for each year between 2005 and 2008 are set out in £ millon's in the following table.

| | *£ million* |
|---|---|
| 2005/06 | [1,2]66.8 |
| 2006/07 | [1]65.8 |
| 2007/08 | [1]57.9 |

[1] The above figures include DfES'/HEFCE's contribution to administration. HEFCE's contribution for 2006/07 and 2007/08 is estimated and is based upon the council's actual contribution of £1.5 million for 2005/06, uprated by inflation (2.5 per cent.) for each year. Higher education institutions may use up to 3 per cent. of their total allocation for administrative purposes.
[2] The figure for 2005/06 includes £1.85 millon transferred from the Department of Health (contribution for NHS means tested bursary recipients).

### Adoption

**John Hemming:** To ask the Secretary of State for Education and Skills what restrictions on adopting children apply to people who are overweight. [7878]

**Maria Eagle:** There are no blanket restrictions on people who are overweight from applying to adopt a child. The adoption agency has a duty to children needing adoptive families to satisfy itself that the prospective adopter has a reasonable expectation of continuing to enjoy good health, and that they have sufficient health and vigour to meet the many varied demands of a child throughout his childhood and into adulthood.

A person's weight could be a contributory factor to the state of his health, either now or in the future, and if so this will be brought out in his medical report produced by his GP. If there is any medical condition which might affect the prospective adopter's capacity to care for a child, this is taken very seriously and explored thoroughly to obtain as much information as possible to enable a decision to be made on his suitability to adopt a child. If an adoption agency decides that it does not propose to approve the prospective adopter, the reasons must be sound and defensible. The prospective adopter has the right to challenge that qualifying determination by either making representations to the adoption agency or applying to the independent review panel to review his case.

### Adult Education

**Mr. Marsden:** To ask the Secretary of State for Education and Skills (1) what discussions she has had with *(a)* the Association of Colleges, *(b)* unions representing staff in the further education sector and *(c)* other concerned bodies about Learning and Skills Council funding allocations for adult education for 2005–06; [10739]

(2) what discussions she has had with the sector skills councils about Learning and Skills Council funding allocations for adult education for 2005–06. [10740]

**Bill Rammell:** I last met with the Association of Colleges (AoC) on 27 June 2005 and with NATFHE on 23 June 2005 when we discussed further education, including adult education, funding issues among other matters. I expect to meet again with the AoC later this month and with NATFHE later in the year. I, and my ministerial colleagues, have also discussed funding issues and concerns with a number of other organisations and groups and with individual colleges and providers. I recently held two meetings with hon. and right hon. Members to discuss the further education funding settlement for 2005/06. Ministers are due to have met with all sector skills councils by the end of this year and will be happy to discuss any funding issues that may arise.

**Helen Goodman:** To ask the Secretary of State for Education and Skills what criteria are used for appraising adult education colleges. [10710]

**Phil Hope:** All providers that are funded by the Learning and Skills Council (LSC), including adult education colleges, are responsible for the effective management of their own processes for strategic planning, self-assessment and quality improvement. Local LSCs undertake an annual planning review with those providers that have agreed a three-year development plan with the LSC. These review discussions focus on the provider's contribution to the local LSC's plan and agreed priorities, progress towards achieving agreed strategies and performance measures, and the management of associated risks.

Adult education colleges are inspected on a four-year cycle using the Common Inspection Framework for all post-16 providers. This framework, published by Ofsted and the Adult Learning Inspectorate, is based on standard principles for inspection used across Government.

### Advertising

**David T.C. Davies:** To ask the Secretary of State for Education and Skills how much the Department spent on advertising in each of the last five years. [10254]

**Maria Eagle:** My Department's expenditure on advertising for the last five years is set out as follows:

| | *Advertising spend (£ million)* |
|---|---|
| 2000–01 | 23.9 |
| 2001–02 | 16.6 |
| 2002–03 | 11.3 |
| 2003–04 | 17.0 |
| 2004–05 | 11.8 |

*Note:*
All expenditure is exclusive of VAT.

### Aim Higher

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what the funding will be for Aim Higher in 2006–07. [10048]

**Bill Rammell:** The funding for Aim Higher in 2006–07 is set out in the following table:

| *Funding source* | *Amount (£000)* |
|---|---|
| DfES | 77,000 |
| HEFCE[1] | 10,000 |
| Department of Health | 600 |
| Total | 87,600 |

[1] To be confirmed.

This includes money for Aim Higher publicity, evaluation, and national projects as well as funds distributed to local partnerships.

### Apprenticeships

**Mr. Hood:** To ask the Secretary of State for Education and Skills how much funding has been allocated by the Learning and Skills Council to apprenticeships for *(a)* 16 to 18 and *(b)* over 19-year-olds in 2005–06. [8857]

**Phil Hope:** This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to my hon. Friend with this information and a copy of his reply will be placed in the House Library.

*Letter from Mark Haysom to Mr. Jimmy Hood, dated 8 July 2005:*

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills, which has been referred to the Learning and Skills Council (LSC) by Phil Hope, regarding how much funding has been allocated by the Learning and Skills Council to apprenticeships for *(a)* 16 to 18-year-olds and *(b)* over 19-year-olds for 2005–06".

For 16 to 18-year-olds, we are allocating £597,184,711. For those aged 19 and over, £265,763,060. We are also allocating £221,915,602 for the pre-apprenticeship Entry 2 Employment programme.

The figures are slightly different for the academic year, which forms the basis of our contracts with providers. For 16 to 18-year-olds, the amount is £594,410,328, for those aged 19 and over, £266,738,550 and for Entry 2 Employment, £226,906,476.

I trust this is helpful.

**Mr. Kidney:** To ask the Secretary of State for Education and Skills if she will introduce an additional apprenticeship facility for young people who cannot meet the learning requirement of the full apprenticeship but who want to work and engage in flexible learning. [10433]

**Phil Hope:** The content of each apprenticeship framework is designed by the business led Sector Skills Councils in the context of a blueprint agreed between the Department and key stakeholders. Achievement of the full framework is intended to be the minimum requirement for qualified status at either Level 2 or Level 3 within a particular industry. The basic elements of the framework,—NVQ, technical certificate, key skills and any other qualifications designated by the sector—form that minimum requirement and are intended to provide as much flexibility as possible while maintaining quality and standards across industries. However, for some young people initial assessment will indicate they may not be able to complete all elements of the framework. A number of other programmes may be suitable for young people in this position. In particular for 16 to 18-year-olds we are piloting a programme to encourage young people in jobs without training to take up learning opportunities. The programme will start in April 2006. For those over 19 and without either basic

skills or a first Level 2 qualification we are putting in place the National Employer Training programme to deliver high quality flexible qualifications in the workplace.

**Mr. Kidney:** To ask the Secretary of State for Education and Skills what assessment she has made of the drop-out rate for apprenticeships; and what causes she has identified. [10434]

**Phil Hope:** The Learning and Skills Council measures the number and proportion of young people who complete all the elements of their apprenticeship framework. The completion rate in academic year 2002/03 was 27 per cent., so far in 2004/05 the rate is 35.7 per cent. To further improve completion we have adopted a Performance Indicator for 2007/08 to increase the number of completions by 75 per cent. from 43,000 to 75,000. To achieve this, the Department and the LSC will continue to research and address the reasons for non-completion, which will vary from sector to sector and from employer to employer. Overall, the main reasons that have been identified are: poor quality learning provision; inappropriate or inflexible frameworks, or elements of frameworks; and inadequate initial assessment of apprentices' capabilities. We also have anecdotal evidence of young people not completing due to promotion at work. While this might be seen as a 'good' reason, we are keen that young people and their employers understand the value of completing the full framework, both to productivity and future employability. The LSC will continue with its programme to root out poor provision by withdrawing contracts where necessary. According to the Adult Learning Inspectorate in 2001–02 the level of inadequate provision was 60 per cent. In 2003–04 that had fallen to 34 per cent.

The content of apprenticeship frameworks are set by Sector Skills Councils within a blueprint set by the Department and other key stakeholders. This offers as much flexibility to sectors as possible while maintaining overall standards across industries. Effective initial assessment remains crucial to ensuring that young people have a realistic chance of completing their programme. Providers are judged on the systems they have in place to do this. We will also be focusing our future marketing activity on ensuring that apprenticeships and their value are better understood.

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills how many school leavers are expected to take up apprenticeships in 2005–06 in *(a)* Lancashire and *(b)* Chorley. [9610]

**Phil Hope:** This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to my hon. Friend with this information and a copy of his reply will be placed in the House Library.

*Letter from Mark Haysom to Mr. Lindsay Hoyle, dated 8 July 2005:*

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills (which has been referred to the Learning and Skills Council LSC for a response) regarding how many school leavers are expected to take up apprenticeships in 2005–06 in *(a)* Lancashire and *(b)* Chorley.

LSC Lancashire does not generate this information, however Connexions does gather data on the intended destinations of all young people leaving school each summer. The data for summer 2005 would give the best indication of the numbers of school leavers expected to take up apprenticeships in 2005–06. LSC Lancashire has contacted Connexions Lancashire and they have provided the following data. The number of young people in Lancashire intending to take up an apprenticeship is 4,743 and of these, 284 will live in Chorley.

I trust this is helpful.

**Mr. Cameron:** To ask the Secretary of State for Education and Skills what the cost of modern apprenticeships and their successor schemes have been in each year since their introduction. [10770]

**Phil Hope:** Apprenticeships in England are funded through the work based learning for young people budget of the Learning and Skills Council. This budget covers Apprenticeships, Advanced Apprenticeships, NVQ Learning and Entry to Employment. The following table shows estimated spending by the LSC since it was established in 2001.

*£ million*

| *Academic year* | *Total WBL budget* | *Estimated apprenticeship spend* |
|---|---|---|
| 2001/02 | 673 | 467 |
| 2002/03 | 828 | 539 |
| 2003/04 | 791 | 560 |
| 2004/05 | 1,037 | 810 |

Before the LSC was established apprenticeships were funded by the Training and Enterprise Councils (TEC). Disaggregated data showing the amount of funding spent on apprenticeships from their work based learning for young people budget in this period is not available.

### Bursaries (EU Students)

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what advice the Office for Fair Access is seeking in respect of the obligations of institutions to make bursary provision available for EU students. [11502]

**Bill Rammell:** None. Institutions, not the Office for Fair Access, are responsible for deciding their bursary arrangements, including any obligations these may involve in respect of EU students.

### Chemistry

**Michael Gove:** To ask the Secretary of State for Education and Skills how many students sat A-level chemistry in *(a)* 2005 and *(b)* 1997. [10167]

**Jacqui Smith:** The information available on the number of students taking A-level chemistry can be found as follows.

| | *2004* | *1997* |
|---|---|---|
| 16 to 18-year-old A-level candidates | 240,810 | 231,334 |
| 16 to 18-year-old candidates taking chemistry | 32,130 | 36,429 |

*Notes:*

1. The information for this answer is derived from data collected for the School and College Achievement and Attainment Tables (formerly Performance Tables) that are published annually. The most recent information the department holds on A-level results is from 2004.
2. Ages are taken at the start of the academic year ie 31 August.

### Children's Workforce

**Annette Brooke:** To ask the Secretary of State for Education and Skills (1) what the position of educational psychologists will be under the proposed qualifications framework within the new children's workforce; [10332]

(2) what assessment she has made of the likely effects of the proposed review of the functions and contribution of educational psychologists on the numbers planning to train as educational psychologists in the 2006–07 academic year; [10333]

(3) what advice the Department provides on *(a)* funding and *(b)* training routes for prospective applicants for educational psychologists training; [10334]

(4) when she expects the proposed review of the functions and contribution of educational psychologists to be completed; [10335]

(5) what sources of funding are available to people seeking to train as educational psychologists; and what training opportunities are open to such people. [10345]

**Maria Eagle** *[holding answer 7 July 2005]:* It is the Department's intention that educational psychologists (EPs) will be included within the Single Qualifications Framework. These proposals were published in the Children's Workforce Strategy on 1 April and are currently the subject of a consultation period. We will await comments before a final decision is made about how we proceed.

Where individuals wish to train as an EP, we would normally point them to the websites of the British Psychological Society, http://www.bps.org.uk/, who are responsible for the accreditation of EP training courses and qualifications, and the Employers' Organisation, http://www.lg-employers.gov.uk, who currently administer, on behalf of the Local Government Association, a postgraduate EP Clearing House and Grant Scheme, funded from within the top-sliced Rate Support Grant provision allocated by the Office of the Deputy Prime Minister in accordance with recommendations of the LGA. There are a number of higher education institutions that currently run accredited EP courses, details of which can be obtained from either the BPS or the EO.

As announced by the hon. Minister for Children, in her written statement to Parliament on 1 February 2005, we expect that the bulk of the work involved in the planned review to be completed in 2005. Given the contract for the work has yet to be placed, it would be inappropriate to speculate as to the effect or outcomes of the review.

### Correspondence

**Sir Gerald Kaufman:** To ask the Secretary of State for Education and Skills when she expects to reply to the letter to her dated 1 June 2005 from the right hon. Member for Manchester, Gorton, with regard to R.M. Cawley. [10686]

**Maria Eagle:** My right hon. Friend the Minister of State for Schools and with responsibility for 14–19 Learners, replied to the right hon. Member's letter of 1 June 2005 on 30 June 2005.

### Degree Awarding

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what her estimate is of the number of private sector companies that will be granted degree awarding status as a result of recent legislation introduced by her Department in each of the next five years. [11095]

**Bill Rammell:** In order to be awarded degree awarding powers, private companies would have to meet our stringent criteria. We seek advice from the Quality Assurance Agency for Higher Education (QAA) on whether institutions meet our criteria and this process can take some considerable time. At present, the QAA are considering a small number of applications from private companies. We have made no estimates of the numbers of private sector providers likely to attain degree awarding status.

### Dyslexia

**Mr. Amess:** To ask the Secretary of State for Education and Skills what research her Department is carrying out into dyslexia; and how much was spent by her Department on such research during each of the last five years for which figures are available. [10580]

**Maria Eagle:** The Department is not currently carrying out research into dyslexia. We have however supported a number of pieces of relevant work in recent years.

Together with W H Smith and other partners, we supported the Dyslexia Institute's (DI) Spell It research project, which considered the impact of different interventions with seven-year-olds experiencing difficulty with reading. A readers' support pack was one of the outcomes of the Spell It project and we gave the DI a grant to make copies available to parents through the Institute's network of regional centres. We also gave a grant to QinetiQ, formerly the Defence Evaluation and Research Agency, to work with Oxford University and others on some exploratory research into eye movement characteristics as possible indicators of dyslexia.

To help improve awareness of different approaches, we supported a number of research reviews by Dr. Angela Fawcett of Sheffield University, which are available to interested parties on the Department's special educational needs website. We also gave a grant in support of the British Dyslexia Association's international dyslexia conference, where different techniques are presented and discussed.

We also supplied funding to support an OECD collaborative research and dissemination initiative to assess the implications of the latest developments in research on brain functioning for the development of literacy and mathematical skills. The latest discoveries in brain science are expected to have profound implications for what we understand as appropriate methods of teaching and learning. For example, brain science is already shedding light on the causes and possible remedies for dyslexia.

Expenditure on the above amounted to £1,478,344.

## Education

**Mr. Burstow:** To ask the Secretary of State for Education and Skills how many children are attending schools in the London borough of Sutton in the 2004/05 academic year, broken down by *(a)* the local authority in which the child is resident and *(b)* whether the child is attending (i) primary, (ii) secondary and (iii) special school. [10331]

**Jacqui Smith:** The information requested broken down by local education authority has been provided in the following tables:

*Total number of pupils attending schools in Sutton, broken down by residing authority*

| | *Number of pupils* | *Percentage of pupils* |
|---|---|---|
| Pupils attending schools in Sutton | 31,297 | 100.0 |
| *Home authority* | | |
| Sutton | 24,883 | 79.5 |
| Croydon | 2,383 | 7.6 |
| Merton | 1,624 | 5.2 |
| Surrey | 1,548 | 4.9 |
| Kingston upon Thames | 391 | 1.2 |
| Lambeth | 160 | 0.5 |
| Wandsworth | 120 | 0.4 |
| Bromley | 36 | 0.1 |
| Lewisham | 33 | 0.1 |
| Southwark | 22 | 0.1 |
| Other LEAs | 33 | 0.1 |
| Unknown/not given[1] | 64 | 0.2 |

[1] Residence of pupil unknown/not given.

*Note:*
'—' denotes percentage of less than 0.05 per cent.

*Source:*
PLASC 2005 Provisional data

*Total number of pupils attending schools in Sutton, broken down by phase of education*

| | *Number of pupils* | *Percentage of pupils* |
|---|---|---|
| Pupils attending schools in Sutton | 31,297 | 100.0 |
| *School type* | | |
| Primary | 15,051 | 48.1 |
| Secondary | 15,974 | 51.0 |
| Special | 272 | 0.9 |

*Source:*
PLASC 2005 Provisional data.

## Education Funding

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills pursuant to the answer of 4 July 2005, *Official Report*, column 160W, which geographical areas receive an area cost uplift in the funding formula; what data source is used to determine the uplift; and what percentage of additional funding is allocated to each area in receipt of it. [11107]

**Bill Rammell:** The Learning and Skills Council's (LSC) area cost uplift is based on research using Labour Force Survey and New Earnings Survey data. The level of the uplift and the areas where it is applied are as follows:

*Area—Costs uplifts by region*

*London A—20 per cent.*
- Camden
- Greenwich
- Islington
- Kensington and Chelsea
- Lambeth
- Southwark
- Westminster
- Wandsworth
- Hackney
- Tower Hamlets
- Lewisham
- Newham
- Haringey
- Hammersmith
- Fulham

*London B—12 per cent.*
- Barking and Dagenham
- Bexley
- Havering
- Redbridge
- Barnet
- Enfield
- Waltham Forest
- Bromley
- Croydon
- Kingston upon Thames
- Merton
- Richmond upon Thames
- Sutton
- Brent
- Ealing
- Harrow
- Hillingdon
- Hounslow

*Bedfordshire and Hertfordshire non-fringe—3 per cent.*
- Bedfordshire County Council
- Bedford
- Luton
- Mid-Bedfordshire
- North Hertfordshire
- South Bedfordshire
- Stevenage

*Berkshire, Surrey and West Sussex fringe—12 per cent.*
- Surrey County Council
- Bracknell Forest
- Crawley
- Elmbridge
- Epsom and Ewell
- Guildford
- Mole Valley
- Reigate and Banstead
- Runnymede
- Slough
- Spelthorne
- Surrey Heath

Tandridge
Waverley
Windsor and Maidenhead

Chichester
Mid-Sussex
Arun
Horsham
Worthing

## Enterprise Education

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what progress has been made in integrating enterprise elements into GCSE courses on *(a)* mathematics, *(b)* science, *(c)* English, *(d)* information technology and *(e)* design and technology. [10039]

**Jacqui Smith:** Since 2000, all GCSEs have been required to provide opportunities for generating evidence for assessing the six key skills, which are skills for enterprise. In addition, the 14–19 White Paper emphasised the need to develop English, maths and ICT curriculum and qualifications to equip young people with the knowledge, skills and understanding needed for employment. The QCA is developing the mathematics curriculum to include financial literacy in the context of the GCSE.

Progress has also been made in providing guidance from DfES and QCA to teachers of GCSE subjects at key stage 4 on incorporating activities that develop young people's enterprise knowledge and skills.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what the *(a)* overall and *(b)* per school funding allocation for enterprise education for each year between 2005 and 2008 is. [10051]

**Jacqui Smith:** The Government are allocating £60 million a year for the three years from September 2005 to support a new focus on enterprise education in all secondary schools. This funding is allocated to individual schools through a simple formula, based 90 per cent. on the number of key stage 4 pupils per school, and 10 per cent. on pupils' eligibility for free school meals.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what the projected *(a)* number and *(b)* proportion of secondary schools offering enterprise education (i) in 2004–05 and (ii) over the next three years is. [10052]

**Jacqui Smith:** We are currently funding over 700 schools through Enterprise Education Pathfinders to offer enterprise education and help us deliver national guidance on the most effective modes of delivery. About 900 schools are supported by the LSC's Enterprise Advisers to help them introduce enterprise education—making a total of 50 per cent. of schools who have already been supported. Over the next three years, starting from September 2005, all secondary schools will be funded to provide enterprise education. Ofsted and the Qualifications and Curriculum Authority will monitor progress.

## European Contractors

**Mr. Davidson:** To ask the Secretary of State for Education and Skills if she will list contractors based in other EU member states that are providing services to her Department. [9555]

**Bill Rammell:** The Department does not maintain a record of contractors based in other EU member states and the information could be provided at only disproportionate costs.

### Examination Standards

**Mr. Hoban:** To ask the Secretary of State for Education and Skills who is responsible for assessing the consistency of standards across time for *(a)* the national tests at seven, 11 and 14 years and *(b)* GNVQs. [10916]

**Jacqui Smith:** As regulator of the public examinations system and of National Curriculum tests, the Qualifications and Curriculum Authority is accountable to my right hon. Friend for maintaining standards over time in respect of those tests and GNVQ examinations.

### Fingerprint-scanning Systems (Schools)

**Mr. Oaten:** To ask the Secretary of State for Education and Skills what meetings *(a)* she and *(b)* officials from her Department have held with companies providing or seeking to provide fingerprint-scanning systems in schools. [10070]

**Jacqui Smith:** Neither my officials nor I have had any meetings with companies providing or seeking to provide fingerprint-scanning systems in schools.

### Further Education Funding

**Annette Brooke:** To ask the Secretary of State for Education and Skills how many further education colleges in England have received *(a)* a reduction and *(b)* a percentage increase in their funding of less than three per cent. for 2005–06. [8499]

**Bill Rammell** *[holding answer 30 June2005]:* Based upon current Learning and Skills Council records, 34 further education colleges in England (9 per cent. of colleges), have received a reduction in their funding for 2005–06 when compared to 2004–05. And 85 further education colleges (22 per cent. of colleges), have had a percentage increase in their funding of less than three per cent.. In total, 262 further education colleges (69 per cent. of colleges) have received a percentage increase in their funding of more than three per cent.

However, inflation was 2.5 per cent. In total, 283 further education colleges (74 per cent. of colleges) received an increase equal to or greater than inflation.

### Mathematics

**Mr. Gibb:** To ask the Secretary of State for Education and Skills (1) how many schools entered pupils only for the lower tier GCSE mathematics examination in the last year for which figures are available; [9258]

(2) what proportion of pupils studying mathematics at GCSE were entered for the higher tier examination in the last year for which figures are available; [9259]

(3) how many schools entered no pupils for the higher tier GCSE mathematics examination in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [9260]

**Jacqui Smith:** The information requested on GCSE mathematics by higher and lower tiers is not held centrally by the Department.

**Mr. Gibb:** To ask the Secretary of State for Education and Skills how many pupils sat GCSE examinations in *(a)* mathematics and *(b)* additional mathematics in each year since 1995. [9263]

**Jacqui Smith:** The information requested on the number of pupils attempting GCSE (full course) mathematics and additional mathematics can be found as follows.

| | *Number of 15-year-old pupils* | *Number of 15-year-old pupils attempting mathematics* | *Number of 15-year-old pupils attempting additional mathematics* |
|---|---|---|---|
| 2003/04 | 643,574 | 606,002 | 246 |
| 2002/03 | 622,122 | 585,045 | 241 |
| 2001/02 | 606,554 | 568,645 | 203 |
| 2000/01 | 603,318 | 563,594 | 256 |
| 1999/2000 | 580,393 | 539,734 | 236 |
| 1998/99 | 580,972 | 536,583 | 254 |
| 1997/98 | 575,210 | 526,673 | 194 |
| 1996/97 | 586,766 | 533,833 | 141 |
| 1995/96 | 594,035 | 537,635 | 152 |
| 1994/95 | 578,197 | 522,296 | — |

GCSE additional mathematics was not available until 1995–96; therefore it is not possible to provide figures for 1994–95 for this subject.

**Mr. Gibb:** To ask the Secretary of State for Education and Skills how many pupils have sat A Level examinations in *(a)* mathematics and *(b)* further mathematics in each year since 1995. [9264]

**Jacqui Smith:** The information requested on the number of candidates sitting A Level maths and further maths can be found as follows:

| | *16–18 year old A Level candidates* | *16–18 year old candidates taking Maths* | *16–18 year old candidates taking Further Maths* |
|---|---|---|---|
| 2003–04 | 240,810 | 45,879 | 5,111 |
| 2002–03 | 236,288 | 44,331 | 4,730 |
| 2001–02 | 226,169 | 44,055 | 4,498 |
| 2000–01 | 231,656 | 53,604 | 5,052 |
| 1999–00 | 231,423 | 53,148 | 5,015 |
| 1998–99 | 236,091 | 55,348 | 5,145 |
| 1997–98 | 236,154 | 55,831 | 5,211 |
| 1996–97 | 231,334 | 55,001 | 4,999 |
| 1995–96 | 218,254 | 52,979 | 4,913 |
| 1994–95 | 215,424 | 50,058 | 4,255 |

**Mr. Clappison:** To ask the Secretary of State for Education and Skills if she will list the English universities which have *(a)* closed and *(b)* announced the closure of their mathematics department in the last eight years; and how many places for mathematics have been lost. [8718]

**Bill Rammell:** Information on the closure, merger or opening of particular university courses and departments is not collected centrally by either my Department, the Higher Education Funding Council for England (HEFCE), or the Higher Education Statistical Agency (HESA). Higher Education Institutions are

autonomous organisations responsible for their own academic direction and strategic use of funds, and any decisions on closures of departments are made by them.

In their advice to the Secretary of State on strategic subjects published last week, HEFCE has estimated that despite a fall in activity of 9.3 per cent. (or 1,800 full-time equivalents—FTEs) in mathematics since 1999–2000, the total activity remained at nearly 17,500 FTEs in 2003–04, providing a substantial base on which to build. We will be considering HEFCE's advice carefully in the coming months before responding.

### Office for Fair Access

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills how many higher education institutions in England have informed the Office for Fair Access of the possibility that on clearing they may *(a)* make adjustments to their fees below the levels set out in their access agreements and *(b)* offer bursaries or other financial support in excess of that set out in their access agreements; and if she will make a statement. [10044]

**Bill Rammell:** The Office for Fair Access tell me that no institutions have told them explicitly that they are considering amending their fees or bursary proposals during clearing. However, it is open to institutions at any time to seek OFFA's agreement to amend their access agreements, and five institutions have formally proposed to increase the level of bursary support that they will offer students entering in 2006.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what disciplinary options are available to the Office for Fair Access in respect of upheld complaints from the public that levels of support committed to in access agreements are not being delivered. [10047]

**Bill Rammell:** If there is a serious breach of an access agreement, the director for fair access can direct the Higher Education Funding Council for England to suspend part of an institution's grant until the institution has made restitution to any student who has been disadvantaged, or has taken other measures that it promised to take (for example, to run outreach work). The director can also fine an institution up to a maximum of £500,000, and notify its governing body that he will refuse to approve an access agreement from it for a specified length of time.

### Police Officers (Schools)

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how many schools employ police officers *(a)* through the Safer Schools Partnership and *(b)* outside the Safer Schools Partnership. [7706]

**Jacqui Smith:** There are currently 260 police officers working as part of Safer Schools Partnerships (SSPs) in schools.

My Department does not have figures for the numbers of police officers working in schools outside a Safer Schools Partnership.

### Prison Education

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what estimate she has made of the *(a)* number and *(b)* percentage of prisons in England and Wales that are providing adequate (i) literacy, (ii) numeracy and (iii) vocational training. [11498]

**Phil Hope:** Learning and skills in prisons in England and Wales are provided by providers acting under contract to the Prison Service and through some direct provision by Prison Service staff.

The quality of learning and skills provision in prisons is assessed through a programme of inspections undertaken by the Adult Learning Inspectorate working alongside Her Majesty's Inspectorate of Prisons. The ALI Chief Inspectors' Annual Report 2004 records that the quality of Foundation Programmes (covering literacy, language and numeracy provision) was judged to be satisfactory or better in 25 out of 33 (76 per cent.) of prisons inspected in 2003–04.

For all other areas of learning, which include vocational training, the provision in 2003–04 was judged to be satisfactory or better in 65 out of 94 (69 per cent.) instances.

### Research and Development

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what progress has been made towards the target to increase the ratio of research and development across the economy to 2.5 per cent. of national gross domestic product by 2014; and if she will make a statement. [10040]

**John Healey:** I have been asked to reply.

In July 2004, the Government published a 10-year Science and Innovation Investment Framework, which set out an ambition for the UK's total public and private investment in R&D to reach 2.5 per cent. of GDP by 2014, together with a comprehensive set of policies designed to achieve this. Figures from 2003, which pre-date the 10-year framework, show that public and private investment in R&D stood at 1.9 per cent. of UK GDP. The Government will continue to monitor public and private levels of investment in R&D as the 10-year framework is implemented in future years.

**Dr. Iddon:** To ask the Secretary of State for Education and Skills what real-terms percentage increase she expects in research investment by the Higher Education Funding Council for England in each of the next three years. [9836]

**Bill Rammell:** Our overall plans for investment in university research are published each year in the grant letter to the Higher Education Funding Council for England (HEFCE), but HEFCE is responsible for determining the distribution of the total between institutions and over academic years. Our latest plans allow for an increase of 6.8 per cent./5.9 per cent./5 per cent. in real terms over the next three financial years (2005–08).

### School Bullying

**Mr. Hoban:** To ask the Secretary of State for Education and Skills pursuant to the Answer of 7 June

2005, *Official Report*, column 471W, on bullying, what assessment her Department has made of the impact of the Make the Difference series of ministerial conference on bullying in schools. [8480]

**Jacqui Smith:** Between November 2003 and June 2004, a series of regional conferences was run as part of the "Make the Difference" campaign. These conferences, which welcomed an impressive 5,000 people, offered an opportunity for schools and other partners to share good practice on this issue and to learn at first hand of successful techniques used elsewhere.

Many delegates reported that the conferences had been exactly what they need in order to return to their schools and start making changes.

There was also an influx of signed Charters after the conferences at which it was launched.

One specific result has been that a school that offered an acclaimed workshop at two conferences has now placed its work on DVD in response to requests from many other schools.

Most importantly schools tell us that the conferences have led to significant changes in schools, acting as a catalyst for innovative ways of tackling the problem.

### Science Graduates

**Bob Spink:** To ask the Secretary of State for Education and Skills what estimate she has made of the shortfall in science-qualified graduates against the requirements of industry in each of the last five years, broken down by discipline in which there has been such a shortfall. [9249]

**Bill Rammell:** My Department does not make such estimates.

### Skills Shortage

**Mr. Prisk:** To ask the Secretary of State for Education and Skills what assessment she has made of the skills shortage in *(a)* the East of England and *(b)* Hertford and Stortford constituency. [10926]

**Phil Hope:** Figures from the National Employers Skills Survey, conducted by the Learning and Skills Council in 2003, showed that the East of England region had 14,000 skill shortage vacancies at the time of the survey. This compares with 16,000 in 2002 and represents 18.2 per cent. of all England's skill shortage vacancies. 4 per cent. of establishments reported such vacancies, which was the average for England as a whole.

For East Hertfordshire, which covers the constituency of Hertford and Stortford, seven of the 67 establishments surveyed reported skill shortage vacancies. This equates to 10 per cent. of those surveyed.

### State Boarding Schools

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how many *(a)* state boarding schools there are and *(b)* pupils were educated at state boarding schools in the last year for which figures are available. [8487]

**Jacqui Smith:** There are currently 34 maintained boarding schools in England, with approximately 32,500 pupils, of which 4,500 are boarders.

There are also 132 maintained special schools with approximately 9,200 pupils, of which 2,900 are boarders.

### Student Finance

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what the *(a)* average and *(b)* maximum amount of support available for (i) full-time and (ii) part-time students in academic years (A) was in 2003/04 and (B) is in 2004/05. [10049]

**Bill Rammell:** The maximum amount available for the standard student support package is set out as follows. Whereas we publish statistics on average fee and maintenance expenditure per student, we do not have data on average amounts available.

£

| *Student loans* | *Maximum available* | *75 per cent. non income assessed* | *25 per cent. income assessed* |
|---|---|---|---|
| *Full time student support: 2003/04*[1] | | | |
| *Students living away from their parents home and studying in:* | | | |
| London | 4,930 | 3,695 | 1,235 |
| Elsewhere | 4,000 | 3,000 | 1,000 |
| *Students living at their parents home:* | | | |
| London or elsewhere | 3,165 | 2,375 | 790 |
| *Part time student support: 2003/04*[2] | | | |
| *Full time student support: 2004/05*[3] | | | |
| *Students living away from their parents home and studying in:* | | | |
| London | 5,050 | 3,790 | 1,260 |
| Elsewhere | 4,095 | 3,070 | 1,025 |
| *Students living at their parents home:* | | | |
| London or elsewhere | 3,240 | 2,430 | 810 |
| *Part time student support: 2004/05*[4] | | | |

[1] Grant for fees up to the full £1,125 fee.
[2] Loan £500.
[3] Grant for fees up to the full £1,150 fee. HE grant up to £1,000 (the minimum grant is £50).
[4] Fee grant up to £575. Course grant up to £250.

In addition to the standard package of full-time support, in both academic years there was a range of extra help available for students with dependants (Adult Dependants Grant, Parents Learning Allowance and Childcare Grant); disabled students (non-means tested Disabled Students Allowances); care leavers (Care Leavers Grant); and certain students incurring additional travel costs (Travel Grant). Also available were discretionary funds such as the Access to Learning Fund and Opportunity Bursaries. Part-time students could also receive Disabled Students Allowances and help from the discretionary funds. In 2003/04 a fee waiver scheme was operated for part-time students through the discretionary Access to Learning Fund. This was replaced with the statutory fee grant in 2004/05.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills pursuant to her answer of 23 June 2005, *Official Report*, column 1169W, on further and higher education, what the estimated cost of grants

for full-time students with dependants domiciled in England and Wales at UK institutions was for each academic year between 1999–2000 and 2003–04. [10053]

**Bill Rammell:** Available data are given in the table.

*Number of students domiciled in England and Wales at UK institutions in receipt of a dependants' grant, number of grants received, and related expenditure, academic years 1999/2000 to 2003/04*

| Academic year | Number of students in receipt of a dependants' grant[1] | Number of grants awarded to eligible students[1,2] | Expenditure on dependants' grants (£ million) |
|---|---|---|---|
| 1999/2000 | 15,500 | 27,000 | 42.6 |
| 2000/01 | 20,400 | 36,900 | 59.5 |
| 2001/02 | 23,900 | 54,500 | 86.6 |
| 2002/03 | 24,300 | 59,500 | 97.8 |
| 2003/04 | 27,900 | n/a | [3]57.2 |

[1] Rounded to the nearest 100.

[2] The figures show the total number of grants received as a student can receive more than one type of grant.

[3] Expenditure on dependants' grants for children is not included in 2003/04 since, in April 2003 child tax credits became available to individuals with dependent children, and this included students. To avoid double funding for the same purpose it was decided that it was correct to abolish the dependant grants for children from 2003/04 as students could receive the child tax credit.

*Source:*
F503G Survey of local education authorities and SLC.

**Jim Cousins:** To ask the Secretary of State for Education and Skills what the total value of student loans outstanding has been at the end of each year between 1993–94 and 2003–04. [10911]

**Bill Rammell:** The following table shows the student loan amount outstanding for publicly owned debt in the UK, at the end of each financial year specified.

| Financial year | Amount outstanding (£ million) |
|---|---|
| 1993–94 | 675.1 |
| 1994–95 | 1,178.0 |
| 1995–96 | 1,859.0 |
| 1996–97 | 2,691.0 |
| 1997–98 | 3,574.3 |
| 1998–99 | 3,591.9 |
| 1999–2000 | 3,992.5 |
| 2000–01 | 6,043.2 |
| 2001–02 | 8,394.0 |
| 2002–03 | 10,827.5 |
| 2003–04 (provisional) | 13,364.2 |

*Source:*
Student Loans Company

The Statistical First Release "SFR26/2004 Statistics of Student Loans for Higher Education in the United Kingdom—Financial Year 2003–04 (Provisional)" published on 29 July 2004 gives further information on student loan outlay and repayments. It is available on the DfES website at:

www.dfes.gov.uk/rsgateway/DB/SFR/s000479/index.shtml

Figures will be updated in the Statistical First Release "Student Loans for Higher Education in the United Kingdom—Financial Year 2004–05 (Provisional)", due to be published on 28 July 2005 by the Student Loans Company. It will be available on the SLC website at:

www.slc.co.uk/noframe/corpinfo/natstat.html

## Teacher Training

**Mr. Amess:** To ask the Secretary of State for Education and Skills how many students are in teacher training colleges in *(a)* Southend, *(b)* Essex, *(c)* outer London, *(d)* inner London and *(e)* England; and what the figures were for each of the last five years for which figures are available. [10582]

**Jacqui Smith:** Qualified teacher status (QTS) is usually obtained by successfully completing an undergraduate course of initial teacher training or by completing a course leading to the postgraduate certificate in education (PGCE). Both types of courses are run by higher education institutions. In 1993 a new system of school centred ITT (SCITT) was launched. This is mainly postgraduate training that is designed and delivered by a group of schools.

The numbers of students undertaking initial teacher training in higher education institutions are given in the following table:

*Table 1: Number of students in higher education institutions undertaking initial teacher training*

| Region | 2000/01 | 2001/02 | 2002/03 | 2003/04 | 2004/05 |
|---|---|---|---|---|---|
| Southend | — | — | — | — | — |
| Essex | 417 | 425 | 460 | 459 | 426 |
| Outer London | 2,962 | 2,971 | 3,202 | 3,629 | 3,836 |
| Inner London | 2,435 | 2,489 | 2,307 | 2,405 | 2,464 |
| England | 45,499 | 46,188 | 48,674 | 50,299 | 50,600 |

The number of students undertaking initial teacher training in SCITTs are given in the following table:

*Table 2: Number of students in SCITTs undertaking initial teacher training*

| Region | 2000/01 | 2001/02 | 2002/03 | 2003/04 | 2004/05 |
|---|---|---|---|---|---|
| Southend | 24 | 23 | 27 | 29 | 29 |
| Essex | 96 | 100 | 102 | 147 | 159 |
| Outer London | 62 | 74 | 67 | 64 | 41 |
| Inner London | 90 | 110 | 131 | 111 | 109 |
| England | 1,099 | 1,213 | 1,451 | 1,578 | 1,763 |

This data is taken from the TTA Trainee Numbers Census 2000–04 and does not include employment based routes into teaching.

## Training and Enterprise Councils

**Mr. Laws:** To ask the Secretary of State for Education and Skills what legal action has been taken against the liquidators of training and enterprise councils by her Department; and what assessment she has made of the impact on the former TECs pension funds of legal action. [9329]

**Phil Hope:** My Department has not had recourse to take any legal action against the liquidators of TECs, although we did appoint an administrative receiver in four instances to ensure the best interests of TEC pensioners were adhered to and to help safeguard public funds.

No assessment has therefore been made of the impact on former TECs' pension funds of legal action.

### Tuition Fees

**Mr. Rob Wilson:** To ask the Secretary of State for Education and Skills how much has been raised from student tuition fees in each year since their introduction. [9987]

**Bill Rammell:** Students on full-time undergraduate courses and their families are expected to make a contribution towards the cost of their tuition only if they can afford to do so.

The amount of private contribution to tuition fees by students from England, Wales, and the European Union from 1999/2000 to 2004/05 is given in the table. This does not include Government expenditure on the fee remission grant.

*Private contributions to tuition fees for students domiciled in England, Wales, or the European Union for academic years 1999/2000[1] to 2004/05*

| *Academic year* | *£ million* |
|---|---|
| 1999/2000 | 199.2 |
| 2000/01 | 309.2 |
| 2001/02 | 373.3 |
| 2002/03 | 403.1 |
| 2003/04 | 420.1 |
| 2004/05[2] | 435.8 |

[1] Tuition fees were introduced in academic year 1998/99, however as that year was treated as a transitional year, data are not available on the same basis as subsequent years.

[2] Provisional (as at 31 March 2005)

*Source:*
Student Loans Company

Data do not include expenditure for those students who decide not to apply for any support with their fees and instead make the full payment direct to the institution.

### UK Skills Base

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what assessment she has made on the link between the UK skills base and productivity growth and if she will make a statement. [11098]

**Phil Hope:** The quantity and quality of skilled labour available in an economy is an important determinant of economic performance and productivity growth. Research has shown that, in terms of GDP per hour, 12 per cent. of the productivity gap with France and one-fifth of the productivity gap with Germany is due to the UK's relative skills level.

In addition to skills investment, innovation, enterprise and competition are all key drivers of productivity growth. These drivers are complementary and interdependent.

More evidence on the links between skills and productivity can be found at http://www.hm-treasury.gov.uk/documents/enterprise_and_productivitv/ent_index.cfm

### UK-Israel Joint Programmes

**Huw Irranca-Davies:** To ask the Secretary of State for Education and Skills if she will list the joint academic and research programmes involving the UK and Israel which have received UK Government funding since 2000. [9834]

**Bill Rammell:** DfES funding for university teaching and research in England is in the form of a block grant, and universities have flexibility to allocate it as they wish between Departments and programmes. We do not monitor which programmes receive funding. The research councils are the other major Government funders of academic research: they do not have any formal co-funding programmes with Israeli funding agencies, but have awarded some funding for projects, including funding to enable collaborations between UK and Israeli researchers.

# Written Answers to Questions

*Tuesday 12 July 2005*

## PRIME MINISTER

### Food Aid

**Mr. Drew:** To ask the Prime Minister what representations he made to the G8 in response to the World Food Programme's request for help for hungry and malnourished people. [11588]

**The Prime Minister:** At the request of the US and UK, the G8 has agreed to work urgently with partners to improve the effectiveness and availability of humanitarian assistance and adequately fund urgent humanitarian needs in Africa.

I also refer my hon. Friend to the communiqué issued at the G8 summit. This is available on the No. 10 website.

### Tax Credits

**Mr. Laws:** To ask the Prime Minister pursuant to his oral answer of 29 June 2005, *Official Report*, column 1292, on tax credit overpayments, when he plans to write to the hon. Member for Yeovil; and if he will make a statement. [10818]

**The Prime Minister:** I replied to the hon. Member yesterday.

## MINISTER FOR WOMEN

### Discrimination

**Julie Morgan:** To ask the Minister for Women and Equality what steps have been taken to tackle discriminatory behaviour against lesbian, gay and bisexual people in the provision of goods, facilities and services. [10314]

**Meg Munn:** Since 1997, Government action has been directed to making a real difference to the lives of a great many of lesbian, gay and bisexual people across the country. Having said that, we recognise that there is still discrimination against lesbian, gay and bisexual people in the provision of goods, facilities and service and these are difficult areas which need to be looked at carefully.

We announced in February this year our intention to review discrimination law and look in detail at the best ways to address the current gaps and difficulties. The work of this review is now under way. A proper investigation of how the law should be shaped particularly in important areas such as providing protection from discrimination on the grounds of sexual orientation in the provision of goods, facilities and services is a key area for the Discrimination Law Review.

The review will lead to proposals for a fairer, simpler and more effective framework; and will enable this Government to deliver its manifesto commitment to introduce a Single Equality Bill in the lifetime of this Parliament.

## TRADE AND INDUSTRY

### Broadband (East Sussex)

**Gregory Barker:** To ask the Secretary of State for Trade and Industry if he will provide further broadband availability assistance to East Sussex county council in order for it to meet its broadband targets. [10869]

**Alun Michael:** The South East England Development Agency (SEEDA) is now running a number of programmes targeting broadband take-up in addition to availability. SEEDA funding of £150,000 is supporting a broadband partnership which is led by East Sussex county council in partnership with East Sussex Economic Partnership, Business Link for Sussex, BT Group, the local education authority in East Sussex, and the Learning and Skills Council. The title of the project is "Social and Economic Advancement in East Sussex through Accelerated Broadband Service Availability". Its aim is to grow demand for broadband services and to develop the benefits to businesses and less advantaged communities in priority areas. The project started in late 2004 and is likely to run for at least two years.

No direct funding from DTI is offered specifically to increase broadband availability in the East Sussex area, although we are working closely with BT to minimise the small number of remaining broadband 'blackspots' across the country.

**Gregory Barker:** To ask the Secretary of State for Trade and Industry what funding assistance has been given to East Sussex county council to assist it to meet its broadband availability targets in the county. [10870]

**Alun Michael:** Broadband coverage in the South East of England is extensive, with over 99 per cent. of households able to receive broadband as indicated to in my previous answer to the hon. Member of 29 June 2005, *Official Report*, column 1570W. All telephone exchanges except one in East Sussex are enabled for broadband and that one, Isfield, has a commercial wireless service installed. The wireless solution at Isfield was funded from a grant of £50,000 from the South East of England Development Agency to the East Sussex county council to support wireless broadband community co-operatives. Apart from this, no direct funding has gone to East Sussex county council because we have successfully focused upon delivering a competitive marketplace to encourage the rollout of broadband.

### Carbon Sequestration

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry what assessment he has made of the infrastructure requirements to sequester carbon dioxide in reservoirs in the North sea. [10978]

**Malcolm Wicks** *[holding answer 11 July 2005]:* One of the tasks arising from the carbon abatement technology strategy which I announced on 14 June 2005 will be to assess the sources and North sea sinks for $CO_2$ which in itself would identify possible infrastructures. We would plan to publish the results of this work within the next year.

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry what estimate he has made of the number of barrels of oil that can be recovered as a result of enhanced oil recovery and carbon dioxide sequestration in *(a)* the UK sector of the North sea and *(b)* the Scottish sector of the North sea. [10979]

**Malcolm Wicks** *[holding answer 11 July 2005]:* We have conducted studies to look into the potential for injecting carbon dioxide into mature UK North sea oilfields for sequestration and for extracting more oil. These studies show that the additional recovery could be as much as 2 billion barrels if the technology is applied extensively. However this is prior to full economic evaluations being done.

Most of the fields that went into the study are in the central North sea, northern North sea and west of Shetlands.

### Consumer Protection

**Joan Walley:** To ask the Secretary of State for Trade and Industry (1) if the Government will assess the merits of bringing forward legislative proposals to increase the level of protection for consumers who purchase a defective vehicle; [10694]

(2) if he will re-examine the effectiveness of legislation protecting consumers from faulty goods. [10695]

**Mr. Sutcliffe:** The Government are committed to improving Britain's consumer regime and any intervention should be based on an evidence-based and risk-assessed approach. I have seen no evidence to suggest that the current legislation in this area is not working effectively.

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Trade and Industry (1) what steps he is taking to promote English wine during the EU presidency; and if he will make a statement; [9144]

(2) if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9165]

**Ian Pearson:** The Department of Trade and Industry is organising several informal events in the UK during the UK presidency, in order to facilitate progress on key EU priorities at formal meetings to be held in Brussels. Catering for these events is procured in line with the EC's procurement rules and obtains value for money for the Department. During the presidency, DTI ministerial colleagues, officials and I are planning to serve English and Welsh wine, as well as other UK produce, wherever catering contracts at event venues permit this.

For formal Council meetings in Brussels we are working with the Council Secretariat to try to provide British food and drink for all formal EU Council meetings during the presidency, including English wine.

### Export Control and Non-Proliferation Directorate

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 21 June 2005, *Official Report*, columns 898–99W, on the export control and non-proliferation directorate, whether the report written by ASE Consulting on the potential privatisation of the export control and non-proliferation directorate recommended that outsourcing as a means of service delivery was compatible with the executive functions of that directorate; what steps his Department is taking following ASE Consulting's recommendations; and if he will make a statement. [10251]

**Malcolm Wicks:** The report, a copy of which has been placed in the Libraries of the House, did not conclude that outsourcing would be incompatible with the executive functions of the directorate. The Department is currently considering the report.

### Iraq

**Harry Cohen:** To ask the Secretary of State for Trade and Industry what discussions he has had with representatives of oil companies since June 2004 on the future of the Iraqi oil sector, broken down by *(a)* date and *(b)* location; if he will publish the minutes of those meetings; and if he will make a statement. [11460]

**Malcolm Wicks:** There is no record of any discussions having taken place.

### Kyoto Targets

**Mr. Hood:** To ask the Secretary of State for Trade and Industry what his policy is on the allocation of individual carbon allowances in order to help the UK meet Kyoto targets for carbon dioxide emissions; and if he will make a statement. [10755]

**Mr. Morley:** I have been asked to reply.

The Government have recognised the fact that additional measures are necessary to meet the UK's ambitious domestic emission reduction targets. The current review of the UK Climate Change Programme is looking at how existing policies are performing and the range of policies that might be put in place in the future to put us back on track to achieving our domestic goals.

Allocation of individual carbon allowances (sometimes called domestic tradable quotas) raises several issues that need to be addressed before coming to a conclusion on feasibility, including whether the benefits of introducing such allocations are proportionate to the costs of administering them as well as the public acceptability of such a scheme.

### MG Rover

**Charles Hendry:** To ask the Secretary of State for Trade and Industry if he will make a statement on the future of the MG brand. [5870]

**Ian Pearson:** The future of the MG brand is not yet clear as it depends on the outcome of the efforts of the administrators to sell the assets of MG Rover.

**Mr. Laurence Robertson:** To ask the Secretary of State for Trade and Industry how many workers made redundant at MG Rover have found new employment; what assistance he is giving to workers who have not yet found employment; and if he will make a statement. [8100]

**Ian Pearson:** Of the 4,991 former MG Rover and Powertrain workers who registered with Jobcentre Plus, 1,355 had found new employment by Tuesday 5 July 2005. In addition, some 400 former MG Rover employees chose not to register and a proportion of these will have found new employment.

All former employees are being offered a personal training plan and as at 24 June 2005 a total of 3,151 such plans had been developed, with 1,318 individuals actually undergoing training. Various agencies working under the auspices of the Rover Task Force have worked with colleges of further education and other providers in the West Midlands to expand capacity so as to accommodate this extra demand.

### MOD Textile Contracts

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what assessment he has made of the effects on the UK textile industry of Ministry of Defence textile contracts being awarded in China. [10786]

**Alun Michael:** No direct contracts for clothing have been awarded by MOD to Chinese companies although contractors based in the EU have let sub-contracts to Chinese based companies.

No assessment has been made of the effects on the UK textiles industry of sourcing from China. Most combat clothing in the UK is categorised as non warlike. MOD's supplier base optimisation (SBO) programme in relation to non warlike supplies has to comply with EU public procurement regulations against the criteria of the most economically advantageous tender. However, industrial implications are noted during the tender process and brought to the attention of Ministers in the ministerial submission for SBO contracts.

### Nuclear Power

**Paul Flynn:** To ask the Secretary of State for Trade and Industry what discussions his Department *(a)* has had and *(b)* plans to have with (i) current UK nuclear operators, (ii) overseas nuclear power generators and (iii) investors in respect of conditions which would be necessary for them to consider constructing or financing new nuclear power plants in the UK. [10814]

**Malcolm Wicks:** The Department is always willing to meet companies engaged in the energy industry and we have regular update discussions with a wide range of such companies including those in the categories referred to. Where issues relevant to new nuclear build are raised, we are quite prepared to listen to the views put to us.

### Oil Imports

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what steps he is taking to reduce the UK's dependency on imported oil. [10875]

**Malcolm Wicks:** Although the UK currently remains a net exporter of oil, it is likely we will become a net importer by around 2010. However, relying on imports need not be a problem in itself, although it does require us to take a longer-term strategic international approach to energy reliability. Oil is an internationally traded commodity and all countries, whether import-dependent or not, have a common interest in promoting open markets. Most other advanced industrial economies already import significant proportions of their oil needs without noticeable disruption.

Notwithstanding this, however, the Government remain committed to maximising the economic recovery of the UK's own oil (and gas) reserves. The PILOT initiative—a joint programme involving the Government and the UK's oil and gas industry—is central to this aim. Moreover, the Government are already putting in place policies that will help ease the UK economy away from power supplied primarily through fossil fuel supply, by increasing energy efficiency and developing alternative technologies. Information on these policies can be found in the Energy White Paper 2003 "Our energy future—creating a low carbon economy" (http://www.dti.gov.uk/energy/whitepaper/index.shtml).

In parallel, the Government have put in place a number of measures to improve the average fuel efficiency of vehicles, as set out in the July 2002 Powering Future Vehicles Strategy. These include fiscal incentives, such as the graduated, $CO_2$ based Vehicle Excise Duty and Company Car Tax schemes. The Government are also promoting the use of renewable transport fuels, such as biofuels, by means of fuel duty incentives. Sales of biofuels have increased rapidly during 2005, and currently stand at some 10 million litres a month, a five-fold increase over sales in 2004.

### Post Offices

**Mr. Hood:** To ask the Secretary of State for Trade and Industry how many direct post offices have closed in the last 18 months in *(a)* the UK and *(b)* Scotland; and if he will make a statement. [11201]

**Barry Gardiner:** This is an operational matter for Post Office Ltd. (POL) and the Chief Executive has been asked to reply direct to my hon. Friend.

### Pregnant Workers (Discrimination)

**Mr. Hood:** To ask the Secretary of State for Trade and Industry what steps he is taking to help prevent discrimination against pregnant women in the workplace; and if he will make a statement. [10061]

**Meg Munn:** Employers who discriminate against pregnant women are breaking the law. We have taken the opportunity afforded by the amended Equal Treatment Directive to clarify the law and are amending the Sex Discrimination Act so that it explicitly outlaws pregnancy discrimination in the workplace. These regulations will come into force on 1 October 2005.

The Equal Opportunities Commission (EOC) recently published a final report on their investigation into pregnancy discrimination at work. We will be considering the report and recommendations carefully.

### Royal Mail

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 4 July 2005, *Official Report*, column 60W, on Royal Mail, whether the Government will be the only shareholder in Royal Mail in the future; and what plans are being considered to provide shares to *(a)* employees and *(b)* others. [11642]

**Barry Gardiner:** As I said in my previous answer, the Government have given the Royal Mail greater commercial freedom and have no plans to privatise it. Neither do we have plans to issue shares to employees or others.

Our ambition is to see a publicly owned Royal Mail fully restored to good health providing customers with excellent service and its employees with rewarding employment.

### UK Trade and Investment

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry when UK Trade and Investment consulted the Association of Trade Organisations on proposed changes to the Support for Exhibitions and Seminars Abroad scheme; and if he will make a statement. [10480]

**Ian Pearson:** UK Trade and Investment consulted the accredited trade organisations, including members of the Sponsors' Alliance, in writing in autumn 2004; at an open forum in November 2004; and in small working groups and larger format meetings in the first three months of 2005. UK Trade and Investment is continuing to discuss the implementation of changes to the SESA scheme with the Sponsors' Alliance and accredited trade organisations who are not members of that association.

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry how UK Trade and Investment plans to help existing exporters who want to expand their export activities into new markets to gain access to these markets; and if he will make a statement. [10481]

**Ian Pearson:** Advice and access to a range of UKTI services is available, through international trade advisers based in regional trade teams, to existing exporters who want to expand their export activities into new markets. Support is also available for sectorally based initiatives from which both new and existing exporters will benefit.

## CULTURE, MEDIA AND SPORT

### BBC Freeview (East Sussex)

**Gregory Barker:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to ensure that East Sussex receives 100 per cent. coverage of BBC Freeview; and if she will make a statement on BBC Freeview targets for the county. [10871]

**James Purnell:** I refer the hon. Member to the answer I gave him on 26 May 2005, *Official Report*, columns 170–71W.

The vast majority of households in East Sussex can, with the appropriate equipment, receive BBC digital television services via either digital satellite, digital terrestrial or cable.

The Government are committed to ensuring that at digital switchover everyone in the UK who can currently get the main public service broadcasting channels in analogue form (BBC1 and 2, ITV, Channel 4/S4C and Five) can receive them on digital systems.

### Big Lottery Fund

**Mr. Andy Reed:** To ask the Secretary of State for Culture, Media and Sport what criteria will be used to allocate funding from the Big Lottery Fund for a play programme; and when she expects allocations to be made. [10497]

**Mr. Caborn:** This is a matter for the Big Lottery Fund which is currently undertaking development work on the new play fund.

### Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for Culture, Media and Sport how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11508]

**Mr. Caborn:** I refer the hon. Member to table C of the annual publication "Civil Service Statistics" which provides staff numbers in the Department for Culture, Media and Sport and its agency in each year from 1998 to 2004, copies of which are laid in the Libraries of both Houses. 2004 figures have been published on the Cabinet Office website.

### Heritage Economic Regeneration Scheme

**Mr. Love:** To ask the Secretary of State for Culture, Media and Sport (1) what assessment she has made of the likely impact the new evaluation methodology of the Heritage Economic Regeneration Scheme will have on the review of area heritage grant schemes; and if she will make a statement; [10457]

(2) what assessment she has made of the impact of the Partnership Schemes in Conservation Areas programme; when a decision will be taken on extending the programme to other areas; and if she will make a statement. [10458]

**Mr. Lammy:** I refer my hon. Friend to the answer I gave him on 28 June 2005, *Official Report*, columns 1390–91W.

English Heritage's Heritage Economic Regeneration Scheme (HERS) was replaced by Partnership Schemes in Conservation Areas in April 2005. This reflected its decision to devolve management of its grant schemes to its regional offices. As with HERS, the scheme applies to any conservation area in an area of deprivation.

English Heritage is reviewing the method by which such schemes are evaluated as part of its work on the Heritage Dividend. Together with the Heritage Lottery Fund and other grant giving agencies, it is also exploring the possibility of a joint area- based grant scheme.

### Resale Rights

**Derek Wyatt:** To ask the Secretary of State for Culture, Media and Sport how many meetings her Department has held with ministerial colleagues at the Department for Trade and Industry to discuss artists' resale rights since 5 May. [11531]

**Mr. Lammy** *[holding answer 11 July 2005]*: There have been no meetings between the Department for Culture Media and Sport and ministerial colleagues at the Department for Trade and Industry to discuss artists' resale rights since 5 May.

## HOUSE OF COMMONS COMMISSION

### Vote Office Print Unit

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission if he will list the publications produced by the vote office print unit since its inception. [10877]

**Nick Harvey:** Since its inception in 1994 the vote office print services unit has produced over 48,000 publications. A list of them all in a readily intelligible form could only be produced with disproportionate effort.

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission what his estimate is of the savings to the House by the use of the vote office print unit since its inception to produce publications previously printed by other sources. [10878]

**Nick Harvey:** It is not possible with precision to calculate the total savings to the House by use of the print services unit since its inception. On the basis of prices obtained from external printers relating to the production of a sample of 11 documents currently printed in-House it is estimated that savings in the order of £6 million have been achieved over the 10 years of operation of the unit.

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission how many staff are employed by the vote office print unit; and at what grade. [10879]

**Nick Harvey:** 10 staff are currently employed in the vote office Print services unit (two grade B; three grade C and five grade D), under the overall direction of another member of staff (grade A) as part of her duties. Six of these members of staff work a rotating shift system to provide a production capability from 7.30am to midnight on Mondays to Thursdays and 7.30am to 7pm on Fridays, in weeks that the House is sitting.

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission what the average printing costs of the vote bundle per printed page were during the 2004–05 financial years. [10920]

**Nick Harvey:** The average printing costs of the vote bundle per originated printed page during financial year 2004–05 were £74.15.

## WORK AND PENSIONS

### Housing Allowance

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what the local housing allowance rates are for each rental category in each of the original pathfinder authorities. [8864]

**Mr. Plaskitt:** I refer the hon. Member to the written answer I gave my hon. Friend the Member for Newcastle-upon-Tyne, Central (Jim Cousins) on 29 June 2005, *Official Report*, column 1558W.

### Housing Benefit

**Mr. Austin Mitchell:** To ask the Secretary of State for Work and Pensions what the cost of housing benefit paid to council tenants was in the last year for which figures are available. [9662]

**Mr. Plaskitt:** The 2003–04 expenditure for housing benefit rent-rebate cases is £5,037 million.

### Jobseeker's Allowance

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions what the off-flow from jobseeker's allowance (JSA) was for *(a)* the UK, *(b)* England and Wales and *(c)* Birkenhead in each year since 1998, broken down by reason; and what percentage of JSA off-flow this represented in each case. [11693]

**Mr. Plaskitt:** The information has been placed in the Library.

## DEFENCE

### Armed Forces Recruitment

**Mrs. Dorries:** To ask the Secretary of State for Defence how many people from Mid-Bedfordshire constituency have been recruited into the armed forces in each year since 1997. [11093]

**Mr. Touhig:** This information is not held centrally and cannot be collated without incurring disproportionate cost.

### Armoured Vehicles

**Ann Winterton:** To ask the Secretary of State for Defence pursuant to the answer of 27 June 2005, *Official Report*, columns 1199–20W, on armoured vehicles, what the cost is of each complete base unit from Iveco. [10445]

**Mr. Ingram:** The information requested cannot be provided given the confidential nature of the contract between BAE Systems Land Systems and Iveco.

### Command and Liaison Vehicle

**Ann Winterton:** To ask the Secretary of State for Defence what other designs were considered in the assessment phase for the Command and Liaison Vehicle. [10444]

**Mr. Ingram:** Three designs were considered during the Assessment Phase for the United Kingdom's Command and Liaison Vehicle: Alvis Vehicles Ltd. proposed an IVECO Multi-role Light Vehicle (MLV); Vickers Defence Systems proposed a RG32M, and United Defence Limited Partnership proposed a ACMAT Ranger.

### Defence Export Services Organisation

**Harry Cohen:** To ask the Secretary of State for Defence what the duration is of Alan Garwood's appointment as Head of the Defence Export Services Organisation; and what his annual salary was in each year between 2001–02 and 2005–06. [9321]

**Mr. Ingram:** Mr. Alan Garwood took up a three-year contract as the Head of Defence Export Services on 23 September 2002. This appointment has an option to extend and this has now been exercised with the contract extended by mutual agreement, for one year to 22 September 2006. Mr. Garwood, who is seconded from the defence industry, receives a civil service salary within the senior civil service pay band 3 (previously deputy secretary level), which as of April 2005 has a range between £93,139 and £198,197. Industry then pays an element that brings the salary to the level which the individual would otherwise receive in the commercial sector. This figure is agreed by the National Defence Industries Council.

### Future Offensive Air System

**Mr. Moore:** To ask the Secretary of State for Defence what the total cost has been of the Future Offensive Air System; and what the main components of this expenditure were. [9629]

**Mr. Ingram** *[holding answer 4 July 2005]:* Research and technology work carried out as part of the Future Offensive Air System (FOAS) is being used in continuing work on future combat air systems. The total cost of FOAS to date is estimated to be £114 million. The main components are a range of targeted technology demonstrator programmes, studies into concepts for potential FOAS components, and technical support provided by DSTL and its predecessors.

### Future Rapid Effects System

**Ann Winterton:** To ask the Secretary of State for Defence how many battalions will operate the medium weight Future Rapid Effects System vehicles; and how many of those vehicles there will be in each battalion. [10446]

**Mr. Ingram:** Future Rapid Effects System vehicles will be used in the medium-weight mechanised brigades and are also expected to fulfil a number of roles in both heavy armoured and light brigades.

The detailed fielding plans that will define which units will be equipped with FRES vehicles, and the numbers of vehicles to be allocated to individual units are currently being developed as part of the initial Assessment Phase.

**Ann Winterton:** To ask the Secretary of State for Defence how many companies *(a)* expressed an interest in bidding for and *(b)* bid for provision of electric armour for the Future Rapid Effects System project; and if he will make a statement. [10928]

**Mr. Ingram:** Five companies expressed an interest in bidding for a contract to demonstrate electric armour technology. On completion of the assessment of these expressions of interest, two companies were invited to tender. Formal bids were received from both companies.

### Iraq

**Harry Cohen:** To ask the Secretary of State for Defence what role UK forces had in Operation Spear in Iraq; whether the operation was fully co-ordinated with *(a)* Iraqi security forces and *(b)* the Iraqi Administration; what armaments were used in the operation; whether civilians lived in the area covered by the operation; what warning was given to civilians; what the Government's policy is on legal liability in joint military operations in Iraq; and if he will make a statement. [9786]

**Mr. Ingram:** Operation Spear was a combined US-Iraqi security force anti-terrorist operation co-ordinated by US forces and the Iraqi Ministry of Defence. Detailed operational information is therefore a matter for the US or Iraqi authorities.

Although there were no specific British plans to support the operation, three RAF Tornado GR4s on routine patrols in Iraq were tasked to respond to calls for close air support assistance from US forces during the course of the operation. Those UK aircraft did not expend any weapons in support of the operation.

It is UK government policy on legal liability on combined operations in Iraq, that each nation would be directly liable for the consequences of actions taken by its own forces.

**Dr. Kumar:** To ask the Secretary of State for Defence how many civilian contractors employed by the Department have died during their service in *(a)* Iraq and *(b)* Afghanistan since 1997. [11341]

**Mr. Ingram:** No officially accredited Ministry of Defence contractors have died on operations in Afghanistan or Iraq since the start of the current operations there, in 2001 and 2003 respectively.

### Military Bands

**Mr. Hoyle:** To ask the Secretary of State for Defence how many public performances military bands have given in each of the last three years; and which were free. [11171]

**Mr. Touhig:** Military bands undertake a large number of performances each year many of which are open to the public under a variety of arrangements. The level of detail sought in the question can be provided only at disproportionate cost as records are not held centrally.

### RAF (Permanent Commissions)

**Mr. Sanders:** To ask the Secretary of State for Defence what percentage of service *(a)* men and *(b)* women who successfully applied to sign on for a permanent commission in the RAF, broken down by (i) supply, (ii) administration and (iii) engineering in each of the last five years. [10357]

**Mr. Touhig:** The following figures show the numbers of personnel who converted from a short service commission to a permanent commission during the calendar years shown.

| | *Engineer* | | *Supply* | | *Administration* | |
|---|---|---|---|---|---|---|
| | *Male* | *Female* | *Male* | *Female* | *Male* | *Female* |
| 2000 | 10 | [1]— | 10 | [1]— | 15 | 15 |
| 2001 | 5 | [1]— | 10 | [1]— | 15 | 15 |
| 2002 | | [1]— | 5 | [1]— | 10 | 15 |
| 2003 | [1]— | [1]— | 5 | [1]— | 10 | 15 |
| 2004 | [1]— | [1]— | 5 | 0 | 0 | [1]— |

[1] — denotes a number less than 5.

*Note:*
Figures are rounded to the nearest 5.

### RAF Marham

**Mr. Hoyle:** To ask the Secretary of State for Defence how many BAE Systems staff work at RAF Marham servicing fast jets. [11173]

**Mr. Ingram:** Currently, eight BAE Systems technicians are involved in the repair and maintenance of the Tornado GR4 aircraft at RAF Marham in Norfolk.

In addition a further 25–35 BAE Systems personnel may be on-site at RAF Marham at any one time in support of the Tornado GR4. None of these people are however, directly involved in the repair and maintenance of aircraft.

**Mr. Hoyle:** To ask the Secretary of State for Defence what equipment has been moved from Warton to RAF Manton to help service fast jets. [11174]

**Mr. Ingram:** A small amount of surplus BAE Systems equipment racking and ground equipment has recently been moved from BAE Systems Warton to RAF Marham in Norfolk. The equipment will be used to support the repair and maintenance of Tornado GR4 aircraft.

### Scottish Infantry Recruitment

**Mr. Hood:** To ask the Secretary of State for Defence how many soldiers have left the Scottish Infantry Regiments since January; and if he will make a statement. [10058]

**Mr. Touhig:** During the period 1 January to 30 April 2005 180 officers and soldiers left the Army Full-Time Trained strength from the Scottish Division of the Infantry. This comprises of 10 officers and 170 soldiers.

### Tracked Vehicles

**Ann Winterton:** To ask the Secretary of State for Defence pursuant to the answer of 15 June 2005, *Official Report*, column 442W, on tracked vehicles, what will happen to the Combat Vehicle Reconnaissance (Tracked) vehicles when they are phased out in 2014. [10440]

**Mr. Ingram:** It is intended to dispose of the Combat Vehicle Reconnaissance (Tracked) CVR(T) through the Disposal Services Agency (DSA).

### Trident

**Paul Flynn:** To ask the Secretary of State for Defence what the expected cost of replacing Trident is, broken down by *(a)* initial cost and *(b)* annual running costs. [11322]

**John Reid:** No decisions on any replacement for the Trident system have yet been taken. It is therefore too early to say what might be the initial procurement costs or annual running costs of any replacement system.

## NORTHERN IRELAND

### Identity Cards

**Mr. Garnier:** To ask the Secretary of State for Northern Ireland what estimate he has made of the cost of equipping Police Service of Northern Ireland premises with identity card readers. [9886]

**Mr. Woodward:** On 28 June 2005, my right hon. Friend the Home Secretary placed in the Library a paper containing the latest estimates of benefits of the Identity Cards Scheme which shows that the benefits outweigh the costs once the scheme is fully operational. The Police Service of Northern Ireland has been contributing to this process. The cost of equipping premises will depend on the nature of the use of the Identity Cards Scheme and the type of identity check(s) necessary to deliver the business benefits. In some cases, benefits could be realised without the use of card readers and the cost of installing any readers needs to be considered alongside future plans to refresh or upgrade IT systems. As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit which will allow us to further refine our estimates of costs and benefits.

**Mr. Garnier:** To ask the Secretary of State for Northern Ireland what recent discussions *(a)* he and *(b)* his officials have had with their Irish Government counterparts concerning the introduction of identity cards and the national data register in the United Kingdom and their effect upon the common travel area. [9887]

**Andy Burnham:** I have been asked to reply.

There is regular contact between Home Office officials and their counterparts in Ireland about the introduction of Identity Cards. The Home Secretary has met the Irish Minister for Justice, Equality and Law Reform and discussed the Government's plans with him.

The principle of the common travel area, within which people of any nationality may travel without routine immigration checks, will remain unchanged. The area covers the UK, Ireland, the Isle of Man and the Channel Islands.

### Litter

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland what steps are being taken to discourage the dropping of litter on streets; what penalties apply to this offence; and how many prosecutions there were in each council area in the last period for which figures are available. [11129]

**Angela E. Smith:** It is an offence to drop litter under Article 3 of the Litter (Northern Ireland) Order 1994. A person guilty of such an offence is liable on summary conviction to a fine not exceeding level 4 on the standard scale which currently stands at £2,500.

A district council may, however, offer the person the opportunity of discharging any liability to conviction for the offence by payment of a fixed penalty. The amount of the fixed penalty was doubled last year to £50 and proposals are included in the draft Local Government (NI) Order 2005 which is currently before Parliament to allow councils to retain these fines for spending on litter related activities.

The Department of the Environment is also currently considering the range of measures in the recent Clean Neighbourhoods and Environment Act 2005, which among other things, strengthen the legislation for dealing with litter in England and Wales, with a view to making recommendations on how they might be brought forward in the Northern Ireland context.

The Department does not hold information on the number of prosecutions for littering in each council area.

### Parades Commission

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many meetings of the Parades Commission there have been in each year since its formation; how many meetings each member of the Commission attended in each year; and whether that attendance was for *(a)* the whole and *(b)* part of the meeting. [9746]

**Mr. Woodward:** The Parades Commission has advised me that this information could be provided only at disproportionate cost.

### Post-primary Education

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what steps are being taken to implement the Costello proposals on post-primary education; and when he expects legislation to be placed before Parliament to implement those proposals. [11236]

**Angela E. Smith:** The recommendations of the report of the Post-Primary Review Working Group (the Costello Report) were accepted in full by Government in January 2004 and are currently being implemented. Action is under way in the following key areas.

*Strategic advice*

A strategic advisory group, comprising representatives of the managing authorities and other key education organisations, was established in June 2004 to advise the Department of Education on implementation issues, and has met on nine occasions to date.

*Admissions*

Options for new admission arrangements to post-primary schools, including admissions criteria that could be used by schools if they are oversubscribed, were published for consultation on 28 January 2005. The consultation ended on 30 June and decisions will be taken when the responses have been fully considered.

*Specialist Schools*

A conference on specialist schools, aimed at senior members of school management, was held in November 2004. A small-scale pilot to test the model in the Northern Ireland context is under consideration.

*Pupil Profile*

For the last two years the Northern Ireland Council for the Curriculum, Examinations and Assessment (CCEA) has been developing a pupil profile which will help parents and children make appropriate choices at transfer stage. A large-scale pilot of year 5 pupils is planned for 2006–07.

*Entitlement Framework*

Guidance issued to schools in June 2005 to help them to begin to plan for the move to the full curricular entitlement framework, to ensure that it is delivered to all pupils. Additional funding has been provided to education and library boards and the Council for Catholic Maintained Schools to support and facilitate schools to begin to deliver the entitlement framework. Further guidance is expected to issue in autumn 2005 which will deal with practical issues in the delivery of the framework and will be informed by evaluation evidence from the first phase of the Vocational Enhancement Programme in 2004–05, an initiative funded by the Departments of Education and Employment and Learning to develop models of collaborative working between schools and further education colleges and disseminate good practice. Further collaborative projects are being funded in 2005–06.

Funding has also been provided for a number of e-learning pilots and for the development of new vocational qualifications.

*6th forms*

Guidance was issued to schools about new arrangements requiring proposals for the establishment of new 6th forms to be the subject of statutory development proposals.

*Legislation*

Primary legislation necessary to give effect to the new arrangements is expected to be laid before Parliament in spring 2006.

### Police Service

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what the average Police Service of Northern Ireland emergency response time was in each policing district in each of the past 18 months; and what steps are being taken to improve response times. [9126]

**Mr. Woodward:** Recording of response times commenced on 1 April 2005. The current Policing Plan requires the Police Service of Northern Ireland to work towards establishing a baseline for measuring police response times to emergency calls. Work is ongoing to establish how this might be achieved, and a report will be made at the end of the financial year. Improvement in response times cannot be measured until this baseline is established.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many civilian workers in security jobs at Police Service of Northern Ireland stations have been given training with weapons. [9480]

**Mr. Woodward:** No civilian workers in security jobs at PSNI stations have been given training with weapons as part of their role.

## CONSTITUTIONAL AFFAIRS

### Elections

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the number of complaints made by voters concerning their votes being cast illegitimately by someone other than themselves during the general election 2005. [11691]

**Ms Harman:** My Department has received no complaints from voters alleging that their votes were cast illegitimately by someone other than themselves during the 2005 general election.

Our advice to any person who suspects that electoral malpractice may have taken place, is that they should report their suspicions to their local police force.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how many postal votes were received by returning officers after the polling day of the 2005 general election, broken down by parliamentary constituency. [11706]

**Ms Harman:** Returning officers have a duty to complete a 'statement as to postal ballot papers' for each election (form K, schedule 3 to the Representation of the People (England and Wales) Regulations 2001). This includes the total of postal ballot papers that arrived too late to be included in the count.

The Electoral Commission will collate and publish this information later this summer, as part of their general duty to report on UK parliamentary elections.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs if she will list the Commonwealth countries that have reciprocal agreements with the UK over residential qualifications for voting in *(a)* local elections and *(b)* national elections. [11709]

**Ms Harman:** The Representation of the People Act 1983 provides that all Commonwealth citizens who are lawfully resident in the UK are entitled to vote in parliamentary and local elections. Decisions about voting rights of British citizens resident in other Commonwealth countries are for the individual countries concerned.

**Mr. Hollobone:** To ask the Minister of State, Department for Constitutional Affairs what percentage of the voting electorate voted by *(a)* post and *(b)* proxy in the last general election, broken down by constituency. [10718]

**Ms Harman:** Returning Officers have a duty to complete a 'statement as to postal ballot papers' for each election (form K, schedule 3 to the Representation of the People (England and Wales) Regulations 2001). This includes the total number of postal votes issued and subsequently returned.

The Electoral Commission will collate and publish this information later this summer, as part of their general duty to report on UK parliamentary elections. The report will also include figures on proxy voting.

### Freedom of Information Act

**Mr. Hancock:** To ask the Minister of State, Department for Constitutional Affairs what provisional assessment was made of the likely implications for *(a)* staffing and *(b)* expenditure of applications to the National Archives under the Freedom of Information Act 2000 for copies of personal details from households listed in the 1911 decennial Census for England and Wales. [9514]

**Ms Harman:** Section 41 of the FOI Act relating to breach of confidence has been applied to all applications received since January 2005 to view individual 1911 census returns. The National Archives is currently developing plans including staff development and expenditure allocations to make the 1911 census publicly available in 2012 in line with government policy to release decennial census returns after a period of 100 years.

### Public Records Act

**Mr. Hancock:** To ask the Minister of State, Department for Constitutional Affairs whether the Public Records Act 1958 extended 100-year closure of the 1911 decennial census for England and Wales still applies. [9550]

**Ms Harman:** Since January 2005 the section 41 exemption of the FOI Act relating to breach of confidence has been applied to all applications received to view individual 1911 census returns. It remains government policy to make census returns publicly available after a period of 100 years.

## FOREIGN AND COMMONWEALTH OFFICE

### Ahmadi Muslim Community

**Mr. Austin Mitchell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of *(a)* Pakistan and *(b)* Bangladesh on the persecution of the Ahmadi Muslim community; and if he will make a statement. [11163]

**Dr. Howells:** We regularly raise our human rights concerns with the Government of Pakistan, including our concerns about the experiences of religious minorities including the Ahmadi community. We judge that collective action through the EU is the most effective method of voicing these concerns. The EU most recently demarched the Government of Pakistan on these subjects on 30 June 2005.

We are concerned by the apparent increase in intolerance towards religious minorities in Bangladesh, including the Ahmadi community. We regularly raise these concerns with the Government of Bangladesh, both bilaterally and with EU partners. My hon. Friend the Minister of State at the Foreign and Commonwealth Office (Douglas Alexander) did so with the Bangladeshi Prime Minister on a visit to Dhaka on 21 December. The local EU presidency did so most recently during a call on the Bangladeshi Home Minister on 14 May.

### Chechnya

**Stephen Williams:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions the Government have held with the Russian Government regarding its military involvement in Chechnya. [10704]

**Mr. Douglas Alexander:** We remain concerned about the human rights situation in Chechnya. We are especially concerned about the culture of impunity, with continuing reports of extra-judicial killings, arbitrary detention and torture. We frequently raise our concerns with the Russian Government, both bilaterally and in multilateral fora. These include concerns about the military component of Russia's response to the problems in Chechnya. Bilaterally, we most recently discussed Chechnya in depth during the UK-Russia Human Rights dialogue on 23 May, when we expressed our belief that effective maintenance of security and actions to counter terrorism should be pursued within a framework that respects human rights and international humanitarian law. We also discussed Chechnya during the EU-Russia human rights consultations held in March 2005.

### Correspondence

**Sir Gerald Kaufman:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to reply to the letter to him dated 26 May from the right hon. Member for Manchester, Gorton, with regard to Mr. Mohammad Chaudhary. [10690]

**Dr. Howells:** My right hon. Friend the Foreign Secretary replied to my right hon. Friend's letter of 26 May concerning Mr. Mohammad Chaudhary on 13 June. UKvisas re-sent a copy of this letter on 6 July.

**Sir Gerald Kaufman:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to reply to the letter to him dated 19 May from the right hon. Member for Manchester, Gorton, with regard to Mr. Mukhtar Ali. [10691]

**Dr. Howells:** I refer my right hon. Friend to my earlier reply of 4 July 2005, *Official Report*, column 181W. A further copy of our reply has been forwarded to my right hon. Friend's constituency office for information.

**Mr. Winnick:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter from the hon. Member for Walsall, North of 26 May to the Home Office which was subsequently transferred to his Department, regarding a constituent. [10729]

**Dr. Howells** *[holding answer 11 July 2005]:* My noble Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Lord Triesman of Tottenham) replied to my hon. Friend on 7 July.

### Corruption

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his counterparts in overseas governments about reducing corruption related to the arms trade. [11203]

**Dr. Howells:** My right hon. Friend the Foreign Secretary has not held recent discussions with counterparts specifically on the subject of corruption in the arms trade. However, the Government are committed to working for an international treaty covering the trade in conventional arms and Ministers and officials are pursuing this objective actively in bilateral contacts as well as in multilateral fora, including at the recent meeting of G8 Foreign Ministers.

### Council of Europe Youth Foundation

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the activities of the Council of Europe's Youth Foundation. [9043]

**Bill Rammell:** I have been asked to reply.

The European Youth Foundation (EYF) is a fund established in 1972 by the Council of Europe to provide financial support for youth activities in the 46 member states of the Council of Europe. In 2003, with a budget of approximately €3 million, the EYF supported some 320 projects involving more than 15,000 young people.

### Kyrgyzstan

**Mr. Hands:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to establish the welfare of the Uzbek and Kyrgyz citizens in Djalabad's refugee camps. [10902]

**Mr. Douglas Alexander:** Our Ambassador, James Sharp, who is accredited to Kyrgyzstan, has visited the country twice since early June 2005. On the first occasion, he publicly emphasised the importance of the Kyrgyz Government's honouring its international commitments on refugees. Both the Kyrgyz Foreign Minister and National Security Council Chairman assured him that the Government would do so. Mr. Sharp also met the local United Nations High Commission for Refugees (UNHCR) and United Nations Development Programme (UNDP) representatives to review the refugee situation.

The handing of four Uzbek refugees to the Andizhan Prosecutor on 9 June appears to have been a clear breach of the Kyrgyz Government's obligations. As a result, on 21 June we, acting with our EU partners, delivered a demarche to the Kyrgyz Government over its treatment of refugees, insisting that it abided by its commitments to the 1951 UN Convention on Refugees.

Mr. Sharp visited the refugee camps in Jalalabad on 6 July. We will continue to monitor the situation closely, and press the Kyrgyz Government to comply with its international responsibilities.

### Eastern Europe

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those UK non-governmental organisations which are funded to promote information exchanges with Eastern Europe. [9042]

**Mr. Douglas Alexander:** The Foreign and Commonwealth Office is engaged in a wide range of activities in Eastern Europe which could be classed as information exchange, including political work, sponsored and other working visits, public diplomacy activity, scholarship schemes, shorter-term fellowships and project work. Some of these activities are carried out by or with a range of UK non-governmental organisations, and non-departmental public bodies (NDPBs) such as the British Council, the BBC World Service, the Westminster Foundation for Democracy, the British Association for Central and Eastern Europe and various British universities.

### EU Constitution

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on *(a)* direct UK and *(b)* European Commission involvement in the ratification process of the EU constitution by individual member states by means of (i) official visits and (ii) funding for information projects; and if he will make a statement. [10084]

**Mr. Douglas Alexander:** Individual member states are responsible for their own ratification of the EU constitutional treaty, including the organisation of official visits and the allocation of funds for information projects. The Institutions of the European Union are responsible for their own communications activities. The Government are in contact with the European Parliament and the European Commission about their EU communications activities.

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the requirement under Article III-305 of the EU constitution for the United Kingdom to present a common EU position at NATO meetings where such a position has been reached; and by what mechanism the EU Foreign Minister would be permitted to address the meeting on his request. [10096]

**Mr. Douglas Alexander:** Article III-305, or any other article in the EU constitutional treaty, would not require the UK alone or any other member state to present the common EU position in NATO meetings. But Article III-305 would require all member states, including the UK, to uphold previously agreed positions in other international organisations. This provision has existed since Maastricht. Because we have a veto on foreign and defence policy, these EU positions would have been previously agreed by us.

There is no provision in the constitutional treaty for the EU Foreign Minister to request to address a meeting in NATO. However, Article III-296.2 of the EU constitutional treaty makes clear that he or she would represent agreed positions of the EU in international meetings and at international conferences, acting on behalf of the European Union. Where the EU and NATO engage in dialogue which helps develop their

strategic partnership—for example in the regular meetings between the Political and Security Committee and the North Atlantic Council—the EU Foreign Minister would present the EU policies, which we would have agreed to. This mirrors the current arrangement where the presidency presents agreed positions. The UK would, of course, be represented in both its UK and EU seats.

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the requirement under Article III-305 of the EU constitution for the United Kingdom to present a common EU position at Commonwealth meetings where such a position has been reached; and by what mechanism the EU Foreign Minister would be permitted to address the meeting on his request. [10098]

**Mr. Douglas Alexander:** Neither Article III-305, nor any other article in the EU constitutional treaty, would require the UK alone or any other member state to present the common EU position in Commonwealth meetings. But Article III-305 would require all member states, including the UK, to uphold previously agreed positions in other international organisations. This provision has existed since Maastricht. Because we have a veto on foreign and defence policy, these EU positions would have been previously agreed by us. In the Commonwealth, this requirement would apply to the UK, Malta and Cyprus.

There is no provision in the constitutional treaty for the EU Foreign Minister to request to address a Commonwealth meeting. However, Article III-296.2 of the EU constitutional treaty makes it clear that he or she would represent agreed positions of the EU in international meetings and at international conferences, acting on behalf of the European Union. So, for example, if the members of the Commonwealth were to hold a joint meeting with the European Union, the Union Minister for Foreign Affairs could represent the European Union if the meeting was relevant to his/her external portfolio. The European Union is not a member of the Commonwealth and the UK would continue to represent itself in Commonwealth meetings.

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those EU countries that have indicated a willingness to continue ratifying the EU constitution; and whether ratification would be made by *(a)* Parliament and *(b)* after a plebiscite in each case. [10099]

**Mr. Douglas Alexander:** Belgium, Malta and Estonia intend to proceed with parliamentary ratification of the EU constitutional treaty. Luxembourg held a referendum on 10 July. The Czech Republic intends to proceed with ratification of the EU constitutional treaty by referendum, although the requisite enabling legislation has yet to be passed and the Government have announced that any ratification is unlikely before mid 2006. The Irish Government have announced that they will not set a date for their referendum. Poland has not decided how, if at all, to proceed with ratification and the Polish President has said that a referendum in 2005 looks "unrealistic". The Swedish Government have announced that they will seek to postpone their parliamentary ratification process and the Finnish Government have postponed parliamentary ratification. The Danish and Portuguese Governments have postponed their referendums. The treaty was approved by Parliament in Cyprus on 30 June.

### EU Membership

**Chris Huhne:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will set out the factors underlying each of the Copenhagen criteria by which a candidate country would be assessed for membership of the EU. [10418]

**Mr. Douglas Alexander:** The Copenhagen criteria require that a state has the institutions to preserve democratic governance and human rights, a functioning market economy, and that the state accepts the obligations and intent of the EU. The EU have not set out explicit factors underlying these criteria. It is the responsibility of the Commission to advise on whether the criteria are met and then for member states to confirm this advice.

### EU Transparency

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the application of the principle of transparency in EU *(a)* whistleblower cases and *(b)* working committees. [5289]

**Mr. Douglas Alexander:** Article 1 of the Treaty on European Union provides that decisions are taken as openly as possible and as closely as possible to the citizen. The EU institutions, when dealing with both whistleblower cases and working committees, apply the EU's general rules on transparency.

Regulation 1049/2001 of the European Parliament and the Council provides for public access to European Parliament, Council and Commission documents. Under the Regulation, all official documents are accessible except when disclosure would infringe a specific public or private interest. All decisions refusing even partial access to a document may be the subject of an administrative appeal to the institution concerned. If not satisfied, applicants for information may then institute court proceedings, or appeal to the European Ombudsman.

Various working committees and groups operate under the auspices of the Council (under Article 19(3) of the Council's rules of procedure). The Council General Secretariat updates and publishes a list of such bodes. The documents of working committees can be made directly accessible to the public in accordance with Article 11 of Annex II of the Council's Rules of Procedure. (These are easily accessible on the Council's website at http://ue.eu.int/docCenter.asp?lang=en&cmsid=245)

### European Union

**Chris Huhne:** To ask the Secretary of State for Foreign and Commonwealth Affairs below what minimum share of the popular vote sustaining a Government a country would be assessed as no longer a functioning democracy for the purposes of the Copenhagen criteria applied to membership of the European Union. [9893]

**Mr. Douglas Alexander:** The Copenhagen criteria require that a candidate country have

"stability of institutions guaranteeing democracy, the rule of law, human rights and respect for and protection of minorities"

in order to open negotiations. The Copenhagen criteria do not specify a minimum share of the popular vote sustaining a Government necessary for a country to be considered democratic. The Commission is responsible for advising whether the Copenhagen criteria are met and will look at the individual circumstances of each country in reaching its assessment.

**Kate Hoey:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the basis is of the statement by the Minister for Europe in his letter to the Financial Times on 22 June regarding the cost to the UK of the EU budget proposed by the Luxembourg presidency at the European Council. [9907]

**Mr. Douglas Alexander:** The €25 billion figure was based on the final Luxembourg proposal on 17 June regarding own resources on the revenue side of the EU budget. That proposal would have excluded all community expenditure other than new member states' market related expenditure and direct payments under the Common Agricultural Policy from the calculation of the UK abatement. It also proposed other adjustments to the own resources decision so as to reduce the net contributions to the community budget of Germany, Sweden and the Netherlands. The combined effect of these changes would have meant that over the 2007 to 2013 period, the UK net contribution to the Community Budget i.e. the UK's gross contribution less the abatement and UK public and private-sector receipts would have been approximately €25 billion higher than it would have been if the current own resources system continued unchanged.

### Fissile Missile Cut-off Treaty

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on negotiations concerning the Fissile Missile Cut-off Treaty. [11052]

**Dr. Howells:** The UK has a long-standing commitment to conclude negotiations on a treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices. The UK remains committed to pushing forward substantive work on this treaty at the Conference on Disarmament in Geneva and has been pressing for negotiations to begin as soon as possible and without pre-conditions. We regret that this has not been agreed to date.

### France (Gypsies)

**Dr. Iddon:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the French Government concerning its treatment of indigenous Gypsies. [10139]

**Mr. Douglas Alexander:** My right hon. Friend the Foreign Secretary has not made representations to the French Government on this issue but officials remain in regular contact on the full range of social and human rights issues. The human rights of members of the Roma community are protected by the core international human rights instruments, to which France is a party.

### G8 Summit

**Pete Wishart:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to ensure agreements reached at the G8 summit in Perthshire this week recognise the location of the summit by referring to them as the Perthshire Declaration or Perthshire Accord. [10500]

**Ian Pearson:** The G8 Summit was held at the Gleneagles Hotel and will be known as the G8 Gleneagles Summit. Documents issued during the summit will reflect this.

### Human Rights Council

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on non-governmental organisations having a specific role as part of the peer review process proposed for the Human Rights Council. [11188]

**Ian Pearson:** If peer review is an element of the future Council's work, reports from NGOs should provide an important source of information for consideration in the process. More generally, we are strongly in favour of NGO participation in any Council being maintained at the same or greater level as in the Commission on Human Rights, and are working with our EU partners to ensure this is achieved.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the UN Secretary General's proposal to replace the UN Commission on Human Rights with a Human Rights Council. [11190]

**Ian Pearson:** The UK fully supports the Secretary-General's proposal to raise the profile, status and effectiveness of the main intergovernmental human rights forum in the UN system through replacing the Commission on Human Rights with a Human Rights Council. We believe it should be on the same footing as the Security Council and Economic and Social Council, with a clear mandate to address urgent human rights situations as and when they arise.

### Inter Institutional Agreement on Better Lawmaking

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the Inter Institutional Agreement on *(a)* business and *(b)* job creation. [9976]

**Mr. Douglas Alexander:** The 2003 Inter Institutional Agreement on Better Lawmaking provides a framework for taking forward elements of the Better Regulation agenda which require co-operation between Community institutions. These include simplifying and reducing the volume of legislation and using impact assessment for significant Council and Parliament amendments. Improving the regulatory environment in Europe and reducing the burden of regulation on business will make a real contribution to increasing European competitiveness. Dutch studies predicted that

reducing their national administrative burden by 25 per cent. could result in an increase of 1.5 per cent. in Dutch Gross Domestic Product.

### Iraq

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* role, *(b)* mandate, *(c)* budget, *(d)* diplomatic status, *(e)* level of support available from British diplomats, *(f)* personal security arrangements and *(g)* level of access to classified documents of the Secretary General/High Representative of the EU for Iraq. [10241]

**Mr. Douglas Alexander:** There is no EU Secretary General/High Representative for Iraq.

**Harry Cohen:** To ask the Secretary of State for Foreign and Commonwealth Affairs what advice and assistance the Government have provided on oil policy to the Government of Iraq since June 2004; and if he will make a statement. [11481]

**Dr. Howells:** Since June 2004 the UK Government have provided policy advice and support to Iraq on oil matters in two areas.

In August 2004 the UK Government handed an outline document to the Iraq Ministry of Oil (MoO) on transparency and business ethics. The purpose was to familiarise the MoO with international initiatives aimed at improving transparency and the importance of good practice.

The UK has also been involved with assisting the MoO on education and training issues, delivered through the UK-Iraq Joint Board on Education and Training, established in December 2003. This includes work on a Learning Needs Analysis, English Language Training, IT Strategy, and Human Resources Procedures.

**Harry Cohen:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the fiscal and regulatory frameworks for the Iraqi oil industry prepared by the Government and referred to in paragraph 11 of the Response of the Secretary of State to the Seventh Report of the Foreign Affairs Committee session 2003–04, on Foreign Policy Aspects of the War Against Terrorism; and if he will make a statement. [11516]

**Dr. Howells:** We discuss with the Iraqi Ministries their priorities on a regular basis. We had intended to prepare a paper for the Iraqi Ministry of Oil (MoO) on regulatory frameworks, but following discussion with them decided to reprioritise the funding. We are therefore not able to place a copy of the fiscal and regulatory frameworks for the oil industry in the Library of the House.

I refer my hon. Friend to the reply I gave to him today (UIN 11481) on the areas the UK has assisted the MoO on oil policy since June 2004. We are continuing to discuss with the MoO how we can help them develop an oil industry that is transparent and efficiently run.

### Israel

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what reports *(a)* NATO and *(b)* the Government have received regarding whether Israel possesses weapons of mass destruction. [11051]

**Dr. Howells:** The Government are not able to answer on behalf of NATO. We are of course aware of the widespread assumption that Israel possesses nuclear weapons, but note too that the Israeli Government have refused to confirm it.

### Middle East

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will support a nuclear weapon free zone in the Middle East. [11086]

**Dr. Howells:** The United Kingdom strongly supports the establishment of a zone free from all Weapons of Mass Destruction in the Middle East. The UK, together with the Russian Federation and United States, sponsored the Resolution on the Middle East agreed at the 1995 Nuclear Non-Proliferation Treaty Review and Extension Conference which included a call for the establishment of a such a zone.

### Sir Donald Tsang

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer to Question 6623, what the Government's policy is on the use of Sir Donald Tsang's title. [10784]

**Ian Pearson:** There is no Government Policy on the use of Donald Tsang's title, which derives from the KBE awarded to him in 1997 for his 30-year service to Hong Kong. It is for the individual concerned to decide whether they use or wish to be known by their title.

### Sudan

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Sudan regarding *(a)* the use of torture in Sudan, *(b)* summary arrest without trial, *(c)* the treatment of minorities outside Darfur and *(d)* the treatment of opposition parties in Sudan. [10895]

**Ian Pearson:** We make regular representations to the Government of Sudan on human rights, both bilaterally and through multilateral forums such as the EU-Sudan Human Rights dialogue and the sub-Joint Implementation Mechanism meetings on human rights. On 30 June we emphasised to senior Sudanese government and judicial officials the importance of human rights. The discussions covered a wide range of subjects including the use of torture and treatment of minorities.

We regularly raise with the Government of Sudan the importance of fully implementing the Comprehensive Peace Agreement and the new Interim National Constitution which make explicit provisions for the protection of human rights, fair trial and free speech. We intend to take forward these issues as part of our EU presidency.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* fairness and *(b)* effectiveness of the Sudanese judicial system.[11063]

**Ian Pearson:** The UK makes regular representations to the Government of Sudan on the need to ensure its judicial process is fair and transparent, and we have raised our concerns on a number of individual cases. We are pleased that, under the provisions of the Comprehensive Peace Agreement, the parties have committed themselves to a comprehensive review of the Sudanese judicial system, and to guaranteeing free and fair trials for all. The UK will play a leading role in supporting reform of the Sudanese justice sector. As part of our £7.2 million programme in this area, we are assisting the National Judicial Service Commission, which monitors reform.

The International Commission of Inquiry on Darfur set up by the UN Secretary-General cited shortcomings in the Sudanese criminal justice system and concluded that the Sudanese judiciary were unable or unwilling to carry out prosecutions in relation to the crimes in Darfur. UN Security Council Resolution 1593 of 31 March 2005, which we sponsored, therefore referred Darfur to the International Criminal Court. In the Prosecutor's first report to the Security Council on 19 June, he said he had sufficient grounds for a formal investigation. The decision was, in part, based on the absence of Sudanese legal proceedings relating to the cases the Prosecutor is likely to focus on.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment his Department has made of the *(a)* treatment of prisoners and *(b)* safety of political dissidents in Sudan; [11064]

(2) what assessment his Department has made of the prospect for fair and humane treatment of political activists and dissidents in Khartoum. [11065]

**Ian Pearson:** We make regular representations to the Government of Sudan regarding the treatment of prisoners and the release of political detainees. We welcome the release on 30 June of 29 political prisoners, among them the leader of the Popular Congress Party Dr. Hassan al-Turabi and General Secretary of the Beja Congress Abdulla Musa. We continue to press the Government of Sudan to release those political detainees still held.

Under the terms of the Interim National Constitution, signed on 6 June 2005, and the Comprehensive Peace Agreement (CPA), signed on 9 January 2005, the rights to freedom of thought, conscience, expression and association are guaranteed to all. They also guarantee freedom from discrimination on any grounds, including for political or other opinions. We continue to urge the parties to implement fully the CPA and to ensure that swift progress is made on the provisions on human rights.

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent peace deal for Darfur, with specific reference to the security situation; and how this peace deal relates to the Comprehensive Peace Agreement signed in 2004. [11213]

**Ian Pearson:** We welcome the signature on 5 July in Abuja, of the Declaration of Principles for the resolution of the conflict in Darfur. We congratulate the parties on this achievement, and commend the African Union (AU)-led mediation team for its efforts. This is an important step. It is the first document agreed by the parties to the Darfur conflict that deals with political, rather than humanitarian and security, issues. Although not a peace deal in itself, it sets the framework within which the negotiations towards such a deal should proceed. We are pressing the parties to return to Abuja on 24 August, the date set for resumption of talks by the AU Special Envoy Salim Salim, and to negotiate in good faith, towards a full political agreement, necessary to achieve peace in Darfur. Such an agreement will need to be complementary to the Comprehensive Peace Agreement, signed in Nairobi on 9 January. We also continue to insist that the parties abide by the commitments they have already made to improve the security situation in Darfur, notably the Humanitarian Ceasefire Agreement and the Abuja Humanitarian and Security Protocols.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment his Department has made of the security situation in Khartoum for Darfuri citizens; [11031]

(2) what assessment he has made of the risks to the safety of black African Darfuris in Khartoum. [11066]

**Ian Pearson:** There are over a million Darfuris in Khartoum, many of them Internally Displaced Persons (IDPs). We and our international partners closely monitor the living conditions of IDPs including those from other parts of the Sudan, for example through participation in the recently formed Consultative Committee on Re-planning Areas of Displacement in Khartoum. We are constantly pressing the Government of Sudan to improve conditions for IDPs, including Darfuris. We have no information that the conditions for black African Darfuri IDPs are worse than those for any other IDPs.

## UK Consular Services

**Mr. Quentin Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has for the British consulate-general in *(a)* Hamburg and *(b)* Munich; and if he will make a statement. [9879]

**Mr. Douglas Alexander:** Following the announcement my right hon. Friend the Foreign Secretary made to the House on 15 December 2004, *Official Report*, columns 137–40WS about changes to the UK's network of overseas representation, officials have been reviewing how we can provide trade, consular and other services in Germany most cost-effectively, and finalising recommendations about the precise size and structure of the British consulates in that country. The results of this work will be made public when it is finished.

## Uzbekistan

**Mr. Hands:** To ask the Secretary of State for Foreign and Commonwealth Affairs when the UK Ambassador to Tashkent last met the President of Uzbekistan, Islam Karimov. [10903]

**Mr. Douglas Alexander:** David Moran, our Ambassador to Tashkent, presented his credentials to President Karimov on 8 June 2005. The meeting was largely ceremonial. Earlier in the day, in a meeting with Foreign Minister Ganiev, Mr. Moran had said that were the opportunity to arise, he would look to discuss two principal points with the President: firstly, Mr. Karimov's concrete plans for the reforms mentioned in his 28 January speech to Parliament, and secondly, the question of allowing an international independent inquiry into the events of 12–13 May in Andizhan. In the event, President Karimov raised these issues himself, sticking to well-known Uzbek positions on both.

**Mr. Hands:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the results were of the 15 May meeting between the UK Ambassador to Tashkent and the Uzbek Deputy Foreign Minister, Nematov on political and economic reform; and what actions have resulted from this meeting. [10904]

**Mr. Douglas Alexander:** Uzbek Deputy Foreign Minister Nematov requested a meeting with our Ambassador to Tashkent, David Moran, following my right hon. Friend the Foreign Secretary's 14 May statement on Andizhan. A copy of the statement is available on the Foreign and Commonwealth Office website: www.fco.gov.uk/policy/news/press-releases. Mr. Moran told Mr. Nematov that a peaceful solution to the Andizhan situation would need to be accompanied by progress on both economic and political reforms. He noted that Uzbek President Karimov had mentioned such reforms in his 28 January 2005 speech to Parliament. A number of decrees have been issued in June by the Uzbek Government, which if implemented, might reduce the burden on businesses, for example by reducing the scope for official inspections.

Uzbek Foreign Minister Ganiev has undertaken to discuss these areas with EU Heads of Mission in Tashkent. We look forward to this opportunity for dialogue towards reform. In the meantime Mr. Moran has also had meetings with both the Deputy Interior Minister to discuss prison reforms, and the Deputy Justice Minister to discuss judicial reform and the abolition of the death penalty.

## TREASURY

### ATMs

**John Robertson:** To ask the Chancellor of the Exchequer (1) what assessment he has made of trends in the numbers of fee-charging ATMs; and if he will make a statement; [10824]

(2) what assessment he has made of whether the LINK interchange fee is sufficient to cover ATM transactions; [10825]

(3) what assessment he has made of the ability of people in rural areas to gain access to cash without incurring charges; [10826]

(4) if he will make it his policy to *(a)* cap charges made by ATM machines at £1.50 and *(b)* ensure that all non-financial ATM transactions remain free; [10827]

(5) whether the Treasury plans to assess the effectiveness of LINK rules introduced on 1 July to improve signage on fee-charging ATMs; [10828]

(6) what assessment he has made of the likely level of charges that would be incurred by consumers in a year if charges were to be introduced for withdrawing cash from all ATMs; [10829]

(7) what assessment he has made of the ability of elderly people to gain access to cash without incurring charges; [10830]

(8) what discussions Her Majesty's Treasury has had with LINK regarding consumer representation on its board; [10831]

(9) if he will make it his policy to track and publish trends in the growth of fee-charging transactions at ATMs; and if he will make a statement. [10832]

**John Healey:** The Government have been closely monitoring the situation regarding ATM charges and will continue to do so. This includes monitoring the effectiveness of LINK rules on signage and regular discussion of relevant issues with LINK and other interested parties. The Office of Fair Trading's Payment Systems Task Force, established to address competition problems in payment systems, is about to start work on LINK Access and Governance.

We believe it is important that people are able to obtain cash free of charge. Recently, there has been an increase in the number of surcharging ATMs in the UK. However, statistics on the number of withdrawals at these ATMs indicate that most are to be found in locations where there are only a low number of transactions and where interchange fees would therefore be insufficient to cover the operating costs of the ATM, were it to offer free withdrawals. The Government believes that direct regulation of retail prices should only be a last resort, implemented where it has been very clearly established that competition is not feasible, or where a monopoly supplier would be the most efficient option.

Overall, relatively few withdrawals are made at charging machines. Over 96 per cent. of withdrawals are free of charge to consumers and there are over 30,000 free ATMs in the UK. The number of free ATMs is still increasing and the Government does not see any reason to believe that free ATMs are under threat. There are also alternative ways to obtain free access to cash. Many of the major banks now offer their customers free over-the-counter withdrawals at the Post Office and 'Cash Back' is widely available in supermarkets and shops.

The Government have responded to the Treasury Select Committee's recent report on cash machine charges (Treasury Committee's Fifth Report of Session 2004–05) and the Treasury Committee is expected to publish the response shortly, once it has been re-appointed following the general election. The Government's response to the Treasury Select Committees' report sets out policy on the issue in more detail.

## Bedfordshire (Statistics)

**Mrs. Dorries:** To ask the Chancellor of the Exchequer what the levels of long-term *(a)* adult and *(b)* youth unemployment were in (i) the county of Bedfordshire and (ii) the constituency of Mid-Bedfordshire in each year since 1997. [11009]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mrs. Nadine Dorries dated 12 July 2005:*

The National Statistician has been asked to reply to your Parliamentary Question about unemployment. I am replying in his absence. (11009)

Table 1 attached shows the numbers of long-term adult unemployed (over 12 months) and long-term youth (aged 16 to 24) unemployed in the county of Bedfordshire, for the periods ending in February each year from 1998 to 2004, the latest period for which data are available. Table 2 shows similar information for the Mid-Bedfordshire constituency. These estimates are based on annual local area Labour Force Survey data which as with any sample survey is subject to sampling variability.

The Office for National Statistics also compiles statistics of those claiming Jobseeker's Allowance for local areas. Tables 3 and 4 attached show the annual average number of adult Job Seeker's Allowance claimants, claiming for over 12 months, and the corresponding number of Job Seeker's Allowance claimants aged 18 to 24 (claiming for over 12 months) resident in the county of Bedfordshire and Mid- Bedfordshire respectively for each year from 1997 to 2004.

The data in tables 3 and 4 are published on the Office for National Statistics Nomis(r) website: www.nomisweb.co.uk.

*Table 1: Numbers of long-term unemployed (over 12 months) resident in the county of Bedfordshire*

| | | Thousands |

Jobcentre Plus Administrative system

**Mrs. Dorries:** To ask the Chancellor of the Exchequer how many primary school-aged children there are expected to be in *(a)* Bedfordshire local education authority and *(b)* the constituency of Mid-Bedfordshire in each of the next five academic years. [11011]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Jil Matheson to Mrs. Nadine Dorries, dated 12 July 2005:*

The National Statistician has been asked to reply to your question concerning the number of primary school age children there are predicted to be in Bedfordshire Local Education Authority and the constituency of Mid-Bedfordshire for the next five academic years. I am replying in his absence. (11011)

Table 1 shows the mid-year population of 5–11 year olds in the County of Bedfordshire taken from the official 2003-based Sub-national Population Projections for England. The projections are produced by Local Authority area and so data at a Local Education Area can only be provided if the areas are coterminous, which in this case they are. These population projections are demographic trend-based projections that indicate what the population levels of an area are likely to be if recently observed trends in fertility, mortality and migration were to continue. They take no account of future development which may affect trends.

Unfortunately, the Mid Bedfordshire Parliamentary Constituency area is not coterminous with the Local Authority areas—it covers parts of Mid Bedfordshire District and South Bedfordshire District and so it is not possible to provide projection data for this area.

*Table 1: Bedfordshire projected population of [1]primary school age children*

| | Thousands |
|---|---|
| 2005 | 35.3 |
| 2006 | 34.9 |
| 2007 | 34.5 |
| 2008 | 34.3 |
| 2009 | 34.3 |
| 2010 | 34.4 |

ONS 2003-based Subnational population projections

**Mrs. Dorries:** To ask the Chancellor of the Exchequer how many pensioners lived in the constituency of Mid-Bedfordshire in the last year for which figures are available. [11012]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mrs. Nadine Dorries, dated 12 July 2005:*

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many pensioners lived in the constituency of Mid-Bedfordshire in the last year for which figures are available. I am replying in his absence. (11012)

Mid-year population estimates are not available for Parliamentary Constituencies. I have therefore provided figures taken from the 2001 Census.

The table below shows the number of people of pensionable age living in Mid-Bedfordshire constituency on Census day (29 April 2001). The figures have been extracted from Table CAS002 on the CD supplement to the "Census 2001 Census Area Statistics for Parliamentary Constituencies in England and Wales", which is available on request from Census Customer Services (census.customerservices@ons.gov.uk).

*Total number of people, and those of pensionable age living in Mid-Bedfordshire constituency on Census day (29 April 2001)*

| England Area | All people | People of pensionable age[1] |
|---|---|---|
| Mid-Bedfordshire | 92,855 | 14,492 |

[1] Pensionable Age is 65 and over for males and 60 and over for females

*Source:*
2001 Census Report for Parliamentary Constituencies

**Mrs. Dorries:** To ask the Chancellor of the Exchequer how many people were in employment in the Mid-Bedfordshire constituency in April of each year since 2000. [11013]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mrs. Nadine Dorries, dated 12 July 2005:*

The National Statistician has been asked to reply to your Parliamentary Question about employment. I am replying in his absence. (11013)

Table 1 attached shows the number of employed persons, aged 16 and over, resident in the Mid-Bedfordshire constituency for the periods ending in February each year from 2000 to 2004, the latest period for which data are available. These estimates are based on annual local area Labour Force Survey data which, as with any sample survey, is subject to sampling variability.

The data are published on the Office for National Statistics Nomis(r) website: www.nomisweb.co.uk.

*Table 1: Number of persons aged 16 and over in employment resident in the Mid-Bedfordshire constituency*

| 12 months ending February | Thousand |
|---|---|
| 2000 | 44 |
| 2001 | 49 |
| 2002 | 50 |
| 2003 | 52 |
| 2004 | 58 |

*Source:*
Annual local area Labour Force Survey

**Mrs. Dorries:** To ask the Chancellor of the Exchequer of how many deaths in *(a)* the county of Bedfordshire and *(b)* the constituency of Mid-Bedfordshire alcohol was the primary cause in each year since 2000. [11015]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mrs. Nadine Dorries, dated 12 July 2005:*

The National Statistician has been asked to reply to your recent question asking in respect of how many deaths in *(a)* the county of Bedfordshire and *(b)* the constituency of Mid- Bedfordshire alcohol was the primary cause in each year since 2000. I am replying in his absence. (11015)

The latest year for which figures are available is 2004. The attached table shows the numbers of deaths among residents of the County of Bedfordshire and Mid Bedfordshire Parliamentary Constituency where the underlying cause of death indicated a condition directly related to alcohol use in the years 2000 to 2004.

*Alcohol-related deaths[1] to usual residents of the county of Bedfordshire[2] and Mid Bedfordshire parliamentary constituency, registered 2000 to 2004*

| | Number of deaths | |
|---|---|---|
| | Bedfordshire | Mid Bedfordshire |
| 2000 | 28 | 6 |
| 2001 | 32 | 9 |
| 2002 | 28 | 7 |
| 2003 | 40 | 9 |
| 2004 | 34 | 9 |

[1] For the year 2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes used by ONS to define alcohol-related deaths are listed below:
291—Alcoholic psychoses
303—Alcohol dependence syndrome
305.0—Non-dependent abuse of alcohol
425.5—Alcoholic cardiomyopathy
571—Chronic liver disease and cirrhosis
E860—Accidental poisoning by alcohol
For the years 2001–04 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were used:
F10—Mental and behavioural disorders due to use of alcohol
142.6—Alcoholic cardiomyopathy
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fibrosis and cirrhosis of liver
X45—Accidental poisoning by and exposure to alcohol
Deaths were selected using the original underlying cause.

[2] Figures provided relate to the current county of Bedfordshire. This excludes the unitary authority of Luton, created in 1997, which was part of the former county.

The selection of codes to define alcohol-related deaths is described in:
Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. "Health Statistics Quarterly 17, pp 5–14".

## Birth, Marriage and Death Certificates

**Anne Milton:** To ask the Chancellor of the Exchequer if he will establish a central record of applications for replacement certificates for births, marriages and deaths. [11409]

**John Healey:** The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

*Letter from Dennis Roberts to Anne Milton, dated 12 July 2005:*

The Registrar General for England and Wales has been asked to reply to your question asking if a central record of applications for replacement certificates for birth, marriage and death with be established. I am replying in his absence. (11409)

By law, anyone who can provide sufficient information to identify a register entry can buy a certified copy of that entry (certificate) from the General Register Office (GRO) or the Register Office where the event took place.

Annually, approximately 4.6 million certificates are issued by the local registration service from 366 offices and a further 2 million certificates issued by the General Register Office. Due to the number of providers and scale of the applications received, there are no plans to record application details on a central database.

## Breast Cancer

**Mrs. Dorries:** To ask the Chancellor of the Exchequer what the incidence of breast cancer per 1,000 women has been in *(a)* England, *(b)* the county of Bedfordshire and *(c)* Mid-Bedfordshire parliamentary constituency in each year since 1990. [11104]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mrs. Nadine Dorries, dated 12 July 2005:*

The National Statistician has been asked to reply to your recent Parliamentary Question concerning what the incidence of breast cancer per 1,000 women has been in *(a)* England, *(b)* the County of Bedfordshire and *(c)* Mid-Bedfordshire parliamentary constituency in each year since 1990. I am replying in his absence. (11104)

The most recent available figures for the incidence of female breast cancer are for the year 2002. Age-standardised incidence rates (directly standardised to the European standard population) for England and the current county of Bedfordshire in each year since 1990 are given in the attached table. The rates have been provided per 100,000 women to assist the interpretation of the trends. Incidence rates are not available centrally for Parliamentary Constituencies.

*Directly age-standardised incidence rates1 of female breast2 cancer per 100,000 women in England and Bedfordshire, 1990–2002*

| | *England* | *Bedfordshire*[3] |
|---|---|---|
| 1990 | 98.9 | 102.6 |
| 1991 | 105.3 | 109.1 |
| 1992 | 106.6 | 152.6 |
| 1993 | 101.5 | 109.5 |
| 1994 | 103.7 | 121.2 |
| 1995 | 103.9 | 115.0 |
| 1996 | 105.1 | 97.9 |
| 1997 | 108.1 | 159.4 |
| 1998 | 112.7 | 139.8 |
| 1999 | 116.5 | 101.6 |
| 2000 | 113.8 | 119.5 |
| 2001 | 114.5 | 123.9 |
| 2002 | 114.0 | 109.7 |

[1] Age-standardised rates per 100,000 population are directly standardised to the European standard population. In detailed analyses of trends in incidence and mortality over time for a particular cancer, ONS use age-standardised rates. These control for differences in the size and age structure of the population and allow unbiased comparison of rates over time.

[2] From 1990 to 1994, International Classification of Diseases, Ninth Revision (ICD-9) code 174; from 1995 to 2002, International Classification of Diseases, Tenth Revision (ICD-10) code C50.

[3] Figures provided relate to the current county of Bedfordshire. This excludes the unitary authority of Luton, created in 1997, which was part of the former county.

Office for National Statistics

## Census

**Lorely Burt:** To ask the Chancellor of the Exchequer whether any person sued the Registrar General in the English courts for breach of confidence for releasing personal information from the closed 1901 decennial census for England and Wales between 1975 and 1996. [11652]

**John Healey:** The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

*Letter from Dennis Roberts to Lorley Burt, dated 12 July 2005:*

The National Statistician and Registrar General for England and Wales, has been asked to reply to your recent question asking how many persons sued the Registrar General in the English courts for breach of confidence for releasing personal information from the closed 1901 decennial census for England and Wales between 1975 and 1996. I am replying in his absence. (11652)

There have been no instances of court action against the Registrar General for breach of confidence for releasing personal information from the 1901 decennial census for England and Wales between 1975 and 1996.

## Expenditure and Revenue (Scotland)

**Mr. Salmond:** To ask the Chancellor of the Exchequer if he will estimate the total relative surplus or deficit of Government expenditure and revenue in Scotland, *(a)* including and *(b)* excluding the gross domestic product share of the United Kingdom surplus or deficit of the general Government borrowing requirement, for each year since 1978–79, assuming a constant relationship between the Scottish deficit, as published in the Government Expenditure and Revenue in Scotland 2002–03, and the United Kingdom general Government borrowing requirement, excluding privatisation proceeds and North Sea revenues and including in Scotland's revenue total a 90 per cent. share of North Sea oil revenue and a gross domestic product share of privatisation proceeds. [11108]

**Mr. Des Browne:** The Treasury does not produce a breakdown of aggregate revenue and borrowing by country and region. "Government Expenditure and Revenue in Scotland" is produced by the Scottish Executive.

### Hiatt Handcuffs

**Miss Kirkbride:** To ask the Chancellor of the Exchequer when the Customs investigation into large Hiatt handcuffs is expected to be concluded. [10857]

**Dawn Primarolo:** HM Revenue and Customs expect the investigation to be concluded very soon.

### Hospital-acquired Infections

**Mr. Lidington:** To ask the Chancellor of the Exchequer when the Office for National Statistics will have available statistics to show the number of deaths attributable to *Clostridium difficile* in 2004; and if he will make a statement. [5037]

**John Healey** *[holding answer 16 June 2005]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. David Lidington, dated 12 July 2005:*

The National Statistician has been asked to reply to your recent Parliamentary Question asking when the Office for National Statistics (ONS) will have available statistics to show the number of deaths attributable to *Clostridium difficile* in 2004. I am replying in his absence. (5037)

In the Tenth Revision of the International Classification of Diseases (ICD-10), deaths involving enterocolitis due to *Clostridium difficile* can all be identified from the code A04.7. Enterocolitis is the commonest illness caused by *C. difficile* infection. For causes other than enterocolitis that are also known to be associated with *C. difficile*, it is not possible to identify from ICD codes alone the number of deaths where *C. difficile* actually contributed to the death. For this reason, the only routinely available mortality statistics on *C. difficile* are those where it was associated with enterocolitis. The relevant figures for 2004 will be available in November 2005.

ONS is working with the Health Protection Agency on a special study to identify the total number of deaths where *C. difficile* was mentioned on the death certificate.

### Illegitimate Births

**Mr. Amess:** To ask the Chancellor of the Exchequer if he will estimate the rate of overall illegitimate births as a percentage of all births in each of the past 20 years: [10973]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Mr. David Amess, dated 12 July 2005:*

The National Statistician has been asked to reply to your recent Parliamentary Question asking for the percentage of births which were illegitimate, for each of the last 20 years. I am replying in his absence. (10973)

The information requested is shown in the attached table.

*Percentage of live births born outside marriage 1985 to 2004 England and Wales*

| | Percentage outside marriage |
|---|---|
| 1985 | 19.2 |
| 1986 | 21.4 |
| 1987 | 23.2 |
| 1988 | 25.6 |
| 1989 | 27.0 |
| 1990 | 28.3 |
| 1991 | 30.2 |
| 1992 | 31.2 |
| 1993 | 32.2 |
| 1994 | 32.4 |
| 1995 | 33.9 |
| 1996 | 35.8 |
| 1997 | 37.0 |
| 1998 | 37.8 |
| 1999 | 38.9 |
| 2000 | 39.5 |
| 2001 | 40.0 |
| 2002 | 40.6 |
| 2003 | 41.4 |
| 2004 | 42.2 |

*Source:*
ONS

### Inland Revenue

**Mr. Laws:** To ask the Chancellor of the Exchequer how many staff have been employed in the Inland Revenue Contact Centre Network in each quarter from Q2 2001 to Q2 2005; and if he will make a statement. [9295]

**Dawn Primarolo:** The following table shows the staff numbers in full time equivalents (FTE) in all of the Inland Revenue Contact Centre network by quarter from Q2 2001 to May 2005.

*Inland Revenue contact centre network*

| Quarter | Staff Numbers (FTE) rounded |
|---|---|
| *2001* | |
| Q2 | 1,600 |
| Q3 | 1,700 |
| Q4 | 1,900 |
| *2002* | |
| Q1 | 2,300 |
| Q2 | 2,700 |
| Q3 | 3,500 |
| Q4 | 3,700 |
| *2003* | |
| Q1 | 4,300 |
| Q2 | 5,200 |
| Q3 | 5,200 |
| Q4 | 5,500 |
| *2004* | |
| Q1 | 6,100 |
| Q2 | 7,200 |
| Q3 | 7,600 |
| Q4 | 7,600 |
| *2005* | |
| Q1 | 8,300 |
| Q2[1] | 8,300 |

[1] Two months only.

The increased number of staff from 2001 Q2 to 2005 Q2 is a result of increased levels of business, including tax credits, transfers of calls from other parts of the business (regions) and the setting up of more helplines.

## Oil Prices

**Chris Huhne:** To ask the Chancellor of the Exchequer (1) if he will estimate the impact on *(a)* the harmonised index of consumer prices and *(b)* the rate of increase of the harmonised index of consumer prices of a sustained $10 rise in the world price of a barrel of crude oil after (i) one year and (ii) two years; [11030]

(2) if he will estimate the direct revenue effect of a sustained $10 rise in the world price of a barrel of crude oil on the revenue accruing to the Exchequer in the *(a)* first and *(b)* second financial years following the rise. [11035]

**John Healey:** The impact of higher oil prices on the public finances is discussed in Box 2.5 in the 2004 pre-Budget report.

The Government will publish an update of the effect of oil prices on the UK's public finances and updated forecasts for the UK and world economies in pre-Budget report 2005 as usual, taking into account all relevant factors and developments, including oil prices.

**Chris Huhne:** To ask the Chancellor of the Exchequer what the average *(a)* dollar and *(b)* sterling price for a barrel of crude oil extracted in the United Kingdom was in each of the last 10 years; and how much revenue accrued to the Exchequer from oil production in each year. [11034]

**John Healey:** The following table gives DTI estimates for each of the last 10 years of the average sterling price received by UK Continental Shelf producers for a barrel of crude. These have been converted into US dollar prices using the average annual exchange rate for each year. All prices are nominal.

| | *Estimated price of crude oil extracted in the UK (£ per barrel)* | *Estimated price price of crude oil in extracted in the UK ($ per barrel)* |
|---|---|---|
| 1995 | 10.6 | 16.7 |
| 1996 | 12.7 | 19.8 |
| 1997 | 11.2 | 18.4 |
| 1998 | 7.9 | 13.0 |
| 1999 | 10.4 | 16.9 |
| 2000 | 18.1 | 27.3 |
| 2001 | 16.5 | 23.7 |
| 2002 | 16.6 | 24.9 |
| 2003 | 17.9 | 29.1 |
| 2004 | 20.1 | 36.7 |

Information on United Kingdom tax revenues from North Sea oil and gas production can be found at: "http://www.hmrc.gov.uk/stats/corporate_tax/table11-11.pdf"

## Petrol Prices

**Mr. Amess:** To ask the Chancellor of the Exchequer (1) what research he is *(a)* conducting and *(b)* planning to conduct into the effects of higher fuel prices on domestic food prices; [10887]

(2) hat research he is *(a)* conducting and *(b)* planning to conduct into the effects of higher fuel prices on air travel. [10888]

**John Healey:** The Chancellor considers relevant social, economic and environmental factors in making taxation policy.

All taxation policy is kept under review and any changes are announced by the Chancellor in the context of his Budget statement.

## PFI Projects

**Mr. Hayes:** To ask the Chancellor of the Exchequer what the total value is of off-balance sheet private finance initiative contracts. [8975]

**John Healey:** The Treasury publication "PFI: Meeting the Investment Challenge" showed that £15.3 billion of PFI projects by capital value are accounted for off-balance sheet. Data on projects to have reached financial close since this publication can be established from departmental accounts (available on Department's websites) and the HM Treasury "PFI Signed Projects List" (available online at www.hm-treasury.gov.uk). The balance sheet treatment of PFI projects is determined by an independent auditor following United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standards issued by the independent Accounting Standards Board (ASB).

## Population Statistics

**Mr. Paterson:** To ask the Chancellor of the Exchequer what the population of *(a)* Oswestry borough and *(b)* North Shropshire district has been in each of the last five years for which figures are available. [10929]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Mr. Owen Paterson, dated 12 July 2005:*

The National Statistician has been asked to reply to your question concerning the population of *(a)* Oswestry Borough and *(b)* North Shropshire District in each of the last five years for which figures are available. I am replying in his absence. (10929)

The most recent population estimates published are for mid-2003. (Estimates for mid-2004 will be published on 25 August 2005.) Therefore, the table below provides population estimates for Oswestry Borough and North Shropshire District for mid-1999 to mid-2003.

*Mid-year population estimates: 1999 to 2003*

| | *North Shr shire district* | *Thousand Oswestry borough* |
|---|---|---|
| 1999 | 55.9 | 36.1 |
| 2000 | 56.5 | 36.8 |
| 2001 | 57.2 | 37.3 |
| 2002 | 58.2 | 37.7 |
| 2003 | 58.4 | 38.2 |

*Note:*
Population estimates are shown in thousands and rounded to the nearest 100 people. *Source:*
Office for National Statistics

**Mr. Paterson:** To ask the Chancellor of the Exchequer what the age structure of the population of *(a)* Oswestry borough and *(b)* North Shropshire district has been in each of the last five years for which figures are available. [10930]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mr. Owen Paterson, dated 12 July 2005:*

The National Statistician has been asked to reply to your question concerning the age structure of the population of *(a)* Oswestry borough and *(b)* North Shropshire district in each of the last five years for which figures are available. I am replying in his absence. (10930)

The most recent population estimates published are for mid-2003. (Estimates for mid-2004 will be published on 25 August 2005.) Therefore, the attached Table 1 provides data for Oswestry borough and Table 2 for North Shropshire district for mid-1999 to mid-2003. I have provided population estimates by sex and quinary age band for both of these areas.

Tables showing these data and data for an alternative age grouping (0–15, 16–59/64, and 60/65+) can be found on the National Statistics website under "Current Releases" at www.statistics.gov.uk/popest.

*Table 1: Mid-year population estimates for Oswestry borough*

*Thousand*

| Age bands | Mid-1999 | | | Mid-2000 | | | Mid-2001 | | |
|---|---|---|---|---|---|---|---|---|---|
| | Males | Females | Total | Males | Females | Total | Males | Females | Total |
| All ages | 17.3 | 18.8 | 36.1 | 17.7 | 19.0 | 36.8 | 18.1 | 19.3 | 37.3 |
| 0 | 0.2 | 0.2 | 0.4 | 0.2 | 0.2 | 0.4 | 0.2 | 0.2 | 0.4 |
| 1–4 | 0.9 | 0.8 | 1.7 | 0.8 | 0.8 | 1.6 | 0.8 | 0.8 | 1.6 |

Office for National Statistics

## Press Officers

**Mr. Burstow:** To ask the Chancellor of the Exchequer how many press officers the Department employed in each year since 1997; and what the cost was in each year. [8135]

**John Healey:** I refer the hon. Member to the answers given on 1 April 2004, *Official Report*, column 1683W and 26 April 2004, *Official Report*, column 754W.

The number of press officers employed has remained broadly constant at nine, increasing to 11 in 2004–05.

The costs for 2004–05 are £317,559.

## Procurement Directive

**Malcolm Bruce:** To ask the Chancellor of the Exchequer if he will place in the Library correspondence between *(a)* his Department and *(b)* the Office of Government Commerce and the European Commission in relation to implementing Article 45 of EU Public Procurement Directive 2004/18/EC. [10705]

**John Healey:** The Treasury and the Office of Government Commerce have had no correspondence with the European Commission about the implementation of Article 45 of Directive 2004/18/EC.

## Public Bills

**Mr. Amess:** To ask the Chancellor of the Exchequer (1) if he will list the public bills for which his Department is responsible which were reprinted during each of the last three sessions; what the reason was for reprinting each bill; and what the cost was; [10880]

(2) if he will list the public acts for which his Department is responsible which were reprinted during each of the last three years; what the reason was for reprinting each Act; and what the cost was. [10943]

**John Healey:** Bills can be reprinted several times during the course of their passage through both Houses of Parliament. The printing of Bills is, however, a matter for the respective Bill Offices in both Houses. Detailed information relating to the reprinting of Treasury Bills is not available.

The responsibility for the printing of Acts of Parliament rests with the Queen's Printer within Her Majesty's Stationery Office who has let a contract for their printing and publication under which the contractor is obliged to maintain availability while an Act remains in force. No information is available as to whether any Treasury sponsored Acts have been reprinted.

## Self-invested Personal Pensions

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer (1) what estimate he has made of the numbers of buy to let properties which will be eligible to put into self-invested personal pensions from April 2006; [11153]

(2) what estimate he has made of the tax foregone as a result of the ability to put buy and let properties into self-invested personal pensions from April 2006. [11164]

**John Healey:** I refer my hon. Friend to the reply my hon. Friend the Economic Secretary gave to the hon. Member for Carmarthen, East and Dinefwr (Adam Price) on 14 June 2005, *Official Report*, column 340W.

## Single Mothers

**Mr. Amess:** To ask the Chancellor of the Exchequer what percentage of 16 to 19-year-olds are single mothers in each county in England and Wales. [11047]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mr. David Amess, dated 12 July 2005:*

The National Statistician has been asked to reply to your recent question concerning the percentage of 16–19 year olds, who are single mothers in each county of England and Wales. I am replying in his absence. (11047)

The numbers of female lone parents aged 16–19 resident in private households by county and unitary authorities of England and Wales, produced from the 2001 Census, are shown in the attached table. The proportions they represent of all females aged 16–19 is also shown.

*Table C0524: All females and lone parent female persons aged 16–19—Population: females aged 16–19—Geographical level: counties/ UAs of England and Wales*

2001 Census

### Substance Abuse (Scotland)

**Mr. Hood:** To ask the Chancellor of the Exchequer how many deaths occurred in Scotland as a result of *(a)* heroin and methadone abuse and *(b)* alcohol abuse in each year from 2001 to 2004; and if he will make a statement. [11493]

**John Healey:** This is a devolved matter and the responsibility of the Scottish Executive. My hon. Friend could pursue the matter with the Chief Executive of the General Register Office for Scotland.

### Tax Credits

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will commission research into the effects of making tax credit awards for fixed periods; and if he will make a statement. [8563]

**Dawn Primarolo:** The Government carefully examined the issue of how tax credits could respond to changes in families' income and circumstances, and consulted on it when designing the child and working tax credits. A consultation document, 'New Tax Credits Supporting families, making work pay and tackling poverty', was published in July 2001.

In the light of that consultation exercise, the April 2002 publication "The Child and Working Tax Credits: The Modernisation of Britain's Tax and Benefit System Number Ten" set out how the system would work.

The Government decided that tax credits should be designed to tailor support to families' specific circumstances, and to respond to their changing needs, providing most support when their need is greatest.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many staff work on the Inland Revenue tax credits complaints helpline; what the average number of calls *(a)* received and *(b)* answered was on each day in the last period for which figures are available; and if he will make a statement. [9841]

**Dawn Primarolo:** I refer the hon. Member to the answer I gave him on 6 July 2005, *Official Report*, columns 436–37W.

### Testicular Cancer

**Mrs. Dorries:** To ask the Chancellor of the Exchequer what the incidence of testicular cancer per 1,000 men has been in *(a)* England, *(b)* the county of Bedfordshire and *(c)* Mid-Bedfordshire parliamentary constituency in each year since 1990. [10907]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mrs. Nadine Dorries, dated 12 July 2005:*

The National Statistician has been asked to reply to your recent Parliamentary Question concerning what the incidence of testicular cancer per 1,000 men has been in *(a)* England, *(b)* the County of Bedfordshire and *(c)* Mid-Bedfordshire Parliamentary Constituency in each year since 1990.I am replying in his absence. (10907)

The most recent available figures for the incidence of testicular cancer are for the year 2002. Age-standardised incidence rates (directly standardised to the European standard population) for England in each year since 1990 are given in the attached table. The rates have been provided per 100,000 men to assist the interpretation of the trends.

In each of the years since 1990 there were fewer than 20 cases of testicular cancer in the current county of Bedfordshire, too few to reliably calculate annual age-standardised incidence rates. For the period 1990–2002 the age-standardised incidence rate for this county was 6.2 per 100,000 men.

Incidence rates are not available centrally for Parliamentary Constituencies.

*Directly age-standardised incidence rates[1] of testicular[2] cancer per 100,000 men in England, 1990–2002*

| 2001 | 6.6 |
| 2002 | 6.2 |

[1] Age-standardised rates per 100,000 population are directly standardised to the European standard population. In detailed analyses of trends in incidence and mortality over time for a particular cancer, ONS use age-standardised rates. These control for differences in the size and age structure of the population and allow unbiased comparison of rates over time.

[2] From 1990 to 1994, International Classification of Diseases, Ninth Revision (ICD-9) code 186; from 1995 to 2002, International Classification of Diseases, Tenth Revision (ICD-10) code C62.

Office for National Statistics

### Unleaded Petrol

**Mr. Amess:** To ask the Chancellor of the Exchequer if he will reduce the tax on unleaded petrol. [10886]

**John Healey:** The Government recently announced that it will not go ahead with the planned inflation increase of fuel duties on 1 September—including for rebated oils, biofuels and road fuel gases—and will review the position again at the time of the pre-Budget report.

## HOME OFFICE

### Airsoft Games

**Michael Gove:** To ask the Secretary of State for the Home Department what representations he has received from participants in airsoft games about the impact of Government legislation on the sport. [10169]

**Hazel Blears:** We have received and are considering representations from a range of individuals and organisations about the effect the Violent Crime Reduction Bill will have on airsoft games. Only realistic

imitation firearms will be caught by the proposed ban on manufacture, import or sale and owners of existing guns will be able to retain and use them.

### Airwave

**Mr. Henderson:** To ask the Secretary of State for the Home Department what assessment he has made of the performance of the police airwave system during the floods earlier this year in Carlisle. [11576]

**Hazel Blears:** No such assessment has been made because Airwave is not yet in operational use in Cumbria.

**Mr. Henderson:** To ask the Secretary of State for the Home Department whether the current status of the police airwave programme is *(a)* operational and *(b)* ready for service. [11582]

**Hazel Blears:** Airwave is available to all 51 forces in England, Wales and Scotland. Airwave is in operational use (in full or in part) in 48 forces.

**Mr. Crabb:** To ask the Secretary of State for the Home Department what *(a)* performance targets have been set and *(b)* performance-related payments have been made to O2 Airwave in connection with the contract to provide the Tetra telecommunications network. [11592]

**Hazel Blears:** There are a range of performance targets set out in the contract with O2 covering matters such as service availability and resolution of faults. There are no performance-related payments for exceeding these targets. There are, however, penalties for failing to meet them.

### ASBOs

**Mr. Hood:** To ask the Secretary of State for the Home Department how much funding is expected to be allocated for anti-social behaviour orders in 2005. [10165]

**Hazel Blears:** We do not allocate any funding for antisocial behaviour orders (ASBOs). There are currently six local agencies who can apply for ASBOs and it is the responsibility of these agencies to meet any associated costs.

### Assaults (Race/Religion)

**David T.C. Davies:** To ask the Secretary of State for the Home Department (1) what estimate he has made of the number of members of the *(a)* Jewish, *(b)* Muslim, *(c)* Hindu, *(d)* Sikh and *(e)* Christian faiths who were found guilty of assaults in which race or religion was assessed as a factor in each of the last three years for which figures are available; [8057]

(2) how many people of *(a)* white European, *(b)* white British, *(c)* African-Caribbean and *(d)* Gypsy Traveller extraction were convicted of assaults in which race or religion was assessed as a factor in each of the last three years for which figures are available. [8060]

**Paul Goggins:** It is not possible from the statistics collected on the Home Office Court Proceedings Database to identify different religious groups, as this data is not collected centrally. Nor is there currently robust data available on the ethnicity of people convicted of assaults, in which race or religion was assessed as a factor. Available information on the number of offenders found guilty of racial assaults, religious assaults and racial or religious assaults, England and Wales, 2001–03 is contained in the following table. Data for 2004 statistics will be available in the autumn.

*Number of offenders found guilty at all courts for racial, religious and racial or religious assault offences, England and Wales 2001–03*[1]

| *Offence* | *Statute* | *2001* | *2002* | *2003* |
|---|---|---|---|---|
| Racially aggravated common assault | Crime and Disorder Act 1998 S.29(1Xc)and(3) | 220 | 284 | 336 |
| Religiously aggravated common assault | Crime and Disorder Act 1998 S.29(1Xc)and(3) | n/a | 1 | 4 |
| Racially or religiously aggravated common assault | Crime and Disorder Act 1998 S.29(1)(c)and(3) | n/a | 2 | 20 |
| Racially aggravated actual bodily harm | Offences against the Person Act 1861 S.47 (in part) as amended by Crime and Disorder Act 1998 S.29 (1) *(b)* and (2) | 83 | 122 | 118 |
| Religiously aggravated actual bodily harm | Offences against the Person Act 1861 S.47 (in part) as amended by Crime and Disorder Act 1998 S.29 (1) *(b)* and (2) | n/a | n/a | 2 |
| Racially or religiously aggravated actual bodily harm | Offences against the Person Act 1861 S.47 (in part) as amended by Crime and Disorder Act 1998 S.29 (1) *(b)* and (2) | n/a | n/a | 6 |
| Racially aggravated malicious wounding or GBH | Offences Against the Person Act 1861 S.20 as amended by Crime and Disorder act S.29 (1) *(a)* and (2) | 28 | 19 | 19 |
| Religiously aggravated wounding or inflicting grievous bodily harm (inflicting bodily injury with or without weapon | Offences Against the Person Act 1861 S.20 as amended by Crime and Disorder act S.29 (1) *(a)* and (2) | n/a | 2 | 2 |
| Racially or religiously aggravated malicious wounding or GBH | Offences Against the Person Act 1861 S.20 as amended by Crime and Disorder act S.29 (1) *(a)* and (2) | n/a | 1 | 10 |
| Total | | 331 | 431 | 517 |

n/a = not available.

[1] These data are on a principal offence basis.

### Asylum Seekers

**Bob Russell:** To ask the Secretary of State for the Home Department how many asylum seekers from the Kurdish area of Iraq have been deported in each of the last 24 months for which figures are available, broken down by destination in Iraq to which they were sent. [9140]

**Mr. McNulty:** The nationality of asylum applicants is recorded by the Home Office. However, information on the region of a country that asylum applicants originate from is not recorded.

Information on the destination for the removal of failed asylum seekers has only been available since the beginning of 2004. The latest published information on removal of asylum seekers covers the first quarter of 2005.

Information on the number of asylum seekers removed can be found on the Home Office website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

### Community Support Officers

**Lynne Featherstone:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the training of community support officers. [8098]

**Hazel Blears:** Under the Police Reform Act 2002 it is for each chief constable to be satisfied that community support officers (CSOs) have received adequate training for the powers with which they are designated. The Central Police Training and Development Authority has prepared a CSO training package for use by forces but the training is delivered locally. A report on the National Evaluation of CSOs by the Home Office Research, Development and Statistics Branch will address various areas, including training. The report will be published later this year.

### Consultants

**Mrs. Dean:** To ask the Secretary of State for the Home Department what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7028]

**Paul Goggins:** The Home Office follows OGC best practice advice to the public sector through its web-based product the Successful Delivery Toolkit (www.ogc.gok.uk/sdtoolkit/). The guidance is aimed at public sector organisations and complies with Government policy and regulations for procurement but is not specifically tailored to the voluntary sector. The guidance includes the use of consultants covering:

Purchasing consultancy services, covering the tendering process;

Use of professional advisors, including consultants. Where it may be appropriate to use consultants, for example, in construction or specification writing;

Examples of specific guides that are relevant to the procurement and supply of consultancy services:

(i) Delivering world-class consultancy services to the public sector—A statement of best practice;

(ii) The Government Procurement Code of Good Practice for Customer and Suppliers.

There are currently no plans for the Home Office to issue further guidance.

### Extradition

**Daniel Kawczynski:** To ask the Secretary of State for the Home Department how many British citizens have been extradited to the USA under the UK-US Extradition Treaty 2003. [11609]

**Andy Burnham:** The UK-US Extradition Treaty 2003 has not yet been brought into force but some of its provisions have been given effect by the Extradition Act 2003, which came into force on one January 2004. Eight British citizens, and three US citizens, have been extradited to the US under the Extradition Act 2003. The Act and the Treaty have not changed the position whereby both the UK and the US are prepared to consider the extradition of their own citizens.

### Fine Defaulters

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many people have been sent to prison in the first five months of 2005 for defaulting on the payment of a fine. [8988]

**Fiona Mactaggart:** Information is only available for January to April 2005. In this period there were 731 persons received into prison establishments in England and Wales in default of payment of a fine, as recorded on the Prison Service IT system.

### Identity Cards

**Mrs. Spelman:** To ask the Secretary of State for the Home Department what assessment the Government have made of the cost to local authorities of introducing identity cards. [9547]

**Andy Burnham:** The Regulatory Impact Assessment (RIA) published along side the Identity Cards Bill on 25 May 2005, contains the most recent assessment of the impact of introducing Identity Cards. The RIA makes it clear that there are no proposals to require any organisations or individuals to undertake any checks on Identity Cards. No local authority will be obliged to check Identity Cards as part of their business, however some may choose to do so to in order to benefit from more efficient processes and a estimated reduction in fraud as a result of using the Identity Card Scheme.

**Mr. Garnier:** To ask the Secretary of State for the Home Department what estimate he has made of the cost of equipping police premises in each police area in England and Wales; and police officers with identity card readers. [9753]

**Andy Burnham:** The Home Office has been working to identify areas where the identity cards scheme could provide business benefits. My right hon. Friend the Home Secretary placed in the Library a paper containing the latest estimates of benefits of the identity cards scheme. The cost of equipping premises will depend on the nature of the use of the identity cards scheme and the type of identity check(s) necessary to deliver the business benefits. In some cases, benefits could be realised without the use of card readers and the cost of installing any readers needs to be considered alongside future plans to refresh or upgrade IT systems.

As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit which will allow us to further refine our estimates of costs and benefits.

**Lynne Jones:** To ask the Secretary of State for the Home Department what assessment he has made of the likely need to replace identity cards before their expiry date; by what means he intends to arrange for replacements to be issued; and what estimate he has made of the likely cost *(a)* to the Government and *(b)* to the individual concerned. [9919]

**Andy Burnham:** Reviews of current research and surveys conducted with companies involved in card technology has indicated the feasibility of an ID card that lasts for 10 years. This has been reflected in other identity cards schemes, Hong Kong for example.

As the planned validity period of the identity card issued to UK nationals is 10 years, requests for replacement cards in advance of their expiry date are likely to arise from lost, stolen, damaged or faulty cards. Estimates have been made of the likely rates of failure, damage and loss (including theft) based on industry benchmarks and experience from other government departments, however due to reasons of commercial sensitivity, it is not appropriate to release these figures as it would hinder the Department's ability to achieve value for money in the forthcoming procurement phase.

It is planned to issue replacement identity cards in a secure yet convenient manner for the public. A member of the public will be able to report their card lost, stolen or damaged via post, internet, telephone and in-person, subject to a secure process of authentication.

Costs based on this work have been included in the operating costs published in the RIA. However we cannot disaggregate these costs for reasons of commercial confidentiality. No decisions have been made in respect of the fee charged for issuing a replacement card.

**Lynne Jones:** To ask the Secretary of State for the Home Department how he plans to ensure that measures in the Identity Cards Bill are compatible with disability rights legislation. [9936]

**Andy Burnham:** The Disability Discrimination Act 1995 applies to the identity cards scheme. There is nothing on the face of the Identity Cards Bill that contradicts any provision of that Act.

The Identity Cards Bill contains, at Clause 41(1), the usual provision which ensures that any secondary legislation can contain different provision for different cases and that any exemptions and exceptions as are necessary are made. This inbuilt flexibility will allow for any special policies, practices or procedures which will have to be adopted to cater for the wide variety of special needs people with disabilities have.

The United Kingdom Passport Service biometric trial which was a trial of the processes of enrolling biometrics, rather than a test of the technology, included a sample group of disabled participants to record their customer experience. Disability Matters Ltd. were satisfied with this approach and reported that they had been impressed with the way that disabled people were actively involved in the project. The Identity Cards Programme Team continues to liaise with organisations who best understand the needs of disabled people so that these needs are dealt with directly and sensitively.

### Lancaster Castle

**Geraldine Smith:** To ask the Secretary of State for the Home Department when Lancaster Castle will cease to be a prison; and if he will make a statement. [10154]

**Fiona Mactaggart:** There are currently no plans to cease using Her Majesty's Prison Lancaster Castle as a prison.

### Licensing

**Mr. Malins:** To ask the Secretary of State for the Home Department what powers magistrates have to ban defendants from entering licensed premises. [4785]

**Hazel Blears:** Under the provisions of the Licensed Premises (Exclusion of Certain Persons) Act 1980 a court can make an order prohibiting a person from entering specified licensed premises, following conviction for an offence committed on licensed premises involving violence or threats of violence. In addition, Antisocial behaviour orders (ASBOs) that were introduced under Section one of the Crime and Disorder Act 1998 and first used in 1999 can also be used to prohibit certain people from entering specific areas or premises. ASBOs however have a two year minimum period and can contain various prohibitions. We are therefore introducing Drinking Banning Orders (DBOs) under the Violent Crime Reduction Bill that we introduced on 8 June 2005. The Bill received its Second Reading on 20 June 2005. A DBO has an effect for a period not less than two months and not more than two years and would be more appropriate where binge drinking and alcohol fuelled behaviour needs to be addressed and discouraged and where there is a need for more flexible time limits to apply to a ban.

### Local Authority Regulatory Services

**Mrs. Spelman:** To ask the Secretary of State for the Home Department what guidance the Government have given to *(a)* local authorities and *(b)* local authorities' co-ordinators of regulatory services, on tackling (i) underage drinking, (ii) solvent abuse and (iii) bogus marriages. [7428]

**Hazel Blears:** The Government taking action on underage drinking, solvent abuse and bogus marriages.

(i) The results of a campaign aimed at tackling alcohol-related disorder and underage drinking, involving the police, trading standards and other partners, were published in a document called "Lessons Learned from the Alcohol Misuse Enforcement Campaign" last year. This included lessons learned from underage test purchasing operations undertaken during the campaign. The lessons learned document was circulated to all Crime and Disorder Reduction Partnerships. In addition, on 8 June 2005 we introduced the Violent Crime Reduction Bill which includes new powers for the police to impose 48-hour bans on pubs and clubs persistently selling to underage drinkers.

(ii) The Home Office and other Government Departments have worked in partnership with the Department of Health who have developed a framework for tackling volatile substance abuse. The draft framework outlines a number of key recommendations that Government will take forward in partnership with key stakeholders at local, regional and national level.

(iii) Registrars and local authorities coordinators of regulatory services (LACORS) are both represented on a joint Home Office/Registrars Group which discusses issues relating to marriage abuse. The General Register Office has provided guidance on identifying bogus marriages and on the implementation of the provisions contained in sections 19 to 25 of the Asylum and Immigration (Treatment of Claimants etc.) Act 2004 to combat bogus marriages.

### Mini-Motos

**Jim Dowd:** To ask the Secretary of State for the Home Department what measures he is taking to prevent the use of miniature motorcycles (mini-motos) on publicly owned land. [10437]

**Paul Goggins:** We have already given the police a power under the Police Reform Act 2002 to seize any mechanically propelled vehicle which is being driven both in a careless and inconsiderate manner on-road, or off-road without lawful authority, and causing or likely to cause alarm, distress or annoyance to members of the public. How the police exercise this power is an operational matter for individual chief officers. We are aware of local initiatives, bringing together a wide range of interests, to investigate the possibilities for making special provision for recreational use of vehicles which will avoid nuisance to the general public. We are working with other Departments to develop such thinking and its practical implementation.

### National Firearms Register

**Danny Alexander:** To ask the Secretary of State for the Home Department pursuant to the answer of 20 June 2005, *Official Report*, column 766W, on the National Firearms Register, when he expects the National Firearms Licensing Management System to be successfully signed off and available for forces to take up. [8812]

**Hazel Blears** *[holding answer 5 July 2005]:* Load testing for the live piloting of the National Firearms Licensing Management System will resume in the autumn.

### National Offender Management Service

**Mrs. Gillan:** To ask the Secretary of State for the Home Department (1) when the National Offender Management Service *proposes to build on the sites in (a)* Merseyside and *(b)* London for which it has obtained outline planning permission; [10180]

(2) what progress has been made in acquiring the two sites to build large multi-functional prisons for which the 2003 Budget Settlement made provision. [10181]

**Fiona Mactaggart:** Although the National Offender Management Service owns the two sites at Merseyside and London, no decision has been taken to build on them. A number of sites have previously been identified as potentially suitable for new prisons, but no decision to acquire any site has been made.

### Off-licence Sales

**Mr. Burstow:** To ask the Secretary of State for the Home Department how many prosecutions there have been for off-licence alcohol sales to people *(a)* already under the influence of alcohol and *(b)* under the age of 18 years in each of the last 10 years; if he will break down by region the number of defendants; and if he will make a statement. [1559]

**Hazel Blears:** The available information from the Home Office Court Proceedings database gives the number of defendants proceeded against in England and Wales, 1994 to 2003, for the offences of: "Selling etc., intoxicating liquor to persons under 18 for consumption on the premises" (including "wholesaler selling intoxicating liquor to a person under 18") and "permitting drunkenness or riotous conduct on the premise, or selling liquor to a drunken person", broken down by region.

Statistics for 2004 will be available in the autumn.

We introduced the Violent Crime Reduction Bill on the 8 June 2005. The Bill includes a power for police to impose 48-hour bans on pubs and clubs persistently selling alcohol to underage drinkers. The provisions apply to all premises licensed to retail alcohol, including off-licenses, convenience stores and supermarkets, and to any person giving a temporary event notice which authorizes sales of alcohol.

*Number of defendants proceeded against for certain offences relating to the sale of alcohol, by region[1] England and Wales 1994 to 2003*

[1] These data are on the principal offence basis.
[2] Includes "Wholesaler selling intoxicating liquor to a person under 18"

## Passports

**Lynne Jones:** To ask the Secretary of State for the Home Department what the cost is of issuing *(a)* existing passports and *(b)* passports with a facial biometric (i) based on a suitable quality photograph provided by the applicant and (ii) based on a photograph taken by the Passport Office, (A) excluding and (B) including the cost of operating and maintaining the record system and overhead costs. [9937]

**Andy Burnham:** All passports issued use photographs provided by the applicants, none are taken by the Passport Service. In 2004–05 the actual average unit cost of issuing and delivering just over six million passports was £38.30. In 2005–06 the Passport Service will begin issuing passports containing facial biometrics, these will be phased in progressively during the last quarter of 2005–06 and the first quarter of 2006–07. The average unit cost of producing passports, including an element for the facial biometric will be:

2005–06: £42.36

2006–07: £67.93

**Mark Fisher:** To ask the Secretary of State for the Home Department which company was awarded the contract to manufacture the chips used in biometric passports. [11151]

**Andy Burnham:** The new central and regional biometric passport (ePassport) production facilities are to be procured through the existing Security Printing and Systems Ltd. (SPSL) printing contract. SPSL will be required to procure key components though sub-contracts, with UKPS participation to endure value for money and the best technical solution. Detailed commercial negotiations for the production of ePassports are continuing, and a contract is expected to be signed in August 2005. Any sub-contract awarded for the manufacture and supply of chips to be used in ePassports would thereafter be placed by SPSL. Such a contract has not yet been placed.

**Mr. Jim Cunningham:** To ask the Secretary of State for the Home Department if he will make a statement on the Passport Office's plans to require interviews for renewals of and applications for passports. [11181]

**Andy Burnham:** A written statement announcing the decision to require interviews for adult first time passport applicants was made by my right hon. Friend

the Member for Kilmarnock and Loudoun (Mr. Browne) on 21 December 2004, *Official Report*, column 172WS.

Personal attendance for passport renewals would become necessary in connection with the addition of fingerprints to biometric passports, and interview of all passport applicants would provide a further strengthening of UK Passport Service premises in line with International practises. The EU has decided that fingerprints should be included in passports issued by member states in the Schengen area, within three years of agreement on the technical specification. The UK is currently excluded from this requirement but there would be disadvantages for British passport holders if UK passports were issued to a lower standard than those of other EU member states. The UK is currently challenging its exclusion, and in parallel is considering whether to mirror the EU requirement. A statement will be made when final decisions have been made.

**Mr. Jim Cunningham:** To ask the Secretary of State for the Home Department what assessment the Department has made of the cost-effectiveness of the proposed interview scheme in the Passport Office. [11182]

**Andy Burnham:** The Passport Service's Authentication by Interview (AbI) scheme is intended both to deter and to detect fraudulent applications among adult first time applicants but its business case has been constructed on its potential deterrent effect, for which evidence exists. UKPS data sampling has identified the first time adult channel as accounting for 74 per cent. of all fraudulent applications, although this group accounts for less than 10 per cent. of all applications processed annually by the Agency. AbI closes the loophole that currently exists in the postal application system by bringing together the physical applicant, and current biographical information, to ensure they are one and the same. A fraudster will now be faced with having to act out their false identity, and risk a real possibility of detection. There have been a number of instances in the past where the requirement to attend for interview would have enabled UKPS to identify a fraudulent application and prevent the issue of a passport in a false identity. The estimated cost of the scheme in its year of introduction is aggregated within the total estimated unit cost of £67.93 for 2006–07, published within the UKPS Corporate and Business Plan. The benefit the scheme is designed to deliver is in deterring fraudulent passport applications and thus contributing to the overall fight against identity fraud and reducing numbers of such frauds with consequent benefits to the individual and to the UK public and private sectors.

**Mr. Jim Cunningham:** To ask the Secretary of State for the Home Department for what reasons his Department considers interviews to be the most effective way of targeting passport fraud; and what alternative methods for stopping fraud it has assessed. [11183]

**Andy Burnham:** The introduction of interviews is one of a range of initiatives the UK Passport Service is taking forward to reduce passport fraud through improved detection and prevention, as indicated in its 2005–10 Corporate and Business Plan. The Passport Service's programme of work which has been informed by, and is closely related to the recommendations of the Cabinet Office study on identity fraud published in 2002, includes:

- Increasing data-sharing with public and private sector organisations;
- Improving systems and staff training in identity authentication, and increasing the professionalism of its fraud investigation capability;
- Improving the security of the passport book, through the introduction of biometric chip enabled passports from 2006;
- Using facial recognition technology to detect fraudulent applications;
- Use of its new Omnibase, and Lost/Stolen/Recovered global passport databases to detect and prevent fraud;
- Working with law enforcement agencies to apprehend, disrupt and dismantle the activities of those involved in identity fraud; and
- Supporting the work of the Home Office's Identity Fraud Steering Committee in promoting closer public/private sector collaboration in combating identity fraud.

The planned interviews will be conducted after improved checking of the information provided by applicants, including database checks. The interview will then enable genuine applicants to demonstrate their knowledge of the identity claimed but will face fraudulent applicants with the likelihood of detection. The interview will have an important deterrent effect, and will close off loopholes associated with illegal immigration where the applicant is often not in the UK and would be unable to answer questions related to residence in the UK. Only a procedure that includes an interview will enable the UKPS to confirm that the intended passport holder is the rightful owner of the identity claimed and to close the loophole that is inevitable when applications can be submitted by post.

## Prisons

**Sarah Teather:** To ask the Secretary of State for the Home Department how many inmates have escaped from prisons in London in each year since 1997. [8304]

**Fiona Mactaggart:** The table shows that there were seven KPI recorded escapes between the period 1997–98 to the present date.

| *Financial year* | *Total number of escapes* | *Prison* |
|---|---|---|
| 1997–98 | 1 | HMP Belmarsh |
| 1998–99 | 3 | Pentonville |
| | | Wormwood scrubs |
| | | Feltham |
| 1999–2000 | 0 | — |
| 2000–01 | 0 | — |
| 2001–02 | 1 | Feltham |
| 2002–03 | 1 | Brixton |
| 2003–04 | 0 | — |
| 2004–05 | 1 | Pentonville |
| Total KPI escapes | 7 | |

An escape is classified as a escape if a prisoner is unlawfully at large for more than 15 minutes.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department (1) how many UK prisons have *(a)* been refurbished and *(b)* newly built since 1997; [8461]

(2) how many prisons there are in England; and if he will list each prison. [8462]

**Fiona Mactaggart:** Prisons in Scotland and Northern Ireland are the responsibility of the Scottish Parliament and the Secretary of State for the Northern Ireland respectively.

Refurbishment in prisons occurs on a continuing basis, as the need arises. For example a wing, kitchen or gym may be refurbished, dependent on need. No prison has been refurbished in its entirety since 1997.

There have been nine newly built prisons opened in England and Wales since 1997.

There are 139 prisons in England and Wales. This includes three prisons which contain separate units located on one site: Moorland (open and closed), Usk/Prescoed and Grendon/Spring Hill. This number also includes Dover and Haslar, which are managed by the Prison Service on behalf of the immigration and nationality directorate. All prisons in England and Wales are listed as follows:

*Public Prisons:*

Acklington
Albany
Ashwell
Askham Grange
Aylesbury

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what the average annual cost of keeping a person in prison was in the last period for which figures are available. [8989]

**Fiona Mactaggart:** In 2003–04 the average cost per prisoner was £25,377 for contracted prisons and £25,718 for public sector prisons.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many offenders were held in prison awaiting deportation on 24 June, broken down by *(a)* those who have been awaiting deportation for (i) one week, (ii) two to four weeks, (iii) four to eight weeks, (iv) eight to 12 weeks and (v) more than 12 weeks and *(b)* nationality. [9002]

**Fiona Mactaggart:** Information on the number of people who were detained in prison establishments awaiting deportation after completion of a criminal sentence is not available.

Work is ongoing to improve the quality of data held on those people detained under Immigration Act powers in Prison Service establishments.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many vacancies there were in each prison establishment for *(a)* prison officers and *(b)* other prison staff as at 24 June. [9003]

**Fiona Mactaggart:** The latest information on staff vacancies for each public sector prison establishment relates to staff in post at 31 May and is calculated by comparing the operational staffing requirements as at 30 June. This snapshot is contained in the table.

Information on required staffing levels within prisons managed by the private sector is not collected centrally in this form and is therefore not available.

Overall, Officer recruitment continues at a high level compared with previous years and the Service-wide shortfall among operational staff is well within an acceptable operating margin. To cover any vacancies in the short-term, certain establishments are allowing officers to work additional hours as part of the 'Contracted Supplementary Hours Scheme'. This scheme contributed the equivalent of 412 full-time officers at 31 March 2005. At that time the total operational staff availability was 25,858 compared to an operational staffing requirement of 26,087, resulting in a Service-wide shortfall of just 0.9 per cent.

Staffing levels in non-operational roles are more fluid and vacancy figures require qualification. This is in part due to the number of reviews taking place across the Prison Service and on-going work to introduce greater efficiencies which has led to decisions to leave posts unfilled.

| *Establishment* | *Shortfall of staff in post 31 May 2005 against operational staffing requirement 1 July 2005* | |

*Note:*
Establishments showing "—" currently have no shortfall of staff

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many prisoners have escaped from each prison in the first six months of 2005; and how many have not been recaptured. [9004]

**Fiona Mactaggart:** In February 2005 there were two escapes from the Verne prison and both prisoners have been recaptured. There have been no other escapes during this period.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many *(a)* prison officers and *(b)* non-uniformed prison staff were working in Her Majesty's Prison Service on 24 June. [9005]

**Fiona Mactaggart:** On 31 May 2005, the closest day to 24 June for which information is available, there were *(a)* 24,400 officers and *(b)* 23, 774 other prison staff working in the public sector Prison Service. These two figures represent the total staffing of the public sector Prison Service but include 7,271 operational support grades and 1,131 nurses who would be expected towear a uniform. Non-uniformed staff carry out arange of functions, covering operational management, chaplaincy, psychology, industrial work, administration, catering and farms and gardens. Staffing numbers within privately managed establishments are not collected by the Office for Contracted Prisons and are therefore not available.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many fires there were in prisons in the first five months of 2005, broken down by prison; and whether *(a)* prison staff and *(b)* prisoners were hurt in each case. [9006]

**Fiona Mactaggart:** There have been 414 fires in prisons between 1 January and 31 May 2005. The following table gives a breakdown of incidents by establishment. Information is not held centrally on the number of staff or prisoners injured as a result of these incidents and could be obtained only at disproportionate cost.

| Establishment | Totals |

| Total | 414 |

**Mrs. Gillan:** To ask the Secretary of State for the Home Department if he will list the sites which are under consideration for the building of new prisons. [9007]

**Fiona Mactaggart:** Although a number of sites have previously been identified as potentially suitable, no decision to buy a site has been made. If a site is under consideration for acquisition, details could not be disclosed for commercial reasons. Any Member in whose constituency where we have decided to buy a site or where we are planning to build a new prison will be kept up to date on developments by the Home Office.

The National Offender Management Service owns two sites at Merseyside and Thamesmead, London, but no decision has been taken to build on them.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many prisons and detention centres are fitted with sprinkler equipment; and which areas of each such establishment are protected by the sprinkler system. [9008]

**Fiona Mactaggart:** Prison kitchens and workshops are the high risk areas in which sprinklers are widely installed. The only prison establishment that has sprinklers in the living accommodation is the prison ship HMP Weare.

The current situation with regard to sprinklers in Detention Centres is:

Harmondsworth—sprinklers installed throughout

Colnbrook—sprinklers installed throughout

Yarl's Wood—sprinklers installed throughout

Campsfield House—no sprinklers installed

Tinsley House—no sprinklers

Dungavel—sprinklers installed within the new house block. Other areas managed by the fire evacuation strategy plans.

Oakington—no sprinklers

Lindholme—no sprinklers Dover- no sprinklers

Haslar—no sprinklers

All prisons and detention centres manage fire risks by means of detailed evacuation and fire strategy plans.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many foreign nationals were held in prisons in England and Wales on 24 June, broken down by *(a)* nationality and *(b)* prison. [9009]

**Fiona Mactaggart:** The information requested is not available for 24 June. Information for 31 May 2005, as recorded on the Prison Service IT system, is provided in the tables.

[1] Figures include persons held in immigration removal centres at Dover, Haslar and Lindholme

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many staff have been recruited by the Prison Service since the managed recruitment ban was lifted. [9059]

**Fiona Mactaggart:** Between 1 April 2005, when the managed recruitment freeze was lifted, and 20 June, 1,107 staff have been recruited to Her Majesty's Prison Service.

The managed recruitment freeze did not affect contracted prisons and therefore they have been excluded from the figures.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many vacancies for staff in prison establishments there were on the last date for which figures are available; how many staff were working out their notice period; how many staff in prison establishments are expected to retire before 1 April; and how many staff he estimates are required to fill all posts at prison establishments. [9062]

**Fiona Mactaggart:** At 31 May 2005 23,869 prison officer grade staff were employed at public sector prison establishments (excluding Headquarters) against an operational staffing requirement of 24,530 at 30 June. In addition, the equivalent of 412 officers were available for operational duty through the contract supplementary hours scheme. Overall, operational staffing availability was therefore just one per cent below the operational staffing requirement. The Director General considers this to be within an acceptable operating margin.

For all grades of staff working in prison establishments (excluding headquarters) there was a shortfall between staff in post and operational staffing requirement of 1,459 (3.1 per cent.) at 30 June 2005. This

figure represents a snapshot and does not take into account new staff still in the recruitment process. A total of 46,470 staff (covering all grades) would need to be employed in public sector prison establishments to fill all identified posts at 30 June 2005.

Information on the number of staff working out their notice is not recorded centrally and could be collected only at disproportionate cost. Between 1 June 2005 and 1 April 2006, 555 staff are expected to retire. Information on required staffing levels within prisons managed by the private sector is not collected centrally in this form and is therefore not available.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many prison cells were available for use at each prison establishment on the latest date for which figures are available; and how many prisoners could be housed in those cells. [9065]

**Fiona Mactaggart:** The total number of prison cells and other accommodation is not recorded centrally. The standard unit of prison accommodation is the prison place, which may be located in cells, cubicles, dormitories, rooms or wards. When totalled it represents the uncrowded capacity of a prison, or certified normal accommodation (CNA).

The total number of prisoners that an establishment can hold in its accommodation is the prison's operational capacity. It is determined by Prison Service area managers on the basis of operational judgment and experience, taking into account control, security and the proper operation of the planned regime.

Data on prison capacity in England and Wales, as at 24 June 2005 (the last date for which figures are available), is set out in table 1.

[1] Dover and Haslar in their entirety and 112 of Lindholme's places are designated immigration removal centres (IRCs), which are managed by the Prison Service on behalf of immigration and nationality directorate

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women were being held in prison on 24 June; how many prisoners were released on early release on 24 June; how many prisoners were eligible for early release on 24 June; and how many prisoners were released on 24 June. [9067]

**Fiona Mactaggart:** On 24 June 2005 there were 71,578 males and 4,501 females held in prison establishments in England and Wales, as recorded on the Prison Service IT system. There were an estimated 154 prisoners with a sentence length of three months to less than four years whose home detention curfew (HDC) eligibility date was 24 June 2005. On that date, 46 prisoners were released on HDC. Information on the number of prisoners discharged by other means on 24 June 2005 is not yet available. The number of prisoners with a sentence length of three months to less than four years will include some prisoners who are not eligible for HDC because of the nature of their current or previous offences. The figures also exclude a small number of prisoners in the population who are on remand at the end of the previous month, but are subsequently sentenced to a custodial sentence suitable for HDC and whose HDC eligibility date falls on that date. This occurs when they have spent a significant time on remand.

**Michael Gove:** To ask the Secretary of State for the Home Department how much was spent on television licences for prisons, broken down by establishment, in 2004. [10166]

**Fiona Mactaggart:** Prisoners have access to television in-cell as part of the Incentive and Earned Privileges Scheme. Prisoners rent these sets for a weekly charge of £1. The revenue generated is used to pay for the televisions and their replacements. Televisions in-cell are covered by Crown exemption and do not require a television licence. A small number of televisions in communal areas of a prison are licensed. The amount of money spent by each establishment on television licences for these sets is not centrally recorded.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many prisoners aged *(a)* under 21 years, *(b)* 21 to 40 years, *(c)* 40 to 60 years and *(d)* over 60 years died of natural causes in each year since 2000, broken down by prison. [10184]

**Fiona Mactaggart:** The information requested with respect to apparent natural causes deaths in prisons in England and Wales is provided in the following table. Prisons, together with their local healthcare partners, assess the healthcare needs of their populations, whatever their age, and develop services to meet those needs. The National Offender Management Service, Prison Service and Department of Health are working closely together to improve health care provision for prisoners. Key achievements include developing better mental health provision, including NHS-funded in-reach teams; supporting improvements in primary care services; developing the prison health workforce and improving the prison health estate. NHS primary care trusts started to assume responsibility for the commissioning of prison health services in public prisons in England in April 2004. This process is expected to be completed by April 2006. All deaths in custody are subject to a coroner's inquest and (since April 2004) an investigation by the prisons and probation ombudsman (PPO). The PPO's recommendations are considered carefully and the reports are analysed to identify common trends, issues that need to be addressed and good practice examples that can be disseminated.

[1] Not including fine defaulters and non-criminals

## Probation Service

**Mr. Gerrard:** To ask the Secretary of State for the Home Department what targets were set for the Probation Service for 2004–05; and to what extent those targets were met by each probation area. [6099]

**Fiona Mactaggart:** Performance against targets set for the National Probation Service for 2004–05 can be found in the National Probation Service Performance Report 16 which was published on 17 May 2005.

Copies of the report can be found at:

http://www.probation.homeoffice.gov.uk/output/page34.asp.

**Anne Main:** To ask the Secretary of State for the Home Department what the administration costs of the Hertfordshire Probation Area were in the last period for which figures are available. [11135]

**Fiona Mactaggart:** The total expenditure for Hertfordshire Probation Area in 2003–04 is £7,808.000. Information relating solely to administration expenditure is not available.

## Proceeds of Crime Act

**Mrs. James:** To ask the Secretary of State for the Home Department if he will make a statement on assets recovered by H Division of South Wales Police under the Proceeds of Crime Act 2002. [10669]

**Paul Goggins:** Information is not available in the form requested. The total value of confiscation orders obtained by the South Wales Police under the Proceeds of Crime Act 2002 and earlier legislation is as follows:

£

| | Amount |
|---|---|
| 2002–03 | 146,936 |
| 2003–04 | 581,462 |
| 2004–05 | 80,332 |

In addition the total value of cash forfeiture orders obtained by South Wales Police in 2004–05 under the 2002 Act was £39,617. The total value of orders obtained by the South Wales Regional Asset Recovery Team in 2004–05 was £279,637.

**Mr. Amess:** To ask the Secretary of State for the Home Department how much has been seized in Southend as a consequence of prosecution under the Proceeds of Crime Act 2002. [10512]

**Hazel Blears:** Information is not available in the form requested. The total value of confiscation orders obtained by Essex police under the Proceeds of Crime Act 2002 and earlier legislation is as follows:

| | £ |
|---|---|
| 2002–03 | 105,270 |
| 2003–04 | 560,734 |
| 2004–05 | 120,270 |

In addition the total value of cash forfeiture orders obtained by Essex police under the 2002 Act in 2004–05 was £72,535. Information on the value of orders obtained by Her Majesty's Revenue and Customs in Essex is not available.

### Rape Trials

**Vera Baird:** To ask the Secretary of State for the Home Department by what date he expects video interviews of complainants will become admissible as their evidence in chief in rape trials. [604]

**Fiona Mactaggart:** Video-recorded evidence in chief has been available since 24 July 2002 for all vulnerable witnesses, including children in the Crown court and for children in need of special protection in magistrates courts.

Before extending the availability of this measure to intimidated witnesses, including complainants in rape cases, we wish to assess the extra demands that this would place on the relevant criminal justice agencies. As part of this process we are evaluating, in three pilot areas, the use of a summary as an alternative to providing a full verbatim transcript of the video-recorded interview. The independent evaluation report of the pilot is due to be delivered at the end of August and this will inform the development of implementation plans for extending the availability of video-recorded evidence in chief. We will also consult the criminal justice agencies concerned before determining an implementation date. The implementation plan will incorporate a suitable period of notice to enable these agencies to prepare.

### Sentencing

**Mrs. Humble:** To ask the Secretary of State for the Home Department what the *(a)* maximum, *(b)* minimum and *(c)* average sentences given to individuals convicted of offences involving abuse, ill treatment or neglect of a vulnerable adult in their responsibility was in each of the last five years. [9411]

**Fiona Mactaggart:** The criminal law contains a range of offences to protect all individuals from assaults and offences against the person. The following table shows the average sentences given in the last five years for ill treatment or wilfully neglecting a patient receiving treatment for a mental disorder; and for actual bodily harm and grievous bodily harm with and without intent. For the offences of ABH and GBH it is not possible to distinguish between offences committed against a vulnerable adult and against other victims.

In addition to these offences, further measures making it an offence to cause or allow the death of a vulnerable adult or child within the household were introduced in the Domestic Violence, Crime and Victims Act 2004; and the Mental Capacity Act 2005 has introduced an offence of ill-treatment or neglect of a person who lacks capacity. No statistics on these offences are yet available.

*Average custodial sentence lengths, in months, for specified offences, 1999–2003—England and Wales*

| | 1999 | | | 2000 | | |
|---|---|---|---|---|---|---|
| *Offence* | *Min* | *Max* | *Av* | *Min* | *Max* | *Av* |
| Ill treatment of patients | — | — | — | — | — | — |
| ABH | 0.5 | 60 | 7.8 | 0.2 | 60 | 8 |
| GBH with intent | 2 | [1]— | 46 | 4 | [1]— | 45 |
| GBH | 0.2 | 60 | 16 | 0.9 | 60 | 16 |

| | 2001 | | | 2002 | | | 2003 | | |
|---|---|---|---|---|---|---|---|---|---|
| *Offence* | *Min* | *Max* | *Av* | *Min* | *Max* | *Av* | *Min* | *Max* | *Av* |
| Ill treatment of patients | — | — | — | — | — | — | — | — | — |

| Maximum | 60 | 120 | 96 | 96 | 84 |
| Average | 13.4 | 15.6 | 16.2 | 19.4 | 15.5 |

*Note:*

RDS NOMS 1 July 2005

### Target Shooting Ranges

**Bill Wiggin:** To ask the Secretary of State for the Home Department who has responsibility for the issuing of licences for civilian target shooting ranges. [10086]

**Hazel Blears:** Civilian shooting ranges do not require a Home Office licence although clubs which wish to operate as an approved club under the terms of section 15 of the Firearms (Amendment)Act 1988 must have regular use of ranges with safety certificates for the category of firearms being used. There are currently no arrangements in place for those clubs seeking approval to have their ranges inspected and certified as safe. The Home Office is now working with the Ministry of Defence and shooting organisations to develop a scheme for future inspections.

### Treatment/Rehabilitation of Offenders

**Anne Main:** To ask the Secretary of State for the Home Department what funding the Department provided for each offender to complement the implementation of drug treatment and testing orders issued by the courts in the last year for which figures are available. [3633]

**Fiona Mactaggart:** £76 million was made available in 2004–05 to deliver 13,000 drug treatment and testing orders (DTTOs), of which 10,323 (79 per cent.) were made by the courts. £88 million has been allocated in 2005–06 for the delivery of 16,000 DTTOs/drug rehabilitation requirements (DRRs) of the new community order, which will gradually replace DTTOs from April 2005.

### Vandalism

**Sarah Teather:** To ask the Secretary of State for the Home Department how many convictions there were for acts of vandalism in each year since 1997. [6423]

**Hazel Blears:** There is no specific offence of vandalism. Most behaviour, which we understand as vandalism, would probably be covered by the offence of criminal damage, although the two might not always be exactly the same. The available information from the Home Office Court Proceedings database on the number of offenders found guilty of criminal damage is contained in the tables.

Statistics for 2004 will be available in the autumn.

*Number of offenders found guilty of criminal damage at all courts, England and Wales 1997 to 2003*[1]

| *Offence description* | *Principal statute* | *1997* | *1998* | *1999* | *2000* |
|---|---|---|---|---|---|
| Other criminal damage Criminal damage (value of damage over 5,000) | Criminal Damage Act 1971 Explosive Substances Act 1883 Ancient Monuments & Archaeological Area Act 1979 Post Office Act 1953 | 8,461 | 9,083 | 8,901 | 8,138 |
| Criminal damage (value of damage 5,000 or less) and causing damage to an allotment through negligence or any unlawful act | Criminal Damage Act 1971 Allotments Act 1922 | 24,747 | 26,505 | 27,888 | 27,976 |

| *Offence description* | *Principal statute* | *2001* | *2002* | *2003* |
|---|---|---|---|---|
| Other criminal damage Criminal damage (value of damage over 5,000) | Criminal Damage Act 1971 Explosive Substances Act 1883 Ancient Monuments & Archaeological Area Act 1979 Post Office Act 1953 | 8,478 | 8,744 | 8,867 |
| Criminal damage (value of damage 5,000 or less) and causing damage to an allotment through negligence or any unlawful act | Criminal Damage Act 1971 Allotments Act 1922 | 26,894 | 28,279 | 29,780 |

[1] These data are on the principal offence basis.

### Volunteering

**Mr. Drew:** To ask the Secretary of State for the Home Department how much financial support his Department made available to organisations which use time banking as a means of encouraging and rewarding volunteering in the last year for which figures are available; and if he will make a statement. [8000]

**Paul Goggins** *[holding answer 30 June 2005]:* In the last year, the Home Office has provided £175,371 to time banking organisations. This includes funding for Time Banks UK, the national umbrella organisation as well as individual time banks. The details of these organisations are as follows:

| *Organisation* | £ *Amount* |
|---|---|
| Time Banks UK | 58,488 |
| Gloucester City Time Bank | 47,341 |
| Fair share Regional Network in South West | 27,542 |
| Gloucestershire Neighbourhood Projects Network | 42,000 |
| Total | 175,371 |

Time Banks UK and Gloucestershire Neighbourhood projects Network's funding will continue in 2005–06.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Animal Testing

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the circumstances in which animal testing is *(a)* mandatory and *(b)* optional under (i) UK and (ii) EU law. [10811]

**Mr. Bradshaw** *[holding answer 11 July 2005]:* In order to provide the required human and environmental safety data on chemicals within the areas of Defra's competence in the UK, and in the EU, testing on animals is a mandatory requirement under the Existing Substances Regulations, the Notification of New Substances Regulations and Pesticide Authorisations. For veterinary medicines a certain amount of animal testing is required by Directive 2001/82/EC in order to demonstrate efficacy as well as human, animal and environmental safety.

Provision of animal test data is not optional but if sufficient information were available on a chemical through its historical use, through human exposure data, or from alternative non-animal testing methods, then expert judgment would be used by Regulatory Authorities to avoid unnecessary further testing on animals. Regulatory Authorities are fully cognisant of the European Convention for the Protection of Vertebrate Animals used for Experimental and other Scientific Purposes and will not require unnecessary testing on animals. They welcome any proposals for non-animal testing that provide equivalent assurance of safety.

### Bovine TB

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the pilot projects testing badger and cattle tuberculosis vaccines will report. [10328]

**Mr. Bradshaw:** Research into a vaccine for badgers and cattle has now reached a stage where field trials are necessary.

The field study for the badger vaccine is likely to commence in 2006 and run for three years. The cattle vaccine study is likely to commence in late 2005 and run for five years. Both studies will report after their respective completion dates.

### Beef Imports

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what action she proposes to take in relation to the import of beef from the USA following the detection of BSE there. [10600]

**Mr. Bradshaw:** No additional action is proposed. Imports of beef from third countries including the USA, are subject to European Community rules. Each consignment has to come from an approved slaughterhouse or cutting plant and it must be accompanied by animal and public health certification signed by an official veterinarian.

The health certification has to confirm that the meat does not contain, and is not derived from, specified risk material (SRM). SRM are those parts of the animal that could potentially harbour BSE.

On arrival in the EU, each consignment is subjected to documentary and identity checks to ensure that import conditions have been met. At least 20 per cent. of consignments are also subject to physical checks.

In recent years the UK has imported little beef from the USA. This is because of unrelated EU controls, which ban meat from cattle that have been given growth-promoting hormones (routinely used in America). The UK food safety implications from this most recent finding are minimal.

### Biofuels

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage the use of *(a)* meat and bone meal in electricity and heat generation, *(b)* tallow for biodiesel production and *(c)* digested slurry for electrical generation through methane recovery. [11279]

**Mr. Morley** *[holding answer 11 July 2005]:* The use of meat and bone meal, tallow and slurry in energy generation is permitted under the animal by-products regulation and the Government are keen to encourage the use of these valuable energy sources.

The renewables obligation requires licensed electricity suppliers to source at least part of their electricity from renewable generation. The use of meat and bone meal and the anaerobic digestion of slurry for the generation of electricity are eligible sources of renewable energy. Detailed guidance on the anaerobic digestion of slurry has been provided to industry. The Biomass Study Task Force, led by Sir Ben Gill, is looking at the barriers to developing biomass energy, including the use of slurry, and will recommend ways to overcome the problems. We will consider the way forward in the light of their recommendations. The Government are also looking at the scope for supporting renewable heat.

We are liaising effectively with industry, the European Commission and other member states to ensure that the negotiations on an implementing measure for the animal by-products regulation will result in rules on the use of tallow for biodiesel which are proportionate, practical, and provide the industry with the maximum amount of flexibility. The production of biodiesel, including that produced from tallow, is supported by the 20 pence per litre reduction in duty compared to fossil fuels. The Government are carrying out a feasibility study on a renewable transport fuel obligation. If adopted, this would require a specified proportion of the total fuel supply to be from biofuels.

### Carbon Emissions

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what the level of domestic carbon emissions has been in each year since 1997; and what percentage of total emissions in each year these figures represent. [10329]

**Mr. Morley:** The following table shows UK carbon dioxide emissions from the domestic (residential) sector in million tonnes of carbon per year, and as a percentage of UK total carbon dioxide emissions for each year since 1997. These data include the domestic sector's share of emissions from energy supply and are from the UK Greenhouse Gas Inventory published in 2005.

| | *Residential* | *Total $CO^2$ emissions* | *Residential as a % of total emissions* |
|---|---|---|---|
| 1997 | 37.7 | 153.9 | 24.5 |
| 1998 | 39.3 | 154.5 | 25.4 |
| 1999 | 38.3 | 151.7 | 25.2 |

| | Residential | Total $CO^2$ emissions | Residential as a % of total emissions |
|---|---|---|---|
| 2000 | 39.5 | 152.8 | 25.9 |
| 2001 | 41.7 | 157.4 | 26.5 |
| 2002 | 40.6 | 152.7 | 26.6 |
| 2003 | 41.2 | 156.1 | 26.4 |

## Cattle Ear Tags

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons are for designating cattle ear tags as either primary or secondary. [10703]

**Mr. Bradshaw:** EC Regulation 1760/2000 requires cattle to be identified with an ear tag in each ear. Commission Regulation (EC) NO 911/2004 specifies that at least one of these ear tags must be made of plastic and be a minimum size to allow it to be read from a distance. This tag is known as the primary ear tag. The second ear tag can be made from other materials, such as metal, and does not have to meet the minimum size requirements of the primary ear tag.

## Farm Plastics

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's policy is on the waste disposal of farm plastics; what support the Government give for the *(a)* recycling and *(b)* re-use of such plastics; and what recent discussions she has had with the Local Government Association concerning schemes to advance such recycling and re-use. [11214]

**Mr. Bradshaw:** The Government issued a consultation paper on the Waste Management (England and Wales) Regulations 2005 on 9 December 2004. Chapter 8 of this paper considered whether there should be a voluntary or statutory producer responsibility scheme for the collection and recovery of waste non-packaging farm plastics. Packaging plastics are already covered by the packaging regulations, but it is envisaged that any scheme would collect both packaging and non-packaging plastic waste. The consultation closed on 18 March 2005 and we are currently considering the responses to decide upon the best way forward.

In order to help prepare for a producer responsibility scheme, I have allocated £1 million of Business Resource Energy and Waste (BREW) funds and my officials are currently discussing with the Agricultural Waste Stakeholders Forum (AWSF) how this money should best be used.

The Local Government Association sit on the AWSF, and have also met with officials on the subject of farm plastics.

## Fishing Licences

**Mr. Michael Foster:** To ask the Secretary of State for Environment, Food and Rural Affairs what the value of fines awarded by the courts for the offence of fishing without a licence in each region in England and Wales has been in each year since 2000. [8978]

**Mr. Bradshaw:** Data provided by the Environment Agency are set out as follows.

The data recorded are for fines and costs awarded by the court (not necessarily paid by the defendant).

The data provided have been collated using the agency's dedicated database—Fisheries Offence Processing System (FOPS) which has been in use since the year 2000. The data for years prior to 2000 were provided by the various regional legal departments.

| | Concluded | Successful | Fine (£) | Costs (£) |
|---|---|---|---|---|
| *North West* | | | | |
| 1996–97 | 940 | 695 | 27,172 | 29,564 |

### Foot and Mouth

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* farmers and *(b)* contractors have outstanding claims from the 2001 foot and mouth disease outbreak. [7658]

**Mr. Bradshaw:** Currently, there are 14 farmers and 15 contractors who claim moneys are outstanding from the 2001 foot and mouth disease outbreak.

Additionally, there are 10 personal injury claims relating to the outbreak, of which seven have been settled subject to agreement on costs. The Department is disputing valuation fees with 10 valuers engaged during the 2001 foot and mouth disease outbreak.

### Nappies

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs how many disposable nappies she estimates were *(a)* used and *(b)* disposed of by (i) landfill, (ii) incineration and (iii) other means in the last year for which figures are available. [4441]

**Mr. Bradshaw:** We do not collect information on the amount of disposable nappies used nor of the disposal route.

The strategy unit report 'Waste not Want not' estimated that in 2000–01 nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes. In 2003–04 72 per cent. of our household waste was sent to landfill and just under 9 per cent. went to incineration.

### Neasden Goods Depot

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the level of pollution from Neasden Goods Depot; and if she will make a statement. [2500]

**Mr. Bradshaw:** Neasden Goods Depot falls within an Air Quality Management Area declared by the London borough of Brent. Defra has provided supplementary credit approval to the London borough of Brent to help fund a detailed assessment of air pollution in the vicinity of the depot. This assessment has identified elevated levels of particulate matter ($PM_{10}$) in the vicinity of the goods depot. This appears to be caused mainly by waste management operations, regulated by the Environment Agency, located at the depot.

The Environment Agency has been taking action to improve the standard of operations at Neasden Goods Depot, more recently in conjunction with the London borough of Brent.

There are four sites at Neasden Goods Yard, three Waste Management Licences (WML) and one End of Life Vehicles (ELV) licence.

To date the Environment Agency has:

undertaken unannounced weekly inspections to all three sites holding a WML. During these, areas requiring attention to site infrastructure and operations are identified and improvements required;

issued warning letters when necessary;

served legal enforcement notices that have demanded specific actions be undertaken;

served legal enforcement notices that have suspended operations when appropriate; and

carried out comprehensive enforcement action against the site we believe to be the worst performing of the three that is contributing significantly to the pollution of the local environment.

The above actions have resulted in a number of improvements being made:

buildings are now constructed to contain the majority of waste handling operations at the three sites;

large areas of concrete hard standing has been laid (where previously, significant areas of the goods yard were mud and hardcore) at all four sites as well as the communal haul road;

improved drainage has been installed;

dust suppression systems have been installed, used and maintained; and,

daily road sweeping of service yard and section of public highway.

The Environment Agency has recently commissioned independent environmental consultants to undertake a dust-monitoring programme. The monitoring—planned from July to September 2005—will clarify the contribution that the licensed sites make to $PM_{10}$ levels in the locality. This dust survey compliments that which the local authority has already put in place.

In addition the London borough of Brent has improved the pavement infrastructure on the highway near the goods depot and is regularly washing the road to reduce emissions of PM caused by road traffic.

The Environment Agency continues its dialogue with all four operators, landlord and London borough of Brent. The result is a series of improvements have been delivered and further works is planned to tackle dust emissions.

London borough of Brent is continuing to monitor air pollution levels in the vicinity of Neasden Goods Depot to assess the results of the emissions control measures. Monitoring data are published on the world wide web at www.londonair.org.uk.

### Oil Leakages

**Mr. Peter Ainsworth:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the level of protection to the environment against oil leakage and loss of content provided by regulations relating to oil powered transformers. [10376]

**Mr. Morley** *[holding answer 7 July 2005]*: The Control of Pollution (Oil Storage) (England) Regulations 2001 apply to storage tanks associated with electricity transformers, but not to the smaller volume of oil in the transformer itself which is in use rather than storage. Large scale transformers operated as part of the national grid are normally protected by secondary containment in the form of a bund.

### Pollution

**Mr. Austin Mitchell:** To ask the Secretary of State for Environment, Food and Rural Affairs what level of pollution is required to trigger the issue of an official smog warning; when such a warning was last issued; and what assessment she has made of the effect of this pollution on the atmosphere. [11178]

**Mr. Bradshaw:** Defra publishes forecasts of high air pollution when it estimates that concentrations of specific air pollutants are likely to exceed guideline values. Similarly to weather forecasts, there is an element of uncertainty and expert judgement attached to air pollution forecasts.

Warnings use a health-based index system, which has been developed by the Department of Health's Committee on the Medical Effects of Air Pollutants (COMEAP). A COMEAP statement on the guideline values is available at http://www.advisorybodies.doh.gov.uk/comeap/statementsreports/airpol9.htm.

The thresholds for the guideline values are: nitrogen dioxide, 573 microgrammes per metre cubed, as an hourly average; sulphur dioxide, 532 microgrammes per metre cubed, as a 15 minute average; ozone, 180 microgrammes per metre cubed, as an hourly average and running eight hour average; particulate matter ($PM_{10}$ ), 75 microgrammes per metre cubed, as a 24 hour running average (measured byTEOM); and carbon monoxide, 17.4 microgrammes per metre cubed, measured as a running eight hour average.

A summary of the index and the associated concentration levels and severity of health impacts is available at: http://www.airquality.co.uk/archive/standards.phptfband

Defra warns of high air pollution through the air quality information archive at www.airquality.co.uk, Teletext, page 169 and the freephone service 0800 556677. On occasions when a notable air pollution episode is forecast, such as the first photochemical smog in any year, Defra may supplement these forecasts with a news release.

Defra last published a warning of high air pollution on 22 June 2005. This was for high levels of ozone (180–239 microgrammes per metre cubed) forecast in areas of eastern, southern England, the east Midlands and the south east.

It is accepted that both short term and long term exposure to air pollutants damages health. COMEAP (the Department of Health's expert advisory Committee of the Medical Effects of Air Pollutants) has published two reports estimating the impact of air pollutants on health in the UK. These are available at:

http://www.advisorybodies.doh.gov.uk/comeap/statementsreports/airpol7.htm; and http://www.advisorybodies.doh.gov.uk/comeap/statementsreports/longtermeffects.pdf

### Railway Line (Gerrards Cross)

**Mr. Grieve:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the likely environmental impact of the removal of the fill material blocking the railway line at Gerrards Cross, Buckinghamshire; and if she will make a statement. [10408]

**Mr. Bradshaw:** Environment Agency and local government planning and environmental health officers have liaised over the emergency removal of the construction materials in question and their temporary storage on agricultural land nearby.

Two principle issues have been identified:

It is recognised that there will be a period of inconvenience to local residents due to increased vehicle movements. There is the potential for dust generation, however this can be satisfactorily controlled by suppression methods.

The construction materials in question have previously been analysed and assessed as low risk. It is the view of the Environment Agency that no further analysis of the material is required prior to its removal and storage as the incident will not have altered its nature.

### Red Tractor Logo

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the use of the red tractor logo and food products carrying the logo. [11154]

**Jim Knight:** The red tractor logo is owned by the National Farmers Union and is administered by Assured Food Standards, a private company that was set up for this purpose. Assured Food Standards licenses the logo's use on food that has been produced in accordance with standards laid down in qualifying assurance schemes.

### River Itchen (Toxic Waste)

**Chris Huhne:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment

has been made of the effect on fish stocks of the recent release of toxic matter into the River Itchen; and whether those responsible have been identified. [10429]

**Mr. Bradshaw:** A fish kill was reported on the lower Itchen at Gaiters Mill on Friday 24 June 2005. The Environment Agency are investigating possible causes. It has not been possible to establish the cause of the fish kill at this time. There is not currently any evidence of a toxic discharge.

The investigation is continuing.

### Rural Payments Agency

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs how many members of staff have been employed by the Rural Payments Agency in each month since its inception.[10812]

**Jim Knight** *[holding answer 11 July 2005]:* The number of staff members employed by the Rural Payments Agency (RPA) in each month since its inception are given in the following table. These figures relate to financial years.

*Staff numbers*

| | *2001–02* | *2002–03* | *2003–04* | *2004–05* | *2005–06* |
|---|---|---|---|---|---|
| April | — | 3,234 | 3,429 | 3,768 | 3,545 |
| May | — | 3,286 | 3,342 | 3,706 | 3,475 |
| June | — | 3,359 | 3,355 | 3,703 | 3,403 |
| July | — | 3,333 | 3,405 | 3,753 | — |
| August | — | 3,391 | 3,388 | 3,795 | — |
| September | — | 3,421 | [2]3,889 | 3,775 | — |
| October | [1]3,161 | 3,413 | 3,831 | 3,724 | — |
| November | — | 3,486 | 3,791 | 3,708 | — |
| December | — | 3,445 | 3,799 | 3,699 | — |
| January | — | 3,431 | 3,785 | 3,670 | — |
| February | — | 3,459 | 3,800 | 3,630 | — |
| March | — | 3,459 | 3,790 | 3,606 | — |

[1] RPA was established on 16 October 2001. Figures are not available on a monthly basis until the 2002–03 financial year. The figure quoted is the monthly average between 16 October 2001 and 31 March 2002.
[2] Approximately 500 staff joined RPA following the merger with British Cattle Movement Service.

### Tallow

**Damian Green:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received about the application of the Waste Incineration Directive to tallow; and if she will make a statement. [1864]

**Mr. Bradshaw:** The effect of Article 12 of the EU Animal By-Products Regulation is to require tallow derived from waste animal by-products to be incinerated or co-incinerated in accordance with the Waste Incineration Directive (WID). The Department has received representations about the burning of waste tallow as fuel (co-incineration) in WID-compliant plant from the United Kingdom Renderers' Association (UKRA). The right hon. John Gummer MP wrote, as Chairman of Bancroft International Limited, in support of UKRA's representations; and representations on the implications of the issue have been received from the National Fallen Stock Company. I understand that the burning of tallow as fuel is also among the issues being considered by the Biomass Task Force.

A statement of the Department's views on the issues raised by UKRA is available on the Department's website at http://www.defra.gov.uk/environment/ppc/index.htm.

### Tenant Farming

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's latest assessment is of the economic future of tenant farming in England. [9692]

**Jim Knight** *[holding answer 7 July 2005]:* The most recent forecasts of farm incomes are for the UK as a whole and were published by Defra on 27 January 2005. These included an estimate of aggregate income for 2004 and forecasts of incomes by farm type for 2004–05 (i.e. 2004 harvest). A copy of the publication can be found on the Defra website at http://statistics.defra.gov.uk/esg/statnot/account.pdf

The next publication of income forecasts is likely to be in the autumn, with the first estimate of aggregate income for 2005. Income forecasts for different farm types for 2005–06 (i.e. 2005 harvest) will be published at the end of January 2006.

We do not produce separate economic assessments for tenanted farms.

As part of our strategy for a sustainable food and farming sector, the Government are committed to maintaining a healthy and viable tenanted sector. The legislative changes that we are making as a result of the recommendations of the Tenancy Reform Industry Group will provide better opportunities for tenant farmers in England to develop the business potential of their farms and should help, in the longer term, to improve the economic value of the sector.

### Veterinary Surgeons

**Mr. Gale:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to ensure that veterinary surgeons employed by the state veterinary services in quarantine facilities are fully cognisant of the diagnosis and treatment of tropical diseases, with particular reference to heartworm. [10346]

**Mr. Bradshaw** *[holding answer 11 July 2005]:* Authorised quarantine facilities are required, as part of their authorisation, to engage the services of a veterinary surgeon. The appointment of a quarantine veterinary surgeon (QVS) is approved by Defra, based on an assessment and recommendation of a local

Veterinary Officer of the SVS. Assessment is focused on rabies diagnosis, welfare and security of the kennels rather than other diseases.

It is the responsibility of all veterinary surgeons to ensure that their own continuing professional development encompasses all they might encounter in day-to-day work. For QVSs who attend the quarantine premises six days each week, this would include tropical diseases.

Defra promotes awareness of any exotic disease through their passive surveillance programme DACTARI. This enables veterinary surgeons to report all travel-associated disease to the Department. The distribution of all reported disease is posted on the internet at http://defra.gov.uk/animalh/quarantine/pets/dactari.htm.

### Waste Disposal

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her counterparts in *(a)* Germany, *(b)* France, *(c)* the Netherlands, *(d)* Denmark, *(e)* Italy and *(f)* Belgium on their definitions of (i) biodegradable waste, (ii) municipal waste, (iii) commercial waste, (iv) hazardous waste, (v) industrial waste, (vi) recycling, (vii) recovery, (viii) composting and (ix) waste minimisation. [10682]

**Mr. Bradshaw:** As confirmed in my reply of 15 June 2005, *Official Report*, column 433W to the hon. Member, "commercial waste" and "industrial waste" are national terms; and "waste minimisation" is not defined in either Community or national legislation. There have been no direct discussions, therefore, about these terms with the other member states referred to.

The other terms referred to are either defined or used without being defined in Community legislation. The UK has participated in discussions with other member states on these terms in the context of the negotiations on the directives which contain the terms. Such meetings take place under the auspices of the presidency of the Council. The UK has also participated in meetings of the Technical Adaptation Committee chaired by the European Commission and established under article 18 of the waste framework directive, article 9 of the hazardous waste directive, article 21 of the packaging and packaging waste directive, article 17 of the landfill directive, article 11 of the end of life vehicles directive and article 14 of the waste electrical and electronic equipment directive.

## DEPUTY PRIME MINISTER

### Advertising

**David T.C. Davies:** To ask the Deputy Prime Minister how much the Office spent on advertising in each of the last five years. [10255]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created on 29 May 2002 the advertising spends since then has been as follows:

| | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| TV | 2,829,248 | 2,879,286 | 3,216,961 |
| Radio | 303,581 | 90,508 | 407,795 |
| Press | 214,114 | 709,205 | 372,924 |
| Other | 0 | 808,011 | 1,041,190 |
| Total | 3,346,943 | 4,487,010 | 5,038,870 |

The majority of this spend has been on the Fire Safety publicity campaign.

### Council Tax

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will list the 10 local authorities with the *(a)* lowest and *(b)* highest council tax collection rates in England in 2004–05. [11391]

**Mr. Woolas:** The 10 local authorities with the *(a)* lowest and *(b)* highest in year council tax collection rates in England in 2004–05 are listed in the following table.

| *Highest collection rate* | *Percentage* |
|---|---|
| Surrey Heath | 99.5 |
| Vale of White Horse | 99.5 |
| Hambleton | 99.3 |
| Chiltern | 99.2 |
| North Hertfordshire | 99.2 |
| Tewkesbury | 99.2 |
| East Dorset | 99.2 |
| Eden | 99.2 |
| Rother | 99.1 |
| South Hams | 99.1 |
| *Lowest collection rate* | |
| Hackney | 84.4 |
| Manchester | 90.3 |
| Salford | 90.6 |
| Islington | 90.6 |
| Newham | 91.0 |
| Barking and Dagenham | 91.3 |
| Waltham Forest | 91.4 |
| Portsmouth UA | 91.4 |
| Middlesbrough UA | 91.9 |
| Nottingham City UA | 92.0 |

The data for Arun district council, Hart district council and Macclesfield borough council were excluded from this analysis as they failed to submit a signed return.

**Mrs. Spelman:** To ask the Deputy Prime Minister what estimate his Department has made of the number of caravans which have obtained *(a)* class C and *(b)* class G council tax exemptions. [11392]

**Mr. Woolas:** This information requested is not held centrally and could be provided only at disproportionate cost.

### Decent Homes Standard

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister which local authorities with arm's length management organisations have failed to achieve two-stars in their performance inspection; and how much money allocated to achieve the Decent Homes Standard is being withheld in each case. [11159]

**Yvette Cooper:** Two arm's length management organisations (ALMOs) currently on the ALMO programme have failed to achieve the two star inspection rating necessary to qualify for additional Government funding. These are in Gateshead and Easington, which have conditional funding allocations of £63 million and £23.6 million respectively for 2004–06. Both ALMOs are currently working towards re-inspection. Their funding allocations will be released as soon as the ALMOs achieve the qualifying standard.

### Departmental IT Projects

**Mr. Drew:** To ask the Deputy Prime Minister if he will list IT projects the Department is responsible for which have received a second consecutive red review and a letter from the chief executive of the Office of Government Commerce. [11597]

**Jim Fitzpatrick:** There are no IT projects that the Office of the Deputy Prime Minister is responsible for which have received a second consecutive red review.

### Departmental Telephone Services

**Sarah Teather:** To ask the Deputy Prime Minister what his Department's policy is on the private use of *(a)* official telephones and *(b)* the internet; and how such use is monitored. [8203]

**Jim Fitzpatrick:** Staff in the Office of the Deputy Prime Minister are allowed to make occasional and reasonable private use of official telephones and the internet. Internet and telephone usage are monitored to prevent abuse and/or breaches of usage policy; this is managed through the periodic analysis of usage logs.

### English Partnerships

**Geraldine Smith:** To ask the Deputy Prime Minister what English Partnerships funding has been allocated to Lancaster city council since 1997; and for which projects the funding has been allocated. [10152]

**Yvette Cooper:** Grant payment to Lancaster city council from 1 April 1997 has been £235,833.

There were a number of projects under the Partnership Investment Programme and Land Reclamation Programme/Derelict Land Grant with spend between 1997 and 2000 which would have been passed to North West Development Agency to continue projects, all being grants to Lancaster city council:

*Grants to Lancaster city council*

| | *Project* | *Year* | *Cost (£)* |
|---|---|---|---|
| PIP | Luneside Regeneration Strategy | 1999–2000 | 105,000 |
| DLG | Morecambe Central Promenade | 1998–99 | [1]49,632 |
| DLG | Middleton Wood | 1998–99 | 55,480 |
| | | 1997–98 | 23,121 |
| LRP | Trowbarrow Quarry | 1998–99 | 2,281 |
| LRP | West End Park | 1998–99 | 319 |

[1] The end of a £4.4 million scheme approved in 1992 by DoE.

In addition to these grant payments further funding has been providing since 2003. £4.9 million capital investment was allocated to Luneside east in Lancaster by English Partnerships of which £510,000 has been spent to date, and £2.9 million capital investment since 2003 has been allocated to Morecambe West End, of which £2.515 million has been spent.

**Geraldine Smith:** To ask the Deputy Prime Minister what discussions have taken place between Lancaster city council and English Partnerships regarding funding for projects since March. [10153]

**Yvette Cooper:** As well as the day-to-day contacts regarding progress on the Luneside East Development, discussions are also currently ongoing between English Partnerships and Lancaster city council regarding an English Partnerships funding contribution towards the cost of a potential housing scheme in the West End of Morecambe.

**Geraldine Smith:** To ask the Deputy Prime Minister if he will make a statement on funding from English Partnerships for the West End Masterplan in Morecambe. [10155]

**Yvette Cooper:** English Partnerships has fully funded the costs of the masterplanning exercise as well as funding a number of acquisitions by the local authority within the West End of Morecambe. Spending to date has been £2.515 million out of an approved initial allocation of £2.9 million. English Partnerships has identified within its current regional business plan a further allocation of £3.6 million, which could be extended to £4.1 million by 2008–09, subject to approvals.

In total, English Partnerships plan to invest up to £7 million in the West End of Morecambe in support of the masterplan.

Discussions are ongoing with the various other partners (including the North West Development Agency, Lancaster city council, the local Registered Social Landlord—Adactus Housing Group and the Housing Corporation) regarding potential contributions to deliver the initial projects identified in the masterplan.

### E-projects (Funding)

**Robert Key:** To ask the Deputy Prime Minister what the *(a)* start-up and *(b)* annual running costs are of the Environment and Community Online Residents E-Services Communities Content Management System (CMS); how the scheme applies to (i) parish councils and (ii) the Neighbourhood Web Community CMS project in Wiltshire and Swindon; and if he will make a statement. [6558]

**Jim Fitzpatrick:** The information is as follows.

*(a)* The start-up cost of Environment and Community Online Resident E-Services (ENCORE) National e-Government project was of £3.5 million allocated from the Office of the Deputy Prime Minister's Local e-Government National Project programme strand.

*(b)* The ENCORE Content Management System is Open Source software and is free of charge to LA's to install and run. Annual running costs will therefore be determined locally depending on hardware, internet connectively and staffing costs.

*Parish councils*

(i) The ENCORE Content Management System was built specifically for community groups. However, through the Local Directgov (the Home and Community franchise of Directgov) programme, the ODPM will be developing this system so that Parish councils can be equally e-enabled.

*Neighbourhood Web Community CMS project in Wiltshire and Swindon*

(ii) The Neighbourhood Web Community CMS project in Wiltshire and Swindon—the South Wiltshire Community Web, was originally funded through the ODPM Local e-Government Pathfinder programme stream. As part of the wider consultation with the local authority portal and website community the Directgov programme has initiated discussion with the South Wiltshire Community Web to reduce the risk of duplication, share experience and knowledge and also share the benefits of latest developments in the field.

### Fire Control Centres

**Mr. Dismore:** To ask the Deputy Prime Minister if he will establish an independent assessment of the final business case for regional emergency fire control centres. [10321]

**Jim Fitzpatrick:** As with all Government projects the FiReControl project is subject to independent Gateway reviews by the Office of Government Commerce, which include a review of the business case at its different stages. The Gateway reviews are undertaken at critical stages in the project and provide assurance that they are on track to succeed.

**Mr. Dismore:** To ask the Deputy Prime Minister what the timetable is for the implementation of the fire control project; and if he will make a statement. [10322]

**Jim Fitzpatrick:** I refer my hon. Friend to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 6 June 2005, *Official Report*, column 393W.

### Fire Extinguishers

**Mr. Letwin:** To ask the Deputy Prime Minister if he will list fire extinguishing equipment used by the Fire Service that contains hydrofluorocarbons. [10315]

**Jim Fitzpatrick:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Fire Stations (Essex)

**Mr. Amess:** To ask the Deputy Prime Minister if he will list fire stations which have *(a)* opened and *(b)* closed in Essex since 1997. [10569]

**Jim Fitzpatrick:** At 31 March 2005 there were a total of 51 fire stations in Essex. This has remained the same since 31 March 1998 (i.e. covering 1997–98 financial year). However, there have been some name and location changes as follows:

Tilbury Fire Station changed its name to Orsett Fire Station and was officially opened 14 August 1997.

Maldon Fire Station closed, but moved to a new site and was opened 1 September 1997.

*Source:*

Essex Fire and Rescue Service.

### Flood Risks

**Mr. Hollobone:** To ask the Deputy Prime Minister what discussions his Office has had with the Environment Agency on flood risk assessments of the Kettering area as part of his Office's Milton Keynes and South Midlands growth proposals. [10717]

**Yvette Cooper:** Officials from the Office of the Deputy Prime Minister have held discussions with the Environment Agency throughout the development of the Milton Keynes and South Midlands sub regional strategy (MKSM). Kettering and Wellingborough borough councils have completed a joint strategic flood risk assessment (SFRA) for their administrative areas. This is currently being considered by the Environment Agency. Once approved, the assessment will be made available for information and general use.

### Floodplains

**Miss McIntosh:** To ask the Deputy Prime Minister what his policy is on development building on floodplains; and if he will make a statement. [11048]

**Yvette Cooper:** I refer the hon. Member to the answer given on 7 June 2005, *Official Report*, columns 557–58W.

### House Fires

**Mr. Hoyle:** To ask the Deputy Prime Minister how many people died in house fires in *(a)* Lancashire and *(b)* Chorley in each of the last three years. [11139]

**Jim Fitzpatrick:** The information is as follows:

*(a)* Information on the number of deaths in house fires attended by Lancashire fire and rescue service is shown in the following table.

*Fire-related deaths in dwellings in Lancashire, 2002–04*

| | *Deaths* |
|---|---|
| 2002 | 24 |
| 2003 | 13 |
| 2004 (provisional) | 16 |

*Source:*

Fire and Rescue Service FDR1 returns to ODPM.

*(b)* Information for Chorley is not held centrally and could be provided only at disproportionate cost.

**Mr. Hoyle:** To ask the Deputy Prime Minister how many times the fire brigade was called out to house fires in *(a)* Lancashire and *(b)* Chorley in each of the last three years. [11140]

**Jim Fitzpatrick:** The information is as follows:

*(a)* Information on the number of house fires attended by Lancashire fire and rescue service is shown in the following table.

*House fires attended by Lancashire FRS, 2002–04*

| | *Number of fires* |
|---|---|
| 2002 | 2,096 |
| 2003 | 2,169 |
| 2004 (provisional) | 2,077 |

*Note:*
Data includes estimates for incidents not recorded during periods of national industrial action in 2002 and 2003.
*Source:*
Fire and Rescue Service FDR1 returns to ODPM.

*(b)* Information for Chorley is not held centrally and could be provided only at disproportionate cost.

## Housing

**Mr. Soames:** To ask the Deputy Prime Minister how many key workers in West Sussex have benefited from the Starter Home Initiative, broken down by district council area. [10174]

**Yvette Cooper:** 248 key workers in West Sussex were helped to purchase homes under the Starter Home Initiative. The following table breaks down the figure by district council and by key worker group.

*Number of key workers assisted*

| *Local authority* | *Nurses/health workers* | *Teachers* | *Police* | *Others* |
|---|---|---|---|---|
| Adur | 8 | 7 | 1 | 0 |
| Arun | 5 | 10 | 2 | 2 |
| Chichester | 55 | 5 | 5 | 4 |
| Crawley | 17 | 10 | 6 | 1 |
| Horsham | 9 | 14 | 1 | 2 |
| Mid Sussex | 25 | 12 | 6 | 1 |
| Worthing | 18 | 12 | 9 | 1 |
| Total | 137 | 70 | 30 | 11 |

*Note:*
Other key workers helped under the Starter Home Initiative included social workers, fire fighters, occupational therapists, prison and probation service staff.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister if he will give high performing councils the freedom and flexibility to run their own housing services. [10305]

**Yvette Cooper:** All local housing authorities already have considerable freedom and flexibility to ran their own housing services.

**Mr. Hoyle:** To ask the Deputy Prime Minister if he will *(a)* provide financial support and *(b)* make land owned by his Department available for social housing in Chorley. [10785]

**Yvette Cooper:** The Regional Housing Board is responsible for making recommendations to Ministers about the use of the single housing pot within the North West. As these recommendations are currently with the Office of the Deputy Prime Minister I am unable to comment further at this time. An announcement on allocations is expected shortly.

The Office of Deputy Prime Minister does not have any surplus land in Chorley.

**Mr. Paterson:** To ask the Deputy Prime Minister how many new houses have been built in Ellesmere in each of the last five years for which figures are available. [10931]

**Yvette Cooper:** The Office of the Deputy Prime Minister only collects house building data at local authority level so there are no figures available for the town of Ellesmere. The annual numbers of new build completions reported for North Shropshire local authority since 2000–01 are tabled as follows:

| | *Number* |
|---|---|
| 2000–01 | 246 |
| 2001–02 | 233 |
| 2002–03 | 192 |
| 2003–04 | 141 |
| 2004–05 | 296 |

*Source:*
Returns (P2/NHBC) to ODPM on building control completions

## Housing Development (Flood Risk)

**Mr. Todd:** To ask the Deputy Prime Minister further to his answer of 23 June 2005, *Official Report*, column 1137W, on housing development (flood risk), when he expects to publish revised planning guidance on development and flood risk to which he refers. [11619]

**Yvette Cooper:** The Office of the Deputy Prime Minister expects to issue a draft of a new Planning Policy Statement (PPS) 25 for consultation later this year.

## Micro-bikes

**Mr. Burstow:** To ask the Deputy Prime Minister which local authorities have made byelaws *(a)* prohibiting the use of micro-bikes in particular areas and *(b)* granting the power to seize vehicles causing noise nuisance. [10163]

**Jim Fitzpatrick:** The information requested is not held centrally and could only be provided at disproportionate cost.

## Morecambe

**Geraldine Smith:** To ask the Deputy Prime Minister how much funding the North West Development Agency has provided for the West End Masterplan in Morecambe; and how much funding will be provided during 2005–08. [10156]

**Yvette Cooper:** The Northwest Regional Development Agency (NWDA) has made available £60,000 for a feasibility study into the establishment of an arts/creative industry campus in the West End by St. Martin's College. NWDA will also consider investing up to £3 million from 2006–07 onwards in projects that will encourage the growth and establishment of businesses in the area. This is subject to satisfactory progress implementing the masterplan, the completion of NWDA's appraisal and approval processes and the availability of resources.

## Population Growth

**Mr. Paterson:** To ask the Deputy Prime Minister what the projected growth of the population in *(a)* Oswestry borough and *(b)* North Shropshire district is for the next 10 years. [10933]

**Yvette Cooper:** The population projections from 2005 to 2015 are *(a)* Oswestry borough 40,600 (an increase of 2,100), and *(b)* North Shropshire district 63,600 (an increase of 4,300). The projections are based on Office for National Statistics mid-year estimates 2003.

### Right-to-buy Scheme

**Mrs. Dorries:** To ask the Deputy Prime Minister how many housing association tenants in *(a)* the county of Bedfordshire and *(b)* the constituency of Mid-Bedfordshire are eligible for (i) the right-to-buy, (ii) the preserved right-to-buy, (iii) the right-to-acquire and (iv) voluntary purchase grants. [11016]

**Yvette Cooper:** No information is held centrally on the number of housing association tenants who have a right-to-buy in Bedfordshire or in the constituency of Mid-Bedfordshire.

Around 13,500 housing association tenants who have transferred with their homes from local authorities to housing associations in Bedfordshire have a preserved right-to-buy.

A further 1,332 housing association tenants in Bedfordshire may qualify for the right-to-acquire because the homes were provided with public funds since 1 April 1997. Some of the tenants whose properties have transferred from local authorities after the same date may also qualify for the right-to-acquire.

It is not possible to say how many housing association tenants in Bedfordshire are eligible for voluntary purchase grants. This scheme is offered at the discretion of housing associations, which bid to the Housing Corporation for funds to cover the discount offered to the tenant. Eligibility therefore depends on whether housing associations choose to participate in the scheme, which properties are included, and the availability of funding.

### Social Landlords

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister if he will list the local authorities whose council homes were transferred to a registered social landlord and which have since been the subject of a further change in landlords; what the name of the *(a)* initial and *(b)* subsequent registered social landlords was in each case; and how many homes were affected in each case. [11158]

**Yvette Cooper:** On 18 May 2005 my right hon. Friend the Deputy Prime Minister, the First Secretary of State gave his consent under section 133 of the Housing Act 1988, after consulting the Housing Corporation, to the transfer of 2,553 dwellings from Hart Housing Association Ltd. to Oakfern Housing Association Ltd., both of which are members of Sentinel Housing Group Ltd. Residents of Hart Housing Association Ltd. and Oakfern Housing Association Ltd. were consulted about the proposals prior to consent being given.

The Office of the Deputy Prime Minister has received no other request by a registered social landlord to transfer the ownership of its housing stock to another registered social landlord.

### Special Constables

**Shona McIsaac:** To ask the Deputy Prime Minister if he will list the local authorities which offer a reduction in council tax for special constables. [11366]

**Mr. Woolas:** The Office of the Deputy Prime Minister does not hold this information centrally and it could only be obtained at disproportionate cost

### UK Accreditation Service

**Mr. Neil Turner:** To ask the Deputy Prime Minister which certificates produced by the British Board of Agrément are audited and accredited by the UK Accreditation Service. [10498]

**Yvette Cooper:** A number of documents produced by the British Board of Agrément (BBA) solely as a result of testing against technical specifications are audited and accredited by the UK Accreditation Service.

Details of these are not held in the Office of the Deputy Prime Minister but are available from BBA.

**Mr. Neil Turner:** To ask the Deputy Prime Minister what processes the UK Accreditation Service uses to accredit *(a)* BRE Certification, *(b)* BM TRADA and *(c)* the British Board of Agreement. [10499]

**Yvette Cooper:** UKAS assesses and accredits these organisations against the criteria in the following internationally recognised standards:

*(a)* BRE Certification—EN 45011 and EN 45012;

*(b)* BM TRADA—EN 45011, EN 45012, ISO Guide 66, ISO 17024;

*(c)* British Board of Agreement—EN 45011 and EN 45012;

The UK Accreditation Service publishes the full scope of accreditation against each of these standards on its website;
(http://www.ukasxom/about_accreditation/accredited_bodies/certification_body_schedules.asp).

## HEALTH

### Electronic Data

5. **Mr. Pelling:** To ask the Secretary of State for Health whether all NHS patients will be able to opt out of having their data held electronically under Connecting for Health. [11244]

**Mr. Byrne:** Doctors have a professional duty to keep accurate records and patients do not have the right to choose whether or how this is done. However, patients not wishing to have their data held electronically within the new NHS Care Records Service will have that choice.

### Patients' Needs (Lichfield)

13. **Michael Fabricant:** To ask the Secretary of State for Health if she will visit Lichfield to meet stakeholders to discuss the future needs of patients using the hospital under construction in the city. [11252]

**Ms Rosie Winterton:** Either I, or one of my ministerial colleagues, would be delighted to visit the new hospital in Lichfield at an appropriate time.

The future needs of patients using the new hospital are a matter for Burntwood, Lichfield and Tamworth primary care trust and other local stakeholders.

### Dentistry

14. **Mr. Gordon Prentice:** To ask the Secretary of State for Health what grants are available to help NHS dentists set up surgeries in residential areas. [11253]

**Ms Rosie Winterton:** No specific grants have been made available to help national health service dentists set up surgeries in residential areas, but the £50 million made available in 2004–05 to boost local NHS capacity could be used in residential areas.

Primary care trusts may use their own budget to support the development of dental access in residential areas.

16. **Mrs. Villiers:** To ask the Secretary of State for Health what the trends in NHS dentistry registration rates have been since 1997. [11255]

**Ms Rosie Winterton:** Some 24.3 million patients in England were registered with a national health service dentist in May 2005, compared with 26.4 million in 1997.

However, courses of dental treatment have increased by 6 per cent. from 31.3 million in 1997–98 to 33 million in 2004–05. This is a result of both the establishment of 53 dental access centres and the availability of dental access sessions offering NHS dentistry to patients who are not registered.

**Sandra Gidley:** To ask the Secretary of State for Health what assessment she has made of the percentage of dental practices that are registering *(a)* children and *(b)* all adults in the (i) Eastleigh and Test Valley South, (ii) Southampton and (iii) Mid Hants primary care trust areas. [9794]

**Ms Rosie Winterton:** Information about dental practices registering patients is not centrally collected. However, information can be obtained from local primary care trusts or NHS Direct.

### Junior Doctors (Working Time Directive)

15. **Dr. Richard Taylor:** To ask the Secretary of State for Health if she will make a statement on the effects of the European working time directive on continuity of patient care and junior doctor training in the NHS. [11254]

**Jane Kennedy:** Junior doctors' working patterns should strike a sensible balance between services designed around patients and services which support doctors working lives and their training. The modernising medical careers initiative will assist implementation of the working time directive and help make the best use of training opportunities for junior doctors.

### Myeloma

17. **Mr. McGovern:** To ask the Secretary of State for Health if she will make a statement on the treatment of myeloma. [11256]

**Ms Rosie Winterton:** In 2003, the National Institute for Health and Clinical Excellence (NICE) published Improving Outcomes in Haematological Cancers. This guidance makes recommendations on treatment services for patients with haematological cancers, including myeloma. NICE recently updated the general practitioner referral guidelines which are designed to help GPs detect early signs of cancer, including myeloma.

### Cervical Smear Tests

18. **Helen Jones:** To ask the Secretary of State for Health what steps she is taking to ensure that women receive the results of cervical smear tests within a reasonable time. [11257]

**Ms Rosie Winterton:** We are committed to reducing waiting times for the results of cervical screening tests. We have consulted experts on how best to achieve this, and have commissioned a formal options appraisal from the university of Sheffield. This is due to report in December.

### Primary Care Trusts

19. **Dr. Pugh:** To ask the Secretary of State for Health what plans the Government have to change the role and structure of primary care trusts. [11258]

**Jane Kennedy:** As we implement the next stage of the national health service reforms, including practice based commissioning and streamlining NHS management, primary care trusts will need to change and develop. These changes need to reflect local circumstances and form part of a structured programme for the NHS as a whole.

**Mr. Amess:** To ask the Secretary of State for Health what the responsibilities are of primary care trusts; and if she will make a statement. [9015]

**Mr. Byrne:** The responsibilities of primary care trusts (PCTs) are:

To assess the health needs of their population and to commission primary care and hospital based services to meet those needs;

To ensure the provision of primary and community services; and

To improve the health of their local population, reducing health inequalities.

As we implement the next stage of the national health service reforms, including practice based commissioning and streamlining NHS management, PCTs will need to change and develop.

**Peter Luff:** To ask the Secretary of State for Health pursuant to the answer of 30 June 2005, *Official Report*, column 1766W, on primary care trusts, what the average per capita funding for all primary care trusts in England was in 2004–05; and what the average per capita funding budgeted for 2005–06 is. [10805]

**Mr. Byrne** *[holding answer 11 July 2005]:* The average per capita funding for all primary care trusts in England in 2004–05 was £1,003. The average per capita funding allocated for 2005–06 is £1,097.

### Digital Hearing Aids

20. **Joan Walley:** To ask the Secretary of State for Health what her latest assessment is of the availability of NHS digital hearing aids. [11259]

**Mr. Byrne:** Since the end of March 2005, all 164 NHS hearing aid services in England are routinely providing people with digital hearing aids.

### Coronary Bypass Grafts

22. **Lynda Waltho:** To ask the Secretary of State for Health if she will make a statement on waiting times for coronary bypass grafts. [11261]

**Ms Rosie Winterton:** Excellent progress has been made to reduce waiting times for heart surgery patients. Until recently, patients were waiting up to two years for a coronary bypass graft operation but now no one waits longer than three months for heart surgery.

### Alzheimer's/Dementia

23. **Mr. Jim Cunningham:** To ask the Secretary of State for Health if she will take steps to ensure that appropriate and affordable medicines are available to people with *(a)* Alzheimer's and *(b)* dementia. [11262]

**Mr. Byrne:** I refer my hon. Friend to the answer I gave on 16 June 2005, *Official Report*, column 630W.

### Hepatitis C (Prison Inmates)

24. **Mr. Fabian Hamilton:** To ask the Secretary of State for Health what estimate she has made of the number of prison inmates infected with hepatitis C; and how many inmates are infected in each prison in England. [11263]

**Ms Rosie Winterton:** Information about the number of prisoners with hepatitis C is not collected centrally. The then Public Health Laboratory Service undertook an unlinked, anonymised survey of the prevalence of blood borne viruses amongst prisoners in England in 1997–98. This indicated that nine per cent., of adult men, 11 per cent., of women and 0.6 per cent., of male young offenders had evidence of previous exposure to hepatitis C.

### GP Practices

25. **Mr. Hollobone:** To ask the Secretary of State for Health how many general practitioner practices there are in Kettering constituency; and what the average number of patients registered with a practice in Kettering is. [11264]

**Ms Rosie Winterton:** The information is not held in the format requested. The following table shows the average list size of general medical practitioners (excluding retainers and registrars),[1] and GP practices for Northhamptonshire Heartlands primary care trust.

| | *Numbers (headcount)* |
|---|---|
| All practitioners (excluding retainers and registrars)[1] | 145 |
| Patients | 287,476 |
| Average list size | 1,983 |
| GP practices | 35 |

[1] General Medical Practitioners (excluding retainers and registrars) includes contracted GPs, GMS others, and PMS others

*Source:*

NHS health and social care information centre general and personal medical services statistics.

**Mr. Dismore:** To ask the Secretary of State for Health what assessment she has made of the number of people in each NHS region who are not registered with a GP; and if she will make a statement. [7068]

**Mr. Byrne:** It is not possible to estimate with any accuracy the number of people who are not registered with a general practice.

**Mr. Lansley:** To ask the Secretary of State for Health what information she has collated on how many general practitioners plan to retire in each year until 2010. [10029]

**Mr. Byrne:** The information is not collected centrally.

**Mrs. Dorries:** To ask the Secretary of State for Health how many full-time equivalent NHS general practitioners have been employed in the Mid-Bedfordshire constituency in each year since 1997; and if she will make a statement. [11092]

**Ms Rosie Winterton:** The number of full-time equivalent national health service general practitioners that have been employed in the Mid-Bedfordshire constituency in each year since 1997 are shown in the tables.

*General Medical Practitioners (excluding registrars and retainers)[1] for specified organisations, 1997 to December 2004*

| | | *Estimated full-time equivalents* | | | | |
|---|---|---|---|---|---|---|
| | | *1997* | *1998* | *1999* | *2000* | *2001* |
| QA6 | Bedfordshire HA | 285 | 286 | 287 | 289 | — |
| 5GD | Bedford PCT | n/a | n/a | n/a | n/a | 73 |
| 5GE | Bedfordshire Heartlands PCT | n/a | n/a | n/a | n/a | 123 |

| | | *Estimated full-time equivalents* | | | |
|---|---|---|---|---|---|
| | | *2002* | *2003* | *2004* | *December 2004* |
| QA6 | Bedfordshire HA | n/a | n/a | n/a | n/a |
| 5GD | Bedford PCT | 75 | 82 | 91 | 94 |
| 5GE | Bedfordshire Heartlands PCT | 121 | 129 | 136 | 136 |

n/a = Data not applicable.

[1] General Medical Practitioners (excluding retainers and registrars) includes Contracted GPs, QMS Others and PMS Others.

*Notes:*
1. PCTs did not come into existence until 1 April 2000, prior to this data was only available at health authority level which does not compare with present day organisational structure.
2. FTE data has been estimated using the results from the 1992–93 GMP Workload Survey.
3. For 1994 to 2003—Contracted GPs—Full-time = 1.00 fte; three quarter time = 0.69 fte; job share = 0.65 fte; and half time = 0.60 fte; Other GP types Full-time = 1.00 fte; Part-time = 0.6 fte
4. For 2004—All GPs—Full-Time 1.0 fte; Part-time = 0.6 fte, and therefore may not be fully comparable with previous years.
5. Data as at 1 October 1997–99, 30 September 2000–04 and 31 December 2004.

*Source:*
NHS Health and Social Care Information Centre General and Personal Medical Services Statistics.

## Agency Nurses

**Lynne Featherstone:** To ask the Secretary of State for Health how much the health service spent on hiring agency nursing staff *(a)* in total and *(b)* broken down by NHS trust, in (i) 1995–96, (ii) 1996–97, (iii) 1997–98, (iv) 1998–99, (v) 1999–2000, (vi) 2000–01, (vii) 2001–02, (viii) 2002–03 and (ix) 2003–04; what the figures were at the latest date for which figures are available; and if she will make a statement. [8040]

**Mr. Byrne:** The table shows the total non-national health service salaries and wages expenditure for nursing, midwifery and health visiting for the years 1995–96 to 2003–04. Information on expenditure in each NHS trust in England in each year from 1995–96 to 2000–01 and 2001–02 to 2003–04 is available in the Library. Total NHS spend increased from £32 billion in 1995–96 to £63 billion in 2003–04.

*Non-NHS staff (agency, etc) (by NHS classification) salaries and wages expenditure—England*

| | *Nursing, midwifery and health visiting expenditure (£)* |
|---|---|
| 1995–96 | 166,631,982 |
| 1996–97 | 191,496,635 |
| 1997–98 | 216,338,567 |
| 1998–99 | 272,225,162 |
| 1999–2000 | 361,656,683 |
| 2000–01 | 435,431,882 |
| 2001–02 | 554,323,821 |
| 2002–03 | 589,738,042 |
| 2003–04 | 524,675,129 |

*Sources:*
Annual financial returns of NHS trusts, 1995–96 to 2003–04.
Annual financial returns of district and regional health authorities and the special health authorities for the London postgraduate teaching hospitals, 1995–96.
Annual financial returns of health authorities 1996–97 to 2001–02.
Annual financial returns of strategic health authorities 2002–3 to 2003–04.
Annual financial returns of primary care trusts 2000–01 to 2003–04.

## Ambulance Service Review

**Mr. Lansley:** To ask the Secretary of State for Health on what date *(a)* Ministers and *(b)* officials first received the completed review of ambulance services undertaken by Mr. Peter Bradley. [10036]

**Mr. Byrne:** An incomplete version of the review of ambulance services was submitted to ministers on 27 May 2005. The review group continued to finalise the report until close to its publication on 30 June 2005.

Departmental officials worked closely with the review group throughout the period of the ambulance review.

## Bowel Diseases

**Mr. Lansley:** To ask the Secretary of State for Health what plans she has to increase the number of specialist nurses involved in the care of inflammatory bowel diseases. [9509]

**Mr. Byrne:** Information is not collected centrally on the number of nurses specialising in inflammatory bowel disease. Between September 2003 and 2004, the number of qualified nurses employed in the national health service has increased by 78,660, and training places for nurses have increased by 67 per cent. since 1996–97, increasing the pool of nurses from which specialist nurses can be drawn.

It is for local NHS organisations to determine the specific work force needed to best suit the local area.

## Care Assistants

**Mr. Baron:** To ask the Secretary of State for Health what her estimate is of the average hourly wage of a care assistant in the NHS. [11059]

**Mr. Byrne** *[holding answer 11 July 2005]:* Under Agenda for Change, the basic pay that staff receives will reflect the knowledge, responsibility, skills and effort required for their job, rather than their historic job title or occupational group. However, based on experience so far, most care assistants are assimilating at band two or three, depending on the nature of the job.

£

| *Pay Band* | *Annual* | *Hourly* |
|---|---|---|
| *Band minimum*[1] *(2005–06)* | | |
| 2 | 11,879 | 6.08 |
| 3 | 13,694 | 7.00 |
| *Band maximum (2005–06)* | | |
| 2 | 13,694 | 7.00 |
| 3 | 16,389 | 8.37 |

[1] Excludes special transitional points which apply only during assimilation to the new system.

## Community Equipment Services

**Andrew Selous:** To ask the Secretary of State for Health how much the NHS has been charged for the lease of equipment loaned on a short-term basis to patients for use in their own homes in each of the last three years for which figures are available. [8709]

**Mr. Byrne** *[holding answer 4 July 2005]:* The national health service purchases the majority of its equipment to be used in peoples homes which is generally of a low individual value and arranges for its recycling where possible. This is in line with the Audit Commission's report, "Fully Equipped".

Although some major items may be acquired on a lease basis the Department does not collect centrally information on of how much the NHS has been charged.

### Emergency Response Services

**Mr. Lansley:** To ask the Secretary of State for Health if she will estimate the cost to the NHS of inappropriate 999 calls in the most recent period for which figures are available. [10035]

**Mr. Byrne:** This information is not collected centrally.

### End-of-life Care

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 27 June 2005, *Official Report*, column 1356W, on end-of-life care, how much has been allocated to each strategic health authority. [10488]

**Ms Rosie Winterton:** The individual allocations for the end-of-life care programme for the year 2005–06 to each strategic health authority (SHA) are shown in the table.

| *Strategic health authority* | *Allocation (£)* |
|---|---|
| Norfolk, Suffolk and Cambridgeshire | 149,000 |
| Bedfordshire and Hertfordshire | 109,000 |
| Essex | 113,000 |
| North West London | 142,000 |
| North Central London | 102,000 |
| North East London | 138,000 |
| South East London | 123,000 |
| South West London | 91,000 |
| Northumberland, Tyne and Wear | 115,000 |
| County Durham and Tees Valley | 94,000 |
| North and East Yorks and Northern Lincs | 113,000 |
| West Yorkshire | 159,000 |
| Cumbria and Lancashire | 148,000 |
| Greater Manchester | 209,000 |
| Cheshire and Merseyside | 195,000 |
| Thames Valley | 135,000 |
| Hampshire and Isle of Wight | 120,000 |
| Kent and Medway | 113,000 |
| Surrey and Sussex | 177,000 |
| Avon, Gloucestershire and Wiltshire | 146,000 |
| South West Peninsula | 114,000 |
| Dorset and Somerset | 85,000 |
| South Yorkshire | 103,000 |
| Trent | 190,000 |
| Leicestershire, Northamptonshire and Rutland | 101,000 |
| Shropshire and Staffordshire | 104,000 |
| Birmingham and The Black Country | 187,000 |
| West Midlands South | 106,000 |

Allocations to the lead primary care trust within each SHA will be made during July 2005.

### Ethical Recruitment

**Mr. Amess:** To ask the Secretary of State for Health what measures are in place to ensure that the NHS abides by its code of practice on ethical recruitment. [10501]

**Mr. Byrne:** NHS Employers has taken over the monitoring of national health service compliance to the code of practice. It will continue to monitor compliance through data supplied on a regular basis by the international recruitment co-ordinators based in each strategic health authority.

### Financial Deficits (Trusts)

**Mike Penning:** To ask the Secretary of State for Health how many *(a)* hospital trusts and *(b)* primary care trusts in Hertfordshire have financial deficits; and if she will make a statement. [11260]

**Ms Rosie Winterton:** The latest year for which audited financial information is available for national health service organisations is 2003–04. In 2003–04 there was one NHS trust and one primary care trust in Bedfordshire and Hertfordshire strategic health authority in deficit.

Audited information for 2004–05 will be available in the audited accounts in the autumn.

### Health Care Expenditure

**Hywel Williams:** To ask the Secretary of State for Health what health spending per head was in each region of England in the last period for which figures are available; and if she will make a statement. [11273]

**Mr. Byrne** *[holding answer 11 July 2005]:* Information on expenditure per head by region is available in table 3.10b of the Department's departmental report 2005 (Cm 6524) presented to Parliament on 21 June 2005.

### Health Outside Hospitals

**Tony Baldry:** To ask the Secretary of State for Health (1) whether community hospital services will form part of the regional public consultations on the health outside hospitals White Paper; [10281]

(2) whether one of the regional public consultations on the health outside hospitals White Paper will be based on Oxfordshire; [10282]

(3) whether primary care trust public consultations on local health services will form part of the health outside hospitals White Paper. [10290]

**Mr. Byrne:** We have not yet finalised the scope of the listening exercise for the health and care outside hospitals White Paper, but it will be wide-ranging in considering the needs of people who use services, people who deliver services and other stakeholders. The exact format of any regional events has yet to be determined, but the whole of the country, including Oxfordshire, will be covered. The listening exercise is intended to guide the formation of national policy on health and care outside hospitals, rather than to discuss or formally consult on specific aspects of local service provision.

### Waiting lists

**Mr. Amess:** To ask the Secretary of State for Health how many patients in the Southend primary care trust area have waited more than *(a)* three months, *(b)* six months, *(c)* nine months, *(d)* 12 months, *(e)* 15 months, *(f)* 18 months and *(g)* 24 months for (i) heart operations, (ii) cancer treatment and (iii) hip replacements in each year since 2000–01; and if she will make a statement. [9967]

**Ms Rosie Winterton:** Finished in-year admissions episodes for patients who waited up to three months, more than three months, six months, nine months, 12

months, 15 months, 18 months and 24 months for heart operations, cancer treatment and hip replacements in each year since 2000–01 for Southend hospital trust are shown in the following tables.

*Counts of finished in-year admission episodes. Main operative procedure heart operations (OPCS-4 = K01-K71).*
*RAJ Southend hospital national health service trust*
*NHS hospitals, England 2000–01 to 2003–04*

*Heart operations*

| *Waiting time grouping* | *Finished in-year admission episodes* 2000–01 | 2001–02 | 2002–03 | 2003–04 |
|---|---|---|---|---|
| Up to three months | 750 | 838 | 1,103 | 1,098 |
| More than three up to six months | 109 | 147 | 128 | 103 |
| More than six up to nine months | 186 | 125 | 60 | 341 |
| More than nine up to 12 months | 127 | 188 | 201 | 59 |
| More than 12 up to 18 months | 11 | 18 | 15 | 4 |
| More than 18 up to 24 months | — | — | — | 1 |
| More than 24 months | — | — | — | — |
| Waiting time not known | 3 | — | — | 3 |
| Total finished in-year admission episodes | 1,186 | 1,316 | 1,507 | 1,609 |

*Counts of finished in-year admission episodes. Primary diagnosis cancer (ICD-10 = COO-D48.)*
*RAJ Southend hospital NHS trust*
*NHS hospitals, England 2000–01 to 2003–04*

*Cancer*

| *Waiting time grouping* | *Finished in-year admission episodes* 2000–01 | 2001–02 | 20002–03 | 2003–04 |
|---|---|---|---|---|
| Up to three months | 5,191 | 5,411 | 4,820 | 3,610 |
| More than three up to six months | 322 | 342 | 243 | 278 |
| More than six up to nine months | 102 | 107 | 79 | 77 |
| More than nine up to 12 months | 61 | 50 | 68 | 34 |
| More than 12 up to 18 months | 50 | 69 | 43 | 10 |
| More than 18 up to 24 months | 3 | 10 | 3 | 6 |
| More than 24 months | 4 | 5 | 3 | — |
| Waiting time not known | 744 | 816 | 773 | 1,248 |
| Total finished in-year admission episodes | 6,477 | 6,810 | 6,032 | 5,263 |

*Counts of finished in-year admission episodes. Main operative procedure hip replacement (OPCS-4 = W37-W39).*
*RM Southend Hospital NHS trust*
*NHS hospitals, England 2000–01 to 2003–04*

*Hip replacement*

| *Waiting time grouping* | *Finished in-year admission episodes* 2000–01 | 2001–02 | 2002–03 | 2003–04 |
|---|---|---|---|---|
| Up to three months | 45 | 44 | 43 | 46 |
| More than three up to six months | 23 | 38 | 35 | 24 |
| More than six up to nine months | 48 | 41 | 38 | 60 |
| More than nine up to 12 months | 50 | 43 | 80 | 91 |
| More than 12 up to 18 months | 71 | 87 | 106 | 25 |
| More than 18 up to 24 months | 17 | 15 | 8 | 8 |
| More than 24 months | 9 | 6 | 3 | 15 |
| Waiting time not known | — | — | — | 1 |
| Total finished in-year admission episodes | 263 | 274 | 313 | 270 |

*Notes*:
1. Finished in-year admissions:
A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Diagnosis (primary diagnosis):
The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Main operation:
The main operation is the first recorded operation in the HES data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, for example, time waited, but the figures for all operations count of episodes give a more complete count of episodes with an operation.
4. Ungrossed data:
Figures have not been adjusted for shortfalls in data, that is, the data are ungrossed.
5. Time waited (days):
Time waited statistics from Hospital Episode Statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

Hospital Episode Statistics (HES), Health and Social Care Information Centre

### Nurses (Bedfordshire)

**Mrs. Dorries:** To ask the Secretary of State for Health how many specialist nurses there are in Bedfordshire who deal with *(a)* coronary heart disease and *(b)* arrhythmia in young people. [11091]

**Ms Rosie Winterton:** The information requested is not collected centrally.

### Health Technical Memoranda

**Mr. Lansley:** To ask the Secretary of State for Health what systems are in place to monitor compliance with Health Technical Memoranda (HTM), with particular reference to HTM 2022 on medical gas pipeline systems; and whether she expects these monitoring systems to change with the abolition of NHS Estates, as envisaged in the Department's review of arm's length bodies. [10027]

**Mr. Byrne:** NHS Estates does not monitor compliance to health technical memoranda (HTM), including HTM2022. It is the responsibility of the health care provider to be aware of all best practice guidance and to manage and monitor medical gas pipeline systems in line with their duty of care and governance arrangements.

### Hospital Beds

**Mr. Lansley:** To ask the Secretary of State for Health what estimate she has made of the number of available beds required in total in the NHS in England to achieve a national average bed occupancy rate of 82 per cent. [10033]

**Mr. Byrne:** No such assessment has been made. Occupancy levels in national health service facilities vary, depending on the range and type of services they provide, and the way in which the admission and discharge of patients is managed. The Department does not have targets for occupancy levels, which are for the NHS locally to determine.

### Hospital-acquired Infections

**Mr. Lansley:** To ask the Secretary of State for Health what targets for reduction will be attached to the hospital-acquired infections, other than methicillin resistant staphylococcus aureus, which are monitored under the mandatory surveillance schemes for NHS trusts. [10030]

**Jane Kennedy:** The first year's data will provide a baseline for trend analysis and it is too early to decide if targets would be appropriate.

**Mr. Lansley:** To ask the Secretary of State for Health what assessment she has made of colloidal silver as a treatment for *(a)* MRSA and *(b)* other hospital acquired infections; and what research she has commissioned into its use. [9516]

**Jane Kennedy:** Although colloidal silver has antibacterial properties for treating meticillin resistant *staphylococcus aureus* (MRSA) and other hospital acquired infections it is not used as an alternative to antibiotics because of its toxicity when taken internally. We are not aware of any relevant studies on its efficacy.

### IVF Treatment

**Mr. Lancaster:** To ask the Secretary of State for Health what plans the Minister has to extend the availability of IVF treatment under the NHS. [10279]

**Caroline Flint:** Following the publication in February 2004 of the National Institute for Health and Clinical Excellence's (NICE) clinical guideline on the assessment and treatment for people with fertility problems, we advised all primary care trusts to offer a minimum of one cycle of in vitro fertilization (IVF) by April 2005 to those who meet the clinical criteria, giving priority to couples with no children living with them. and to make progress to full implementation of the guideline in the longer term. The primary responsibility for the implementation of NICE guidelines rests with the national health service at local level and compliance with NICE guidance by NHS organisations will be considered by the Healthcare Commission during their review and performance assessment processes.

### Medicine Imports

**Mr. Amess:** To ask the Secretary of State for Health how much medicine the Government imported in the last three years for which figures are available. [9925]

**Jane Kennedy:** The United Kingdom (UK) world trade in pharmaceuticals between 2002 and 2004 is shown in the following table.

*UK world trade—pharmaceuticals*

| | *Total imports (millions)* | *Total exports (millions)* | *Trade surplus balance* |
|---|---|---|---|
| 2002 | 7,558 | 10,179 | 2,621 |
| 2003 | 8,378 | 11,941 | 3,563 |
| 2004 | 8,635 | 12,348 | 3,713 |

This information is collected and published by Her Majesty's Customs and Excise.

### Mental Health

**Tim Loughton:** To ask the Secretary of State for Health whether patients who have killed staff within the South West London and St. George's Mental Health Trust were classified as extremely disturbed and subject to a recommendation that they should always be approached for treatment by two or more members of staff. [8683]

**Jane Kennedy:** I refer the hon. Member to the answer I gave on Tuesday 7 July 2005, *Official Report*, column 587W. There has been one incident where a member of staff at the South West London and St. George's Mental Health Trust was killed by a patient. This case attracted a large amount of media attention and is to be subject to an external independent inquiry. We would not wish to prejudice the findings of this inquiry, which will be made public as soon as is possible. In the meantime, we also have a duty to protect the patient confidentiality of the patient concerned.

**Sandra Gidley:** To ask the Secretary of State for Health whether the use of electroconvulsive therapy is proportionately more common in the treatment of

people with mental health problems aged over 65 than in the treatment of people with mental health problems of all ages. [9973]

**Ms Rosie Winterton:** The latest information available on electro-convulsive therapy (ECT) is that contained in the Department's publication Statistical Bulletin Electro Convulsive Therapy: Survey covering the period from January 2002 to March 2002, England. This was a follow-up to an earlier survey of the period January to March 1999. Both surveys were undertaken to provide data on ECT that are not currently available elsewhere.

The 2002 survey confirmed the continuing downward trend in the number of administrations of ECT. It collected information from national health service and independent sector care settings, including nursing homes, on the total number of administrations of ECT in NHS and independent sector care settings including data on sex, age, ethnicity, legal status and method of consent. It found that in the period January to March 2002:

4.6 people per 100,000 of the population underwent ECT, compared with 5.8 in the 1999 survey period.

The prevalence rates for both men and women were lower in 2002 than in 1999. In 2002 2.8 per 100,000 men received treatment compared to 3.8 per 100,000 in 1999; additionally, 6.4 per 100,000 women were treated in the 2002 survey period, compared to 7.7 in 1999.

The incidence of the use of ECT was shown to rise with age in both of the survey periods. Overall, 13.5 per 100,000 population aged 65 and over underwent ECT in 2002; this compares to a prevalence rate of 5.6 in 45 to 64 year olds, 3.6 for 45 to 44 year olds and only 1.2 for 19 to 24 year olds.

In 1999, the statistics show a similar pattern with 15.1 per 100,000 population aged 65 and over undergoing ECT; this dropped to 8.0 per 100,000 in those aged 45 to 64, to 4.6 in those aged 25 to 44 and again to 1.5 in those aged 16 to 24.

Copies of the 2002 (ISBN: 1 84182 709 6) and 1999 (IBSN: 1 84182 089 X) surveys are available in the Library and on the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/Statistics/StatisticalWorkAreas/StatisticalHealthCare/StatisticalHealthCareArticle/fs/en?CONTENT_ID=4086494&chk=QFbR7a.

**Mr. Burstow:** To ask the Secretary of State for Health what steps she will take to ensure that the public are able to compare investment and commissioning decisions of primary care trusts in developing specialist old age mental health services, in accordance with section 2.2.8 of the report, Better Health in Old Age. [7195]

**Mr. Byrne:** For the first time this year, the Department will be supporting service mapping of older people's mental health services. This exercise is planned for autumn 2005. It is envisaged that similar data collections will be supported annually. Finance data on older people's mental health services will also be included for the first time in this autumn's national finance mapping of mental health services. The results for older adults will be available to the public on the internet.

### National Institute for Health and Clinical Excellence

**Sandra Gidley:** To ask the Secretary of State for Health if she will break down the membership of the National Institute for Health and Clinical Excellence's Citizens' Council by *(a)* age, *(b)* gender and *(c)* ethnicity; and if she will make a statement. [9798]

**Jane Kennedy:** I refer the hon. Member to the response of I gave on 27 June 2005, *Official Report*, column 1374W.

### NHS (Independent Providers)

**Mr. Lansley:** To ask the Secretary of State for Health whether she has issued any guidance on the number of *(a)* NHS foundation trusts and *(b)* independent sector providers primary care trusts must offer to patients in their menu of four to five providers by the end of 2005; when this guidance was issued; and whether she plans to issue any further guidance. [3443]

**Mr. Byrne:** Under the policy framework for choice and booking at the point of referral, published by the Department in August 2004, primary care trusts (PCTs) are responsible for commissioning the menus of four or more providers from which patients needing planned hospital care will be able to choose from the end of this year.

Where a PCT has a contract with a nationally procured independent sector treatment centre (ISTC), the ISTC needs to be on the PCTs choice menus for those specialities covered by the contract. Other PCTs in the area should also consider offering the ISTC as a choice to their patients. We would also expect PCTs to include any independent sector provider with which they have an existing, locally negotiated, contract to provide an appropriate package of care.

"Creating a Patient Led NHS'" published in March 2005, set out our commitment to increase the choice of providers available to patients from April next year. In addition to the four or more locally commissioned providers, patients will be offered the choice of all national health service foundation trusts, all independent sector treatment centres and other nationally procured independent sector providers which meet NHS standards.

### NHS Direct

**Mr. Lansley:** To ask the Secretary of State for Health what the budget for NHS Direct has been in each year since 1997–98; how many calls NHS Direct received in each year; and what the maximum call capacity of NHS Direct was in each year. [7504]

**Mr. Byrne:** The budget for NHS Direct since its inception in 1998–99 is shown in the table.

| | *Revenue (£ millions)* |
|---|---|
| 1998–99 | 14 |
| 1999–2000 | 55 |
| 2000–01 | 90.1 |
| 2001–02 | 89.7 |
| 2002–03 | 106 |
| 2003–04 | 117.5 |
| 2004–05 | 121 |
| 2005–06 | 163 |

I understand from the chairman of NHS Direct that the number of calls answered in each year since 1998 are as shown in the table.

| Calendar year | Calls answered (thousands) |
|---|---|
| 1998 | 110 |
| 1999 | 1,650 |
| 2000 | 3,000 |
| 2001 | 5,001 |
| 2002 | 5,940 |
| 2003 | 6,420 |
| 2004 | 6,480 |

Information on maximum call capacity is not collected centrally.

**Mr. Kevan Jones:** To ask the Secretary of State for Health what the national health service direct access tariff is. [10381]

**Mr. Byrne** *[holding answer 7 July 2005]:* Direct access tariffs require more work on data collection before mandatory tariffs are introduced.

## NHS Expenditure

**Mr. Lansley:** To ask the Secretary of State for Health what proportion of the NHS annual budget was spent on *(a)* clinical research, *(b)* clinical research into the treatment and prevention of cancer and *(c)* research into the use of photo dynamic therapy as a treatment for cancer in the last period for which figures are available. [9958]

**Jane Kennedy** *[holding answer 6 July 2005]:* Research active organisations in the National Health Service were allocated £440 million research and development support funding in 2003–04[1], of which they report spending some £113 million on research related to cancer. These totals account respectively for 0.72 per cent. and 0.18 per cent. of total NHS expenditure in that year.

Details of individual NHS projects, including some concerned with photo dynamic therapy in the treatment of cancer, can be found on the national research register at www.dh.gov.uk/research. Project level expenditure data for 2003–04 are not held centrally.

[1] In addition to clinical research, the allocations to the NHS support health services research, public health research, and research to develop and apply new technology in the NHS.

## NHS Finance

**Mr. Austin Mitchell:** To ask the Secretary of State for Health which hospital trusts are in debt, listed in descending order of indebtedness; and what the size of each debt was in each case. [9651]

**Mr. Byrne:** The latest available audited information in national health service trusts that failed to break even in their financial accounts is for 2003–04, and is shown in the table. In 2003–04, the NHS as a whole finished with a small surplus of £73 million.

*NHS trusts[1] cumulative breakeven position—2003–04*

| NHS trust name | £000 Breakeven position |

Summarisation schedule of 2003–04 final accounts

### Occupational Therapists

**Annette Brooke:** To ask the Secretary of State for Health how many vacancies there were for occupational therapists working with *(a)* children and *(b)* adults on (i) 1 April 2004 and (ii) 1 April 2005 in (A) Dorset and (B) England; and if she will make a statement on the provision of occupational services in Dorset. [8344]

**Mr. Byrne:** Information is not collected centrally on the number of vacancies for occupational therapists working specifically with children or adults. The table shows the rate and number of vacancies for occupational therapists in England and by selected organisation within Dorset and Somerset strategic health authority (SHA) as at March 2004.

Occupational therapy services in Dorset are provided by the national health service organisations shown in the table plus three local authorities. The number of occupational therapists employed within Dorset and Somerset SHA has increased by 149 or 43 per cent. between 1997 and 2004, and the rate of vacancies lasting three months or more is 1.1 per cent. which compares well with the England average.

*Department of Health vacancies survey, March 2004. NHS three-month occupation therapy vacancies for England and Dorset and Somerset SHA area. Three-month vacancy rates, numbers and staff in post.*

Health and Social Care Information Centre Non-Medical Workforce Census, September 2004

### Physiotherapists

**Mr. Evans:** To ask the Secretary of State for Health what the waiting time to see a physiotherapist was in each NHS trust area in each of the last 10 years. [10097]

**Mr. Byrne:** The information requested is not collected centrally.

### Primary Care

**Steve Webb:** To ask the Secretary of State for Health whether the Government achieved its target of delivering *(a)* 500 primary care centres and *(b)* 3,000 modernised general practitioner premises by December 2004; and if she will make a statement. [9377]

**Mr. Byrne:** The targets published in the NHS Plan were for 500 one-stop primary care centres to be provided and up to 3,000 family doctors' premises to be substantially refurbished or replaced by 2004. In December 2004, 510 one-stop primary care centres and the refurbishments or replacements of 2,850 general practitioner premises had been completed or were under construction. These have resulted from the £900 million invested in primary care buildings since 2000.

### Private Finance Initiative

**Mr. Burstow:** To ask the Secretary of State for Health if she will set out for all private finance initiative projects granted approval by her Department since 1997 *(a)* their total value, *(b)* the revenue payments made to date and *(c)* the estimated revenue payments for the life of each private finance initiative contract. [1561]

**Mr. Byrne:** Information on all private finance initiative projects with a capital value of £10 million or greater given the go ahead by the Department since 1997 and details of unitary payments, equivalent of revenue payments, for schemes which have reached financial close are shown in the tables.

It is not possible to include details of the unitary payments for schemes yet to reach financial close as they are not finalised and are commercially sensitive.

*PFI schemes who have made unitary payments to end of 2003-04*

| Commissioning body | Capital value (£ million) | Total unitary payments to end of 2003-04 (£ million) | Estimated total unitary payments to end of contract (£ million) see note |

| Central Manchester and Manchester Children's University Hospitals* | 420 | 2,975.5 |
| University College London Hospitals* | 422 | 2,014.2 |

*Notes:*

1. The figures are in nominal terms ie the Department has applied a deflator (RPI—the one normally used in contracts) to the baselines figure submitted to it by the Trust. Figures will vary as a result of changes in RPI.
2. Unitary payments are subject to satisfactory performance by the contractor and other factors such as refinancing.
3. Details of length of contracts for each scheme are only kept centrally for prioritised schemes (marked *). For other schemes in the table the contract length is assumed to be 30 years, the standard length introduced under the NHS Standard Form Contract in 1999.

### Public Engagement Contracts

**Mr. Lansley:** To ask the Secretary of State for Health what the value is of the contract tendered to run the public engagement exercise related to the forthcoming White Paper, health outside hospitals, announced by the Department on 23 June; and whether Opinion Leader Research is being considered for this contract. [9302]

**Mr. Byrne:** The value of the contract for the forthcoming White Paper on health outside hospitals has not yet been determined. Opinion Leader Research is one of the companies who have been asked to tender for the contract. The tendering process is being carried out on the Department's behalf by the Central Office of Information.

### Radiographers

**Mr. Lansley:** To ask the Secretary of State for Health if she will estimate the average age of a radiographer employed in the NHS in each year since 1997, *(a)* broken down by gender and *(b)* in total. [3444]

**Mr. Byrne:** The information requested is shown in the table.

*NHS hospital and community health services: total qualified radiography staff in England by average age and gender as at 30 September in each specified year*

| | Radiographers total | Average age Male radiographers | Average age Female radiographers |
|---|---|---|---|
| 1997 | 38 | 36 | 38 |
| 1998 | 38 | 37 | 38 |
| 1999 | 38 | 37 | 39 |
| 2000 | 39 | 38 | 39 |
| 2001 | 39 | 38 | 39 |
| 2002 | 40 | 39 | 40 |
| 2003 | 40 | 39 | 40 |
| 2004 | 40 | 39 | 40 |

*Note:*

Age figures are rounded to nearest year

*Source:*

Health and Social Care Information Centre Non-Medical Workforce Census

### Sickness Absence

**Keith Vaz:** To ask the Secretary of State for Health what research she has commissioned on reasons for levels of sickness absence among nursing staff. [9616]

**Mr. Byrne:** The Department's directly funded policy research programme (PRP) has commissioned a number of projects with a bearing on sickness absence in nursing, alongside related factors such as staff satisfaction and turnover. The PRP is also funding research on vaccinating health care workers against influenza. A PRP research study completed in 2001 found there was no simple correlation between ward staffing levels and costs, and levels of stress among nursing staff.

The main part of the Department's expenditure on health research is allocated to and managed by national health service organisations. Details of individual projects supported in the NHS, including a number concerned with aspects of nursing staff absenteeism, can be found on the national research register at www.dh.gov.uk/research.

The national back in work campaign, which is aimed at all NHS staff, has commissioned current work from the university of Leeds on understanding musculoskeletally related sickness absence and job loss in nurses and nursing assistants.

### Solpaflex

**Mr. Amess:** To ask the Secretary of State for Health if she will make the drug Solpaflex available on NHS prescription; and if she will make a statement. [10614]

**Jane Kennedy:** Solpaflex is already available on national health service prescription.

### Statutory Instrument Sponsorship

**Mr. Amess:** To ask the Secretary of State for Health what statutory instruments have been sponsored by her Department since 1997. [10585]

**Jane Kennedy:** Lists of all statutory instruments (SIs) from 1 January 1998 to 30 June 2005, prepared by the Office of Public Sector Information (OPSI) have today been placed in the Library. These lists, prepared in alphabetical order by department, detail for each year from 1998 the number and title of each statutory instrument sponsored by the Department. There are separate lists for general and local SIs. SIs which have originated from departments but which were also Orders in Council are only listed under the Privy Council Office (PCO).

### Walk-in Centres

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 14 June 2005, *Official Report*, column 1244–45, on walk-in health centres, if she will publish the data on which she drew to establish that the cost per consultation in a walk-in-centre is falling relative to the cost per consultation with a GP. [7523]

**Mr. Byrne:** The reply drew upon data from the national evaluation of NHS walk-in centres, which were published in July 2002. This shows that consultation costs fall significantly as the walk-in service becomes established and patient as throughput grows. The report can be found on the university of Bristol website at www.epi.bris.ac.uk/wic.

## TRANSPORT

### A47 Soke Parkway

**Mr. Stewart Jackson:** To ask the Secretary of State for Transport what progress is being made with regard to the introduction of whisper-quiet road surfacing on the A47 Soke Parkway in Peterborough. [10714]

**Dr. Ladyman:** Quieter surfacing, in accordance with the Highways Agency's specification, will be provided on two lanes of the westbound carriageway of the A47 Soke Parkway through the Thomas Cook Interchange in this financial year.

### Arms Trafficking

**Norman Lamb:** To ask the Secretary of State for Transport (1) if the Government will take steps to agree international standards for the administration of aircraft registers for the purposes of control over the transportation of arms; [10833]

(2) if he will seek to tighten rules on international aircraft insurance to deter companies from trafficking arms. [10834]

**Ms Buck:** International aviation is already subject to a well-developed and closely monitored regulatory regime established by the Convention on International Civil Aviation (the Chicago Convention). Under the Convention the International Civil Aviation Organisation (ICAO) establishes detailed standards and recommended practices for the airworthiness of aircraft, the operational standards of airlines, and many other aspects of aviation. These standards and recommended practices relate primarily to safety and security issues, and cover safety issues relating to the carriage of munitions and other dangerous goods. In addition the Convention itself provides that weapons and munitions of war may only be carried through the airspace of a state with the permission of that state.

To ensure that these standards are properly implemented, ICAO has established the Universal Safety Oversight Audit Programme under which the regulatory regime of each Contracting State is audited at regular intervals, and the results made available to all other States. Where deficiencies are identified, the State concerned is required to draw up an Action Plan agreed with ICAO, and ICAO subsequently assesses the implementation of the Plan.

Within Europe there is already a regulatory regime on aviation insurance, with the relevant national authority required to ensure that airlines/carriers have sufficient insurance cover, and in line with EU law and our bilateral agreements with third countries we require foreign aircraft visiting the UK to demonstrate evidence of adequate cover. Further rules on insurance would impose an additional regulatory burden in already well-regulated States but might not be adequately implemented or enforced in countries with less stringent governance.

### Aviation Ministers

**Mr. Mullin:** To ask the Secretary of State for Transport pursuant to the answer of 4 July 2005, *Official Report*, column 16W, on aviation Ministers, if he will list the junior Ministers who have had responsibility for aviation policy since May 1997, indicating the dates between which they held such responsibilities. [10260]

**Ms Buck:** As I said in my answer of 4 July 2005, *Official Report*, column 16W to my hon. Friend, my right hon. Friend the Secretary of State has had responsibility for all forms of transport policy including aviation, since the formation of the Department on 29 May 2002. As my answer of 4 July 2005 stated, no post has been designated as "aviation Minister", but support has been provided to my right hon. Friend the Secretary of State by his ministerial team on all transport matters throughout this period.

### Biofuels

**Mr. Hancock:** To ask the Secretary of State for Transport what plans he has to introduce a biofuels sustainability certification scheme. [11224]

**Dr. Ladyman:** We are currently considering as part of our feasibility study into a possible Renewable Transport Fuels Obligation whether some form of carbon certification, or wider sustainability certification, might form a part of any obligation. The Low Carbon Vehicle Partnership, an action and advisory group funded by the Department and the Department of Trade and Industry, is also seeking to develop a voluntary accreditation system which will help guarantee the sustainability of biofuel production.

### Central Trains

**Mr. Andy Reed:** To ask the Secretary of State for Transport how much Government funding has been allocated to Central Trains since 1997. [10495]

**Derek Twigg:** Annual payments to all train operators are set out in appendix 3 of the SRA's Annual Report and Accounts. A copy of the 2003–04 document has been placed in the Library of the House. For Central Trains, the annual report states that between 1996–97 and 2003–04 Central Trains received £785,665,000 in net franchise payments.

### Civil Aviation Authority

**Mr. Grieve:** To ask the Secretary of State for Transport (1) how much the Civil Aviation Authority

has spent on payments to former employees in settlement of claims *(a)* in total and *(b)* for unfair dismissal in each of the last five years; [10404]

(2) what costs were incurred by the Civil Aviation Authority in defending legal actions against it from employees in *(a)* 2003 and *(b)* 2004. [10409]

**Ms Buck:** The figures for settlement of claims in each of the last five years are as follows:

| *(a) Total* | £ |
|---|---|
| 2001 | 6,490.87 |
| 2002 | 13,332.40 |
| 2003 | 1,169.00 |
| 2004 | 70,000.00 |
| 2005 | [1]0.00 |
| *(b) Unfair dismissal* | |
| 2001 | 6,490.87 |
| 2002 | 13,332.40 |
| 2003 | 1,169.00 |
| 2004 | 5,000.00 |
| 2005 | [1]0.00 |

[1] To date

The CAA's costs in 2003 and 2004 were £117,901 and £13,740 respectively.

## Conferences

**David T.C. Davies:** To ask the Secretary of State for Transport how much the Department has spent on *(a)* organising and *(b)* sponsoring conferences in each of the last five years. [10246]

**Ms Buck:** This information could be provided only at disproportionate cost.

## Crossrail

**Mr. Hayes:** To ask the Secretary of State for Transport (1) how many people are employed by Cross London Rail Links Ltd.; and how much Government financial support the company has received; [10362]

(2) how much Government financial support has been made available for Crossrail since 1997; and if he will make a statement. [10361]

**Derek Twigg:** In May 2001, Cross London Rail Links Ltd. was provided with ring-fenced funding of £154 million for the purpose of developing Crossrail.

Staffing is a matter for Cross London Rail Links Ltd. (CLRLL). I understand from CLRLL that it currently directly employs 75 staff. A further 38 staff work on secondment from Transport for London and four work on secondment from the Strategic Rail Authority.

**Angela Watkinson:** To ask the Secretary of State for Transport (1) whether the Crossrail route passes through the proposed London Olympic site at Pudding Mill Lane; [10291]

(2) whether a successful London Olympic bid would delay the completion of the Crossrail project. [10292]

**Derek Twigg** *[holding answer 7 July 2005]:* The Government have always said that Crossrail could not be completed before 2012 and that it could therefore not form part of the Olympics transport solution. That remains the case.

Crossrail construction works will be carried out at Pudding Lane station and a Crossrail tunnel portal will be constructed in that area and will therefore interact with works to construct the Olympics Masterplan.

Cross London Rail Links Ltd. has been and will continue to work closely with the London Development Agency over the interaction of the two projects, to ensure that they are compatible.

**Mr. Hayes:** To ask the Secretary of State for Transport how many people are seconded from his Department to work on the Crossrail project. [10363]

**Derek Twigg:** None.

**Mr. Hayes:** To ask the Secretary of State for Transport what the projected costs of implementation of Crossrail were in each year since 1997; and if he will make a statement. [10366]

**Derek Twigg:** I understand from Cross London Rail Links Ltd. that the cost of the hybrid Bill scheme was estimated to be £10.063 billion in 2003; £10.370 billion in 2004; and £10;292 billion in 2005, in first quarter 2002 prices. Comparable figures are not available for before 2003.

**Mr. Hayes:** To ask the Secretary of State for Transport if he will list public affairs consultancies that have been employed to date in connection with the Crossrail bid, broken down by *(a)* sums paid and *(b)* projects; and if he will make a statement. [10367]

**Derek Twigg:** This is a matter for Cross London Rail Links Ltd. I understand from them that they employ one public affairs consultancy, A.S. Biss and Co. The company is employed to promote the understanding of the aims, objectives and benefits of the Crossrail scheme amongst stakeholders. CLRLL has paid the company £550,000 since 2002–03.

**Mr. Hayes:** To ask the Secretary of State for Transport if he will list events paid for by the corporate hospitality fund of the Crossrail project since 1997. [10368]

**Derek Twigg:** This is a matter for Cross London Rail Links Ltd. I understand from the company that it does not have a corporate hospitality fund but that it did provide occasional hospitality at a number of Crossrail briefings during 2003, 2004 and 2005.

**Mr. Hayes:** To ask the Secretary of State for Transport what discussions he has had with the Treasury on *(a)* funding, *(b)* lender of last resort status and *(c)* underwriting for Crossrail. [10370]

**Derek Twigg** *[holding answer 7 July 2005]:* The Department for Transport has regular discussions with HM Treasury covering all aspects of the funding of Crossrail.

**Mr. Hayes:** To ask the Secretary of State for Transport if he will make a statement on measures to be taken to encourage increased efficiency in Network Rail track management on routes identified to be used by Crossrail. [10372]

**Derek Twigg** *[holding answer 7 July 2005]:* Discussions are on-going with Network Rail on operational aspects on routes identified to be used by Crossrail.

**Mr. Hayes:** To ask the Secretary of State for Transport if he will make a statement on the implications of the Crossrail project for London's Olympic bid. [10373]

**Derek Twigg** *[holding answer 7 July 2005]:* The Government have always said that Crossrail could not be completed before 2012 and that it could therefore not form part of the Olympics transport solution.

Cross London Rail Links Ltd. has been and will continue to work closely with the London Development Agency over the interaction of the two projects, to ensure that they are compatible.

## Driving Licences

**Dr. Pugh:** To ask the Secretary of State for Transport how many British citizens with full driving licences there were in each of the last 10 years. [11614]

**Dr. Ladyman:** The nationality of full driving licence holders is not recorded. The Following figures show the number of full licences held over the last 10 years by those resident in GB who have obtained a British driving licence.

| | *Number* |
|---|---|
| 1996–97 | 30,200,000 |
| 1998–2000 | 31,500,000 |
| 2001 | 33,017,201 |
| 2002 | 33,419,386 |
| 2003 | 33,817,214 |
| 2004 | 34,278,894 |
| 2005 | 34,420,452 |

## EU Travel

**Mr. Don Foster:** To ask the Secretary of State for Transport what estimate his Department has made of the number of British citizens who travelled to countries within the EU between June and September in each year since 2000; and if he will make a statement. [10190]

**John Healey:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Don Foster, dated 12 July 2005:*

The National Statistician has been asked to reply to your recent question asking what estimate has been made of the number of British citizens who have travelled to countries within the EU between June and September in each year since 2000.I am replying in his absence. (10190)

Information is available for UK nationals who are resident in the UK. We do not have information for UK nationals resident overseas who may have visited countries within the EU. The attached table shows visits to the EU between June—September each year from 2000 to 2004.

The data have been split by EU15 and Accession countries, since the definition of EU countries has changed since 2000.

These estimates are based on International Passenger Survey data, and as with any statistical survey, are subject to sampling variability.

*International passenger survey. Visits to the EU by UK nationals who are UK residents, June to September 2000–04*[1]

| | *June to September* | | | | | | | | | |

### Fuel-efficient Cars

**Mr. Davey:** To ask the Secretary of State for Transport what steps he is taking to encourage people to buy cars that are fuel-efficient. [9220]

**Dr. Ladyman:** The main steps are summarised in the Government's 2002 Powering Future Vehicles Strategy. The progress we have made in encouraging people to choose more fuel efficient vehicles is described in the first two annual reports on the delivery of the strategy. All of these documents are available via the Department for Transport's website.

In 2001 we introduced a graduated vehicle excise duty system which rewards those who choose the most fuel-efficient vehicles. In 2002, we introduced a revised company car tax scheme, under which those who choose the most fuel efficient vehicles can save up to several thousand pounds a year. These changes have reinforced the actions of the motor industry to deliver fuel efficiency improvements under their voluntary agreements with the European Commission, improving the average fuel efficiency of new cars sold in the UK by some 10 per cent. over the last decade.

We have also this year launched a colour-coded fuel efficiency label which will be displayed on new vehicles in nearly all UK car showrooms by the end of the summer. This will highlight the savings that motorists can make by choosing more fuel efficient vehicles. We are also considering, subject to the necessary state aid approval from the European Commission, the introduction of a purchase grant scheme which will reward those who choose the very cleanest and most fuel-efficient vehicles.

### Heathrow

**Mr. Davey:** To ask the Secretary of State for Transport (1) what investigations his Department has carried out into the additional *(a)* air and *(b)* noise pollution that will result from a fifth terminal being built at Heathrow airport; and what plans he has to combat these increases; [10306]

(2) what discussions he has had with the British Airports Authority regarding the limitation of environmental damage in the construction of the fifth terminal at Heathrow; [10309]

(3) what assessment he has made of the effect the building of the fifth terminal at Heathrow will have on the surrounding transport infrastructure, with particular reference to the *(a)* M25 and *(b)* rail network. [10311]

**Ms Buck:** These matters were examined at the Planning Inquiry and the Inspector's conclusions and recommendation were set out in his report. The 20 November 2001 decision struck a balance between the benefits and the disbenefits of this development and imposed strict controls.

These include a limit on flights of 480,000 per annum, a noise contour cap, a requirement that the Heathrow Express and Piccadilly Lines are extended to Terminal 5 before it opens, a reduction in car parking spaces, including for employees, below the levels proposed by BAA, consultation on stricter controls on night flights and no widening of the M4.

### Interchange Box (St. Pancras Station)

**Anne Main:** To ask the Secretary of State for Transport what planning considerations are preventing the fitting out of the interchange box under St. Pancras Station. [10838]

**Derek Twigg:** Construction of the Thameslink Midland Road station box was authorised by the Channel Tunnel Rail Link Act 1996. The fitting out of the station does not require further authorisation.

### London Underground

**Lynne Featherstone:** To ask the Secretary of State for Transport (1) if he will undertake a review of safety procedures for railway staff attending incidents on electric railway tracks following the incident on 29 June at King's Cross Station on the Piccadilly line; and if he will make a statement; [10843]

(2) if he will undertake a review of safety procedures for staff from the *(a)* Ambulance Service and *(b)* Fire Brigade when attending incidents on electric railway tracks following the incident on 29 June at King's Cross Station on the Piccadilly line; and if he will make a statement. [10844]

**Ms Buck** *[holding answer 11 July 2005]:* A formal investigation is now being undertaken by both London Underground (LU) and the Health and Safety Executive (HSE) to determine the causes of the incident at King's Cross on 29 June. This type of incident involving electric shocks is very rare and so far it has not proved possible to identify the power source for the shocks received by the emergency services staff.

Once the investigation is complete HSE and LU will review the findings to identify and implement any necessary changes to safety procedures to minimise the risk of a recurrence.

### M6 Toll Road

**Mr. George Osborne:** To ask the Secretary of State for Transport when the Government will announce its decision on the proposed new M6 Toll Road. [10679]

**Dr. Ladyman:** The consultation exercise, "M6: giving motorists a choice" sought views on whether the Department should develop the option of an M6 Expressway between Birmingham and Manchester as an alternative to the current option to widen the M6 between junctions 11a and 19. The Government are considering the response to the consultation and will respond in due course.

### Pensioners (Free Travel)

**Mr. Meacher:** To ask the Secretary of State for Transport if he will extend the pensioner concessionary travel scheme to include use of trams. [11822]

**Ms Buck:** I refer my right hon. Friend to my answer of 4 July 2005, *Official Report*, columns 24–25W.

### Rail Services

**Mrs. James:** To ask the Secretary of State for Transport what discussions he has had with the Strategic Rail Authority on the review of off-peak train services. [7296]

**Derek Twigg:** None. The SRA is not currently conducting a general review of off- peak rail services.

However, on 1 June the Strategic Rail Authority issued invitations to tender to bidders for the new Greater Western franchise and on 2 June issued a stakeholder consultation document. The current half-hourly 'inter-city' service between Cardiff and London Paddington is included in the timetabled specification that forms the base case. To determine the value for money of running these services and to assess options, each bidder is also being asked to provide a priced option for a reduction in the service frequency in the off peak, from half-hourly to hourly.

### Rolling Stock

**Greg Clark:** To ask the Secretary of State for Transport if he will break down by project the £600 million rolling stock and infrastructure investment referred to at page 19 of the Integrated Kent Franchise Stakeholder Briefing Document published in January. [11312]

**Derek Twigg:** This investment has been carried out as part of a single project: the new trains programme which has been carried out to replace Mark 1 slam-door rolling stock with modern trains. This project represents a total investment of over £600 million in Kent including works carried out to upgrade the power supply, lengthen platforms and provide new depot facilities.

### Vehicle Licensing

**Dr. Pugh:** To ask the Secretary of State for Transport what percentage of cars licensed to run on British roads were first licensed prior to 1975. [11565]

**Dr. Ladyman:** In March 2005, there were 212,000 licensed cars first registered prior to 1975 making up 0.8 per cent. of the total licensed stock.

**Dr. Pugh:** To ask the Secretary of State for Transport how many British-owned motor vehicles are licensed to drive on British roads. [11566]

**Dr. Ladyman:** There are 32.9 million licensed vehicles in Great Britain and Northern Ireland. The vehicle registers do not hold information on the nationality of the vehicle keeper but before a vehicle can be registered an address in Great Britain or Northern Ireland must be supplied.

## INTERNATIONAL DEVELOPMENT

### Asian Tsunami

**Mark Simmonds:** To ask the Secretary of State for International Development what steps his Department has taken to assist the recovery of the tourism industry in South East Asia following the tsunami. [9250]

**Mr. Thomas:** DFID has not provided any direct assistance to support the recovery of the tourist industry after the Asian tsunami. Our response has focused upon saving lives, alleviating the suffering of displaced poor people, the restoration of basic services for homes and livelihoods.

**Miss McIntosh:** To ask the Secretary of State for International Development what discussions he has had with the Sri Lankan Government on tsunami recovery work in Sri Lanka. [9574]

**Mr. Thomas:** Discussions were first held in January when the Secretary of State for International Development visited Sri Lanka to make an initial assessment of the situation and the impact of our emergency assistance. I visited Sri Lanka from 15–17 June to review progress and to consider how best we may maintain support. During my visit I held discussions with the Finance Secretary, the Acting Minister of Foreign Affairs, the President's spokesperson for Relief, Reconstruction and Reconciliation, the Heads of the Government's Task Forces for Relief and Reconstruction, and local government representatives. I also met officials leading the peace process. I discussed progress with other donors, and non-governmental organisations (NGOs) and met some of the communities devastated by the tsunami.

International organisations and NGOs have mobilised sufficient resources to meet all identified relief and reconstruction needs. The immediate relief effort was successful and recovery work has now started. There has been good progress: some 30,000 transitional homes have been constructed for families who lost their homes; contracts have been signed to rebuild 176 of the 182 schools damaged and funds promised for the balance. Some 95 per cent. of the children affected by the tsunami are now back at school. Hospital reconstruction is also underway and fully financed. Roads, railways and power supplies (where these existed) have been restored.

Much remains to be done however. Increased effort is required to restore livelihoods. In addition the Government ban on rebuilding within a buffer zone stretching 100 to 200 metres from the sea is causing problems in some districts because of the scarcity of suitable alternative land. Furthermore the immense size of the reconstruction task is stretching the capacity of central and local government to manage and coordinate the reconstruction effort. Inevitably this contributes to bureaucratic delay in some instances and assistance reaching some communities sooner than others. The Government and LTTE agreement to establish a post-tsunami operational management structure should help ensure that communities in the north-east are better able to access external support.

The Government have commissioned an inquiry into the buffer zone regulation and has indicated that it may consider flexible implementation where appropriate. The Government also assures me that they will take the necessary steps to reduce delays in implementing reconstruction plans. I confirmed that Her Majesty's Government stands ready to provide support as needed. DFID staff in Sri Lanka are discussing options with Government and partners.

### China

**Mr. Amess:** To ask the Secretary of State for International Development what recent discussions he has had with the Government of China about the one child policy. [10561]

**Mr. Thomas:** I have not had any recent discussions with the Government of China about the one child policy. DFID supports the work of the United Nations Population Fund, which seeks to demonstrate that an approach to reproductive health and family planning which delivers quality care to its recipients is a viable alternative to an administrative system driven by targets.

### Deforestation (Brazil)

**Mr. Hurd:** To ask the Secretary of State for International Development what steps *(a)* the EU and *(b)* the UK are taking to support the action plan of the Brazilian Government to prevent and control deforestation in the Legal Amazon. [10129]

**Mr. Thomas:** The Brazilian Government are working on a range of short and long-term responses to tackle deforestation in the Amazon. These actions are set out in the National Forestry Programme and its Sustainable Amazon Plan. The Sustainable Amazon Plan was a product of the £186 million multi-donor Pilot Programme for the Preservation of Rainforests (PPG7). DFID has directly contributed £14 million to PPG7 since 1993. DFID's support for PPG7 was completed in 2004–05, with the exception of a project to support the livelihoods of indigenous people, which will end in March 2007.

DFID provides support to Brazilian Government efforts through non-governmental organisations and international financial institutions. DFID's Partnership Programme Agreement with the World Wildlife Fund (£800,000 a year in 2005–06 to 2007–08) enables them to enhance their work on the environment and deforestation in Brazil. Through DFID's membership of the World Bank a $0.5 billion loan was approved to promote environmental sustainability in Brazil. The environment is also a focus of the European Commission's five-year £180 million co-operation with Brazil, providing £65 million in support of PPG7.

HMG are currently funding over £1 million of on-going initiatives to promote sustainable management of Brazil's forests and biodiversity. These include £239,800 from the Foreign and Commonwealth Office's Global Opportunities Fund for a project aiming to combat deforestation by developing a scheme for "forest-friendly" soya production.

The UK, under the lead of DEFRA, has this year launched a high-level Sustainable Development Dialogue with Brazil on how best to promote sustainable development, including on deforestation in the Amazon region.

### Departmental Advertising

**David T.C. Davies:** To ask the Secretary of State for International Development how much the Department spent on advertising in each of the last five years. [10232]

**Hilary Benn:** We do not hold a separate advertising budget; the majority of advertising relates to recruitment advertising in newspapers and journals. Figures for the five calendar years 2000–05 are as follows. Expenditure figures for the previous years are not available:

| | £ |
|---|---|
| 2000 | 751,972 |
| 2001 | 1,208,191 |
| 2002 | 914,571 |
| 2003 | 849,196 |
| 2004 | 700,077 |

### EU Sugar Regime

**Mark Simmonds:** To ask the Secretary of State for International Development what assessment he has made of the likely effect of the European Commission's proposals for changes to the EU sugar pricing and subsidy regime on African Caribbean Pacific countries; and if he will make a statement. [9266]

**Mr. Thomas:** The EU sugar regime is an anachronism and must be reformed. It supports EU growers and processors with expensive subsidies, to the disadvantage of efficient developing country exporters. The EU is one of the highest cost producers in the world, yet it is also the second largest exporter, thanks to these subsidies.

The existing system leads many African Caribbean, and Pacific (ACP) country producers to export raw sugar to the EU even when it is not profitable to do so, meaning that scarce government resources are often diverted to maintain a sugar industry. It also forces the EU to dump approximately five million tonnes of heavily subsidised sugar on the world market each year. This keeps the world price low, making it difficult for developing country producers to sell in their own markets locally, as well as making it harder for them to export. Reform should create an environment where growers make their decisions on the basis of their own competitiveness, not on how much money they will be paid in subsidies, and enable Least Developed Countries (LDC)s to benefit in a sustainable manner from the duty-free and quota-free access to Europe that they will receive for sugar by 2009 under the Everything But Arms initiative.

We are aware, however, that reform will have serious ramifications for some of the 18 African Caribbean, and Pacific (ACP) Sugar Protocol countries that receive preferential access to the European market. These countries will face a price cut of up to 39 per cent. for their sugar exports to Europe. Some of them export only a relatively small proportion of their sugar crop to Europe, but others are heavily dependent on the European market. In Guyana, for example, sugar production makes up 18 per cent. of GDP, most of which is exported to Europe. We believe that reform could cost the ACP up to €500 million per year in lost revenues and lost foreign exchange. This is why we have placed such an emphasis on the transitional assistance measures that are an integral part of the overall reform. The UK has been pushing for timely and adequate assistance to be made available, and we have been working with the ACP to help them to develop the country plans through which assistance will be delivered.

DFID funded a workshop in Trinidad in March involving the European Commission and the Caribbean Sugar Protocol countries to begin this process, and we will also be providing some £200,000, with similar levels

of joint funding from the European Commission, to help produce these country plans in the Caribbean. The Commission anticipates that the plans will provide for a combination of trade and aid measures to improve productivity in the sugar sector, to assist diversification into other sectors and to respond to the broader impacts of adjustment (such as on social services and macro-economic stability), with the balance between these varying country by country. We will continue to work with the ACP and the Commission to make transitional assistance available in good time and as, effective as possible.

### Good Governance (Africa)

**Mr. Jim Cunningham:** To ask the Secretary of State for International Development which countries in Africa are assessed as having good governance. [9630]

**Mr. Thomas** *[holding answer 5 July 2005]:* Africa needs effective states that govern justly, invest in their own people and are accountable to them. There is no perfect system—and we give priority to assessing and supporting improvements in governance over time rather than simple status at any point in time. The various aspects of governance also need to be considered.

The World Bank monitors standards of governance every year. Their data shows that 'voice and accountability' significantly improved in Ghana, Gambia, Nigeria, Sierra Leone and Tanzania between 1996 and 2004. Within the same time-span, 'government effectiveness' significantly improved in Botswana, South Africa, Tanzania and the Democratic Republic of Congo. And 'control of corruption' significantly improved in Gabon, Tanzania and the Democratic Republic of Congo.

Further details of this report can be found in the document entitled "Governance Matters IV: New Data, New Challenges" of which I have arranged for copies to be deposited in the Libraries of the House.

### Horticulture

**Mark Simmonds:** To ask the Secretary of State for International Development what steps his Department is taking to encourage horticulture in developing countries; and if he will make a statement. [9272]

**Mr. Thomas:** Horticulture is playing an increasingly important role in driving agricultural growth and providing sustainable livelihoods for millions of poor households.

In middle-income and many larger developing countries, household spending on fruit and vegetables is rising rapidly relative to that on basic food staples, providing new levels of demand for agricultural products. In India for example, horticulture already accounts for over half the value of agricultural output.

Elsewhere, high value fruit and vegetable exports continue to expand, providing export earnings and much needed employment. This is especially evident in sub-Saharan Africa, where the annual value of horticulture exports now exceeds $2 billion with particularly strong growth in Kenya, Malawi, Tanzania and Ghana. Small-scale production is playing a major part in this; in Kenya small-scale farmers produce 75 per cent. of fresh produce exports to the EU.

We are supporting research through our contribution to the Asian Vegetable Research and Development Centre (currently £300,000 in core funding) and our bilateral research programme is assisting the development of smallholder horticulture in Eastern and Southern Africa. We have also successfully persuaded the Science Council of the Consultative Group on International Agricultural Research (CGIAR) to include horticulture within its research priorities for 2005–15.

We are also focusing on the challenges which increasingly stringent product standards (often set by the retail trade itself) present to developing country producers, particularly smallholders, seeking access to valuable European markets. We have recently begun a three-year programme working with retailers, importers, standard-setting bodies (in particular the Euro-Retailer Produce Working Group—Good Agricultural Practices (EUREPGAP) and producers, aimed at ensuring that standards and other procurement practices do not discriminate against small-scale producers.

We are also active in a number of countries. For example in Kenya, through a programme to promote the development of business services in horticulture, DFID has supported export horticultural development to the tune of £582,000 in the last two years. An additional £290,000 will be spent by June 2006. Much of these funds are spent assisting smallholders to cope with the process and cost of compliance with EUREPGAP standards.

### Iraq

**Andrew George:** To ask the Secretary of State for International Development how much has been spent by the Government on reconstruction in Iraq, in each month since January. [8434]

**Hilary Benn:** Monthly expenditure by DFID on reconstruction assistance to Iraq since January 2005 has been as follows:

| | £ |
|---|---|
| January | 1,496,116 |
| February | 2,206,802 |
| March | 13,137,196 |
| April | 807,177 |
| May | 1,222,741 |
| June | 3,488,257 |

The March expenditure figure is substantially higher than that for other months due to a £10 million payment to the International Committee of the Red Cross for its 2005 Iraq Appeal. Variations in expenditure from month to month also reflect when invoices were received for completed work on different projects.

In addition, the Ministry of Defence (MoD) has continued expenditure in Iraq under its £30 million programme of quick impact projects (of which about £27 million has been spent since April 2003); and the

Foreign and Commonwealth Office has made disbursements under the joint FCO/MoD/DFID financed Global Conflict Prevention Pool for Iraq (on which over £23 million has been spent since April 2003). Monthly breakdowns of this spending are not available.

### Tanzania/Gambia

**Mrs. Dorries:** To ask the Secretary of State for International Development how much aid the Government have given to *(a)* Tanzania and *(b)* Gambia in each year since 1997. [11008]

**Hilary Benn:** The following table provides a breakdown of the UK's bilateral aid and imputed multilateral shares to Tanzania and Gambia since 1997. Figures are taken from the published statistics on International Development 1997/98–2003/04 and the DAC online database.

| *Bilateral aid* | *£ thousand Total DFID programme* |
|---|---|
| *Gambia* | |
| 1997–98 | 1,311 |
| 1998–99 | 976 |
| 1999–2000 | 1,370 |
| 2000–01 | 1,748 |
| 2001–02 | 2,043 |
| 2002–03 | 894 |
| 2003–04 | 429 |
| *Tanzania* | |
| 1997–98 | 42,197 |
| 1998–99 | 50,105 |
| 1999–2000 | 64,323 |
| 2000–01 | 68,929 |
| 2001–02 | 64,998 |
| 2002–03 | 95,948 |
| 2003–04 | 80,482 |

*Source:*

### Tsunami (Sri Lanka)

**Mark Simmonds:** To ask the Secretary of State for International Development what discussions his Department has had with the Government of Sri Lanka regarding its decision to impose customs duty on vehicles brought into the country to assist tsunami aid work; and if he will make a statement. [7365]

**Mr. Thomas:** I refer the hon. Member to my response given to the hon. Member for Vale of York (Miss McIntosh) on 6 July 2005, *Official Report*, column. 469W.

### Work-related Stress

**Lynne Featherstone:** To ask the Secretary of State for International Development how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7866]

**Mr. Thomas:** The number of reported cases of work-related stress in DFID over the last three years was as follows:

| | *Number* |
|---|---|
| 2002 | 33 |
| 2003 | 45 |
| 2004 | 27 |

The figures quoted were those reported to DFID's Staff Welfare and Counselling Services, but because of the confidentiality guarantees given to staff, we cannot ascertain whether all of those who reported that they were suffering from work-related stress (or sought advice on their condition) were absent from work as a result.

No compensatory payments have been made to any members of DFID's staff over the three year period.

DFID's electronic attendance management system does not differentiate between work-related stress and stress induced illnesses that may have been caused by other factors. Information on the number of working days lost as consequence of work-related stress could be made available only by incurring a disproportionate cost.

DFID recognises work-related stress as an occupational health and safety issue and is currently putting the Health and Safety Executive's Management

Standards for handling work-related stress into practice. A comprehensive risk assessment was carried out in 2004 and we are currently working towards implementing an improved Stress Prevention Strategy.

The overall pattern of results is positive. For the organisation as a whole, commitment has been assessed as high; stress levels are considered low or normal in most areas, and reported risks to physical and psychological health are within the normal range.

DFID has a Stress Management Policy and a number of measures have been put in place to deal with work-related stress, including stress management training; an Employee Assistance Programme; a Counselling Service; flexible working arrangements and an Occupational Healthcare Scheme. The cost of the work undertaken to date is estimated at approximately £25,000.

## EDUCATION AND SKILLS

### Academies (Admissions)

**Mr. Stewart Jackson:** To ask the Secretary of State for Education and Skills what powers she has in relation to the admission arrangements of academies, with particular reference to Thomas Deacon Academy in Peterborough. [9674]

**Jacqui Smith:** Admissions arrangements for academies are agreed with the Secretary of State as a condition for the Funding Agreement, following local consultation. They are consistent with the School Admissions code of Practice and have to be fair, open and transparent. Academies also take part in local admissions forums and are also required by law to cater for children of all abilities.

### Adult Illiteracy

**Mr. Amess:** To ask the Secretary of State for Education and Skills what the extent of adult illiteracy in England is; what criteria she uses to assess illiteracy; and if she will make a statement. [10583]

**Bill Rammell:** The "Skills for Life Survey: A national needs and impact survey of literacy, numeracy and ICT skills" (DfES, October 2003) provides the latest estimates of literacy levels across England. The survey assessed the literacy, numeracy and ICT skills of around 8,000 adults aged 16 and above in England.

The survey findings are shown in the following tables. The assessment levels correspond to the literacy and numeracy national standards: these were introduced in 2002 to provide a framework for all adult screening tests, diagnostic tools, programmes of study and qualifications. Learners are assessed for levels of literacy from entry level 1 to level 2. Level 2 is broadly equivalent to a higher grade GCSE (A*-C).

Overall around 16 per cent. of adults had literacy skills below level 1 and 47 per cent. had numeracy skills below this level.

*Overall literacy*
*Base: all respondents with literacy level (7874)*

| | *16 to 65-year-olds* | |

Skills for Life survey, 2003

A copy of the survey report is in the House of Commons Library and on the DfES website www.dfes.gov.uk.

### A-levels

**Mr. Hoban:** To ask the Secretary of State for Education and Skills pursuant to her answer of 21 June 2005, *Official Report*, column 979W, on A-levels, if she will place a copy of her letter in the Library. [9996]

**Jacqui Smith:** A copy of the Secretary of State's remit letter to QCA of 29 March 2005 has been placed in the House Library.

**Chris Huhne:** To ask the Secretary of State for Education and Skills what the average cost was per head of pupils studying for A levels in *(a)* schools funded by local education authorities and *(b)* colleges funded through learning and skills councils in the last year for which figures are available. [10428]

**Bill Rammell:** The Further Education (FE) funding system is different to schools. Funding is paid for learning aims as well as an entitlement per 16–18 payment.

Under the Learning and Skills Council's (LSC's) funding formula the basic cost to the public purse of delivering three A-levels in a sixth form college and an FE college to a student in the 2004/05 academic year was £3,045. This figure comprises £766 for the delivery of each A-level learning aim, and £747 for each student for the entitlement element of their learning programme.

Under the LSC's funding formula the basic cost to the public purse of delivering three A-levels to a student at an English maintained secondary school was £3,212. This figure comprises £785 for the delivery of each A-level learning aim, £750 for each student for the

entitlement element of their learning programme, and £107 for each student to meet additional employers' contributions to teachers' pensions.

These figures do not represent all funding that colleges and school sixth forms receive and are not directly comparable. For example the FE funding rates include consolidated funds for pay and staff training that are not reflected in the school sixth form rates. Also, in each case additional funding may also be available to take account of the higher costs of delivering learning in particular geographical areas, in higher cost subjects, or to students with particular disadvantages or individual needs.

### Children's Trusts

**Annette Brooke:** To ask the Secretary of State for Education and Skills what recent evaluation she has made of children's trusts. [10800]

**Beverley Hughes:** Children's trusts are being evaluated over three years through the national evaluation of children's trusts. The Phase 1 report of the national evaluation of children's trusts will be published in the summer. Other current national evaluations, for example of the Children's fund and of Sure Start, are also providing important messages about the development of children's trusts.

### Conferences

**David T.C. Davies:** To ask the Secretary of State for Education and Skills how much the Department spent on organising or sponsoring conferences in each of the last five years. [10264]

**Bill Rammell:** The Department organises a large number of events for different target audiences and purposes each year, ranging from small scale workshops to introduce practitioners to new procedures or initiatives, to larger scale events to promote policy initiatives or share good practice.

Records of events organised or sponsored by the Department are not held centrally and the information could be provided only at disproportionate cost.

### Dance and Drama Awards Scholarships

**Gordon Banks:** To ask the Secretary of State for Education and Skills how many Dance and Drama Awards scholarships, funded by the Learning and Skills Council, have been made in the last five years to residents of each of the nations of the UK. [10092]

**Bill Rammell:** The Dance and Drama Awards are open to students from all parts of the UK and the EU. Neither the DfES nor the LSC analyse information on the nationality of students in receipt of a Dance and Drama Award because to do so would be disproportionately expensive. The number of Further Education Dance and Drama Awards allocated to students between 2000–01 and 2004–05 was 4,427. This figure includes students from all parts of the UK and the EU.

**Gordon Banks:** To ask the Secretary of State for Education and Skills what account is taken of nation and region of residence in the granting of dance and drama awards scholarships as funded by the Learning and Skills Council. [10093]

**Bill Rammell:** Neither the DfES nor the LSC analyse information on the nationality of students in receipt of a dance and drama award because to do so would be disproportionately expensive. The average size of non-means tested awards made to schools on behalf of all students in receipt of a dance and drama award between 2000 and 2005 was £6,572. This includes students from all parts of the UK and the EU.

**Gordon Banks:** To ask the Secretary of State for Education and Skills what the average size has been of awards made to residents of each of the nations of the UK from the Dance and Drama Awards scholarships funded by the Learning and Skills Council over the last five years. [10095]

**Bill Rammell:** Neither the DfES nor the LSC analyse information on the nationality of students in receipt of a Dance and Drama Award because to do so would be disproportionately expensive. The average size of non-means tested awards made to schools on behalf of all students in receipt of a Dance and Drama Award between 2000 and 2005 was £6,572. This includes students from all parts of the UK and the EU.

**Gordon Banks:** To ask the Secretary of State for Education and Skills what account is taken of *(a)* nation and *(b)* region of residence in the granting of awards from the Dance and Drama Fees and Maintenance Fund. [10734]

**Bill Rammell** *[holding answer 11 July 2005]:* All students in receipt of Dance and Drama Awards, who currently live in England, Scotland or Wales, are ordinarily resident in England, Scotland or Wales at the beginning of the academic year and who have been ordinarily resident in the British Isles for the last three years can apply for means tested help from the Fees and Maintenance Fund. Eligible European Union citizens in receipt of Dance and Drama Awards who do not meet the above requirements can apply for fee support only from the Fees and Maintenance fund.

English, Scottish and EU residents are assessed for support by Manchester LEA. The assessment is based on family income and if they meet the residency requirements above no further account is taken of nationality or region of residence.

The National Assembly for Wales holds the budget and is responsible for the student support costs for Welsh students and the Scottish Executive holds the budget and is responsible for the student support costs of Scottish students.

Students living in Northern Ireland who have been ordinarily resident in the British Isles for at least three years and who have a Dance and Drama Award apply for student support through the Department for Employment and Learning.

**Gordon Banks:** To ask the Secretary of State for Education and Skills what the average size has been of awards made to residents of each of the nations of the UK from the Dance and Drama Fees and Maintenance Fund in each of the last five years. [10721]

**Bill Rammell:** UK students in receipt of a dance and drama award can apply for means tested support to help with their maintenance and with their tuition fee contribution. English, Scottish and Welsh students apply for this help through Manchester LEA while students from Northern Ireland apply direct to the Department for Employment and Learning.

The National Assembly for Wales holds the budget and is responsible for the student support costs for Welsh students and the Scottish Executive holds the budget and is responsible for the student support costs of Scottish students.

The average amount of support received by Welsh dance and drama award students who applied for means tested support between 2000 and 2005 was £3,000.

We only have figures on Scottish students from 2001, as prior to this Scottish students in receipt of a dance and drama award received discretionary support for maintenance costs through their local LEA. The average amount of support received by Scottish students who applied for means tested support between 2001 and 2005 was £2,900.

The average amount of means tested support paid to other students who applied during 2000–05 was £2,703.

### Education (Sutton)

**Mr. Burstow:** To ask the Secretary of State for Education and Skills pursuant to the Answer of 28 June 2005, *Official Report*, column 1446W, on spending per pupil, what the figures were for the London borough of Sutton. [10187]

**Jacqui Smith:** The information requested is contained within the following table:

*School based expenditure[1] per pupil[2] for Sutton LEA in 1985–86 and 2003–04[3,4]*

| £ per pupil[5] | 1985–86 | 2003–04 |
|---|---|---|
| LEA maintained primary schools | 750 | 2,640 |
| LEA maintained secondary schools | 1,140 | 3,550 |
| LEA maintained special schools[6] | — | 13,630 |

[1] School based expenditure includes only expenditure incurred directly by the schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure.

[2] Pupil numbers include only those pupils attending LEA maintained schools and are drawn from the DfES Annual Schools Census adjusted to be on a financial year basis.

[3] 1999–2000 saw a change in data source when the data collection moved from the RO1 form collected by the ODPM to the Section 52 form from the DfES. 2003–04 is the latest year for which figures are available.

[4] The main difference between the 1985–86 and 2003–04 figures is that meals and milk is no longer excluded and that no adjustments for balances are now made. However, 1985–86 also includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRC payments and other indirect employee expenses, while in 2003–04 only the schools element of these categories is included. Also, for some LEAs, expenditure that had previously been attributed to the school sectors was reported within the LEA part of the form in 2003–04 and would therefore be excluded, though this is not quantifiable from existing sources.

[5] Figures are reported in cash terms and rounded to the nearest 10 as reported by the LEA.

[6] Figures for 1985–86 are published in the Departments Statistics of Education, Finance and Awards volume 1985. The all England figure published in the earlier *Official Report*, column 1446W, was taken as an aggregate of the individual LEA level unit costs for special schools. The individual LEA special School data are no longer available and therefore are not included in the answer to this PQ.

### Enterprise Education

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what progress has been made in encouraging a common understanding of enterprise among secondary school teachers. [11497]

**Jacqui Smith:** Our guidance for teachers on the Teachemet website clearly sets out our definition on Enterprise Education. This definition is being reinforced at the 47 regional conferences we are currently running for all secondary schools in England, in which we emphasise the importance of whole-staff discussion of enterprise.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what guidance she has issued on the priority to be given to entrepreneurship within the teaching of enterprise. [11501]

**Jacqui Smith:** In the past two years we have been working with over 700 Pathfinder schools in order to generate national guidance based on the experience of the schools on ways of effectively teaching enterprise. We have also been holding a series of Enterprise in Schools conferences in all of the 47 LSC areas. These conferences, with the guidance, have clarified and defined the importance of entrepreneurship as part of enterprise education.

### Examinations

**Mr. Cameron:** To ask the Secretary of State for Education and Skills what percentage of *(a)* secondary school students and *(b)* secondary modern school students aged 15 years at the start of the school year obtained the equivalent of Level 2 (five or more grade A*-C GCSEs) in (i) 2001, (ii) 2002, (iii) 2003 and (iv) 2004. [10768]

**Jacqui Smith:** The information requested can be found in the following table:

| | *All schools* | | *Modern schools* | |
|---|---|---|---|---|
| | *Number of 15 year old pupils* | *Percentage of 15 year old pupils achieving five or more A*-C* | *Number of 15 year old pupils* | *Percentage of 15 year old pupils achieving five or more A*-C* |
| 2003/04 | 643,560 | 53.7 | 26,808 | 42.3 |
| 2002/03 | 622,122 | 52.9 | 25,563 | 40.9 |
| 2001/02 | 606,554 | 51.6 | 24,710 | 38.8 |
| 2000/01 | 603,318 | 50.0 | 24,724 | 36.8 |

*Notes:*

1. For 2003/04 results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. For 2000/01–2002/03 results are based on GCSEs and GNVQs only.

2. As standard the results reported relate to pupils aged 15 at the start of the academic year i.e. 31 August.

3. The information for this answer is derived from data collected for the school and college achievement and attainment tables (formerly performance tables) that are published annually.

### Free School Milk

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills how many school children receive free school milk in *(a)* England and *(b)* Lancashire. [11078]

**Jacqui Smith:** The information requested is not collected centrally.

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills how many litres of milk are provided free each day in *(a)* English and *(b)* Lancashire schools. [11079]

**Jacqui Smith:** The information requested is not collected centrally.

**Mr. Burstow:** To ask the Secretary of State for Education and Skills how many schools are participating in the free school milk scheme; how many deliveries are made per week to these schools; and what percentage of milk supplied to schools under the scheme is sourced from *(a)* national suppliers and *(b)* overseas suppliers. [11354]

**Jacqui Smith:** The information requested is not collected centrally.

### Higher Education Initial Participation Rate

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills when she expects the report commissioned by her Department to assess the feasibility of disaggregating the Higher Education Initial Participation Rate by ethnicity, disability, social class and region to be published; and if she will make a statement. [11100]

**Bill Rammell:** Professor Brian Ramsden's report on whether the Higher Education Initial Participation Rate (HEIPR) should be disaggregated is expected to be published on 25 August 2005.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills under what circumstances students whose domicile is *(a)* non-UK and *(b)* unknown are included in the Higher Education Initial Participation Rate; and how many students there were in each category in each year between 1999–2000 and 2003–04. [11101]

**Bill Rammell:** The Higher Education Initial Participation Rate (HEIPR) is a measure of initial participation for 17 to 30-year-old English domiciled first-time entrants to Higher Education and is produced in accordance with the recommendations of a National Statistics Quality review (National Statistics Quality Review Series—Report No. 24). No students recorded with non-UK or unknown domiciles have been included in the HEIPR in any year. The HEIPR includes only students recorded as English domiciled or "United Kingdom" domiciled and attending courses at English institutions, with the assumption that latter group are likely to be English.

The following table records the number of students included in the HEIPR who are listed as "United Kingdom" domiciled:

*Entrants with domiciles listed as "United Kingdom" counted in the HEIPR*

| *Academic year* | *1999/2000* | *2000/01* | *2001/02* | *2002/03* | *2003/04* |
|---|---|---|---|---|---|
| No prior HE | 575 | 1,380 | 670 | 980 | 700 |
| Unknown prior HE[1] | 235 | 145 | 110 | 170 | 200 |

[1] Entrants with unknown prior HE status qualify in the HEIPR on a pro-rata basis, therefore only a proportion of these students will be included.

Figures rounded to the nearest 5.

*Note:*

It is normal practice to code United Kingdom students under their component domiciles (England, Wales, Scotland, Northern Ireland), rather than "United Kingdom". HESA guidance has since 1996/97 indicated that the "United Kingdom" code should not be returned for a student's domicile.

*Source:*

Information derived from Higher Education Statistics Agency (HESA) student record.

*Numbers of entrants counted within the HEIPR*

| *Academic year* | *Number of initial entrants (000)* |
|---|---|
| 1999/2000 | 246 |
| 2000/01 | 249 |
| 2001/02 | 255 |
| 2002/03 | 268 |
| 2003/04 | 269 |

*Source:*

Information derived from Higher Education Statistics Agency (HESA) student record and Learning and Skills Council Individualised Learner Record.

### Homework

**Mr. Gibb:** To ask the Secretary of State for Education and Skills pursuant to the answer of 30 June 2005, *Official Report*, column 1702W, on out-of-hours learning, if she will ask Ofsted to calculate the proportion of *(a)* secondary schools and *(b)* primary schools that set homework consistent with the guidance set out in her Department's publication, Homework: Guidance for Primary and Secondary Schools. [11785]

**Jacqui Smith:** In their evaluation of the quality of teaching and how well pupils learn, Ofsted inspectors assess the effectiveness of a school's use of homework in reinforcing and extending what pupils have learnt at

school. We have no plans to expand Ofsted's responsibilities in the monitoring of homework provision in schools.

### Korean Studies

**Mr. Gordon Prentice:** To ask the Secretary of State for Education and Skills how many universities have Korean studies departments; and if she will make a statement. [11219]

**Bill Rammell:** The information is not held centrally, but the current course listings on the Universities and Colleges Admissions Service (UCAS) website www.ucas.com show that two institutions, the School of Oriental and African Studies (University of London) and Sheffield University, offer courses in Korean either as a single subject or in combination with other subjects.

My hon. Friend will be aware that the Higher Education Funding Council for England has submitted their report on strategically important and vulnerable subjects.

Japanese, Chinese and other Far East languages and area studies were highlighted as part of this work. We are listening to what the sector think of the recommendations in the report and will be responding in the autumn.

### Private Finance Initiative

**Mr. Cameron:** To ask the Secretary of State for Education and Skills what guidance her Department gives to local education authorities on the tendering of private finance initiative contracts under the Building Schools for the Future programme; and if she will place this guidance in the Library. [10773]

**Jacqui Smith:** A comprehensive suite of guidance documents for authorities benefiting from the transformational investment programme of Building Schools for the Future has been issued by both my Department and our delivery partners, Partnerships for Schools. In order to minimise procurement costs for local government, and to enable rapid project progress, Partnerships for Schools has in fact developed bespoke and standardised documentation for all aspects of procurement within the programme. The guidance specific to private finance initiative contracts can be found at:

www.p4s.org.uk/StandardDocuments.

I am of course happy to place copies of this guidance in the Library.

### Pupil Referral Units

**Mr. Cameron:** To ask the Secretary of State for Education and Skills what steps she is taking to increase access to pupil referral units; what the latest figure is for the waiting time for referral in West Oxfordshire; and if she will make a statement on her policy on pupil referral units. [11447]

**Jacqui Smith** *[holding answer 11 July 2005]:* It is for local authorities themselves to decide how best to meet the needs of pupils in their area who, for reasons of illness, exclusion or otherwise, are unable to attend mainstream schools. However, guidance issued to local authorities and schools in January 2005 about pupil referral units (PRUs) and alternative provision emphasised existing advice that education for this group of pupils must be of high standard and appropriate to their particular needs.

Local authorities use PRUs and a wide range of other educational provision to ensure this duty is adequately discharged. In 1997 there were 309 PRUs in England catering for 7,530 pupils compared to around 450 now catering for 14,470.

The Oxfordshire education authority's PRU and Integration Service (PRUIS) provides or arranges alternative educational provision for around 250 pupils, including pupils in West Oxfordshire, this academic year. Admissions to Oxfordshire PRUIS, including from West Oxfordshire, are handled by a committee which meets every six weeks. The time taken from a referral for a place at PRUIS depends on the particular needs of the individual pupil. However, the education for pupils who have been permanently excluded is usually arranged and implemented from the 16 day of exclusion.

### School Admissions

**Mr. Maude:** To ask the Secretary of State for Education and Skills what percentage of children were allocated their most preferred *(a)* primary and junior school and *(b)* secondary school in each English county in each of the last eight years. [11860]

**Jacqui Smith:** Information on pupils allocated their most preferred primary and secondary school is not collected centrally.

### School Meals

**Mr. Cameron:** To ask the Secretary of State for Education and Skills whether her Department has held discussions with the London borough of Greenwich on its participation in the recent Channel 4 series on school meals and ongoing school meals initiatives. [10772]

**Jacqui Smith:** DfES officials met with officials from Greenwich on 13 April 2005 to discuss what the borough has learned from working with Jamie Oliver and what it has since done to take forward work on healthy eating.

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills how many school children in Worcestershire *(a)* receive free school meals and *(b)* are eligible for free school meals, broken down by district. [11176]

**Jacqui Smith:** The information requested is shown in the table.

*Maintained nursery, primary and secondary schools: school meal arrangements—January 2005 (provisional)—Worcestershire local education authority broken down by district*

| | | *Maintained nursery and primary*[1] | | | |
|---|---|---|---|---|---|
| | | *Pupils taking free school meals* | | *Pupils known to be eligible for school meals* | |
| | *Number on roll*[2] | *Number* | *Percentage* | *Number* | *Percentage* |
| Worcestershire LEA | 36,800 | 2,760 | 7.1 | 3,410 | 8.8 |
| *Districts* | | | | | |
| Bromsgrove | 6,210 | 270 | 4.4 | 320 | 5.1 |
| Malvern Hills | 5,640 | 290 | 5.1 | 360 | 6.5 |
| Redditch | 5,010 | 550 | 11.0 | 700 | 13.9 |
| Worcester | 7,360 | 640 | 8.7 | 800 | 10.9 |
| Wychavon | 8,900 | 370 | 4.1 | 450 | 5.1 |
| Wyre Forest | 5,680 | 640 | 11.3 | 780 | 13.7 |

| | | *Maintained secondary* | | | |
|---|---|---|---|---|---|
| | | *Pupils taking free school meals* | | *Pupils known to be eligible for school meals* | |
| | *Number on roll*[2] | *Number* | *Percentage* | *Number* | *Percentage* |
| Worcestershire LEA | 41,200 | 2,450 | 6.0 | 3,400 | 8.3 |
| *Districts* | | | | | |
| Bromsgrove | 8,790 | 360 | 4.1 | 480 | 5.4 |
| Malvern Hills | 4,730 | 220 | 4.6 | 260 | 5.5 |
| Redditch | 7,660 | 640 | 8.3 | 840 | 10.9 |
| Worcester | 5,550 | 350 | 6.3 | 600 | 10.8 |
| Wychavon | 6,560 | 230 | 3.4 | 320 | 4.8 |
| Wyre Forest | 7,920 | 660 | 8.4 | 910 | 11.5 |

[1] Includes middle schools as deemed.
[2] Includes dually registered pupils and boarding pupils.
*Note:*
Totals may not appear to equal the sum of the component parts because numbers have been rounded to the nearest 10.

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills if she will make a statement on the quality of hot school meals provided at Sacred Heart RC School, Chorley. [11650]

**Jacqui Smith:** The Department for Education and Skills does not collect information on the quality of individual schools' meals.

### School Violence

**Mr. Amess:** To ask the Secretary of State for Education and Skills how many school violence episodes have occurred in Southend, West constituency schools in each year since 1997. [9933]

**Jacqui Smith:** The information requested is not collected centrally.

### Schools Adjudicator

**Mr. Sanders:** To ask the Secretary of State for Education and Skills how many school closures have been determined by the schools adjudicator in each of the last five years for which full annual figures are available. [10716]

**Jacqui Smith:** The numbers of proposals for mainstream school closures that were decided by the schools adjudicator between 2000 and 2004 are set out in the following table:

| | *Proposals approved* | *Proposals rejected* | *Total decisions* |
|---|---|---|---|
| 2000 | 3 | 11 | 14 |
| 2001 | 13 | 1 | 14 |
| 2002 | 7 | 5 | 12 |
| 2003 | 18 | 12 | 30 |
| 2004 | 21 | 8 | 29 |

The figures include cases in which schools have been closed to permit the establishment of a new school on the same site. The figures include decisions on maintained nursery school closures but exclude special school closure decisions.

### Secondary Education

**Mrs. Dorries:** To ask the Secretary of State for Education and Skills what plans she has for improvements to secondary education in Mid Bedfordshire. [11088]

**Jacqui Smith:** The Department's Strategy for Children and Learners sets out the range of departmental policies and initiatives which will raise the quality of education, teaching and learning in Bedfordshire and across the country over the next five years.

In Bedfordshire, as a whole, we have increased funding per pupil by £1,040 since 1997–98 and announced last November nearly £54 million of capital support for Bedfordshire and its schools over the next three years. We are supporting the Bedford Excellence Cluster of 20 schools, a 14–19 Pathfinder in South West Bedfordshire and the development of extended schools. We are also providing Leadership Incentive Grant funding to three schools and, through the Department's Innovations Unit, are working with a number of schools in Bedfordshire on furthering collaboration, in order to raise standards.

In the Mid Bedfordshire constituency specifically, we have supported the PFI funded expansion and redevelopment of Samuel Whitbread and Harlington Schools and have also approved specialist status for three of its four upper schools which receive extra funding to develop curriculum specialisms.

## State Boarding Schools

**Mark Tami:** To ask the Secretary of State for Education and Skills how many state boarding schools there are in England; and where they are located. [10668]

**Jacqui Smith:** The information requested is shown in the table.

*Number of maintained boarding schools—January 2005 (provisional V4)—by local education authority area*

| | Number of maintained boarding schools |
|---|---|
| England | 34 |
| North East | 1 |
| Darlington | 0 |
| Durham | 0 |
| Gateshead | 0 |
| Hartlepool | 0 |
| Middlesbrough | 0 |
| Newcastle upon Tyne | 0 |
| North Tyneside | 0 |

[1] Includes one FE college

## Student Finance

**Mr. Hood:** To ask the Secretary of State for Education and Skills (1) what financial support *(a)* was offered to English part-time students for each year from 2001 to 2004 and *(b)* will be offered in 2005–06; and if she will make a statement; [11680]

(2) what research her Department has commissioned on university fees for English part-time students after 2006; and if she will make a statement. [11687]

**Bill Rammell:** This Government were the first to introduce statutory support for students studying on a part-time basis. From 2001 support for English part-time students was in the form of an income-assessed loan of £500 per annum; a fee waiver system was also available to students in certain circumstances.

In 2004/05 a new package of statutory support was introduced comprising a non-repayable fee grant of up to £575 and a non-repayable course grant of up to £250. The grants are means-tested in order to target funding most effectively at those from disadvantaged backgrounds.

For the academic year 2005/06 the maximum fee grant is being increased to £885. And we are improving the fee grant by linking the amount available to the intensity at which the student is studying.

We will continue to monitor the sector to ensure that we use available funding in the most effective way to support those part-time students who most need it.

## Teacher Recruitment

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills pursuant to the answer of 29 June 2005, *Official Report*, columns 1634–35W, on teacher recruitment, what proportion of the people recruited to teach *(a)* science, *(b)* mathematics and *(c)* modern foreign languages were from (i) the UK, (ii) the EU and (iii) other overseas nations in each year between 1994 and 2004. [11110]

**Jacqui Smith:** The information requested is not collected centrally.

## Truancy

**Mrs. Dorries:** To ask the Secretary of State for Education and Skills what the truancy level has been in the Bedfordshire local education authority for each year since 1997. [11003]

**Jacqui Smith:** The information requested is given below. The figures relate to unauthorised absence, which include all unexplained or unjustified absences, such as lateness, holidays during term-time not authorised by the school, absence where reason is not yet established and truancy.

*Number of pupils absent for at least one half day due to unauthorised absence, Bedfordshire LEA 1996/97 to 2003/04*

| | Primary | Secondary | Primary and Secondary |
|---|---|---|---|
| *1996/97* | | | |
| Number absent | 1,782 | 2,608 | 4,390 |
| As percentage of pupils of compulsory school age | 8.5 | 8.3 | 8.4 |
| *1997/98* | | | |
| Number absent | 1,942 | 3,319 | 5,261 |
| As percentage of pupils of compulsory school age | 9.3 | 10.4 | 9.9 |
| *1998/99* | | | |
| Number absent | 2,376 | 4,285 | 6,661 |
| As percentage of pupils of compulsory school age | 11.4 | 13.2 | 12.5 |
| *1999/2000* | | | |
| Number absent | 2,418 | 4,152 | 6,570 |
| As percentage of pupils of compulsory school age | 11.7 | 12.6 | 12.2 |
| *2000/01* | | | |
| Number absent | 2,274 | 4,445 | 6,719 |
| As percentage of pupils of compulsory school age | 10.9 | 13.2 | 12.3 |

*Number of pupils absent for at least one half day due to unauthorised absence, Bedfordshire LEA 1996/97 to 2003/04*

| | *Primary* | *Secondary* | *Primary and Secondary* |
|---|---|---|---|
| *2001/02* | | | |
| Number absent | 2,047 | 4,253 | 6,300 |
| As percentage of pupils of compulsory school age | 9.8 | 12.6 | 11.5 |
| *2002/03* | | | |
| Number absent | 2,068 | 4,510 | 6,578 |
| As percentage of pupils of compulsory school age | 9.9 | 13.3 | 12.0 |
| *2003/04* | | | |
| Number absent | 1,942 | 4,857 | 6,799 |
| As percentage of pupils of compulsory school age | 9.5 | 14.2 | 12.4 |

### Tuition Fees

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what representations she has received from teacher training institutions in respect of the likely effect of charging the full £3,000 tuition fees on student take-up of the Postgraduate Certificate in Education. [11096]

**Jacqui Smith:** The TTA received letters from the universities of Keele and East Anglia on this subject. Both institutions wanted to ensure that sufficient financial support was available for trainees in order to secure recruitment onto courses. However, the TTA has recently reviewed its range of financial incentives for trainee teachers on Postgraduate Certificate in Education courses to ensure such support is available.

### Uxbridge Academy

**Mr. Randall:** To ask the Secretary of State for Education and Skills whether she expects the proposed new 16 to 19 Academy based on Brunel University's Uxbridge campus to improve the London borough of Hillingdon's post-16 participation rate; and what balance of curriculum levels is intended for the Academy. [11500]

**Jacqui Smith:** We do expect the Brunel HSBC Education Trust Academy to increase post 16 participation rates in Hillingdon. It will be in a strong position to do this through its location on a university campus with access to Brunel University's facilities and expertise. It will also provide enrichment and placement opportunities for other schools.

Data from the Learning and Skills Council (LSC) shows that four of the six west London boroughs (Ealing, Hammersmith and Fulham, Hillingdon and Hounslow) have post-16 participation rates below the national average with participation rates in Hillingdon as low as 73 per cent. (2003). A particular issue in west London is the relatively low participation rate of white students (67 per cent.), particularly boys. This variation is also reflected in Higher Education participation rates where 30 ward areas within the six boroughs have been identified as having low participation.

The Academy aims to attract students who might not otherwise have remained in education at age 16. The curriculum to be offered by the Academy will principally cover education at levels 2 and 3. The sponsors expect about 50 per cent. of the intake to progress from level 1 to 2 and 50 per cent. to progress from level 2 to 3. They recognise that some students will require additional support before commencing level 3 courses in the Academy's specialisms of science, technology, maths and Chinese. There will be extensive discussions with education professionals and local providers to ensure that a suitable curriculum, which complements existing provision, is available for the students.

# Written Answers to Questions

*Wednesday 13 July 2005*

## WALES

### Carers' Equal Opportunities Act

**Dr. Francis:** To ask the Secretary of State for Wales what discussions he has had with the First Secretary of the National Assembly for Wales Government concerning the implementation of the Carers' Equal Opportunities Act 2004 in Wales; and how good practice will be shared between England and Wales. [9419]

**Mr. Hain:** The provisions of the Carers Equal Opportunities Act 2004 commenced in April 2005.

The Welsh Assembly Government working with its Carers Strategy Review Panel, the Department of Health and the Social Care Institute for Excellence, continue to seek to ensure that information about examples of good practice in Wales or England are widely disseminated.

### Departmental Advertising

**David T.C. Davies:** To ask the Secretary of State for Wales how much the Department spent on advertising in each of the last five years. [10239]

**Mr. Hain:** The Wales Office runs no publicity campaigns and hence has spent nothing on advertising in the last five years.

### Departmental Conferences

**David T.C. Davies:** To ask the Secretary of State for Wales how much the Department has spent on organising or sponsoring conferences in each of the last five years. [10244]

**Mr. Hain:** The Wales Office has neither organised nor sponsored any conferences over the last five years.

### Digital Television

**Mrs. James:** To ask the Secretary of State for Wales if he will make a statement on digital television coverage in Wales. [10667]

**Mr. Hain:** The vast majority of households in Wales can, with the appropriate equipment, receive digital television services via at least one of satellite, digital terrestrial or cable.

**Mrs. James:** To ask the Secretary of State for Wales what support will be given to pensioners and people on low incomes in Wales with the costs involved to upgrade to digital television. [10684]

**Mr. Hain:** The Government are committed to ensuring that the interests of the most vulnerable consumers are protected during digital switchover and has proposed that the BBC help establish and fund appropriate support. We will announce details of the scope of this assistance in due course.

As part of the process of detailed scheme design, a trial is planned for later this year in Bolton. The aim of the trial is to assess the effectiveness of various forms of assistance. Leaflets, telephone helplines and support from carers and social workers will be among the methods being piloted.

### Ministerial Duties

**David T.C. Davies:** To ask the Secretary of State for Wales pursuant to his answer of 9 June 2005, *Official Report*, column 615W, on ministerial duties, whether he spent a total of more or less than 24 hours performing ministerial functions as the Secretary of State for Wales in the week commencing 9 May. [9742]

**Mr. Hain:** As I made clear in my answer of 25 May, I spend as much time as is required in fulfilling my role as Secretary of State for Wales. In any week this will represent considerably more than 24 hours, including the week of 9 May.

### Special Advisers

**Bob Spink:** To ask the Secretary of State for Wales if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8817]

**Mr. Hain:** As Secretary of State for Wales I have two special advisers, both of whom provide assistance across all of the Department's policy areas.

They are paid on national salary scales, which apply to all Government Departments; the basic scale currently ranges from £37,366 to £50,148.

### Work-related Stress

**Lynne Featherstone:** To ask the Secretary of State for Wales how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7875]

**Mr. Hain:** Detailed sickness absence statistics are derived from medical and self-certificates, which are completed by staff or their GPs. While certain illnesses, such as "depression", "anxiety", "general debility" and even "stress" may be indicated on certificates, it is not possible to determine levels of "work-related stress". Consequently, we have no details on the number of working days lost due to work-related stress or the cost to the Department.

Since the establishment of this Department in July 1999, there have been no compensation payments to employees for work-related stress.

The Wales Office staff have available to them the resources of the National Assembly, and since June 2003, of the Department for Constitutional Affairs in tackling stress. These include a stress at work policy and a manager's toolkit to ensure that the policy is used effectively and at appropriate times, a stress helpline as part of the internal occupational welfare provision and a range of courses for managers and employees on managing stress in the workplace. All these new initiatives are based on best practice and on the Stress Management Standards issued by the Health and Safety Executive last year.

The Department offers flexible working patterns, enabling staff to adopt more effective working patterns to better balance their work and home life.

## LEADER OF THE HOUSE

### Parliamentary Business

**Mr. Amess:** To ask the Leader of the House (1) if he will list Government Bills subject to a Programme Motion where each clause was not debated *(a)* in Standing Committee, *(b)* in Committee of the Whole House and *(c)* at Report stage as a result of insufficient time in each of the last five Sessions for which figures are available; [10502]

(2) if he will list Private Members' Bills where a Division took place on Second Reading and where the Bill subsequently did not receive Royal Assent in each Session since 1975; [10503]

(3) if he will list Select Committee reports which have been debated on the Floor of the House in each Session since 1976; [10504]

(4) on how many occasions in each parliamentary Session from 1976 to 2004 *(a)* the House of Lords passed amendments to (i) Private Members' Bills and (ii) Government Bills against the advice of the Government, *(b)* such amendments were (A) accepted by the Government in the House of Commons and (B) reversed in the House of Commons, *(c)* the reversal was accepted by the House of Lords and *(d)* the House of Lords insisted on its amendments; [10505]

(5) if he will list *(a)* Government Bills and *(b)* private Members' Bills where the Committee stage was taken on the Floor of the House in each Session since 1976; [10553]

(6) if he will list *(a)* Government Bills and *(b)* private Members' Bills where all stages were taken in one sitting in each session since 1976; [10554]

(7) what the average number of days of consideration for Government Bills in *(a)* the House of Commons and *(b)* the House of Lords was in each parliamentary Session since 1997; and if he will make a statement. [10555]

**Mr. Hoon:** The information requested is a matter of public record. I refer the hon. Member to the House of Commons Library.

## DEPUTY PRIME MINISTER

### Compulsory Purchase Orders

**Mr. Amess:** To ask the Deputy Prime Minister how many compulsory purchase orders have been implemented in each local authority in Essex in each of the last five years. [10566]

**Yvette Cooper:** The Secretary of State has the power to confirm compulsory purchase orders, however once an order has been confirmed it is for the acquiring authority to implement it. The Government therefore do not hold any information on the number that have been implemented.

### Council Tax

**Mrs. Spelman:** To ask the Deputy Prime Minister what conditions are necessary for a caravan to be eligible for *(a)* class C and *(b)* class G council tax exemption. [11394]

**Mr. Woolas:** The Council Tax (Exempt Dwellings) Order 1992 (SI 1992 No. 558) provides that dwellings, including caravans, are exempt from council tax under class C where they have been vacant for a continuous period of up to six months. The usual requirement that to qualify for a class C exemption the dwelling be substantially unfurnished does not however apply in the case of caravans.

Dwellings, including caravans, are exempt from council tax under class G where they are unoccupied and occupation is prohibited by law. The class G exemption does not apply when a caravan or other dwelling is in fact occupied.

**Mrs. Spelman:** To ask the Deputy Prime Minister what plans the Valuation Office Agency has to use private sector firms during the council tax revaluation in England. [11536]

**Mr. Woolas:** The Valuation Office Agency has no plans to use private sector firms during the process of council tax revaluation in England.

**Mrs. Spelman:** To ask the Deputy Prime Minister whether breach of *(a)* planning regulation, *(b)* health and safety regulations and *(c)* building regulations are grounds for deeming occupation of an hereditament to be prohibited for (i) council tax and (ii) business rates liability. [11389]

**Mr. Woolas:** It is our view that where occupation of a dwelling is prohibited by planning, health and safety regulations but the dwelling is occupied illegally, it will not be exempt and the residents will be liable for council tax.

Similarly, where a hereditament is occupied and liable to business rates, then that liability remains, regardless of whether the premises are occupied in breach of planning regulations, health and safety regulations or building regulations, or not.

### Fire-related Deaths

**Lynne Featherstone:** To ask the Deputy Prime Minister how many fire-related deaths there were in dwellings in Hornsey and Wood Green in each year since 2000. [5721]

**Jim Fitzpatrick:** The available information on fire-related deaths in dwelling fires in Hornsey and Wood Green in the calendar years since 2000 is as follows:

*Fire-related deaths in dwelling fires, Hornsey and Wood Green*

| | Number |
|---|---|
| 2000 | 0 |
| 2001 | 2 |
| 2002 | 1 |
| 2003 | 1 |
| 2004 | 1 |

*Source:*
London Fire Brigade

London's five-year average (1999–2000 to 2003–04) for accidental dwellings fire deaths is 7.2 per million population, 23 per cent. higher than the average for England (5.9), but lower than the floor target of 1.25 times (7.3 deaths).

### First-time Buyers

**Mr. Drew:** To ask the Deputy Prime Minister how many first-time buyers there have been in each of the last 12 months for which figures are available; and how many of these he estimates were returners, who had previously been home owners. [11593]

**Yvette Cooper:** Estimates of the numbers of first-time buyers for the UK for each of the past 12 months are as follows:

| | Number |
|---|---|
| June 2004 | 33,600 |
| July 2004 | 36,300 |
| August 2004 | 31,100 |
| September 2004 | 28,500 |
| October 2004 | 29,000 |
| November 2004 | 24,900 |
| December 2004 | 24,100 |
| January 2005 | 18,200 |
| February 2005 | 18,100 |
| March 2005 | 22,600 |
| April 2005 | 25,100 |
| May 2005 | 25,600 |

*Notes:*
1. The figures exclude any first-time buyers who bought a property without the need for a mortgage.
2. The source of the data, the Survey of Mortgage Lenders, does not differentiate between genuine first-time buyers (those who have never been owner occupiers) and other first-time buyers (who have previously been owner occupiers).
However, estimates from the most recent "Survey of English Housing" data suggest that, currently, as many as 26 per cent. of so-called first-time buyers are in fact returning owner occupiers.
*Source:*
Council of Mortgage Lenders/Survey of Mortgage Lenders

### High Hedges

**Mr. Rogerson:** To ask the Deputy Prime Minister if his Department will place in the Vote Office copies of the document published in June entitled "High Hedges Complaints: Prevention and Cure", ISBN 1–851127–87–9. [10680]

**Yvette Cooper:** Copies of the document entitled "High Hedges Complaints: Prevention and Cure" have been placed in the Libraries of both Houses, and it is freely available on the Office of the Deputy Prime Minister website at www.odpm.gov.uk/treesandhedges. We are happy to provide copies to hon. Members on request and I am arranging for one to be sent to the hon. Gentleman. Against this background, we see no need to place copies in the Vote Office.

### Identity Cards

**Mr. Garnier:** To ask the Deputy Prime Minister what estimate he has made of the cost of equipping local authority premises with identity card readers. [9884]

**Mr. Woolas:** We have been working with the Home Office to identify areas where the Identity Cards Scheme could provide business benefits. On 28 June 2005, my right hon. Friend the Home Secretary placed in the Library a paper containing the latest estimates of benefits of the Identity Cards Scheme which shows that the benefits outweigh the costs once the scheme is fully operational. The cost of equipping premises will depend on the nature of the use of the Identity Cards Scheme and the type of identity check(s) necessary to deliver the business benefits. In some cases, benefits could be realised without the use of card readers and the cost of installing any readers needs to be considered alongside future plans to refresh or upgrade IT systems. As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit which will allow us to further refine our estimates of costs and benefits.

### Performance Criteria (County Councils)

**Mr. Swayne:** To ask the Deputy Prime Minister (1) what representations he has received from county councils on the number of performance criteria to which they are subject; and if he will make a statement; [11337]

(2) what assessment he has made of the number of performance criteria to which county councils are subject; and what plans he has to reduce them. [11338]

**Mr. Woolas:** The Office of the Deputy Prime Minister has received a letter from Hampshire county council setting out the performance measures which the council reports against.

We are considering the requirements for the number of targets, indicators and standards for local government as part of our developing work on the performance framework, as set out in the document "Securing better outcomes: developing a new performance framework" published in March 2005. This work is being taken forward in the context of our 10 year vision for local government as set out in "The future of local government: Developing a 10 year vision" which was published in July 2004.

### Social Housing (Chorley)

**Mr. Hoyle:** To ask the Deputy Prime Minister if he will make a statement on social housing needs in Chorley. [9581]

**Yvette Cooper** *[holding answer 4 July 2005]:* Between 2001 and 2005 the Housing Corporation via the Approved Development Programme spent over £3.7 million in Chorley on the provision of new affordable housing for both rent and low-cost home

ownership. A total of 53 new social rented homes were completed in Chorley over the same period through grant provided via the Housing Corporation. Chorley borough council spent approximately £0.3 million on improving its own stock.

We announced on 23 June 2005 that following evidence of strong tenant support Chorley is in the 2005 Housing transfer programme. This will ensure the remaining non decent council homes will be made decent by the 2010 deadline.

## EDUCATION AND SKILLS

### Further Education

**Mr. Rob Wilson:** To ask the Secretary of State for Education and Skills what the cost of monetary incentives to encourage pupils to pursue post-16 education has been in each year since the incentives were introduced. [9985]

**Maria Eagle:** Education maintenance allowances (EMAs) are an incentive to encourage young people to stay on in further education post-16. They were piloted from September 1999 in 15 LEA areas, and these pilot areas were extended to include a total of 52 LEAs in September 2000. The scheme was rolled out nationally from September 2004. The costs in each financial year since 1999 have been:

*Education maintenance allowance*

| | *Expenditure (£ million)* |
|---|---|
| 1999–2000 | 11 |
| 2000–01 | 52 |
| 2001–02 | 109 |
| 2002–03 | 120 |
| 2003–04 | 142 |
| 2004–05 (Forecast) | 260 |
| 2005–06 (Projected) | 403 |

### Graduate Employment

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what estimate she has made of the proportion of graduates in jobs for which a degree was not an advertised requirement one year after completion of their studies for each year between 1994 and 2004. [10068]

**Bill Rammell:** We do not collect the information at the level of detail requested. The available information covers first degree graduates who were in employment six months after graduation. The earliest data relate to graduates in the academic year 2002/03. Respondents were asked if they would have been able to get the job they were doing without the qualification they obtained.

Of first degree graduates, known to be in employment and who responded to the question, 39 per cent. qualifying in 2002/03 and 37 per cent. qualifying in 2003/04 responded that they could have obtained their job without their degree qualification. Figures and percentages are given in the following table.

*Response by first degree qualifiers[1,2] in employment six months after graduation to the question: 'Would you have been able to obtain the job you are doing without your recently obtained qualification?' 2002/03 and 2003/04*

| | *2002/03* | | *2003/04* | |
|---|---|---|---|---|
| *Response* | *Number* | *Percentage* | *Number* | *Percentage* |
| No, the qualification was a formal requirement | 33,410 | 29 | 36,865 | 31 |
| No, the qualification was expected | 9,610 | 8 | 10,275 | 9 |
| Possibly, but the qualification gave me an advantage | 23,250 | 21 | 24,350 | 21 |
| Yes | 44,050 | 39 | 43,835 | 37 |
| Do not know | 2,985 | 3 | 3,080 | 3 |
| Total | 113,305 | 100 | 118,415 | 100 |
| Question not answered | 32,210 | — | 31,750 | — |
| Total employed | 145,515 | — | 150,160 | — |

[1] Figures cover home and EU full-time and part-time first degree graduates from UK HE institutions.
[2] Figures are rounded to the nearest 5, so constituent parts may not sum to totals.
*Source:*
Destination of Leavers from Higher Education (Higher Education Statistics Agency (HESA))

The Department also commissioned a survey of 1995 graduates, tracking graduate careers 3 and a half years post-graduation, which asks about how the skills gained at university have since been put to use. For this cohort it is estimated that 65 per cent. of employed graduates—six months after leaving—are in jobs using their degree skills, and this rises to 70 per cent. after one year, and to nearly 80 per cent. within three and a half years[1]. This research is currently being updated tracking the careers of a cohort of 1999 graduates up to four years after leaving university—this will be published in the autumn.

In addition, projections of occupational demand show that of the 13.5 million total jobs expected to be filled by 2012, 50 per cent.—that is 6.8 million—are in occupations most likely to demand graduates[2].

[1] Data from Elias, P et al (1999) "Moving On: graduate careers three years after graduation". CSU/DfEE.

[2] Based on data from Wilson, R et al (2004) "Working Futures: new projections of occupational employment by sector and region", 2002–2012 IER, Warwick.

### Key Stage 2 Results

**Mr. Cameron:** To ask the Secretary of State for Education and Skills what percentage of 11-year-olds failed to reach level 2 at KS2 in reading, writing and mathematics in each of the last three years for which figures are available. [10771]

**Jacqui Smith:** The information requested is as follows:

*Percentage of pupils failing to achieve level 2*

| | 2004 | 2003 | 2002 |
|---|---|---|---|
| Reading | 8 | 7 | 7 |
| Writing | 8 | 8 | 7 |
| Mathematics | 5 | 5 | 4 |

These figures cover all schools, including independent schools and pupil referral units.

### Looked-after Children

**Mrs. May:** To ask the Secretary of State for Education and Skills (1) what plans she has to introduce measures to assist local authorities in reducing the number of placements experienced by looked-after children; [11797]

(2) what reports she has received and what discussions she has had relating to the effect of placing looked-after children from London and inner-cities in seaside communities. [11798]

**Maria Eagle:** Improving the stability of looked-after children's lives, and thus reducing the number of placements which they experience, is one of the Government's key objectives. The Department for Education and Skills has a public service agreement target that, by 2008, 80 per cent. of children under 16 who have been looked after for 2.5 years or more will have been in the same placement for at least two years or be placed for adoption. We are working closely with local authorities to ensure that this target can be met: we have issued a range of tools and guidance to help authorities commission placements for children more effectively; we have a programme of work in place to improve the support received by foster carers; we are looking at ways in which to encourage better use of friends and family placements; we are working to reduce unnecessary delays in public law cases; and we have introduced independent reviewing officers to chair individual children's reviews. These all have important contributions to make in securing improved stability for looked after children.

Kent Child Protection Committee sent the Department a report on child and public protection issues in Thanet at the end of June. We are currently considering the report carefully and will respond to the Committee in due course. At the same time, we are also considering a national report, commissioned by Ministers last year, on identifying ways of helping local authorities both to reduce their dependence on out-of-authority placements for looked after children, and to improve support for children who are placed out-of-authority.

**Mrs. May:** To ask the Secretary of State for Education and Skills how many looked-after children under 16 years of age *(a)* were prescribed contraceptive measures and *(b)* had pregnancy terminations (i) with and (ii) without parental consultation and approval in each of the last five years. [11802]

**Maria Eagle:** The information requested is not collected centrally.

### Student Finance

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what proportion of students were assessed to make *(a)* no contribution towards their fees, *(b)* a partial contribution towards their fees and *(c)* a full contribution towards their fees in each academic year between 1999–2000 and 2004–05. [10050]

**Bill Rammell:** Students on full-time undergraduate courses and their families are expected to make a contribution towards the cost of their tuition based on household income. Students from lower income backgrounds are wholly or partially exempt from paying tuition fees.

Available data on the percentage of students making a nil, partial or full contribution to their fees are given in the table.

*Percentage of students making a nil, partial, or full contribution to fees, academic years 1999–2000 to 2003–04*[1]

| | Percentage of students making a: | | |
|---|---|---|---|
| *Academic year* | *nil contribution to fees* | *partial contribution to fees* | *full contribution to fees* |
| 1999/2000 | 45 | 20 | 35 |
| 2000/01 | 42 | 19 | 39 |
| 2001/02 | 43 | 16 | 41 |
| 2002/03 | 43 | 15 | 42 |
| 2003/04 | 43 | 14 | 43 |

[1] Data do not include those students who decide not to apply for any support with their fees and instead make direct application to the institution.

*Source:*

F503G Survey of Local Education Authorities and SLC

Data in the answer cover the period from 1999/2000 to 2003/04. Information on the percentage of student contributions to tuition fees in 2004/05 is not yet available, but this will be included in a Statistical First Release due to be published in November 2005.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Cereal Disease

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the level of risk of cereal disease due to high temperatures and low rainfall; and if she will make a statement. [11155]

**Jim Knight:** The major indigenous diseases of UK wheat and barley crops are favoured by wet weather, particularly in spring and summer. With current production systems and cereal varieties, high temperatures and low rainfall reduce the incidence of cereal diseases. Other risks are monitored as part of the UK's surveillance programme for plant quarantine diseases. Generally, these risks are unlikely to increase as a result of high temperatures and low rainfall.

### Chicken Imports

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what quantity of

chickens have been imported into the UK in each of the last five years; and from which countries they have been imported. [10991]

**Jim Knight:** Imports of chicken, chicken offal and live chickens in each of the last five years are provided in the following table:

*Tonnes*

| *Chicken type/Country* | *2000* | *2001* | *2002* | *2003* | *2004* |
|---|---|---|---|---|---|
| *Chicken, fresh, chilled or frozen* | | | | | |
| Netherlands | 130,198 | 119,685 | 130,677 | 132,789 | 139,546 |

H M Revenue and Customs

## Cormorants

**Ms Angela C. Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effectiveness of her Department's policy on cormorant control following its first winter of operation. [12129]

**Jim Knight:** The cormorant model produced by the Central Science Laboratory is available on the Defra website:

http://www.defra.gov.uk/wildlife-countryside/vertebrates/piscivorous.htm#cormorants

and provides predictions of the effect of different licensing strategies on winter cormorant numbers in England. Information on the actual number of birds removed under license, and any change in winter cormorant numbers as a result of the policy are not yet available. The model and its predictions will be reviewed and updated as new information becomes available.

The effects of the new procedures are currently being reviewed by the Department in the light of experience gained from last season. It is expected that the review will be completed by early September.

## EU Sugar Regime

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the EU Commission proposals for sugar reform; and if she will make a statement. [11049]

**Jim Knight:** The Commission's proposals were announced on 22 June and will be formally presented to the Agriculture and Fisheries Council on 18 July, when member states will give their initial reactions. In the

meantime we have submitted a detailed Regulatory Impact Assessment to the Scrutiny Committees and also made it publicly available as background to the consultation exercise which we launched on 30 June.

### Farm Single Payment Scheme

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs whether farmers will receive their single payment scheme payments in February 2006; whether compensation will be paid to those who receive their payments after the due time; and if she will make advance payments to farmers in the event of foreseen delays. [11138]

**Jim Knight:** The payment window set out in EU legislation for the single payment scheme runs from 1 December 2005 to 30 June 2006. Our forecast of a February 2006 payment date for England fits comfortably within that window and remains our position. Payments made within the window do not attract compensation.

We have not ruled out the possibility of making advance payments or similar measures but there are real legal and practical difficulties in doing so and we would not want to take action that would delay the main payment.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how many single payment scheme applicants indicated on their applications that they did not know what had been grown on their land in the years before they purchased it. [10324]

**Jim Knight:** The Rural Payments Agency (RPA) has received 120,082 application forms under the Single Payment Scheme. These are currently being processed. Until the RPA has captured all data and completed validation a substantive answer to this question cannot be provided.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how many Single Payment Scheme applicants have been penalised for submitting application forms after the relevant deadline. [10326]

**Jim Knight:** The Rural Payments Agency (RPA) has received 120,082 application forms under the Single Payment Scheme. These are currently being processed. Until RPA has captured all data and completed validation definitive figures are not available. To date a total of 8,494 applications have been received after the 16 May 2005 deadline. Those applications received after 16 May will be processed in accordance with the scheme rules.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost effects of Single Payment Scheme application forms which failed to meet the deadline of 16 May; and what proportion of these were forms first received by her Department prior to 16 May but returned to the applicant for completion or amendment. [10359]

**Jim Knight:** Until the Rural Payments Agency (RPA) has captured all data and completed validation definitive figures are not available. To date 8,494 applications have been received after the deadline of 16 May 2005. Of that number 2,387 applications initially received before 16 May 2005 were referred to applicants for amendment and were not received back until after the deadline.

The Single Payment Scheme is funded by the EU. RPA therefore does not make savings from any reductions to scheme payments.

### Tree Cover

**Mrs. Dorries:** To ask the Secretary of State for Environment, Food and Rural Affairs what the percentage tree cover in England was *(a)* on the latest date for which figures are available, *(b)* 10 years ago and *(c)* 20 years ago. [11175]

**Jim Knight:** A national woodland survey is carried out by the Forestry Commission at intervals of between 15 and 20 years. The most recent country reports were published in 2001 and 2002 and these were based on fieldwork completed between 1994 and 2000. The results of the previous survey to this were published in the 1980 Census of Woodland, from fieldwork carried out between 1979 and 1982. The results are given in the following table:

| | *National inventory 1995–99* | *1980 Census* |
|---|---|---|
| *England—Counties* | | |
| *North-east* | | |
| Cleveland | 6.4 | 5.8 |
| Durham | 6.4 | 5.7 |
| Northumberland | 16.0 | 15.1 |
| Tyne and Wear | 5.4 | 3.1 |
| *North-west* | | |
| Cheshire | 4.4 | 3.8 |
| Cumbria | 9.5 | 8.0 |
| Greater Manchester | 3.7 | 2.1 |
| Lancashire | 4.6 | 3.7 |
| Merseyside | 3.8 | 2.6 |
| *Yorkshire and the Humber* | | |
| Humberside | 2.6 | 2.7 |
| North Yorkshire | 7.3 | 6.7 |
| South Yorkshire | 7.4 | 6.7 |
| West Yorkshire | 5.2 | 4.6 |
| *East Midlands* | | |
| Derbyshire | 7.4 | 5.1 |
| Leicestershire | 3.8 | 3.0 |
| Lincolnshire | 3.2 | 3.2 |
| Northamptonshire | 6.1 | 5.0 |
| Nottinghamshire | 8.0 | 7.0 |
| *West Midlands* | | |
| Hereford and Worcester | 9.1 | 7.3 |
| Shropshire | 8.5 | 7.2 |
| Staffordshire | 7.8 | 6.2 |
| Warwickshire | 4.7 | 3.5 |
| West Midlands | 3.1 | 2.0 |
| *East* | | |
| Bedfordshire | 6.2 | 5.0 |
| Cambridgeshire | 3.6 | 1.9 |
| Essex | 5.3 | 4.1 |
| Hertfordshire | 9.5 | 7.6 |
| Norfolk | 9.8 | 7.9 |
| Suffolk | 8.3 | 7.4 |

| | National inventory 1995–99 | 1980 Census |
|---|---|---|
| *Greater London* | 3.9 | 3.8 |
| *South-east* | | |
| Berkshire | 14.5 | 13.5 |
| Buckinghamshire | 9.5 | 8.3 |
| East Sussex | 16.7 | 15.6 |
| Hampshire | 17.7 | 16.4 |
| Isle of Wight | 12.0 | 9.7 |
| Kent | 10.6 | 11.4 |
| Oxfordshire | 7.0 | 6.0 |
| Surrey | 22.4 | 18.8 |
| West Sussex | 18.9 | 17.4 |
| *South-west* | | |
| Avon | 6.3 | 5.1 |
| Cornwall | 7.5 | 5.1 |
| Devon | 9.9 | 8.0 |
| Dorset | 10.8 | 9.4 |
| Gloucestershire | 11.2 | 10.0 |
| Somerset | 7.0 | 5.6 |
| Wiltshire | 7.9 | 7.1 |
| *Wales—former counties* | | |
| Clwyd | 10.0 | 9.1 |
| Dyfed | 13.5 | 10.4 |
| Glamorgan (mid, south-west) | 18.6 | 15.3 |
| Gwent | 13.8 | 12.3 |
| Gwynedd | 12.6 | 11.0 |
| Powys | 14.8 | 12.7 |
| *Scotland—former regions* | | |
| Borders | 18.5 | 14.5 |
| Central | 20.1 | 13.4 |
| Dumfries and Galloway | 26.8 | 21.1 |
| Fife | 11.6 | 10.3 |
| Grampian | 18.1 | 15.0 |
| Highland | 13.6 | 9.2 |
| Lothian | 10.4 | 8.0 |
| Strathclyde | 23.5 | 15.2 |
| Tayside | 13.8 | 9.6 |
| Western Isles | 0.8 | n/a |
| Orkney | 0.0 | n/a |
| Shetland | 0.0 | n/a |
| *Northern Ireland* | 6.0 | 4.9 |

*Notes:*

1. Differences in methodology between the two surveys may account for some of the differences.
2. Available breakdown by local authority relates to the structure in 1980
3. Northern Ireland figure published by the Forest Service.

### Whaling

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will take sanctions against those cultures who *(a)* are undertaking and *(b)* intend to undertake illegal whaling. [7273]

**Mr. Bradshaw:** We are not aware of any countries which currently undertake (or intend to undertake) illegal whaling. All those members of the International Whaling Commission which conduct whaling operations do so legally. We continue to protest at the highest diplomatic level against those countries' activities; together with other like-minded countries, we made known our opposition to Japanese 'scientific' whaling in a recent joint demarche; in addition, together with colleagues from the French and German embassies, HM ambassador in Reykjavik issued a statement on 24 May repeating our strong opposition to Iceland's continuing 'scientific whaling' programme.

## INTERNATIONAL DEVELOPMENT

### Ethiopia

**Mike Penning:** To ask the Secretary of State for International Development if he will make a statement on the current status of agreements to issue reduced price HIV retrovirals in Ethiopia. [11750]

**Hilary Benn:** In January 2005, the Government of Ethiopia launched a programme to provide anti-retroviral therapy (ART) free of charge for people living with HIV and AIDS. Under this programme, 200 health care facilities will provide ART free of charge to 41,000 people living with HIV and AIDS by the end of this year; by the end of 2006 it is expected that an additional 100,000 patients will benefit from free ART provided by over 300 health care facilities.

By 2010 it is expected that antiretroviral drugs to treat 320,000 patients in Ethiopia will be procured using funds pledged by the Global Fund to Fight AIDS, TB and Malaria (GFATM), to which the UK has to date contributed £259 million.

Although Ethiopia's free ART programme will inevitably be heavily dependent on external assistance in the short term, plans to facilitate local manufacture of anti-retroviral drugs, increase government funding for HIV/AIDS programmes and introduce social health insurance schemes are expected to improve prospects for sustainability.

### Iraq

**Andrew George:** To ask the Secretary of State for International Development what estimate his Department has made of the total monthly cost to the UK of civil operations in Iraq since March 2003. [8431]

**Hilary Benn:** Monthly DFID expenditure on humanitarian and reconstruction assistance to Iraq since March 2003 has been:

| Month | Bilateral projects | Payments to multilateral agencies | Total |
|---|---|---|---|
| *2003* | | | |
| March | — | 7,400,000 | 7,400,000 |
| April | 35,098 | — | 35,098 |
| May | 152,823 | 35,785,100 | 35,937,923 |
| June | 704,549 | 10,600,000 | 11,304,549 |
| July | 599,212 | 400,000 | 999,212 |
| August | 1,551,931 | 1,025,000 | 2,576,931 |
| September | 918,918 | 32,835,187 | 33,754,105 |
| October | 2,506,797 | — | 2,506,797 |
| November | 2,580,545 | 5,116,312 | 7,696,857 |
| December | 2,396,104 | — | 2,396,104 |
| *2004* | | | |
| January | 4,182,744 | 3,000,000 | 7,182,744 |
| February | 5,820,468 | 358,573 | 6,179,041 |
| March | 15,850,702 | 82,892,652 | 98,743,354 |
| April | 1,487,010 | — | 1,487,010 |
| May | 2,894,577 | — | 2,894,577 |
| June | 4,155,992 | — | 4,155,992 |
| July | 2,437,976 | — | 2,437,976 |
| August | 4,637,169 | — | 4,637,169 |
| September | 4,270,838 | — | 4,270,838 |
| October | 2,549,869 | — | 2,549,869 |
| November | 6,663,411 | — | 6,663,41 1 |
| December | 2,818,910 | 262,500 | 3,081,410 |
| *2005* | | | |
| January | 1,496,116 | — | 1,496,116 |
| February | 2,206,802 | — | 2,206,802 |

| Month | Bilateral projects | Payments to multilateral agencies | Total |
|---|---|---|---|
| March | 3,137,196 | 10,000,000 | 13,137,196 |
| April | 807,177 | — | 807,177 |
| May | 864,168 | 358,573 | 1,222,741 |
| June | 3,488,257 | — | 3,488,257 |

DFID has also disbursed £4.6 million for UK and overseas administrative costs for the programme. Total DFID spending on Iraq from March 2003 to June 2005 was £275 million. Variations in bilateral expenditure from month to month reflect when invoices were received for completed work on different projects.

Civil spending by other Government Departments over the same period included:

| | £ million |
|---|---|
| Foreign and Commonwealth Office | 89 |
| Global Conflict Prevention Pool (joint DFID, FCO and MOD) | 23 |

Other Government Departments met the salary costs of civil servants seconded to work in Iraq during the period between April 2003 and June 2004.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent by coalition countries on the reconstruction of Iraq in each month since March 2003. [9020]

**Hilary Benn:** Monthly DFID expenditure on humanitarian and reconstruction assistance to Iraq since March 2003 has been:

| Month | Bilateral projects | Payments to multilateral agencies | Total |
|---|---|---|---|
| *2003* | | | |
| March | — | 7,400,000 | 7,400,000 |
| April | 35,098 | — | 35,098 |
| May | 152,823 | 35,785,100 | 35,937,923 |
| June | 704,549 | 10,600,000 | 11,304,549 |
| July | 599,212 | 400,000 | 999,212 |
| August | 1,551,931 | 1,025,000 | 2,576,931 |
| September | 918,918 | 32,835,187 | 33,754,105 |
| October | 2,506,797 | — | 2,506,797 |
| November | 2,580,545 | 5,116,312 | 7,696,857 |
| December | 2,396,104 | — | 2,396,104 |
| *2004* | | | |
| January | 4,182,744 | 3,000,000 | 7,182,744 |
| February | 5,820,468 | 358,573 | 6,179,041 |
| March | 15,850,702 | 82,892,652 | 98,743,354 |
| April | 1,487,010 | — | 1,487,010 |
| May | 2,894,577 | — | 2,894,577 |
| June | 4,155,992 | — | 4,155,992 |
| July | 2,437,976 | — | 2,437,976 |
| August | 4,637,169 | — | 4,637,169 |
| September | 4,270,838 | — | 4,270,838 |
| October | 2,549,869 | — | 2,549,869 |
| November | 6,663,411 | — | 6,663,411 |
| December | 2,818,910 | 262,500 | 3,081,410 |
| *2005* | | | |
| January | 1,496,116 | — | 1,496,116 |
| February | 2,206,802 | — | 2,206,802 |
| March | 3,137,196 | 10,000,000 | 13,137,196 |
| April | 807,177 | — | 807,177 |
| May | 864,168 | 358,573 | 1,222,741 |
| June | 3,488,257 | — | 3,488,257 |

In total, DFID has disbursed £271 million on humanitarian and reconstruction assistance in Iraq since March 2003. Variations in bilateral expenditure from month to month reflect when invoices were received for completed work on different projects. DFID also provides 19 per cent. of European Community development funding: EC assistance to Iraq totalled €318.5 million for 2003 and 2004, and €205 million has been approved for 2005.

The Global Conflict Prevention Pool (GCPP), funded jointly by DFID, the Foreign and Commonwealth Office (FCO) and the Ministry of Defence (MOD), disbursed £23 million on Iraq in 2003–04 and 2004–05. In addition, the FCO has spent £38 million on reconstruction activities in Iraq. The MOD has committed £30 million to Quick Impact Projects, most of which has been disbursed.

Comparable figures for other coalition countries are not available. We estimate that their spending on reconstruction programmes since March 2003 has totalled about US $10.3 billion, primarily from the USA (about $8.75 billion) and Japan (about $1.3 billion).

## Malaria

**Mr. Drew:** To ask the Secretary of State for International Development what anti-malaria drugs the Government fund *(a)* directly, *(b)* through non-government organisations and *(c)* through the UN. [11600]

**Mr. Thomas:** UK support for anti-malarial drugs is through bilateral and multilateral channels—which includes UN agencies. We do not keep specific data on the volume on value of the anti-malarial drugs that go through these different channels.

DFID is a major donor to the Global Fund to Fight AIDS, TB and Malaria (GFATM). We have pledged more than £259 million through to 2008. Approximately 31 per cent. of GFATM funds go to malaria—and 49 per cent. of all GFATM funds are used for drugs and commodities, including anti-malarial treatments. These funds support both government and NGO programmes. The UK has provided £48.5 million to the Roll Back Malaria Partnership since 1998 and we are also a major donor to the World Bank which has recently announced the Booster programme for Malaria Control programmes.

Our bilateral programme supports malaria control in two ways. First there are malaria specific programmes—and some of these provide anti-malarial drugs. Second, national malaria control programmes (and thus anti-malarial drugs) are funded through our broader health sector programmes and poverty reduction budget support.

From 1998–99 to date, UK support at country level to specific malaria programmes was approximately £58 million. In addition we have provided approximately £59 million for projects targeted on malaria and other diseases that impact on malaria control. This funding is part of over £1.5 billion committed by the UK to health programmes since 1997.

The UK does not have a specific policy on which anti-malarial drugs it funds through its different programmes. We look to developing countries to

determine anti-malarial policies appropriate to local resistance patterns and also to the World Health Organisation as the international technical health agency to work with these countries to develop their policies. Recently many countries in sub-Saharan Africa have moved to a policy of recommending Artemisinin-based Combination Therapy (ACT) as first line treatment for malaria.

### Asian Tsunami

**Mark Simmonds:** To ask the Secretary of State for International Development what assessment his Department has made of the extent to which aid to tsunami victims has reached the poorest people affected by the disaster; and what steps his Department is taking to ensure that aid reaches such people. [10320]

**Mr. Thomas:** The immediate response to the tsunami has been widely acknowledged as an effective response to all who suffered from the disaster and needed rapid support. We channelled the bulk of our immediate relief and recovery support through experienced humanitarian organisations whose targeting of beneficiaries will have helped ensure that the vulnerable and poor received assistance.

DFID has allocated up to £65 million to meet reconstruction needs. From this allocation £31 million has been committed to the Multi Donor Trust Fund in Indonesia, of which £6 million has so far been paid out. A further £5 million has been committed for technical assistance in Indonesia to help ensure timely, accountable and equitable provision of reconstruction assistance and rebuilding of livelihoods. A total of £2 million has been committed to Sri Lanka to help speed up implementation of reconstruction programmes and to ensure equitable distribution of assistance, and £3 million to India to provide technical assistance aimed at ensuring effective, transparent and equitable programming of tsunami reconstruction efforts. The remaining £24 million of the £65 million allocation for reconstruction has not yet been committed.

### UN Convention Against Corruption

**Mark Simmonds:** To ask the Secretary of State for International Development what discussions his Department has had with other EU countries regarding UK ratification of the United Nations Convention Against Corruption; and if he will make a statement. [8388]

**Mr. Thomas:** DFID has regular discussions in many fora with our EU partners about anti-corruption measures, including the UN Convention against Corruption (UNCAC). These fora include the Development Assistance Committee (DAC) of the Organisation for Economic Co-Operation and Development (OECD) where DFID has been leading the development of a set of principles to promote stronger donor action and collaboration against corruption, using UNCAC as the policy framework.

The UK very much hopes to ratify the UNCAC by the end of this year. Ratification now depends on Orders in Council. We are committed to introducing Orders in Council under Part Eleven of the Proceeds of Crime Act 2002 by October. Orders in Council are also required under the Criminal Justice (International Co-operation) Act 1990 and should be introduced by December 2005. Scotland and Northern Ireland will need to produce corresponding orders before full ratification.

## CULTURE, MEDIA AND SPORT

### Departmental Purchasing

**Chris Grayling:** To ask the Secretary of State for Culture, Media and Sport if she will list the companies from which her Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11736]

**Mr. Caborn:** DCMS has only contracted with one company regarding goods and services in excess of £1 million in the last three years and that company is our Information Technology provider, Atos Origin (previously Schlumberger Sema). The amounts are as follows:

£

| | *Amount* |
|---|---|
| 2002–03 | 3,639,562 |
| 2003–04 | 3,922,710 |
| 2004–05 | 5,244,474 |

### Historic Houses

**Mr. Hollobone:** To ask the Secretary of State for Culture, Media and Sport (1) what steps are being taken to reduce the coincidence of regulation from different Government agencies which impacts on the management and operation of historic houses open to the public; [11211]

(2) what steps are being taken to co-ordinate efforts across Government Departments to support the historic environment and the work of organisations which work to preserve the built heritage, with particular reference to the Historic Houses Association. [11212]

**Mr. Lammy** *[holding answer 12 July 2005]:* With ODPM, Defra and DfES and HMT, we work closely with the historic and built environment sectors, including the Historic Houses Association. We are well aware of their concerns about the impact of regulation on private houses open to the public.

### Licensing

**Mr. Moss:** To ask the Secretary of State for Culture, Media and Sport what complaints she has received from licence applicants under the Licensing Act 2003 concerning the requirements for statutory plans of premises. [9456]

**James Purnell:** I know that some applicants have concerns about meeting the requirements for plans to accompany licence applications under the 2003 Act. These issues have been formally raised in the High Level

Group of senior stakeholders which we established to monitor the implementation of the 2003 Act and identify actions to help ensure a smooth transition. As a result of discussions at the High Level Group, I recently wrote to all chief executives of local authorities to express the Group's hope that authorities would look favourably at using or amending existing plans and, where necessary, be as flexible as possible about allowing alternative scales.

### Plundered Material

**Andrew Rosindell:** To ask the Secretary of State for Culture, Media and Sport whether it is her policy to legislate to enable the return of plundered material from the Second World War held in UK museums and galleries if advised to do so by the Spoliation Advisory Panel. [11661]

**Mr. Lammy:** Ministers are now considering their response to the Spoliation Advisory Panel's recent recommendation that the Government should legislate to enable the return of objects within the panel's Terms of Reference. Any legislation would be the result of extensive discussions with the museum sector and, particularly, with the National Museum Directors' Conference as well as with other interested parties and the panel itself.

### Sports (Participation)

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what estimates her Department has made of drop out rates for participation in sport among 16 and 17-year-olds in each year since 1997; and if she will make a statement. [10868]

**Mr. Caborn:** My Department does not have exact figures for each year since 1997. However, we can estimate that participation for young men drops from 91 per cent. to 81 per cent. between the 15 to 16-year-old age group and 16 to 19-year-old age group. For young women it drops from 78 per cent. to 65 per cent.

These figures are derived from Sport England's Young People and Sport Survey 2002 and The General Household survey 2002. Definitions of participation are slightly different across the two surveys but are broadly comparable to having taken part on at least one occasion in the previous four weeks.

## TRANSPORT

### Crossrail

**Mr. Hayes:** To ask the Secretary of State for Transport how much office space is occupied by Cross London Rail Links Ltd.; and what rent has been paid for office space for this purpose in each year from 1997. [10364]

**Derek Twigg:** This is a matter for Cross London Rail Links Ltd. (CLRLL). I understand from CLRLL that it currently occupies 1,900m$^2$ of office space; and that, since the company's formation in 2001, it has paid the following rent for office space:

| | £ |
|---|---|
| 2001–02 | 878,000 |
| 2002–03 | 626,000 |
| 2003–04 | 746,000 |
| 2004–05 | 1,907,000 |

**Mr. Hayes:** To ask the Secretary of State for Transport what the cost to his Department of the Crossrail project, broken down by *(a)* wages, *(b)* office costs and *(c)* other costs was in the last year for which figures are available. [10365]

**Derek Twigg:** The unit that deals with Crossrail sponsorship in the Department, which includes the Crossrail hybrid Bill team, had wage costs in the financial year 2004–05 of £642,267; office costs of £77,870; and other costs (primarily consultancy) of £1,937,094.

The Department provided £154 million to the Crossrail development company, Cross London Rail Links Ltd. in 2001.

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Transport if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9154]

**Dr. Ladyman:** All procurement of food products by the Department is undertaken in line with the EC's procurement rules and to obtain value for money. Where possible British products are used. The organisers of events during the UK Presidency will be reminded of the availability of English wine. For ministerial meetings in Brussels and Luxembourg we are working with the Council Secretariat to try to provide British produce (as key ingredients) and drink for all meetings during the UK Presidency.

### EU Driver Licensing Committee

**Mrs. May:** To ask the Secretary of State for Transport pursuant to the answer of 23 June 2005, *Official Report*, column 1129W, on the EU Driver Licensing Committee, who the members are of his Honorary Medical Advisory Panels; and what relevant *(a)* qualifications and *(b)* experience each has. [11796]

**Dr. Ladyman:** Membership of the Secretary of State's Honorary Medical Advisory Panels is made up of eminent medical practitioners and medical scientists, usually consultants, who are acknowledged national and sometimes international experts in their particular field. Nominations are sought through the relevant professional bodies and are considered and approved as

appropriate by the relevant medical Royal College. Two lay members also sit on each Panel. Members of the Medical Advisory Panels working on diabetes, eyesight and epilepsy and their qualifications are as follows:

| | |
|---|---|
| *Advisory Panel Members* | |
| *Diabetes Mellitus and Driving* | |
| Professor B. M. Frier BSc. Ed MD FRCP | Chairman since 2001 |
| Dr. S. G. Gilbey BA MD MRCP FRLP | Member since 1997 re-appointed 2002 |
| Dr. A. B. Stevens BAO MD FRCP AFOM | Member since 1997 re-appointed 2002 |
| Dr. D. Kerr DM FRCP FRCPE | Member since 2001 |
| Dr A. E. Gold BSc. Ed MD MRCP | Member since 2001 |
| Professor J. Saunders MA MD FRCP | Member since 2002 |
| Dr. D. T. E. Gunnah MD BSc. FRCP | Member since 2002 |
| Ms M. Jackson | Lay member since 2001 |
| Mrs B. Hatton | Lay member since 2001 |
| *Visual Disorders and Driving* | |
| Mr. M. H. Miller MD FRCS FRCOphth | Chairman since 2001 |
| Mr. J. Elston BSc. MD FRCS FRCOphth | Member since 1998 |
| Dr. G. McIlwaine FRCS(ED) FRCOphth FRCS(Glas) | Member since 2000 |
| Mr. A. Viswanathan BSc. (Hons) FRCOphth MD | Member since 2002 |
| Mr. I. G. M. Duguid MD FRCS | Member since 2002 |
| Mr. F. D. Ghanchi MS(Ophth) MB BS FRCOphth | Member since 2002 |
| Mr A Elliott FRCP FRCS FRCOphth | Member since 2003 |
| Dr. C. W. Fowler PhD FCOptom | Member since 2003 |
| Dr. C. Dickinson BSc. PhD | Member since 2004 |
| Dr. G. Plant MD FRCP | Member since 2005 |
| Mrs. M. Cornwell | Lay member since 2001 |
| Mr. R. Yates | Lay member since 2001 |
| *Disorders of the Nervous System and Driving* | |
| Professor C. P. Warlow MD BA MBCHIR FRCB FRCP Ed FRCP(London) FRCP(Glas) MRCP(UK) | Chairman since 2004 |
| Professor C. J. Mathias Dphil DSc FRCP FMedSci | Member since 2004 |
| Dr. P. E. M. Smith MD FRCP | Member since 2004 |
| Dr. A. Johnson PhD CSTAT | Member since 1996 |
| Professor A. D. Mendelow PhD FRCS Ed | Member since 1998 |
| Professor D. T. Wade FRCP MD MA | Member since 1998 |
| Professor M. Brada BSc. FRCP FRCR | Member since 1998 |
| Mr. R. S. C. Kerr BSc. MS FRCS | Member since 1998 |
| Dr. A. Zeman BA DM MRCP | Member since 2001 |
| Professor I. R. Whittle PhD Ed MD FRCS Ed FRACS | Member since 1998 |
| Professor G. Cruickshank FRCS | Member since 2001 |
| Dr. L. Nashef MD MRCP | Member since 2001 |
| Mrs. M. Cooper | Lay member since 2001 |
| Mrs. J. Wightman | Lay member since 2001 |

## Magnetic Levitation

**Mr. Gordon Prentice:** To ask the Secretary of State for Transport what consideration is being given to magnetic levitation as the propulsion system for the possible new North-South railway. [11873]

**Derek Twigg:** The Government have asked Sir Rod Eddington to advise on the long-term impact of transport decisions on UK productivity, stability and growth. His work will assess the effects of potential new infrastructure such as a North-South high speed line. At this very early stage, what technology might be appropriate is yet to be decided. Affordability, value for money and deliverability will be key considerations.

## Railways

**Gregory Barker:** To ask the Secretary of State for Transport what representations he has received on proposals to change the timetabling for trains running along the Hastings to London Victoria line. [10620]

**Derek Twigg** *[holding answer 7 July 2005]:* The Department has received correspondence from Members of Parliament and other stakeholders, and a petition requesting that current service levels are kept and enhanced.

**Mr. Hancock:** To ask the Secretary of State for Transport what his plans are for the improvement of rail *(a)* infrastructure and *(b)* services in Hampshire in each of the next three years; and if he will make a statement. [11509]

**Derek Twigg:** Improvements to the rail infrastructure and service in Hampshire will be considered as part of the ongoing business of the operators. In addition, Network Rail are undertaking a Route Utilisation Strategy and the DfT/SRA are working on franchise replacements for Greater Western and South Western that contain services operating in Hampshire.

## Road Schemes (North-west)

**Mr. Hoyle:** To ask the Secretary of State for Transport if he will list the major road schemes in *(a)* the north-west and *(b)* Lancashire which are planned to start in (i) 2005–06 and (ii) 2006–07; and what the estimated cost is of each. [11825]

**Dr. Ladyman:** Major local road schemes in *(a)* the north-west and *(b)* Lancashire are listed in the following table. The cost of each scheme is the most recent estimated cost. The current estimated planned start dates listed are those suggested by the local highway authority.

| | *Provisionally approved*[1] | *Fully approved* | *Current estimated planned start date by local highway authority* | *Recent cost estimate (£ million)* |
|---|---|---|---|---|
| *(a) North West Scheme* | | | | |
| Edge Lane West, Liverpool | December 2004 | — | October 2006 | 15.85 |
| Hall Lane Area Improvements, Liverpool[2] | December 2000 | — | Late 2006 | 12.2 |
| A58 Blackbrook Diversion, St Helens | December 2002 | — | 2005–06 | 8.45 |
| The Carlisle Northern Development Route | — | October 2004 | 2006–07 | [3]78.8 |
| Wigan Inner Relief Route[2] | December 2002 | — | 2005–06 | 19.5 |
| Ashton Northern Bypass Stage 2, Tameside[2] | December 2002 | — | 2005–06 | 8.29 |
| The Glossop Spur, Tameside[2] | December 2002 | — | 2006–07 | 8.081 |
| *(b) Lancashire Scheme* | — | — | — | 0 |

## Road Traffic Accidents/Statistics

**Bob Spink:** To ask the Secretary of State for Transport how many road traffic accidents occurred in each of the last five years on the A127 between the M25 and Southend; and what proportion of these resulted in personal injury. [11413]

**Dr. Ladyman:** The Department for Transport does not collect statistics on damage-only accidents.

The number of injury accidents which occurred on the A127 between the M25 and Southend in the last five years for which data are available are shown in the following table.

| | *Fatal accidents* | *Serious accidents* | *Slight accidents* | *All accidents involving personal injury* |
|---|---|---|---|---|
| 2000 | 3 | 35 | 38 | 204 |
| 2001 | 2 | 38 | 40 | 209 |
| 2002 | 2 | 22 | 24 | 182 |
| 2003 | 8 | 32 | 40 | 185 |
| 2004 | 4 | 28 | 32 | 172 |

**Bob Spink:** To ask the Secretary of State for Transport how many road traffic accidents occurred in each of the last five years on the A13 between the M25 and Southend; and what proportion of these resulted in personal injury. [11414]

**Dr. Ladyman:** The Department for Transport does not collect statistics on damage-only accidents.

The number of injury accidents which occurred on the A13 between the M25 and Southend in the last five years for which data are available are shown in the following table.

| | *Fatal accidents* | *Serious accidents* | *Slight accidents* | *All accidents involving personal injury* |
|---|---|---|---|---|
| 2000 | 2 | 45 | 300 | 347 |
| 2001 | 9 | 44 | 284 | 337 |
| 2002 | 4 | 43 | 287 | 334 |
| 2003 | 5 | 44 | 257 | 306 |
| 2004 | 4 | 37 | 222 | 263 |

**Bob Spink:** To ask the Secretary of State for Transport how many road traffic accidents occurred in each of the last five years in Castle Point; and what proportion of these resulted in personal injury. [11415]

**Dr. Ladyman:** The Department for Transport does not collect statistics on damage-only accidents.

The number of road traffic accidents which occurred in the district of Castle Point in the last five years for which data are available are shown in the following table.

| | *Fatal accidents* | *Serious accidents* | *Slight accidents* | *All accidents involving personal injury* |
|---|---|---|---|---|
| 2000 | 2 | 48 | 271 | 321 |
| 2001 | 2 | 40 | 260 | 302 |
| 2002 | 3 | 44 | 240 | 287 |
| 2003 | 3 | 35 | 239 | 277 |
| 2004 | 3 | 26 | 232 | 261 |

**Bob Spink:** To ask the Secretary of State for Transport how many road traffic accidents occurred in each of the last five years on Canvey Island; and what proportion of those resulted in personal injury. [10949]

**Dr. Ladyman:** The Department for Transport does not collect statistics on damage-only accidents.

The number of road traffic accidents involving personal injury which occurred on Canvey Island in each of the last five years for which data are available are shown in the table.

| | *Fatal accidents* | *Serious accidents* | *Slight accidents* | *All accidents involving personal injury* |
|---|---|---|---|---|
| 2000 | 1 | 17 | 102 | 120 |
| 2001 | 0 | 17 | 100 | 117 |
| 2002 | 0 | 15 | 91 | 106 |
| 2003 | 1 | 15 | 85 | 101 |
| 2004 | 1 | 8 | 89 | 98 |

**Bob Spink:** To ask the Secretary of State for Transport how many accidents occurred in each of the last five years on the A130 between the A127 and its end on Canvey Island; and what proportion of these resulted in personal injury. [10950]

**Dr. Ladyman:** The Department for Transport does not collect statistics on damage-only accidents.

The number of injury accidents which occurred on the A130 between the A127 and its end on Canvey Island in the last five years for which data are available are shown in the table.

| | *Fatal accidents* | *Serious accidents* | *Slight accidents* | *All accidents involving personal injury* |
|---|---|---|---|---|
| 2000 | 2 | 10 | 46 | 58 |
| 2001 | 0 | 9 | 42 | 51 |
| 2002 | 0 | 5 | 36 | 41 |
| 2003 | 1 | 10 | 48 | 59 |
| 2004 | 0 | 8 | 52 | 60 |

**Tom Brake:** To ask the Secretary of State for Transport (1) what the traffic levels were on the *(a)* A11 (M11 to Norwich), *(b)* A19 Dishforth to Tyne Tunnel, *(c)* A42 Pepperhill to Cobham Widening, *(d)* A2/M2 and A249 (M2 to Sheppey) and *(e)* A20 Trunk Road to Roundhill tunnels in the last year for which figures are available before construction works began; and what forecast has been made of likely levels after construction works are completed; [8239]

(2) what the traffic levels were on the *(a)* A249 Iwade Bypass to Queensborough Improvement, *(b)* A249 Stockbury (M2) to Sheerness, *(c)* A30 Exeter to Bere Regis, *(d)* A30 Pennygillam to Bulsworthy and *(e)* A303/A30 (M3 to Honiton) in the last year for which figures are available before construction works began; and what forecast has been made of the likely levels after construction works are completed; [8241]

(3) what the traffic levels were on the *(a)* M1 junction 30 to 31, *(b)* M1 junction 31 to 32, *(c)* M1 junction 32 to 34 southbound and *(d)* M1 junction 6a to 10 in the last year for which figures are available; and what forecast has been made of likely levels after construction works are completed; [8282]

(4) what the traffic levels were on the *(a)* M1 junctions 21 to 30, *(b)* M25 widening, *(c)* M27 junctions 11 to 12, *(d)* M27 junctions 3 and 4 and *(e)* M5 junctions 19 and 20 in the last year for which figures are available; and what forecast has been made of likely levels after construction works are completed; [8284]

(5) what the traffic levels were on the *(a)* A1 Darrington to Dishforth, *(b)* A1 Peterborough to Blyth, *(c)* A1(M) Alconbury to Peterborough, *(d)* A1(M) Ferrybridge to Hook Moor and *(e)* A1(M) Wetherby to Walshford in the last year for which figures are available before construction works began; and what projections have been made of likely levels after construction works are completed; [8286]

(6) what the traffic levels were on the *(a)* A66 Penrith to Temple Sowerby, *(b)* A66 Temple Sowerby Bypass and Improvements at Winderwath, *(c)* A66 Temple Sowerby to Appleby and *(d)* A69 Haydon Bridge Bypass in the last year for which figures are available; and what forecast has been made of likely levels after construction works are completed; [8309]

(7) what the traffic levels were on the *(a)* M1 junctions 34 North to junction 37, *(b)* M1 junctions 37 to 39, *(c)* M1 junctions 39 to 42, *(d)* M1 junction 10 to 13 and *(e)* M1 junction 19 in the last year for which figures are available; and what forecast has been made of likely future levels after construction works are completed; [8310]

(8) what the traffic levels were on the *(a)* A483 Pant to Llanymynech Bypass, *(b)* A50 Trentham Lakes North Improvements, *(c)* A505 Dunstable Northern Bypass (A5 to M1 Link), *(d)* A57/A628 Mottram in Longdendale, Hollingworth and Tintwistle Bypass and *(e)* A595 Parton to Lillyhall Improvement in the last year for which figures are available; and what forecast has been made of likely future levels after construction works are completed; [8314]

(9) what the traffic levels were on the *(a)* A45/A46 Tollbar End Improvement, *(b)* A453 Widening (M1 Junction 24 to A52 Nottingham), *(c)* A46 Newark Widmerpool Improvement, *(d)* A47 Acle Straight and *(e)* A47 Blofield to North Burlingham Dualling in the last year for which figures are available; and what forecast has been made of likely levels after construction works are completed; [8316]

(10) what the traffic levels were on the *(a)* A14 Ellington to Fen Ditton, *(b)* A14 Haughley New Street to Stowmarket Improvement, *(c)* A2/A282 Dartford Improvement, *(d)* A21 South Pembury to Hastings Route Improvements and *(e)* A21 Tonbridge to Pembury in the last year for which figures are available; and what forecast has been made of likely levels after construction works are completed; [8317]

(11) what the traffic levels were on the *(a)* A1 Adderstone to Belford, *(b)* A1 Dishforth to Barton, *(c)* A1 Morpeth to Felton, *(d)* A1(M) Bramham to Wetherby and *(e)* A120 Braintree to Marks Tey in the last year for which figures are available; and what forecast has been made of likely levels after construction works are completed; [8319]

(12) what the traffic levels were on the *(a)* A590 High and Low Newton Bypass, *(b)* A63 Osgodby Bypass, *(c)* A64 Rillington Bypass, *(d)* A64 York to Scarborough Proposed Dualling and *(e)* A66 Appleby to Brough in the last year for which figures are available; and what forecast has been made of likely future levels after construction works are completed. [8321]

**Dr. Ladyman:** A table has been placed in the Libraries of the House showing traffic levels for the Highways Agency road schemes where data are available.

**Tom Brake:** To ask the Secretary of State for Transport (1) what estimate he has made of total carbon dioxide emissions from traffic on the *(a)* A11 (M11 to Norwich), *(b)* A19 Dishforth to Tyne Tunnel, *(c)* A2 Pepperhill to Cobham Widening, *(d)* A2/M2 and A249 (M2 to Sheppey) and *(e)* A20 Trunk Road to Roundhill tunnels in the last year for which figures are available before construction works began; how many accidents occurred on each road in that year; how many (i) fatalities and (ii) serious injuries occurred; and when each scheme is due to (A) begin and (B) be completed; [8240]

(2) what estimate he has made of total carbon dioxide emissions from traffic on the *(a)* A249 Iwade Bypass to Queensborough Improvement, *(b)* A249 Stockbury (M2) to Sheerness, *(c)* A30 Exeter to Bere Regis, *(d)* A30 Pennygillam to Bulsworthy and *(e)* A303/A30 (M3 to Honiton) in the last year for which figures are available before construction works began; how many accidents there were on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8242]

(3) what estimate has been made of carbon dioxide emissions from traffic on the *(a)* M1 junction 34 North to 37, *(b)* M1 junction 37 to 39, *(c)* M1 junction 39 to 42, *(d)* M1 junction 10 to 13 and *(e)* M1 junction 19 in the last year for which figures are available; how many accidents there were on each stretch of road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8281]

(4) what estimate has been made of carbon dioxide emissions from traffic on the *(a)* M1 junction 30 to 31, *(b)* M1 junction 31 to 32, *(c)* M1 junction 32 to 34 southbound and *(d)* M1 junction 6a to 10 in the last year for which figures are available; how many accidents there were in each stretch of road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of the likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8283]

(5) what estimate has been made of carbon dioxide emissions from traffic on the *(a)* A1 Darrington to Dishforth, *(b)* A1 Peterborough to Blyth, *(c)* A1(M) Alconbury to Peterborough, *(d)* A1(M) Ferrybridge to Hook Moor and *(e)* A1(M) Wetherby to Walshford in the last year for which figures are available before construction works began; how many accidents there were on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8285]

(6) what estimate he has made of carbon dioxide emissions from traffic on *(a)* M1 junctions 21 to 30, *(b)* M25 widening, *(c)* M27 junctions 11 and 12, *(d)* M27 junctions 3 and 4 and *(e)* M5 junctions 19 and 20 in the last year for which figures are available; how many accidents there were on each road in that year; how many resulted in *(a)* fatalities and (ii) serious injuries; what forecast has been made of likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8287]

(7) what estimate has been made of carbon dioxide emissions from traffic on the *(a)* A66 Penrith to Temple Sowerby, *(b)* A66 Temple Sowerby Bypass and Improvements at Winderwath, *(c)* A66 Temple Sowerby to Appleby and *(d)* A69 Haydon Bridge Bypass in the last year for which figures are available; how many accidents there were on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8308]

(8) what estimate he has made of carbon dioxide emissions from traffic on the *(a)* A45/A46 Tollbar End Improvement, *(b)* A453 Widening (M1 Junction 24 to A52 Nottingham, *(c)* A46 Newark to Widmerpool Improvement, *(d)* A47 Acle Straight and *(e)* A47 Blofield to North Burlingham dualling in the last year for which figures are available; how many accidents there were on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8315]

(9) what estimate he has made of carbon dioxide emissions from traffic on the *(a)* A1 Adderstone to Belford, *(b)* A1 Dishforth to Barton, *(c)* A1 Morpeth to Felton, *(d)* A1(M) Bramham to Wetherby and *(e)* A120 Braintree to Marks Tey in the last year for which figures are available; how many accidents there were on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; and when each scheme is due to (A) begin and (B) be completed; [8318]

(10) what estimate he has made of carbon dioxide emissions from traffic on the *(a)* A483 Pant to Llanymynech Bypass, *(b)* A50 Trentham Lakes North Improvements, *(c)* A505 Dunstable Northern Bypass (A5 to M1 Link), *(d)* A57/A628 Mottram in Longdendale, Hollingworth and Tintwistle Bypass and *(e)* A595 Parton to Lillyhall Improvement in the last year for which figures are available; how many accidents occurred on each stretch of road in each year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely future levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed. [8320]

**Dr. Ladyman:** A table has been placed in the Libraries of the House showing carbon dioxide emission estimates for the Highways Agency road schemes where data are available.

A table has been placed in the Libraries of the House showing, for the Highways Agency road schemes where data are available, how many accidents occurred on each road in that year; how many fatalities and serious injuries occurred; and when each scheme is due to begin and be complete.

### Robin Hood Airport

**Mr. MacShane:** To ask the Secretary of State for Transport if he will instruct relevant agencies to create a motorway link to the Robin Hood Airport, Doncaster. [10202]

**Dr. Ladyman:** Any new road would be for Doncaster metropolitan borough council, the local highway authority to promote. They are currently looking into the need for a new link road and may wish to discuss their findings with my officials later this year.

### Safety Cameras

**Mr. David Jones:** To ask the Secretary of State for Transport what guidance is given to local authorities with regard to their participation in safety camera partnerships. [11710]

**Dr. Ladyman:** The Department issues a Handbook of Rules and Guidance for the National Safety Camera Programme for England and Wales. The Handbook for 2005–06 can be found in the Library of the House and on the Department for Transport website, www.dft.gov.uk

### Special Advisers

**Bob Spink:** To ask the Secretary of State for Transport if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8824]

**Ms Buck:** I refer the hon. Member to the answer given by my right hon. Friend the Prime Minister on 4 July 2005, *Official Report*, column 36W.

### Trains

**Mr. Hancock:** To ask the Secretary of State for Transport for what reason 30 train units were diverted by the Strategic Rail Authority to other train operating companies from South West Trains; what research was carried out into the consequences of the reduction in capacity; what plans he has to provide replacements for the 30 units; and if he will make a statement. [11289]

**Derek Twigg:** The original agreement to supply Desiro rolling stock to SWT was linked to a 20-year franchise being awarded, and assumed significant infrastructure works to accommodate these units. The interim three-year franchise did not provide for such investment, and therefore 30 units could not be deployed in the short-term.

The current franchise replacement process will seek to address the provision of capacity for the SWT area and the appropriate deployment of rolling stock.

### Vehicle Licensing

**Dr. Pugh:** To ask the Secretary of State for Transport how many British petrol engined vehicles licensed for use on British roads were built prior to 1993. [11567]

**Dr. Ladyman:** At 31 March 2005, there were 3,235,000 licensed petrol propelled vehicles that were first registered before 1993. This represents 13.7 per cent. of all petrol propelled vehicles.

## TRADE AND INDUSTRY

### Clearing Banks

**Chris Huhne:** To ask the Secretary of State for Trade and Industry if he will refer the banks' practice of taking three days to clear cash from one account to another to the Office of Fair Trading; and if he will make a statement. [11033]

**Mr. Sutcliffe:** In the first instance questions regarding competition or consumer issues in the banking sector are a matter for the independent competition authorities, in this case the Office of Fair Trading.

The Office of Fair Trading chairs the Payment Systems Task Force, which includes representatives from the banking industry, consumers, business and government. The Task Force recommended in May that a faster payments service be introduced for telephone and internet banking payments, with the ability to accept standing order payments. Instead of taking three days, payments would either be made same day, or overnight. The industry will report back to the Task Force with a full specification by the end of this year, with full implementation two years after that.

### Design and Artist Copyright Society

**Derek Wyatt:** To ask the Secretary of State for Trade and Industry how many meetings his Department has had with representatives of the *(a)* art market and *(b)* Design and Artist Copyright Society since 1 April. [11529]

**Alan Johnson** *[holding answer 11 July 2005]:* The Department has had one meeting with the British Art Market Federation and two with the Design and Artists Copyright Society.

### Directorate Staff

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many members of each Directorate have taken voluntary redundancy since October 2003; and for what reasons. [10518]

**Alan Johnson:** The following table shows the number of staff in each Directorate who have taken voluntary early severance and voluntary early retirement since October 2003.

Their reasons for doing so are not recorded.

| *Directorate* | *Voluntary early:* *Severance* | *Retirement* |
|---|---|---|
| Business Relations | 51 | 84 |
| Business Support | 3 | 0 |
| Consumer and Competition Policy Directorate | 7 | 19 |
| Corporate Law and Governance | 4 | 16 |
| Energy Industries and Technology Unit | 8 | 23 |
| Energy Markets Unit | 3 | 9 |
| Employment Relations | 8 | 15 |
| Energy Resources and Development Unit | 4 | 8 |
| Energy strategy Unit | 2 | 2 |
| Europe and World Trade | 7 | 10 |
| Finance and Resource Management | 5 | 13 |
| Human Resources and Change Management | 3 | 15 |
| Industry Economics and Statistics | 2 | 3 |
| Innovation Group | 14 | 23 |
| Information and Workplace Services | 8 | 22 |
| Legal | 16 | 12 |
| Ministerial and Parliamentary Support Team | 8 | 13 |
| Office of Manpower Economics | 2 | 5 |
| Office of Science and Technology | 6 | 8 |
| Project Work Team | 6 | 6 |
| Regions | 3 | 9 |
| Small Business Service | 13 | 23 |
| Strategy Communications Unit | 7 | 6 |
| Shareholder Executive | 2 | 3 |
| UK Trade and Investment | 35 | 28 |
| Women and Equality Unit | 5 | 3 |
| Export Control and Non-Proliferation | 4 | 9 |
| Other small directorates[1] | 2 | 9 |

[1] This represents British National Space Centre, Internal Audit, Low Pay Commission and the Strategic Policy Analysis Unit where the numbers are small and there is a risk staff could be identified.

### I-dialling

**Helen Jones:** To ask the Secretary of State for Trade and Industry what steps he is taking to tackle the problems arising from i-dialling. [10841]

**Alun Michael:** By i-dialling I take it that the hon. Member means rogue diallers on the internet running up large bills for consumers. The Government asked Ofcom to carry out a review of premium rate services regulation to ensure that the right level of protection is in place to protect consumers. Ofcom has now produced its report with recommendations designed to improve the effectiveness of premium rate regulation. We are working with the premium rate regulator, ICSTIS, and Ofcom to implement these recommendations as soon as possible. This Department is currently consulting on implementing recommendation 6 from the Ofcom report on increasing the maximum fine for breaches of the ICSTIS code from £100,000 to £250,000.

### Late Payments

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry if he will introduce measures to amend the Late Payment of Commercial Debts Act 1998 to ensure the strict application of the 30 day limit and increased compensation for late payments. [11881]

**Barry Gardiner:** The Government are determined to improve the UK's payment culture. That is why we introduced legislation giving suppliers a statutory right to claim interest on late paid bills. The Late Payment of Commercial Debts (Interest) Act 1998 provides a useful tool for companies suffering from late payment to use 'if they wish' to claim compensation and interest on late debts. The legislation sets a default period of 30 days if there is no other agreed credit period. The default period does not constitute a statutory credit period and therefore its strict application cannot be enforced.

The interest rate, at 8 per cent. over the Bank of England base lending, rate is the highest in Europe for late payment legislation. In comparison the EC directive

on late payment sets a rate of 7 per cent. over the ECB rate. The legislation also allows for a compensation amount up to £100 to be claimed in addition to the interest.

In a recent survey the Credit Management Research Centre of Leeds university found that overall, 62 per cent. of firms reported that they do specify their rights to customers under the late payment legislation and that 75 per cent. of large firms are more likely to do so.

The Government want more companies to agree credit terms and define payment periods up front, using the legislation as a backup measure to their normal trading relationship.

### Peninsula Power Ltd.

**Mr. Cox:** To ask the Secretary of State for Trade and Industry what payments have been made to date by the South West Regional Development Agency to or on behalf of Peninsula Power Ltd. and its officers, directors or shareholders; what the reasons for the payments were in each case; and if he will make a statement. [11697]

**Alun Michael:** I have asked the chief executive of the Agency to write to the hon. Member: a copy of that letter will be placed in the Libraries of the House.

### Post Offices

**Mr. Peter Robinson:** To ask the Secretary of State for Trade and Industry how many post offices in Northern Ireland have closed in each of the past 10 years. [11715]

**Barry Gardiner:** This is an operational matter for Post Office Ltd. (POL) and the chief executive has been asked to reply direct to the hon. Member.

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many post offices were in operation in Southend in each of the last 10 years. [10537]

**Barry Gardiner:** This is an operational matter for Post Office Ltd. (POL) and the chief executive has been asked to reply direct to the hon. Member.

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what recent discussions he has had with the Royal Mail about delivery of mail in Southend. [10538]

**Barry Gardiner:** DTI Ministers and officials meet with representatives from Royal Mail on a regular basis to discuss a wide range of issues, including delivery performance issues.

We are pleased to see that Royal Mail's quality of service has improved overall over the past year. We have received assurances from Allan Leighton and Adam Crozier that the Board will continue to give quality of service top priority.

### Premium Rate Telephone Lines

**Helen Jones:** To ask the Secretary of State for Trade and Industry what progress has been made on implementing Ofcom's 2004 recommendations on regulating premium rate telephone lines. [10840]

**Alun Michael:** The recommendation on traffic monitoring and information sharing by operators was implemented on 24 May. The key recommendation, that network operators should not make payments to service providers for at least 30 days after calls have been made, will be implemented very shortly through an emergency change to the ICSTIS code of practice. This Department is currently consulting on raising the fines for breaches of the ICSTIS code, and we expect the other recommendations to be implemented by early in 2006 at the latest.

## TREASURY

### Automated Telling Machines

**Mr. Kemp:** To ask the Chancellor of the Exchequer (1) if he will make an assessment of the implications for the financial services of changes in the number of ATM providers which charge for cash withdrawals; [11404]

(2) what estimate he has made of *(a)* the number and *(b)* the percentage of ATMs which charged for cash withdrawals in (i) 1999, (ii) 2002 and (iii) 2004. [11405]

**Mr. Ivan Lewis:** In 1999 most banks and building societies had agreements with a subset of other banks and building societies from which their customers could obtain free ATM withdrawals. If customers used any other ATMs they would be charged by their bank or building society. There were no independently owned LINK ATMs as only banks and building societies were able to access the LINK network directly.

Since 1999, virtually all UK banks and building societies have made a commitment to offer their ATMs free of charge to customers of other UK banks and building societies. There are now over 30,000 free ATMs in the UK. In 2000 LINK was opened up to independent ATM operators. Some of the ATMs deployed by these operators charge for ATM withdrawals. The majority of these charging ATMs are in new locations where previously there was no cash machine. In October 2002 LINK figures show that there were 10,066 charging ATMs in the UK and in October 2004 there were 19,659. However, less than 4 per cent. of withdrawals are made at charging cash machines.

The Government have responded to the Treasury Committee's recent report on Cash Machine Charges (Treasury Committee's Fifth Report of Session 2004–05) and the Treasury Committee is expected to publish the response shortly, once it has been re-appointed following the General Election. The Government's response sets out policy on the issue in more detail.

### Bedfordshire (Statistics)

**Mrs. Dorries:** To ask the Chancellor of the Exchequer what the average earnings of a full-time employee in the constituency of Mid-Bedfordshire were in April in each year since 2000. [11014]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mrs. Nadine Dorries, dated 13 July 2005:*

As National Statistician I have been asked to reply to your recent Parliamentary Question what the average gross earnings of full time employees in the constituency of Mid-Bedfordshire were in April in each year since 2000. (11014)

Average earnings are estimated from the Annual Survey of Hours and Earnings and are provided for employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for Annual Survey of Hours and Earning tables. The Annual Survey of Hours and Earnings does not collect data on the self employed and people who do unpaid work.

I attach a table showing the mean and median gross weekly earnings for full time employees in Mid-Bedfordshire in each year since 2000. These results are also available on the National Statistics website on table 9:

http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=13101

The Annual Survey of Hours and Earnings, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It has a one per cent sample of all employees.

*Gross weekly earnings, means and medians, for full-time employees in Mid-Bedfordshire Parliamentary Constituency for 2000–04*

| | *Median (£)* | *CV*[1] | *Mean (£)* | *CV*[1] |
|---|---|---|---|---|
| 2000 | 394.1 | 7.1 | 483.3 | 6.6 |
| 2001 | 401.9 | 8.9 | 473.6 | 6.6 |
| 2002 | 423.4 | 7.8 | 492.9 | 6.9 |
| 2003 | 457.8 | 7.2 | 554.4 | 6.8 |
| 2004 excluding[2] | 498.4 | 8.9 | 585.8 | 7.1 |
| 2004 including[2] | 497.5 | 8.9 | 581.7 | 7.1 |

[1] Guide to quality: The Coefficient of Variation (CV) is given to indicate the quality of a figure, the smaller the CV value the better the quality. Figures that have a CV value greater than 20 per cent. are considered to be unreliable. The true value is likely to lie within +/- twice the CV, e.g. for an average of 200 with a CV of 5 per cent. we would expect the population average to be within the range 180 to 220.

[2] In 2004 a number of supplementary surveys were introduced to improve the coverage of ASHE. Data is presented for 2004 both including and excluding these supplementary surveys. The data excluding supplementary surveys enables a direct comparison to 2003.

*Notes:*

1. The Annual Survey of Hours and Earnings (ASHE) carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a 1 per cent. sample of all employees.
2. The ASHE replaces the New Earnings Survey (NES) from October 2004. The main difference between the ASHE and NES being that estimates are weighted to population totals from the Labour Force Survey.
3. Average gross weekly earnings for adult full-time employees whose pay for the survey period was not affected by absence.

*Source :*

Annual Survey of Hours and Earnings, ONS.

### Bulk Annuity Market

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will investigate the workings of the bulk annuity market. [11843]

**Mr. Ivan Lewis:** The Treasury continues to work closely with the Financial Services Authority, the Department for Work and Pensions and other stakeholders to maintain an up-to-date understanding of the market for private pension provision in the UK. This includes the market for individual and bulk annuities.

### Departmental Staff

**David T.C. Davies:** To ask the Chancellor of the Exchequer how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11524]

**John Healey:** The information requested is given in Table C of Civil Service Statistics 2004 which is available on the internet at http://www.civilservice.gov.uk/management_information/statistical_information/statistics/publications/xls/report_2004/table_c.xls.

This table shows the numbers of staff by Department and agency between 1998 and 2004, on a full-time equivalent basis. Copies of Civil Service Statistics are also available in the Library.

### Drug Imports

**Paul Flynn:** To ask the Chancellor of the Exchequer what changes have taken place in the level of imports into the UK of *(a)* heroin, *(b)* cocaine and *(c)* cannabis in each year since 1998. [10852]

**Dawn Primarolo:** The methodologies used to estimate the amounts of illegal drugs imported do not currently enable us to identify year on year changes.

The National Criminal Intelligence Service has previously published estimates of the amounts of heroin and cocaine smuggled into the UK annually. It is likely that imports of heroin and cocaine during the period you refer to fell within the range of these estimates: 25–35 tonnes of heroin and 35–45 tonnes of cocaine. No similar estimates have been produced for cannabis imports.

Reports on the prevalence of the use of illegal drugs during this period suggests that, since 1998, quantities of heroin imported have probably remained broadly stable and amounts of cocaine imported have increased.

In the case of cannabis, research into the UK cannabis market suggests that levels of imports have remained broadly stable or even declined as cultivation within the UK has increased.

**Paul Flynn:** To ask the Chancellor of the Exchequer what his estimate is of the percentage of imported illegal drugs that have been intercepted by Customs and Excise in each of the past 10 years. [10900]

**Dawn Primarolo:** The methodologies used to estimate the amounts of illegal drugs imported do not currently enable us to identify year on year changes.

The National Criminal Intelligence Service has previously published estimates of the amounts of heroin and cocaine smuggled into the UK annually. It is likely that imports of heroin and cocaine during the period

you refer to fell within the range of these estimates: 25–35 tonnes of heroin and 35–45 tonnes of cocaine. No similar estimates have been produced for cannabis imports.

Reports on the prevalence of the use of illegal drugs during this period suggests that, since 1998, quantities of heroin imported have probably remained broadly stable and amounts of cocaine imported have increased.

In the case of cannabis, research into the UK cannabis market suggests that levels of imports have remained broadly stable or even declined as cultivation within the UK has increased.

The following table gives details of HM Revenue and Customs seizures of drugs over the 10 years up to 2003–04, the last complete year for which figures are available.

*Kgs*

| *Financial year* | *Heroin* | *Cocaine* | *Other Class A* | *Ecstasy* | *Cannabis* |
|---|---|---|---|---|---|
| 2003–04 | 1,626 | 20,727 | 116 | 1,245 | 57,617 |
| 2002–03 | 2,070 | 8,767 | 44 | 668 | 59,034 |
| 2001–02 | 1,489 | 6,075 | 113 | 1,330 | 67,061 |
| 2000–01 | 2,043 | 7,420 | 305 | 1,060 | 41,776 |
| 1999–2000 | 2,707 | 2,525 | 1,900 | 800 | 77,853 |
| 1998–99 | 594 | 3,540 | 1,542 | [1]— | 62,028 |
| 1997–98 | 1,821 | 2,356 | 1,548 | [1]— | 80,380 |

| 1995–96 | 1,249 | 752 | 1,016 | [1]— | 49,811 |
| 1994–95 | 906 | 1,391 | 994 | [1]— | 63,677 |

[1] Not separately recorded

### Electoral Numbers

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will list the 50 parliamentary constituencies with the *(a)* highest and *(b)* lowest number of electors; and if he will make a statement. [10702]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply. I have placed a copy of his letter in the Library.

### English Wine

**Mr. Dismore:** To ask the Chancellor of the Exchequer if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9157]

**Mr. Ivan Lewis:** English wine was served at both the G7 Finance Ministers' Meeting in February and the pre-G8 Summit Finance Ministers' Meeting in June. We will endeavour to supply wine from all parts of the United Kingdom, and British produce more generally, at meetings during the presidency of the EU. We are also working with the Council Secretariat to try to provide British produce (as key ingredients) and drink for all ECOFIN Council meetings during the UK presidency in Brussels and Luxembourg.

For other dinners, receptions and parties, British wine and British products are used where possible and appropriate, in line with the EC's procurement rules and achieving value for money for the Department.

### Financial Advisers

**Mr. Fabian Hamilton:** To ask the Chancellor of the Exchequer what criteria are used by the Financial Services Authority to determine whether a financial adviser has mis-sold a financial product. [11457]

**Mr. Ivan Lewis:** Financial advisers that are authorised by the Financial Services Authority (FSA) are required to comply with the FSA's Conduct of Business Rules with regard to the promotion of financial products. The FSA does not arbitrate on individual complaints made against financial firms.

### Government Finance

**John Hemming:** To ask the Chancellor of the Exchequer (1) what the latest forecast is of Government deficit in financial year 2005–06; and what the forecast deficit for 2005–06 was on each date that a forecast has been made since January 2003; [11298]

(2) what the latest forecast is of Government income in financial year 2005–06; and what the forecast income for 2005–06 was on each date that a forecast has been made since January 2003; [11299]

(3) what the latest estimate is of Government expenditure in financial year 2005–06; and what the forecast expenditure for 2005–06 was on each date that a forecast has been made since January 2003. [11300]

**Mr. Ivan Lewis:** Latest forecasts for 2005–06 for the Government deficit, Government revenue and total managed expenditure can be found in Tables C4 and C11 in Budget 2005. Earlier forecasts for 2005–06 can be found in Chapter C of previous Budgets and Annex B of earlier pre-Budget reports.

### Historic Environment

**Mr. Hollobone:** To ask the Chancellor of the Exchequer (1) what the Government's policy is on sustaining the historic environment, with particular reference to policy on organisations which work to support the built heritage through *(a)* grant aid, *(b)* tax concessions and *(c)* conditional exemption and acceptance in lieu; [11209]

(2) what discussions he has had with the Secretary of State for Culture, Media and Sport on *(a)* the introduction of Historic Properties Maintenance Relief for listed Grade 1 and 2 star buildings open to the public and *(b)* extension to listed buildings of VAT relief for the costs of repairs. [11210]

**Dawn Primarolo** *[holding answer 12 July 2005]:* The Government take their responsibilities to the built heritage very seriously, and for many years successive governments have been making funds available, both directly and through the tax system, to assist with the care, repair and maintenance of historic buildings.

Treasury officials meet their Department for Culture, Media and Sport counterparts regularly to discuss a wide range of issues and the Government are aware of the concerns of the historic environment sector. All taxes are kept under constant review and any changes are considered by the Chancellor as part of the Budget process.

### International Finance Facility

**Tony Baldry:** To ask the Chancellor of the Exchequer if he will make a statement on the progress of the International Finance Facility following the recent meeting of G8. [11967]

**Mr. Ivan Lewis:** At the recent G8 Summit, Heads of State agreed to continue work on the implementation of the IFF and the pilot IFF for Immunisation (IFFIm).

The IFF has the support of almost 80 countries. The IFFIm will be launched imminently, disbursing $4 billion to save an additional 5 million children's lives in the years to 2015.

### KPMG

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer if he will make KPMG partners personally liable for the loss of VAT in the light of the decision by the London Tribunal Centre in the case of RAL (Channel Islands) Ltd., RAL Ltd., RAL Services Ltd.; RAL Machines Ltd.—And—The Commissioners of Customs and Excise. [9673]

**Dawn Primarolo:** The case of RAL (Channel Islands) Ltd. was referred to the European Court of Justice, which found in favour of HMRC on 12 May 2005. As a result there has been no loss of tax in this case. The Government are committed to protecting the tax system against tax avoidance, and continue to keep under review a range of options to prevent loss of tax.

### Mortgage Endowment Policies

**Mr. Fabian Hamilton:** To ask the Chancellor of the Exchequer for what reasons the Financial Services Authority is advising mortgage endowment policy holders to take legal action against their financial advisers for mis-selling policies. [11440]

**Mr. Ivan Lewis:** The FSA is not advising policyholders to take any particular course of action. The FSA has provided information on its website and through its consumer factsheets about the options available to consumers if they currently face a projected shortfall on their endowment mortgage or if they believe they have been mis-sold an endowment policy.

**Mr. Fabian Hamilton:** To ask the Chancellor of the Exchequer if he will set out the criteria against which the relevant regulatory authorities make judgments on allegations of the mis-selling of mortgage endowment policies. [11458]

**Mr. Ivan Lewis:** The Financial Ombudsman Service (FOS) is an independent body that adjudicates consumer complaints against FSA authorised firms. It does not have a fixed set of criteria to use when determining whether a financial advisor has mis-sold a product. Rather, the FOS considers what is fair and reasonable to all parties, having regard to the individual circumstances of the case, the law, and any regulatory rules or advice in place at the time.

The Financial Services Compensation Scheme (FSCS) is the statutory compensation fund of last resort, which can provide compensation to eligible claimants where the investment firm responsible for the liability is itself unable to do so (usually because it has ceased to exist or is insolvent). With mortgage endowment claims, as with other mis-selling claims, FSCS looks to see whether there has been a breach of obligations giving rise to a civil liability for actual financial loss.

**Mr. Fabian Hamilton:** To ask the Chancellor of the Exchequer what Government support is available to financial advisers threatened with legal action for the alleged mis-selling of mortgage endowment policies. [11459]

**Mr. Ivan Lewis:** The Government does not provide support to financial advisors threatened with legal action for the alleged mis-selling of mortgage endowment policies. However, the Financial Services Authority requires all authorised firms to hold sufficient Professional Indemnity Insurance.

### Pension Funds

**Gregory Barker:** To ask the Chancellor of the Exchequer what plans he has to review taxes on pension funds in the UK. [10872]

**Mr. Ivan Lewis:** Following consultation the Government have simplified the taxation of pensions with effect from 6 April 2006. The new pensions tax regime will replace the numerous existing complex regimes with a universal regime for tax privileged pension savings. This new regime will provide greater flexibility to some 15 million pension savers. The pensions industry has welcomed the new regime as a removal of unnecessary obstacles to planning and saving towards retirement for the vast majority of people.

The Government will keep this aspect of the tax system, as with all others, under review.

### Public Sector Employment

**Spelman:** To ask the Chancellor of the er how many and what proportion of all those oyment were employed by the public sector in ear since 1996, in *(a)* the UK, *(b)* England, Wales, *(d)* Scotland, *(e)* Northern Ireland and *(f)* each Government Office Region. [11418]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mrs. Caroline Spelman, dated 13 July 2005:*

As National Statistician I have been asked to reply to your recent Parliamentary Question about how many and what proportion of people in employment were employed by the public sector, in each year since 1996 in *(a)* the UK, *(b)* England, *(c)* Wales, *(d)* Scotland, *(e)* Northern Ireland and *(f)* each Government Office Region. (11418)

The attached table shows the estimates you have requested.

The most reliable source of public sector employment estimate—using the National Accounts definition of the public sector—is based on returns made to ONS by public sector organisations. The first two columns of the attached table show figures from this source for the number and proportion of people employed in the public sector in the UK respectively for the period 1996 to 2004. These estimates were published previously in a web-based report in March 2005 entitled Public Sector Employment.

A disaggregration of public sector employment by region is currently only available from the Labour Force Survey (LFS) households on the basis of respondents' own self-classification of whether they work in the public sector. However this produces an overestimate of the proportion of total employment which is in the public sector as seen by comparing the second and third columns. Nevertheless if this degree of overestimation is similar in each region the regional differences shown in the table are meaningful. The third to sixteenth columns of the table show the UK and regional figures for the proportion of public sector employment from 1996 to 2004 on this basis. ONS has work in hand to improve the public/private sector classification of employment in the LFS. Data from the LFS, as with any statistical sample survey, is subject to sampling variability.

*Number and proportion of people employed in the public sector, 1996–2004, not seasonally adjusted*

| | *Data from public sector organisations*[1] | | *Region/Country of residence (%)* | | | | | |
|---|---|---|---|---|---|---|---|---|
| | *UK Number (000)* | *UK (%)* | *UK* | *North-east* | *North-west* | *Yorkshire and Humberside* | *East Midlands* | *West Midland* |
| 1996 | 5,269 | 20.2 | 23.8 | 27.2 | 24.2 | 23.9 | 22.0 | 21.4 |
| 1997 | 5,175 | 19.5 | 22.7 | 26.3 | 23.9 | 23.1 | 21.1 | 20.5 |
| 1998 | 5,163 | 19.3 | 22.4 | 26.5 | 23.1 | 23.3 | 20.6 | 19.7 |
| 1999 | 5,206 | 19.2 | 22.6 | 26.5 | 22.4 | 22.9 | 20.1 | 20.9 |
| 2000 | 5,288 | 19.2 | 22.7 | 24.6 | 24.6 | 24.4 | 19.9 | 21.3 |
| 2001 | 5,378 | 19.4 | 22.9 | 27.0 | 25.1 | 23.3 | 19.3 | 21.1 |
| 2002 | 5,484 | 19.7 | 23.2 | 27.8 | 24.8 | 23.5 | 20.7 | 22.1 |
| 2003 | 5,634 | 20.0 | 23.4 | 28.0 | 25.4 | 24.8 | 20.9 | 22.0 |
| 2004 | 5,746 | 20.3 | 24.3 | 28.3 | 25.3 | 26.8 | 23.5 | 22.7 |

| | *Region/Country of residence (%)* | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | *Eastern England* | *London* | *South East* | *South West* | *England* | *Wales* | *Scotland* | *Northern Ireland* |
| 1996 | 21.7 | 25.3 | 20.7 | 22.7 | 22.9 | 27.2 | 28.4 | 30.1 |
| 1997 | 19.6 | 23.3 | 19.6 | 21.9 | 21.8 | 26.2 | 27.7 | 30.5 |
| 1998 | 19.5 | 22.5 | 19.9 | 22.1 | 21.5 | 26.6 | 27.2 | 30.0 |
| 1999 | 20.5 | 22.9 | 20.0 | 21.3 | 21.6 | 27.6 | 27.1 | 29.7 |
| 2000 | 20.7 | 21.1 | 19.9 | 22.0 | 21.8 | 29.0 | 26.8 | 29.5 |
| 2001 | 21.0 | 22.5 | 19.9 | 21.9 | 22.0 | 27.9 | 27.0 | 28.8 |
| 2002 | 20.2 | 22.7 | 20.2 | 22.5 | 22.3 | 29.0 | 27.2 | 30.3 |
| 2003 | 20.6 | 21.6 | 20.3 | 23.2 | 22.5 | 28.6 | 27.4 | 29.9 |
| 2004 | 22.4 | 22.4 | 21.6 | 22.9 | 23.5 | 27.3 | 27.9 | 31.0 |

[1] Data from Public Sector Organisations for 1996 to 2003 refer to June (Q2) each year and for 2004 they refer to March (Q1).

*Notes:*

1. Data from the Labour Force Survey for 1996 to 2003 refer to June to August (summer) each year and for 2004 they refer to March to May (spring).
2. LFS public private split is self-allocated by respondents and hence LFS figures are not on the official, National Accounts based definition of public sector.

*Sources:*

Estimates from public sector organisations and quarterly Labour Force Survey, Office for National Statistics.

## Tax Credits

**Danny Alexander:** To ask the Chancellor of the Exchequer how many full-time equivalent staff are employed by the tax credit helpline. [10266]

**Dawn Primarolo:** I refer the hon. Gentleman to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 6 July 2005, *Official Report*, column 436W.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how many letters have been received by HM Revenue and Customs in relation to *(a)* overpayments and *(b)* underpayment of tax credits in the last two years; and how many of these letters have not been answered. [11454]

**Dawn Primarolo:** Figures on the number of requests to reconsider the recovery of an overpayment are not available for 2003–04. For the number of requests received in 2004–05 I refer the hon. Gentleman to the reply I gave to the hon. Member for Lanark and Hamilton, East (Mr. Hood) on 4 July 2005, *Official Report*, column 107W. For the number of cases still awaiting a decision at 31 May 2005 I refer the hon. Gentleman to the reply I gave to the hon. Member for Chorley (Mr. Hoyle) on 4 July 2005, *Official Report*, column 95W.

The Department does not hold figures relating to letters received in respect of underpayments of tax credits.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) what guidance has been given to tax credit helpline staff on advising tax credit claimants to take out bank loans to cover the repayment costs of tax credit overpayments; [11456]

(2) how many tax credit claimants he estimates have been advised by Revenue and Customs to take out bank loans to cover the repayment costs of tax credit overpayments. [11564]

**Dawn Primarolo:** HMRC Contact Centre guidance does not say that claimants should be advised to take out a loan to cover their tax credit repayments.

HMRC has issued a reminder to relevant staff to ensure that they are all aware of the correct position.

### Valuation Office Agency

**Mrs. Spelman:** To ask the Chancellor of the Exchequer how many full-time equivalent staff are employed in each office of the Valuation Office Agency. [11538]

**Dawn Primarolo:** The following table shows the number of staff in each location of each Valuation Office Group. These figures exclude staff employed in the District Valuer Business Stream, Chief Executive's Office and other specialist offices.

This report was run as at 1 April 2005.

| *Group VOA* | *Office* | *Total* |
|---|---|---|
| Birmingham | Birmingham | 103.22 |
| | Coventry | 52.76 |
| Birmingham total | | 155.98 |
| East Anglia | Colchester | 53.24 |
| | Chelmsford | 53.84 |
| | Ipswich | 42.31 |
| | Norwich | 52.47 |

| | St. Albans | 51.79 |
| St. Albans total | | 147.91 |
| Wessex | Basingstoke | 35.97 |
| | Isle of Wight | 2.81 |
| | Southampton | 77.35 |
| Wessex total | | 116.14 |
| Western | Bristol | 55.07 |
| | Gloucester | 36.08 |
| | Swindon | 36.51 |
| Western total | | 127.66 |
| West Midlands | Kidderminster | 26.93 |
| | Shrewsbury | 29.80 |
| | Stoke-on-Trent | 60.30 |
| | Worcester | 35.05 |
| | Wolverhampton | 45.80 |
| West Midlands total | | 197.87 |
| Grand total | | 3,563.93 |

**Mrs. Spelman:** To ask the Chancellor of the Exchequer pursuant to the answer of 15 June 2005, *Official Report*, column 386W, on council tax, what criteria the Valuations Office Agency will use to assess whether to enter a property for inspection. [11572]

**Dawn Primarolo:** Valuation Office Agency staff will make arrangements to undertake internal inspections of properties only where information cannot be gathered by an external inspection or through other sources.

### Wage Statistics

**Mr. Hands:** To ask the Chancellor of the Exchequer what the average gross weekly wage of full-time workers in *(a)* Hammersmith and Fulham, *(b)* Greater London and *(c)* the United Kingdom was in the most recent year for which figures are available. [10901]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Greg Hands, dated 13 July 2005:*

As National Statistician I have been asked to reply to your recent Parliamentary Question what the average gross earnings of full time workers in *(a)* Hammersmith and Fulham *(b)* Greater London and *(c)* the United Kingdom were in the most recent year for which figures are available. (10901)

Average earnings are estimated from the Annual Survey of Hours and Earnings and are provided for employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for Annual Survey of Hours and Earning tables. The Annual Survey of Hours and Earnings does not collect data on the self employed and people who do unpaid work.

I attach a table showing the average gross weekly earnings for full time employees in Hammersmith and Fulham, Greater London and the United Kingdom in 2004. These statistics are also available on the National Statistics website on table 7:

http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=13101

The Annual Survey of Hours and Earnings, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It has a one per cent sample of all employees.

*Means and medians for full-time employees in the United Kingdom, London (Government Office Region) and Hammersmith and Fulham, 2004*

| | *Median* | *CV percentage*[1] | *Mean* | *CV percentage*[1] |
|---|---|---|---|---|
| United Kingdom | 422.1 | 0.2 | 504.9 | 0.3 |
| London | 540.8 | 0.6 | 680.1 | 0.8 |
| Hammersmith and Fulham | 548.3 | 4.4 | 650.7 | 3.2 |

[1] Guide to quality: The Coefficient of Variation (CV) is given to indicate the quality of a figure, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV, e.g. for an average of 200 with a CV of 5 per cent., we would expect the population average to be within the range 180 to 220.

*Notes:*

1. The Annual Survey of Hours and Earnings, (ASHE), carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a 1 per cent. sample of all employees.
2. The ASHE replaces the New Earnings Survey (NES) from October 2004. The main difference between the ASHE and NES being that estimates are weighted to population totals from the Labour Force Survey.
3. Average gross weekly earnings for adult full-time employees whose pay for the survey period was not affected by absence.

*Source:*

Annual Survey of Hours and Earnings, ONS

## NORTHERN IRELAND

### Organised Crime

9. **Michael Gove:** To ask the Secretary of State for Northern Ireland what discussions he has had with the *(a)* Police Service of Northern Ireland and *(b)* Irish Government on combating organised crime. [10661]

**Mr. Woodward:** Regular discussions on organised crime are held at ministerial and senior official level with the Chief Constable and senior officers of the Police Service of Northern Ireland.

### Devolved Government

12. **Anne Snelgrove:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the prospects for restoring devolved Government in Northern Ireland. [10664]

**Mr. Mackay:** To ask the Secretary of State for Northern Ireland if he will make a statement on the future of devolved Government in the Province. [10662]

**Mr. Hain:** I refer the hon. Members to the answer I gave earlier to the hon. Members for Wirral, South (Ben Chapman), for Congleton (Ann Winterton) and for Glasgow, South (Mr. Harris).

**Mr. Malik:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the prospects for restoring devolved Government in Northern Ireland. [10659]

**Mr. Hain:** The Government are committed to the restoration of a fully inclusive, devolved, power-sharing Executive in Northern Ireland at the earliest possible opportunity, which is, in turn, dependent on a complete and verifiable end to all paramilitary and criminal activity, and the decommissioning of illegally held weapons.

### Crime

13. **Mr. Bailey:** To ask the Secretary of State for Northern Ireland what steps he is taking to reduce crime and the fear of crime in Northern Ireland. [10665]

14. **Gordon Banks:** To ask the Secretary of State for Northern Ireland what steps he is taking to reduce crime and the fear of crime in Northern Ireland. [10666]

**Mr. Hanson:** Reducing crime and the fear of crime in Northern Ireland is a key Government priority. Through partnership working involving the Police Service of Northern Ireland, other agencies and local communities, recorded crime decreased last year by 7.7 per cent.

The Government have a co-ordinated approach to reducing crime, the fear of crime and antisocial behaviour. In June I was pleased to announce an additional £9 million to support the Community Safety Partnership.

### Paramilitaries

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland what recent discussions he has had with paramilitary organisations in Northern Ireland regarding ceasefires, weaponry and structures. [10663]

**Mr. Hanson:** The Government are determined that paramilitary crime will come to an end. Together with the law enforcement agencies, we will ensure that measures are taken aimed at bringing that about.

But we must also continue to provide a way out of paramilitarism into normal politics for those who wish to take it.

### Taxis

**David T.C. Davies:** To ask the Secretary of State for Northern Ireland how much the Department has spent on taxis in each of the last five years. [6499]

**Angela E. Smith:** The 11 Northern Ireland Departments and the Northern Ireland Office have been unable to provide the information requested, as it is not readily available and could be obtained only at disproportionate cost.

### Teachers

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what plans he has to introduce fair employment monitoring of teachers in Northern Ireland. [11370]

**Angela E. Smith:** There is no requirement in the Fair Employment and Treatment (Northern Ireland) Order 1998 to monitor teachers.

Under Article 71 of the legislation the Equality Commission for Northern Ireland has a duty to keep under review the exemption of teachers and, in December 2004, it published the results of an Investigation Report. In it the commission recommended that teachers should be included in the monitoring and review requirements of the Order.

The commission's recommendations will be considered in the context of developing policy in the single Equality Bill for Northern Ireland.

## PRIME MINISTER

### Antisocial Behaviour Committee

**Mr. Allen:** To ask the Prime Minister if he will make it his policy to disclose to hon. Members a summary of proceedings of the Ministerial Committee on Antisocial Behaviour of the Cabinet. [9218]

**The Prime Minister:** The proceedings of Cabinet and Cabinet Committee meetings are not generally disclosed, in order to ensure the protection of information whose disclosure would harm the frankness and candour of internal discussion.

### Business Appointments

**Mr. Hancock:** To ask the Prime Minister whether any *(a)* Minister and *(b)* civil servant has failed to follow the advice of the Advisory Committee on Business Appointments. [11862]

**The Prime Minister:** Information relating to Ministers and civil servants whose applications are required to be submitted to the Advisory Committee on Business Appointments is set out in the Advisory Committee's annual report. Copies of these reports are in the Libraries of the House. The annual report for 2004–05 will be published shortly.

### Ministerial Residences

**Chris Huhne:** To ask the Prime Minister which Ministers of the Crown have *(a)* one, *(b)* two and *(c)* three or more residences consequent on his or her office. [11037]

**The Prime Minister:** The flats above numbers 10 and 11 Downing Street have traditionally been the residences of the Prime Minister and the Chancellor of the Exchequer. The flats in Admiralty House and the Government House in Pimlico, which in the past have been assigned to a variety of Ministers, are currently occupied by the Deputy Prime Minister, the Secretary of State for Environment, Food and Rural Affairs, the Leader of the House of Commons and the Secretary of State for Work and Pensions.

In addition, I have the use of Chequers, the Foreign Secretary has the use of Chevening and the Chancellor of the Exchequer and the Deputy Prime Minister have the use of Dorneywood. Ministers in the Northern Ireland Office have the use of accommodation in Hillsborough Castle and Stormont.

### Swill Feed

**Mr. Boris Johnson:** To ask the Prime Minister if he will list the items of correspondence between the Prime Minister's Unit and the Department for Environment, Food and Rural Affairs during March 2001 relating to the ban in 2001 on the feeding of swill. [10706]

**The Prime Minister:** Information relating to internal discussion and advice is generally not disclosed as to do so could harm the frankness and candour of internal discussion.

## DEFENCE

### Aircraft Carriers

**John Robertson:** To ask the Secretary of State for Defence what discussions he has had with the French Government in connection with the Royal Navy's two aircraft carriers. [8628]

**Mr. Ingram:** My right hon. Friend the Secretary of State for Defence and the other Defence Ministers routinely meet with their French opposite numbers and the United Kingdom's Future Aircraft Carrier programme has frequently been discussed in that context.

**John Robertson:** To ask the Secretary of State for Defence (1) where the Royal Navy's two aircraft carriers will be built; [8629]

(2) if he will ensure that the Royal Navy's two aircraft carriers are built in the UK. [8626]

**Mr. Ingram:** It is Government policy to construct Royal Navy warships in the UK. Given that both we and France are embarking on major, complex carrier procurement projects, we are examining areas of mutual benefit and opportunities to deliver economies. Co-operation through industry-to-industry links may offer

potential benefits to both sides and we are running a joint study to assess what these could be. It is for industry to put forward proposals which will be judged on their merits and in light of national policies.

### BAE Systems

**Mr. Hoyle:** To ask the Secretary of State for Defence what the timescale is of each current contract with BAE Systems. [7617]

**Mr. Ingram:** The Ministry of Defence has some 1,100 contracts with BAE Systems. This figure excludes BAE subsidiary companies. It would incur disproportionate cost to provide details of the timescale of each contract.

### Consultants

**Mrs. Dean:** To ask the Secretary of State for Defence what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7029]

**Mr. Touhig:** I refer the hon. Member to the answer given by my hon. Friend the Financial Secretary to the Treasury (John Healey) on 27 June 2005, *Official Report*, column 1286.

### Defence Export Services

**Harry Cohen:** To ask the Secretary of State for Defence if he will list the *(a)* Defence Industry Days and *(b)* overseas exhibitions at which the Defence Export Services Organisation (i) has organised and (ii) is organising a presence during 2005; and what the cost is in each case. [9334]

**Mr. Ingram:** Defence Industry Days do not give rise to significant costs to the Ministry of Defence because the costs, other than those incurred by Defence Export Services Organisation staff in attending, are borne by defence companies. Three such events have been held in 2005; in Spain on-board HMS Albion; in South Africa on-board HMS Portland; and in Trinidad and Tobago on-board HMS Liverpool.

The information requested in respect of overseas exhibitions is shown in the following table. The costs given are indicative, and based on readily identifiable information only.

*Overseas exhibitions*

| *Country* | *Exhibition* |
|---|---|
| Australia[1] | Avalon |
| France[1] | Paris Air Show |
| Singapore[1] | Imdex |
| Singapore[1] | GSA |
| Turkey[1] | IDEF[2] |
| UAE[1] | Dubai Air Show[2] |
| Brazil[3] | LAAD |
| India[3] | Aero India |
| UAE[4] | IDEX |

[1] Below £50,000.
[2] Estimated costs (exhibitions are yet to be attended).
[3] £50,000 to £100,000.
[4] £100,000 to £150,000.

Consideration is still being given to possible further events which may be held later in the year.

**Malcolm Bruce:** To ask the Secretary of State for Defence what commercial services the Defence Export Services Organisation provides to companies in relation to identifying potential agents in export markets.[10677]

**Mr. Ingram:** I refer the hon. Member to the answer I gave on 5 July 2005, *Official Report*, column 259W. Any information provided to UK companies by the Defence Export Services Organisation is concerned only with the selection of suitable agents. It is not our policy not to advise on agents' commission.

### Departmental Review (Fraud)

**Malcolm Bruce:** To ask the Secretary of State for Defence what the outcome was of the internal Departmental Review following the allegation passed to his Department by the Serious Fraud Office in March 2001. [6424]

**Mr. Ingram:** The allegations of fraud relayed by the Serious Fraud Office in March 2001 were established to be of no direct relevance to the Ministry of Defence.

### Deployment

**Lynne Featherstone:** To ask the Secretary of State for Defence how many UK forces personnel there are on operational duty, broken down by country; and if he will make a statement. [8691]

**Mr. Ingram:** I refer the hon. Member to my response on 27 June 2005, *Official Report*, columns 1210–11. In addition, the United Kingdom has the following forces deployed on other UN missions:

| *Country* | *Number* |
|---|---|
| Liberia | 3 |
| DRC | 6 |
| Georgia | 7 |
| Sudan | 3 |

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Defence if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9152]

**Mr. Touhig:** All procurement of food and drink for events hosted by the Secretary of State for Defence is undertaken in line with the European Community's procurement rules, and aims to obtain value for money for the Department. British produce is given equal consideration wherever possible, however this may be dependent on contractual obligations to existing suppliers at some venues.

With regard to formal meetings of the Council of the European Union in Brussels, we are working with the council secretariat to try to provide British produce (as key ingredients) and drink for all EU council meetings during the UK presidency.

### Falkland Islands

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will make a statement on the future requirements for UK forces in the Falklands. [5010]

**Mr. Ingram:** The United Kingdom forces based in the Falkland Islands demonstrate the Government's continued commitment to the security of UK Overseas Territories in the South Atlantic. The level of forces is reviewed regularly and will continue to be maintained at a sufficient level to provide a credible deterrent.

### Frigates

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will list the length of service of each Royal Navy frigate *(a)* withdrawn from service in each year since 1997 and *(b)* scheduled for withdrawal from service from 2005 onwards. [10295]

**Mr. Ingram** *[holding answer 7 July 2005]:* The length of service for each Royal Navy frigate decommissioned since 1997 was as follows:

| | *Years* |
|---|---|
| HMS Battleaxe | 17 |
| HMS Boxer | 18 |
| HMS Beaver | 16 |
| HMS Brave | 17 |
| HMS London | 14 |
| HMS Coventry | 15 |
| HMS Sheffield | 14 |
| HMS Norfolk | 15 |
| HMS Marlborough | 14 |

When HMS Grafton is withdrawn from service in 2006 she will have been in service for nine years. On present plans, the expected life of the other Royal Navy frigates currently in service will be around 28 years.

### Future Combat Vehicle Conference

**Ann Winterton:** To ask the Secretary of State for Defence what the outcome was of the 5th Annual Future Combat Vehicle Conference held in London on 8–9 June; and if he will make a statement. [6846]

**Mr. Ingram:** From the Department's perspective, the Royal United Services Institute 5th Annual Future Combat Vehicle Conference was extremely successful since it enabled us to engage with a wide audience of allies and industry, including the major defence contractors and many small and medium enterprises. Through presentations by the Chief of the General Staff, Capability Manager (Battlespace Manoeuvre) and the Director of Equipment Capability (Ground Manoeuvre), we were able to set out our thinking on future armoured vehicle requirements, particularly in the context of Medium Weight Capability, and explain the position, challenges and future plans for our current programmes.

### Future Rapid Effects System

**Ann Winterton:** To ask the Secretary of State for Defence what financial allocation has been made for the Future Rapid Effects System project for each of the next nine years. [10441]

**Mr. Ingram:** I refer the hon. Member to the answer I gave on 21 March 2005, *Official Report*, column 571W.

### HMS Invincible

**Mr. Hancock:** To ask the Secretary of State for Defence what the planned decommissioning date for HMS Invincible is; and when this decision was taken. [10318]

**Mr. Ingram:** HMS Invincible will be decommissioned in August 2005. She will then be placed at very low readiness from October 2005 prior to her withdrawal from service in 2010. The decision was taken in 2003.

### International Fleet Review

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will list the maritime countries which *(a)* declined and *(b)* were not offered an invitation to participate in the International Fleet Review. [10819]

**Mr. Ingram:** Navies from the following countries were invited to participate in the International Fleet Review:

Algeria
Argentina
Australia
Bahamas[1]
Bahrain
Bangladesh[1]
Barbados[1]
Belgium
Brazil
Brunei
Bulgaria
Canada
Chile
China[1]
Colombia[1]
Croatia
Denmark
Dominican Republic[1]
Ecuador
Egypt[1]
Estonia
Finland
France
Germany
Ghana
Greece
Iceland[1]
India
Indonesia
Iraq
Ireland
Israel
Italy
Jamaica[1]
Japan
Jordan
Kenya
Kuwait[1]
Latvia

Libya[1]
Lithuania
Malaysia
Malta[1]
Mexico
Morocco
Netherlands
New Zealand
Nigeria
Norway
Oman
Pakistan
Panama
Peru[1]
Philippines[1]
Poland
Portugal
Qatar
Romania
Russia
Saudi Arabia
Serbia and Montenegro
Singapore
Slovenia[1]
South Africa
South Korea
Spain
Sri Lanka
Sweden
Syria[1]
Thailand
Trinidad and Tobago[1]
Tunisia[1]
Turkey[1]
Ukraine[1]
United Arab Emirates
United States of America
Uruguay
Venezuela[1]
Vietnam[1]

[1] Did not attend.

No other maritime countries in addition to those listed were invited.

### Lisanelly Barracks

**Lady Hermon:** To ask the Secretary of State for Defence what plans his Department has for the future of Lisanelly Barracks in Omagh; and if he will make a statement. [11345]

**Mr. Ingram:** Following the decision by the General Officer Commanding Northern Ireland, in consultation with the Chief Constable of the PSNI, that the 1st Battalion King's Own Scottish Borderers will not be replaced when they complete their tour in August 2006, a study is under way to look at the wider implications of this change, including the implications for our estate.

The conclusion of this work will be announced in due course, but no decision has yet been taken on the future of Lisanelly Barracks.

### Royal Navy

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will list the *(a)* Royal Navy and *(b)* Royal Fleet Auxiliary vessels which have been given the reduced support status referred to in paragraph 2.9 of the National Audit Office report on military readiness. [9695]

**Mr. Ingram** *[holding answer 7 July 2005]:* The process of designating ships to receive the reduced level of support referred to by the National Audit Office enables the Royal Navy to maintain its ability to mount a medium scale operation at short notice and maximise its ability to undertake priority peacetime tasks. The Royal Navy ships placed on reduced support status are as follows:

HMS Invincible
HMS Ark Royal
HMS Albion
HMS Cardiff
HMS Exeter
HMS Liverpool
HMS Cumberland
HMS Grafton
HMS Marlborough
HMS Monmouth
HMS Richmond
HMS St. Albans
HMS Sutherland
HMS Atherstone
HMS Brecon
HMS Cottesmore
HMS Dulverton
HMS Middleton
HMS Pembroke
HMS Penzance
HMS Ramsey
HMS Shoreham
HMS Walney
HMS Leeds Castle.

No RFA ships are on reduced support status.

### Medal Office

**Peter Luff:** To ask the Secretary of State for Defence how many staff employed at the former Army Medal Office in Droitwich Spa transferred to the new Medal Office at RAF Innsworth. [11480]

**Mr. Touhig** *[holding answer 11 July 2005]:* 21 staff employed at the former Army Medal Office in Droitwich Spa transferred to the new Medal Office at RAF Innsworth.

### Military Vehicles

**Ann Winterton:** To ask the Secretary of State for Defence how many *(a)* FV430 series, *(b)* Scimitar, *(c)* Sultan, *(d)* Samson, *(e)* Samaritan, *(f)* Spartan, *(g)* Striker, *(h)* Sabre, *(i)* Scorpion and *(j)* Saxon vehicles are in working order. [10439]

**Mr. Ingram:** I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

### Minehunters

**Mr. Hancock:** To ask the Secretary of State for Defence which minehunters are to be fitted with the very shallow water unmanned underwater vehicle system (REMUS); what the in-service date is; whether all minehunters will be fitted with this system; and if he will make a statement. [2973]

**Mr. Ingram:** The very shallow water unmanned vehicle system (REMUS) is a man portable system. It is not intended to be fitted to any minehunters, although it will be possible to deploy it from these, and other, vessels. The system is expected to be in service in 2006.

### Nuclear Deterrent

**Dr. Julian Lewis:** To ask the Secretary of State for Defence pursuant to his oral answer of 4 July 2005, *Official Report*, column 6, to the hon. Member for Sunderland South (Mr. Mullin) on the nuclear deterrent, when he expects to reply substantively to the question tabled by the hon. Member for New Forest East on 21 June, ref 7290. [10820]

**John Reid:** I replied to the hon. Member on 5 July 2005, *Official Report*, column 260W.

### Ordnance

**Mr. Hoyle:** To ask the Secretary of State for Defence what quantity of ordnance stored by *(a)* his Department and *(b)* its suppliers is; and at what sites it is stored. [9579]

**Mr. Ingram:** The majority of ordnance stored by the Ministry of Defence equates to 183,611m$^3$ held by the Defence Storage and Distribution Agency (DSDA) at the following locations: Defence Munitions Centres Beith, Crombie, Kineton, Glen Douglas, Gosport, Longtown and Eastriggs and Plymouth.

Munitions are also held at Defence Munitions Compounds Catterick, Chelsfield, Honington, Sennybridge and Tidworth.

Ordnance is also held on Royal Navy vessels, Royal Fleet Auxiliary supply vessels, with Field Army units, airfields and individual barracks. The information on these quantities is not held centrally and could be provided only at disproportionate cost.

The MOD is not party to information on quantities held and at what locations by suppliers.

### Parliamentary Questions

**Angus Robertson:** To ask the Secretary of State for Defence (1) what the *(a)* average and *(b)* maximum time was in which Ministers in his Department wrote to hon. Members following a commitment to do so in reply to parliamentary questions in the last Session; and if he will make a statement; [6239]

(2) on how many occasions in each of the last eight years Ministers in his Department have not written to hon. Members in reply to parliamentary questions following an undertaking to do so; and if he will make a statement. [6313]

**Mr. Touhig:** The information requested is not readily available and could be collated only at disproportionate cost.

The Ministry of Defence is currently in the process of building a new parliamentary business database which will store much more comprehensive information on parliamentary questions and ministerial correspondence received by the Department. It is hoped that this will be in operation by the end of the summer recess.

**Angus Robertson:** To ask the Secretary of State for Defence (1) what procedures his Department has in place to *(a)* monitor and *(b)* ensure the fulfilment of commitments made by Ministers to write to hon. Members in reply to parliamentary questions; and if he will make a statement; [6312]

(2) whether his Department has a set time period after which it considers commitments made by Ministers to write to hon. Members in reply to parliamentary questions to have lapsed; and if he will make a statement; [6311]

(3) what guidelines his Department has in place with regard to following up commitments made by Ministers to write to hon. Members in reply to parliamentary questions; and if he will make a statement. [6238]

**Mr. Touhig:** Defence Ministers strive to answer all parliamentary questions within the timescales set by Parliament. The Ministry of Defence's parliamentary branch monitors the progress of all parliamentary questions tabled to Defence Ministers. Every effort is made to use "I will write" responses sparingly and to follow them up as soon as possible.

The Ministry of Defence follows the Cabinet Office guidance on answering parliamentary questions and guidance from the Office of the Leader of the House of Commons on the handling of "I will write" responses. Where, regrettably, responses remained outstanding when the House was dissolved for the General Election at the end of the last Parliament, the parliamentary question was considered to have lapsed. It is open to the Member concerned to re-table the question.

### Prisoners of War

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Hendon (Mr. Dismore) of 27 June 2005, *Official Report*, column 1209W, on Prisoners of War (Compensation), what account Ministers took of the document in formulating their advice to hon. Members. [10201]

**Mr. Touhig:** As I made clear in that answer, the document was not written in connection with the formulation of policy on the Ex Gratia Scheme and thus was not relevant to the formulation of advice given to hon. Members.

## RAF Aircraft

**Mr. Hoyle:** To ask the Secretary of State for Defence how many aircraft are in flight with the Royal Air Force, broken down by type. [9578]

**Mr. Ingram:** The following tables shows the numbers of aircraft planned to be in service with the RAF by the end of the present financial year, broken down by type.

*Fixed wing aircraft*

| *Aircraft type* | *Total fleet* |
|---|---|
| Tornado F3 | 97 |
| Tornado GR | 139 |
| Harrier GR | 84 |
| Harrier FA2 | 12 |
| Jaguar | 45 |
| Typhoon | 29 |
| Hawk (includes the Red Arrows) | 117 |
| Hercules C-13OJ | 25 |
| Hercules C-130K | 25 |
| C-17A Globemaster | 4 |
| VC10 | 16 |
| TriStar | 9 |
| BAel25 | 6 |
| BAel46 | 2 |
| Islander CC2 | 2 |
| Canberra PR9 | 4 |
| Canberra T4 | 1 |
| Nimrod MR2 | 21 |
| Nimrod RI | 3 |
| Sentry E3-D | 7 |
| Dominie | 11 |
| Tucano MK1 | 114 |

*Rotary wing aircraft*

| *Aircraft type* | *Total fleet* |
|---|---|
| Sea King HAR3 | 19 |
| Sea King HAR 3A | 6 |

*Battle of Britain memorial flight*

| *Aircraft type* | *Total fleet* |
|---|---|
| Spitfire | 5 |
| Hurricane | 2 |
| Chipmunk | 2 |
| Dakota | 1 |
| Lancaster | 1 |

*Commercially owned military registered aircraft*

| *Aircraft type* | *Total fleet* |
|---|---|
| Firefly | 24 |
| Griffin | 11 |
| King Air | 7 |
| Single Squirrel | 37 |
| Twin Squirrel | 3 |
| Tutor | 94 |

## Regimental Mergers/Uniforms

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will reconsider the new name for the planned merger of the Queen's Lancashire Regiment, King's Own Borders Regiment and King's Regiment. [11172]

**Mr. Ingram:** The title of the King's, Lancashire and Border Regiment has been chosen by the Regimental Councils of the three antecedent regiments themselves and fully meets the requirements of precedent and history. It is unlikely that this will change, although it is subject to confirmation, along with the new titles of the other new regiments, by the Army Honours and Distinctions Committee, who will in turn refer it to the Executive Committee of the Army Board and thence through Ministers to HM the Queen for her final approval.

**Ann Winterton:** To ask the Secretary of State for Defence pursuant to the answer of 29 June 2005, *Official Report*, columns 1568–69W, on regimental uniforms, (1) what the annual tax credit is; whether it varies with rank; and what the average cost of commissioning *(a)* Service uniform, *(b)* Blues and *(c)* Mess dress were, excluding the Foot Guards and Highland Regiments, in the last year for which figures were available; [10442]

(2) when he expects the next increase in Army officers' outfit allowance to be made. [10443]

**Mr. Touhig:** The Ministry of Defence does not calculate the average cost of uniform because this is a private transaction between an officer and their tailor. Nevertheless, the officers outfit allowance is awarded on first commissioning to offset this expenditure.

There are no current plans to increase the officers outfit allowance, although consideration will be given to adjusting the allowance in the light of changes to the organisation of the infantry as part of the Future Infantry Structure.

An annual tax credit is awarded to all officers to assist with the cost of maintaining, repairing and, when necessary, replacing uniform. The annual rate for all dismounted male officers below the rank of Colonel—and therefore all officers serving with an infantry regiment—is £589.29, against which an officer receives income tax relief.

## Sensitive Documents

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what his policy is on the use of private companies to destroy sensitive departmental documents. [10294]

**Mr. Ingram** *[holding answer 7 July 2005]:* The Ministry of Defence has a policy on the minimum standards to be applied for the destruction of protectively-marked material which comply with the standards laid down for Government by the Cabinet Office. A number of private companies have been certified as meeting those standards and are listed in a government-wide catalogue of security equipment and services. Subordinate commanders are permitted to decide whether to destroy protectively-marked documents using their own resources, or utilise those of an approved private company listed in the Government-wide catalogue.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence (1) what assessment he has made of the potential risk to national security posed by the failure to destroy Naval Support Command documents recently discovered abandoned in an Essex garage; [10297]

(2) if he will make a statement on past arrangements for secure disposal of sensitive documents from Naval Support Command by IMTEC Data Services. [10296]

**Mr. Ingram** *[holding answer 7 July 2005]:* The company involved were IMTEC Holding plc. Under the contract with the company documents were to be scanned onto CD ROM and subsequently disposed of by shredding once this scanning was complete. This was the first time that the team concerned had used the company.

The material was reviewed by the MOD prior to despatch to the company to remove any sensitive data. It is considered that the risk to national security to be very low as a consequence of the failure to destroy the documents as required.

### Ship Disposal

**Mr. Hancock:** To ask the Secretary of State for Defence if he will make a statement on progress on disposal of *(a)* HMS Grafton, *(b)* HMS Marlborough and *(c)* HMS Norfolk; and whether it is intended to sell each of the ships complete with their weapons systems. [10796]

**Mr. Ingram:** Following discussions with a number of countries, the Ministry of Defence has agreed to sell these three Type 23 Frigates to the Government of Chile. A Letter of Intent is in place, supported by a deposit. Final negotiations are now being undertaken. The precise equipment fit of the ships at the point of transfer to Chile has yet to be finalised.

### Surveys

**Mr. Moore:** To ask the Secretary of State for Defence if he will place in the Library copies of the exit surveys for the *(a)* Naval Service and *(b)* Royal Air Force since 1997. [8619]

**Mr. Touhig:** The exit surveys in question are currently being studied to ensure that they do not contain information on individuals that it would be inappropriate to disclose. When this process is completed I will inform the hon. Member.

### Trafalgar Review

**Derek Wyatt:** To ask the Secretary of State for Defence how many *(a)* hon. Members and *(b)* Members of the European Parliament were invited to Her Majesty the Queen's Trafalgar review. [9091]

**Mr. Ingram** *[holding answer 4 July 2005]:* 50 hon. Members (including Ministers) and three Members of the European Parliament were invited to attend Her Majesty the Queen's Trafalgar review on 28 June 2005.

**Derek Wyatt:** To ask the Secretary of State for Defence how many unelected guests were invited to Her Majesty the Queen's Trafalgar review; and at what cost to the public purse. [9092]

**Mr. Ingram** *[holding answer 4 July 2005]:* The number of unelected guests invited to the review on 28 June 2005 was 383, which included royal family members and heads of navies. The cost to the public purse was £13,750.

### Trident

**Mr. Gordon Prentice:** To ask the Secretary of State for Defence (1) what the cumulative costs have been of the Trident nuclear deterrent in each year since it became operational; [9737]

(2) what the running cost of the Trident nuclear deterrent was in 2004–05; and if he will make a statement; [9801]

(3) what proportion of Royal Navy spending was allocated to the Trident nuclear deterrent in 2004–05. [9800]

**John Reid:** The latest annual statement to Parliament about the acquisition cost of the Trident programme was made on 18 January 2005, *Official Report*, column 30WS.

Since the Trident nuclear deterrent became operational in 1994, the annual expenditure for capital and running costs has ranged between 2 and 4 per cent. of the annual defence budget, up to and including financial year 2004–05.

Specifically the running costs for financial year 2004–05 were 2 per cent. of the annual defence budget. Royal Navy spending allocated to the Trident nuclear deterrent amounted to 3 per cent. of the financial year 2004–05 Royal Navy spending plan.

## SCOTLAND

### Departmental Advertising

**David T.C. Davies:** To ask the Secretary of State for Scotland how much the Office spent on advertising in each of the last five years. [10235]

**David Cairns:** The Office spent the following on advertising:

| | *Amount (£)* |
|---|---|
| 2000–01 | 270,494 |
| 2001–02 | 186,564 |
| 2002–03 | 10,390 |
| 2003–04 | 0 |
| 2004–05 | 0 |

Most of the expenditure in 2000–01 and 2001–02 relates to electoral registration matters. Since 2001, this has been the responsibility of the Electoral Commission.

### Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for Scotland how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11527]

**David Cairns:** Details of staff numbers from 1999–2000 to 2004–05 are set out in the Scotland Office Annual Reports for 2004 and 2005. The internet address for the reports is http://www.scotlandoffice.gov.uk/our-communications/

### EU Structural Funds

**David Mundell:** To ask the Secretary of State for Scotland what discussions he has had with the Scottish Executive on the designation of the South of Scotland as NUTS2 for the purpose of post-2006 EU structural funding. [10817]

**David Cairns:** My right hon. Friend has regular discussions with Scottish Ministers on a wide range of matters. Eurostat—which has overall responsibility for reviewing NUTS boundaries—has advised the Office for National Statistics (ONS) that they would follow the terms of the NUTS Regulation strictly before permitting any adjustment to NUTS boundaries. ONS has confirmed that the timetable for NUTS review will start in mid 2006 and terminate at the end of 2007 for implementation from 1 January 2008. Even if any changes were made to current boundaries, this could not take place in time to alter eligibility for any Structural and Cohesion Funds programmes for 2007–13.

### G8 Summit

**Mark Lazarowicz:** To ask the Secretary of State for Scotland if he will ask his ministerial colleagues to make a financial contribution to the Scottish Executive to meet the costs likely to be incurred by public authorities in Edinburgh as a result of the events organised to coincide with the G8 Summit at Gleneagles. [9784]

**Mr. Darling:** As I indicated to my hon. Friend at questions on 5 July 2005, *Official Report*, column 152, the Government agreed to provide £20 million to the Scottish Executive towards the cost of policing the G8 Summit.

## HOME OFFICE

### Abortion

**Mr. Amess:** To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women have been proceeded against for procuring abortions under section 58 or 59 of the Offences Against the Person Act 1861 in each year since 1976. [10552]

**Fiona Mactaggart:** The information requested is contained in the table. Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts and found guilty at all courts under the Offences Against the Person Act 1861, Secs. 58 and 59[1], England and Wales 1976 to 2003*

| | *Procuring illegal abortions* | | | | | |
|---|---|---|---|---|---|---|
| | *Male* | | *Female* | | *Total* | |
| | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* |
| 1976 | 3 | 3 | — | 1 | 3 | 4 |
| 1977 | 4 | 1 | 1 | 1 | 5 | 2 |
| 1978 | 1 | 2 | 2 | — | 3 | 2 |
| 1979 | 1 | — | — | — | 1 | — |
| 1980 | — | 1 | 3 | 3 | 3 | 4 |
| 1981 | — | — | — | — | — | — |
| 1982 | — | — | — | — | — | — |
| 1983 | 1 | 1 | — | 2 | 1 | 3 |
| 1984 | 3 | 2 | — | — | 3 | 2 |
| 1985 | 2 | — | — | — | 2 | — |
| 1986 | 1 | 2 | — | — | 1 | 2 |
| 1987 | 2 | — | — | — | 2 | — |
| 1988 | 4 | 2 | 2 | — | 6 | 2 |
| 1989 | 5 | 1 | — | — | 5 | 1 |
| 1990 | 1 | 2 | — | — | 1 | 2 |
| 1991 | 2 | 2 | — | — | 2 | 2 |
| 1992 | 1 | 1 | — | — | 1 | 1 |
| 1993 | 2 | — | — | — | 2 | — |
| 1994 | 3 | — | 3 | — | 6 | — |
| 1995 | 2 | — | — | — | 2 | — |
| 1996 | 2 | 1 | — | — | 2 | 1 |
| 1997 | 3 | 4 | — | 1 | 3 | 5 |
| 1998 | 3 | 2 | 1 | 1 | 4 | 3 |
| 1999 | 1 | — | — | — | 1 | — |
| 2000 | 1 | — | — | — | 1 | — |
| 2001 | 1 | — | — | — | 1 | — |
| 2002 | 3 | — | — | — | 3 | — |
| 2003 | 3 | 1 | — | — | 3 | 1 |

[1] These data are on the principal offence basis.

### Airwave

**Mr. Henderson:** To ask the Secretary of State for the Home Department how much funding he allocated for extending Airwave into the Channel Tunnel. [11585]

**Hazel Blears:** Airwave is not being extended into the Channel Tunnel as other arrangements are in place.

### Antisocial Behaviour Orders

**Mr. Lancaster:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in the Milton Keynes area; and how many have been breached. [10775]

**Hazel Blears:** The Home Office has been able to determine from copies of antisocial behaviour orders (ASBOs) issued since one June 2000 the local authority

area in which restrictions were imposed. From this date up to 31 December 2004 (latest available) the number of ASBOs issued at all courts, as reported to the Home Office, where restrictions were imposed within the local government authority area of Milton Keynes borough council, is 20. Data on breaches of ASBOs are available at criminal justice system area level only, in this case Thames Valley, and relate to the total issued by the courts.

**John McDonnell:** To ask the Secretary of State for the Home Department (1) how many antisocial behaviour orders have been made in respect of children who suffer from *(a)* Tourett's syndrome, *(b)* autism and *(c)* Asperger's syndrome; [6456]

(2) how many antisocial behaviour orders have been made in respect of people who were begging; [6457]

(3) how many antisocial behaviour orders have been made in respect of women who were loitering or soliciting; [6458]

(4) how many antisocial behaviour orders have been made since 1999. [6459]

**Hazel Blears** *[holding answer 22 June 2005]:* Information is not collected centrally about the characteristics of persons issued with an antisocial behaviour order (ASBO).

Data collated by the Home Office for statistical purposes do not identify the circumstances that led to the issuing of an ASBO.

The number of ASBOs issued at all courts, as reported to the Home Office, from 1 April 1999 to 31 December 2004 (latest available) is 4,649.

However, it is for the courts to decide on whether to make an order in each individual case.

### Assault Prosecutions

**Mr. Baron:** To ask the Secretary of State for the Home Department what the prosecution rate for *(a)* alleged common assaults and *(b)* alleged assaults with aggravating factors was in the most recent period for which figures are available. [4347]

**Fiona Mactaggart** *[holding answer 14 June 2005]:* Data on the number of prosecutions in 2003 for *(a)* alleged common assaults and *(b)* alleged assaults with aggravating factors are provided in the following table.

Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts for various assault offences, England and Wales 2003*[1]

| *Offence* | *Statute* | *Proceeded against* |
|---|---|---|
| Common assault and battery | Criminal Justice Act 1988 s.39 | 57,528 |
| Religiously aggravated common assault | Crime and Disorder Act 1998 s.29(1)*(c)*and(3) | 4 |
| Racially aggravated common assault | Crime and Disorder Act 1998 s.29(1)*(c)*and(3) | 750 |
| Racially or religiously aggravated common assault | Crime and Disorder Act 1998 s.29(1)*(c)*and(3) | 62 |
| Racially aggravated actual bodily harm | Offences against the Person Act 1861 s.47 (in part) as amended by Crime and Disorder Act 1998 s.29 (1) *(b)* and (2) | 482 |
| Religiously aggravated actual bodily harm | Offences against the Person Act 1861 s.47 (in part) as amended by Crime and Disorder Act 1998 s.29 (1) *(b)* and (2) | 22 |
| Racially or religiously aggravated actual bodily harm | Offences against the Person Act 1861 s.47 (in part) as amended by Crime and Disorder Act 1998 s.29 (1) *(b)* and (2) | 40 |
| Racially aggravated malicious wounding or GBH | Offences Against the Person Act 1861 s.20 as amended by Crime and Disorder Act s.29 (1) *(a)* and (2) | 62 |
| Religiously aggravated wounding or inflicting grievous bodily harm (inflicting bodily injury with or without weapon) | Offences Against the Person Act 1861 s.20 as amended by Crime and Disorder Act s.29 (1) *(a)* and (2) | 1 |
| Racially or religiously aggravated malicious wounding or GBH | Offences Against the Person Act 1861 s.20 as amended by Crime and Disorder Act s.29 (1) *(a)* and (2) | 20 |
| Total | | 58,971 |

[1] These data are on a principal offence basis

### Drug Rehabilitation

**Anne Main:** To ask the Secretary of State for the Home Department what proportion of *(a)* drug treatment testing orders and *(b)* drug rehabilitation requirements in (i) England and Wales and (ii) Hertfordshire were effected by non-governmental bodies in the last year for which figures are available. [10865]

**Fiona Mactaggart:** This information is not available centrally and could be collected only at disproportionate cost. The treatment and testing components of drug treatment and testing orders (DTTOs) and drug rehabilitation requirements (DRRs) in England are commissioned by local Drug Action Teams (DATs). Probation areas are responsible for the supervision and enforcement of DTTOs/DRRs and the delivery of some interventions. Welsh probation areas are funded to meet full DTTO/DRR costs.

**Anne Main:** To ask the Secretary of State for the Home Department how much his Department allocated for the implementation of *(a)* drug treatment testing orders and *(b)* drug rehabilitation requirements in the last year for which figures are available. [10866]

**Fiona Mactaggart:** £76 million was made available in 2004–05 to deliver 13,000 drug treatment and testing orders (DTTOs). £88 million has been allocated in 2005–06 for the delivery of 16,000 DTTOs/drug rehabilitation requirements (DRRs) of the new community order, which will gradually replace DTTOs from April 2005.

**Anne Main:** To ask the Secretary of State for the Home Department how much was allocated per capita for offenders referred to a non-governmental voluntary body for the provision of *(a)* drug treatment testing orders and *(b)* drug rehabilitation requirements; what estimate he has made of the cost per capita for such offenders in the last year for which figures are available; and if he will make a statement. [11136]

**Fiona Mactaggart:** A proportion of Drug Treatment Testing Orders (DTTO)/Drug Rehabilitation Requirement (DRR) funding is not specifically allocated to cover the costs of offenders referred to non-governmental voluntary bodies. Funding for DTTO/DRR treatment and testing in England is allocated via the Pooled Treatment Budget to local Drug Action Teams (DATs) who decide what treatment and testing to commission in their locality and from what sources. Different arrangements exist in Wales where areas have responsibility for commissioning DTTO/DRR treatment and testing provision locally from their probation funding allocations. Information about the cost per capita of offenders on DTTOs/DRRs referred to non-governmental voluntary bodies is not available centrally and could be collected only at a disproportionate cost.

### Early Release Scheme

**Mr. Fraser:** To ask the Secretary of State for the Home Department if he will abolish the Early Release Scheme. [1365]

**Fiona Mactaggart:** There are three early release schemes: the Home Detention Curfew Scheme, the Early Removal Scheme for foreign national prisoners subject to deportation and parole for prisoners serving a determinate sentence of four years and over. There are no plans to abolish the Home Detention Curfew Scheme or the Early Removal Scheme. Under the provisions of the Criminal Justice Act 2003, offenders are sentenced according to the risk they present to the public. Sexual and violent offenders who present a significant risk will receive an extended sentence, under which the entire custodial period set by the court may be spent in prison if the Parole Board believes it is necessary: or an inter-determinate sentence, under which the offender must spend a minimum period of time in prison, and can be kept in prison indefinitely if the Parole Board believes it is necessary. Other offenders, who do not present this risk, are released on licence halfway through the sentence. Offenders must now remain on licence until the end of sentence, under reforms brought in under the Act.

### House Building (East Midlands)

**Mr. Hollobone:** To ask the Secretary of State for the Home Department when future projections of house building numbers in Northamptonshire contained in the Milton Keynes and South Midlands Sub-Regional Spatial Strategy will be taken into account in the formula grant funding calculation for the county's police force. [11193]

**Hazel Blears:** House building numbers are not used in the police funding formula. Estimates of population are used and are updated annually. The police funding formula will reflect changes in resident population in each police authority. The Government recently consulted on the use of population projections in three-year settlements; the Government's proposals following this consultation will be announced shortly.

### Juvenile Offenders

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many secure unit places for juvenile offenders there are in England and Wales; and if he will make a statement. [8080]

**Fiona Mactaggart:** The Youth Justice Board is responsible for commissioning and purchasing places in the juvenile secure estate. It currently contracts with local authorities for the use for 235 places in secure children's homes in England and Wales.

### Limitation Acts

**Mr. Byers:** To ask the Secretary of State for the Home Department what plans he has to amend the provisions of the Limitation Acts to permit claims from those who have suffered from historic physical and sexual abuse. [7418]

**Bridget Prentice:** I have been asked to reply.

Under the current law the provisions governing claims for trespass against the person mean that a claim for child abuse must be brought within six years of the date on which the cause of action arose, although this period will not start to run until the child reaches the age of majority. Under the proposals in the Law Commission's 2001 report "Limitation of Actions", a claim in relation to child abuse would have to be brought within a period of three years from the date on which a claimant knew (or ought reasonably to have known) the facts giving rise to the cause of action, the identity of the defendant, and that any injury, loss or damage was significant. The court would have a discretion to disapply this limitation period if it considered that it would be unjust not to allow the claim to proceed. In July 2002, the Government announced their acceptance in principle of the Law Commission's recommendations subject to further consideration of certain aspects. Legislation will be introduced to implement those recommendations which are accepted when an opportunity arises.

### Mother and Baby Units (Prisons)

**Sandra Gidley:** To ask the Secretary of State for the Home Department (1) how many places have been available in mother and baby units in prisons in England and Wales in each year since 1997; [7746]

(2) how many pregnant female offenders have applied for their children to remain with them in prison after birth in each year since 1997; [7747]

(3) how many babies have been born to women in prison for non-violent offences in each year since 1997; [7748]

(4) how many babies have been born to women in prison in each year since 1997; and how many remained with their mothers in prison in each year. [7749]

**Fiona Mactaggart:** The number of places available in prison mother and baby units in England and Wales in each year since 1997 is as follows:

1997—68
1998—68
1999—68
2000—68
2001—68
2002—68
2003—68
2004—102
2005—84

The remainder of the data requested is currently neither routinely, or centrally available. However, the numbers of babies born to women in prison and applications for a place on a mother and baby unit is being collated nationally from 1 April 2005, on a quarterly retrospective basis. Data obtained in 2005 shows that, in 2004, 114 women gave birth while serving a prison sentence. All pregnant prisoners who give birth to a baby whilst serving a prison sentence do so in a local hospital.

## Murder Rate

**Mr. Amess:** To ask the Secretary of State for the Home Department how many persons were *(a)* charged with and *(b)* convicted of (i) murder and (ii) manslaughter in England and Wales in each year since 1975. [10508]

**Fiona Mactaggart:** Statistics on persons charged are not centrally collected.

The available information from the Home Office Court Proceedings database is contained in the table. Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts and found guilty at all courts for certain offences under the Offences Against the Person Act 1861[1], England and Wales 1975 to 2003*

| | *Murder* | | *Manslaughter[2,3]* | |
|---|---|---|---|---|
| | *Total proceeded against* | *Total found guilty* | *Total proceeded against* | *Total found guilty* |
| 1975 | 406 | 107 | 677 | 758 |
| 1976 | 470 | 104 | 634 | 779 |
| 1977 | 333 | 115 | 599 | 679 |
| 1978 | 419 | 105 | 331 | 524 |
| 1979 | 473 | 137 | 265 | 471 |
| 1980 | 472 | 169 | 319 | 485 |
| 1981 | 442 | 126 | 297 | 449 |
| 1982 | 410 | 154 | 302 | 495 |
| 1983 | 412 | 132 | 254 | 447 |
| 1984 | 434 | 156 | 277 | 410 |
| 1985 | 483 | 173 | 283 | 484 |
| 1986 | 515 | 179 | 268 | 449 |
| 1987 | 496 | 166 | 290 | 501 |
| 1988 | 550 | 231 | 393 | 555 |
| 1989 | 506 | 189 | 421 | 637 |
| 1990 | 484 | 180 | 435 | 520 |
| 1991 | 584 | 201 | 397 | 565 |
| 1992 | 609 | 182 | 354 | 579 |
| 1993 | 598 | 211 | 379 | 503 |
| 1994 | 526 | 192 | 317 | 496 |
| 1995 | 591 | 214 | 349 | 514 |
| 1996 | 629 | 257 | 381 | 529 |
| 1997 | 529 | 275 | 433 | 541 |
| 1998 | 622 | 256 | 400 | 549 |
| 1999 | 625 | 252 | 422 | 484 |
| 2000 | 617 | 261 | 451 | 505 |
| 2001 | 807 | 285 | 448 | 565 |
| 2002 | 713 | 324 | 425 | 619 |
| 2003 | 719 | 277 | 437 | 561 |

[1] These data are on the principal offence basis.

[2] Covers: manslaughter, infanticide, child destruction, causing death by dangerous driving, diminished responsibility and causing death by careless driving when under the influence of drink or drugs.

[3] Found guilty figures may include those prosecutions for murder that were reduced to manslaughter.

## Overseas Prisoners

**Mr. Tyrie:** To ask the Secretary of State for the Home Department what records are kept in relation to the presence in UK territory, airspace or airports, for transit or for longer temporary periods, of prisoners detained by states other than the UK. [7903]

**Fiona Mactaggart:** The Council of Europe Convention on the Transfer of Sentenced Persons, the Commonwealth Scheme for the Transfer of Convicted Offenders, and bilateral prisoner transfer agreements to which the UK is a party, enables a contracting party to transit through UK airports to another contracting party, or to a third party, where transfer has been agreed in accordance with the relevant international agreement.

One or two requests for transit are received each year. Transit enables a prisoner and escort to transfer from one commercial flight to another at Heathrow or Gatwick airport. The prisoner and foreign escort remain in UK territory for a matter of hours and overnight transit is not allowed. Records of transit applications are not kept once the transit has been completed.

## Parenting Skills

**Mr. Streeter:** To ask the Secretary of State for the Home Department what assessment his Department has made of the value of teaching parenting skills to parents in combating juvenile antisocial behaviour and crime; and if he will make a statement. [3038]

**Fiona Mactaggart** *[holding answer 13 June 2005]:* Parenting is strongly relevant to juvenile antisocial and criminal behaviour and can be associated with increased risk or it can be a factor which protects children and young people from being involved in such behaviour. There is evidence, however, particularly from the United States, that parenting interventions which

include the improvement of parenting skills can be effective in reducing antisocial and criminal behaviour.

An independent evaluation of the Youth Justice Board's parenting programme published in 2002 found that most parents valued the parenting programmes they had undertaken and wished they had received such support earlier. The study observed a reduction in offending but the lack of a comparison group meant that this could not be attributed to parenting programmes.

Youth Offending Teams have adapted programmes underpinned by evidence of effectiveness and some have developed their own programmes based on such evidence. Since 2002 the Youth Justice Board has introduced an effective practice quality assurance review process as part of a management system to improve the quality and volume of parenting interventions being delivered by Youth Offending Teams.

## Police

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many prisoners are held in each prison in Lancashire; and how many prison officers are employed in each prison. [11071]

**Fiona Mactaggart:** The information requested is provided in the following table . The figures for the population of each establishment are as recorded on the Prison Service IT system on 31 May 2005. Figures for the number of prison officers at each establishment are for 30 June 2005, and include both full and part-time officers.

*Population and number of officers in prison establishments in Lancashire*

| *Establishment* | *Population* | *Number of prison officers* |
|---|---|---|
| Garth | 640 | 225 |
| Kirkham | 530 | 98 |
| Lancaster | 239 | 86 |
| Lancaster Farms | 514 | 242 |
| Preston | 604 | 233 |
| Wymott | 1,042 | 253 |

**Mr. Hollobone:** To ask the Secretary of State for the Home Department when he expects to announce the basis of the calculation for the new police authority funding formula due in 2006–07. [11208]

**Hazel Blears** *[holding answer 12 July 2005]:* We expect a 12 week consultation period on options for formula change to begin in late July with the aim of introducing a revised formula for the 2006–07 funding settlement.

**Mr. Amess:** To ask the Secretary of State for the Home Department what the Independent Police Complaints Commission's target is for *(a)* examination of and *(b)* reporting on a complaint against the police from the date of registration of the complaint; and what the average time taken has been since the IPCC was set up. [10913]

**Hazel Blears** *[holding answer 11 July 2005]:* The Independent Police Complaints Commission is responsible for the management of the police complaints system. I will ensure that the chairman receives a copy of the question and replies to the hon. Member directly. Copies of the letter containing the IPCC's response will be placed in the Library.

## Prisoners

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department pursuant to the answer of 15 June 2005, *Official Report*, column 491W, on prison education, how many offenders were in custody in each year between 2002–03 and 2004–05. [7372]

**Fiona Mactaggart:** The population of prison establishments in England and Wales on 30 June in each year in question, as recorded on the Prison Service IT system, is provided in the table. The figures include remand prisoners.

| | *Number* |
|---|---|
| 2002 | 71,218 |
| 2003 | 73,657 |
| 2004 | 74,488 |

Information on Scotland and Northern Ireland is a matter for my colleagues in the Scottish Executive and Northern Ireland Office.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many prisoners are held in *(a)* Garth and *(b)* Wymott prisons; and how many prison officers there are in each per prisoner. [6612]

**Fiona Mactaggart:** The population of HMP Garth was 640 and the population of HMP Wymott 1,042 on 31 May 2005, as recorded on the Prison Service IT system.

There are 225 prison officers working at HMP Garth, resulting in a ratio of 0.35 officers per prisoner. There are 252 prison officers working at HMP Wymott, with a ratio of 0.24 officers per prisoner. These figures include both full and part-time officers, and are for 31 May 2005.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department (1) how many assaults on staff there were at Rye Hill Prison during 2004–05; [6094]

(2) how many assaults on prisoners there were at Rye Hill Prison during 2004–05. [6095]

**Fiona Mactaggart:** At HMP Rye Hill during the financial year 2004–05 there were 33 assaults upon staff and 12 assaults upon prisoners that were proven at adjudication hearings.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department how many cases there were of prisoners *(a)* absconding and *(b)* escaping at Rye Hill Prison during 2004–05. [6096]

**Fiona Mactaggart:** During the financial year 2004–05 one prisoner escaped from a hospital escort being undertaken by staff from HMP Rye Hill. There were no absconds during this period.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department how many cases there were of doors unlocked at Rye Hill Prison during 2004–05. [6097]

**Fiona Mactaggart:** Internal incident reports compiled at Rye Hill show that during 2004–05 a total of eight security gates or doors, including one cell door, were reported as being found unlocked.

**Mrs. May:** To ask the Secretary of State for the Home Department what estimate he has made of the proportion of prisoners who have spent time in care. [7294]

**Fiona Mactaggart:** Information from the 2001 Criminality Survey notes that 27 per cent. of prisoners had spent time in care as a child. This is closely in line with the equivalent figure of 26 per cent. as found by the 1991 National Prison Survey.

**John Hemming:** To ask the Secretary of State for the Home Department what proportion of the prison population has spent time in the care of a local authority. [7884]

**Fiona Mactaggart:** Information from the 2001 Criminality Survey notes that 27 per cent. of prisoners had spent time in care as a child This is closely in line with the equivalent figure of 26 per cent. as found by the 1991 National Prison Survey.

**Mrs. Dean:** To ask the Secretary of State for the Home Department what proportion of *(a)* male and *(b)* female prisoners he estimates have (i) alcohol and (ii) drug abuse problems. [5780]

**Fiona Mactaggart:** This information is not collected centrally.

Epidemiological studies show that:

(a) 63 per cent. of sentenced males (39 per cent. females) report hazardous drinking in the year prior to prison; and

(b) on average, 55 per cent. of prisoners report a serious drug problem (51 per cent. of male remand prisoners and 54 per cent. of female remands admitted drug dependency—ONS 1997).

**Mr. Malins:** To ask the Secretary of State for the Home Department what plans he has to increase opportunities for prisoners to play team sport; and if he will make a statement. [2702]

**Fiona Mactaggart:** The importance of physical education in prisons is well recognised. All prisons are required to deliver PE that meets the need of the regime, supports the delivery of education and vocational training, contributes to the resettlement of prisoners and delivers programmes that have been specifically developed to support offending behaviour interventions. The percentage, balance and contents that each PE programme contains will depend upon national and local needs. In 2004–05 some 7.9 million hours of PE were delivered within prisons in the public sector. The total number of hours achieved in contracted establishments is not centrally held, although all prisoners in contracted prisons are offered the opportunity to undertake PE on a frequent basis.

The importance of team games is well recognised and each prisons PE programme should include a range of team sports that are delivered in line with the respective sports governing body guidelines. A wide range of governing body coaching and performance awards are delivered across the prison estate to encourage participation in team sports. In addition each prison should have a nominated Community Sport Liaison Officer. Part of their role is to encourage participation, where this is appropriate, in local sports leagues.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many prisoners were recalled for failing to adhere to home detention curfew conditions during the first five months of 2005 in each prison region. [9010]

**Fiona Mactaggart:** The information requested, as recorded on the Prison Service IT system, is provided in the table. The figures refer to the region in which the establishment is located from which the prisoner was discharged, and relate to all prisoners subject to the Home Detention Curfew Scheme who had their licences revoked in the period in question.

*HOC recalls by prison region1 England and Wales, 2005*

| | *January* | *February* | *March* | *April* | *May* | *Total* |
|---|---|---|---|---|---|---|
| All establishments | 193 | 160 | 239 | 229 | 228 | 1,049 |
| East Midlands (North) | 18 | 5 | 19 | 8 | 10 | 60 |
| East Midlands (South) | 12 | 11 | 24 | 19 | 19 | 85 |
| Eastern | 7 | 11 | 14 | 13 | 24 | 69 |
| Kent | 11 | 6 | 13 | 15 | 17 | 62 |
| London | 8 | 9 | 12 | 18 | 8 | 55 |
| North-east | 5 | 6 | 9 | 7 | 6 | 33 |
| North-west | 29 | 22 | 31 | 25 | 27 | 134 |
| South-west | 17 | 20 | 21 | 15 | 14 | 87 |
| Surrey and Sussex | 9 | 4 | 7 | 5 | 9 | 34 |
| Thames Valley, IOW, Hampshire | 13 | 12 | 11 | 11 | 8 | 55 |
| Wales | 8 | 3 | 4 | 8 | 7 | 30 |
| West Midlands | 17 | 15 | 26 | 26 | 26 | 110 |
| Yorkshire and Humberside | 17 | 22 | 27 | 39 | 34 | 139 |
| High Security Estate | 7 | 4 | 9 | 8 | 4 | 32 |
| Contracted out | 14 | 9 | 11 | 11 | 14 | 59 |
| Others | 1 | 1 | 1 | 1 | 1 | 5 |

[1] based on information recorded on the Prison Service IT system at week ending 25 June 2005. Further updates and amendments may be made to records on this system in future, resulting in revised figures.

## Probation Service

**Mr. Llwyd:** To ask the Secretary of State for the Home Department how many staff *(a)* joined and *(b)* left the Probation Service in England and Wales during (i) 2003–04 and (ii) 2004–05, broken down by grade. [4262]

**Fiona Mactaggart:** The information requested is provided in the table.

*Number of Joiners[1] and Leavers in the National Probation Service for England and Wales in 2003–04 and 2004–05*

| | *Persons joining the National Probation Service* | | *Persons leaving the National Probation Service* | |
|---|---|---|---|---|
| | *2003–04* | *2004—05* | *2003–04* | *2004–05* |
| Deputy Chief Officers | 3.0 | 0.0 | 6.0 | 3.0 |
| Assistant Chief Officers[2] | 20.7 | 6.8 | 36.9 | 18.5 |
| Senior Probation Officers | 8.9 | 12.1 | 75.0 | 68.2 |
| Probation Officers[3] | 984.7 | 577.8 | 484.4 | 417.1 |
| Probation Service Officers | 945.8 | 857.0 | 504.2 | 531.5 |
| All Other Staff | 1,147.1 | 896.2 | 751.1 | 724.7 |
| Total | 3,110.2 | 2,349.7 | 1,861.6 | 1,763.0 |

[1] Figures shown in FTE.
[2] Includes Area Managers.
[3] Includes Senior Practitioners and Trainee Probation Officers.

**Mr. Llwyd:** To ask the Secretary of State for the Home Department how many vacancies there were in each probation area on 31 March of each year between 2001 and 2005, broken down by grade. [4210]

**Fiona Mactaggart:** The information requested was not collected by the Probation Service until the implementation of the quarterly workforce information report during the financial year 2003–04 and therefore, we are unable to respond to the request for the years 2001 to 2003.

The information for 2004 and 2005 is given in the table.

*The number of vacancies[1,2] in the National Probation Service of England and Wales 2004 and 2005.*

| | *31 March 2004* | | | | |
|---|---|---|---|---|---|
| | *Senior probation staff* | *Probation officers* | *Probation Service officers* | *Trainee probation officers* | *All other staff* |
| Avon and Somerset | 1.0 | 16.3 | 31.8 | 3.0 | 40.8 |

[1] Figures shown in wte

[2] At the end of 2004, the NPS changed the way in which it collected vacancy data, consequently, the information for March 2004 shows the vacancies within a notional complement of staff and those for March 2005 show vacancies as being posts that Areas are actively recruiting into.

[3] The information for March 2005 is not currently available for these probation areas.

**Mr. Llwyd:** To ask the Secretary of State for the Home Department what the staffing establishment for each probation area was on 31 March of each year between 2001 and 2005, broken down by grade. [4261]

**Fiona Mactaggart:** The information requested was not collected by the Probation Service until the implementation of the quarterly workforce information report during the financial year 2003–04 and therefore, we are unable to respond to the request for the years 2001 to 2003.

The information for 2004 and 2005 is given in the tables.

[1] Figures shown in wte.

[2] Staffing establishment has been interpreted as 'Staff in Post' as opposed to the funded staffing establishment.

[3] The information for March 2005 is not currently available for this Probation Area.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department how many service level agreements there are *(a)* in each probation region and *(b)* for each regional offender manager for the current financial year. [6100]

**Fiona Mactaggart:** At present there are a total of 11 draft Service Level Agreements between Probation Boards and Regional Offender Managers. These are in two regions, the North West region has five Draft Service Level Agreements and the East region has six Draft Service Level Agreements. Work is currently being undertaken to have Service Level Agreements in place in all regions of England and Wales for the financial year 2006–07.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department what plans he has to redefine the role of probation boards. [6101]

**Fiona Mactaggart:** Work on the future organisational design of the National Offender Management Service has still to be concluded.

**Mrs. Dorries:** To ask the Secretary of State for the Home Department how many people have been employed in the Probation Service in *(a)* Bedfordshire county and *(b)* Mid-Bedfordshire in each year since 1997. [11089]

**Fiona Mactaggart:** Information is not available for the full period requested. Data are not available prior to 1 April 2003. The figures presented in the table show full time equivalent (FTE) figures at the close of each quarter from 1 April 2003 to 31 March 2005. Staffing information is collected by probation area, and is not collected centrally in sufficient detail to allow figures for Bedfordshire county and Mid Bedfordshire to be presented separately. The staffing figures are provided for the Bedfordshire probation area only.

*Bedfordshire probation area*

| | *FTE in post* |
|---|---|
| 30 June 2003 | 173.8 |
| 30 September 2003 | 183.7 |
| 31 December 2003 | 189.0 |
| 31 March 2004 | 196.1 |
| 30 June 2004 | 188.2 |
| 30 September 2004 | 176.0 |
| 31 December 2004 | 182.0 |
| 31 March 2005 | 193.1 |

**Jeremy Corbyn:** To ask the Secretary of State for the Home Department what plans there are to ensure that magistrates in Crown courts are fully resourced in terms of experienced probation officers in *(a)* the 2005–06 financial year and *(b)* future financial years. [5640]

**Fiona Mactaggart:** The National Probation Service business plan for 2005–06 makes clear the priority to be attached to meeting the needs of the courts. The importance of delivering good quality court reports on time had already been made clear in two probation circulars issued in the second half of 2004–05 and it will remain a priority for the service in the coming years.

The 2005–06 business plan requires probation chief officers to ensure that good liaison arrangements exist with sentencers and court staff so that any difficulties in relation to the provision of reports can be identified and tackled. At the end of March 2005 there were 818 National Probation Service staff allocated to court duties.

### Ritual Sacrifice (Children)

**Dr. Kumar:** To ask the Secretary of State for the Home Department what estimates have been made of the numbers of children being trafficked into the UK for the purpose of ritual sacrifice. [7291]

**Hazel Blears:** Initial inquiries made by the team investigating the 'Adam' murder found that a number of African boys had not returned to school following the summer break in 2001.

Educational welfare officers notified the Metropolitan police of 300 boys who had not returned to school following the summer recess. Of these, 161 boys were screened in for further inquiries.

There has been considerable media speculation that these children were trafficked for the purpose of ritual abuse.

The Metropolitan police have made it clear that they believe this type of crime to be extremely rare, and that there is no evidence to suggest that the same fate has befallen any other child.

**Dr. Kumar:** To ask the Secretary of State for the Home Department what steps he is taking to prevent the trafficking of children into the UK for the purpose of ritual sacrifice. [7292]

**Hazel Blears:** Initial inquiries made by the team investigating the 'Adam' murder found a number of African boys had not returned to school following the summer break in 2001.

The Metropolitan Police Service has stated clearly that they have no evidence that any of these boys have come to any harm. They believe this type of crime to be extremely rare and there is no evidence whatsoever to suggest that the same fate has befallen any other child.

### Self-harm

**Mr. Drew:** To ask the Secretary of State for the Home Department what steps he is taking to ensure that adequate counselling is in place for staff working in the Prison Service who deal with a fatality or a serious case of self-harm. [6815]

**Fiona Mactaggart:** The public sector Prison Service has in place an established package of measures to support staff in such circumstances. In particular, all staff have access to post trauma counselling if they have been involved in a traumatic incident on duty. This includes attending the scene of a serious self-harm or suicide. Staff can self-refer for counselling, or be referred by management. The process is handled by the public sector Prison Service occupational welfare service, who source a local, external counsellor who is accredited by the British Association of Counselling and Psychotherapy or equivalent professional body.

### Sentencing Guidelines Council

**Mr. Baron:** To ask the Secretary of State for the Home Department what plans he has to ask the Sentencing Guidelines Council to *(a)* create aggravating factors, *(b)* lengthen jail sentences and *(c)* increase fines for assaults against public sector workers; and if he will make a statement. [7429]

**Fiona Mactaggart** *[holding answer 27 June 2005]:* The Government made a commitment to ensuring tougher sentences for those involved in attacks on public sector workers. The Sentencing Guidelines Council, which was established by the Criminal Justice Act 2003, has a remit to issue sentencing guidelines for the range of criminal offences, which courts must take into account.

The Council issued a guideline entitled 'Seriousness—Overarching Principles' on 16 December last year. It outlined a number of aggravating factors that would indicate a higher than usual level of culpability on the part of the offender (such as vulnerability of the victim), or a greater than usual degree of harm caused by the offence. One aggravating factor set out in the guideline is that

> "the offence is committed against those working in the public sector or providing a service to the public".

The Sentencing Advisory Panel is currently preparing a public consultation paper on sentencing for assaults and other offences against the person. It will consider the most common offences, aggravating or mitigating factors, and the degree to which such factors should impact on sentence. The Panel will report to the Council, which will, in due course, produce a guideline.

### Victims of Crime

**Keith Vaz:** To ask the Secretary of State for the Home Department what provisions have been made to protect the victims of crime and their families from the individuals responsible for the crimes when they are released *(a)* temporarily, *(b)* conditionally and *(c)* permanently. [3565]

**Fiona Mactaggart:** Local probation boards have a statutory duty to work with victims of sexual or violent offences where the offender receives a custodial sentence of 12 months or more. Victims are provided with a single point of contact with the Probation Service, through Victim Liaison Officers (VLOs), from whom they can receive information and make representations about key stages in an offender's sentence, such as temporary leave and release on licence.

When an offender is being considered for release on temporary licence, a prison governor will seek information from the supervising probation officer about appropriate licence conditions. The probation officer, having consulted the VLO, may recommend that there be conditions not to contact the victim or not to enter a specified area where the victim resides.

Prior to the offender's conditional release, the supervising probation officer, having taken into account the victim's representations, may recommend that conditions be imposed forbidding contact with the victim, members of the victim's family or other named individuals, or may prevent the offender entering a specified geographical area.

During the period of the licence, the VLO will maintain contact with victims and their families. If, after offenders have been released, victims have concerns about offenders breaching conditions not to contact them or entering an exclusion zone, they should inform the VLO. The VLO will, in turn, notify the offender's supervising officer of this breach and the offender may either be warned about his/her behaviour or recalled to custody.

The Multi-Agency Public Protection Arrangements (MAPPA), introduced in April 2001, play an important role in assessing and managing the risk of harm an offender presents to a specific person, such as a victim of his/her previous offending. A VLO will liaise with the MAPPA Responsible Authority, which in turn has a duty of care to existing victims, and should take all reasonable steps to protect people from being re-victimised.

Once statutory supervision of an offender ends, the conditions put in place to protect victims will no longer apply. Where, however, an offender is regarded as posing a risk of harm to an individual, such as a victim of a previous offence, MAPPA may recommend that the police continue to monitor that offender.

The probation VLO should also provide victims with information about voluntary organisations, such as Victim Support, which may offer support once statutory supervision of the offender comes to an end.

### Violent Crime Reduction Bill

**Mr. Baron:** To ask the Secretary of State for the Home Department what criteria were used in making the decision not to include measures to create aggravating factors for assaults against public sector workers in the Violent Crime Reduction Bill; and if he will make a statement. [6205]

**Fiona Mactaggart** *[holding answer 21 June 2005]:* The Government are committed to ensuring tougher sentences for those involved in attacks on public sector workers. But we are not convinced that further legislation is necessary to achieve this. The Sentencing Guidelines Council, which was established by the Criminal Justice Act 2003, has a remit to issue sentencing guidelines, which courts must take into account. Sentencing guidelines in respect of an offence or category of offences must include criteria for determining the seriousness of the offence or offences. The council issued a guideline on 'seriousness' at the end of last year; this included aggravating factors applicable to offences generally such as the vulnerability of the victim. One aggravating factor is that "the offence is committed against those working in the public sector or providing a service to the public". The Sentencing Advisory Panel is currently preparing a public consultation paper on sentencing for assaults and other offences against the person. It will consider the most common offences, aggravating or mitigating factors, and the degree to which such factors should impact on sentence. The panel will report to the council, which will, in due course, produce a guideline.

**Mr. Paice:** To ask the Secretary of State for the Home Department what restrictions on shooting sports are contained within the provisions of the Violent Crime Reduction Bill. [11222]

**Hazel Blears:** Part two of the Bill is aimed at tackling the misuse of firearms and imitation firearms and will not greatly affect legitimate shooting sports. Although the age for acquiring and possessing an air weapon will increase from 17 to 18, young people will still be able to use air weapons under adult supervision, at approved shooting clubs or, if they are 14 or over, on private premises with the owner's consent.

### Young Offenders

**Mr. Mallin:** To ask the Secretary of State for the Home Department at which young offender institutions prisoners are *(a)* taught and *(b)* able to play (i) football, (ii) cricket and (iii) rugby. [2711]

**Fiona Mactaggart:** A large number of establishments hold young offenders and juveniles. The sports activity each establishment is able to offer obviously varies because of the space and facilities available.

A broad survey conducted as a result of the hon. Member's question indicates that at every establishment holding males under 21, football is available. Cricket and rugby are available at around 50 per cent. of these establishments. The rugby played is predominantly touch rugby. Sport is less readily available or in demand in the female estate. A number of female establishments make football available to prisoners, and there is a small amount of cricket and touch rugby played. All sport is supervised and a good deal is coached. Some establishments offer refereeing courses. Others have teams playing competitive matches in leagues. In 2004–05 some 7.9 million hours of physical education were delivered within prisons in the public sector. The total number of hours achieved in contracted establishments is not centrally held, although all prisoners in contracted prisons are offered the opportunity to undertake PE on a frequent basis.

**Alison Seabeck:** To ask the Secretary of State for the Home Department when he expects the full range of special measures provided for in the Youth Justice and Criminal Evidence Act 1999 to be available to use. [9675]

**Fiona Mactaggart:** The special measures contained in sections 23 to 30 of the Youth Justice and Criminal Evidence Act 1999 have been rolled out in stages since July 2002. Details of the remaining partially implemented and unimplemented provisions are set out in the table together with the current plan for implementation.

| *Special measure* | *Current implementation plan* |
|---|---|
| Live links (section 24) | Since 24 July 2002 this measure has been available to all vulnerable or intimidated witnesses, which include children, in the Crown court and child witnesses in need of special protection in magistrates courts. Following the roll out of live link facilities in magistrates courts we plan to make this measure available to all vulnerable or intimidated witnesses in magistrates courts in the near future. An implementation date will be announced in due course. |
| Video recorded evidence in chief (section 27) | This measure has been available since 24 July 2002 in the Crown court for all vulnerable witnesses, which include children and in magistrates courts for children in need of special protection. Before extending the availability of this measure to intimidated witnesses we wish to assess the extra demands that this would place on the relevant criminal justice agencies. As part of this process we are evaluating a pilot that is testing an interview summary as an alternative to full verbatim transcripts of video-recorded interviews. The pilot's independent evaluation report is expected at the end of August and will inform the development of our implementation plans, which will include consultation with the criminal justice agencies. |
| Video recorded cross-examination (section 28) | It was announced on 21 July 2004 that this measure would be reviewed as part of a wider review of child evidence (21 July 2004, *Official Report*, column 40WS). The review group is due to report to Ministers later this month. |
| Examination through an intermediary (section 29) | This measure is currently available in six criminal justice areas in England and Wales (Merseyside, West Midlands, South Wales, Devon and Cornwall, Thames Valley and Norfolk). These pilots are being evaluated until March 2006 after which the timetable for national roll out will be developed. |

## CONSTITUTIONAL AFFAIRS

### Compensation

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what steps she *(a)* has taken and *(b)* plans to take to regulate the advertising of claim management companies. [10210]

**Bridget Prentice:** The Government are taking forward a wide-ranging programme of work to tackle perceptions of a compensation culture and to improve the compensation system for valid claims. A Ministerial Steering Group has been established to drive this forward, supported by an Action Group of expert stakeholders. The programme of work includes action to tackle irresponsible advertising that raises false hopes of compensation and encourages people to bring unnecessary claims.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what measures she intends to introduce to tackle the compensation culture. [10378]

**Bridget Prentice:** The Government are taking forward a wide-ranging programme of work to tackle perceptions of a compensation culture and to improve the compensation system for valid claims. A Ministerial Steering Group has been established to drive this forward, supported by an Action Group of expert stakeholders. The programme of work will include measures in the Compensation Bill to enable claims management companies to be effectively regulated and to clarify the existing common law on negligence to make clear that those who take reasonable care or exercise reasonable skill cannot be held liable for untoward incidents.

### Defence Costs

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how many orders to contribute to defence costs were made at the end of cases in *(a)* the Crown court and *(b)* magistrates courts in each of the last 10 years; and what percentage this represented of all cases heard in each year. [9777]

**Bridget Prentice:** The Legal Services Commission has collected data relating to Recovery of Defence Costs Orders (RDCOs) only since the Criminal Defence Service (Recovery of Defence Costs Orders) Regulations came into force on 2 April 2001. Under these regulations, an RDCO cannot be made in magistrates courts; therefore the data in the table only relates to Orders made in the Crown court or above. There is currently no system for either means testing or recovery of costs in the magistrates courts, although RDCOs made in the Crown court can cover costs incurred in magistrates courts. However, the Criminal Defence Service Bill now before Parliament is seeking to re-introduce means testing for representation before both the magistrates courts and Crown courts.

| | *RDCOs* | *Defendants* | *Percentage*[1] | *Total value (£)* |
|---|---|---|---|---|
| 2001-02 | 244 | 115,000 | 0.2 | 194,147 |
| 2002-03 | 401 | 124,000 | 0.3 | 763,757 |
| 2003-04 | 615 | 124,000 | 0.5 | 2,120,275 |
| 2004-05 | 442 | 116,000 | 0.4 | 1,082,182 |

[1] figures for RDCOs as total proportion of all defendants

Between 1989 and 2001 applications for criminal legal aid were subject to a means test based on a system of contributions. Less than 1 per cent. of applications were refused legal aid on grounds of means and only 5 per cent. of defendants were ordered to make any contribution towards the cost of their legal aid. A more detailed statistical breakdown of these figures is not readily available and can be provided only at disproportionate cost to this Department.

### Departmental Advertising

**David T.C. Davies:** To ask the Minister of State, Department for Constitutional Affairs how much the Department spent on advertising in each of the last five years. [10258]

**Bridget Prentice:** Since it was set up in June 2003 my Department has conducted three media advertising campaigns:

a regional poster campaign on buses to promote recruitment to the lay magistracy

radio and press adverts to target court fine defaulters (under the title Operation Payback)

press adverts to promote postal voting fraud prevention.

The expenditure is itemised in the following table:

| | *Project* | *Expenditure on advertising (£)* |
|---|---|---|
| 2003 | Operation Payback (Phase 1) | 230,000 |
| | Magistrate recruitment | 342,000 |
| 2004 | Operation Payback (Phase 2) | 292,000 |
| | Magistrate recruitment | 102,000 |
| 2005 | Postal voting | 185,270 |

### Departmental Conferences

**David T.C. Davies:** To ask the Minister of State, Department for Constitutional Affairs how much the Department and its predecessor spent on organising or sponsoring conferences in each of the last five years. [10242]

**Bridget Prentice:** The information is not held centrally and could be obtained only at disproportionate cost.

### Identity Cards

**Mr. Garnier:** To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the cost of equipping premises for which her Department is compatible with identity card readers. [9890]

**Bridget Prentice:** We have been working with the Home Office to identify areas where the Identity cards Scheme could provide business benefits. On 28 June 2005, my right hon. Friend the Home Secretary placed in the Library a paper containing the latest estimates of benefits of the Identity Cards Scheme which shows that the benefits outweigh the costs once the scheme is fully operational. The cost of equipping premises will depend on the nature of the use of the Identity Cards Scheme and the type of identity check(s) necessary to deliver the business benefits. In some cases, benefits could be realised without the use of card readers and the cost of installing any readers needs to be considered alongside future plans to refresh or upgrade IT systems. As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit which will allow us to further refine our estimates of costs and benefits.

### Lay Magistrates (Northern Ireland)

**Mr. Dodds:** To ask the Minister of State, Department for Constitutional Affairs in how many cases lay magistrates were involved in Northern Ireland in each of the last five years. [11612]

**Bridget Prentice:** The new judicial office of lay magistrate in Northern Ireland was established on 1 April 2005. Case disposal statistics from 1 April 2005 are not currently available. However, during the period April 2004 to March 2005, 2,057 youth defendants were disposed of in the youth courts in Northern Ireland and 5,007 cases were disposed of in the family proceedings courts.

### Legal Aid

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs whether she plans to extend the contracting system for legal aid to the Crown court. [9778]

**Bridget Prentice:** At present, the contracting system in the Crown court is limited to Very High Cost Criminal Cases—cases that are expected to last for 41 days or more. These cases are managed under contract by the Complex Crime Unit at the Legal Services Commission.

The procurement of criminal defence services, including the management of high cost cases in the Crown court, will be covered by the independent review of Legal Aid Procurement by Lord Carter of Coles which was announced on 6 July. Lord Carter will produce a plan by early 2006 showing how to deliver modern procurement methods that contribute to a more proportionate way of spending legal aid, while ensuring reasonable client choice and sufficient quality.

**Mr. Hood:** To ask the Minister of State, Department for Constitutional Affairs how much money was allocated to *(a)* criminal legal aid and *(b)* civil legal aid in England in *(a)* 2003 and *(b)* 2004; and if she will make a statement. [11491]

**Bridget Prentice:** Funding for legal aid is not allocated separately to England. The Legal Services Commission provides funding to England and Wales. However, spending in England and Wales on the Criminal Defence Service (CDS) and the Community Legal Service (CLS) during 2003–04 and 2004–05 was as follows:

*£ million*

| | *CLS* | *CDS* |
|---|---|---|
| 2004–05 | 845 | 1,192 |
| 2003–04 | 898 | 1,179 |

**Mr. Hood:** To ask the Minister of State, Department for Constitutional Affairs how much money was allocated to spending on legal aid in England in *(a)* 2003, *(b)* 2004 and *(c)* 2005; and if she will make a statement. [11492]

**Bridget Prentice:** Legal aid is not separately allocated to England. Spending on legal aid in England forms part of overall spending in England and Wales. Spending in England and Wales for each of the last full financial years for which figures are available are as follows:

*£ million*

| | |
|---|---|
| 2004–05[1] | 2,038 |
| 2003–04 | 2,076 |
| 2002–03 | 1,909 |

[1] Figures for 2004–05 are estimates and subject to audit.

**Mr. Hood:** To ask the Minister of State, Department for Constitutional Affairs what plans the Department has to reform legal aid spending in England and Wales following the recent review of the legal aid process; and if she will make a statement. [11494]

**Bridget Prentice:** I refer the hon. Member to my written statement of 5 July 2005, *Official Report*, column 4WS, announcing the publication of "A Fairer Deal for Legal Aid", which sets out the Government's plan for legal aid reform in England and Wales.

### Legal Claims

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what steps she has taken to review the use of insurance in relation to legal claims. [10377]

**Bridget Prentice:** As part of its programme of work to tackle perceptions of a compensation culture and to improve the compensation system for valid claims, the Government are working with the insurance industry and other stakeholders to promote the availability of affordable liability insurance.

### Small Claims Court

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what steps assessment she has made of the effects of raising the financial limit for the small claims track. [10211]

**Bridget Prentice:** The Better Regulation Task Force in its report, 'Better Routes to Redress' recommended that research should be carried out into the potential impact of raising the small claims limit for personal injury cases from the current limit of £1,000. The Government indicated that they would carry out this research and would also consider other options for dealing with these claims in a more proportionate and cost effective way. That research is currently under way and consultation will take place on any proposals which may emerge.

### Statutory Instruments (Sponsorship)

**Mr. Amess:** To ask the Minister of State, Department for Constitutional Affairs if she will list the statutory instruments sponsored by the Department and its predecessor since 1997. [10546]

**Bridget Prentice:** Lists of all statutory instruments (SIs) from 1 January 1998 to 30 June 2005, prepared by the Office of Public Sector Information (OPSI) have today been placed in the Library. These lists, prepared in alphabetical order by department, detail for each year from 1998 the number and title of each statutory instrument sponsored by the department. There are separate lists for General and Local SIs. SIs which have been originated by departments but which were also Orders in Council are only listed under the Privy Council Office (PCO).

## WORK AND PENSIONS

### Benefits/Pensions (Payment Methods)

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions pursuant to the answer given on 20 June 2005, *Official Report*, column 707W, on benefits/pensions (payments methods), in what format information is available on the number of complaints that have been received regarding the introduction of direct payment for the payment of pensions and benefits. [9608]

**Mr. Plaskitt:** No record is held on the number of complaints received specifically about the introduction of direct payment.

Data collected by the Pension Service, Disability and Carer's Service and the Jobcentre Plus Chief Executive's Office shows that between April 2004 and March 2005 around 2,500 letters were classified as being wholly or mainly about direct payment issues. But these could have been about a number of issues related to direct payment, including straightforward requests for information. They were not necessarily complaints.

In addition, Ministers received around 1,500 letters on the subject of direct payment over the same period. Again these letters could have covered any aspect of direct payment and were not necessarily complaints.

97 per cent. of customers are now paid by direct payment and 93 per cent. have said that they are happy receiving their payments this way. To put the number of possible "complaints" into context, over 15 million customers are paid by direct payment and between April 2004 and March 2005 DWP made over 455 million payments into customer's accounts.

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions pursuant to the answer given on 25 May 2005, *Official Report*, column 117W, on benefits payment, if he will list those publications which provide benefit and pension recipients with information on direct payment; and which of these publications *(a)* advise customers who do not think they can use an account to contact his Department and *(b)* provide information on the exceptions service. [9612]

**Mr. Plaskitt:** Direct payment is referred to in a number of departmental, stakeholder and other Government publications. To identify all of these publications and their references to direct payment could be obtained only at disproportionate cost because the information is not held centrally

Now that the Department has completed its main programme of converting existing customers to direct payment, those customers who need to tell us that they do not think they can use an account are likely to be making a new claim for a benefit or pension.

Information on direct payment is included in all our current claim packs. Customers are given the opportunity to request information on being paid by other methods within these claim packs. The Department will then contact any customers that request more information to discuss the options available to them.

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions what steps the *(a)* Pensions Agency and *(b)* Benefits Agency have taken to disseminate information about the exceptions scheme in accessible formats for customers who cannot read print. [3157]

**Mr. Plaskitt:** We do not specifically market payment by cheque because we do not believe cheques are appropriate for the vast majority of our customers. Payment into an account is the safest, most reliable way to receive payment and in most cases provides the greatest range of access to cash and other financial services.

The Pension Service has a local service, whose staff will visit customers who cannot read print, and request assistance.

Jobcentre Plus make direct payment information available in large print and in Braille. Staff have been trained to deliver information about the methods of payment available to suit the needs of the customer. This can be by phone or face to face interview at the customer's home if necessary. The Jobcentre Plus website is accessible to visually impaired customers via JAWS software (Job Access with Speech) which translates information into synthesized speech.

Disability and Carers Service will also provide information in large print, Braille or audio and will arrange to visit those customers who request assistance.

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions what records the *(a)* Pensions Agency and *(b)* Benefits Agency keeps of the preferred formats of customers who are unable to read print. [3158]

**Mr. Plaskitt:** Pension Service staff keep either manual or electronic records of customers' preferred formats, as available. In the longer term, the relevant benefits systems will incorporate an automatic indicator as to a customer's preferred format. Similarly, Jobcentre Plus, which brought together the Benefits Agency and the Employment Service in 2002, advises offices to keep records of a customer's preference for non-standard formats. Such records will be electronic where IT systems are able to support this and clerical where they are not.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many emergency payments have been made by *(a)* the Benefits Agency and *(b)* the Pensions Service in each year since 2000; what the total value was of the emergency payments made by each body; and whether the payments were made by (i) cheque, (ii) direct payment and (iii) cash. [10278]

**Mr. Plaskitt:** The information is not available in the format requested.

There is no legislation under which the Department or its Agencies make specifically termed emergency payments. However, Social Fund Crisis Loans can be made to people who find themselves in an emergency situation. Jobcentre Plus, which replaced part of the Benefits Agency, administers the Social Fund for its own and The Pension Service's customers.

The following table shows the volume and value of Crisis Loans since 2000.

| *April to March each year:* | *Crisis Loan awards* | *Crisis Loan expenditure (£ million gross)* |
|---|---|---|
| 2000–01 | 930,000 | 65.3 |
| 2001–02 | 991,000 | 74.9 |
| 2002–03 | 1,064,000 | 84.6 |
| 2003–04 | 1,059,000 | 85.1 |
| 2004–05[1] | 1,000,000 | 81.9 |

[1] Will appear in the SoS Annual Report for the Social Fund which has not yet been published.

Secretary of State Annual Reports for the Social Fund

## Child Support Agency

**Mr. Evans:** To ask the Secretary of State for Work and Pensions what the average time taken by the Child Support Agency to reply to a letter from a member of the public is in the last year for which figures are available. [804]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Stephen Geraghty to Mr. Nigel Evans, dated 13 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what the average time taken by the Child Support Agency to reply to a letter from a member of the public is in the last year for which figures are available.

The Agency receives a great many letters from the public every day. These range from simple enquiries to complaints. For the majority of letters we do not record how long it takes to reply to them. I am sorry to say that I am not therefore able to answer the question in terms of all letters received from clients.

However, we do have targets to resolve or agree a resolution plan in 68% of client complaints within 15 working days of receipt. I can tell you that 74.3% of complaints were resolved or a resolution plan was agreed in 2004–05.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions when the internal audit recommendation in 2003–04 regarding an effective audit trail for CS2 was made; and when such a trail was established. [8753]

**Mr. Plaskitt:** The internal audit recommendation regarding an effective audit trail for CS2 was made in December 2003. An interim audit trail is operating in CS2 currently. The current plans indicate that full audit trail functionality will be implemented in spring 2006 following a further release of the software.

## Housing Benefit

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions how many prosecutions for housing benefit fraud were undertaken by each local authority in each year since 1997; how many were successful; and how many people were imprisoned as a result. [5488]

**Mr. Plaskitt:** The available information has been placed in the Library. Information regarding imprisonment is not available.

**Sarah Teather:** To ask the Secretary of State for Work and Pensions how many people received housing benefit in each London borough in the last period for which figures are available; and how much was paid in total in each. [2482]

**Mr. Plaskitt:** The information is in the following tables.

*Average housing benefit caseloads in London local authorities: February to November 2004*

| *Local authority* | *Number* |
|---|---|
| Barking and Dagenham | 16,600 |
| Barnet | 19,600 |
| Bexley | 10,600 |
| Brent | 25,800 |
| Bromley | 14,300 |
| Camden | 27,800 |
| City of London | 1,100 |
| Croydon | 23,100 |
| Ealing | 21,800 |
| Enfield | 20,200 |
| Greenwich | 23,900 |
| Hackney | 31,600 |
| Hammersmith and Fulham | 19,200 |
| Haringey | 28,600 |
| Harrow | 11,200 |
| Havering | 10,200 |
| Hillingdon | 14,800 |
| Hounslow | 15,600 |
| Islington | 28,800 |
| Kensington and Chelsea | 15,600 |
| Kingston upon Thames | 6,700 |
| Lambeth | 34,200 |
| Lewisham | 28,000 |
| Merton | 9,600 |
| Newham | 32,100 |
| Redbridge | 12,500 |
| Richmond upon Thames | 7,900 |
| Southwark | 35,000 |
| Sutton | 8,800 |
| Tower Hamlets | 31,000 |
| Waltham Forest | 19,500 |
| Wandsworth | 21,900 |
| Westminster | 20,700 |
| London | 648,300 |

*Notes:*

1. The data refers to benefit units, which may be a single person or a couple.
2. Figures are rounded to the nearest 100.
3. Figures for any non-responding authorities have been estimated.
4. Housing benefit figures exclude any extended payment cases.

Local authority claims for Housing Revenue Account subsidy and Housing Benefit and Council Tax Benefit subsidy.

### Incapacity Benefit

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions what the average entry wage has been of those returning to work after claiming incapacity benefit as a proportion of the ongoing wage for men and women aged *(a)* 18 to 24, *(b)* 25 to 29, *(c)* 30 to 34, *(d)* 35 to 39, *(e)* 40 to 44, *(f)* 45 to 49, *(g)* 50 to 54 and *(h)* 55 to 58 in (i) the UK and (ii) Pathways to Work pilot areas from 1979 to the most recent year for which figures are available. [11577]

**Margaret Hodge** *[holding answer 11 July 2005]:* The information is not available.

### Income Support

**Mr. Amess:** To ask the Secretary of State for Work and Pensions how many *(a)* males and *(b)* females aged (i) 16 to 24, (ii) 25 to 30, (iii) 30 to 39 and (iv) 40 years and over were on income support in each of the last five years for which figures are available. [10477]

**Mr. Plaskitt:** The information is in the table.

*Income support claimants in Great Britain by age and gender at dates shown*

| As at February: | All claimants | 16–24 | 25–29 | 30–39 | 40–59 | 60 and over |
|---|---|---|---|---|---|---|
| *2000* | | | | | | |
| All | 3,805,700 | 336,100 | 318,600 | 700,500 | 858,200 | 1,592,400 |
| Male | 1,298,700 | 83,400 | 85,100 | 219,500 | 400,500 | 510,200 |
| Female | 2,507,000 | 252,700 | 233,500 | 480,900 | 457,700 | 1,082,200 |
| *2001* | | | | | | |
| All | 3,890,000 | 329,500 | 301,700 | 698,200 | 893,500 | 1,667,200 |
| Male | 1,341,700 | 81,600 | 80,700 | 222,900 | 417,200 | 539,400 |
| Female | 2,548,300 | 247,900 | 221,000 | 475,300 | 476,300 | 1,127,800 |
| *2002* | | | | | | |
| All | 3,940,700 | 321,100 | 282,700 | 687,300 | 925,300 | 1,724,300 |
| Male | 1,377,000 | 80,100 | 76,000 | 223,400 | 430,800 | 566,700 |
| Female | 2,563,700 | 241,000 | 206,700 | 463,900 | 494,500 | 1,157,600 |
| *2003* | | | | | | |
| All | 3,959,500 | 305,900 | 268,300 | 678,400 | 951,700 | 1,755,200 |
| Male | 1,399,300 | 67,700 | 73,000 | 223,600 | 441,500 | 593,300 |
| Female | 2,560,300 | 238,200 | 195,300 | 454,700 | 510,200 | 1,161,800 |
| *2004* | | | | | | |
| All | 2,204,000 | 302,100 | 262,200 | 665,100 | 969,100 | 5,500 |
| Male | 807,200 | 64,800 | 71,600 | 221,100 | 447,400 | 2,300 |

| *2005* | | | | | | |
| All | 2,137,000 | 292,600 | 251,100 | 620,400 | 972,500 | [1]500 |
| Male | 778,600 | 60,300 | 66,800 | 207,200 | 444,100 | [1]200 |
| Female | 1,358,400 | 232,300 | 184,300 | 413,200 | 528,400 | [1]300 |

[1] Figures are based on very few sample cases and therefore subject to a high degree of sampling variation.

*Notes:*

1. Figures have been rounded to the nearest hundred.

2. From November 2003 IS figures are affected by the introduction of pension credit, which replaced minimum income guarantee on 6 October 2003 and extended income support entitlement to customers aged 60+. Pension credit cases are not included in the figures in the table.

Information Directorate, 5 per cent. samples

### Pension Rights

**Mike Penning:** To ask the Secretary of State for Work and Pensions how the Government calculated the funding required to compensate those workers who have lost occupational pension rights; and if he will make a statement. [11916]

**Mr. Timms:** The Financial Assistance Scheme (FAS) will give assistance not compensation to people whose defined benefit occupational pension schemes started to wind up underfunded, with insolvent employers, before the start of the Pension Protection Fund. The aim is not to replace all members' losses, but to give significant help to those most seriously affected, and the Government believe that its commitment of £400 million of public funds over 20 years is an appropriate provision for that. The £400 million figure reflects information available, at the time of the original announcement on FAS in May 2004, about the extent of relevant pension scheme failures. It also reflects a judgment on what it was reasonable to provide from public funds.

## FOREIGN AND COMMONWEALTH OFFICE

### Democratic Republic of Congo

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make an assessment of the flow of arms into the Democratic Republic of Congo, including those that may have been trafficked *(a)* through the UK and *(b)* via UK brokers. [11431]

**Ian Pearson:** A UN arms embargo in the Democratic Republic of Congo has been in place since July 2003, and was strengthened in April 2005 by UN Security Council Resolution 1596. Despite efforts to enforce the embargo, it has been reported that rebel groups operating in eastern DRC are receiving limited supplies of new arms and ammunition. Any information received that alleges that arms may have been trafficked through the UK, or that UK companies or individuals are violating the embargo, is passed on to the relevant UK investigatory authorities for action. To date, there have been no prosecutions in the UK.

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the status of the UN arms embargo relating to the Democratic Republic of Congo. [11432]

**Ian Pearson:** The Democratic Republic of Congo (DRC) has been subject to an arms embargo since July 2003. On 18 April 2005, the UN Security Council decided in its resolution 1596 (2005) to broaden the scope and geographical range of the arms embargo. The embargo prohibits the transfer of arms to any part of DRC, subject to certain exemptions for humanitarian activities and for official DRC and UN troops. It also provides for a travel ban and assets freeze on individuals who violate the embargo.

### EU Human Rights Obligations

**Mr. Andrew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether there is a common definition of torture for the purpose of compliance with the human rights obligations of EU member states. [10917]

**Ian Pearson:** All EU member states are parties to the UN Convention against Torture and other Cruel, Inhuman or Degrading Treatment or Punishment. Article 1 of the convention sets out an internationally agreed definition of acts that constitute torture, stating that:

> "the term torture means any act by which severe pain or suffering, whether physical or mental, is intentionally inflicted on a person for such purposes as obtaining from him or a third person information or a confession, punishing him for an act he or a third person has committed or is suspected of having committed, or intimidating or coercing him or a third person, or for any reason based on discrimination of any kind, when such pain or suffering is inflicted by or at the instigation of or with the consent or acquiescence of a public official or other person acting in an official capacity. It does not include pain or suffering arising only from, inherent in or incidental to lawful sanctions."

**Mr. Andrew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what obligations EU member states are under to investigate allegations of torture. [10918]

**Ian Pearson:** All EU member states are parties to the UN Convention against Torture and other Cruel, Inhuman or Degrading Treatment or Punishment. Article 12 of the convention states that:

> "each State Party shall ensure that its competent authorities proceed to a prompt and impartial investigation, wherever there is reasonable ground to believe that an act of torture has been committed in any territory under its jurisdiction."

EU member states also have similar obligations by reason of their being parties to the European Convention on Human Rights.

### EU Presidency

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* total cost of and *(b)* selection procedure for the UK's EU presidency logo. [11752]

**Mr. Douglas Alexander:** The cost of producing the logo for the UK's six month Presidency of the European Union is £10,000. The total cost associated with this project is £35,000 and includes costs such as design integrity guidelines and trade marking. Following a competitive tender, the design was chosen by a panel which included representatives from the Foreign and Commonwealth Office, the Department for Culture Media and Sport and the Cabinet Office and chaired by the Design Council Chief Executive. Approval of the final design was given by Ministers.

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking during the UK's EU presidency *(a)* to inform the UK public about the workings of the EU and *(b)* to involve the public in such workings. [11820]

**Mr. Douglas Alexander:** The Government's communication priority during the UK's EU presidency is to ensure EU citizens are informed on the work of the presidency, including the EU's role in addressing the presidency policy priorities. Over the six months of the presidency, we will be informing and engaging people through the official presidency website, publications and the media. In addition, a number of meetings of the European Parliament and Council will be open to the public, as well as televised and broadcast.

### Iraq

**Harry Cohen:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department contributed to *(a)* the drafting of the new Iraqi constitution and *(b)* the draft petroleum law; and if he will make a statement. [11410]

**Dr. Howells:** The UK has no direct input into the drafting of the Iraqi Constitution. It is up to the Iraqis themselves to decide what goes into it. The Iraqi Constitutional Committee is drafting the text, which will be submitted to a referendum in October.

The Petroleum Law is also a matter for the Iraqis to decide. The UK Government has not contributed to any part of the drafting process.

**Harry Cohen:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many advisers were seconded from the private sector in the UK to *(a)* the Iraq Coalition Provisional Authority and

*(b)* other relevant Iraqi administrative bodies to work on oil industry issues; from which organisations each was seconded; how they were funded; what the costs were; and if he will make a statement. [11518]

**Dr. Howells:** The UK seconded two advisers, one an independent consultant (formerly BP and Shell) and one from BP, to the Coalition Provisional Authority to work on oil industry issues. Total costs for the advisers, met by the UK Government, were £147,700.

### Social Models

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the timetable is for the European Commission research and report into sustainable social models. [11751]

**Mr. Douglas Alexander:** As my right hon. Friend the Prime Minister said on 1 July, the Commission will produce a paper on the challenges for the European social model in the 21st century in advance of the informal summit to be held in the autumn. This builds on the mandate given to the Commission by the European Council in March 2005, to produce a report on the sustainability of the social model in Europe.

### Statutory Instrument Sponsorship

**Mr. Amess:** To ask the Secretary of State for Foreign and Commonwealth Affairs what statutory instruments have been sponsored by his Department since 1997.[10565]

**Mr. Straw:** As the information the hon. Member has requested is lengthy, it has been placed in the Library of the House.

### Zimbabwe

**Lady Hermon:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* Commonwealth and *(b)* African Union counterparts regarding the human rights situation in Zimbabwe. [11232]

**Ian Pearson:** My right hon. Friend the Prime Minister discussed Zimbabwe with African Leaders at the G8 Summit in Gleneagles.

My noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Lord Triesman of Tottenham) and my right hon. Friend the Secretary of State for International Development (Hilary Benn) attended the recent African Union Summit in Libya where they discussed Zimbabwe with African and other leaders, including the African Union Chairperson Alpha Konare and United Nations Secretary General Kofi Annan. We continue to make clear our view that African leaders should engage with the Government of Zimbabwe to seek an end to the ongoing human rights abuses.

We remain in regular dialogue with our Commonwealth partners. Many have joined us in condemning the appalling human rights violations of the Government of Zimbabwe, most recently statements by the Governments of Australia and New Zealand condemning the human rights situation and calling for further international action.

## HEALTH

### Alliance Medical

**Mr. Kevan Jones:** To ask the Secretary of State for Health who is responsible for health and safety assessment of the site occupied by Alliance Medical in Middlesbrough. [8260]

**Mr. Byrne** *[holding answer 30 June 2005]:* The location and suitability of the site were agreed between the host national health service trust and Alliance Medical Ltd. (AML). AML is contractually obliged to comply with existing health and safety legislation and is responsible for patient and staff safety inside the mobile unit.

**Mr. Kevan Jones:** To ask the Secretary of State for Health (1) what the pay rates are for staff working for Alliance Medical; and what the rates are for equivalent staff working in the NHS; [8723]

(2) what percentage of staff working for Alliance Medical are former NHS employees; [8724]

(3) what percentage of staff working for Alliance Medical are not UK citizens. [8727]

**Mr. Byrne** *[holding answer 4 July 2005]:* The Department does not hold the information requested about staff working for Alliance Medical Ltd. who are expected not to recruit staff who have been employed by the national health service in the preceding six-month period.

Rates of pay for most non-medical staff working in the national health service are based on the new pay and reward system, Agenda for Change. Details of Agenda for Change, including current pay bands and rates, are available at:

www.dh.gov.uk/PolicyAndGuidance/HumanResourcesAndTraining/ModernisingPay/AgendaForChange/fs/en

### Anti-psychotics

**Sandra Gidley:** To ask the Secretary of State for Health what monitoring her Department *(a)* has undertaken and *(b)* plans to undertake of the prescription of (i) olanzapine, (ii) risperidone and (iii) other anti-psychotics for people with dementia. [10075]

**Jane Kennedy:** The Department does not collect information on the prescribing of these drugs specifically for people with dementia.

### Bowel Diseases

**Mr. Lansley:** To ask the Secretary of State for Health what funding has been provided for research into *(a)* ulcerative colitis and *(b)* Crohn's disease from the Department's research and development programme. [9510]

**Jane Kennedy:** The Department's national research programme spend on projects related to inflammatory bowel disease in the period from 1994 to 2004 was £503,000. This figure includes part of the cost of a project on combined measles, mumps and rubella vaccine safety in relation to juvenile Crohn's disease.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Details of completed and ongoing projects, including a number concerned with ulcerative colitis and with Crohn's disease, can be found on the national research register at www.dh.gov.uk/research.

**Mr. Lansley:** To ask the Secretary of State for Health what steps she is taking to improve services for patients suffering from *(a)* ulcerative colitis and *(b)* Crohn's disease. [9512]

**Mr. Byrne:** It is for primary care trusts to commission appropriate local services according to local need in order to improve care for people with long-term conditions, as set out in the NHS Improvement Plan.

### Breast Milk Substitute Advertising

**Lynne Jones:** To ask the Secretary of State for Health how many complaints have been made to the Advertising Standards Authority (ASA) about breast milk substitute advertising in the UK in the last three years; and whether the ASA has issued a ruling in response to all complaints. [10435]

**Caroline Flint:** I am not in a position to answer this question as issues relating to advertising complaints are the responsibility of the Advertising Standards Authority (ASA), which is an independent body. Any questions relating to the number of complaints made about breast milk substitute advertising should be referred directly to the head of complaints at the ASA.

### Charities (Care Standards Annual Fees)

**Geraldine Smith:** To ask the Secretary of State for Health (1) what help her Department makes available for small charities to meet the Care Standards annual fees; [10149]

(2) if she will exempt charities from paying Care Standards annual fees. [10150]

**Mr. Byrne:** There are no special arrangements available for small charities to meet annual fees. However, in setting the fees in 2002–03, the cost of registering and inspecting different types and sizes of service providers, was taken into account.

The Government cannot exempt charities from paying annual fees as this would be unfair to other care providers. All providers benefit from the assurance that regulation gives, including the voluntary sector.

### Child Deaths (Passive Smoking)

**Mr. Amess:** To ask the Secretary of State for Health what estimate she has made of the number of children who died as a result of breathing in their mother's cigarette smoke in the last year for which figures are available. [10577]

**Caroline Flint:** This information is not collected centrally.

### Deafblind Services (Milton Keynes)

**Mr. Lancaster:** To ask the Secretary of State for Health if she will make a statement on the level of social service provision for deafblind people in Milton Keynes. [10777]

**Mr. Byrne:** Information about the level of social service provision is not held centrally. It is for the local social services to decide how resources should be allocated between services, taking account of local circumstances and priorities.

### Departmental Advertising

**David T.C. Davies:** To ask the Secretary of State for Health how much the Department spent on advertising in each of the last five years. [10230]

**Jane Kennedy:** The table shows the expenditure on major information campaigns and advertising commissioned by the Department's communications directorate for the past five years—2000–01 to 2004–05. The figures include the costs of campaign-related publishing, television radio, poster, newspaper and magazine advertising.

*Advertising expenditure*

| *Financial year* | *£ million* |
|---|---|
| 2000–01 | 20.80 |
| 2001–02 | 20.41 |
| 2002–03 | 23.13 |
| 2003–04 | 38.98 |
| 2004–05 | 32.7 |

### Digestive Conditions

**Mr. Lansley:** To ask the Secretary of State for Health how many *(a)* completed consultant episodes and *(b)* deaths relating to digestive conditions and diseases there have been in each year since 1997, broken down by gender. [9289]

**Mr. Byrne:** The information requested is shown in the following tables.

*Count of finished admission episodes for selected diagnoses (based on ICD-10 codes)—primary diagnosis-digestive conditions and diseases, national health service hospitals, England 1997–98 to 2003–04*

| *Diagnosis grouping of digestive conditions and diseases* | *Female* | *Male* | *Not known* |
|---|---|---|---|
| *1997–98* | | | |
| K00-K14 Diseases of oral cavity, salivary glands and jaws | 96,604 | 72,764 | 1,924 |
| K20-K31 Diseases of oesophagus, stomach and duodenum | 129,042 | 145,394 | 1,118 |
| K35-K38 Diseases of appendix | 16,608 | 19,531 | 206 |
| K40-K46 Hernia | 44,619 | 99,988 | 486 |
| K50-K52 Non infective enteritis and colitis | 51,055 | 42,480 | 577 |
| K55-K63 Other diseases of intestines | 105,452 | 87,267 | 1,056 |
| K65-K67 Diseases of peritoneum | 3,890 | 2,173 | 38 |
| K70-K77 Diseases of liver | 7,810 | 10,785 | 63 |
| K80-K87 Disorders of gall bladder, biliary tract and pancreas | 62,437 | 34,410 | 583 |
| K90-K93 Other diseases of the digestive system. | 21,757 | 23,945 | 276 |

*Count of finished admission episodes for selected diagnoses (based on ICD-10 codes)—primary diagnosis-digestive conditions and diseases. national health service hospitals, England 1997–98 to 2003–04*

| *Diagnosis grouping of digestive conditions and diseases* | *Female* | *Male* | *Not known* |
|---|---|---|---|
| Total | 539,274 | 538,737 | 6,329 |
| *1998–99* | | | |
| K00-K14 Diseases of oral cavity, salivary glands and jaws | 104,361 | 80,455 | 76 |
| K20-K31 Diseases of oesophagus, stomach and duodenum | 138,348 | 155,011 | 92 |
| K35-K38 Diseases of appendix | 16,169 | 19,656 | 13 |

| K90-K93 Other diseases of the digestive system. | 25,354 | 28,334 | 2 |
| Total | 592,675 | 586,681 | 135 |

*Notes:*
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Figures are grossed for both coverage and missing/invalid clinical data, except for 2002–03 and 2003–04, which are not yet adjusted for shortfalls.
4. "Not known"—records from which data compiled do not clearly indicate the sex of the patient.
*Source:*
HES, Health and Social Care Information Centre.

*Number of deaths from diseases of the digestive system[1] England and Wales, 1997–2003[2]*

| | *Male* | *Female* |
|---|---|---|
| 1997 | 6,849 | 8,303 |
| 1998 | 7,147 | 8,267 |
| 1999 | 7,385 | 8,437 |
| 2000 | 7,429 | 8,618 |
| 2001[3] | 8,040 | 9,479 |
| 2002[3] | 8,320 | 9,520 |
| 2003[3] | 8,447 | 9,750 |

[1] Defined using the International Classification of Diseases Ninth Revision codes 520–579 for 1997–2000 and the International Classification of Diseases Tenth Revision codes KOO-K93 for 2001 to 2003.

[2] Data is for deaths occurring in each calendar year.

[3] Data for 2001 onwards may not be directly comparable to that for earlier years due to the introduction of ICD-10 for mortality coding (see: "Office for National Statistics (2002) Report: Results of the ICD-10 Bridgecoding study, England and Wales 1999. Health Statistics Quarterly 14, 75–83.")

**Mr. Lansley:** To ask the Secretary of State for Health what funding has been provided for research into digestive diseases and conditions from *(a)* the Medical Research Council and *(b)* the Department's research and development programme. [9291]

**Jane Kennedy:** The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

In 2003–04, the MRC spent £4.6 million on research relevant to digestive diseases and conditions[1].

The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service. The Department's national research programme spend on projects related to digestive diseases and conditions in 2003–04 was £1.3 million.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by NHS organisations. Details of completed and on-going projects supported by this funding can be found on the national research register at www.dh.gov.uk/research.

[1] Areas of research counted for this purpose include: inflammatory bowel disease, Crohn's disease, ulcerative colitis, cholangitis, irritable bowel syndrome, intestinal disease, gastrointestinal diseases, peptic ulcers, abdominal pain, pancreatitis, gastroenteritis, gastric and intestinal mucosa, dysentery, colonic diseases.

**Digital Hearing Aids (Bedfordshire)**

**Mrs. Dorries:** To ask the Secretary of State for Health what the average waiting time for digital hearing aids was in *(a)* the County of Bedfordshire and *(b)* England in 2004–05. [11018]

**Mr. Byrne:** This information is not held centrally.

**Domiciliary Care**

**Mr. Crabb:** To ask the Secretary of State for Health (1) under what circumstances a local authority can refuse to disregard housing costs and council tax when calculating charges for domiciliary care; [5643]

(2) whether local authorities in England are required to disregard housing costs and council tax when calculating charges for domiciliary care. [5645]

**Mr. Byrne:** The Department issued guidance "Fairer Charging for Home Care and other non-residential Social Services" to all local councils in November 2001, revised in September 2003. It stated that where councils charge for domiciliary care services they should take into account the income of the service user. Paragraph 80vii of the guidance explains that income should be assessed net of housing costs and council tax.

The guidance was issued under section seven of the Local Authority Social Services Act 1970. In the case Regina *v.* Islington London borough council ex parte Rixon (1998), the Court took the view that councils must follow such guidance unless they had a good reason not to.

**Drug and Alcohol Rehabilitation (Leeds)**

**John Battle:** To ask the Secretary of State for Health what plans she has to increase funding for drug and alcohol rehabilitation in *(a)* Leeds West, *(b)* Leeds and *(c)* West Yorkshire. [1726]

**Mr. Byrne:** For drug treatment services, allocations from the pooled drug treatment budget for this year and the next two years are shown in the tables.

*Allocation for Leeds, which includes Leeds West*

| | *Amount (£)* | *Percentage increase over previous year* |
|---|---|---|
| 2005–06 | 4,974,000 | n/a |
| 2006–07 | 7,041,000 | 41.55 |
| 2007–08 | 7,948,000 | 12.88 |

n/a = Not available.

*Allocation for West Yorkshire, which includes; Bradford, Calderdale, Kirklees, Leeds and Wakefield*

| | Amount (£) | Percentage increase over previous year |
|---|---|---|
| 2005–06 | 13,479,000 | n/a |
| 2006–07 | 19,338,000 | 41.55 |
| 2007–08 | 21,828,000 | 12.88 |

n/a = Not available.

Additional funding is spent on drug treatment from mainstream funding, but the Department does not collect this information centrally.

All funding for alcohol treatment is via the mainstream and the Department does not collect this information centrally.

### Emergency Response Services

**Mr. Lansley:** To ask the Secretary of State for Health what the average cost of each response to an emergency call by *(a)* an emergency care practitioner and *(b)* a fully-equipped ambulance has been in the most recent period for which figures are available. [10024]

**Mr. Byrne:** This information is not collected centrally.

**Mr. Lansley:** To ask the Secretary of State for Health how many fully-equipped ambulances have been operated by NHS Ambulance Trusts in England in each year since 1997; and if she will estimate the size of the fleet in 2010. [10025]

**Mr. Byrne:** This information is not collected centrally.

As a result of the Department's strategic review of ambulance services, we expect the number of ambulance vehicles to increase over the next few years. The size of the fleet and fleet mix will vary across the country depending on operational and geographical requirements.

### Finished Consultant Episodes

**Mr. Burstow:** To ask the Secretary of State for Health how many finished consultant episodes there were where obesity was the primary diagnosis in *(a)* each NHS region, *(b)* each strategic health authority and *(c)* England in each year since 2002–03. [10178]

**Caroline Flint:** The information requested is shown in the tables.

*Count of finished consultant episodes where primary diagnosis is obesity for data year 2002–03 and 2003–04*

| Region | 2002–03 | 2003–04 |
|---|---|---|
| England | 1,442 | 1,898 |
| Unknown | 22 | — |
| Northern and Yorkshire | 348 | 493 |
| Trent | 164 | 157 |
| West Midlands | 102 | 169 |
| North-west | 241 | 301 |
| Eastern | 56 | 96 |
| London | 258 | 348 |
| South East | 156 | 201 |
| South West | 95 | 133 |

*Count of finished consultant episodes where primary diagnosis is obesity for data year 2002–03 and 2003–04, by strategic health authority*

| Strategic health authority | 2002–03 | 2003–04 |
|---|---|---|
| Norfolk, Suffolk and Cambridgeshire | 42 | 63 |
| Bedfordshire and Hertfordshire | 20 | 21 |
| Essex | 16 | 12 |
| North West London | 59 | 80 |
| North Central London | 51 | 97 |
| North East London | 32 | 34 |
| South East London | 58 | 80 |
| South West London | 58 | 57 |
| Northumberland, Tyne and Wear | 68 | 81 |
| County Durham and Tees Valley | 20 | 26 |
| North and East Yorkshire and N Lincolnshire | 66 | 142 |
| West Yorkshire | 199 | 243 |
| Cumbria and Lancashire | 17 | 29 |
| Greater Manchester | 91 | 165 |

Hospital Episode Statistics (HES), Health and Social Care Information Centre

### General Practitioners

**Mr. Burstow:** To ask the Secretary of State for Health how many GP vacancies there have been in each of the last five years; and how many applicants there were for each vacancy. [7197]

**Mr. Byrne:** The requested information is shown in the table. The increase in vacancies over this period arises from the increase in new general practitioner principal posts as the GP workforce has been expanded. The estimated three-month vacancy rate showing hard-to-fill GP principal posts decreased between 2003 and 2004.

*All reported GP vacancy numbers in England, 2000 to 2004*

| | England total reported vacancies | Average number applicants of per vacancy |
|---|---|---|
| 2000 | 1,143 | 8.5 |
| 2001 | 2,345 | 6.9 |
| 2002 | 2,487 | 4.4 |
| 2003 | 3,245 | 3.3 |
| 2004 | 3,076 | 3.7 |

*Notes:*

1. Numbers relate to GP principal vacancies occurring at any time in the 12 month survey period of 1 April to 31 March each year.
2. Numbers were collected directly from primary care trusts

(PCTs) from 2003; previous years' vacancy numbers were collected from health authorities. Over this period, a varying, small number of PCTs and health authorities did not respond to the survey.

*Source:*

Department of Health GP recruitment, retention and vacancy surveys, 2000 to 2004.

**Mr. Lansley:** To ask the Secretary of State for Health how many general practitioners there were in each strategic health authority area per *(a)* 100,000 weighted population and *(b)* 100,000 unweighted population in the most recent period for which figures are available. [10028]

**Mr. Byrne:** The information requested is shown in the table.

*General medical practitioners (excluding retainers and registrars)1 by strategic health authority per 100,000 unweighted population2, and per 100,000 weighted population3, as at 31 December 2004—England*

| | | | | *Number (headcount)* |
|---|---|---|---|---|
| | | *All practitioners (excluding retainers and registrars)1* | *All practitioners (excluding retainers and registrars)1 per 100,000 unweighted population2* | *All practitioners (excluding retainers and registrars)1 per 100,000 unweighted population3* |
| | England | 31,798 | 63.78 | 63.81 |
| | *North East* | | | |
| Q10 | County Durham and Tees Valley | 751 | 65.48 | 58.42 |

3. Department of Health

**Mr. Paterson:** To ask the Secretary of State for Health how many full-time equivalent GPs are practising in each of the major towns of the North Shropshire constituency. [10934]

**Mr. Byrne:** The information requested is not held centrally. Shropshire and Staffordshire Strategic Health Authority reports that the number of whole-time equivalent (wte) general practitioners practising in major towns in North Shropshire is as shown in the table.

| *Town* | *Wte GPs* |
|---|---|
| Clive | 3.50 |
| Baschurch | 3.00 |
| Shawbury | 2.00 |
| Ellesmere | 4.50 |
| Hodnet | 2.50 |
| Market Drayton | 8.00 |
| Wem/Prees | 5.25 |
| Whitchurch | 6.75 |

### Health Care (Merton)

**Mr. Burstow:** To ask the Secretary of State for Health what action she is taking in response to the London borough of Merton's referral of the Better Healthcare Closer to Home Proposals; and if she will make a statement. [10436]

**Jane Kennedy:** The Secretary of State has received a referral from the London borough of Merton on the reconfiguration decisions made by the local national health service. The issues raised are now being considered.

### Healthy Start Initiative

**Mr. Kidney:** To ask the Secretary of State for Health when the "Healthy Start" initiative will be implemented; and what provision has been made for additional training on nutrition and practical healthy eating on a low income to health visitors and midwives before the scheme starts. [11205]

**Caroline Flint:** The "Healthy Start" scheme, which will replace the current welfare food scheme, will be implemented in stages. Subject to parliamentary approval, phase one of "Healthy Start" is expected to be implemented in Devon and Cornwall in November 2005. Phase two of the scheme is expected to be implemented from mid-2006 across the rest of Great Britain.

A training programme for health professionals will be developed prior to the implementation of "Healthy Start", aimed at providing health professionals with the information they need to support and promote the new scheme. The training will be set in the context of wider public health issues and will take into account the nutritional needs of families on low-income.

### Hepatitis C

**Mr. Amess:** To ask the Secretary of State for Health if she will take steps to increase awareness of the symptoms of hepatitis C among *(a)* general practitioners and *(b)* other doctors. [10867]

**Caroline Flint:** The Department launched a hepatitis C awareness campaign for health care professionals in June 2004, with the distribution of an information pack to all general practitioners and practice nurses in England, and to a range of other health professionals. A new national health service hepatitis C awareness website—www.hepc.nhs.uk—was also established. There have been a range of features about hepatitis C published in medical journals. Awareness-raising activities are continuing.

### Inspection Fees (Charities)

**Tim Loughton:** To ask the Secretary of State for Health what the cost to the Healthcare Commission of carrying out statutory inspections on the Sussex MS Treatment Centre in Southwick, West Sussex, was in the last period for which figures are available. [5915]

**Caroline Flint** *[holding answer 20 June 2005]:* I understand from the Chairman of the Healthcare Commission that the information is not available in the form requested.

### IVF Treatment

**Mr. Marsden:** To ask the Secretary of State for Health (1) how many free cycles of IVF are offered in each primary care trust area; [11834]

(2) what *(a)* targets and *(b)* timescales she has set for primary care trusts to reach the National Institute for Health and Clinical Excellence recommendation to provide three free cycles of IVF treatment. [11835]

**Caroline Flint:** The Department does not collect information centrally on the number of national health service funded in vitro fertilization (IVF) treatments carried out. Following the publication in February 2004 of the National Institute for Health and Clinical Excellence's (NICE) clinical guideline on the assessment and treatment for people with fertility problems, we advised all primary care trusts (PCTs) to offer a minimum of one cycle of IVF by April 2005 to those who meet the clinical criteria, giving priority to couples with no children living with them, and to make progress to full implementation of the guideline in the longer term.

The primary responsibility for the implementation of NICE'S guidelines rests with the NHS at local level. NICE guidelines are one of a range of factors that PCTs must take into account, in liaison with patients' groups and local health bodies, in deciding their policy on the provision of treatment services for the locality. This policy will reflect local needs and priorities.

Compliance with NICE guidance by NHS organisations will be considered by the Healthcare Commission during their review and performance assessment processes.

### Lancashire Ambulance Trust

**Mr. Hoyle:** To ask the Secretary of State for Health when the *(a)* non-executive members and *(b)* chairman of Lancashire Ambulance Trust will be elected; and if she will take steps to ensure that the views of local hon. Members on the process are sought. [10799]

**Mr. Byrne:** The Secretary of State has delegated appointments to all local national health service bodies to the NHS appointments commission. I have asked the Chairman, Sir William Wells to reply direct to the hon. Member.

### Mental Health

**Sandra Gidley:** To ask the Secretary of State for Health (1) what steps are being taken to ensure people with mental health problems *(a)* aged 50 to 64, *(b)* aged 65 to 74, *(c)* aged 75 years or over are offered alternatives to drug treatment; [9899]

(2) what measures are in place to promote good mental health among people aged *(a)* over 50 and *(b)* over 65 years. [9900]

**Mr. Byrne:** The needs of older people with mental health problems are the focus of a standard in the national service framework for older people. Where an older person has severe mental illness due to a psychotic illness, he or she will require the packages of care set out in the national service framework (NSF) for mental health, and the same standards should apply as for working age adults. Non-drug treatments such as psychological therapies are listed among the range of effective interventions for people with mental health problems in both the NSF for mental health and for older people.

The National Institute for Health and Clinical Excellence (NICE) regularly considers the use of non-drug treatments in the development of clinical guidelines for the treatment of a range of mental health problems such as depression and dementia.

The NSFs for mental health and older people include standards on mental health promotion, which requires health and social services to promote mental health for all and combat discrimination against individuals and groups with mental health problems, and promote their social inclusion.

**David Davis:** To ask the Secretary of State for Health what action she intends to take to address the shortfall of funding for the Yorkshire Mental Health Trusts identified by the Commission for Health Improvement. [11544]

**Mr. Byrne:** Primary care trusts (PCTs) are responsible for commissioning health services to meet the needs of their local population, including mental health services. In the current financial year, PCTs across Yorkshire and Humberside received resource revenue allocations totalling £5.5 billion. This will increase to £7.1 billion in 2007–08.

### MMR Vaccinations

**Mr. Lansley:** To ask the Secretary of State for Health what steps her Department is taking to increase stocks of MMR vaccine; and if she will make a statement. [3366]

**Caroline Flint:** The Department has been working with both manufacturers of the measles, mumps and rubella vaccine to increase supplies into the United Kingdom. Additional amounts of the vaccine have been received and will continue to be received throughout the year.

**Mr. Beith:** To ask the Secretary of State for Health whether her Department's guidance restricts the use of MMR vaccinations for 15 to 24-year-olds; and what provision has been made for those in this age group who have not previously had a full course of MMR vaccine and are either *(a)* moving to an area of the country where relevant infections have occurred on a significant scale and *(b)* advised to be vaccinated before enrolling at university or working in residential accommodation. [9449]

**Caroline Flint** *[holding answer 7 July 2005]:* The Department continues to advise that all children receive two doses of the measles, mumps and rubella vaccine as part of the routine childhood immunisation programme. We are also advising 15 to 24-year-olds to ensure they are properly protected against measles, mumps and rubella. This advice is the same for all parts of the county, and all within this age group.

### MRI Scans (Durham)

**Mr. Kevan Jones:** To ask the Secretary of State for Health (1) how many complaints have been made about the operation of the NHS scanner at the University Hospital North Durham; [9397]

(2) how many complaints have been made about scanning services provided by the University Hospital North Durham. [9398]

**Mr. Byrne** *[holding answer 4 July 2005]:* Information on the numbers of complaints under the national health service complaints procedure about specific services is not held centrally.

**Mr. Kevan Jones:** To ask the Secretary of State for Health pursuant to her answer to question reference 8726, what systems are in place to ensure the scanner at University Hospital North Durham is fully utilised. [10975]

**Mr. Byrne** *[holding answer 11 July 2005]:* This information is not held centrally. It is a matter for the national health service trust concerned in partnership with its local primary care trusts as service commissioners.

### Myasthenia Gravis

**Dr. Tony Wright:** To ask the Secretary of State for Health if she will make a statement on myasthenia gravis and the support available for those diagnosed with the disease. [11568]

**Mr. Byrne:** The national health service and social services provide a range of health and social care services specifically tailored to the varying individual needs of those living with myasthenia gravis, allowing them to manage their condition, maintain independence and achieve the best possible quality of life.

### NHS Dentistry

**Mr. Andrew Turner:** To ask the Secretary of State for Health pursuant to the answer of 14 June 2005, *Official Report*, columns 141–156, on dentistry, how many NHS dentists were in place in each of the primary care trusts covering *(a)* the Isle of Wight, *(b)* Milton Keynes, *(c)* South West Devon, *(d)* Torbay, *(e)* Plymouth Devonport, *(f)* Teignbridge, *(g)* Romsey, *(h)* North

West Hampshire, *(i)* Broxbourne and *(j)* Hitchin and Harpenden constituency (i) in 1997 and (ii) at the most recent date for which information is available; and what proportion of the resident (A) under 18 and (B) over 18 years population was known to be registered with an NHS dentist (1) in 1997 and (2) at the most recent date for which information is available in each case. [9955]

**Ms Rosie Winterton** *[holding answer 5 July 2005]:* The information requested has been placed in the Library.

## NHS Research Ethics Committees

**Mr. Lansley:** To ask the Secretary of State for Health if she will list the NHS research ethics committees which are operational; and in what areas they operate. [10054]

**Jane Kennedy:** The national health service research ethics committees and the areas in which they operate are shown in the following list. Under the central booking system, committees can be allocated research proposals outside of their geographical area. In such cases, the ethics committee gives a single opinion for all sites covered by the proposal.

### Nurse Prescribers

**Mr. Lansley:** To ask the Secretary of State for Health what steps she is taking to improve the education and training opportunities for nurses who are independently prescribing drugs. [10023]

**Jane Kennedy:** All health professionals, including nurses, have a professional responsibility to keep their skills and knowledge up-to-date. National health service organisations have a responsibility to enable this, to ensure patient safety and to provide a high quality service. Nurse prescribers take part in audit, review and continuing professional development activities, both individually and within their care teams.

The Department funds the work of the National Prescribing Centre. The centre's aim is,

"to promote and support high quality, cost-effective prescribing and medicines management across the NHS, to help improve patient care and service delivery".

It provides a variety of education and training opportunities to qualified non-medical prescribers.

### Obesity

**Dr. Naysmith:** To ask the Secretary of State for Health if she will make a statement on the development of slimming on referral by Greater and Central Derby Primary Care Trust and Slimming World; what assessment she has made of the effectiveness of this project; how many primary care trusts offer such referral schemes; and what steps she intends to take to promote trusts' awareness and adoption of such schemes. [11896]

**Caroline Flint:** The Government are aware of the work of Slimming World in Greater and Central Derby Primary Care Trust (PCT). The White Paper, "Choosing Health", made a commitment to assess the role the independent sector, including Slimming World and how validated programmes, such as slimming on referral, can play in providing effective behaviour change programmes.

### Older People (Medication)

**Mr. Burstow:** To ask the Secretary of State for Health (1) how many primary care *(a)* groups and *(b)* trusts have schemes in place enabling older people to get help from pharmacists in using their medicines; [6661]

(2) pursuant to the answer of 16 June 2005, *Official Report*, column 642W, on the National Service Framework for Older People, if she will set out for each data collection period since collection began the number and frequency of medication reviews for older people *(a)* in general practitioner surgeries and *(b)* care homes; [8422]

(3) pursuant to the answer of 16 June 2005, *Official Report*, column 642W, on the National Service Framework for Older People, which primary care trusts are taking part in the medicines management collaborative; [8423]

(4) pursuant to the answer of 16 June 2005, *Official Report*, column 642W, on the National Service Framework for Older People, how the quality of medicine reviews are measured; and if she will publish the results. [8424]

**Mr. Byrne:** Information on the number and frequency of medication reviews for older people is not collected centrally.

The medicines partnership and the medicines management collaborative published "Room for Review" 2002, which was widely disseminated and endorsed by the Department. "Room for Review" provides a clear definition to the national health service of a medication review. It also provides guidance on different levels of medication reviews that can be undertaken. The level of review will depend on the complexity of the patients' clinical condition. Strategic health authorities, through their performance management role, ensure that primary care trusts within their areas are providing quality services to their patients.

146 primary care organisations, in four waves, starting in 2001, have taken part in the medicines management collaborative programme. Further details are available at www.npc.co.uk

### Orlistat

**Mr. Burstow:** To ask the Secretary of State for Health how many prescription items of orlistat were dispensed in the community in England in each of the last three years for which figures are available; and how many children received the drug in each of those years. [8244]

**Jane Kennedy:** The numbers of prescription items dispensed in the community in England are shown in the table.

| | *Total* | *Children*[1] |
|---|---|---|
| 2002 | 541,378 | 3,000 |
| 2003 | 485,653 | 2,000 |
| 2004 | 493,309 | 2,000 |

[1] Children are defined as 0 to 15-year-olds and as 16 to 18-year-olds in full-time education. Figures for items dispensed to children are derived by sampling and are rounded to the nearest thousand.

### Pain Management

**Mr. Andrew Turner:** To ask the Secretary of State for Health what estimate she has made of the cost to the economy of sickness absence as a result of pain in 2004–05; if she will take steps to ensure a national standard for the availability of pain management and treatment under the NHS; if she will list pain clinics; and how many patient treatment episodes for pain there were in the most recent year for which figures are available. [9310]

**Mr. Byrne:** It is not possible to estimate the cost to the economy because information about sickness absence as a result of pain as pain is not collected. We do not intend to develop a national standard for the availability of pain management and treatment under the national health service as the Department published "Standards for Better Health" in July 2004, geared to ensuring that high quality care is available to all patients, no matter what condition they are suffering from.

Information about pain clinics is not collected centrally. Figures for patient treatment episodes for pain are not available because, pain is not coded separately in the hospital episode statistics.

### Personal Care Assistance (Coventry)

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what the baseline minimum is for people to receive assistance in financing personal care in Coventry. [11590]

**Mr. Byrne:** Currently, people in England with less than £20,500 are entitled to financial help from social services in meeting the cost of their residential care, which will usually include personal care. People with resources of £12,500 or less do not pay for their residential care.

Councils like Coventry, have discretionary powers to decide whether to charge for personal care provided in non-residential settings. The Department has issued statutory guidance, "Fairer Charging Policies for Home Care and other non-residential Social Services" to councils. Section VIII of the guidance advises that if charges are levied, in assessing service users' ability to pay, councils should not set resource limits lower than those for residential care. In addition, charges should not reduce the user's resources below basic levels of income support, plus a buffer of not less than 25 per cent.

### Physiotherapy Graduates

**Mr. Lancaster:** To ask the Secretary of State for Health how many physiotherapy students graduated in the United Kingdom in 2004. [10823]

**Mr. Byrne:** Information is not collected centrally on the number of physiotherapy students graduating each year in England.

Information for Wales is a matter for the devolved Administration.

### Pregnancy (Smoking)

**Mr. Amess:** To ask the Secretary of State for Health what assessment she has made of the medical effects of smoking by the pregnant woman on the health of an unborn child. [10609]

**Caroline Flint:** The medical effects of smoking by the mother on the health of an unborn child are set out in the national health service leaflet, "S is for smoking and pregnancy." A copy is available in the Library.

### Research and Development

**Mr. Lansley:** To ask the Secretary of State for Health what the total expenditure of her Department's research and development programme has been in each year since it was established; and what proportion of the total NHS budget this equated to in each year. [9513]

**Jane Kennedy:** The Department's total expenditure on research and development (R&D)[1], from the year in which the current system of R&D allocations to national health service providers began and the proportion of the Department's total net expenditure this represents, is shown in the table.

[1] The Department's policy research programme, NHS research and development and research carried out by the Department's arm's length bodies.

| | *Total R&D spend (£ million)* | *R&D as a proportion of total net Departmental spend (percentage)* |
|---|---|---|
| 1997–98 | 486 | 1.38 |
| 1998–99 | 481 | 1.05 |
| 1999–2000 | 501 | 1.02 |
| 2000–01 | 510 | 1.01 |
| 2001–02 | 538 | 0.80 |
| 2002–03 | 574 | 0.86 |
| 2003–04 | 604 | 0.96 |

*Notes:*
1. Expenditure before 1998–99 is on a cash basis.
2. Spend figures from 1999–2000 are on a resource budgeting basis, and total net spend for these years includes NHS pensions.
3. Figures are not therefore directly comparable across the period.

### School Fruit and Vegetable Scheme

**John Mann:** To ask the Secretary of State for Health when she intends to publish the full evaluation of the school fruit and vegetable scheme undertaken by the National Foundation of Educational Research; and what funds her Department has allocated to the scheme beyond 2005–06. [6505]

**Caroline Flint:** The Big Lottery Fund commissioned the National Foundation for Educational Research to carry out the evaluation of the school fruit and vegetable scheme. The Big Lottery Fund expect to publish the final report on their website by the end of August.

An announcement on future funding for the school fruit and vegetable scheme will be made once we have considered the findings from the evaluation.

### Seroxat

**Paul Flynn:** To ask the Secretary of State for Health what her Department's advice is on the prescribing of *(a)* Seroxat and *(b)* other selective serotonin reuptake inhibitors. [11319]

**Jane Kennedy:** On 6 December 2004, a letter was sent to all health professionals in the United Kingdom from the Chairman of the Committee on Safety of Medicines announcing the results of the review of the safety of selective serotonin reuptake inhibitors (SSRIs), including Seroxat and providing prescribing advice for all SSRIs. A copy is available in the Library.

On the same day, the National Institute for Health and Clinical Excellence (NICE) published guidelines on the management of depression in primary care. These guidelines state that antidepressants, including SSRIs, are not recommended for the initial treatment of mild depressive illness because the risk-benefit ratio is poor.

### Simvastatin

**Paul Flynn:** To ask the Secretary of State for Health what percentage of the respondents to the consultation on the proposed reclassification of simvastatin as an over-the-counter drug were in favour of the proposal. [10850]

**Jane Kennedy:** Of the 100 responses received, about one third were supportive of the proposal, one third opposed and one third were not opposed but raised issues. This was the position put to the Committee on Safety of Medicines (CSM), which also had access to the full responses when giving its advice. The consultation raised no issues not already considered by the CSM when their advice to consult on making simvastatin 10 milligrammes (mg) available over the counter was formulated. An error in the summary placed on the website following the announcement of the decision to allow simvastatin 10 mg to be sold in pharmacies had no bearing on the robustness of the deliberations of the CSM.

Responses received to the consultation on the proposed reclassification of simvastatin as an over-the-counter medicine have been made available electronically or summarised on the Medicines and Healthcare products Regulatory Agency's (MHRA) website at:

http://medicines.mhra.gov.uk/inforesources/publications/arm18responses.htm.

To ensure complete transparency, the MHRA publishes the responses to all such consultations—most recently for chloramphenicol eye drops.

### Skin Cancer

**Mark Tami:** To ask the Secretary of State for Health (1) what guidance her Department provides regarding the prevention of skin cancer caused by over-exposure to the sun; [9215]

(2) how much has been spent by her Department on *(a)* advertisements and *(b)* materials to educate individuals on the effects of over-exposure to the sun. [9227]

**Caroline Flint:** In 2003–04, the United Kingdom health departments provided £400,000 funding to Cancer Research UK to run the "SunSmart" sun awareness campaign from 2003–04 for an initial three year period. The campaign aims to raise awareness of skin cancer, the symptoms to look out for and the simple steps on how to prevent it. Posters and information cards have been distributed to health professionals, all

general practitioners' surgeries and schools, to reach as many people as possible with the five point "SunSmart" message:

Stay in the shade between 11.00 am. and 3 pm.

Make sure you never burn

Always cover up

Remember to take extra care with children

Then use factor 15+ sunscreen

"SunSmart" encourages people to protect themselves in the sun, thereby reducing their risk of skin cancer. This public education approach using primary care stakeholders has been very successful in Australia, where changes in attitude towards sun exposure and symptom recognition have reduced skin cancer mortality.

The "SunSmart" campaign works primarily through the distribution of materials, public relations and strategy development, underpinned by research to provide an evidence base.

As Cancer Research UK does not use paid advertising in newsletters or papers as a primary communication tool, costs reflect activities such as promotional merchandise, web presence, sun awareness week activities, purchasing of distribution opportunities and conference presence. Estimates of the value of the coverage and reach generated by the campaign in 2004 are as follows:

Number of articles generated: 932

This is an increase of 485 articles—more than double that generated in 2003

76 per cent. of all United Kingdom adults were reached

The advertising equivalent rate is £6, 687,296

494 million people with an opportunity to see

Reach stayed the same as 2003 at 76 per cent.*

Frequency of message increased from 10.4 to 13.9 per adult

*Note:*

The above does not include reach of free resource materials, but to print and radio coverage at nil cost.

Costs of materials include components for their development and design, printing, storage and distribution. Other costs relate to staff, including on costs, are shown in the table.

£

| | *Total contract* | *Staff costs* | *Advertising and promotion* | *Materials* |
|---|---|---|---|---|
| 2003–04 | 110,000 | 26,000 | 14,500 | 61,000 |
| 2004–05 | 170,000 | 45,000 | 37,000 | 88,000 |
| 2005–06 | 175,000 | 48500 | 39,500 | 87,000 |
| 2006–07 | 180,000 | Unbudgeted at this stage | | |

## Smoking

**John Cummings:** To ask the Secretary of State for Health (1) if she will include in her consultation on the elements of forthcoming health improvement legislation relating to restrictions on smoking the option of designated smoking rooms in workplaces, including licensed premises; [11489]

(2) if she will include in her consultation on elements of forthcoming health improvement legislation relating to restrictions on smoking the designation of well-ventilated smoking rooms which are separated from both bar and eating areas. [11490]

**Caroline Flint:** The Government's proposals were set out in the White Paper, "Choosing Health", in November 2004 for legislation for the vast majority of enclosed public places and workplaces to be smokefree.

Consultation on these proposals began on 20 June, when the consultation paper, "Smokefree elements of the Health Improvement and Protection Bill", was published. A copy is available in the Library.

## Southend Primary Care Trust

**Mr. Amess:** To ask the Secretary of State for Health how many *(a)* NHS clerical, administrative and management staff, *(b)* NHS hospital doctors and GPs and *(c)* NHS nurses and midwives there were in Southend Primary Care Trust in each year since 1990. [10533]

**Ms Rosie Winterton:** The available information is shown in the table.

Information for Southend Primary Care Trust (PCT) is only available from 2001, when the PCT came into existence. Figures by strategic health authority (SHA) are shown from 1992 for medical staff. Information about non-medical staff is only available from 1995.

[1] Excludes Medical Hospital Practitioners and Medical Clinical Assistants, most of whom are GPs working part time in hospitals
[2] General Medical Practitioners includes Contracted GPs, QMS Others, GP Registrars, GP Retainers and PMS Others. Prior to September 2004 this group included QMS Unrestricted Principals, PMS Contracted GPs, PMS Salaried GPs, Restricted Principals, Assistants, Salaried Doctors (Para 52 SFA), PMS Other, Flexible Career Scheme GPs, GP Registrars, GP Retainers and GP Returners.
[3] Data not applicable.

*Note:*
Data each year as at 30 September, except GP and Practice Nurse data as at 1 October 1992–1999,30 September 2000–2004.

*Sources:*
NHS Health and Social Care Information Centre General and Personal Medical Services Statistics.
NHS Health and Social Care Information Centre Non-Medical Workforce Census.
NHS Health and Social Care Information Centre Medical and Dental Workforce Census.

**Mr. Amess:** To ask the Secretary of State for Health how much has been spent by Southend primary care trust on salaries and wages costs for *(a)* general and senior managers, *(b)* nurses and midwives and *(c)* administrative and clerical staff in each financial year since 1997–98. [10534]

**Ms Rosie Winterton:** Expenditure on salaries and wages by Southend primary care trust (PCT) for the occupational groups requested are shown in the following table.

| | *Senior managers and managers* | *Nursing, midwifery and health visiting staff* | *Administrative and clerical* |
|---|---|---|---|
| 2000–01 | 687,377 | 0 | 95,032 |
| 2001–02 | 921,055 | 4,571,231 | 638,711 |
| 2002–03 | 1,532,287 | 4,998,534 | 880,626 |
| 2003–04 | 1,468,100 | 5,298,229 | 918,969 |

*Notes:*
1. The Department collects primary care trust expenditure information on national health service and non NHS staff. The table shows the total expenditure on the occupational categories requested.
2. Southend PCT was created on 1 April 2000. Therefore, expenditure cannot be shown from 1997–98 until this date.
3. The table contains the relevant information for 2000–01 to 2003–04, which is the latest available.
4. Expenditure in the first year is nil or lower than in later years. This is due to the fact that the PCT was setting up services.

### Wem and Ellesmere Medical Practices

**Mr. Paterson:** To ask the Secretary of State for Health (1) what the population in the catchment area of the *(a)* Wem Medical Practice and *(b)* Ellesmere Medical Practice has been in each of the last five years for which figures are available; [10935]

(2) what the age structure of the population in the catchment area of the *(a)* Wem Medical Practice and *(b)* Ellesmere Medical Practice has been in each of the last five years for which figures are available. [10936]

**Mr. Byrne:** The information is not available centrally in the format requested.

Table 1 shows the total number of patients registered at Ellesmere and Wem medical practices at September 2004. This is the only year that the Department holds this information at this level.

*Table 1: Registered patients[1] by age band, as at 30 September 2004—actual numbers*

| *Medical practice* | *Ellesmere* | *Wem* |
|---|---|---|
| Total | 7,219 | 8,889 |
| *(Age)* | | |
| 0–4 | 329 | 406 |
| 5–14 | 921 | 1,096 |
| 15–44 | 2,536 | 3,203 |
| 45–64 | 2,014 | 2,381 |
| 65–74 | 722 | 948 |
| 75–84 | 544 | 645 |
| 85+ | 153 | 210 |

[1] The number of registered patients is the total number of patients registered at each practice, and for whom that practice is responsible.

*Source:*
National Health Service Health and Social Care Information Centre general and personal medical services statistics.

Table 2 shows 2001 census-based resident population estimates for Shropshire County Primary Care Trust (PCT) and the age breakdown of those figures. Figures from before 2001 are not available.

*Table 2: 2001 census-based resident population estimates for Shropshire county PCT by age band*

| | *2001* | *2002* | *2003* |
|---|---|---|---|
| Total population | 283,254 | 285,388 | 286,745 |
| *Age* | | | |
| Less than 1 year | 2,761 | 2,658 | 2,800 |
| 01–04 | 12,429 | 12,102 | 11,657 |
| 05–09 | 16,775 | 16,821 | 16,801 |
| 10–14 | 18,355 | 18,819 | 18,771 |
| 15–19 | 17,784 | 17,881 | 18,508 |
| 20–24 | 12,919 | 13,357 | 13,584 |
| 25–29 | 15,241 | 14,078 | 13,224 |
| 30–34 | 19,217 | 18,939 | 18,297 |
| 35–39 | 21,197 | 21,398 | 21,506 |
| 40–44 | 19,694 | 20,461 | 20,847 |
| 45–49 | 18,808 | 18,893 | 19,185 |
| 50–54 | 21,195 | 20,507 | 19,778 |
| 55–59 | 19,362 | 20,644 | 21,565 |
| 60–64 | 16,198 | 16,550 | 47,143 |
| 65–69 | 14,205 | 14,573 | 14,933 |

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Bovine TB

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the level of illegal culling of badgers by farmers as a method of controlling the spread of bovine TB; and if she will make a statement. [11579]

**Mr. Bradshaw:** Information about the level of illegal culling of badgers by farmers is not generally available. However, the Independent Scientific Group on cattle TB is monitoring suspected unlawful activities within the survey areas of the Randomised Badger Culling Trial. Within those areas, seven suspected incidents of illegal badger culling have been identified since February 2002 and reported to the police authorities.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the recent meeting between the Parliamentary Under-Secretary of State for Local Environment, Marine and Animal Welfare and the South West National Farmers Union on bovine tuberculosis. [7274]

**Mr. Bradshaw:** I met representatives of the South West National Farmers Union on 16 June to discuss the problem of bovine tuberculosis in cattle. This was a positive and constructive discussion. The NFU outlined a number of ideas, subsequently published in a national NFU document on 4 July 2005. The NFU document will be considered as the Government develops its TB strategy as will cost benefit analysis work based on the Irish badger culling trials and other data.

### Climate Change

**Colin Challen:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the statement by the hon. Member for Scunthorpe on 29 June 2005, *Official Report*, column 1376, what assessment her Department has made of the Pew Centre report on climate change. [11634]

**Mr. Morley:** The report I referred to is "International Climate Efforts Beyond 2012: A Survey of Approaches" by the Pew Centre on Global Climate Change which was published in December 2004. The report offers a broad survey of alternative approaches for international climate change efforts beyond 2012 and is therefore a useful background document.

The report describes more than 40 proposals for a future climate change regime either published or publicly presented in recent years. Some of these proposals are comprehensive in nature, setting forth a complete approach for a future regime. Others address a particular issue in the negotiations.

The report starts with a very useful overview of core issues in designing and negotiating future international climate efforts. The second section suggests criteria that could be used in assessing alternative approaches. The third section describes how the different proposals seek to address the core issues identified earlier. The fourth section then summarises each proposal. The report does not make judgments about individual proposals.

### Cormorants

**Ms Angela C. Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to publish the Central Science Laboratory's cormorant population model; and whether the model will be published in a peer-reviewed journal. [12124]

**Jim Knight:** The cormorant model produced by the Central Science Laboratory is already available on the Defra website http://www.defra.gov.uk/wildlife-countryside/vertebrates/piscivorous.htm#cormorants together with comments from independent peer reviewers. The model is currently being updated in the light of more recent information on the trend in cormorant numbers following a short contract to The British Trust for Ornithology. A paper describing the model and its application will be submitted to a peer reviewed scientific journal this autumn.

### Fishing Licences

**Mr. Michael Foster:** To ask the Secretary of State for Environment, Food and Rural Affairs what the value of rod licence sales has been in each region in England and Wales since 2000. [8979]

**Mr. Bradshaw:** The information requested is as follows:

*Rod licence sales 2000–01 to 2004–05*

| | 2001–01 | | 2001–02 | | 2002–03 | |
|---|---|---|---|---|---|---|
| | Number | Income (£) | Number | Income (£) | Number | Income (£) |
| Anglian | 170,525 | 2,203,779 | 180,490 | 2,322,255 | 180,637 | 2,472,067 |
| Midlands | 223,727 | 2,883,144 | 234,736 | 2,972,015 | 240,897 | 3,226,235 |
| N. East | 150,182 | 1,921,645 | 150,364 | 1,877,586 | 160,101 | 2,099,149 |
| N. West | 115,633 | 1,667,808 | 115,689 | 1,582,431 | 119,535 | 1,775,397 |
| S. West | 77,881 | 1,025,145 | 81,192 | 1,027,946 | 79,902 | 1,087,743 |
| Southern | 93,015 | 1,169,381 | 100,320 | 1,223,309 | 106,534 | 1,367,112 |
| Thames | 173,245 | 2,297,131 | 181,492 | 2,392,807 | 199,545 | 2,691,077 |

*Rod licence sales 2000–01 to 2004–05*

Environment Agency

### Livestock Industry

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the future of the livestock industry, with specific reference to the cattle disease compensation tables. [10792]

**Mr. Bradshaw:** At present, the amount of compensation paid for cattle slaughtered as a consequence of a disease outbreak varies according to the disease involved. The Government intend to introduce a consistent approach to determining compensation payments across four cattle diseases (bovine TB, brucellosis, BSE and Enzootic Bovine Leukosis) during 2005. Information is being collected on real market prices in order to allow the payment of compensation on the basis of table valuations.

Payments that reflect actual market prices being achieved for healthy animals of the same category will be fair to both the farmer and the taxpayer, as the proposed new arrangements will address the overvaluation of cattle slaughtered because of bovine TB, the evidence for which is extensive.

### Nappies

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what proportion disposable nappies represented of total municipal solid waste in the last year for which figures are available; and what estimate she has made of the contribution the landfilling of disposable nappies made to the production of greenhouse gases by the UK in that year. [11681]

**Mr. Bradshaw:** We do not collect information on the amount of disposable nappies used nor of the disposal route.

The Strategy Unit report "Waste Not Want Not" estimated that in 2000–01 nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes. In 2003–04 72 per cent. of our household waste was sent to landfill and just under 9 per cent. went to incineration.

The Environment Agency have estimated that disposable nappies contribute 0.02 per cent. to the production of greenhouse gases by the UK.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how much public money has been spent on reusable nappy schemes in the last five years, broken down by *(a)* scheme and *(b)* amount. [11686]

**Mr. Bradshaw:** Information on local authority reusable nappy schemes is not held centrally.

The cost of the reusable nappy programme managed by the Waste and Resources Action Programme is £2.8 million for the three years from 2003–06.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) for how long she expects funding to continue for reusable nappies as part of the WRAP Real Nappy Programme; [11718]

(2) how much funding has been made available for the WRAP Real Nappy Programme to date; and whether the Government plans to continue funding this programme after April 2006. [11719]

**Mr. Bradshaw:** The current funding with WRAP finishes the end of March 2006. We are currently in discussion with WRAP about their programmes, including the Real Nappy Work after this date.

The cost of the re-usable nappy programme managed by WRAP is £2.8 million for the three years 2003–06.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of disposable nappy waste have been diverted by WRAP's Real Nappy Programme to date; how this figure was calculated; what percentage of new re-usable users under the programme continued to use re-usables; and what methodology was used to count them. [11720]

**Mr. Bradshaw:** The aim of the WRAP programme is to convert 155,000 households to re-usable nappies by April 2006, thereby diverting 35,000 tonnes per annum of disposable nappy waste from landfill.

The main features of the programme are pump priming grant aid for small and medium enterprises and new entrants to the nappy laundering business, combined with promotional initiatives targeted at new parents. It is too soon to evaluate the effectiveness of each activity, but funded schemes are reporting progress quarterly, and the benefits of national awareness-raising and advertising will be captured in opinion research to be conducted at the end of the year.

### Recycling

**Mr. Kevan Jones:** To ask the Secretary of State for Environment, Food and Rural Affairs, if her Department will take steps to encourage the *(a)* reduction, *(b)* re-use and *(c)* recycling of plastic carrier bags. [10853]

**Mr. Bradshaw:** The waste strategy for England and Wales—Waste Strategy 2000—emphasises the need to gain more value from waste through re-use, recycling, composting and the recovery of energy. Government are already encouraging retailers to work with the Waste and Resources Action Programme (WRAP) to address levels of plastic bag consumption, and have asked WRAP to investigate the feasibility of a national Bag for Life scheme as part of their Waste Minimisation Programme. Some of the large supermarket chains have already introduced Bag for Life, whereby a charge is made to the customer for a strong and durable plastic bag which is replaced by the retailer when it eventually wears out. The scheme encourages a change in behaviour through the reuse of bags, and the plastic from worn-out bags is recycled. WRAP is investigating the implementation of such a scheme on a national basis.

### Smoking

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate the Government have made of the effect of a public smoking ban on cigarette litter in the streets. [4298]

**Mr. Bradshaw:** Government have not made any estimate of the effect a ban on smoking in public would have on cigarette litter in the streets. However, restrictions on smoking in the workplace do appear to have increased the amount of such litter. The Local Environmental Quality Survey of England, conducted by ENCAMS on behalf of Defra, monitors the prevalence of smoking-related litter, including cigarette ends, cigarette packages, matches and lighters, based on an assessment of over 10,000 sample sites. Over the first three years of the survey, there has been an overall increase in the proportion of sites that have some form of smoking-related litter present:

| | *Percentage of sites* |
|---|---|
| 2001–02 | 63 |
| 2002–03 | 60 |
| 2003–04 | 79 |

Defra is already taking action to reduce smoking-related litter. Section 27 of the Clean Neighbourhoods and Environment Act 2005, which came into force on 7 June, provides clarification that smoking-related materials are litter for the purposes of part 4 of the Environmental Protection Act 1990. Therefore offenders can be prosecuted or issued with a fixed penalty notice. In February next year, ENCAMS will be launching a public awareness campaign aimed at reducing cigarette butt litter, encouraging smokers to take greater responsibility for the litter they create. In addition, the campaign will specifically look to employers who allow their staff to smoke outside their premises to provide practical means of disposing of cigarette ends responsibly.

### Waste Strategy

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to educate the public on the role of energy from waste combustion as part of the Waste Strategy. [11682]

**Mr. Bradshaw:** Waste Strategy 2000 sets out the Government's aim to minimise waste and recover value from waste in line with the waste hierarchy. Energy from waste has an important role to play, but public education and engagement to date has mainly focused on activities that the public can directly participate in, such as waste minimisation, reuse and recycling. DEFRA has published an independent study into the environmental and health effects of waste management, to improve understanding of waste treatment options including energy from waste. In both their waste management and land use planning functions local authorities should engage their communities when planning for energy from waste or other facilities.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the 10 demonstration plants to encourage new technologies to treat biodegradable municipal waste will begin operating. [11683]

**Mr. Bradshaw:** The first demonstration plants for more innovative waste management practices, run in partnership with industry and local authorities, will begin operating in 2006. However, lead times will vary in individual cases, depending on local circumstances and the different kinds of technologies involved.

The package of measures put in place by DEFRA to encourage technological innovation also includes current work to: disseminate expertise and advice to local authorities and the waste industry; establish a programme of longer-term research into alternative options for dealing with residual waste; and provide extensive guidance on alternative technology options already used successfully in other countries.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what mechanism is used to monitor compliance by EU member states with the *(a)* 2006, *(b)* 2009 and *(c)* 2016 biodegradable municipal waste diversion targets of Article 5 of the Landfill Directive; and what recent information she has received on the extent of compliance in each case. [10678]

**Mr. Bradshaw:** The monitoring authorities in the four constituent countries of the UK will use a 'mass balance calculation' to monitor the amount of biodegradable municipal waste sent to landfill in any year by each waste disposal authority. The mass balance approach calculates the amount of biodegradable waste landfilled by subtracting the weight of biodegradable materials diverted from landfill from the local authority's total biodegradable waste arisings.

The Government are currently undertaking an information gathering project with the LGA and other local government stakeholders to assess the current and future diversion capacity in England. The information from this project will give a clear indication about how the targets are being met. The intention is to review this project annually, to allow the Government to closely monitor and evaluate progress towards the targets.

Each EU member state is able to choose the mechanism to demonstrate compliance with Article 5(2) of the Landfill Directive and the UK is not aware of the methods chosen by other member states. I am not aware of any mechanism to monitor compliance prior to each target year.

The details requested by the hon. Member on the extent of compliance by EU member states with Article 5(2) of the Landfill Directive has been published in the "Report from the Commission ... on the national strategies for the reduction of biodegradable municipal waste going to landfills pursuant to Article 5(1) of the Directive 1999/31/EC on the landfill of waste; reference COM(2005) 105 final". The report is available at http://www.wales.gov.uk/keypubassemeuropeancomm2/content/euleg050411/index-e.htm. In summary, Austria, Denmark, Germany, the Netherlands and the Flemish Region already fulfil the targets set by the directive or have already taken the necessary measures to fulfil them.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the performance of *(a)* the Government, *(b)* the Environment Agency and *(c)* the waste management industry in raising awareness amongst producers of hazardous waste of the application of hazardous waste acceptance criteria from 16 July. [10681]

**Mr. Bradshaw:** As part of the programme to implement the requirements of the Landfill and Hazardous Waste Directives (the 'LHIP'), Government and the Environment Agency put in place a communications group to coordinate actions to raise awareness of the controls, especially amongst hazardous waste producers. The waste industry has been closely involved both with this group and the wider Hazardous Waste Forum.

The programme involves a considerable number of actions by all players, including the provision of advice and guidance by the agency, industry and Envirowise, the organisation of seminars, and the production of leaflets and a dedicated website.

While no specific assessment of the performance of these communications activities has been undertaken, the Environment Agency has recently conducted an awareness survey of more than 1,000 small and medium sized businesses in England and Wales in 10 key sectors. The results of the survey will enable further communication activities to concentrate on certain sectors and for priority to be given to channels of communication and products considered to be most effective.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government support the use of mechanical biological treatment as part of the Waste Strategy. [11684]

**Mr. Bradshaw:** Waste Strategy 2000 sets out the Government's aim to minimise waste and recover value from waste in line with the waste hierarchy. It includes targets to increase material recovery through recycling and composting, but does not support any particular technology to achieve them. Local authorities also have targets to divert biodegradable municipal waste from landfill under the landfill allowances trading scheme. Local authorities are responsible for and best placed to decide the most appropriate waste management facilities for their areas, based on local circumstances and their statutory obligations.

## Waste Fats

**Mr. Whittingdale:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what measures the Government are taking to prevent the accumulation of fats, oil and grease in the sewerage system; [11142]

(2) what measures the Government are taking to prevent the discharge of fats, oil and grease in to drains by supermarkets and catering establishments; [11143]

(3) if she will make it her policy to require supermarkets and catering establishments to install grease retention equipment; [11144]

(4) what assessment she has made of the cost to water companies of clearing accumulated fats, oil and grease; [11145]

(5) how many prosecutions have taken place under the Water Act 2003 Section III (1) for the discharge of fats, oil and grease into the sewerage system. [11146]

**Mr. Morley:** Sewerage undertakers have powers to control and reduce discharges of fat and oil into sewers. It is an offence under section 111 of the 1991 Act for a person to empty into a sewer, or any drain or sewer connecting with a public sewer, matter which is likely to injure, cause a nuisance to, or interfere with the free flow of the sewer or drain's contents, or to affect the treatment and disposal of its contents.

Sewerage undertakers are expected to take action where problems arise and to encourage appropriate preventative measures. In problem areas sewerage undertakers may work with local authority environmental health officers to identify suspect premises. In some areas there are voluntary schemes for installing grease control measures. At present there is no intention to require supermarkets and catering establishments to install grease retention equipment.

The Government do not assess the cost of clearing accumulated fats, oil and grease separately from the overall costs of operating and maintaining sewers and sewage treatment works. The Office of Water Services reports on these overall costs in its annual 'Financial performance and expenditure of the water companies in England and Wales' report.

My Department does not hold information on prosecutions under the Water Act Section III (1) for the discharge of fats, oil and grease into the sewerage system.

### Zoo Licences

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what her timetable is for producing a database of zoo licences in England. [12709]

**Jim Knight:** My Department established a database of zoo licences in England last year. A summary of the information compiled was published on my Department's website in March this year and can be found at http://www.defra.gov.uk/wildlife-countryside/gwd/pdf/zoos-list0503.pdf. The website will be updated later this year.

## CULTURE, MEDIA AND SPORT

### Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Culture, Media and Sport how many days the Department has lost due to sickness in the past five years for which figures are available. [11496]

**Mr. Caborn:** Cabinet Office publishes an annual report Analysis of Sickness Absence in the Civil Service. The most recently published figures for the calendar year 2003 were announced by Ministerial Statement on 1 November 2004, and copies placed in the Libraries of the House.

DCMS is committed to managing sickness absence effectively building on best practice in the public sector. This includes a health and welfare programme, stress management guidance, a full range of flexible work patterns to support work-life balance, access to welfare services, an onsite gym and yoga classes.

### Swimming Pools

**Sarah Teather:** To ask the Secretary of State for Culture, Media and Sport pursuant to the Answer of 30 June 2005, *Official Report*, column 1658W, on swimming pools, how many of the swimming pools mentioned were provided by *(a)* public and *(b)* private operators. [12246]

**Mr. Caborn:** The table identifies how many of the swimming pools in London are owned by local authorities, by commercial companies or by other organisations.

| | *Ownership type* | | | | |
|---|---|---|---|---|---|
| *London borough* | *Public* | *Private* | *Other (eg school; health authority)* | *Unknown* | *Total number of pools* |
| Barking and Dagenham | 5 | 2 | 1 | — | 8 |
| Barnet | 7 | 13 | 2 | — | 22 |
| Bexley | 9 | 5 | — | — | 14 |
| Brent | 5 | 3 | — | — | 8 |
| Bromley | 14 | 9 | 5 | — | 28 |
| Camden | 10 | 11 | 4 | — | 25 |
| City of London | 2 | 11 | 1 | — | 14 |
| Croydon | 8 | 10 | 7 | 3 | 28 |
| Ealing | 7 | 14 | 4 | 1 | 26 |
| Enfield | 9 | 3 | 4 | — | 16 |
| Greenwich | 12 | 2 | 2 | — | 16 |
| Hackney | 3 | 2 | — | — | 5 |
| Hammersmith and Fulham | 3 | 9 | 6 | — | 18 |
| Haringey | 9 | 4 | 3 | — | 16 |
| Harrow | 4 | 2 | 5 | — | 11 |
| Havering | 4 | 2 | 5 | 1 | 12 |
| Hillingdon | 5 | 11 | 4 | — | 20 |
| Hounslow | 10 | 6 | — | — | 16 |
| Islington | 9 | 5 | — | — | 14 |
| Kensington and Chelsea | 5 | 11 | — | — | 16 |
| Kingston upon Thames | 4 | 7 | — | 1 | 12 |
| Lambeth | 7 | 3 | — | 1 | 11 |
| Lewisham | 7 | 1 | 1 | — | 9 |
| Merton | 6 | 6 | 2 | — | 14 |
| Newham | 8 | 2 | — | — | 10 |
| Redbridge | 5 | 2 | 4 | — | 11 |
| Richmond | 7 | 6 | 6 | — | 19 |
| Southwark | 6 | 4 | 6 | 1 | 17 |
| Sutton | 3 | 5 | 3 | 1 | 12 |
| Tower Hamlets | 6 | 5 | — | — | 11 |
| Waltham Forest | 9 | 3 | 3 | — | 15 |
| Wandsworth | 11 | 4 | 5 | — | 20 |
| Westminster | 7 | 26 | 7 | — | 40 |

## TRANSPORT

### Biofuels

**Dr. Pugh:** To ask the Secretary of State for Transport how many licensed British vehicles are adapted to run on biofuels. [11586]

**Dr. Ladyman:** This information is not available.

### Bridge Strengthening (Costs)

**Kelvin Hopkins:** To ask the Secretary of State for Transport what costs *(a)* have been and *(b)* are

expected to be incurred in strengthening bridges by (i) the Highways Agency, (ii) Railtrack and (iii) local authorities to cater for the introduction of (A) 38 tonne, (B) 40 tonne and (C) 44 tonne lorries. [11836]

**Dr. Ladyman:** Strengthening bridges to carry 38 tonne and 44 tonne lorries is subsumed in strengthening to carry 40 tonne lorries with 11.5 tonne axle loads as this is more demanding in engineering terms.

The Highways Agency has so far spent £590 million in strengthening motorway and trunk road bridges to carry 40 tonne lorries, and currently expects to spend a further £80 million before the programme is completed.

There is no obligation on Network Rail (the successor to Railtrack) to strengthen its bridges carrying roads to accommodate 40 tonne lorries. If this carrying capacity was required, it would be for the local highway authority to provide the funding.

The costs of local highway authorities in strengthening bridges to carry 40 tonne lorries are not collated centrally. However, since 2001 the Department for Transport has provided £147 million to local authorities in England outside London to strengthen bridges on their primary routes to take these vehicles. Local authorities bid for this funding on an annual basis through their annual progress reports on their local transport plans.

### Crossrail

**Mr. Hayes:** To ask the Secretary of State for Transport what estimate he has made of the likely cost of the Crossrail project; what assessment has been made of the cost-effectiveness of the project; and if he will make a statement. [10371]

**Derek Twigg** *[holding answer 7 July 2005]:* The latest estimate of the cost of Crossrail is contained in the Estimate of Expense submitted with the Crossrail hybrid Bill. A review of the Crossrail project "Review of the Crossrail Business Case", which included an assessment of the costs and benefits of the project, was published by the Department for Transport in July 2004.

Subsequent assessments have confirmed that the benefits of the project can be expected to outweigh the costs. The Department for Transport's latest assessment using its existing appraisal methodology is that the project would have a benefit to cost ratio of between 1.6:1 and 1.8:1.

### Diesel Vehicles

**Dr. Pugh:** To ask the Secretary of State for Transport what proportion of the British lorry and commercial vehicle fleet is powered by diesel fuel. [11587]

**Dr. Ladyman:** As at 31 March 2005, 65 per cent. of licensed commercial vehicles other than lorries were powered by diesel fuel. For lorries the proportion was 99 per cent.

### Driving Tests

**Mr. Michael Foster:** To ask the Secretary of State for Transport pursuant to the answer of 11 July 2005, *Official Report*, column 668W, how many *(a)* passes and *(b)* failures of motor car driving tests there were in each test centre in Worcestershire in each of the last five years. [12200]

**Dr. Ladyman:** The table shows the results of practical car driving tests conducted at test centres in Worcestershire in each of the last five years.

*Motor car driving test pass/fail stats 2000–05 in Worcestershire*

| | Fail | Pass | Total | Percentage pass |
|---|---|---|---|---|
| *Worcester DTC* | | | | |
| 2000–01 | 2,368 | 1,987 | 4,355 | 45.6 |
| 2001–02 | 2,430 | 2,379 | 4,809 | 49.5 |
| 2002–03 | 2,436 | 2,378 | 4,814 | 49.4 |
| 2003–04 | 2,868 | 2,729 | 5,597 | 48.8 |
| 2004–05 | 3,961 | 3,150 | 7,111 | 44.3 |
| *Kidderminster DTC* | | | | |
| 2000–01 | 1,463 | 1,455 | 2,918 | 49.9 |
| 2001–02 | 1,388 | 1,561 | 2,949 | 52.9 |
| 2002–03 | 1,631 | 1,839 | 3,470 | 53.0 |
| 2003–04 | 2,166 | 1,856 | 4,022 | 46.1 |
| 2004–05 | 3,006 | 2,522 | 5,528 | 45.6 |
| *Redditch DTC* | | | | |
| 2000–01 | 1,592 | 1,507 | 3,099 | 48.6 |
| 2001–02 | 1,666 | 1,457 | 3,123 | 46.7 |
| 2002–03 | 1,914 | 1,577 | 3,491 | 45.2 |
| 2003–04 | 2,158 | 1,685 | 3,843 | 43.8 |
| 2004–05 | 2,747 | 1,872 | 4,619 | 40.5 |

### Liquefied Petroleum Gas

**Dr. Pugh:** To ask the Secretary of State for Transport what percentage of *(a)* private vehicles and *(b)* commercial vehicles are adapted to run on LPG fuel. [11578]

**Dr. Ladyman:** This information is not available.

### Night Flights (Heathrow)

**Dr. Cable:** To ask the Secretary of State for Transport what caused the disruption that led to an increase in flights leaving London Heathrow between 23.30 and 06.00 on the night of *(a)* 29 June and *(b)* 19 June; and if he will make a statement. [10088]

**Ms Buck:** The information requested is as follows.

*(a)* On the nights of 28/29 June and 29/30 June there was an increase in departures from Heathrow due to severe weather (including hail and thunderstorms) which significantly affected air traffic across British, European, Oceanic and some Trans Atlantic routes. This contributed to severe terminal congestion at Heathrow.

*(b)* On the afternoon and evening of 19 June there were severe delays to aircraft using Heathrow due to computer software problems at the Air Traffic Control Centre at Swanwick which led to air traffic flow restrictions. This necessitated more aircraft than usual being allowed to take-off and to land after 11.30 pm. The problems were resolved by the following morning.

The rules under which aircraft may be granted dispensations from the night restrictions have applied for many years. They were confirmed as part of the present night restrictions regime at Heathrow, Gatwick and Stansted announced on 10 June 1999.

### Rail Services

**Mrs. Riordan:** To ask the Secretary of State for Transport when the review of train services across the Northern train franchise region will be completed. [9738]

**Derek Twigg:** The review has been under way for some months now. We anticipate development of detailed options over the summer which would be fully consulted upon towards the end of the year.

### Road Schemes

**Colin Challen:** To ask the Secretary of State for Transport what the *(a)* expected cost when first submitted for approval and *(b)* most recently-estimated or final cost is of each road scheme (i) in the Targeted Programme of Improvements and (ii) submitted for funding through the Local Transport Plan Process between 1999–2000 and 2004–05. [11269]

**Dr. Ladyman:** The information requested has been placed in the Libraries of both Houses.

### Speed Cameras

**Mr. Scott:** To ask the Secretary of State for Transport how much money has been collected in fines from motorists as a result of the speed camera at the southern end of the M11. [11964]

**Dr. Ladyman:** The Department's information on fines following offences detected by safety cameras relates to the totals for safety camera partnerships, and not to individual camera sites. Information on the total fine receipts and number of fines for each partnership for the latest audited year 2003–04 is available on the Department's website of responses to freedom of information requests.

**Mr. Amess:** To ask the Secretary of State for Transport how many speed cameras are planned for each side of the A102 between the A11 and the A13. [12268]

**Dr. Ladyman:** The Department is not aware of any proposals to implement further speed camera sites on the A102 at the present time.

**Mr. Amess:** To ask the Secretary of State for Transport if he will list the locations of the speed cameras on both sides of the *(a)* A13 and *(b)* A127 between the M25 and Southend; and if he will list the planned locations of new speed cameras for both sides of the (i) A13 and (ii) A127 between the M25 and Southend. [12271]

**Dr. Ladyman:** The information is not held by the Department. The Essex Safety Camera Partnership publishes details of the number and location of all safety camera sites, available through its website www.essexsafetycameras.co.uk.

The Department is not aware of any proposals to implement further speed, camera sites on either the A13 or A127 at the present time.

### V5 Registration

**Bill Wiggin:** To ask the Secretary of State for Transport if he will *(a)* extend the deadline for replacement of V5 registration certificates and *(b)* publicise the need for replacement licences through additional channels. [12137]

**Dr. Ladyman:** The Driver and Vehicle Licensing Agency and its agents will continue to accept V5 registration documents supporting registration or licensing activities, provided the document is the last one issued.

The introduction of the new V5 registration certificate to meet EU requirements has already been the subject of an extensive publicity campaign. Advertisements have featured in a television campaign, the national and motoring press, as well as on major on-line sites. Information leaflets explaining the initiative have also been dispatched with DVLA mail. There are no plans to publicise the scheme further.

**Bill Wiggin:** To ask the Secretary of State for Transport what estimate he has made of the number of vehicle owners who should have applied for the new V5C licence have not done so. [12154]

**Dr. Ladyman:** The Driver and Vehicle Licensing Agency estimated that as of 1 June 2005, the number of old style V5 Vehicle Registration Documents remaining to be converted to the V5C Registration Certificate was approximately 800,000 (accounting for about 2.5 per cent. of vehicle keepers).

**Bill Wiggin:** To ask the Secretary of State for Transport if he will arrange for people whose vehicles which have been off the road since before Statutory Off Road Notification was introduced, and are exempted from Vehicle Excise Duty, to apply for a free replacement of the V5 registration by a EU model V5C registration certificate. [12136]

**Dr. Ladyman:** The Driver and Vehicle Licensing Agency has already made arrangements for all vehicle keepers who have not received the V5C registration certificate to be able to exchange their old V5 registration document free of charge. If a keeper is unable to produce the old V5 registration document, a fee of £19 is payable.

## TREASURY

### Constituency Statistics

**Mr. Betts:** To ask the Chancellor of the Exchequer if he will list for each parliamentary constituency the ratio of those aged 18 years and over at the last census to the number of registered electors, in order of the size of the ratio. [10815]

**John Healey** *[holding answer 12 July 2005]*: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Jil Matheson to Mr. Clive Betts, dated 14 July 2005:*

The National Statistician has been asked to reply to your recent parliamentary question concerning the ratio of the population, aged 18 and over, recorded in the 2001 census to the number of residents who were registered to vote in each parliamentary constituency. I am replying in his absence. (10815)

I am placing in the House of Commons Library, a table supplying the requested information.

In order to give an estimate of the number of electors on census day (29 April 2001), a weighted average is taken of the 1 February 2001 and 1 December 2001 electoral data. Data are given for parliamentary electorates. Data for the local/European electorate, by parliamentary constituency are not readily available for 2001

It should be noted that the ratio of residents who are registered to vote in each constituency is not a reliable estimate of the registration rate of the eligible population: the resident population aged 18 and over is not the same as the number of people eligible to vote.

The UK parliamentary electorate excludes residents of countries other than the UK and the Commonwealth and includes UK citizens resident abroad. In addition not everyone who is usually resident is entitled to vote (foreign citizens from outside of the EU and Commonwealth, prisoners, etc. are not eligible) and people who have more than one address may register in more than one place. Also there is inevitably some double counting of the registered electorate as electoral registration officers vary in how quickly they remove people from the registers after they have moved away from an area or after they have died. This latter is the main reason why in some constituencies the population aged 18 and over is less than those registered to vote. These factors may have a different impact from place to place.

Furthermore, you should note that the Office for National Statistics (ONS) has revised the mid-2001 population estimates since the publication of the 2001 census results. In September 2003, revisions were made that added approximately 193,000 to the population of England and Wales. This revision primarily related to the addition of a number of young males that were not captured by the census. In September 2004, ONS made further revisions as a result of concluding studies designed to improve population estimates in the areas that proved hardest to count in the 2001 census in England and Wales. The results of this work showed that the one number census (ONC) worked well in most areas, but that there were a few cases where it was not able sufficiently to adjust for exceptional circumstances. The analysis showed that there was a need for revisions to the 2001 census based population figures of around 107,000 for England and Wales as a whole. The adjustments were included in the new mid-year population estimates for 2001, published in 2004. The census database itself was not revised following the publication of these adjustments. More details on these issues can be found at: www.statistics.gov.uk/lastudies .

Any comparison of these data with figures for other years should be made carefully as electoral legislation and other changes (such as EU expansion) can change the size of the electorate.

## Council Tax (Wales)

**Mrs. Spelman:** To ask the Chancellor of the Exchequer what use the Valuation Office Agency made of private sector firms during the council tax revaluation in Wales. [11535]

**Dawn Primarolo:** The Valuation Office Agency did not make use of private sector firms during the council tax revaluation in Wales

## Departmental Purchasing

**Chris Grayling:** To ask the Chancellor of the Exchequer if he will list the companies from which his Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11740]

**John Healey:** The information for the Treasury including the Debt Management Office is set out in the following table:

£000

| | 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|
| Exchequer Partnership plc | 10,139 | 19,020 | 19,328 |
| Partnerships UK plc | 1,788 | 4,239 | 3,915 |
| Stationery Office Ltd. | 1,529 | 1,918 | [1]— |
| Robson Associates | 1,247 | 1,129 | 1,235 |
| Computacenter (UK) Ltd. | [1]— | [1]— | 1,841 |
| Paymaster (1836) Ltd. | [1]— | [1]— | 1,091 |

[1] Value of purchases in that year was less than £1 million.

*Notes:*

1. All figures are inclusive of VAT.

2. The Treasury and the Debt Management Office have a combined accounts payable function so the figures include purchases by either body.

## Earning (Tees Valley)

**Vera Baird:** To ask the Chancellor of the Exchequer what the average weekly earnings is of a *(a)* male and *(b)* female full-time worker in (i) Tees Valley and (ii) the UK in the last period for which figures are available. [11903]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Vera Baird, dated 14 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what were the average weekly earnings of a *(a)* male and *(b)* female full-time worker in (i) Tees Valley and (ii) the UK. (11903)

Average earnings are estimated from the Annual Survey of Hours and Earnings and are provided for employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for Annual Survey of Hours and Earning tables. The Annual Survey of Hours and Earnings does not collect data on the self employed and people who do unpaid work.

I attach a table showing the average gross weekly earnings for full-time employees in Tees Valley, the constituent Unitary Authorities of Tees Valley and the United Kingdom in 2004. The Unitary Authority and UK statistics are also available on the National Statistics website on table 7: http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk = 13101

The Annual Survey of Hours and Earnings, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It has a one per cent. sample of all employees.

*Means and medians for full-time male and female employees in the United Kingdom, Tees Valley and unitary authorities in the Tees Valley area*

| | Median | CV (percentage)[1] | Mean | CV (percentage)[1] |
|---|---|---|---|---|
| *Male* | | | | |
| United Kingdom | 462.0 | 0.2 | 556.8 | 0.3 |
| Tees Valley | 426.8 | 4.2 | 496.6 | 3.0 |
| Darlington UA | 413.6 | 9.4 | 459.8 | 5.3 |
| Hartlepool UA | 372.7 | 15.0 | 472.5 | 9.6 |
| Middlesbrough UA | 392.8 | 6.1 | 474.2 | 7.4 |
| Redcar and Cleveland UA | 514.8 | 6.4 | 537.3 | 5.4 |
| Stockton-on-Tees UA | 436.7 | 6.3 | 519.8 | 6.0 |
| *Female* | | | | |
| United Kingdom | 358.0 | 0.4 | 420.2 | 0.3 |
| Tees Valley | 306.1 | 4.9 | 354.0 | 3.8 |
| Darlington UA | 321.5 | 8.7 | 339.1 | 4.9 |
| Hartlepool UA | 250.2 | 15.0 | 286.9 | 10.0 |
| Middlesbrough UA | 319.4 | 11.0 | 372.9 | 5.1 |
| Redcar and Cleveland UA | 297.5 | 16.0 | 397.9 | 17.0 |
| Stockton-on-Tees UA | 283.9 | 9.5 | 341.2 | 5.9 |

[1] Guide to quality:
The Coefficient of Variation (CV) is given to indicate the quality of a figure, the smaller the CV value the higher the quality.
The true value is likely to lie within +/- twice the CV e.g. for an average of 200 with a CV of 5 per cent. we would expect the population average to be within the range 180 to 220.

*Notes:*
1. The Annual purvey of Hours and Earnings, (ASHE), carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a 1 per cent. sample of all employees.
2. The ASHE replaces the New Earnings Survey (NES) from October 2004. The main difference between the ASHE and NES being that estimates are weighted to population totals from the Labour Force Survey.
3. Average gross weekly earnings for adult full-time employees whose pay for the survey period was not affected by absence.

*Source:*
Annual Survey of Hours and Earnings, ONS

## GM Crops

**Mr. Meacher:** To ask the Chancellor of the Exchequer what action the UK Government have taken *(a)* to detect animal feed shipments contaminated with the unapproved BX10 variety of GM maize, *(b)* to prevent such illegal shipments from reaching the UK and *(c)* to train and equip UK port authorities to detect unapproved GM contaminants in food and feed imports. [11811]

**Caroline Flint:** I have been asked to reply.

The detection method and reference material which was provided by the European Commission's Joint Research Centre to allow testing by member states has been forwarded to public analyst laboratories in the United Kingdom which will carry out testing for local authorities. To date, two local authorities have reported negative results for analysis carried out on imports for Btl0.

The requirement for certification of United States of America imports is in place, following the introduction of national regulations setting out the necessary enforcement powers at the end of April. Before this date, enforcement bodies were able to use general food safety powers to detain imports of the relevant products. consignments were released when the importer provided evidence that Btl0 was not present.

UK enforcement officers authorised to inspect, detain or seize food or feed are required to have specific qualifications and training. General enforcement guidance on the control of imported food and feed and, specific advice on the control of unapproved Btl0 genetically modified contamination has also been issued by the Food Standards Agency (FSA) to the relevant enforcement authorities. Analysis and detection of GM contamination would be carried out by the public analyst or agricultural analyst formally appointed by the local enforcement authority.

The FSA will carry out its own surveillance work and plans for this are currently being developed. The outcome of this work will be used to inform the Commission's review of this new requirement in October.

## Household Numbers

**Mrs. Spelman:** To ask the Chancellor of the Exchequer if he will estimate the number of households in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland, broken down by Government Office Region. [12012]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Mrs. Caroline Spelman, dated 14 July 2005:*

The National Statistician and Registrar General for England and Wales has been asked to reply to your recent Parliamentary Question asking for an estimate of the number of households in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland, broken down by Government Office Region for the most recent year for which figures are available. I am replying in his absence. (12012)

The 2001 Census provides the most recent figures available for the number of households. Government Office Regions only occur in England, but Scotland,

Wales and Northern Ireland are regarded as an equivalent for statistical purposes. The attached table shows the number of households in each Government Office Region in England and the total households for Wales, Scotland and Northern Ireland. The figures have been extracted from Table S027 in the Census 2001 National Report, which provides household figures.

*Number of households in each Government Office Region in England and total households for Wales, Scotland and Northern Ireland, from 2001 Census*

| *Area* | *All households* |
|---|---|
| North-east | 1,066,292 |
| North-west | 2,812,789 |
| Yorkshire and The Humber | 2,064,748 |
| East Midlands | 1,732,482 |
| West Midlands | 2,153,672 |
| East | 2,231,974 |
| London | 3,015,997 |
| South-east | 3,287,489 |
| South-west | 2,085,984 |
| Wales | 1,209,048 |
| Scotland | 2,192,246 |
| Northern Ireland | 626,718 |

*Source:*
Table S027 Census 2001 National Report.

### Inland Revenue

**Mr. Gerrard:** To ask the Chancellor of the Exchequer what steps he *(a)* has taken and *(b)* proposes to take to ensure that the provisions of the Data Protection (Processing of Sensitive Personal Data) (Elected Representatives) Order 2002 are fully applied by Inland Revenue offices in relation to communications to the Inland Revenue by hon. Members on behalf of their constituents. [12192]

**Dawn Primarolo:** Guidance is provided for staff of the Inland Revenue, now HM Revenue and Customs, in relation to hon. Members' communications with the department on behalf of their constituents. This guidance takes account both of the relevant data protection legislation, and the special legislation which governs information held by the department.

### Sickness Absence

**David T.C. Davies:** To ask the Chancellor of the Exchequer how many days the Department has lost due to sickness in the past five years for which figures are available. [11475]

**John Healey:** The information on average working days sickness absence covering the years 1999 to 2003 for the Treasury and HM Revenue and Customs is available from the "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office. Table A of the report gives details of both the average working days absence per staff year and the number of staff years on which that calculation is based on. Reports for 1999, 2000, 2001 and 2002 are also available in the Library and on the Cabinet Office website at:

http://www.civilservice.gov.uk/management_information/conditions_of_service/caje/publications/index.asp#sickness

### Sudden Adult Death Syndrome

**Jenny Willott:** To ask the Chancellor of the Exchequer if he will change the method by which deaths are recorded in order to identify deaths caused by sudden adult death syndrome; and if he will make a statement. [11561]

**John Healey:** The information requested falls within the responsibility of the national statistician who has been asked to reply.

*Letter from Colin Mowl to Jennifer Willott, dated 14 July 2005:*

The National Statistician has been asked to reply to your recent question concerning the method by which deaths are recorded in order to identify deaths caused by sudden adult death syndrome. I am replying in his absence. (11561)

In England and Wales, deaths that are sudden and of unknown cause must be referred to the coroner for investigation. If, after investigation, the coroner certifies the death as due to sudden adult death syndrome, or states that the death was sudden and no cause could be identified, it is coded to R96 in the tenth revision of the International Statistical Classification of Diseases. These deaths are counted as sudden adult deaths.

If a more specific pathology or disease process is identified at autopsy, the coroner should write it on the death certificate. ONS will then use this information to code the cause of death. In these cases, the fact that the death was sudden is not systematically recorded at present. In preparing a first session draft bill to reform the death certification and coroner service, the Government will review what additional information should be recorded at death.

### Tax Credits

**Chris Huhne:** To ask the Chancellor of the Exchequer how many of his staff have been *(a)* dismissed and *(b)* moved to other jobs as a result of their responsibility for the problems surrounding the implementation of tax credits; and if he will make a statement. [11036]

**Dawn Primarolo:** None.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how many tax credit awards were made to people with incomes in excess of *(a)* £50,000, *(b)* £52,500, *(c)* £55,000 and *(d)* £57,500 in (i) 2003–04 and (ii) 2004–05; and if he will make a statement. [11450]

**Dawn Primarolo:** Estimates of the average number of tax credit awards broken down by income for 2003–04 awards is available in the HMRC publication "Child and Working Tax Credits Statistics. Finalised annual awards 2003–04." This publication can be found on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-quarterly-stats.htm.

Table 2.9 of this publication shows the average number of in-work benefiting families in each band of income used to taper awards In 2003–04, after taking into account their final family circumstances and income. This shows that there was an estimated average of 112,000 families with such incomes over £50,000, after taking into account the disregard.

A further breakdown of incomes over £50,000 show that for 72,000 of these families the income was over £52,500, for 36,000 it was over £55,000 and for 7,000 it was over £57,500. These figures exclude families whose tax credits awards were tapered to zero. The relevant incomes have been measured net of the disregard of the first £2,500 increase over 2001–02 incomes.

Statistics on finalised 2004–05 awards cannot be compiled until all families report their 2004–05 incomes; they are due to be published in May 2006.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what the largest overpayment in a single year to one recipient under the tax credit system was. [11455]

**Dawn Primarolo:** The information requested is not available except at disproportionate cost.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many awards of *(a)* children's tax credit, *(b)* working families tax credit and *(c)* disabled person's tax credit were made in 2002–03; and what the cost per award of administration was in that year. [11844]

**Dawn Primarolo:** An estimated 3.9 million families benefited from children's tax credit in 2002–03. The cost per award of administration for children's tax credit is not available.

Estimates of the number of recipient families for working families' and disabled person's tax credits for 2002–03 appear in the published Quarterly Enquiries. These publications can be found on the Inland Revenue website, at

http://www.hmrc.gov.uk/stats/personal-tax-credits/menu.htm

The costs of managing and paying working families' and disabled person's tax credits for 2002–03 are shown in the Inland Revenue Trust Accounts, Note 4, for the year ending 31 March 2003.

### Travel Concessions

**Mr. Clelland:** To ask the Chancellor of the Exchequer pursuant to the answer of 11 July 2005, *Official Report*, column 699W, on travel concessions, what discussions he has had with the Secretary of State for Transport on the contribution to the relief of traffic congestion that might be made by abolishing the taxation applied to employer-provided travel concessions. [12110]

**John Healey:** There have been no specific discussions on the relationship between traffic congestion and tax relief for employer-provided travel concessions. However, the Treasury continues to discuss a range of transport issues with the DfT on an ongoing basis.

### Water Rates

**Mrs. Spelman:** To ask the Chancellor of the Exchequer what role the Valuation Office Agency plays in the assessment of rateable values for water rates. [12015]

**Dawn Primarolo:** The rateable values, used for water rates, were contained In the 1973 rating list. This rating list was effective from 1 April 1973 to 31 March 1990 and the Valuation Office Agency was, at this time, responsible for assessing the rateable values and maintaining this list. With the introduction of community charge, on 1 April 1990 (replaced by council tax on 1 April 1993), all rating assessments on domestic property ceased to exist, but water companies use these historic rateable values in levying charges for water and sewerage rates. There is now no mechanism for the Valuation Office Agency to amend rateable values shown in the 1973 rating list.

## SOLICITOR-GENERAL

### Corruption

25. **Hugh Bayley:** To ask the Solicitor-General If he will make a statement on his role in combating corruption. [11941]

**The Solicitor-General:** The Attorney General is responsible for superintending the work of the Director of Public Prosecutions as head of the CPS and the Director of the Serious Fraud Office. Both these departments have responsibility for prosecuting corruption cases. The Serious Fraud Office also has power to investigate allegations of corruption. By statute. Law Officer consent must be given before corruption offences can be prosecuted.

### ASBOs

27. **Miss McIntosh:** To ask the Solicitor-General how many prosecutions there have been for breaches of antisocial behaviour orders since their introduction. [11943]

**The Solicitor-General:** Of the 1,892 ASBOs issued in England and Wales up to December 2003, 793 or 42 per cent. Were breached.[1] The CPS does not have discrete data for the number of prosecutions for breaches of antisocial behaviour orders since their introduction in 1999.

[1] Official Home Office statistics are based on data obtained from the courts proceedings database and compared to the database on number of ASBOs issued. Data is available up to December 2003. Breaches are counted on a person basis, i.e. multiple breaches (occurring at the same time), or where the order has been breached on more than one occasion, are all counted as one breach.

28. **Ben Chapman:** To ask the Solicitor-General how many prosecutions for breaches of antisocial behaviour orders the Crown Prosecution Service has brought in *(a)* Wirral South and *(b)* Merseyside. [11944]

**The Solicitor-General:** Of the 71 ASBOs issued in Merseyside up to December 2003, 22 or 31 per cent. were breached. Statistics for Wirral South are not available.[1] The CPS does not have discrete data for the number of prosecutions for breaches of antisocial behaviour orders.

[1] Official Home Office statistics are based on data obtained from the courts proceedings database and compared to the database on number of ASBOs issued. Breaches are counted on a person basis, i.e. multiple breaches (occurring at the same time), or where the order has been breached on more than one occasion, are all counted as one breach.

### Alvis

**Mr. Hancock:** To ask the Solicitor-General what the timetable is for the Serious Fraud Office completing its investigations into the allegations of corruption with respect to the sale of Alvis vehicles to Indonesia in the 1990s; and if he will make a statement. [11678]

**The Solicitor-General:** The SFO cannot confirm or deny whether a specific matter has been referred to it or is under investigation until such a time as is considered appropriate.

The SFO has been designated the lead authority for vetting allegations of overseas corruption by UK companies or individuals. Currently the SFO is vetting thirteen cases where such corruption offences have been alleged.

### Crown Prosecution Service

**Ms Keeble:** To ask the Solicitor-General what steps he is taking to expedite decision-making within the Crown Prosecution Service. [11942]

**The Solicitor-General:** Each case handled by the CPS is reviewed individually to make sure that both the evidence and the public interest support a prosecution. This process continues throughout the life of the case. Circumstances may change during the lifetime of a case, for example as new evidence emerges, and the prosecutor's decision must take account of these changing realities regardless of when they come to light.

The introduction of statutory charging has helped to expedite CPS decision making. By involving prosecutors earlier in the process, they are able to ensure that key decisions are taken as early in the life of a case as possible and, in particular, that cases which are not viable are identified at the very outset of the prosecution process. The establishment of CPS Direct means that the CPS is able to give advice and make immediate charging decisions 24-hours a day, 365 days a year.

**Simon Hughes:** To ask the Solicitor-General what percentage of cases referred to the Crown Prosecution Service were not proceeded with because of the unwillingness of witnesses to give evidence in each of the last five years. [11939]

**The Solicitor-General:** During the year ending March 2005, 1.7 per cent. of all CPS prosecutions resulted in an unsuccessful outcome through the unwillingness or non-attendance of witnesses. Comparable figures are not held for previous years.

**Vera Baird:** To ask the Solicitor-General if he will take steps to ensure that letters from the Crown Prosecution Service explaining the discontinuance of a criminal prosecution are written in clear non-technical language. [11900]

**The Solicitor-General:** All crown prosecutors are required to attend a two day training course about writing letters to explain the reasons for their decisions. They are also provided with a comprehensive guidance manual which requires written communication to be clear, accurate, succinct, objective, human and to avoid jargon. Guidance also instructs crown prosecutors to use plain English.

Chief crown prosecutors have responsibility for ensuring that letters issued meet the appropriate standards of quality and timeliness. Area performance, including the direct communication with victims initiative, is reviewed at regular intervals with the Director of Public Prosecutions.

The Crown Prosecution Service (CPS) Business Development Directorate is currently conducting a review of the direct communication with victims initiative, and will assess whether any further measures are required to ensure the quality and timeliness of written communications.

### Iraq

**Lynne Jones:** To ask the Solicitor-General pursuant to the answer of 27 June, *Official Report*, column 1180W, on Iraq, whether the Government gave permission for the Butler Review to disclose that the Attorney General made an oral presentation to the Cabinet of his advice on the legality of the war in Iraq. [11810]

**The Solicitor-General:** The content of the report of the Butler Review of Intelligence of Weapons of Mass Destruction was the responsibility of the Butler Committee.

### Recidivism

**Mr. Burstow:** To ask the Solicitor-General pursuant to his Answer of 7 June 2005, *Official Report*, column 456W, on theft, how many young people subject to the diversion scheme did not re-offend in each of the last three years. [7219]

**Fiona Mactaggart:** I have been asked to reply.

The information is not readily available in the form requested. Information on reconviction rates for juvenile offenders are published annually by both disposal and by offence, but not for combinations of these. The table shows the actual one year reconviction rates for those young offenders sentenced or released from custody in the first quarter of 2001, 2002, and 2003.

Further data on reconviction rates for juvenile offenders are available in Home Office Online Report 08/05, published February 2005

*Percentage of juveniles who were not reconvicted within one year*

| | *Pre-court disposals* | *Theft and handling offences* |
|---|---|---|
| 2001 cohort | 81.0 | 65.7 |
| 2002 cohort | 80.9 | 64.2 |
| 2003 cohort | 80.3 | 64.3 |

## FOREIGN AND COMMONWEALTH AFFAIRS

### Biological and Toxin Weapons Convention

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what breaches of the Biological and Toxin Weapons Convention have occurred since 1980; and if he will make a statement. [9068]

**Dr. Howells:** Article VI of the Biological and Toxin Weapons Convention (BTWC) permits any State Party to the convention to lodge a complaint with the Security Council of the United Nations if they find that any other State Party is in breach of obligations deriving from the provisions of the convention. To date no complaints of breaches of the obligations of the convention have been submitted to the United Nations. As one of the Depositary Governments of the BTWC, the UK views the issue of compliance with the convention as being of central importance and routinely monitors the compliance of all States Parties to the convention.

### Central Africa

**Mark Simmonds:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment

the Government have made of Burundi's and Rwanda's violations of their obligations under international conventions on refugees; and if he will make a statement. [11818]

**Ian Pearson:** We have received several reports that the actions of the Rwandan and Burundian Governments in returning Rwandans from Burundi may have contravened international law. The facts remain unclear.

We have been in touch with both countries' Governments and have reminded them of their international legal obligations under the 1951 refugee convention, to which both countries are signatories. We pressed them to consider fully individuals' right to asylum and to co-operate fully with staff of the UN High Commission for Refugees and other UN agencies.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports that large-scale arms deliveries from Eastern Europe and the Balkans continue to be made to the Great Lakes Region despite the UN Security Council mandatory embargo. [11867]

**Ian Pearson:** Despite recent international efforts to strengthen and enforce the UN and EU arms embargoes, and the creation in 2004 of a UN group of experts to monitor implementation and examine reported breaches, there is some evidence that rebel groups in the Democratic Republic of Congo continue to receive supplies of arms and ammunition.

The UK takes the enforcement of these embargoes very seriously and will examine carefully the latest reports of breaches of the arms embargo before assessing what further action might be appropriate. Any information we receive relating to the potential involvement of UK entities in alleged sanctions-breaches is reported promptly to the relevant UK authorities for their investigation.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action has been taken by his Department to stem the flow of arms to the Great Lakes Region. [11868]

**Ian Pearson:** We were instrumental in securing the adoption of Security Council resolution 1596 on 18 April 2005 which, among other measures, extended the UN embargo to cover the whole of the Democratic Republic of Congo's (DRC) territory and introduced a travel ban and assets freeze to be imposed on individuals violating the embargo.

We have repeatedly raised our concerns with the Governments of the DRC and its neighbours about illicit flows of arms, urging them to prevent arms transiting their territory and to tighten border security. We have been in touch with the Rwandan and Ugandan Governments most recently, on 30 June and 1 July respectively.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports that British-based firms have been involved in delivering arms to the Great Lakes Region. [11869]

**Ian Pearson:** We take seriously any allegations that UK entities may have been involved in the illicit supply of arms to embargoed destinations. Any evidence we receive is passed promptly to the relevant UK authorities for their investigation. Her Majesty's Revenue and Customs made inquiries into these allegations in 2003 but found no evidence of any offences.

All export licence applications are rigorously assessed on a case by case basis against the Consolidated EU and National Arms Export Licensing Criteria. Export or trade licences issued recently for military-listed equipment going from the UK to the Democratic Republic of Congo (DRC) have been consistent with the exemptions to the UN and EU embargoes on the DRC, which allow the export of non-lethal equipment for humanitarian or protective use as well as equipment for the UN mission in the DRC and the integrated army and police of the DRC.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effectiveness of the operation of the arms embargo in the Democratic Republic of Congo. [11865]

**Ian Pearson:** The UK continues to observe and support strongly the UN and EU arms embargoes on the Democratic Republic of Congo (DRC). Despite international efforts to enforce the embargoes, and the creation of a UN group of experts to monitor implementation and examine reported breaches, there is some evidence that rebel groups operating in eastern DRC continue to receive supplies of arms and ammunition.

We continue to work to strengthen enforcement of the embargoes, and are working with Security Council partners to identify and impose assets freezes and travel bans on those who are found to have violated the UN embargo.

### Correspondence

**Mr. Salmond:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 12 May from the hon. Member for Banff and Buchan regarding the subject of sex tourism. [10985]

**Ian Pearson** *[holding answer 11 July 2005]:* I replied to the hon. Member on 13 July. I apologise for the delay.

### Corruption

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of comparative levels of corruption within African Governments; whether a grading system exists for assessing such corruption; and if he will make a statement. [11744]

**Ian Pearson:** In the course of their normal reporting, our overseas posts comment on the impact and perceived extent of corruption in their host countries. However, there is no official grading system to compare levels of corruption. The only international ranking of which I am aware is Transparency International's annual Corruption Perceptions Index, last published in

October 2004. The index is available on the Transparency International's website: http://www.transparency.org/

### Ethiopia

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his policy towards the Ethiopian Government in the context of the latest elections. [11753]

**Ian Pearson:** Ethiopia's 15 May general elections were a step forward in the democratisation process. However, we were extremely concerned by the subsequent violence and detentions of large numbers of opposition supporters. We have made our concerns clear to the Government of Ethiopia and have urged all parties to respect the democratic process. The Ethiopian National Electoral Board is still investigating allegations of irregularities in a number of constituencies. We urge all parties to continue to participate in this process in a constructive manner. International observers, including the European Union Observer Mission, continue to monitor the election process closely.

### Iran

**Mark Simmonds:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have taken place with his EU counterparts regarding the future of the EU3 negotiations with Iran on its nuclear programme following the recent Iranian election. [11816]

**Dr. Howells:** Discussions continue between Iran and the UK, France and Germany (the 'E3'), supported by the EU high representative, under the framework agreed in Paris in November 2004. Iran's President-elect, Mahmoud Ahmadinejad, has said that the process should go on, and the E3 remain fully committed to it.

The E3 have agreed to present further ideas, including on long-term arrangements for Iran's nuclear programme. Officials are currently working on these. We will remain in close touch with our partners in the EU and elsewhere as our ideas develop. Long- term arrangements must provide objective guarantees that Iran's nuclear programme is exclusively for peaceful purposes.

### Madagascar

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs when and for what reason his Department last decided to close the embassy in Madagascar; and when and for what reason it was re-opened. [11766]

**Ian Pearson:** The British embassy in Madagascar was closed in February 1976 as part of a round of economies following a reduction in public expenditure announced in the 1975 Budget.

The embassy was subsequently reopened in 1979. The reasons behind this decision included: Madagascar's then strategic position in the Indian ocean during the cold war; the fact that following UK entry into the EEC there were deemed to be commercial opportunities in Madagascar that British companies were missing and a high profile consular case that required work from UK-based staff.

### Non-proliferation Treaty/Weapons Conventions

**Mark Lazarowicz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what measures the Government are taking to ensure the full implementation of the *(a)* Nuclear Non-proliferation Treaty and *(b)* Biological and Chemical Weapons Conventions. [10104]

**Dr. Howells:** The Government continues to attach the utmost importance to the full implementation of all the Non-Proliferation Treaties. We continue to work with other countries and the International Atomic Energy Agency to strengthen the Nuclear Non-Proliferation Treaty. The UK, as a Co Depository Government of the Biological and Toxin Weapons Convention (BTWC), actively supports all appropriate measures that would strengthen the Convention and the UK is chairing the 2005 intersessional meetings of the BTWC. As a State Party to the Chemical Weapons Convention (CWC), the UK contributes actively to the work of Organisation for the Prohibition of Chemical Weapons (OPCW). The UK led negotiations on an OPCW Action Plan on the implementation of the CWC.

### Sudan

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the decision of the EU to appoint a special representative to the Sudan. [11430]

**Ian Pearson:** The decision as to whether to appoint an EU special representative to Sudan (EUSR) is still awaiting final approval of the Council of Ministers. An EUSR will bolster the EU's efforts to support the peace process there, both by supporting the implementation of the Comprehensive Peace Agreement in Darfur and working, notably with the African Union (AU), to help resolve the crisis in Darfur. The UK is in favour of this proposal. The EU is already heavily engaged in Sudan. They are providing significant support to the AU mission in Darfur, including planning experts, technical, financial, material and logistic support to AU mission in Sudan and supporting the civilian policing aspects of the mission, and the European Commission has committed $765 million of development and humanitarian assistance. The deadline for applications closed on 7 July. The candidates will be interviewed, with the appointment taking effect in September.

**Mike Penning:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the weekly level of fatalities in southern Sudan; and if he will make a statement. [11743]

**Ian Pearson:** Signature of the Comprehensive Peace Agreement (CPA) on 9 January 2005 brought to an end more than 20 years of civil war in the south, which claimed an estimated 2 million lives. Since signature of this Agreement, a permanent ceasefire has been in place, which will be monitored by a UN Peace Support Operation. Signature of the CPA also opened up access to urgently needed development assistance to southern Sudan, which will help improve the quality of life of the people there.

But there is much to do. The health system is fragmented and there is no consolidated mortality/morbidity reporting. Estimates in the 2003 World Bank

Status Report on South Sudan describe access to health care in the south as the worst in the world; and states that there are no infant or crude mortality rates given the deteriorated state of health care across the south. Pockets of civilian-directed violence also remain, particularly in areas of Equatoria occupied by the Lord's Resistance Army (LRA).

The UK has allocated £112.5 million of assistance this year to the whole of Sudan, much of which will go to the south. We have funded vaccination campaigns to reduce the number of deaths due to disease. We are also pressing the new presidency of the Government of National Unity, inaugurated on 9 July, fully to implement the CPA, including its commitment to disarm, repatriate or expel foreign insurgency groups, including the LRA.

## TRADE AND INDUSTRY

### I-dialling

**Helen Jones:** To ask the Secretary of State for Trade and Industry what steps he is taking to increase consumer awareness of i-dialling scams. [10842]

**Alun Michael:** By i-dialling I take it that the hon. Member means rogue Premium Rate diallers on the internet running up large bills for consumers. The Independent Committee for the Supervision of Standards of Telephone Information Services (ICSTIS) regulates Premium Rate Services through its Code of Practice. Recommendation 10 of the Ofcom Review of Premium Rate Regulation encourages ICSTIS to develop its role in providing consumer information and to draw up a set of guidelines to govern its activities in this area. ICSTIS is currently finalising these guidelines following consultation and they are expected to be in place shortly. In addition the telecoms operators have been working hard to raise customer awareness of internet dialler scams and to ensure that customers are informed about how best to protect themselves. Advice is posted on BT's website at http://www.bt.com/premiumrates/ and on the websites of other companies.

### Northamptonshire Footwear Industry

**Mr. Hollobone:** To ask the Secretary of State for Trade and Industry what his latest assessment is of *(a)* the economic strength of the Northamptonshire footwear manufacturing industry and *(b)* the competitive pressures it faces from China and elsewhere; and what steps his Department is taking to promote Northamptonshire's boot and shoe trade. [11198]

**Alun Michael:** The European Commission has opened two anti-dumping investigations into *(a)* footwear with a protective toecap from China and India; and *(b)* footwear with uppers of leather, originating in China and Vietnam. The purpose of the investigations will be to determine whether or not dumping has occurred. Dumping is considered unfair trade and the European Commission may impose anti-dumping duties to counteract it.

UK Trade and Investment is the Government organisation that supports companies in the UK doing business internationally. UK Trade and Investment services are available to companies through locally-based teams, including the International Trade team based at Northamptonshire Chamber of Commerce and Business Link.

No specific assessment has been made of the Northamptonshire footwear manufacturing industry or of the competitive pressures facing the industry from imports, but details of the Government's manufacturing strategy are available on the DTI website.

### Royal Mail (Misdelivery)

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what steps he is taking to ensure that mail is delivered to the correct address by the Royal Mail; and if he will make a statement. [12288]

**Barry Gardiner:** Ensuring mail is delivered to the correct address is an operational matter for Royal Mail. I have received assurances from Allan Leighton and Adam Crozier that the Board will continue to give quality of service top priority.

Royal Mail Board members are incentivised to improve the company's quality of service and meet its regulatory targets. Postcomm has powers to impose penalties on Royal Mail if it fails to meet these targets.

### Telephone Boxes

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many telephone boxes he expects to be available in each of the next five years. [10795]

**Alun Michael:** Approximately 68,000 BT public call boxes exist at present. However, it is impossible to predict how many public call boxes will be available in each of the next five years. Under an Office of Communications (Ofcom) Direction implementing the Universal Service Obligation, local authorities can veto the removal of the last callbox on a site, which comprises any area within a walking distance of 100 metres from the call box.

## ELECTORAL COMMISSION

### Election Expenditure

**Mr. Prisk:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the total amount spent by the Electoral Commission *(a)* prior to the 2005 Election and *(b)* during the 2005 election was on (i) television advertising, (ii) telephone hotlines, (iii) websites, (iv) screen adverts at train stations, (v) posters, (vi) postcards, (vii) postage, (viii) advertisements on buses and bus stops and (ix) radio advertising as part of the About my Vote and Don't Do Politics campaign. [11665]

**Peter Viggers:** The Electoral Commission informs me that expenditure in the specified categories as part of the About my Vote and Don't Do Politics campaign is as set out in the following table:

| | (a) Pre-election campaign 2003-04[1] | 2004-05[2] | (b) Election campaign[3] |
|---|---|---|---|
| (i) Television advertising | 1,391,127 | 3,349,279 | 1,916,051 |
| (ii) Telephone hotlines | 38,360 | 125,970 | 86,045 |
| (iii) Websites (www.aboutmyvote.co.uk) | 54,571 | 19,905 | 2,033 |
| (iv) Screen adverts at train stations | 0 | 0 | 23,969 |
| (v) Posters | 0 | 0 | 4,953 |
| (vi) Postcards | 0 | 0 | 88 |
| (vii) Postage | 0 | 0 | 0 |
| (viii) Adverts on buses and at bus stops | 0 | 0 | 9,466 |
| (ix) Radio advertising | 0 | 0 | 749,860 |

[1] 2003–04 *(a)* costs include initial campaign production and spring 2004 registration campaign.
[2] 2004–05 *(a)* costs include 20 June 2004 election campaign and spring 2005 registration campaign.
[3] Election campaign costs *(b)* include general election campaign costs incurred from 1 April 2005.

## HEALTH

### Ambulance Services

**Sandra Gidley:** To ask the Secretary of State for Health if she will amend the targets for ambulance trusts to reflect clinical outcomes rather than vehicle response times. [11434]

**Mr. Byrne:** The recently published review of ambulance services, "Taking Healthcare to the Patient: Transforming NHS Ambulance Services", recommends that while national performance requirements should continue to focus on speed of response for those patients with immediately life-threatening conditions, category A, national performance requirements for category B response times should over time be replaced by clinical and outcome indicators. This change should happen once the evidence base, technology and professional consensus are sufficiently developed to make this possible. Ministers have accepted these recommendations.

"Taking Healthcare to the Patient: Transforming NHS Ambulance Services" is available in the Library.

### Asthma (Bedfordshire)

**Mrs. Dorries:** To ask the Secretary of State for Health how many *(a)* adults and *(b)* children in Bedfordshire and Hertfordshire NHS primary care trust have been recorded as suffering from asthma in each year since 1997. [11021]

**Ms Rosie Winterton:** The Department publishes information about the number of admitted care episodes in national health service hospitals where asthma was the primary diagnosis. The table shows the finished admission episodes for asthma for under 18 and over 18 age groups for residents in Bedfordshire and Hertfordshire strategic health authority (SHA) in each year between 1997–98 to 2003–04.

Information about the incidence of asthma is not currently available. However, the Health and Social Care Information Centre is due to publish data shortly about the numbers of people in each primary care trust (PCT) area recorded with asthma in 2004–05, which will be available on its website shortly.

*Primary diagnosis: asthma (ICD-10 codes J45-J46), finished admission episodes, Bedfordshire and Hertfordshire SHA of residence, national health service hospitals, England 1997–98 to 2003–04*

| | Adults (aged over 18) | Children (aged 0–17) | Age not known | Total |
|---|---|---|---|---|
| 1997–98 | 988 | 1,229 | 1 | 2,218 |
| 1998–99 | 1,014 | 1,169 | — | 2,183 |
| 1999–2000 | 943 | 1,025 | 1 | 1,969 |
| 2000–01 | 716 | 821 | — | 1,537 |
| 2001–02 | 811 | 1,007 | — | 1,818 |
| 2002–03 | 919 | 884 | — | 1,803 |
| 2003–04 | 898 | 735 | — | 1,633 |

*Notes:*
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14—seven prior to 2002–03—diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Figures have not been adjusted for shortfalls in data—i.e. the data is un-grossed.

*Source:*
HES, Health and Social Care Information Centre.

### Bedford Hospital NHS Trust

**Mrs. Dorries:** To ask the Secretary of State for Health what discussions she has had regarding the anticipated overspend of Bedford Hospital NHS Trust; and if she will make a statement. [11004]

**Ms Rosie Winterton:** It is the responsibility of strategic health authorities to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance.

Officials have been in discussion with Bedfordshire and Hertfordshire SHA to ensure it is taking appropriate action in relation to the anticipated deficit position of Bedford Hospital National Health Service Trust.

**Mrs. Dorries:** To ask the Secretary of State for Health how many incidents of violence were recorded against NHS staff in Bedford Hospital NHS Trust in each year since 1997; and how many people were prosecuted in each year as a result. [11007]

**Ms Rosie Winterton:** The table shows the number of reported violent incidents against national health service staff in the Bedford Hospital NHS Trust for the years 2000–01, 2001–02 and 2002–03. Information is not available prior to 2000. The information is from the

violence, accidents and harassments in the NHS survey. As the survey has been discontinued, figures for 2004 are not available. The Department does not collect information about the number of prosecutions resulting from violent assaults.

*NHS hospital and community health services: recorded incidents, on staff, of violent attacks and assaults in the Bedford Hospitals NHS Trust in each specified period*

| *RC1 Bedford Hospitals NHS Trust* | *Number of reported violent incidents* |
|---|---|
| 2000-01 | 33 |
| 2001-02 | 126 |
| 2002-03 | 86 |

*Notes:*
1. Covers 1 April to 31 March for the specific years.
2. This data collection was discontinued in 2003.

*Source:*
Survey of violence, accidents and harassments in the NHS.

## Bedfordshire and Hertfordshire SHA

**Mrs. Dorries:** To ask the Secretary of State for Health how many people are employed by the Bedfordshire and Hertfordshire strategic health authority; and in what roles. [11026]

**Ms Rosie Winterton:** The number of people employed by the Bedfordshire and Hertfordshire strategic health authority (SHA) and their roles is shown in the table.

*National health service hospital and community health services: Non-medical staff directly employed by the Bedfordshire and Hertfordshire SHA as at 30 September 2004*

| | *Headcount* |
|---|---|
| Bedfordshire and Hertfordshire SHA (Q02) | 84 |
| Support to clinical staff | 2 |
| Support to doctors and nurses | 2 |
| NHS infrastructure support | 82 |
| Central functions | 28 |
| Managers and senior managers | 54 |

*Source:*
Health and Social Care Information Centre non-medical workforce census 2004.

## Birth Centres

**Sandra Gidley:** To ask the Secretary of State for Health (1) whether she has developed booking criteria for admission to birth centres; [11433]

(2) if she will commission research into the effectiveness of birth centres. [11435]

**Mr. Byrne:** The Department has not developed any booking criteria for admission to birth centres.

The Department generally funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service. Through its service delivery and organisation research and development programme, the Department is in the process of commissioning a three-year study about the effectiveness, acceptability and efficiency of birth centres. It is anticipated that the tender for this research will be advertised in September 2005.

## Care Homes

**Sarah Teather:** To ask the Secretary of State for Health how many inspections of care homes have been carried out in London in each year since 1997; how many were announced; how many were unannounced; and how many led to the deregistration of care homes. [8311]

**Mr. Byrne:** The Commission for Social Care Inspection (CSCI) is responsible for inspecting all care homes in England in accordance with statutory regulations and national minimum standards.

I understand from the Chair of CSCI that in 2003–04, there were 5,083 inspections completed in London. 2,559 (50.3 per cent.) were announced, 2,524 (49.7 per cent.) were un-announced.

In 2004–05, there were 5,173 inspections completed in London 2,815 (54.4 per cent.) were announced, 2,378 (45.6 per cent.) were un-announced.

Information prior to 2003–04 is not available because different regulatory arrangements applied.

## Dentistry

**Mrs. Dorries:** To ask the Secretary of State for Health (1) how many registered dentists were practising in the *(a)* County of Bedfordshire and *(b)* constituency of Mid-Bedfordshire in each year since 1997; [11019]

(2) how many full-time dentists there have been in the *(a)* county of Bedfordshire and *(b)* constituency of Mid-Bedfordshire in each year since 1997. [11020

**Ms Rosie Winterton:** Information relating to numbers of full-time dentists is not held centrally, as dentists can vary the amount of hours they work as well as their national health service commitment. The numbers of dentists in the county of Bedfordshire and the constituency of Mid-Bedfordshire, as at 31 March each year since 1997, are shown in the table.

*General dental service (GDS) and personal dental service (PDS) number of dentists in the specified areas as at 31 March each year*

| | *Parliamentary constituency: Mid-Bedfordshire* | *County: Bedfordshire* |
|---|---|---|
| 1997 | 16 | 119 |
| 1998 | 17 | 120 |
| 1999 | 19 | 132 |
| 2000 | 23 | 146 |
| 2001 | 20 | 151 |
| 2002 | 25 | 166 |
| 2003 | 22 | 154 |
| 2004 | 23 | 160 |
| 2005 | 23 | 169 |

*Notes:*
1. The figures are based on the numbers of dentists with open GDS or PDS contracts.
2. The dentists include principals, assistants and trainees.
3. Prison contracts have been excluded.
4. The areas have been defined using practice postcodes within the specified area.
5. The figures provide a snapshot of the number of individual dentists with an open contract at 31 March.
6. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the primary care trust (PCT). The Dental Practice Board has no information concerning the amount of time dedicated to NHS work by individual dentists.
7. The Dental Practice Board has no information concerning the amount of time dedicated to NHS work by individual dentists.

8. The figures take into account any notifications received up to 5 July 2005.
9. Areas have been defined using the Office of National Statistics "All Fields Postcode Directory—November 2004"
10. Figures have been provided by the NHS Health and Social Care Information Centre. The data source is the Dental Practice Board and the figures are based on the numbers of individual dentists with open GDS or PDS contracts as at 31 March 2005.
11. The postcode of the dental practice was used to allocate dentists to specific geographic areas. Specific geographic areas have been defined using the Office of National Statistics "All Fields Postcode Directory—November 2004".

*Source:*
Dental Practice Board

**Mr. Ellwood:** To ask the Secretary of State for Health if she will make a statement on the adequacy of provision of NHS dentists in Bournemouth East. [4826]

**Ms Rosie Winterton:** Over the years, 2003–04 and 2004–05, the Department allocated £1.6 million to the Dorset and Somerset strategic health authority (SHA) to improve access, choice and quality in national health service dentistry. In 2004–05, Bournemouth primary care trust (PCT), which serves the Bournemouth East area, received from this sum £108,000 for capital grants and £46,000 revenue for access.

The SHA advises that this money has been used to improve access and increase capacity, including the recruitment of additional 1.5 NHS dentists. This secured 3,000 additional NHS patient registrations between 1 April 2004 and 31 March 2005.

Two new dentists have also been secured through international recruitment, and a new practice with four dentists will start to treat patients from September 2005.

The PCT has plans to improve access further. Two Polish dentists recently started work at a Bournemouth dental practice in Southbourne. Both dentists were recruited through the Department's overseas recruitment programme and were placed with an existing local dental practice that was able to develop additional dental surgeries with partial grant aid from the FCT. These dentists are registering new patients now and will each accept 2,000 new NHS patients under the personal dental service (PDS) contract agreed with the owner of the dental practice.

The PCT has also been working to establish a new four surgery dental practice in Tuckton. Planning permission has been obtained and building work at the practice is at an advanced stage. The practice will treat patients from early September 2005 but will be able to book advanced appointments from early August 2005. The PDS contract agreed with the practice and approved by the Department will provide for 8,000 patients to register with an NHS dentist.

The PCT has a further plan, at advanced stage of development, to establish a new four chair dental practice in Boscombe. This should enable a further 8,000 patients to register with an NHS dentist.

**Mr. Stewart Jackson:** To ask the Secretary of State for Health what measures are being put in place to increase the provision of NHS dentistry in Peterborough constituency. [10715]

**Ms Rosie Winterton:** The Peterborough constituency has been provided with £209,000 in access money. This will deliver an increase of 17,500 patient registrations. In addition, eight out of 26 dental practices have converted to the personal dental service.

There is a dental access centre based at 5 Midgate, Peterborough. Both the North Peterborough and Peterborough South primary care trusts are participating in the Department's international recruitment campaign. This has resulted in the recruitment of four Polish dentists, who are already working in the Peterborough constituency, with a further three Polish recruits due to start later this year.

### Drug Rehabilitation (Bedfordshire)

**Mrs. Dorries:** To ask the Secretary of State for Health how many drug rehabilitation places are available for residents within the county of Bedfordshire. [11006]

**Ms Rosie Winterton:** The number of drug rehabilitation places for residents in the county of Bedfordshire is not held centrally. However, the number of people in contact with structured drug treatment services in Bedfordshire for the year 2003–04 is 903.

### End of Life Decision Making

**Mr. Amess:** To ask the Secretary of State for Health (1) how many times the Government have consulted on end of life decision-making since 1997; [10938]

(2) how many times her Department has consulted *(a)* formally and *(b)* informally on end of life decision making since 1997. [10876]

**Ms Rosie Winterton:** The Government had extensive dialogue with a range of groups in respect to the passage of the Mental Capacity Act, which deals with, among other things, end of life decisions for those who lack capacity. As part of this work, the Department for Constitutional Affairs issued two formal consultation documents "Who Decides?—making decisions on behalf of mentally incapacitated adults" (1997) and "Making Decisions: Helping people who have difficulty for themselves" (2002). The consultations covered a range of issues and diverse comments were received in response to these.

During the passage of the Mental Capacity Act and as part of regular policy dialogue, the Government receive a wide range of representations from a variety of stakeholders on end of life issues.

### General Anaesthetics (Consent)

**Mr. Amess:** To ask the Secretary of State for Health if she will seek to introduce legislation requiring a parent or guardian to sign the consent form for general anaesthetic for a minor. [10424]

**Ms Rosie Winterton:** Young people under 16 can give consent to medical treatment if they are able to understand fully what is involved in the proposed procedure. Departmental guidance encourages young people to include their parents in their decisions in such situations.

**Hampshire and Isle of Wight Strategic Health Authority**

**Sandra Gidley:** To ask the Secretary of State for Health for what reasons the recent vacancy for the post of chief executive at the Hampshire and Isle of Wight strategic health authority was not publicly advertised. [9791]

**Caroline Flint:** Strategic health authorities (SHAs) are statutory bodies. Appointments of chief executives are made by the relevant SHA chair and board and, as such, are a matter for local determination.

SHAs are obliged to advertise publicly a chief executive vacancy when they are appointing to the position on a substantive basis. The chief executive position at Hampshire and the Isle of Wight has been taken up on an interim basis only.

**Health Trusts**

**Harry Cohen:** To ask the Secretary of State for Health to which health trusts she has recently written in relation to *(a)* performance and *(b)* financial position; and if she will make a statement. [9785]

**Mr. Byrne:** I refer the hon. Member to the reply I gave the hon. member for North West Hampshire (Sir George Young) today.

**Hepatitis B**

**Dr. Gibson:** To ask the Secretary of State for Health whether the Joint Committee on Vaccination and Immunisation sub-group on hepatitis B has made recommendations on universal vaccination for hepatitis B. [10939]

**Caroline Flint:** The Joint Committee on Vaccination and Immunisation (JCVI) was updated recently on progress made by its working group on hepatitis B immunisation. JCVI felt that further work was required before any recommendations on future policy could be made.

**Hospital Building**

**Steve Webb:** To ask the Secretary of State for Health how many hospital building schemes are planned to start construction in *(a)* 2005, *(b)* 2006, *(c)* 2007 and *(d)* 2008. [9376]

**Mr. Byrne:** The start of schemes is subject to successful approval of the full business case. Detailed information on schemes with a capital value below £25 million is not held centrally. In 2005, one scheme has started and another seven are due to start. It is anticipated that nine will start in 2006 and eight in 2007. Timetables for later schemes are not yet finalised.

**Hospital-acquired Infections**

**Anne Main:** To ask the Secretary of State for Health what assessment she has made of the implications of initiatives to achieve greater throughput of patients on wards and in units for the spread of MRSA and other hospital-acquired infections. [9180]

**Jane Kennedy:** Controlling healthcare associated infections is complex and, as the national health service is treating more patients, this increased activity means that we need to work even harder to reduce the risk of infection.

Implementing "Winning Ways: Working together to reduce Healthcare Associated Infection in England" (December 2003) and "Towards cleaner hospitals and lower rates of infection" (July 2004) will address these concerns. For instance on bed occupancy, chief executives are required to ensure that infection control teams work with bed managers to optimise bed use, assess the infection impact of bed management policies and implement changes to local policy to minimise the risk of infection.

**Hospitals (Hendon)**

**Mr. Dismore:** To ask the Secretary of State for Health which hospitals will be available to patients in Hendon to choose from when patient choice becomes operational; for which forms of treatment; and if she will make a statement. [5836]

**Mr. Byrne:** Primary care trusts are responsible for commissioning the lists of four or more providers from which patients needing planned hospital care will be able to choose from the end of this year when they are referred by their general practitioner. Barnet primary care trust is responsible for commissioning the choice options for patients in Hendon.

**Identity Checks**

**Lynne Jones:** To ask the Secretary of State for Health what assessment she has made of *(a)* the cost and *(b)* merits of checking the biometric identities of individuals accessing health services; and what her preferred method is. [9943]

**Jane Kennedy:** We have been working with the Home Office to identify areas where the identity cards scheme could provide business benefits. On 28 June 2005, my right, hon. Friend the Home Secretary (Mr. Clarke) placed in the Library a paper containing the latest estimates of benefits of the identity cards scheme which shows that the benefits outweigh the costs once the scheme is fully operational. The cost of equipping premises will depend on the nature of the use of the identity cards scheme and the type of identity checks necessary to deliver the business benefits. In some cases, benefits could be realised without the use of card readers and the cost of installing any readers needs to be considered alongside future plans to refresh or upgrade information technology systems. As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit which will allow us to further refine our estimates of costs and benefits.

**Infection Control Teams**

**Mr. Lansley:** To ask the Secretary of State for Health how many infection control teams have dedicated budgets. [10026]

**Jane Kennedy:** The information requested is not collected centrally.

**Infection Surveillance Data**

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 13 June 2005, *Official Report*, column 104W, on Infection Surveillance Data, if she will

order an independent inquiry into the infection control procedures of all hospitals revealed to have a higher rate of *clostridium difficile* infection than Stoke Mandeville hospital when these data are published. [7522]

**Jane Kennedy:** The inquiry into the *Clostridium difficile* outbreak at Stoke Mandeville hospital will help to refine policy and develop tools for better control of *Clostridium difficile* throughout the health service. The priority will be implementing these recommendations rather than further inquiries.

### IVF Treatment

**Mr. Amess:** To ask the Secretary of State for Health (1) what estimate she has made of the number of women who have suffered a stroke following IVF treatment; and if she will make a statement; [10591]

(2) if she will introduce legislation to require that women contemplating IVF treatment be warned about the possible adverse consequences, including the risk of a stroke; and if she will make a statement; [10592]

(3) how many women aged *(a)* 16 to 24, *(b)* 25 to 30, *(c)* 30 to 35, *(d)* 36 to 40 and *(e)* over 40 years suffered adverse consequences following IVF treatment in each of the last three years for which figures are available; [10615]

(4) if she will list the possible adverse consequences of IVF treatment; and if she will make a statement. [10616]

**Caroline Flint:** Information on side effects following in vitro fertilisation (IVF) treatment, including the incidence of strokes, is not collected centrally. However, the Human Fertilisation and Embryology Authority (HFEA), which has monitored incidents involving IVF treatment since 2002, has advised me that it has not recorded an incidence of stoke following IVF since monitoring began.

As with any medical treatment, there are potential side effects of IVF. These include ovarian hyperstimulation syndrome, emotional stress, depression, mood swings, bleeding and infection after surgical egg collection and the medical and social implication of a multiple pregnancy and birth. Serious side effects are rare.

It is vital that patients contemplating IVF treatment are given all relevant information about their treatment, including any side effects associated with it. The provision of information and the opportunity of receiving counselling are already required by section 13 of the Human Fertilisation and Embryology Act 1990, which sets out the conditions on which a treatment licence is granted. This is reinforced by the HFEA's code of practice, which requires clinics to provide information on possible side effects and the risks posed to the patient and any resulting child.

### Locum Doctors

**Mr. Amess:** To ask the Secretary of State for Health if she will make a statement on the procedures for locum doctor registration. [10892]

**Mr. Byrne:** A doctor performing locum work is required to register with the General Medical Council in the same way as any other doctor.

### Malnourishment

**Mr. Burstow:** To ask the Secretary of State for Health what estimate she has made of the *(a)* number and *(b)* percentage of people (i) admitted to and (ii) discharged from hospital who were malnourished in each of the last five years for which figures are available, broken down by age; and if she will make a statement. [10160]

**Caroline Flint:** Information on numbers admitted is shown in tables 1 to 3.

*1: Finished in-year admission episodes to national health service hospitals in England where the patient's main diagnosis was malnutrition, 1999–2000 to 2003–04*

| Age | 1999–2000 | 2000–01 | 2001–02 | 2002–03 | 2003–04 |

Hospital episode statistics, health and social care information centre.

**Mental Health Services (Teenagers)**

**Mr. Rob Wilson:** To ask the Secretary of State for Health if she will make a statement on mental health services for teenagers. [11388]

**Mr. Byrne:** The Department is currently investing about £300 million to improve and expand child and adolescent mental health services (CAMHS). In September 2004, the Department, in conjunction with the Department for Education and Skills, sets out its vision for improving CAMHS in the children's national service framework (NSF). Although the NSF covers the whole range of CAMHS patients from young children to, typically, 17-year-olds, there are some recommendations which are particularly relevant to teenage users of mental health services. These include: consultation with young people about the design of patient-centred services, providing a choice of appropriate locations for young people to visit for their treatment, and ensuring a smooth and flexible transition from CAMHS to adult mental health services, taking into account the wishes of the patient.

In line with the commitments set out in the NHS plan (2000), early intervention in psychosis services have now been created across England to provide assessment and care for young individuals experiencing a first onset of

psychosis. The development of early intervention services is being supported by a major programme of research to evaluate their implementation and benefits for service users.

## MRSA

**Mr. Burns:** To ask the Secretary of State for Health how many cases of MRSA there were in the Mid Essex Hospital Trust area in each of the last five years for which statistics are available. [10304]

**Jane Kennedy** *[holding answer 12 July 2005]:* The Department introduced mandatory reporting of methicillin resistant *Staphylococcus aureus* (MRSA) bacteraemias (blood stream infections) for national health service acute trusts from 1 April 2001. The number of MRSA reports for the three years which figures are available is shown in the table.

| | *Number of reports* |
|---|---|
| April 2001 to March 2002 | 44 |
| April 2002 to March 2003 | 33 |
| April 2003 to March 2004 | 43 |
| April 2004 to March 2005 | 41 |

## NHS Financial Performance

**Mr. Yeo:** To ask the Secretary of State for Health when the *(a)* Norfolk, Suffolk and Cambridge Strategic Health Authority, *(b)* Suffolk West Primary Care Trust and *(c)* West Suffolk Hospitals Trust first reported financial problems in West Suffolk to her Department. [9338]

**Ms Rosie Winterton:** The Norfolk, Suffolk and Cambridgeshire Strategic Health Authority and the West Suffolk Hospitals National Health Service Trust have recently reported a financial deficit in 2003–04. The Suffolk West Primary Care Trust reported a financial deficit in 2002–03.

**Sir George Young:** To ask the Secretary of State for Health if she will list the *(a)* NHS trusts and *(b)* primary care trusts to whom she has recently written about their financial performance. [9690]

**Mr. Byrne** *[holding answer 5 July 2005]:* The following list shows all the national health service organisations that have recently received a letter regarding financial management from me or the NHS chief executive.

*Organisation*:

Airedale NHS Trust
Bedford Hospitals NHS Trust
Bedfordshire Heartlands PCT
Bexley Care Trust
Birmingham Women's Health Care NHS Trust
Blackwater Valley and Hart PCT
Bolton Hospitals NHS Trust
Brighton and Sussex University Hospitals NHS Trust
Broadland PCT
Buckinghamshire Mental Health NHS Trust
Burntwood, Lichfield and Tamworth PCT
Burton Hospitals NHS Trust
Cambridge City PCT
Cannock Chase PCT
Canterbury and Coastal PCT
Cent Manchester/Manchester Child NHS Trust
Central Cornwall PCT
Central Suffolk PCT
Chelmsford PCT
Cherwell Vale PCT

West Wiltshire PCT
Weston Area Health NHS Trust
Witham, Braintree and Halstead Care Trust
Wrightington, Wigan and Leigh NHS Trust
Wycombe PCT
Wyre Forest PCT
Yorkshire Wolds and Coast PCT

### Nursing Homes (Southend)

**Mr. Amess:** To ask the Secretary of State for Health how much money has been allocated for the improvement and renovation of nursing homes in the Southend West constituency in 2005–06. [9928]

**Ms Rosie Winterton:** This information is not collected. Care homes are private businesses making commercial/decisions on when and how much to spend on improvements and renovations. However, over the last three years the Government have provided for an average of 3 per cent., per annum growth in real terms in spending on social services. Local councils have the freedom to use these resources to provide services for older people in care homes, taking account of local circumstances and priorities.

### Older People (Medication Review)

**Mr. Burstow:** To ask the Secretary of State for Health when she will publish part two of the Taskforce on Medicine Partnership's evaluation of Room for Review. [6660]

**Jane Kennedy:** Part one of the evaluation of Room for Review was published on 21 March 2005. A copy is available through the Medicines Partnership's website at: www.medicines-partnership.org/medication-review/room-for-review/impact-evaluation. Part two of the evaluation will be published in summer 2005.

### Physiotherapist Vacancies

**Mr. Lancaster:** To ask the Secretary of State for Health how many vacancies there were for physiotherapists in England and Wales in 2004. [10774]

**Mr. Byrne:** The national health survey collects information on the number of vacancies lasting three months or more for physiotherapists in England. As at March 2004, there were 626 three-month vacancies for physiotherapists which represents a rate of 4.1 per cent., a fall from 4.7 per cent. the previous year.

Information for Wales is a matter for the devolved Administration.

### Pregnancy-related Deaths

**Mr. Amess:** To ask the Secretary of State for Health how many women aged *(a)* 14 to 16 years, *(b)* 17 to 21 years, *(c)* 22 to 24 years, *(d)* 25 to 30 years, *(e)* 31 to 35 years and *(f)* 36 to 40 years have died from pregnancy-related diseases in each year since 1976. [11046]

**Mr. Byrne:** The confidential enquiry into maternal deaths (CEMD) collects information relating to women dying from pregnancy-related conditions. Data is collected over three-year periods and is shown in the tables. From 1976 to 1987, this covered England and Wales only and also included only deaths directly related to obstetric complications. From 1988, however, data became available for the whole of the United Kingdom, which comprises both deaths directly and indirectly related to obstetric complications.

*CEMD data—England and Wales only. Deaths directly due to obstetric complications*

| Age | Year 1976–78 | 1978–81 | 1982–84 | 1986–87 |
|---|---|---|---|---|
| Under 20 | 18 | 16 | 9 | 12 |
| 20–24 | 38 | 34 | 27 | 24 |
| 25–29 | 83 | 49 | 39 | 34 |
| 30–34 | 44 | 40 | 28 | 36 |
| 35–39 | 22 | 26 | 27 | 28 |
| Over 40 | 22 | 11 | 8 | 5 |
| Total | 227 | 176 | 138 | 139 |

*CEMD data—UK. Deaths directly and indirectly due to obstetric complications*

| Age | Year 1988–90 | 1991–93 | 1994–96 | 1997–99 | 2000–02 |
|---|---|---|---|---|---|
| Under 20 | 17 | 7 | 15 | 19 | 16 |
| 20–24 | 38 | 30 | 40 | 35 | 30 |
| 25–29 | 74 | 87 | 71 | 61 | 70 |
| 30–34 | 57 | 61 | 70 | 66 | 79 |
| 35–39 | 31 | 36 | 53 | 50 | 47 |
| Over 40 | 18 | 7 | 11 | 13 | 19 |
| Total | 238 | 228 | 268 | 242 | 201 |

### Primary Care Funding (Isle of Wight)

**Mr. Andrew Turner:** To ask the Secretary of State for Health under what statutory powers *(a)* money is provided by her Department for the development of primary care premises in Sandown, Isle of Wight, *(b)* decisions about the allocation of money are made by a premises development group (PDG), *(c)* the composition of the group is determined, *(d)* conditions are laid down by the PDG after funding has been agreed and *(e)* the PDG can withdraw funding. [11180]

**Caroline Flint** *[holding answer 11 July 2005]:* The majority of funding for premises development became part of the unified allocations in April 2004. Unified allocations are made by the Secretary of State under the National Health Service Act 1977.

The Government are committed to improving the infrastructure of primary care by modernising service delivery, access and choice in the NHS. Increased funding has been made available to primary care trusts (PCTs) to implement these service improvements. Consequently, the modernisation of primary health care premises is determined locally by consultation between PCTs and general practitioner practices.

We asked each strategic health authority to establish a mechanism for distributing premises development funding within their local health community. In the Isle of Wight, the chosen method was the premises development group whose composition and conditions is set out by the local PCTs.

### Residential/Nursing Homes

**Mrs. Moon:** To ask the Secretary of State for Health if she will take steps to involve pharmacists in developing and providing accredited training for care staff in residential and nursing homes. [10738]

**Mr. Byrne** *[holding answer 12 July 2005]:* Medication is one of the four key areas of the knowledge and skills sets being developed by Skills for Care in England. The chief pharmacist for the Commission for Social Care Inspection and the Royal Pharmaceutical Society are helping with this development work.

### Right to Life

**Mr. Amess:** To ask the Secretary of State for Health if she will make it her policy to promote the equal status and rights of people with disabilities, including the right to life. [10599]

**Ms Rosie Winterton:** The Government are fully committed to the national health service offering equal access for all, irrespective of disability, race, gender, sexual orientation, faith and age.

### Smog Warning

**Mr. Austin Mitchell:** To ask the Secretary of State for Health what assessment she has made of the effect of pollution sufficient to trigger a smog warning on the respiratory system. [11179]

**Caroline Flint:** The Department is advised on the consequences for health of exposure to air pollutants by the Committee on the Medical Effects of Air Pollutants (COMEAP). COMEAP has published a series of reports dealing with a variety of pollutants and their effects on health. These are available on the COMEAP website at http://www.advisorybodies.doh.gov.uk/comeap/. The effects of different levels of air pollutants have been considered and a statement on this has also been published on the COMEAP web site[1].

This advice has been provided to the Department for Environment, Food and Rural Affairs and forms the basis for its decisions regarding the provision of information in the form of smog warnings.

[1] COMEAP statement on banding of air quality:
http://www.advisorybodies.doh.gov.uk/comeap/statementsreports/airpol9.htm.

### Social Care Institute for Excellence

**Sandra Gidley:** To ask the Secretary of State for Health what has been the cost to the Department of the Social Care Institute for Excellence in each year since its inception; and what assessment she has made of its effectiveness. [10077]

**Mr. Byrne:** The costs to the Department of the Social Care Institute for Excellence (SCIE) in each year since its inception are shown in the table.

| | *Grant (£ million)* |
|---|---|
| 2001–02 | 1.043 |
| 2002–03 | 3.195 |
| 2003–04 | 4.750 |
| 2004–05 | [1]4.430 |

[1] In addition, £2.843 million was allocated mid-year.

*Note:*
Figures in the table are rounded to nearest £1,000.

There has been a formal service level agreement in place between the SCIE and the Department since October 2001. This confirms the annual accountability arrangements for reviewing the SCIE's effectiveness and appropriate use of Departmental funding, as prescribed under powers granted in section 64 of the Health

Services and Public Health Act 1968. The use and purpose of allocated annual Departmental grants and agreed performance indicators are stipulated and these are set against agreed policy objectives and future funding needs. The most recent annual accountability review took place on 22 June 2005.

The Government are satisfied with these governance arrangements and acknowledges the SCIE's significant contribution to improving the experience of social care users.

### Speech Therapists

**Mr. Lidington:** To ask the Secretary of State for Health in respect of *(a)* each primary care trust and *(b)* for England, what the average waiting time was between (i) a child and (ii) an adult being referred for (A) speech therapy and (B) occupational therapy and receiving treatment in the last period for which figures are available; and if she will make a statement. [12387]

**Mr. Byrne:** The information requested is not collected centrally.

### Virus Outbreaks

**Mr. Burstow:** To ask the Secretary of State for Health how many small round structured virus outbreaks were reported to the Health Protection Agency in each year since 2000. [10176]

**Caroline Flint:** The numbers of outbreaks of norovirus, formerly known as small round structured virus, in England and Wales, reported to the Health Protection Agency, are shown in the table.

*Outbreaks of norovirus in England and Wales*

| | *Number of outbreaks* |
|---|---|
| 2000 | 285 |
| 2001 | 191 |
| 2002 | 687 |
| 2003 | 220 |
| 2004[1] | 312 |
| Total | 1,695 |

[1] Provisional data.

## CONSTITUTIONAL AFFAIRS

### Community Justice Centre (Liverpool)

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs (1) what has been the sentence in each case heard before the Community Justice Centre in Liverpool where no community sentence was awarded since its establishment; [11692]

(2) how much has been spent to date on the foundation and running of the Community Justice Centre in Liverpool. [11690]

**Ms Harman:** Since 9 December 2004, over 350 cases have been heard by His Honour Judge David Fletcher. Non-community sentences can be broken down into:

| | *Number* |
|---|---|
| Fines and compensation | 89 |
| Imprisonment | 26 |
| Discharge | 17 |
| ASBO crack house closure | 2 |
| ASBO other | 6 |
| Football banning orders | 2 |
| Supervision order | 1 |
| Destruction of drugs | 1 |
| Caution | 1 |

Other disposals:

| | *Number* |
|---|---|
| Found not guilty | 1 |
| Order to continue | 1 |
| Committed to the Crown court | 1 |
| Remitted to the magistrates court | 1 |
| Case withdrawn | 47 |
| Case discontinued | 13 |
| Miscellaneous | 13 |

To end of June 2005 a total of £2,952,108 has been spent on the foundation, development and delivery of the North Liverpool Community Justice Centre.

### Departmental Purchasing

**Chris Grayling:** To ask the Minister of State, Department for Constitutional Affairs if she will list the companies from which her Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11729]

**Bridget Prentice:** It is not possible for the Department to provide the detailed information requested on how much was spent on purchasing goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company without incurring disproportionate cost.

### Departmental Staff

**David T.C. Davies:** To ask the Minister of State, Department for Constitutional Affairs how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11528]

**Bridget Prentice:** I refer the hon. Member to table C of Civil Service Statistics 2004 which is available on the internet at http://www.civilservice.gov.uk/management_information/statistical_information/statistics/publications/xls/report_2004/table_c.xls.

This table shows the numbers of staff by Department and agency between 1998 and 2004, on a full-time equivalent basis. Copies of Civil Service Statistics are also available in the Library.

### English Wine

**Mr. Dismore:** To ask the Minister of State, Department for Constitutional Affairs if she will ensure that English wine is made available at dinners, receptions and parties she hosts at which hospitality

involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if she will make a statement. [9161]

**Ms Harman:** Any procurement for any functions I host is undertaken in line with the EC's procurement rules and to obtain value for money for the Department. Where possible British products are used.

### General Election (Internet)

**Mr. Hood:** To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the role of the internet during the 2005 general election. [11654]

**Ms Harman:** The Government have not undertaken an assessment of this area.

However, outside government, there has been some research done into the use of the internet at the 2005 general election. The Hansard Society has recently published its report on this issue: "Spinning the web: online campaigning in the 2005 general election".

### Lay Magistrates (Northern Ireland)

**Mr. Dodds:** To ask the Minister of State, Department for Constitutional Affairs how many of the newly appointed lay magistrates in Northern Ireland have been involved in *(a)* more than 10 cases, *(b)* more than five cases and *(c)* no cases. [11613]

**Bridget Prentice:** Case disposal statistics are not available for the period from 1 April 2005, the date upon which the new judicial office of lay magistrate was established in Northern Ireland. However, of the 272 appointments made by the Lord Chancellor, 200 lay magistrates have sat in court since April 2005.

### Postal Voting

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs how many convictions for postal ballot fraud there have been in each constituency in the UK for each of the past 10 years, listed in descending order; and if she will make a statement. [10802]

**Ms Harman:** This information is not collected centrally. However, I refer my hon. Friend to my previous answer on 13 June 2005, *Official Report*, column 181W, for information on the number of electoral fraud convictions since 1995. I am unaware of any convictions for postal ballot fraud in parliamentary elections; but there have been a very small number of convictions arising from fraud in local elections, in the order of one or two a year.

### Sickness Absence

**David T.C. Davies:** To ask the Minister of State, Department for Constitutional Affairs how many days the Department has lost due to sickness for each of the last five financial years for which figures are available. [11517]

**Bridget Prentice:** The number of sickness absence days is recorded by the Department. The figures are contained in the annual report "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office. Table A of the report gives details of both the average working days absence per staff year and the number of staff years on which that calculation is based on. The most recent of which (for calendar year 2003) was announced by ministerial statement on 1 November and copies placed in the Libraries of the House. Reports for 1999, 2000, 2001 and 2002 are also available in the Library and on the Cabinet Office website at: http://www.civilservice.gov.uk/managementjnformation/conditions_of_service/caje/publications/index.asp#sickness.

The Department is committed to managing sickness absence effectively and to putting in place recommendations of the recently published "Managing Sickness Absence in the Public Sector".

## NORTHERN IRELAND

### Education (Equality Scheme)

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland when the consultation on the Department of Education's equality scheme and equality impact assessment timetable appeared on the Department's website. [11382]

**Angela E. Smith:** The Department of Education's consultation document on the review of the equality scheme and equality impact assessment timetable was placed on the departmental internet site on 24 March 2005.

### Equality Impact Assessments

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland under what circumstances an equality impact assessment would not be conducted when *(a)* new policies and practices are introduced and *(b)* existing ones are revised. [10967]

**Mr. Hanson:** To comply with their statutory equality duty under s75*(1)* of the Northern Ireland Act 1998, public authorities are required to carry out equality screening, and if necessary equality impact assessment of policies, in accordance with their equality schemes and the Equality Commission for Northern Ireland's "Guide to the Statutory Duties" which is available on the Commission's Website at www.equalityni.org . The results of screening would determine whether or not an equality impact assessment was considered necessary.

### Police Service

**Lady Hermon:** To ask the Secretary of State for Northern Ireland when he expects to announce the conclusions of the research programme tasked with ascertaining the necessary vision standards for new Police Service Northern Ireland recruits. [11235]

**Mr. Woodward:** Following the introduction of new Home Office guidelines relating to eyesight standards for police recruitment in England and Wales, the Police Service of Northern Ireland (PSNI) had specific concerns as they took no cognizance of handling firearms safely, as this is not a requirement for officers being recruited in England and Wales. The PSNI

therefore felt it necessary to initiate a research project, tasked with ascertaining the justifiable requirements for visual standards for recruits to PSNI.

The researchers have completed the practical aspect of this study and are now in the final stages of analysing the results. The findings of their research will be considered in conjunction with the standards that have been adopted in England and Wales.

An exact timescale for the publication of the research is not yet known.

### Police Stations

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what criteria were used by his Department when deciding on the closure of rural police stations; and what public consultation had been undertaken prior to the announcement of the proposed closures. [11346]

**Mr. Woodward:** The closure of police stations is a matter for the chief constable, in consultation with the Policing Board.

The estate strategy, endorsed by the PSNI chief officers and the Northern Ireland Policing Board, lists 61 stations to be reviewed over the next five year period.

On 30 June 2005, the Policing Board approved the closure of the following stations:

Ardglass, Castlewellan, Moy, Ballygawley, Caledon, Castlerock, Moneymore, Dromore (Co Tyrone) and Plumbridge.

The Policing Board agreed to review the following stations in September 2005:

Ballinamallard, Derrygonnelly, Irvinestown, Kinawley, Rosslea, Lisbellaw, Newtownbutler and Tempo.

The 9 stations approved for closure are:

| *Down* | *Londonderry* | *Tyrone* |
|---|---|---|
| Ardglass | Castlerock | Dromore |
| Castlewellan | | Plumbridge |
| | | Ballygawley |
| | | Caledon |
| | | Moy |
| | | Moneymore |

Each district commander is required to conduct the review of his/her station(s) within the terms of the estate review. When closure recommendations are made, local commanders embark on a process of consultation with local communities on both the proposals and on the best way to continue to deliver services locally.

Consultation is by way of public debate/formal presentation/public meeting/private briefings/publicity or a combination of these. The alternative strategies for delivery of policing are outlined at this stage, for example, mobile police stations/ motor cycles/ community police teams/identified local beat officers.

DCU commanders conduct a full consultation with their local district policing partnership in every case. In many cases the agreed way for providing police services for the future is formally agreed with the DPP.

On completion of this process, a DCU commander makes a recommendation to the chief constable regarding the future of a particular station and a business case is submitted to the Northern Ireland Policing Board for consideration and endorsement. The chief constable then engages in a formal consultation process with the Policing Board and this process of consultation is currently ongoing.

### Press Officers

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland how many press officers each Department employed in each year since 1999; and what the cost was in each year. [11115]

**Angela E. Smith:** The following figures indicate the number of press officers in post in each Department for the year 2004–05. Press officer duties include media liaison; print management; internet; and advertising, as well as servicing Ministers.

It is not possible to produce figures for the other years requested without incurring disproportionate costs

*Staff numbers*

| *Department* | *Principal information officer* | *Deputy principal information officer* | *Information officer* |
|---|---|---|---|
| DARD | 1 | 1 | 1 |
| DCAL | 1 | 0 | 0 |
| DE | 0.75 | 1 | 0 |
| DETI | 1 | 0 | 1 |
| DFP | 1 | 1 | 1 |
| DEL | 1 | 1 | 0 |
| DHSSPS | 1 | 1 | 1.80 |
| DOE | 1 | 1 | 0 |
| DRD | 1 | 2 | 1 |
| DSD | 1 | 2 | 0.80 |
| OFMDFM | 2 | 3.6 | 3 |
| NIO | 2 | 5 | 4.5 |
| Total staff | 13.75 | 18.60 | 14.10 |

Estimated total paybill: £1.9 million.

The table shows the number of full time equivalent staff as at 31 March 2005.

The estimated total paybill includes actual salary at March 2005, allowances paid between April 2004 and March 2005 inclusive and overtime payments made between April 2004 and March 2005 inclusive.

### School Tests (Reliability Indices)

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland (1) what quantifiable validity or reliability indices have been used on *(a)* the 11-plus transfer test and *(b)* the proposed pupil profile; [11381]

(2) what technical analysis has been carried out on *(a)* the 11-plus transfer test and *(b)* the proposed pupil profile. [11383]

**Angela E. Smith:** The Northern Ireland Council for the Curriculum, Examinations and Assessment (CCEA) conducts the 11 plus transfer tests on behalf of the Department of Education. CCEA commissions an external agency to develop the tests which undergo extensive and rigorous testing and analysis to ensure their validity in terms of the elements of the subjects specified for the tests, that they reflect the relevant

programmes of study and that the standard is consistent from year to year. In addition a series of reliability measures are used to ensure internal consistency of the tests. The agency is recognised internationally for its expertise in test development and its staff adhere to a code of practice governing all aspects of test development. CCEA also employs a number of additional quality assurance procedures.

The pupil profile currently being developed will provide a range of useful information on each child's progress, aptitudes, interests and aspirations. It will be based on well-supported teacher assessment rather than a regime of annual testing. CCEA has been developing and trialling the pupil profile over the last two years to ensure that it is robust, manageable and useful for parents, pupils and teachers. Details of the evaluation of the trials to date will shortly be published on the CCEA website. Development work will continue in 2005–06. CCEA will ensure that the pupil profile will meet standards of validity and reliability by benchmarking them against the Assessment Reform Group's principles for effective teacher assessment.

## INTERNATIONAL DEVELOPMENT

### Asian Tsunami

**Richard Burden:** To ask the Secretary of State for International Development what assessment he has made of *(a)* progress with relief and reconstruction work following the impact of the tsunami on Phi Phi, Thailand and *(b)* the levels of assistance being given to support residents of Phi Phi who lost their homes and wish to return. [9589]

**Mr. Thomas:** The Government of Thailand have made it clear that they do not want any external financial assistance for post-tsunami recovery, and because of Thailand's relative wealth, DFID do not operate an aid programme there. We have therefore made no assessment of the Thai Government's recovery programme on Phi Phi.

### Correspondence

**Sir Gerald Kaufman:** To ask the Secretary of State for International Development when he expects to reply to the letter to him dated 1 June from the right hon. Member for Manchester, Gorton, with regard to Mr. Michael Addie. [10688]

**Hilary Benn:** The letter of 1 June from my right hon. Friend for Manchester, Gorton, on behalf of his constituent Mr. Michael Addie was received in DFID on 10 June. A reply was issued on 12 July. I apologise for the delay.

### Cotton Subsidies

**Mark Simmonds:** To ask the Secretary of State for International Development what discussions he has had with the US Administration regarding the impact of cotton subsidies on African Caribbean Pacific countries. [9273]

**Mr. Thomas:** The EU and US cotton subsidies are among the clearest examples of trade distortion by the Organisation for Economic Co-operation and Development (OECD). The UK was among the EU member states who pushed hard for maximum reductions in EU trade distorting subsidies to cotton in the 2003 reforms of the Common Agricultural Policy (CAP) both as an end in its self and to push the US to address their subsidies.

The West African countries most adversely affected by depressed world prices (with support from EU donors including the UK) have been successful in getting special attention paid to cotton in the context of the Doha Development Agenda and a special sub-group on cotton has been set up in the World Trade Organisation (WTO) agriculture negotiations. Brazil also successfully challenged US cotton subsidies in the WTO, with the result that the US has to end some of its subsidies. We have pushed the US to comply with this ruling. DFID also provides support to International NGOs who work with developing countries in preparing for WTO agriculture negotiations, including on cotton.

### Uganda

**Mark Simmonds:** To ask the Secretary of State for International Development what his policy is on the level of UK development assistance to Uganda, in the event of a change to the Ugandan constitution to enable the President to serve a third term. [11828]

**Hilary Benn:** The UK has set aside £70 million of development assistance for Uganda in 2005–06. £50 million of this has been allocated for Poverty Reduction Budget Support (PRBS). Our PRBS agreement with the Government links disbursement to criteria on macro-economic and sector performance and governance. All the criteria that determine disbursement levels are taken from the commitments in the Government of Uganda's own Poverty Eradication Action Plan and are designed to ensure our support is transparent and predictable. We intend to take a decision on the level of disbursement in 2005–06 in September when we will assess performance against all the agreed indicators.

The issue of lifting the limit on presidential tenure, like other proposed changes to the constitution, is for Ugandans to decide. We trust the process for doing this will carry the confidence of the Ugandan people and Parliament. The governance criteria in our PRBS agreement are focused on the quality of the overall transition process leading up to elections in March 2006.

## HOME DEPARTMENT

### Abductions

**Sarah Teather:** To ask the Secretary of State for the Home Department how many people were prosecuted for abduction in London in each year since 1997. [8326]

**Fiona Mactaggart:** Data from the Home Office Court Proceedings database on the number of people

prosecuted for abduction in London, 1997 to 2003 is contained in the table.

Statistics for 2004 court proceedings will be available in the autumn.

*Number of defendants proceeded against at magistrates courts for abduction or kidnapping in London, 1997 to 2003*[1,2]

| *Offence description* | *Principal statute* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|---|---|---|
| Abduction of children | Child Abduction Act 1984 S.1 &2 as amended by the Children Act 1989 | 19 | 11 | 18 | 12 | 12 | 12 | 14 |
| Abduction of female having interest in property | Sexual Offences Act 1956 S.1 7 (in part) | — | — | 1 | — | — | — | — |
| Abduction of female by force | Sexual Offences Act 1956 S.1 7 (in part) | 2 | — | 2 | — | — | — | — |
| Abduction of unmarried girl under 16 | Sexual Offences Act 1956 S.20 | 2 | 2 | 3 | — | — | 3 | 1 |
| Abduction of unmarried girl under 18 | Sexual Offences Act 1956 S.1 9 | — | — | — | — | — | — | — |
| Abduction of female defective | Sexual Offences Act 1956 S.21 | — | — | — | — | — | — | — |
| Kidnapping | Common Law | 76 | 68 | 92 | 71 | 128 | 130 | 152 |

[1] These data are on the principal offence basis.
[2] Includes Metropolitan and City of London police force areas.

### Acceptable Behaviour Contracts

**John McDonnell:** To ask the Secretary of State for the Home Department (1) how evidence is tested prior to the drafting of an acceptable behaviour contract; [11375]

(2) what sanctions apply in respect of an acceptable behaviour contract if the conditions are breached. [11376]

(3) what rights the recipient of an acceptable behaviour contract has to challenge the evidence on which the contract was based. [11377]

**Hazel Blears:** An acceptable behaviour contract (ABC) is agreed and signed at a meeting with the individual involved in the antisocial behaviour and one or more lead agencies. This meeting should be used as an opportunity for the individual and his or her family (if the individual involved is a young person) to discuss the impact their behaviour has had on others. The meeting may also be used as an opportunity to challenge any evidence put forward in support of making the ABC. ABCs are not statutory orders and therefore it is for local authorities to decide details such as what evidence may be used to support an ABC and how this evidence is tested. Our publication "A guide to antisocial behaviour orders and acceptable behaviour contracts" provides guidelines on ABCs for local authorities.

Breach of an ABC is not a criminal offence but should be taken seriously. The action taken is a matter for local authorities and should be determined by the nature of the breach.

### Airwave

**Mr. Henderson:** To ask the Secretary of State for the Home Department whether the *(a)* Airwave health monitoring study by Imperial College London and *(b)* the Airwave Patterns of Use Study by the University of Birmingham Institute of Occupational and Environmental Medicine have been published; and if he will place copies in the Library. [11583]

**Hazel Blears:** The Imperial College work is a long-term study. The results will not be available for several years. The University of Birmingham work has now been completed and the report will be published as soon as possible.

### Alcohol-related Crime (Bedfordshire)

**Mrs. Dorries:** To ask the Secretary of State for the Home Department how many alcohol-related crimes there have been in *(a)* the constituency of Mid-Bedfordshire and *(b)* the county of Bedfordshire since 1997. [11024]

**Hazel Blears:** It is not possible to identify offences that are alcohol-related from the recorded crime data collected centrally.

### Antisocial Behaviour Orders

**Mrs. Gillan:** To ask the Secretary of State for the Home Department (1) whether any antisocial behaviour orders have been *(a)* applied for and *(b)* granted in respect of an individual who uses a wheelchair; [11359]

(2) how many antisocial behaviour orders have been issued with a condition since 1999; and what the most common conditions were; [11362]

(3) how many antisocial behaviour orders with *(a)* one condition, *(b)* two conditions, *(c)* three conditions, *(d)* five to 10 conditions, *(e)* more than 10 conditions and *(f)* 20 or more conditions were issued in each year since 1999. [11363]

**Hazel Blears:** Data collated by the Home Office for statistical purposes do not identify the personal circumstances of antisocial behaviour order (ASBO) recipients.

An ASBO prohibits a recipient from doing anything described in the order but the number or types of conditions imposed are not collated for statistical purposes.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department (1) what evidence his Department has evaluated on the effects of antisocial behaviour orders on individuals with a disability; [11360]

(2) what advice has been given to *(a)* courts, *(b)* the police and *(c)* local authorities on the effects of issuing an antisocial behaviour order to an individual with a disability. [11361]

**Hazel Blears:** Our publications "A guide to anti-social behaviour orders and acceptable behaviour contracts" and "Guidance on publicising antisocial behaviour orders (ASBOs)" together with information provided by our TOGETHER website and Action Line, provides comprehensive guidance for all practitioners, including courts, police authorities and local authorities.

This guidance sets out that, where an individual has a known or suspected disability, a needs assessment should always be carried out. In addition, the courts and

practitioners are familiar with disability discrimination legislation which provides a general safeguard when taking court action against an individual that has a disability.

We have not received any evidence to suggest that ASBOs may disproportionately affect individuals with a disability.

**Dr. Kumar:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in *(a)* criminal and *(b)* civil courts in (i) England, (ii) the Teesside region and (iii) Middlesbrough South and East Cleveland constituency. [11367]

**Hazel Blears:** The available information is given in the table.

*Number of ASBOs issued at all courts in England, as notified to the Home Office, and where restrictions are imposed in local authority areas within the Teesside region, from 1 June 2000 up to 31 December 2004 (latest available)*

| | *On conviction* | *On application* | *Total issued* |
|---|---|---|---|
| *Area* | | | |
| Teesside region[1] | 5 | [2]48 | [2]53 |
| *Of which:* | | | |
| Hartlepool Borough Council | 1 | 6 | 7 |
| Middlesbrough Borough Council[3] | 3 | 26 | 29 |
| Redcar and Cleveland Borough Council[3] | 1 | 9 | 10 |
| Stockton on Tees Borough Council | 0 | 6 | 6 |
| England | 2,019 | [4]2,464 | [4]4,4834 |

[1] The Teesside region includes Hartlepool, Redcar and Cleveland, Middlesbrough and Stockton on Tees local authority areas.
[2] From 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area (pfa). Includes one ASBO issued within Cleveland pfa during this period.
[3] Middlesbrough South and East Cleveland parliamentary constituency is located within the local government authority areas of Middlesbrough borough council and Redcar and Cleveland council.
[4] Includes 104 ASBOs issued from 1 April 1999 to 31 May 2000.

**John McDonnell:** To ask the Secretary of State for the Home Department whether an individual's physical or mental condition which affects their ability to carry out normal day-to-day actions is taken into account by *(a)* courts, *(b)* local authorities and *(c)* the police when deciding whether to apply for an antisocial behaviour order; and whether any antisocial behaviour orders have been (i) applied for and (ii) granted in respect of individuals. [11379]

**Hazel Blears:** Our publications "A guide to antisocial behaviour orders and acceptable behaviour contracts" and "Guidance on publicising antisocial behaviour orders" together with information provided by our TOGETHER website and Action Line, provides comprehensive guidance for all practitioners, including courts, police authorities and local authorities.

This guidance sets out that, where an individual has mental health problems or a known or suspected disability, a needs assessment should always be carried out. In addition, the courts and practitioners are familiar with disability discrimination legislation which provides a general safeguard when taking court action against an individual that has a disability.

Information is not collected centrally about the characteristics or circumstances of persons issued with an antisocial behaviour order.

**Mr. Fabian Hamilton:** To ask the Secretary of State for the Home Department what plans he has to involve local communities in obtaining antisocial behaviour orders. [11446]

**Hazel Blears:** Antisocial behaviour orders are community-based orders designed to protect individuals or whole communities from behaviour that has caused, or is likely to cause, harassment, alarm or distress to others. They involve local communities in the collection of evidence and in helping to enforce breaches. They also encourage local people to take an active role in protecting their communities and making them safer places in which to live.

**John McDonnell:** To ask the Secretary of State for the Home Department how he expects that the civil renewal strategy will impact on applications for antisocial behaviour orders. [11378]

**Hazel Blears:** The Government's plan for civil renewal, "Together We Can", is about empowering citizens to work with public bodies to set and achieve common goals. It will encourage more citizens to work with local agencies to obtain antisocial behaviour orders to tackle persistent problems where that is appropriate, and also involve more local people in developing strategies and activities for positive community action to help conflict resolution and youth inclusion. In providing co-operative and restorative options to deal with potential antagonism between citizens, the plan will contribute to the reduction of the level of antisocial behaviour and the need for antisocial behaviour orders.

## Asylum/Immigration

**Mr. Geoffrey Robinson:** To ask the Secretary of State for the Home Department how many new asylum claims following unsuccessful first claims were successful in each of the last three years. [7665]

**Mr. McNulty:** The numbers for the last three years are as follows:

| | *Number* |
|---|---|
| 2002 | 49 |
| 2003 | 36 |
| 2004 | 42 |

This information is based on internal management information and, as such, is not published within the official statistics.

Cases are considered on their individual merits, consideration being given to changed circumstances and fresh information which justifies a reversal of the previous decision. Furthermore, there is provision for consideration of a submission, which amounts to a fresh claim, if it is significantly different from the material that has previously been considered.

**Bob Russell:** To ask the Secretary of State for the Home Department (1) to which destinations in Iraq asylum seekers deported from the UK are sent; [9137]

(2) what measures are taken to ensure that asylum seekers from the Kurdish area of Iraq deported from the UK are given safe passage to their home area; and if he will make a statement. [9139]

**Mr. McNulty:** The Government announced their intention in February 2004 to commence enforced returns to Iraq, but this has yet to start. The overriding reason has been the need to co-ordinate our operational logistics and preparations with the changes in the administrations in Iraq since this announcement was made. The enforced return of any individual to Iraq will be directed to areas assessed as sufficiently stable and where the Home Office is satisfied that the individual concerned will not be at risk. Great care will be taken with all travel arrangements.

A programme of assisted voluntary returns is operated by the International Organisation for Migration (IOM) on behalf of the Home Office. Iraqi citizens continue to return to Iraq voluntarily on the overland route from Jordan to Baghdad with the assistance of the IOM. The Home Office does not record the destination of returnees in its statistics.

**John Bercow:** To ask the Secretary of State for the Home Department how many Sudanese asylum seekers have had their cases closed and are awaiting deportation. [10896]

**Mr. McNulty:** I regret that information on the number of people who have exhausted all appeal rights and are awaiting removal from the UK is not available, and could be obtained only at disproportionate cost. Some individuals whose asylum application was unsuccessful may have left the UK without informing the immigration service.

Once an individual's asylum claim has been refused and any subsequent appeals dismissed, there are still a number of potential barriers to removal including, but not limited to:

judicial or human rights applications;

lack of documentation (without which an applicant cannot be returned);

absence of a travel route, lack of co-operation from receiving countries or scheduled flight services (resulting in lengthy documentation processes or use of charter flights);

maintaining contact with failed asylum seekers who have moved or changed address to avoid detection.

Information on the total number of cases awaiting an initial decision or appeal outcome, and on applications, initial decision outcomes, and appeal outcomes by nationality, is published quarterly and annually on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

**John Bercow:** To ask the Secretary of State for the Home Department (1) if he will list the countries from which asylum claims have been refused on the grounds of the internal flight alternative; [10897]

(2) what proportion of asylum claims were refused on the grounds of the internal flight alternative in the last period for which figures are available. [10898]

**Mr. McNulty:** Each asylum and human rights claim is considered on its individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Applications may be refused for more than one reason. We do not record on electronic databases whether refusals were related to the availability of internal relocation as a means of avoiding persecution in any particular country. The information requested could be obtained only at disproportionate cost by examination of individual case files.

**John Bercow:** To ask the Secretary of State for the Home Department what his policy is on the European Charter of Fundamental Rights, with particular reference to the prohibition of refoulement of asylum seekers. [11032]

**Mr. McNulty:** The Charter of Fundamental Rights is a political declaration, which sets out fundamental rights, freedoms and principles, including right to asylum (Article 18 of the Charter) and non-refoulement (Article 19 (2)), which already exist in the EU acquis.

UK law and practise is fully in accordance with the non-refoulement principle. Each asylum and human rights claim is considered on its individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Claimants who meet the definition of a refugee in the 1951 Convention are granted asylum. If they do not qualify for asylum, but there are other circumstances that make them particularly vulnerable and engage our obligations under the ECHR, they are granted humanitarian protection or discretionary leave. If their application is refused, they have a right of appeal to the independent Asylum and Immigration Tribunal. In this way we ensure that we provide protection to those who need it.

**Mr. Austin Mitchell:** To ask the Secretary of State for the Home Department what inquiries are made in the country of origin about the cases put by asylum seekers against their deportation. [11166]

**Mr. McNulty:** Each application is considered against the background of the latest available country information from a wide range of reliable sources including intergovernmental organisations (such as the UN), governmental sources (including the Foreign and Commonwealth Office) and human rights organisations (for example Amnesty International and Human Rights Watch). Further inquiries in the country of origin are sometimes undertaken when additional information is needed in order to reach a decision.

**Mr. Austin Mitchell:** To ask the Secretary of State for the Home Department whether adjudicators in asylum cases are expected to have knowledge or experience of the country from which the asylum seeker they are considering comes from and may be deported to; and how the Government provides them with up-to-date information. [11167]

**Bridget Prentice:** I have been asked to reply.

Immigration Judges (formerly known as Adjudicators) are not expected to have knowledge or experience of the country from which a particular asylum seeker comes. The appeal system is adversarial, so the burden rests with the parties to produce all evidence they wish the Immigration Judge to take into account in reaching his determination. The Home Office

is a party to every asylum appeal and, as such, is under a duty to place all relevant evidence before the Asylum and Immigration Tribunal.

**Lady Hermon:** To ask the Secretary of State for the Home Department if he will review his decision to exclude Northern Ireland as a destination for asylum seeker dispersal; and if he will make a statement. [11351]

**Mr. McNulty:** Northern Ireland is not currently a dispersal area. Those making their application for asylum in Northern Ireland may, if they wish, receive support, including accommodation, there. The Government keep their policy in relation to dispersal under review but there is no intention, at this stage, to begin dispersing to Northern Ireland asylum seekers who have claimed asylum elsewhere in the United Kingdom.

**John Bercow:** To ask the Secretary of State for the Home Department what assessment he has made of the prospects for the safety of *(a)* Hatem Mohammed Hussain, *(b)* Bergu Mohammed, *(c)* Bakery Elzin Mohammed, *(d)* Bakhet Adam Ali and *(e)* Ismail Mohamed Jabar if they return to Khartoum. [11411]

**Mr. McNulty:** It is not usual practice to disclose information about individual immigration cases to anybody other than their nominated representatives or constituency MP.

**John Bercow:** To ask the Secretary of State for the Home Department what estimate he has made of the number of Sudanese asylum seekers who have returned to the UK after deportation to Khartoum in each of the last two years. [11427]

**Mr. McNulty:** Information on the number of Sudanese asylum seekers who have returned to the UK after deportation to Khartoum in each of the last two years is not collected.

Information on the numbers of asylum applications and removals of failed asylum seekers is published in the quarterly asylum statistics on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

**David Davis:** To ask the Secretary of State for the Home Department how many asylum seekers in the United Kingdom are awaiting the result of *(a)* an initial decision and *(b)* an appeal. [11543]

**Mr. McNulty:** The available information is as follows.

Asylum numbers are continuing to fall dramatically year on year, and provisional figures for the whole of 2004 show UK asylum applications fell by 33 per cent. including dependants, twice the rate of the rest of Europe.

This has been achieved through measures such as the closure of Sangatte, rolling out detection technology, posting immigration officers in France and Belgium, ending appeals in the UK for nationals of safe countries, introducing new visa regimes and bringing in tough legislation to deal with abuse of the system and delays.

Consequently the number of cases awaiting an initial decision has continued to fall, to 8,700 cases at the end of March 2005, the lowest level for more than a decade (and less than half the level of a year earlier); of these 4,400 cases were classified as work in progress i.e. the application had been outstanding for six months or less.

Information on asylum initial decision outcomes and appeal outcomes is published quarterly and annually on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

**Mr. Hood:** To ask the Secretary of State for the Home Department how many illegal immigrants have been deported since January 2005 in *(a)* the UK and *(b)* Scotland. [11688]

**Mr. McNulty:** Information on people removed from within Scotland would not be available, except by examination of individual case files at disproportionate cost.

Statistics on the number of illegal entrants who are removed from the UK are published in the annual "Control of Immigration: Statistics United Kingdom". Information for 2005 is not scheduled to be published until the summer of 2006.

Information on the number of asylum seekers removed from the UK is published every quarter on the Home Office website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

The latest available figure cover the first quarter of 2005. Statistics for the second quarter of 2005 will be published in August.

### Correspondence

**Mr. Mullin:** To ask the Secretary of State for the Home Department on what date he responded to the letter from Clive Stafford Smith dated 15 May, regarding Omar Deghayes; and if he will place a copy of his response in the Library. [11270]

**Mr. McNulty:** I wrote to Mr. Stafford Smith on 8 July. I do not consider it would be appropriate to place a copy of a letter about a particular case to an individual's legal representative in the Library.

### Crime (London/Young People)

**Sarah Teather:** To ask the Secretary of State for the Home Department what estimate he has made of the proportion of crime in London that was carried out by first time offenders in each of the last five years. [8298]

**Fiona Mactaggart:** No estimate has been made of the proportion of crime in London that was carried out by first time offenders.

**Mr. Hepburn:** To ask the Secretary of State for the Home Department how many young people of school age have been placed in custody in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales in each year since 1997. [8355]

**Fiona Mactaggart:** The available information, which relates to young people under-18 in the North East and in England and Wales, is shown in the following table. Figures are not available for the period before April 2000, when the Youth Justice Board assumed

responsibility for the secure estate for young people. No separate breakdown of figures for Jarrow or South Tyneside is available.

*Number of young people in custody*

| *Year*[1] | *North East* | *England and Wales* |
|---|---|---|
| 2000 (from April) | 546 | 9,612 |
| 2001 | 586 | 13,436 |
| 2002 | 662 | 13,061 |
| 2003 | 613 | 12,201 |
| 2004 | 596 | 12,721 |
| 2005 (up to 11 July) | 334 | 6,608 |

[1] Table shows all episodes of custody that started within the year in question. In some cases the young person was sent to custody (on remand or under sentence) twice or more during the year.

### Criminal Prosecutions

**Mr. Djanogly:** To ask the Secretary of State for the Home Department what the target is for criminal prosecutions in the year 2005–06. [9623]

**Fiona Mactaggart** *[holding answer 4 July 2005]:* The Home Office does not set a target for criminal prosecutions.

However the Home Office does have a Public Service Agreement to improve the delivery of justice by increasing the number of crimes for which an offender is brought to justice to 1.25 million by 2007–08. The interim target for 2005–06 is to bring 1.15 million offences to justice. For an offence to be brought to justice, it must result in a conviction, caution, formal warning for cannabis, fixed penalty notice or be admitted by the offender who asked for the offence to be taken into consideration by the court. Only notifiable offences are counted.

### Criminal Records Bureau

**Mr. Burstow:** To ask the Secretary of State for the Home Department pursuant to his answer of 4 July 2005, *Official Report*, column 125W, on the Criminal Records Bureau, what functionality has been added to the IT system in each of the last two years. [11659]

**Andy Burnham:** There has been no functionality added to the Criminal Records Bureau IT system during the last two years to enable an analysis of disclosure applications by employment group. The functionality would be linked to the data that is planned to be captured on the new version of the disclosure application form.

### Drug Rehabilitation

**Anne Main:** To ask the Secretary of State for the Home Department how many referrals were made to the Hertfordshire probation area regarding *(a)* drug treatment testing orders and *(b)* drug rehabilitation requirements in the last period for which figures are available. [11134]

**Fiona Mactaggart:** The number of referrals made to Hertfordshire probation area for drug treatment and testing orders (DTTOs) and drug rehabilitation requirement (DRRs) for April and May 2005 was:

268 DTTO referrals were made to Hertfordshire probation area in 2004–05 (April 2004 to March 2005).

*DTTO referrals*

| 2005 | *Number DTTO referrals* | *Number DRR referrals* |
|---|---|---|
| April | 10 | 0 |
| May | 12 | 0 |

### Drunk and Disorderly Prosecutions

**Mr. Wallace:** To ask the Secretary of State for the Home Department (1) how many prosecutions were made for the offence of being drunk and disorderly in Lancashire in each year between 1985 and 2005; [10797]

(2) how many arrests for offences involving drinking and disorderly behaviour have taken place in *(a)* Lancaster and Wyre and *(b)* Lancashire in each year since 1997; to which custody suite arrestees were taken; and how many cases subsequently went to magistrates court. [11847]

**Hazel Blears:** The information contained in the table gives the number of defendants proceeded against at magistrates courts for "being guilty while drunk of disorderly behaviour", Lancashire police force area 1985 to 2003.

Statistics on court proceedings for 2004 will be published in the autumn.

The penalty notice for disorder scheme (PNDs) provides for persons who commit specified penalty offences to be issued with a fixed penalty notice instead of being prosecuted. The number of persons issued with a penalty notice for "being guilty while drunk of disorderly behaviour", Lancashire police force area is:

| | *Number* |
|---|---|
| 2004 | 2,869 |
| 2005 (January to May) | 1,752 |

The information requested on arrests is not available centrally.

*Number of defendants proceeded against at magistrates' courts for "being guilty while drunk of disorderly behaviour"[1], Lancashire police force area 1985 to 2003*

| | *Proceeded against* |
|---|---|
| 1985 | 1,746 |
| 1986 | 1,556 |
| 1987 | 1,697 |
| 1988 | 1,459 |
| 1989 | 1,169 |
| 1990 | 1,106 |
| 1991 | 906 |
| 1992 | 848 |
| 1993 | 622 |
| 1994 | 732 |
| 1995 | 922 |
| 1996 | 1,231 |
| 1997 | 1,618 |
| 1998 | 1,673 |
| 1999 | 1,827 |
| 2000 | 2,165 |
| 2001 | 2,366 |
| 2002 | 2,210 |
| 2003 | 2,180 |

[1] These data are on the principal offence basis.

## Extradition

**Daniel Kawczynski:** To ask the Secretary of State for the Home Department if he will ensure ministerial scrutiny of any information provided by US authorities when requesting the extradition of a British subject under the US-UK Extradition Treaty 2003; and if he will ensure that ministerial approval is required of any British subject's extradition to the USA. [11610]

**Andy Burnham:** The US-UK Extradition Treaty 2003 is not yet in force, although certain provisions in it have been given effect in the 2003 Extradition Act which came into force on 1 January 2004. Part 2 of that Act provides the framework for the scrutiny of requests from countries outside the EU. Requests which are certified by the Home Office as valid are submitted to the court, whose role includes establishing that the request is for conduct which is extraditable in UK law, and that extradition would not breach the person's human rights. Unless discharged by the court, they are then passed to Ministers for consideration of issues relating to the death penalty, speciality and earlier extradition if applicable, and for final decision. There is an avenue of appeal against the decisions of both Ministers and the courts. These procedures apply regardless of the person's nationality.

**Daniel Kawczynski:** To ask the Secretary of State for the Home Department if he will suspend the extradition of any British subjects to the USA under the new US-UK Extradition Treaty 2003 until the US Senate ratifies the treaty. [11611]

**Andy Burnham:** No. There are full and adequate safeguards in the Extradition Act 2003 to ensure that extraditions approved under its procedures are fair, and these apply regardless of the requested person's nationality. The 2003 treaty has not yet been ratified by the USA, and until its ratification the 1972 US-UK Extradition Treaty remains in force.

## Hacking

**Mr. Burstow:** To ask the Secretary of State for the Home Department how many incidents of *(a)* internal and *(b)* external hacking reported by each department contributing to the Unified Reporting and Alert Scheme were categorised as (i) access denied, (ii) browsing, (iii) password abuse, (iv) privilege abuse, (v) data stolen or disclosed, (vi) files deleted or damaged, (vii) fraud and (viii) other in each year since 2002. [10136]

**Hazel Blears:** I refer the hon. Member to the answer I gave him on 1 July 2005, *Official Report*, column 123W.

## Home Detention Curfews

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many participants there were in the home detention curfew scheme in each month since its inception; and if he will make a statement. [8046]

**Fiona Mactaggart:** The information requested is provided in the table. The figures refer to the number of persons recorded as participating in the home detention curfew scheme on the last Friday of each month.

*Number of persons under home detention curfew supervision, England and Wales*

| | |
|---|---|
| *1999* | |
| February | 1,351 |
| March | 2,215 |
| April | 2,035 |
| May | 1,872 |

| May | 3,337 |

### Identity Cards

**Mark Fisher:** To ask the Secretary of State for the Home Department whether the proposed identity card scheme requires each citizen to be issued with an unique secret pin number. [10711]

**Andy Burnham:** Information on the card will be protected using a form of credential. This may be a pin number, password, biometric or combination of these.

**Mark Fisher:** To ask the Secretary of State for the Home Department how many kilobytes of memory capacity the chip within the proposed identity card will contain. [10712]

**Andy Burnham:** We do not yet have a precise figure for the memory capacity of the chip as this will be one of the factors to be settled as part of the procurement exercise for the National Identity Card Scheme. This will follow once the Bill has been approved by Parliament.

**Mark Fisher:** To ask the Secretary of State for the Home Department whether the encrypted data held on identity cards will be protected by a personal identification number. [11152]

**Andy Burnham:** Information on the card will be protected using a form of credential. This may be a PIN, password, biometric or combination of these.

### London Probation Service

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many *(a)* sex offenders, *(b)* drug users, *(c)* domestic violence offenders and *(d)* mentally ill persons are being dealt with by the London probation service; and if he will make a statement. [2901]

**Fiona Mactaggart:** London probation area has a current caseload (including licences) of 40,568, of this 1,505 offenders were sentenced for sexual offences, a further 5,549 offenders with drug offences, (this includes 1,789 Drug Treatment and Testing Orders/DRRs at the end of April 2005). In addition there will clearly be offenders who have not been sentenced for drugs offences but will have substance misuse problems. There are currently just under 200 offenders attending a group programme for domestic violence. Finally, London probation currently have a caseload of 176 offenders subject to mental treatment as a requirement in a community order and 44 offenders on conditional release from a psychiatric institution.

### Magistrates Courts

**Mrs. Gillan:** To ask the Secretary of State for the Home Department (1) how many staff were provided by Premier to West London magistrates court in the week beginning 30 May; and how many they are contracted to provide; [4888]

(2) what representations he has received from the chief magistrate about *(a)* the staffing levels and *(b)* the quality of service provided by Premier to conduct custody cases to and from court houses; and if he will make a statement; [4889]

(3) how many representations his Department has received about *(a)* the staffing levels and *(b)* the quality of service provided by Premier to conduct custody cases to and from court houses since it obtained the contract; and how many complaints were received in the two previous years; [4890]

(4) whether the number of staff provided by Premier at Horseferry Road magistrates court on Friday 10 June was lower than the normal number provided; and if he will make a statement. [4895]

**Fiona Mactaggart** *[holding answer 20 June 2005]:* Premier Prison Services Ltd. hold the contract for the escort of prisoners in London and the South East.

11 written representations have been received from London courts since the start of the new contract on 29 August 2004 about a range of subjects including staffing levels and the quality of the service from Premier. Representations have also been received from members of the judiciary, other parts of the criminal justice system as well as the chief magistrate.

Premier are required to provide sufficient staff to the courts to deliver the services, which include escorting prisoners to and from court, staffing the court cell areas and staffing courtrooms where custody cases are being heard. Staffing levels are not specified; the service standards are.

At West London magistrates court, Premier have provided the following figures for the numbers of staff working at the court to staff the custody areas and courtrooms:

| | *Staffing for week commencing 30 May*[1] | *Usual average staffing*[1] |
|---|---|---|
| Monday 30 May 2005[2] | 7 | 7 |
| Tuesday 31 May 2005 | 11 | 9 |
| Wednesday 1 June 2005 | 14 | 9 |
| Thursday 2 June 2005 | 12 | 9 |
| Friday 3 June 2005 | 15 | 9 |
| Saturday 4 June 2005 | 6 | 7 |

[1] These figures include custody officers whose normal duty is to escort prisoners to and from court, but who were available at times during the day to staff the courtrooms.

[2] Bank holiday.

On Saturday 4 June Premier did not have sufficient staff available until 09.45 and this led to a delay in court proceedings. This is regretted and Premier have confirmed that they have taken action to prevent this from recurring.

At Horseferry Road magistrates court on Friday 10 June 2005, Premier provided 10 custody officers. The usual average staffing for a Friday is 11 custody officers.

The number of staff required in any courthouse depends on the court listing and the nature of the hearings and the contractors are required to adjust it to meet the demand.

### Offences Against the Person Act

**Mr. Amess:** To ask the Secretary of State for the Home Department how many cases under *(a)* section 18 and *(b)* section 20 of the Offences Against the Persons Act 1861 were brought before the courts in each year since 2000 in (i) Essex and (ii) England; and how many people were convicted in each year. [1225]

**Fiona Mactaggart:** The data contained in the table gives the number of defendants proceeded against and found guilty at all courts for offences under the Offences Against the Person Act 1861, Secs 18 and 20, England and Essex police force area 2000 to 2003.

Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts and found guilty at all courts under the Offences Against the Person Act 1861[1], England and Essex police force area 2000 to 2003*

| | | England | | Essex police force area | |
|---|---|---|---|---|---|
| *Statute* | *Year* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* |
| Offences Against the Person Act 1861 , Sec 18 | 2000 | 6,851 | 1,249 | 95 | 18 |
| | 2001 | 7,567 | 1,310 | 115 | 26 |
| | 2002 | 6,885 | 1,379 | 92 | 24 |
| | 2003 | 6,958 | 1,391 | 101 | 25 |
| Offences Against the Person Act 1861 , Sec 20 | 2000 | 5,955 | 3,948 | 121 | 59 |
| | 2001 | 5,521 | 3,910 | 106 | 54 |
| | 2002 | 5,285 | 4,046 | 87 | 65 |
| | 2003 | 4,888 | 3,970 | 75 | 63 |

[1] These data are on the principal offence basis.

### Parliamentary Questions

**Mr. Malins:** To ask the Secretary of State for the Home Department when he will reply to question reference 4785 tabled by the hon. Member for Woking. [12294]

**Hazel Blears:** I replied to the hon. Member on 12 July 2005.

### Police

**Mr. Hollobone:** To ask the Secretary of State for the Home Department what plans he has for the reorganisation of police forces in England and Wales. [11385]

**Hazel Blears:** At the Association of Chief Police Officers on 19 May, the Home Secretary made it clear that he did not believe that the current structure of 43 forces was the most effective and efficient arrangement for organising policing in England and Wales. He also made it clear that he had no blueprint for amalgamations, but that the initiative for such amalgamations should be driven locally. To inform the way forward, the Home Secretary has commissioned Her Majesty's Inspectorate of Constabulary to examine the issue of force structures. As well as looking at the case for structural changes, Her Majesty's Inspectorate of Constabulary will also be examining the case for greater collaboration and co-operation between forces.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department if he will make a statement on the age profile of Lancashire police. [11069]

**Hazel Blears:** The age profile of Lancashire police on the 31 March 2004 is given in the following table:

*Age profile police officers Lancashire 2003–04*

| | *25 years and under* | *26 to 40 years* | *41 to 55 years* | *Over 55 years* |
|---|---|---|---|---|
| ACPO ranks | 0 | 0 | 4 | 0 |
| Chief Superintendent | 0 | 2 | 8 | 1 |
| Superintendent | 0 | 4 | 14 | 0 |
| Chief Inspector | 0 | 11 | 30 | 0 |
| Inspector | 0 | 36 | 140 | 2 |
| Sergeant | 0 | 247 | 292 | 0 |
| Constable | 223 | 1,697 | 904 | 2 |

**Lynne Jones:** To ask the Secretary of State for the Home Department what plans he has to monitor the recruitment and retention of transsexual police officers. [10793]

**Hazel Blears:** The Gender Recognition Act 2004 enables transsexual people who have taken decisive steps to live fully and permanently in their acquired gender to apply for legal recognition of that gender.

Police recruitment and other employment monitoring data is recorded and monitored in terms of male or female gender. We have no plans to monitor the recruitment and retention of transsexual police officers.

### Prisons

**Mr. Drew:** To ask the Secretary of State for the Home Department what the projected prison population in England and Wales is in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009. [3872]

**Fiona Mactaggart:** The latest prison population projections are published in the Home Office Statistical Bulletin 01/05 "Prison Population Projections, 2005–2011, England and Wales". Figures for the years 2006, 2007, 2008 and 2009 for 10 scenarios can be found in this document. The scenarios range from 'High' to 'Low'. Projected total prison population figures

(corresponding to end of June) for High and Low scenarios for the relevant years are presented in the table.

| | *High scenario* | *Low scenario* |
|---|---|---|
| 2006 | 78,060 | 74,720 |
| 2007 | 82,140 | 76,190 |
| 2008 | 84,300 | 76,970 |
| 2009 | 86,190 | 76,590 |

**Mrs. Dean:** To ask the Secretary of State for the Home Department how many prisoners are receiving treatment for *(a)* drug abuse and *(b)* alcohol dependency. [5777]

**Fiona Mactaggart:** The information is as follows.

*(a)* Data for 2004–05 show the following numbers of drug misusers receiving treatment:

| | *Number* |
|---|---|
| Clinical Services | [1]53,903 treatments |
| CARATs[2] | 59,025 initial assessments |
| Drug Rehabilitation Programmes | 7,609 entrants |

[1] Mainly detoxification.
[2] Counselling, Assessment, Referral, Advice and Throughcare Services

*(b)* No records are kept centrally of those prisoners who receive treatment for alcohol dependency.

**Mr. Drew:** To ask the Secretary of State for the Home Department what procedures are in place to help those released from women's prisons to find accommodation and employment when they have no family or friendship support in the location where the prison is situated; and what research on the subject he has commissioned. [8407]

**Fiona Mactaggart:** The Prison Service's strategy for the resettlement of prisoners is set out in Prison Service Order 2300. It involves collaboration with other agencies, voluntary and statutory, at a local and national level. Housing advice projects of various kinds are under way in all women's prisons; and steps are being taken to strengthen further the housing advice and support in those establishments.

While all resettlement work is expected to address, where appropriate, the issue of employment, and Jobcentre plus advisers are in place at all women's prisons, the Prison Service is working with a number of voluntary agencies on specific projects aimed at supporting into work those women at risk of re-offending, which may include women who lack family and friendship support. The Prison Service undertook a resettlement survey in 2003–04 and the results have supported the development of policy and practice across the whole prisons estate.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what further discussions he has had with the Jamaican authorities about prisoner transfers since March. [9058]

**Dr. Howells:** I have been asked to reply.

Foreign and Commonwealth Office officials met with the new Jamaican high commissioner on 26 April 2005 where the subject of Prisoner Transfer Agreement (PTA) was raised. Agreeing a PTA with Jamaica remains an objective for the Government and we shall continue to raise the matter with the Jamaicans as and when appropriate.

**Mr. Andrew Turner:** To ask the Secretary of State for the Home Department pursuant to his answer to the hon. Member for Elmet (Colin Burgon) of 27 June 2005, *Official Report*, column 1005, on new prisons, if he will list the sites which *(a)* are and *(b)* have been in the last three years under consideration for new prisons; for what type of prison in each case; and what stage consideration has reached in each case. [10228]

**Fiona Mactaggart** *[holding answer 11 July 2005]:* Although a number of sites have recently been identified as potentially suitable for new prisons, no decision to buy a site has been made. If a site is under consideration for acquisition details could not be disclosed for commercial reasons. Any Member in whose constituency where we have decided to buy a site or where we are planning to build a new prison will be kept up to date on developments by the Home Office

We have opened two new prisons: HMP Bronzefield in June 2004, a 450-place women's prison near Heathrow; and HMP Peterborough in March 2005, a 840-place prison which includes places for up to 360 women in modern accommodation.

In addition, the National Offender Management Service (NOMS) owns two sites at Merseyside and Thamesmead, London, but no decision has been taken to build on them.

NOMS also owns land on the Isle of Wight and at HMP Full Sutton. Consideration was given three years ago to developing these sites to provide additional accommodation. There are no immediate plans to develop these sites.

### Project Iris

**Mr. Wallace:** To ask the Secretary of State for the Home Department what size data files are being used to store individuals' entry and biometric records for use with the Immigration and Nationality Directorate's Project Iris. [11848]

**Mr. McNulty:** The specification of the system states that it must perform to requirements with a database of two million enrolees and there must be no architectural limitations to expansion. The size of individual data files has not been specified within the system, however the iris code itself is 512b.

### Prostitution

**Sarah Teather:** To ask the Secretary of State for the Home Department how many people were *(a)* arrested and *(b)* successfully prosecuted for (i) kerb-crawling, (ii) prostitution and (iii) running a brothel in each London borough in each of the last five years. [2491]

**Fiona Mactaggart:** The information requested on arrests is not available centrally. Information on arrests collected centrally is based on persons arrested for "notifiable" offences by main offence group (i.e. sexual offences, violence against the person and burglary etc)

and at police force area only and therefore does not identify individual offences nor constituency areas or local authorities.

The information requested for successful prosecutions for kerb-crawling, prostitution and running a brothel is attached table which has also been placed in the Library.

### Rape Trials

**Vera Baird:** To ask the Secretary of State for the Home Department what plans there are for allowing out of court video taped cross-examination of vulnerable witnesses to be admitted into criminal trials. [603]

**Fiona Mactaggart:** The review of both this provision and a wider review of child evidence was launched by Baroness Scotland of Asthal on 1 December 2004. The review group will report to Ministers in the summer.

### Rec. 61 Form

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many people have been stopped and issued with a Rec. 61 form by Haringey borough police since its inception, broken down by *(a)* ethnicity and *(b)* police station. [7421]

**Hazel Blears** *[holding answer 27 June 2005]:* The Home Office does not collect this data centrally. Information obtained from the Metropolitan police is that since one October 2004, when they implemented recommendation 61, there have been a total of 2,577 recorded stops in Haringey up to the end of May 2005. This is broken down as follows by ethnicity:

| | *Number* |
|---|---|
| White | 1,438 |
| Black | 914 |
| Asian | 112 |
| Other | 79 |
| N/R | 34 |

### Safety Cameras

**Mrs. Dorries:** To ask the Secretary of State for the Home Department how much has been raised in fines from speed cameras in the county of Bedfordshire since 2000. [11022]

**Paul Goggins:** Information on the revenue raised from speed offences detected by camera is not available.

However the table shows, for the Bedfordshire police force area, the number of fixed penalties ordered to be paid and the number of court fines for such offences in the calendar years 2000 to 2003 (latest available).

Information for 2004 will be available early in 2006.

Not all fines and fixed penalties will have been paid.

*Fixed penalty and court proceedings data for speeding offences detected by cameras[1, 2] within the Bedfordshire police force area, 2000–03*

*Number of offences*

| | *Fixed penalties* | | *Court proceedings*[3] | | |
|---|---|---|---|---|---|
| | *Number of tickets*[4] | *Estimated revenue (£)*[5] | *Number of fines* | *Total amount of fine (£)* | *Average fine (£)* |
| 2000 | 12,600 | 597,500 | 671 | 69,400 | 103 |
| 2001 | 10,800 | 650,500 | 1,022 | 108,000 | 106 |
| 2002[2] | 38,800 | 2,325,500 | 473 | 53,900 | 114 |
| 2003 | 65,900 | 3,954,400 | 1,316 | 119,300 | 91 |

[1] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[2] Bedfordshire police joined the Safety Camera Funding Scheme in 2002.
[3] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.
[4] Only covers tickets paid where there is no further action.
[5] Estimate based on 40 fixed penalty charge to October 2000. Charge raised to 60 from November 2000.

**Mrs. Dorries:** To ask the Secretary of State for the Home Department how many tickets issued following infringements caught on speed cameras have been challenged and upheld in each year since their introduction in *(a)* the constituency of Mid-Bedfordshire and *(b)* the county of Bedfordshire since 1997. [11023]

**Paul Goggins:** Information is not available centrally on the number of people prosecuted for speeding offences detected by camera who elect to challenge a fixed penalty notice.

### Secure Training Centres

**Simon Hughes:** To ask the Secretary of State for the Home Department what estimate he has made of the without-profit cost of one bed for one night in a secure training centre; and what cost, including VAT, is charged by contractors. [11694]

**Fiona Mactaggart** *[holding answer 12 July 2005]:* Letting contracts for secure training centres involves an extensive competitive process to ensure value for money. Costs are benchmarked against a public sector comparator. The information requested relates to contracts with the secure training centre operators and is confidential.

### Tetra

**Mr. Crabb:** To ask the Secretary of State for the Home Department what the total value of the contract with O2 Airwave is to provide a Tetra telecommunications network for the emergency services. [11607]

**Hazel Blears:** O2 have been contracted to provide a radiocommunication system for the police service. The total forecast cost is £2.3 billion (at 1999 prices) over the life of the contract. Contracts for replacing the fire and ambulance service radiocommunications systems have not yet been placed.

**Mr. Crabb:** To ask the Secretary of State for the Home Department what future performance-related payments are available to O2 Airwave in connection with the contract to provide a Tetra telecommunications network for the emergency services. [11608]

**Hazel Blears:** O2 have been contracted to provide a radiocommunication system for the police service. There are no performance-related payments in the contract. Contracts for replacing the fire and ambulance services current radiocommunications systems have not yet been placed.

### Under-age Drinking

**Mr. Crabb:** To ask the Secretary of State for the Home Department what sum in fines was imposed in 2003 for sales of alcohol to under 18s. [11830]

**Hazel Blears:** The sum of fines imposed in 2003 for sales of alcohol to under 18s was £89,385.

### Women's Royal Voluntary Service

**Mr. Drew:** To ask the Secretary of State for the Home Department if he will publish details of the arrangement with the Women's Royal Voluntary Service whereby, in return for a reduction in grant aid, the WRVS is given help with its property portfolio; and which properties are involved. [11786]

**Paul Goggins:** An independent review of Women's Royal Voluntary Service (WRVS) in 1997 identified that WRVS' financial dependence on Government and restrictions on its property holdings were major barriers to its goals of modernisation and independence.

To help achieve these goals it was agreed with WRVS that the grant-in-aid be reduced over 10 years to £1 million a year by 2007–08 and that the reversionary interest in the properties held on trust be transferred to WRVS absolutely. The property transfer was completed in 2004.

The Home Office dissolved the arrangement whereby the WRVS held properties on trust for the Home Secretary and transferred the Home Secretary's beneficial interest in the properties to WRVS (a list of properties is attached at Annex A, which has been placed in the Library). As a result, WRVS agreed to their grant-in-aid reduction. (The table, which has also been placed in the Library shows the Home Office grant-in-aid payments and planned payments from 1995 to 2008).

### Young Offenders

**Mr. Hepburn:** To ask the Secretary of State for the Home Department how many young people of school age *(a)* found guilty of a crime and *(b)* placed in custody had a previous history of being in care in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) England in each of the last five years. [10196]

**Fiona Mactaggart:** This information is not collected centrally.

**Mr. Hepburn:** To ask the Secretary of State for the Home Department how many young people of school age have died while in custody in *(a)* the North East and *(b)* England in each year since 1997; and how many died of self-inflicted injuries in each year. [10198]

**Fiona Mactaggart:** The following table gives details up to 31 December 2003. There were two deaths in custody in 2004 and one in 2005. One of the 2004 deaths related to an establishment in the North East. It would not be appropriate to assign a cause to these deaths until the inquests have taken place.

| | *North East* | | *England* | |
|---|---|---|---|---|
| | *Self inflicted* | *Other* | *Self inflicted* | *Other* |
| 1997 | 0 | 0 | 0 | 0 |
| 1998 | 0 | 0 | 3 | 0 |
| 1999 | 0 | 0 | 2 | 0 |
| 2000 | 0 | 0 | 3 | 0 |
| 2001 | 0 | 0 | 3 | 0 |
| 2002 | 0 | 0 | 2 | 0 |
| 2003 | 0 | 0 | 0 | 0 |
| Total | 0 | 0 | 13 | 0 |

**Mr. Amess:** To ask the Secretary of State for the Home Department how many young people of school age have been placed in custody in *(a)* Southend West constituency, *(b)* Essex, *(c)* Greater London and *(d)* England and Wales in the last five years for which figures are available. [10516]

**Fiona Mactaggart:** The available information relates to young people under 18 in: the East of England (figures for Southend West alone and Essex alone cannot be provided); Greater London; and England and Wales. It is shown in the following table. Figures are not available for the period before April 2000, when the Youth Justice Board assumed responsibility for the secure estate for young people.

*Young people in custody*

| *Year*[1] | *East of England* | *Greater London* | *England and Wales* |
|---|---|---|---|
| 2000[2] | 603 | 1,080 | 9,612 |
| 2001 | 850 | 1,828 | 13,436 |
| 2002 | 769 | 2,255 | 13,061 |
| 2003 | 836 | 1,940 | 12,201 |
| 2004 | 882 | 2,117 | 12,721 |
| 2005[3] | 468 | 1,069 | 6,608 |

[1] Table shows all episodes in custody that started within the year in question. In some cases the young person was sent to custody (on remand or under sentence) twice or more during the year.

[2] From April.

[3] Up to 11 July.

**Mr. Malins:** To ask the Secretary of State for the Home Department how many hours on average were spent per week by prisoners at each young offender institution on *(a)* education and *(b)* sport in the last period for which figures are available. [2712]

**Fiona Mactaggart:** The following table shows the average number of hours that young offenders spent specifically on education in 2004–05. Information on time spent by young offenders in sport is not collected separately but is captured under the general heading of "other purposeful activity".

| *Establishment name* | *Education hours (weekly average)* |
|---|---|
| Ashfield | 18.3 |
| Aylesbury | 6.2 |
| Brinsford | 11.3 |

| *Establishment name* | *Education hours (weekly average)* |
|---|---|
| Castington | 14.6 |
| Coldingley | 11.6 |
| Deerbolt | 12.3 |
| Feltham | 10.6 |
| Glen Parva | 6.4 |
| Huntercombe | 13.4 |
| Lancaster Farms | 14.0 |
| Northallerton | 11.5 |
| Onley | 10.2 |
| Portland | 7.4 |
| Reading | 8.1 |
| Rochester | 9.1 |
| Stoke Heath | 8.6 |
| Swinfen Hall | 11.8 |
| Thorn Cross (Open) | 19.6 |
| Warren Hill | 14.4 |
| Werrington | 21.9 |
| Wetherby | 12.2 |
| Young Offenders Estate Average | 12.1 |

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many individual support orders have been made for 10 to 17-year-olds under the provisions of the Criminal Justice Act 2003 since the Act came into force. [9428]

**Fiona Mactaggart:** Seven Individual Support Orders (ISO) have been made since the provisions under the Criminal Justice Act 2003 came into force on 1 May 2004.

We are keen to increase the take-up of ISOs. On 29 June we announced an additional £500,000 to be made available to the Youth Justice Board this financial year for ISOs.

**Mr. Austin Mitchell:** To ask the Secretary of State for the Home Department what proportion of children released from young offender institutions were provided with accommodation in the last year for which figures are available. [9653]

**Fiona Mactaggart:** The Youth Justice Board sets youth offending teams a key performance indicator of ensuring that all young people serving custodial sentences have suitable accommodation to go to on release.

"Suitable accommodation" means accommodation which, so far as is reasonably practicable, meets the needs of the young person, including health needs and any arising from disability. The youth offending team should satisfy itself as to the character and suitability of the landlord or other provider; and, so far as is reasonably practicable, take into account the young person's wishes and feelings, and education, training or employment needs.

85.5 per cent. of young people who completed a custodial term in 2004–05 went to suitable accommodation on release.

**Mr. Hoban:** To ask the Secretary of State for the Home Department pursuant to the answer of 21 June 2005, *Official Report*, columns 990–93W, if he will place in the Library a copy of the work published in November 2004 by the Public Policy Research Bureau for the Youth Justice Board. [9992]

**Fiona Mactaggart:** The report by the Public Policy Research Bureau on Safer Schools Partnerships was published on the Youth Justice Board website in November 2004. I am arranging for copies of the report to be placed in the Library.

## EDUCATION AND SKILLS

### Examination Standards

5. **Anne Main:** To ask the Secretary of State for Education and Skills if she will take steps to make GCSEs and A levels more challenging. [11921]

**Ruth Kelly:** Our White Paper, "14–19 Education and Skills" sets out our proposals to strengthen GCSEs and A levels.

We will restructure English and maths GCSEs to ensure that students cannot get a grade C or better without passing a functional skills unit.

At A level we will introduce a new section in papers covering Advanced Extension Award type material and an Extended Project requiring a high degree of planning, preparation, research and autonomous working.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what research has been conducted by her Department into the consistency of examination standards in *(a)* the national tests taken at seven, 11 and 14 years and *(b)* GNVQs. [10915]

**Jacqui Smith** *[holding answer 11 July 2005]:* None. While the Department has not undertaken or commissioned research about the consistency of standards over time in national curriculum tests or GNVQ examinations, it takes a close interest in research conducted by others.

### Special Schools

13. **Sir Nicholas Winterton:** To ask the Secretary of State for Education and Skills what plans she has to review her policy on special schools. [11929]

**Beverley Hughes:** "Removing Barriers to Achievement", our SEN strategy, already provides a clear vision for improving support and outcomes for children with SEN. It sets out action to ensure that children with SEN receive the help they need as quickly as possible, from schools and other services.

The SEN strategy was informed by a review of special schools. Special schools have a vital role teaching children with the most severe and complex needs, and sharing expertise with mainstream schools.

### Education and Skills White Paper

14. **Justine Greening:** To ask the Secretary of State for Education and Skills what representations she has received on the Government's 14 to 19 White Paper. [11930]

**Ruth Kelly:** I refer the hon. Member to the reply given earlier to the hon. Member for Croydon, Central.

**Mr. Graham Stuart:** To ask the Secretary of State for Education and Skills What representations she has received on the Government's 14 to 19 White Paper. [11934]

**Ruth Kelly:** I refer the hon. Member to the reply given earlier to the hon. Member for Croydon Central (Mr. Pelling).

### Adult Education

15. **Mr. Hollobone:** To ask the Secretary of State for Education and Skills what assessment she has made of the likely effect on funding for an attendance at adult education classes in the Kettering constituency and in Northamptonshire as a result of her Department's emphasis on the 14 to 19 Skills Agenda. [11931]

**Phil Hope:** Giving young people the skills they need to progress in employment and to gain higher level skills is essential. Similarly we are committed to ensure that adults have the skills they need for employability. I am confident that there will be a wide range of adult education provision in Kettering and that the needs of the local community will continue to be met.

### Youth Services Green Paper

16. **Mrs. Humble:** To ask the Secretary of State for Education and Skills what steps she is taking to consult young people on the proposals in the Green Paper on youth services. [11932]

**Beverley Hughes:** Young people are the most important audience for the Green Paper. We will seek their views in a number of ways including through the publication of a young people's questionnaire, discussions with youth organisations and consultation groups with disadvantaged young people who might not otherwise respond.

In addition, we plan to use a variety of youth websites including Need2Know, Connexions Direct, Youthnet UK and the Grange Hill and Hollyoaks websites.

### Antisocial Behaviour

19. **Ben Chapman:** To ask the Secretary of State for Education and Skills If she will make a statement on the role of education in schools in combating antisocial behaviour. [11935]

**Jacqui Smith:** Raising educational attainment plays a crucial role in reducing antisocial behaviour and crime by promoting positive values and improving life chances. Our National Primary and Secondary Strategies are improving the quality of teaching and learning in schools. We are also implementing a complementary and comprehensive programme of measures to strengthen schools' capacity to improve pupils' behaviour and attendance.

### Key Stage Literacy Standards

20. **Michael Jabez Foster:** To ask the Secretary of State for Education and Skills what assessment she has made of standards of literacy in primary schools. [11936]

**Jacqui Smith:** Primary schools, supported by the National Literacy Strategy, have the highest standards of literacy ever. In 2004 78 per cent. of 11-year-olds reached the target level 4 of the National Curriculum in the Key Stage 2 English tests, an increase of 15 percentage points since 1997.

In the Progress in International Reading Literacy Study published in 2003, England's 10-year-olds achieved the third highest scores in reading of the 35 countries which took part.

### Apprenticeships

**Mr. Lancaster:** To ask the Secretary of State for Education and Skills how many school leavers are expected to take up apprenticeships in Milton Keynes in 2005–06. [9902]

**Phil Hope:** This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to the hon. Member with this information and a copy of his reply will be placed in the House Library.

*Letter from Mark Haysom to Mr. Mark Lancaster, dated 13 July 2005:*

I am responding to your recent Parliamentary Question regarding the number of school leavers expected to take up an Apprenticeship place in Milton Keynes in 2005–2006.

I referred your question to my colleagues at the local LSC office with responsibility for the Milton Keynes, Oxfordshire and Buckinghamshire area.

Information regarding the uptake of places on Apprenticeships amongst 16 to 18 year olds is recorded for the Milton Keynes, Oxfordshire and Buckinghamshire area as a whole. It will therefore not be possible to provide an exact figure in response to your question.

However, my colleagues have calculated a rough indication of the potential numbers involved, based upon the information currently available.

The local LSC is anticipating and preparing for a 4% increase in the number of 16 to 18 year olds undertaking Apprenticeships in 2005–06, for the whole of the Milton Keynes, Oxfordshire and Buckinghamshire area.

A total figure for the number of participants for this year for Milton Keynes, Oxfordshire and Buckinghamshire is not yet available. However, using the available figures, currently at Period 10 for the year 2004–05, officers at the local office have extracted the number of apprentices with a Milton Keynes postcode.

As an increase of 4% is anticipated locally, the local LSC office is expecting approximately 624 school leavers to take up Apprenticeships within Milton Keynes in 2005–06.

Clearly this figure cannot be precise and should be regarded as an indication of the potential numbers involved. Ultimately the number of participants will depend upon actual demand from young people and the availability of places from participating employers.

I hope, however, that the information above will be of interest to you and prove helpful.

### Dance and Drama Fees and Maintenance Fund

**Gordon Banks:** To ask the Secretary of State for Education and Skills how many Dance and Drama Fees and Maintenance Fund awards have been made in the last five years to residents of each of the nations of the UK. [10722]

**Bill Rammell:** Between 2000 and 2005 Manchester LEA processed 4,156 applications for support from the means-tested fund. Of these 129 were from Welsh students and 113 were from Scottish students. The remainder were students from England and the EU, and we do not have a breakdown of these figures.

Students must apply for means-tested support for each year of their course, so any student on a course of more than one year's duration will have made more than one application.

### Practical Food Skills

**Paul Flynn:** To ask the Secretary of State for Education and Skills if she will make practical food skills a mandatory part of the national curriculum at Key Stages 1, 2 and 3. [11479]

**Jacqui Smith:** Food technology is already a requirement for all pupils at key stages 1 and 2. Pupils learn practical food skills as well as basic food hygiene and safety, diet and nutrition. At Key Stage 3, food technology is an optional strand of design and technology. The Department strongly advises schools to offer food technology at Key Stage 3 and around 90 per cent. do provide it for their pupils. Practical food skills are part of the food technology curriculum at Key Stages 3 and 4.

### Pupil Mobility

**Mr. Marsden:** To ask the Secretary of State for Education and Skills (1) what assessment she has made of the merits of targeting funding to schools or local education authorities with high levels of pupil mobility; [10748]

(2) what representations she has received from *(a)* teachers' bodies, *(b)* local education authorities and *(c)* individual teachers on the effect of high levels of pupil mobility on teachers; [10750]

(3) what assessment her Department has made of the costs to schools of high levels of pupil mobility; [10746]

(4) what assessment her Department has made of the impact of high levels of pupil mobility on other children within affected schools; [10751]

(5) what assessment her Department has made of the effectiveness of value added measures of school performance in reflecting the work of schools with high levels of pupil mobility; [10745]

(6) what pupil mobility rates were in each education authority in England in the last period for which figures are available; [10749]

(7) what information her Department collects about pupil mobility at individual school level. [10747]

**Jacqui Smith:** We have been considering with our education partners, including representatives of head teachers and local authorities, whether there should be a mobility factor in the national school funding distribution formula, because of schools in some areas facing higher levels of pupil turnover than in others. We expect to announce our decisions on this issue soon. Local authorities are already allowed to take account of mobility in their funding formulae for schools.

This work has not included consideration of the costs to schools of high levels of pupil mobility or the impact of pupil mobility on other children in affected schools.

We have not commissioned any research looking specifically at the impact of pupil mobility on others, but we did commission a research study "Pupil Mobility in Schools—Dobson et al 1999—DfEE research report number 168" which investigated the general issue of pupil mobility.

In the current primary school achievement and attainment tables, a mobility indicator is provided alongside each school's value added measure. This provides context for the value added measure by showing the extent to which pupils eligible for the key stage 2 tests were not in the school for the whole of their key stage 2 education.

In the secondary tables, a pilot of "contextual value added" is taking place in 2005. This will directly take account of a range of contextual factors which are outside the school's control and which are correlated with outcomes even after taking account of prior attainment. Mobility will be one of the factors included, since pupils who move between schools outside of normal transitions make lower progress than non-mobile pupils. A similar pilot is planned for primary schools in 2006.

The Department does not collect information from individual schools that is specifically about pupil mobility. However pupils' dates of entry to schools are collected as part of the Pupil Level Annual Schools census. Based upon these dates of entry various mobility rates can be calculated depending upon the definition used.

The Department published a school level mobility indicator as part of the 2004 Primary School (Key Stage 2) Achievement and Attainment Tables.

This indicator shows the percentage of pupils who were registered at the school for their entire key stage 2 education. However, this indicator has not been defined or calculated at LEA level.

### School Meals

**Helen Goodman:** To ask the Secretary of State for Education and Skills (1) if she will provide guidance to schools on the method of allocation of the extra funding for school meals announced by the Government in March in time for schools to make adequate plans for the school year beginning in September; [11131]

(2) what proportion of the extra funding for school meals of £240 million over three years will be directly available to schools to improve the food quality of school meals. [11132]

**Jacqui Smith:** Over the three years 2005–06 to 2007–08, all maintained schools in England will receive a share of the £220 million set aside to help local education authorities and schools strengthen their support for healthy eating and to provide better quality food. Of this, £30 million each year will go to schools to help meet transitional costs involved in developing and improving their "whole school" approach to food. £30/50/50 million will go to LEAs to enable them to support schools with this process, with an emphasis on schools in deprived areas and schools starting from a low base.

The first instalment of this additional funding will be available to schools and LEAs this autumn. Further details about the distribution of both grants between individual local authorities and schools will be announced shortly.

### School Playing Fields

**Dr. Gibson:** To ask the Secretary of State for Education and Skills which schools in Norfolk have requested permission to sell playing fields. [12085]

**Jacqui Smith:** Section 77 of the School Standards and Framework Act 1998 requires local authorities and schools to obtain the written consent of the Secretary of State before they can dispose of any part of a school's playing field. Schools are only allowed to dispose of genuinely surplus areas of playing field.

The following schools in Norfolk have applied to sell areas of playing field larger than a small sports pitch for the under 10s, that is larger than 2,000 sq m:

Fakenham High School—applied in November 2003 to sell 16,000 sq m of sports pitch. The School Playing Fields Advisory Panel, which carries out the initial assessment of applications, determined that the application did not meet the published criteria and the application was subsequently withdrawn.

Heckingham First School—a closed school which applied in October 2000 to sell 2,500 sq m of sports pitch. The application was approved on 18 December 2000.

Hewett School—applied in September 2001 to sell 36,000 sq m of sports pitch to fund a new sports hall and other sports improvements. The application was approved on 6 August 2002.

Redgate Middle School—applied in April 2000 to sell 7,300 sq m of sports pitch to fund a new sports hall. The application was approved on 26 September 2000.

West Dereham VC Primary School—a closed school which applied in September 1999 to sell 2,835 sq m of sports pitch. The application was approved on 24 January 2000.

### Schools (Violence)

**Mr. Davey:** To ask the Secretary of State for Education and Skills (1) what assessment she has made of the level of violence in schools; what guidance she has provided on this issue to *(a)* teachers, *(b)* governors, *(c)* parents and *(d)* local authorities; and if she will make a statement; [11888]

(2) what steps are taken *(a)* to protect staff from violent and dangerous students and *(b)* to keep students who are judged to be of harm to themselves and others out of the classroom. [11890]

**Jacqui Smith:** In 2003/04 there were just under 88,000 exclusions from maintained school for physical violence, of which 80 per cent. were for violence to other pupils. This total is equivalent to just over 1 per cent. of the relevant pupil population. But any level of violence in schools is too high. So we have made it clear that head teachers may permanently exclude pupils for violence even when this is a first offence. It is even more important to help schools create an environment that reduces the risk of violence to an absolute minimum. To achieve that we have:

given every secondary school access to high-quality behaviour management guidance and training materials supported by expert advice from local authority-based behaviour management consultants;

funded extra support for schools facing the greatest challenges through our Excellence in Cities and Behaviour Improvement Programmes;

provided £120 million for school security improvements since 1997;

given schools a legal toolkit on how to ban aggressive parents from the site and have them removed and prosecuted if they flout the ban; and

helped to establish over 400 Safer Schools Partnerships that base police officers in schools.

In addition, we are:

giving every primary school access to high-quality guidance, training and curriculum materials for developing pupils' social, emotional and behavioural skills and developing similar materials for secondary schools;

developing specific violence prevention advice and training in collaboration with associations representing heads and other school staff;

working with the Home Office on legislation to give heads the power to search pupils for offensive weapons; and

asking an expert group of heads and teachers to consider what else could be done to promote discipline and a culture of respect in all schools.

Our guidance and training materials are primarily designed for head teachers and school staff. But they are readily available to local authorities and governors and accessible to parents through the DfES website.

### Bullying

**Mr. Davey:** To ask the Secretary of State for Education and Skills what estimate she has made of the number of *(a)* children and *(b)* teachers who were victims of bullying in schools in (i) London and (ii) England in 2004–05. [11889]

**Jacqui Smith:** Data on bullying among children is not collected centrally and there is no reliable basis for an estimate of prevalence. Bullying cases appear to be reported more often now than previously but we have no hard evidence that bullying is increasing or that it is affecting more children. Indeed, as children and young people increasingly feel safe at school to report bullying, and confident that it will be tackled effectively and sensitively, it is likely reporting will rise.

However, any level of bullying is too high and we are determined to help schools tackle the problem. Our guidance pack "Bullying: Don't Suffer in Silence," the anti-bullying Charter and the anti-bullying website www.dfes.gov.uk/bullying offer detailed advice on preventing and addressing bullying. We also offer specific advice to schools on tackling homophobic and racist bullying.

We have raised awareness of the importance of children who are being bullied telling an adult about what is happening, through our public information film "Tell Someone" and our leaflets and postcards for children and their parents. Our recent "Beat Bullying" blue wristband campaign was launched in partnership with Radio One, during the first national anti bullying week in November 2004. By the end of December, 1 million children and young people had answered our call to "Make a Stand, Wear a Band" and make a visible commitment that they are not prepared to tolerate bullying and will stand by their friends.

Data on bullying among teachers is not collected centrally as we do not employ teachers and other school staff directly. Similarly, there is no reliable basis for an estimate of prevalence.

### Secondary School Teachers (Early Retirement)

**Mr. Rob Wilson:** To ask the Secretary of State for Education and Skills what the cost of the early retirement scheme for teachers in secondary schools on grounds of ill-health was in the last eight years in each local education authority. [9988]

**Jacqui Smith:** The available information is in the following table. This shows the number and annual value of pension payment award at the time of retirement made on grounds of ill-health in the maintained secondary sector in England.

*New awards and total amount of pension awarded[1] to teachers in the secondary sector on the grounds of ill health[2] for the last eight financial years by local education authority*

## DEFENCE

### Co-operative Engagement Capabilities

**Mr. Hancock:** To ask the Secretary of State for Defence whether he plans to fit the Co-operative Engagement Capability to each Royal Navy ship; and if he will make a statement. [10783]

**Mr. Ingram:** We are conducting an assessment of the options for providing the Co-operative Engagement Capability. Our studies will be considering the numbers and types of platforms across the joint land, air and maritime environments which may contribute to providing the capability, and no decisions have yet been taken.

### Equipment Sourcing (China)

**Mr. Gordon Prentice:** To ask the Secretary of State for Defence which items of *(a)* Army, *(b)* Navy and *(c)* RAF kit are sourced in China; and if he will make a statement. [11878]

**Mr. Ingram:** It is assumed my hon. Friend refers specifically to clothing as opposed to other items of equipment used by the Armed Forces. The Defence Logistics Organisation, which is responsible for the procurement of clothing for the Armed Forces has not let any contracts for clothing directly to Chinese companies, although contractors have let sub-contracts to Chinese based companies.

Clothing items for use by the Army, Navy and RAF that have been supplied under sub-contract from China to date, are jackets, trousers, smocks, coveralls, underwear, shirts, one item of headwear and one of footwear, in the main these are for tri-service use.

### Food Budget

**Mr. Hollobone:** To ask the Secretary of State for Defence what proportion of the armed forces' food budget was sourced from UK farmers *(a)* in 1997 and *(b)* in the last year for which figures are available. [10719]

**Mr. Ingram:** For the period 1997–2001 the annual food budget for the British Armed Forces Worldwide Food Supply was approximately £70 million. An average of £30 million was spent per year on meat, fresh produce, dairy and eggs of which 50 per cent. by value was purchased from UK farmers and growers.

During the period 2002–04 the annual food budget increased to approximately £94 million. Of around £33 million spent on meat, fresh produce, dairy and eggs, 47 per cent. by value, was purchased from UK farmers and growers.

### Iraq

**Mr. Gordon Prentice:** To ask the Secretary of State for Defence how many 16 and 17-year-old soldiers are serving in Iraq; and if he will make a statement. [11879]

**Mr. Touhig:** It is not British Army policy to deploy soldiers under the age of 18 on overseas operations. Detailed operational information for non-UK forces is a matter for the coalition authorities.

**Sir Menzies Campbell:** To ask the Secretary of State for Defence on how many occasions in each month between July 2001 and February 2002 *(a)* coalition aircraft and *(b)* UK aircraft patrolling the southern No-Fly Zone in Iraq (i) detected violations of the No-Fly Zone, (ii) detected a direct threat to coalition aircraft and (iii) released ordnance, broken down by (A) amount and (B) type of ordnance released; and if he will make a statement. [11371]

**Mr. Ingram:** British and American aircraft patrolling the No-Fly Zones in order to monitor compliance with UN SCR 688 were regularly threatened by Iraq's air-defence system, and subjected to anti-aircraft fire and surface-to-air missile attacks. Between July 2001 and February 2002, the coalition response was as follows:

In July 2001, there were two aircraft violations in the Southern No-Fly Zone, and a further 23 ground-based threats detected. Five US air-to-ground (AGM) missiles were released. In August 2001, there were two aircraft violations and at least a further nine ground-based threats identified. 10 UK Paveway laser-guided bombs and 28 US Glide Bomb Unit (GBU) and AGM missiles were released. In September 2001, there was one aircraft violation and a further 23 threats identified. Seven UK Paveways and 27 US GBU and AGM missiles were released. In October 2001, there were eight threats identified. Two UK Paveways and 16 US GBU missiles were released. In November 2001, six threats were identified. Two US GBUs were released. There were three threats identified but no ordnance was released in December 2001. In January 2002, there were 11 threats identified and 15 US GBUs dropped in response. In February 2002, there were at least two threats recorded but there was no coalition ordnance dropped in the Southern No-Fly Zone.

All UK operations in support of the No-Fly Zones were carried out in lawful-self defence, directed at targets which were an actual or imminent threat to coalition aircraft or were contributing to such a threat, and directed only against elements of the Iraqi integrated air-defence system.

### Medal Office

**Peter Luff:** To ask the Secretary of State for Defence what the cost was of establishing the new Medal Office at RAF Innsworth. [11482]

**Mr. Touhig:** As at end of June 2005 the cost of establishing the Ministry of Defence Medal Office at RAF Innsworth was some £601,000. It is possible there will be some further staff related costs.

### Northern Ireland

**Mr. Peter Robinson:** To ask the Secretary of State for Defence how many operational Army bases there were in Northern Ireland in each of the last 10 years. [11657]

**Mr. Ingram:** The information requested on the number of operational Army bases in Northern Ireland is not readily available broken down by each of the last 10 years and could be provided only at disproportionate cost.

However, the following information on military sites (military bases, training areas, joint PSNI/military bases, communications sites and observation towers) is available at the dates set out in the following table:

| Date | Open sites | Closed sites |
|---|---|---|
| 1 September 1994[1] | 106 | — |
| 22 December 1999[2] | 72 | 34 |
| 31May2004[3] | 46 | 60 |
| 11 July2005[4] | 40 | 66 |

[1] Number of sites at announcement of 1st IRA Ceasefire.

[2] Number of sites open/closed at publication of Government's Security Strategy Paper.

[3] Number of sites open/closed as detailed in Second Report of the Independent Monitoring Commission.

[4] Latest position on open/closed sites.

### Nuclear Deterrence

**Mr. Gordon Prentice:** To ask the Secretary of State for Defence if he will meet Mr. Robert McNamara to discuss the contribution the UK may make to nuclear disarmament and nuclear war proliferation; and if he will make a statement. [9804]

**John Reid:** I have no appointment to meet Mr. Robert McNamara. The UK has a very strong record on nuclear disarmament and we have reduced the explosive power of our nuclear forces by over 70 per cent. since the end of the Cold War. We are committed to the global elimination of nuclear weapons. We are most concerned about nuclear proliferation and active in efforts to combat it. This is demonstrated by the negotiations we, France and Germany, in association with the EU, are conducting with Iran concerning its nuclear programme, and by the assistance we and the US gave to Libya in implementing its announcement of December 2003 to abandon its nuclear weapon and other WMD programmes.

### Recruitment

**Mr. Ancram:** To ask the Secretary of State for Defence how much his Department has spent on recruiting civilians for the UK regular forces in each quarter since 2002. [7528]

**Mr. Touhig:** The total Naval Service and RAF costs of recruiting from civilian life since financial year 2002–03 were as follows:

*£ million*

| | Q1 | Q2 | Q3 | Q4 | Total cost |
|---|---|---|---|---|---|
| *Naval Service* | | | | | |
| 2002–03 | 5.890 | 8.100 | 7.064 | 8.873 | 29.927 |
| 2003–04 | 6.505 | 7.319 | 8.466 | 8.892 | 31.182 |
| 2004–05 | 6.353 | 9.477 | 7.741 | 8.683 | 32.254 |
| *RAF* | | | | | |
| 2002–03 | 6.717 | 7.142 | 8.394 | 8.757 | 31.010 |
| 2003–04 | 7.303 | 9.863 | 9.041 | 9.356 | 35.563 |
| 2004–05 | 6.263 | 9.132 | 8.420 | 12.251 | 36.066 |

The Army's recruitment costs are not held centrally on a quarterly basis; details could be provided only at a disproportionate cost. Nevertheless the annual amount spent on recruitment over the same period was:

| | *£ million* |
|---|---|
| 2002–03 | 62.594 |
| 2003–04 | 66.154 |
| 2004–05 | 74.727 |

The expenditure includes:

Marketing costs (national and local advertising, exhibitions, specialist advertising and marketing research),

Personnel costs (associated costs of recruiting staffs),

Infrastructure (maintenance and rents/leases etc of Armed Force Career Offices),

Outreach activities (cost of face-to-face recruiting).

**Mr. Hood:** To ask the Secretary of State for Defence what assessment he has made of the effect of *(a)* £8,000 golden hellos and *(b)* other incentives on recruitment to the Scottish infantry regiments since January; and if he will make a statement. [10283]

**Mr. Touhig:** The Golden Hello and Army Vocational Bursary Scheme were launched in October 2003. The scheme aims to encourage entrants into selected Army Operational Pinch Points in the Royal Engineers, Royal Logistic Corps, Royal Electrical and Mechanical Engineers, Intelligence Corps and Army Medical Services (AMS). Awards range from £500 to £8,000. As at 6 July 2005, the Army had awarded 247 golden hellos at attestation. These awards, which are only available to soldier entrants, are paid on the completion of Phase 2 training and all candidates must complete the minimum four-year engagement. To date the scheme has not been as successful as envisaged and it is currently under review.

Other awards, in the form of Scholarships and Undergraduate Bursaries, are open to officer entrants but golden hellos are available only for professionally qualified applicants for the Army Medical Services.

The Army does not market any recruitment incentives for the Infantry.

## DEPUTY PRIME MINISTER

### Business Rate

**Mrs. Spelman:** To ask the Deputy Prime Minister what the gross cost is of providing transitional relief in the business rates revaluation in England in 2005–06 before downward phasing is applied. [11998]

**Mr. Woolas:** Our estimate of the cost of the non-domestic rates transitional arrangements for 2005–06 before downward phasing is applied is £520 million.

### Caravans

**Mrs. Spelman:** To ask the Deputy Prime Minister what definition the Department uses of a caravan for Traveller number counts. [11393]

**Yvette Cooper:** The guidance issued to local authorities for the completion of the July 2005 Count of Gypsy and Traveller caravans states that the following should be recorded:

all mobile homes, caravans, trailers and other living vehicles on Gypsy/Traveller sites and encampments, whether or not they meet the strict legal definition of a caravan;

touring caravans on Gypsy/Traveller sites and encampments even if not lived in permanently;

tents, benders or yurts where these are the "permanent" living accommodation of Gypsies or Travellers.

### Conferences

**David T.C. Davies:** To ask the Deputy Prime Minister how much the Department spent on organising or sponsoring conferences in each of the last five years. [10263]

**Jim Fitzpatrick:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Council Tax

**Sarah Teather:** To ask the Deputy Prime Minister what the total collectable council tax was in each local authority in 2004–05, net of council tax benefit. [12236]

**Mr. Woolas:** Details of the total collectable council tax in each local authority in 2004–05, net of council tax benefit, are published on the Office of the Deputy Prime Minister's website and can be found under the heading "Information For Taxpayers—Council Tax" at: http://www.local.odpm.gov.uk/finance/ct.htm.

### Departmental Offices

**Mrs. Spelman:** To ask the Deputy Prime Minister in which Government office building *(a)* he and *(b)* the Minister of State for Communities and Local Government bases his private office. [7445]

**Jim Fitzpatrick:** There are ODPM ministerial offices in both 26 Whitehall and Eland House, Bressenden Place.

### Departmental Telecommunications

**Mrs. Spelman:** To ask the Deputy Prime Minister pursuant to the Answer of 5 July 2005, *Official Report*, column 300W, on departmental telecommunications, how many mobile phones have been reported by Ministers as *(a)* lost and *(b)* stolen in each year since the establishment of his Department. [11960]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created on 29 May 2002. The number of mobile telephones that have been reported *(a)* lost and *(b)* stolen, by Ministers in each year since the establishment of the Office are as follows:

| | *Number of mobile phones lost* | *Number of mobile phones stolen* |
|---|---|---|
| 30 May 2002 to 31 March 2003 | 0 | 0 |
| 1 April 2003 to 31 March 2004 | 1 | 0 |
| 1 April 2004 to 31 March 2005 | 0 | 0 |
| 1 April to 12 July 2005 | 0 | 0 |

### Emergency Fire Control Centre

**Mr. Hoyle:** To ask the Deputy Prime Minister what independent assessment has been made of plans for a regional emergency fire control centre in the North West. [11186]

**Jim Fitzpatrick:** The FiReControl project is a result of several independent reports into the Fire and Rescue Service, including: the Mott MacDonald "Future of the Fire Service Control Rooms and Communications' April 2000; "The Future of the Fire Service: reducing risks, saving lives", the Independent Review of the Fire Service by Sir George Bain; Mott Macdonald "The Future of Fire and Rescue Service Control Rooms in England and Wales: Update 2003" and Her Majesty's Fire Service Inspectorate (HMFSI) "Best Value Review of Fire Control and Communications" 2003.

The proposal is for a national network of fire control centres, which supports resilience requirements and delivers efficiencies. There has been no separate assessment of a regional fire control centre in the North West.

### English Partnerships Projects

**Mr. Hoyle:** To ask the Deputy Prime Minister what projects English Partnerships have funded in Chorley since 1997. [11187]

**Yvette Cooper:** English Partnerships funded a number of projects in Chorley up until 31 March 1999 when the regional development agencies were set up and responsibility for the projects passed to North West Development Agency. These included the following projects under the Land Reclamation/Derelict Land Grant Schemes—Valley Park Settlement Tanks, Top Lodge and Copper Works Wood and miscellaneous small Derelict Land Grant payments. Payments were also made under the Commission for New Towns obligations for Red Bank Link Road and the transfer of Community Related Assets. Additional funding for the Housing Needs survey was also provided.

### Environmental Health Officers (London)

**Sarah Teather:** To ask the Deputy Prime Minister how many food providers failed environmental health inspections in the last 12 months in each London borough. [2490]

**Jane Kennedy:** I have been asked to reply.

I am advised by the Food Standards Agency (FSA) that the information requested is not available centrally. A summary of enforcement action taken for each London borough during 2003 is shown in the table.

| *London borough* | *Number of formal enforcement actions reported by London boroughs to the FSA for the period 1 January 2003 to 31 December 2003* |
|---|---|
| Barking and Dagenham | 154 |
| Barnet | 1,004 |
| Bexley | 857 |
| Brent | 948 |
| Bromley | 549 |
| Camden | 998 |
| City of London | 283 |
| Croydon | 515 |
| Ealing | 389 |
| Enfield | 1,214 |
| Greenwich[1] | 106 |
| Hackney | 150 |
| Hammersmith and Fulham | 1,154 |

| London borough | Number of formal enforcement actions reported by London boroughs to the FSA for the period 1 January 2003 to 31 December 2003 |
|---|---|
| Haringey | 701 |
| Harrow | 252 |
| Havering | 578 |
| Hillingdon | 695 |
| Hounslow | 131 |
| Islington | 795 |
| Kensington and Chelsea | 315 |
| Kingston-upon-Thames | 446 |
| Lambeth | 1,451 |
| Lewisham | 455 |
| Merton | 506 |
| Newham | 471 |
| Redbridge | 362 |
| Richmond-upon-Thames | 560 |
| Southwark | 1,418 |
| Sutton | 446 |
| Tower Hamlets | 1,007 |
| Waltham Forest | 512 |
| Wandsworth | 347 |
| Westminster | 1,584 |
| Total | 21,353 |

[1] Greenwich submitted partial data for the period 1 January 2003 to 31 December 2003.

*Notes:*

1. Data are collected under the Food Safety Act 1990 and the European Union's Official Control Directive 89/397. Local authorities (LAs) are required by the directive to report the number of establishments receiving formal enforcement actions in a given year.
2. "Formal enforcement action" includes written warnings, improvement notices, voluntary closures, and food seizures, surrenders or detentions, formal cautions, prosecutions, prohibition orders and emergency prohibition orders. There may have been more actions but, in accordance with EU guidance for the collection of the official control data (OCD), each type of enforcement action is only recorded once per premises per year.
3. London boroughs undertake both food hygiene and food standards work. The data supplied to the FSA by London boroughs relating to formal enforcement actions do not differentiate between these two separate areas of food law enforcement.
4. Data exclude inspections to vessels.

*Source:*

FSA, OCD database.

## Fire Crews (Attacks)

**Mr. Clappison:** To ask the Deputy Prime Minister how many fire officers have been the victims of offences of violence suffered in the course of their employment in each of the last 20 years. [7588]

**Mr. Hoyle:** To ask the Deputy Prime Minister how many attacks have taken place on fire crews in Lancashire in each of the last three years. [7654]

**Jim Fitzpatrick:** Fire and Rescue Authorities have always been asked to report assaults on firefighters but reliable statistics are only available from 2004 when a total of 633 attacks were reported, of which six were on fire crews in Lancashire as indicated.

| Fire and Rescue Service | Number of reported assaults 2004–05 |
|---|---|
| Buckinghamshire | 1 |
| Cheshire | 23 |
| Cleveland | 54 |
| Cumbria | 2 |
| Dorset | 1 |
| Greater Manchester | 188 |
| Hampshire | 6 |
| Isle of Wight | 1 |
| Kent | 10 |
| Lancashire | 6 |
| Lincolnshire | 1 |
| Merseyside | 135 |
| Mid and West Wales | 5 |
| Norfolk | 1 |
| Nottinghamshire | 33 |
| South Wales | 37 |
| South Yorkshire | 20 |
| Staffordshire | 1 |
| Tyne and Wear | 2 |
| West Midlands | 106 |
| Total | 633 |

**Miss McIntosh:** To ask the Deputy Prime Minister what steps he is taking to reduce attacks on fire crews. [6689]

**Jim Fitzpatrick:** The Fire and Rescue Services Act 2004 makes it an offence to obstruct or interfere with an employee of a fire and rescue authority carrying out his or her duties. In addition assault is a criminal offence and there is a hierarchy of criminal offences where injury results. It is important that such incidents are reported and that the fire and rescue authorities collaborate with the police so that offenders are prosecuted and punished appropriately.

**Miss McIntosh:** To ask the Deputy Prime Minister (1) if he will take steps to ensure accurate collection of statistics on the number of attacks against fire crews; [6690]

(2) what steps he plans to take to ensure that individual members of fire crews *(a)* are encouraged to volunteer information about attacks and *(b)* understand the importance of reporting incidents. [6691]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister issued Fire Service Circular 5 of 2005 on 15 February 2005, advising chief fire officers of revised arrangements for reporting Fires and Incidents of Special Interest (FOSIs). This reinforces earlier guidance about reporting and requires information to be supplied about attacks on firefighters. A copy of this circular has been placed in the Library of the House. Ensuring that their employees report all such incidents is a matter for fire and rescue authorities.

**Miss McIntosh:** To ask the Deputy Prime Minister if he will take steps to increase the monitoring and evaluation of campaigns and community-based projects with those who have attacked and who may attack fire crews. [6692]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister has commissioned external consultants to evaluate the range of youth diversion/youth intervention schemes currently undertaken by the fire

and rescue services and others in order to identify examples which we can disseminate as good practice for fire and rescue authorities to use.

**Miss McIntosh:** To ask the Deputy Prime Minister what steps *(a)* have been taken and *(b)* are planned to increase the amount of training provided to fire crews for dynamic risk assessment; and what part such training will play in the strategy for reducing attacks on fire crews. [6693]

**Jim Fitzpatrick:** The amount of training required to deal with attacks on firefighters, including training in dynamic risk assessment, is a matter for fire and rescue authorities who tailor the training to meet the need. National standards for firefighters (known as the firefighter "role map") include a number of elements relating to dynamic risk assessment. I understand that the Chief Fire Officers Association (CFOA) has set up a task and finish group, to review practice relating to assaults on firefighters and to make recommendations. Conflict management training along the lines of that given to police and ambulance workers is being piloted in South Wales and other initiatives are being considered by the CFOA Group.

**Miss McIntosh:** To ask the Deputy Prime Minister what *(a)* short-term and *(b)* long-term plans he has for (i) continuation and (ii) extension of (A) training of fire crews in dealing with attacks on them and (B) initiatives with (1) local schools and (2) the community in respect of such attacks. [6694]

**Jim Fitzpatrick:** In relation to A, I refer the hon. Member to the answer given on 14 July 2005 (Ref: 6693). In relation to B, fire and rescue authorities have a new duty under Section 6 of the Fire and Rescue Service Act 2004 to promote fire safety. Under the arrangements for Integrated Risk Management Planning, it is for individual authorities to decide how to fulfil that duty, following consultation, but I know that many schemes and partnerships exist where the Fire and Rescue Service engages with the local community and schools. These can have a direct impact on behaviour.

### Firelink Project

**John McDonnell:** To ask the Deputy Prime Minister what the timetable is for the implementation of the Firelink Project; and if he will make a statement. [11184]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister expects to award contract in November 2005. The overall time scale for implementation will depend on the outcome of the procurements and will reflect the successful suppliers' proposals.

**John McDonnell:** To ask the Deputy Prime Minister whether either of the bidding companies for the Firelink Project provided the basis to proceed to contract following their best and final offer submissions in April. [11185]

**Jim Fitzpatrick:** Neither bidding company provided the basis to move to award the Firelink contract. The Office of the Deputy Prime Minister is continuing discussions with both bidding companies to resolve issues associated with their bids prior to inviting revised best and final offers.

**Mr. Drew:** To ask the Deputy Prime Minister when he expects to make a decision on Firelink. [11594]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister expects to award the Firelink contract in November 2005.

**Mr. Drew:** To ask the Deputy Prime Minister whether regionalisation of fire control centres is dependent on the Firelink project; and if he will make a statement. [11595]

**Jim Fitzpatrick:** FiReControl will use the digital national radio solution provided by Firelink as its primary bearer for voice and data. The Firelink project is working closely with the FiReControl project as part of an integrated programme to deliver an integrated, resilient command and control system for the Fire and Rescue Service in England.

### Housing

**Norman Baker:** To ask the Deputy Prime Minister how many houses have been built in each year since 1995; how many of these houses were subjected to air pressure tests during the course of their construction; and what the results were. [11278]

**Yvette Cooper:** Statistics published by the Office of the Deputy Prime Minister show about 1.5 million dwellings were built in England and Wales in the decade to April 2005. Statistics on pressure tests are not collected. I am aware that pressure tests have been carried out on about 150 houses built to comply with the Building Regulations as amended in April 2002. The approved documents supporting that amendment covered air tightness for the first time. While there was no evidence of overall non-compliance, the evidence is that the pressure test results were unsatisfactory. This has prompted consideration of stronger requirements for testing and improved technical guidance.

**Mr. Gordon Prentice:** To ask the Deputy Prime Minister what assurances he is seeking from Pendle borough council before agreeing its proposals to transfer its housing stock. [11876]

**Yvette Cooper:** The Office of the Deputy Prime Minister is seeking an assurance that the gap funding requested by Pendle borough council to support its transfer is the minimum necessary to deliver the proposed transfer.

### Kanes Food

**Peter Luff:** To ask the Deputy Prime Minister if he will make it his policy to conduct a public inquiry into the planning application by Kanes Food at Middle Littleton to expand their existing operations. [11646]

**Yvette Cooper:** Wychavon district council has submitted the planning application by Kanes Foods Ltd. to the Secretary of State as a departure from the local plan. We are currently considering whether it is necessary to call in the planning application for the Secretary of State to decide himself, instead of leaving the decision to the local planning authority. A public inquiry will be held if the application is called in. I will advise the hon. Member of our decision.

### Local Authorities

**Mr. Hands:** To ask the Deputy Prime Minister what the Government's policy is on what should constitute a threshold for a key decision made by a local authority. [6758]

**Mr. Woolas:** It is a matter for each local authority to decide its threshold for key decisions, having regard to the statutory guidance which the Government have issued under the Local Government Act 2000. This guidance states that in setting such thresholds a local authority will need to bear in mind the underlying principles of accountable decision making that there should be a presumption towards openness so that local people have knowledge sufficiently in advance of all those decisions which will be of genuine concern to local communities.

### Local Government Finance

**Mrs. Spelman:** To ask the Deputy Prime Minister pursuant to the answer of 30 June 2005, *Official Report*, column 1653W, on local government finance, if he will list the local authorities to which the questionnaire was sent; and what criteria were used to select the local authorities. [11559]

**Mr. Woolas:** The questionnaire was sent to local authorities with representatives on a practical implementation working group on council tax revaluation set up by the ODPM and on a software suppliers forum that exists to consider possible software issues arising from changes to the council tax and business rates regime. The local authorities concerned are Birmingham city council, City of London, Derby city council, the London borough of Redbridge, Sedgemoor district council, Slough borough council, Somerset county council, the London borough of Tower Hamlets and Weymouth and Portland borough council.

### Millennium Dome

**Mr. Sheerman:** To ask the Deputy Prime Minister pursuant to the answer of 27 June 2005, *Official Report*, column 1313W, on the millennium dome, what discussion he has had with English Partnerships on making the car park for which it is responsible available for use now. [9802]

**Jim Fitzpatrick:** No such discussions have been held. The future use of English Partnerships' land next to or near the millennium dome that was previously used for car parking has been settled through the usual planning process, in the context of the commercial deal between English Partnerships and Meridian Delta Ltd. and Anschutz Entertainment Group for the future use of the dome and land on the Greenwich Peninsula.

Car parking on the land referred to in the answer of 27 June 2005, *Official Report*, column 1313W, could only be made available for a relatively short period of time because Anschutz Entertainment Group has rights during the next two years to carry out works to this and other adjacent land in preparation for its own car parking use in respect of the arena when it opens in spring 2007.

### Mobile Phone Masts

**Stephen Hammond:** To ask the Deputy Prime Minister what criteria were used in making the decision to exempt the installation of mobile phone masts up to 15 m high from the normal planning permission requirements. [11503]

**Yvette Cooper:** The permitted development rights granting general planning permission for telecommunications apparatus below 15 m were introduced by the "Town and Country Planning General Development (Amendment) Order 1985".

In 2000, the Stewart Report recommended that all base stations, including those up to 15 m, should be subject to the normal planning process in order to improve local consultation. The arrangements we put in place following the Stewart Report provide for the same consultation on base stations up to 15 m in height as is required by full planning permission.

### Publications

**Mr. Amess:** To ask the Deputy Prime Minister if he will list the publications issued by his Department in each of the last seven years; and what the *(a)* circulation, *(b)* cost and *(c)* purpose of each was. [10570]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created on 29 May 2002.

The information requested is not held centrally and could be provided only at disproportionate cost.

### Research

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will list the research projects commissioned since the creation of the Department; and what the timetable is for the publication of each piece of research that has yet to be completed. [11997]

**Jim Fitzpatrick:** A list of all research projects commissioned by the Office of the Deputy Prime Minister is available from the Research Management Database (RMD) at http://www.rmd.odpm.gov.uk.

Under the ODPM Publication Scheme, we are committed to publishing research project reports within six months of project completion or, at the latest, when quality checks, including relevant peer review, are completed or when a policy decision based on its findings is publicised. Information on the project completion date is contained in the Research Management Database.

There are agreed publication timetables for a number of statistical research projects. This information is regularly updated and available at: http://www.odpm.gov.uk/stellent/groups/odpm_about/documents/page/odpm_about_609298.hcsp

### Social Landlords

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister if he will list the registered social landlords which have broken *(a)* a rent guarantee made to

tenants and *(b)* Housing Corporation rent guidelines since 1998; and how many homes were affected in each case. [11157]

**Yvette Cooper:** I refer my hon. Friend to the answer given on 8 June 2005, *Official Report*, columns 560–62W. Only those registered social landlords which have received housing from local authorities as part of the large scale voluntary transfer programme have made rent guarantees to tenants.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister if he will list the registered social landlords which have been put under supervision by the Housing Corporation; how many homes each is responsible for; and what the duration of the supervision period is in each case. [11162]

**Yvette Cooper:** The information cannot be provided in the form requested. The Housing Corporation's regulatory regime was set up in the late 1970s and records held do not date back this far. The corporation holds information on resolved supervision cases from 2000 onwards but the information does not identify stock figures at the time of supervision. It also holds information on current supervision cases, which does identify stock figures. This information has been made available in the Library of the House.

### Water Supply

**Mr. Peter Ainsworth:** To ask the Deputy Prime Minister what representations he has *(a)* sought and *(b)* received from Sutton and East Surrey Water plc regarding its ability to meet the future demand for water supply arising from the proposed increase in new housing completions in their catchment area. [12197]

**Yvette Cooper:** My right hon. Friend the Deputy Prime Minister has neither sought or received such representations. Water companies from across the South East and the Environment Agency are working with the South East England Regional Assembly to consider future water supply requirements as part of the process of preparing the South East Plan.

## WORK AND PENSIONS

### Benefit Fraud

**Dr. Pugh:** To ask the Secretary of State for Work and Pensions what percentage of benefit fraud cases involved the claimant using a false name in the last period for which figures are available. [6849]

**Mr. Plaskitt:** Precise figures are not available. The Counter Fraud Investigation Service (CFIS) which investigates the majority of benefit fraud does not keep a separate record of such cases.

The National Investigation Service (NIS) whose investigations focus on the most serious benefit frauds secured 175 convictions in 2004–05 for cases involving false identities. We estimate that half of these cases involved using false identities in order to claim benefit and half were attempts simply to obtain national insurance numbers.

In 2004–05 the Department and local authorities together conducted a total of 13,261 successful prosecutions for benefit fraud.

**Mr. Crabb:** To ask the Secretary of State for Work and Pensions how many calls there were to the benefit fraud hotline in each month of the last year for which figures are available. [8187]

**Mr. Plaskitt:** The information is in the table:

*Calls made to the national benefit fraud hotline, 2004–05*

| | Number |
|---|---|
| *2004* | |
| April | 17,538 |
| May | 20,640 |
| June | 28,696 |
| July | 36,984 |
| August | 23,814 |
| September | 23,540 |
| October | 17,902 |
| November | 27,017 |
| December | 12,936 |
| *2005* | |
| January | 19,817 |
| February | 25,706 |
| March | 23,923 |
| Total | 278,513 |

*Note:*
The number of calls made includes all calls registered as hitting the telephone system including calls not answered e.g. where the caller may have hung up before being answered.
*Source:*
National Benefit Fraud Hotline

**Mr. Crabb:** To ask the Secretary of State for Work and Pensions what the total budget for the benefit fraud hotline was for each year since the service commenced. [8189]

**Mr. Plaskitt:** The available information is in the table.

*National benefit fraud hotline budget allocation*

| | £ |
|---|---|
| 2001–02 | 1,086,000 |
| 2002–03 | 959,277 |
| 2003–04 | 957,977 |
| 2004–05 | 1,192,843 |

*Notes:*
1. Figures include goods, services and staffing costs.
2. The national benefit fraud hotline (NBFH) commenced in August 1996. Information around budget allocation is available only from year ending 2001–02. Prior to this NBFH fell under "BA Security", and figures on funding and budget costs are no longer available.
3. The operational costs of administering the national benefit fraud hotline include the costs of administering the report-a-cheat-online service. These costs cannot be separated.
*Source:*
National Intelligence Unit and Resource Management and IT

**Mr. Crabb:** To ask the Secretary of State for Work and Pensions how much fraudulently-claimed benefit was recovered as a result of calls made to the benefit fraud hotline in each year since the service commenced. [8190]

**Mr. Plaskitt:** The information requested is not available.

**Mr. Crabb:** To ask the Secretary of State for Work and Pensions how many convictions have resulted from calls to the benefit fraud hotline in each year since the service started. [8215]

**Mr. Plaskitt:** The information is in the table.

*Convictions resulting from calls to the national benefit fraud hotline*

| | *Number* |
|---|---|
| 1999–2000 | 335 |
| 2000–01 | 492 |
| 2001–02 | 703 |
| 2002–03 | 706 |
| 2003–04 | 619 |
| 2004–05 | 655 |

*Note:*
Full information on the number of convictions resulting from calls to the national benefit fraud hotline is available only from April 1999.
*Source:*
Fraud Information by Sector system

### Benefits (16-hour Rule)

**Richard Burden:** To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of the 16-hour rule on measures to encourage people on benefits to take-up training opportunities; and what discussions he has had with colleagues in other departments on the subject. [9108]

**Mr. Plaskitt:** The part-time (16-hour) study rule is used to determine whether certain courses are part-time or full-time. People opting to study full-time in both higher and further education are the responsibility of the education system.

However, we recognise the need to increase the skills of jobseekers to meet the needs of their local labour market and currently fund various training schemes and employment programmes that are targeted towards those at a disadvantage in the labour market. The new deals and work based learning for adults are examples of this and participants receive a training allowance equivalent to their benefit and, in most circumstances, a top-up payment.

We are currently working with the Learning and Skills Council to make greater use of their provision and, from September 2006, will be piloting the adult learning option. The pilot will be aimed at people whose lack of skills is the barrier preventing them from getting a job. Pilot participants will undertake full-time learning and receive a training allowance.

### Child Support Agency

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what definition the Child Support Agency uses of the term sensitive case; how many cases the Sensitive Case Team has dealt with in each year since its establishment; how many times unauthorised access to sensitive cases has been detected; and how many checks have been made on sensitive cases. [2013]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Stephen Geraghty to Mr. David Laws, dated 14 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what definition the Child Support Agency uses of the term sensitive case; how many cases the Sensitive Case Team has dealt with in each year since its establishment; how many times unauthorised access to sensitive cases has been detected; and how many checks have been made on sensitive cases.

Within the Child Support Agency all Nationally Sensitive cases are dealt with by a team located in Falkirk. Sensitive cases are those cases that require special handling in order to restrict access to information and to protect the account from unauthorised amendments. Sensitive cases cover a wide range of circumstances including partners at risk of violence, people on witness protection, transsexuals and VIPs.

A yearly breakdown of the number of Nationally Sensitive cases is unavailable. However, there are currently 410 live cases, of which 238 are on the old scheme and 172 on the new scheme.

Since the inception of the Nationally Sensitive Case team within the Child Support Agency there have been no instances of unauthorised access to these cases detected. Information is not available as to how many checks have been carried out on Nationally Sensitive cases. However, they are all subject to 100 per cent checking which means that every time the case is actioned it is checked to ensure the Nationally Sensitive marking is still relevant.

I hope you find this information of use.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions (1) how much compensation has been sought from EDS by the Child Support Agency; how much has been received; and on what grounds compensation has been sought; [3632]

(2) if he will list payments *(a)* made to and *(b)* withheld from EDS for the new Child Support Agency computer system. [3866]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member.

*Letter from Stephen Geraghty to Mr. David Laws, dated 14 July 2005:*

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You also asked the Secretary of State for Work and Pensions, how much compensation has been sought from EDS by the Child Support Agency; how much has been received; and on what grounds compensation has been sought. You also asked the Secretary of State to list payments *(a)* made to and *(b)* withheld from EDS for the new Child Support Agency computer system.

The Department has not sought compensation from EDS as such. The Child Support Agency contract with EDS allows the Department to adjust payments according to the degree of IT functionality delivered and the level of service received against targets. We have previously reported in response to a Parliamentary Question on 18 November 2004, Official Report, column 1,874W that payments made to EDS between 3 March 2003 and 19 September 2004 under the Child Support Reform contract amounted to £62.08 million. During the same period the Department withheld £12.1 million as a result of service and performance issues.

The Department is currently in financial negotiations with EDS about the payments which should be made in total for the Child Support Agency computer system. I regret that I am unable to

provide specific detail in relation to payments made and withheld since 19 September as the release of this information could prejudice commercial interests.

I am sorry that we are not able to be more helpful at present.

**Anne Main:** To ask the Secretary of State for Work and Pensions (1) how many people in *(a)* the UK and *(b)* St. Albans are still waiting to be moved to assessment under the new Child Support Agency regulations; and what assessment he has made of the time taken for the transition to be completed; [5099]

(2) what the average level of overpayment has been by parents in St. Albans who are being assessed under the old Child Support Agency regulations whose cases have not yet been re-evaluated under the new regulations; and if he will make a statement. [5100]

**Mr. Plaskitt:** Although at the end of May 2005 there were around 955,000 cases being progressed under the old scheme in Great Britain information about the number of people waiting to be moved to the new scheme is not available. This is because not all of these cases will be appropriate to move to the new scheme. For example, this figure includes cases which involve payment of arrears where there is no on-going liability for maintenance.

Unfortunately information is not available at constituency or local authority level.

Those customers who have not been transferred to the new system are neither overpaying nor underpaying. Non-resident parents currently assessed under the old scheme are still liable to pay child support for their children in accordance with the legislation that applies to them.

We have recently appointed a new chief executive and as a priority have asked him to carry out a wide ranging review of the Agency's operations and structures. He will be reporting his findings to us in the summer and will set out his proposals to improve the Agency's performance, including the transfer of cases to the new system.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions when he was first informed that there would not be enough storage space on the new Child Support IT system for all cases; and what action he has taken to ensure that there will be. [8742]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Stephen Geraghty to Mr. David Laws, dated 14 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, when he was first informed that there would not be enough storage space on the new Child Support IT system for all cases; and what action he has taken to ensure that there will be.

The new IT system (CS2) will have sufficient storage space for all cases, and we are not aware of any storage capacity limitations that will affect the Child Support Agency's ability to support its caseload on the new system.

I hope that you find this answer useful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what progress there has been in agreeing a clear definition of system availability for the new child support system with EDS. [9331]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Stephen Geraghty to Mr. David Laws, dated 14 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what problems there have been agreeing a clear definition of system availability for the new child support system with EDS.

System availability is covered clearly in the Child Support Reform contract between the Department and EDS. Within that contract reference is made to when the system is not available. "Unavailability" is defined as users being unable to access the system or unable to work correctly because the system is not working to agreed specification (requirements). The "system" is defined as all of the listed components of the EDS IT solution for Child Support Reform.

I hope you find this response helpful.

## Council Tax Benefit

**Mrs. Spelman:** To ask the Secretary of State for Work and Pensions what plans the Government has to reform council tax benefit; and if he will make a statement. [7507]

**Mr. Plaskitt:** We need to consider the findings of the Lyons Inquiry into Local Government Funding, which is due to report later this year, but we certainly want to ensure that help with council tax is made easier for individuals to access.

## Crisis Loans

**Lynne Featherstone:** To ask the Secretary of State for Work and Pensions what the average time scale is for dealing with crisis loan applications; and if he will make a statement. [6361]

**Mr. Plaskitt:** The actual average clearance time for crisis loans in 2004–05 was 1.3 working days. This is within the current internal target of clearing crisis loans within an average of two working days. The minimum clearance time that can be recorded is one day.

**Michael Connarty:** To ask the Secretary of State for Work and Pensions if he will increase staffing and resources to administer the new centralised system of telephone applications for crisis loans. [10765]

**Mr. Plaskitt:** The administration of Jobcentre Plus is a matter for the acting chief executive, Lesley Strathie. She will write to the hon. Member with the information requested.

*Letter from Lesley Strathie to Mr. Michael Connarty, dated 14 July 2005:*

The Secretary of State has asked me to reply to your question concerning whether staffing and resources will be increased to administer the new centralised system of telephone applications for Social Fund Crisis Loans. This is something that falls within the responsibilities delegated to me as acting Chief Executive of Jobcentre Plus.

There are no plans to increase resources, as dealing with Crisis Loans by telephone is no more expensive than the previous method of interview in person. Managers are expected to ensure that sufficient staff are deployed on telephone lines to meet required demand and to provide the facility for face to face interviews for people who do not wish to use the telephone.

For the future, we are designing a standard operating model, which will specify common procedures, technology and resources for all aspects of Social Fund delivery, and this will take account of fluctuating demand.

I hope this is helpful.

### Earnings-related Pensions

**Mr. Laws:** To ask the Secretary of State for Work and Pensions pursuant to his answer of 14 June 2005, *Official Report*, column 260W on earnings-related pensions, (1) what assumptions he made about *(a)* income brought to account for pension credit and *(b)* pension credit take up in projecting the future cost of pension credit; [8002]

(2) what the estimated costs *(a)* in real terms and *(b)* as a percentage of gross domestic product are of (i) the basic state pension, (ii) Serps/S2P, (iii) pension credit and (iv) other pension benefits in (A) 2010, (B) 2020, (C) 2030, (D) 2040 and (E) 2050, consistent with the projections of extra cost. [8003]

**Mr. Timms:** The information is in the table.

For the purposes of pension credit estimates pensioner incomes are assumed to rise in line with earnings in the long-term. Take-up rates of pension credit are held constant from 2009 onwards within demographic group (defined by age, gender and marital status).

*Change in expenditure for over 65's (Great Britain only)*

| | 2010 | 2020 | 2030 | 2040 | 2050 |
|---|---|---|---|---|---|
| Basic state pension (extra costs) | 18 | 38 | 69 | 109 | 151 |
| Percentage GDP | 1.3 | 2.1 | 3.2 | 4.2 | 4.7 |
| Pension credit (savings) | 8 | 12 | 19 | 27 | 37 |
| Percentage GDP | 0.5 | 0.7 | 0.9 | 1.1 | 1.2 |
| Winter fuel payments (savings) | 1 | 1 | 2 | 2 | 2 |
| Percentage GDP | 0.1 | 0.1 | 0.1 | 0.1 | 0.1 |
| Total additional expenditure | 10 | 25 | 50 | 80 | 113 |
| Percentage GDP | 0.7 | 1.4 | 2.3 | 3.1 | 3.5 |

*Notes:*
1. This table shows a breakdown of additional costs or savings.
2. Figures are in £ billion in 2005–06 price terms, and consistent with 2005 budget long term assumptions.
3. Totals may not sum due to rounding
4. No change in expenditure is assumed to occur in the State Second Pension.
5. Long term projections of expenditure (for the United Kingdom) on pensioners under the current system are published on the departmental internet site.

### Gangmasters

**Jim Sheridan:** To ask the Secretary of State for Work and Pensions (1) what assessment has been undertaken of Operation Gangmaster since the introduction of the Gangmasters (Licensing) Act 2004; and if he will make a statement; [9601]

(2) whether the responsibility for Operation Gangmaster will be transferred to the Gangmasters Licensing Authority established under the Gangmasters (Licensing) Act 2004; [9602]

(3) how many investigations there have been into second stage processing carried out by Operation Gangmaster since its establishment; [9603]

(4) how many labour providers in second stage processing have been *(a)* investigated, *(b)* arrested and charged and *(c)* convicted for offences under Operation Gangmaster since its establishment. [9604]

**Mr. Plaskitt:** A full evaluation of Operation Gangmaster was completed in April 2004, and operational evaluations are regularly carried out. We have no plans to transfer the responsibility for Operation Gangmaster to the Gangmasters Licensing Authority.

There are no offences directly related to Operation Gangmaster. Any enforcement action is taken under legislation available to participating departments. In the last year three labour providers have been arrested. Two have been charged with facilitation offences but have not yet appeared before the courts. One has been convicted for benefit fraud offences. Operation Gangmaster does not make any distinction between first and second stage processing.

### Housing Benefit

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many claimants have received local housing allowance through pathfinder pilots; and how many of these received the allowance at a protected rate to prevent them receiving a lower amount than under their previous entitlement to housing benefit. [10148]

**Mr. Plaskitt:** As at February 2005, around 44,700 claimants had their benefit assessed under the local housing allowance scheme. Out of these, 1,200 received a protected rate.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions (1) what assessment he has made of whether private sector landlords in the housing benefit pathfinders have reduced the rents which they charge in order *(a)* to secure more tenants and *(b)* to keep existing tenants; and if he will make a statement; [5467]

(2) how many and what percentage of those living in the private rented sector and receiving housing benefit directly have built up arrears in rental payments in the pathfinder areas; [5468]

(3) what assessment he has made of the effects of the introduction of *(a)* local housing allowance and *(b)* direct payments in the housing benefit pathfinder areas on private sector landlords' participation in the market; and if he will make a statement; [5476]

(4) what assessment he has made of whether people moved to housing benefit pathfinder areas to take advantage of local housing allowances; and if he will make a statement. [5479]

**Mr. Plaskitt:** The Department has commissioned a comprehensive, independent evaluation of the local housing allowance (LHA) pathfinders. This will provide information on the impact of the LHA, and the reactions of claimants and landlords to the LHA and direct payments.

The first interim findings of the evaluation are being published over the summer and the results of the final evaluation will be published at the end of next year.

In April we published "Delivering the Local Housing Allowance: A summary of the early experiences of implementing the Local Housing Allowance in the nine Pathfinder areas" reporting on the operational experience after six months of live running of the LHA. A copy is available in the Library.

Further reports and summaries covering the early experiences of claimants and landlords will be published shortly.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions how many and what percentage of housing benefit payments have been made direct to landlords in each of the nine pathfinder areas. [5469]

**Mr. Plaskitt:** Information for housing benefits payments made direct to landlords in each of the nine pathfinder areas is not available. The information is available for local housing allowance claimants only, and is shown in the table.

*Local housing allowance (LHA) payments made direct to landlords in each pathfinder area and as a percentage of LHA payments*

| | *Number* | *Percentage* |
|---|---|---|
| Blackpool | 1,362 | 17 |
| Brighton and Hove | 995 | 12 |
| Conwy | 251 | 13 |
| Coventry | 184 | 5 |
| Edinburgh | 575 | 10 |
| Leeds | 775 | 13 |
| Lewisham | 413 | 11 |
| NE Lincolnshire | 630 | 15 |
| Teignbridge | 125 | 7 |
| All pathfinders | 5,310 | 12 |

*Source:*
DWP administrative data for pathfinder areas. February 2005

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions what impact the introduction of the local housing allowances in the housing benefit pathfinders has had on the average length of time taken to process new claims. [5472]

**Mr. Plaskitt:** Isolating the impact of the local housing allowances on the average length of time taken to process new claims is not possible as processing times are influenced by a number of factors many of which are independent of the local housing allowance.

Average processing times in the private rented sector have been improving in the majority of Pathfinder areas since the introduction of the local housing allowance, as shown in the table.

There has been some reduction in the average processing times for all local authorities in the recent periods compared to the annual average in 2003–04.

*Average processing times for private sector new claims in Pathfinder areas and across all LA's*

*Calendar days*

| | *Private new claim* | |
|---|---|---|
| *Pathfinder area* | *2003–04* | *2004–05* |
| Blackpool | 32 | 26 |
| Brighton and Hove | 35 | 35 |
| Conwy | 44 | 33 |
| Coventry | 63 | 57 |
| Edinburgh | 107 | 90 |
| Leeds | 33 | 80 |
| Lewisham | 54 | 36 |
| North East Lincolnshire | 53 | 36 |
| Teignbridge | 42 | 33 |
| All LAs ( including non-pathfinder) | 58 | 52 |

*Notes:*
1. The reported averages are weighted averages (by new claim workload).
2. The 2003–04 average figures for Pathfinder areas are derived from all four quarters data.
3. The 2004–05 average figures for Pathfinder areas are derived from first three quarters data. Fourth quarter data is not yet available.
4. Leeds recently had problems with its software system which had a negative impact on the processing times for 2004–05.
5. Wherever data is missing, we have used the figures available nearest to that quarter.
6. Private sector claims includes local housing allowance (LHA) and non LHA deregulated claims and regulated new claims (excludes housing association new claims)

*Source:*
DWP administrative data for Pathfinder areas and HBMIS.

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions how the Department intends to increase the quality of communication between claimants, landlords and housing benefit offices in the pathfinders areas. [11701]

**Mr. Plaskitt:** The Department has developed a communications strategy for all Pathfinders which sets out best practices for communication with key stakeholders such as landlords. The strategy includes DWP branded products such as landlord fact sheets and landlord newsletters, which pathfinder local authorities can distribute where appropriate.

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions why local housing allowances cannot be paid via Post Office card accounts. [11699]

**Mr. Plaskitt:** The Post Office card account is a simple account with very limited functions. It was specifically designed to receive payments of benefits and pensions administered by central Government.

Local housing allowance is paid by local authorities. The customer is responsible for paying rent to their landlord and this may be more or less than the allowance. The Post Office card account does not have

a facility for the account holder to make payments to a third party by standing order, so is not a suitable account to receive payments of local housing allowance.

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions what steps the Department is taking to ensure accountability and impartiality on the part of those who make the final decisions concerning vulnerability requests for local housing allowance. [11700]

**Mr. Plaskitt:** Local authorities develop and use local policies to help determine whether a tenant is capable of taking the responsibility to receive their local housing allowance and to then make the necessary arrangements to pay their rent to the landlord. If following representation from a tenant or someone on their behalf, the local authority decides that direct payments to a tenant are not appropriate the local authority will then pay the eligible rent directly to the landlord. The policies used are based on guidelines produced by the Department and in many cases are developed and operated in conjunction with local advice agencies.

Local authorities make these decisions based on information and evidence produced by the tenant or those working on their behalf. The local authority is accountable for the decisions it makes, which are also subject to appeal.

## Incapacity Benefit

**Jim Cousins:** To ask the Secretary of State for Work and Pensions what the *(a)* notional size and *(b)* relationship to notional incapacity benefit levels of the proposed rehabilitation support and disability support allowances as set out in the estimates and calculations of the future of incapacity benefits consultation paper is. [6320]

**Margaret Hodge:** We intend to publish a Green Paper setting out our proposals for the future of welfare to work support for people with health conditions and disabilities later this year. This will reflect the proposals in the Consultation Paper. However, the structure and rates for any new benefit have not yet been determined.

## Jobseeker's Allowance

**Julie Morgan:** To ask the Secretary of State for Work and Pensions how many people aged over 50 years claimed jobseeker's allowance in financial years *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05; how many of these (i) were eligible for new deal 50 plus and (ii) participated in new deal 50 plus; and what percentage of claimants (A) remained on jobseeker's allowance (B) found work (C) moved onto income support and (D) moved onto incapacity benefit in each case. [7894]

**Mr. Plaskitt:** The information is not available in the form requested. The available information is in the following tables.

*Jobseeker's allowance claimants aged 50 and over by duration of claim*[1]

| | *All claimants* | *Under six months* | *Six months and over*[2] |
|---|---|---|---|
| 2001–02 | 400,100 | 238,200 | 161,900 |
| 2002–03 | 393,200 | 235,600 | 157,600 |
| 2003–04 | 379,600 | 227,100 | 152,600 |
| 2004–05 | 340,700 | 199,100 | 141,600 |

[1] If the claim has ended in the year, age has been calculated at the end of the claim. If the claim is ongoing at the end of the year, age has been calculated at the end of the year.

[2] People who have been claiming jobseeker's allowance for six months or more are eligible for new deal 50 plus. Additionally around 15 per cent. of those people claiming jobseeker's allowance for less than six months may also be eligible for new deal 50 plus as a result of another qualifying benefit claim preceding their jobseeker's allowance claim.

*Notes:*

1. Figures are for Great Britain and are rounded to the nearest 100, totals may not sum due to rounding.
2. Years are defined as 1 March to 28/29 February in each year.
3. A person is only counted once each year regardless of how many times they have flowed on and off jobseeker's allowance in that year, but they may appear in more than one year. The claim with the longest duration within each year has been used.
4. Due to late notification of commencements on the jobseeker's allowance payment system (JSAPS) for the most recent quarter i.e. to the end of February 2005, the total number of claims for 2004–05 can be expected to increase.
5. Durations for claims that have not ended by the end of the relevant financial year have been calculated at that point in time. Due to only having data up to the end of February 2005, the number of claimants in the six months and over category is an underestimate for the 2004–05 year i.e. anyone starting after 1 September 2004 whose claim is still live at the year end has had a duration of less than six months calculated. As more data comes in over the following months the durations of these claims will become over six months.

*Source:*

Department for Work and Pensions Information Directorate. 5 per cent. samples subject to a degree of sampling variation.

*Number of people moving into employment through new deal 50 plus*

| *April to March* | *People claiming employment credit*[1] | *People moving into work through new deal 50 plus*[2] |
|---|---|---|
| 2001–02 | 33,950 | — |
| 2002–03 | 31,080 | — |
| 2003–04 | — | 22,160 |
| 2004–05 | — | 17,070 |

[1] Until April 2003 new deal 50 plus figures were measured in terms of employment credit starts. Those with gross personal income of more than £15,000 a year were not entitled to the employment credit on entering work.

[2] On 6 April 2003 the new deal 50 plus employment credit was replaced by the back to work element of the working tax credit. Figures do not include people claiming the back to work element of working tax credit who have not had assistance from jobcentre plus.

Information Directorate, DWP

## Parliamentary Questions

**David T.C. Davies:** To ask the Secretary of State for Work and Pensions when he will reply to question reference 5234 tabled by the hon. Member for Monmouth on 14 June. [10319]

**Mr. Plaskitt:** A reply was given to the hon. Member on 6 July 2005, *Official Report*, column 483W.

### Pathways to Work Pilots

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions if he will list the reports that *(a)* have been and *(b)* are scheduled to be published as part of the evaluation of the Pathways to Work pilots. [10137]

**Margaret Hodge:** The Department has published the following reports as part of the evaluation of the Pathways to Work pilots.

"Incapacity Benefit Reforms—Early findings from qualitative research", the National Centre for Social Research, DWP report no. 202 (published September 2004). "Incapacity Benefit Reforms—The Personal Adviser Role and Practices", the National Centre for Social Research, DWP report no. 212 (published November 2004). "IB Reforms Pilot: Findings from a longitudinal panel of clients", Social Policy Research Unit, DWP report no. 259 (published 7 July 2005).

These reports are available in the Library.

The Department is scheduled to publish another report in September 2005:

"Incapacity Benefit Reforms—The Personal Adviser Role and Practices—stage 2", the National Centre for Social Research.

The programme of evaluation continues through until 2008. Further reports will be published in the DWP research series.

### Pension Protection Fund

**Richard Burden:** To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of Pension Protection Fund regulations on the incomes of members of schemes affected who have taken early retirement. [9107]

**Mr. Timms:** The Pension Protection Fund provides 90 per cent. level of compensation for those members who, immediately before the assessment date, are under the scheme's normal pension age. This includes early retirees. However, those members who took early retirement, but have then reached the scheme's normal pension age before the assessment date, will receive 100 per cent. level of compensation.

The compensation cap applies to all members who receive 90 per cent. level of compensation. The compensation cap is age related and is currently £27,777.78 at age 65 (effectively £25,000 at 90 per cent. level). The compensation cap is adjusted, according to age, in accordance with actuarial factors published by the Board of the PPF.

We have based this split on those over and under the scheme's normal pension age because we believe those over that age are less likely to be able to make good or cope with a sudden reduction in income. We also considered it would be unfair if, for example, two members of the same age (e.g. 58 years) received different levels of compensation simply because one member chose to take early retirement while the other chose to continue to work.

The compensation members receive from the PPF may not be equivalent to the pension they may have been expecting to receive from the scheme. However, it is important to remember that PPF compensation is effectively an emergency backstop that only takes effect when the scheme's sponsoring employer or employers have become insolvent and when the scheme itself can not afford to pay benefits at the same level as the PPF.

It is also true that in previous years should a pension scheme have to wind up underfunded the scheme's current pensioners had first claim to the assets of the scheme. This was advantageous to pensioners but in some cases led to all other members of the scheme (including those just a few years or even months from retirement) losing almost all of their pension. This was a situation that became worse the more a scheme was in deficit when it was wound up. This was frequently criticised and perceived as unfair.

We believe the PPF levels of compensation strike the right balance between the amount of compensation payable and the amount that would be required to be paid into the PPF via the levies. In total, more money will be paid out by the PPF than could have been paid by the scheme.

There are two groups of individuals who, regardless of age, are not subject to the 90 per cent. compensation level; individuals who, before the assessment date, are already in receipt of a survivors' pension and those in receipt of an early pension on the grounds of ill health.

### Pension Service/Benefits Agency

**Mrs. James:** To ask the Secretary of State for Work and Pensions what recent assessment has been made of customer service performance at the Swansea Pension Service Centre; and if he will make a statement. [11399]

**Mr. Timms:** The most recent assessment of customer service at Swansea pension centre, in May 2005, found that over 95 per cent. of customers contacted as part of a monthly survey were either satisfied or very satisfied with the service they had received.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many open days have been held in the last 12 months for staff and volunteers of independent advice services providing assistance to claimants by *(a)* the Benefits Agency and *(b)* the Pensions Service; how many people have attended such open days; and if he will make a statement on (i) feedback received and (ii) resultant action. [10270]

**Mr. Timms:** Jobcentre Plus, which brought together the Benefits Agency and the Employment Service in 2002, conducts approximately 1,560 open days over a 12 month period. These vary widely in size and target audience but are all aimed at getting people back to work, either by helping them look for the right types of employment or to provide the more practical help they may need when finding a job. Local service teams of the Pension Service have attended a number of local events with staff and volunteers from independent advice services, aimed at maximising take-up of benefits and services for older people. Detailed information on the number of open days held by Jobcentre Plus or the Pension Service, the number of people attending and feedback obtained is not held centrally.

### Pensioners/Benefits

**Julie Morgan:** To ask the Secretary of State for Work and Pensions what the cost has been to public funds of

*(a)* the winter fuel payment, *(b)* free TV licences for the over 75s, *(c)* the pension credit and *(d)* increases in the state pension was in each year since 1997–98. [10316]

**Mr. Timms:** The information is in the table[1, 2]

[1] Figures for *(a)*, *(c)* and *(d)* are for Great Britain. Figures for *(b)* are for the United Kingdom. With the exception of free TV licences for the over-75s, benefit expenditure in Northern Ireland is the responsibility of the Northern Ireland Social Security Agency.

[2] Figures are rounded to the nearest million.

*£ million, cash terms*[1]

| | *(a) Winter fuel payment*[2] | *(b) Free TV licences for the over-75s* | *(c) Pension credit*[3] | *(d) Increases in the state pension*[4, 5, 6] |
|---|---|---|---|---|
| 1997–98 | 191 | — | 3,773 | — |
| 1998–99 | 194 | — | 3,619 | — |
| 1999–2000 | 759 | — | 3,781 | — |
| 2000–01 | 1,749 | 306 | 4,095 | — |
| 2001–02 | 1,681 | 365 | 4,486 | 1,294 |
| 2002–03 | 1,705 | 374 | 4,484 | 2,199 |
| 2003–04 | 1,935 | 405 | 4,935 | 2,622 |
| 2004–05 | 1,953 | 427 | 6,051 | 2,732 |

[1] Includes £100 over-80s payment from 2003–04.

[2] 1997–99—income support for pensioners; 1999 to 2000 October 2003—[3] Figures are calculated by comparing what would have happened if basic state pension had been increased in line with the retail prices index since 1997 with what actually happened.

[4] Expenditure on state pensions will have risen for other reasons including a growing population, improved contributions records and the gradual maturing of past policy changes. These effects are not included in the figures as they would have occurred had 1997 policies been continued.

[5] Additional spending on the state second pension over the period, other than due to factors given under 6 above, is negligible.

[6] Benefit expenditure information is published on the internet at http://www.dwp.gov.uk/asd/asd4/expenditure.asp

*Sources:*

*(a)*, *(b)* and *(c)*: DWP benefit expenditure tables, Budget 2005; *(d)* basic state pension forecasting model. The figure for 2003–04 free TV licences for the over-75s, shown in the table, is a revised one subsequent to Budget 2005 DWP benefit expenditure information being published.

**Mr. McFadden:** To ask the Secretary of State for Work and Pensions how many state retirement pensioners there are in Wolverhampton, South-East; and what percentage this is of the total electorate in the constituency. [10993]

**Mr. Timms:** As at 31 September 2004, there were 13,100 recipients of the state pension in the Wolverhampton, South-East parliamentary constituency of whom 5,100 were males and 8,000 were females. This represents around 24 per cent. of the electorate.

*Notes:*

1. Recipient figures are taken from a 5 per cent. sample and are therefore subject to a high degree of sampling variation.

2. Parliamentary constituencies are assigned by matching postcodes against the relevant Office for National Statistics postcode directory.

*Sources:*

1. Number of recipients—IAD Information Centre, 5 per cent. sample as at September 2004.

2. 2005 electoral data—Wolverhampton city council's website.

**Mr. Hood:** To ask the Secretary of State for Work and Pensions how many people in the Lanark and Hamilton East constituency received a state pension in 2005; and if he will make a statement. [10059]

**Mr. Timms:** As the Lanark and Hamilton East constituency came into being at the last general election, statistical information on benefit entitlements of its constituents is not yet available.

**Julie Morgan:** To ask the Secretary of State for Work and Pensions by how much the state pension has risen in each financial year since 1997–98. [10313]

**Mr. Timms:** The information is in the following table:

| *Uprating date (April each year)* | *Standard rate of basic state pension (£)* | *Basic state pension percentage increase on previous year* | *Additional state pension percentage increase on previous year* |
|---|---|---|---|
| 1997 | 62.45 | 2.1 | 2.1 |
| 1998 | 64.70 | 3.6 | 3.6 |
| 1999 | 66.75 | 3.2 | 3.2 |
| 2000 | 67.50 | 1.1 | 1.1 |
| 2001 | 72.50 | 7.4 | 3.3 |
| 2002 | 75.50 | 4.1 | 1.7 |
| 2003 | 77.45 | 2.6 | 1.7 |
| 2004 | 79.60 | 2.8 | 2.8 |
| 2005 | 82.05 | 3.1 | 3.1 |

*Note:*

Increases in the rate of the basic state pension are rounded to the nearest 5 pence.

## Pensions

**Mrs. Riordan:** To ask the Secretary of State for Work and Pensions if he will make a statement on the discussions he has had with trade unions on public sector workers' pensions; and if he will make a statement. [9388]

**Mr. Timms:** My right hon. Friend has had no discussions with trade unions about public service pensions. Negotiations on public sector pensions are a matter for my right hon. Friends the Chancellor of the Duchy of Lancaster, the Chief Secretary to the Treasury and the Secretary of State for Trade and Industry.

**Mrs. Spelman:** To ask the Secretary of State for Work and Pensions how much money has been saved in each year since 2001 through starting retirement pension payday on the Monday after a person's birthday rather than on the birthday itself; and if he will make a statement. [11725]

**Mr. Timms:** There have been no overall savings under the current regulations which provide for the payment of state pension in whole weeks at the start and end of a claim.

If payment were to have been made for part weeks at the start of a claim only, and there had been no recovery of overpaid benefit at the end of a claim, we estimate additional expenditure of up to £20 million would have been incurred in each year since 2001.

## Regulated Tenancies

**Ms Gisela Stuart:** To ask the Secretary of State for Work and Pensions whether local housing allowance *(a)* applies and *(b)* is planned to apply to regulated tenancies. [10945]

**Mr. Plaskitt:** The local housing allowance currently applies only to claimants in the deregulated private sector. We have no plans to include regulated tenancies in the scheme.

### Return to Work

**Mr. Amess:** To ask the Secretary of State for Work and Pensions what steps he is taking to encourage *(a)* unemployed people and *(b)* people on income support to return to work; and if he will make a statement. [10476]

**Mr. Plaskitt:** Since 1997 the Government's priority has been to tackle the scourge of unemployment, inactivity and poverty through investment in, and reform of, the welfare state. The UK now has one of the strongest labour markets in the world, with the best combination of employment and unemployment of the major world economies. More people are moving from welfare back into work with employment up almost 200,000 in the last year and by over 2 million since 1997. With more people in jobs than ever before, we now spend £5 billion less on unemployment benefits than we did in 1997.

A central part of our strategy is to ensure that work pays, establishing a real incentive for people to move off benefit and into work.

The national minimum wage was introduced in April 1999 as part of our overall strategy, establishing minimum standards of pay in the labour market. In October 2004 the minimum wage was increased from £4.50 per hour to £4.85 for workers aged 22 and over and from £3.80 per hour to £4.10 per hour for people aged 18–21 inclusive.

Building on the success of working families' tax credit (WFTC), disabled person's tax credit and the children's tax credit, from April 2003 the Government introduced two new tax credits, the child tax credit (CTC) and the working tax credit (WTC). Entitlement to the tax credits is based on the particular circumstances of an individual or family.

The adviser discretion fund was introduced in July 2001, giving jobcentre plus advisers direct access to funds to remove immediate barriers to employment and thus help people move quickly into work. In addition, from October 2003, access to the fund was further extended to all incapacity benefit customers in Pathways to Work pilot areas from the first day of their claim.

Job grant was also introduced in October 2004 to help people manage until they receive their first wages. It replaced both the lone parents run-on and the original job grant schemes.

Additionally the housing benefit and council tax benefit extended payments allow maximum housing benefit and council tax benefit to continue for the first four weeks after starting work. Help with mortgage interest in the first four weeks of employment may also be available through mortgage interest run-on in the income-related benefits.

Today, Britain is working again. We are transforming the welfare state from a passive one-size-fits-all model to an active system that delivers both rights and responsibilities, tailoring help to the individual and providing the support and incentives people need to move from welfare and into work.

### Tax Credit (Overpayments)

**Jim Cousins:** To ask the Secretary of State for Work and Pensions how many adjustments of *(a)* council tax benefit and *(b)* housing benefit payments have resulted from corrected overpayments of tax credit; and what research is being carried out on (i) the number, (ii) costs and (iii) effects of such adjustments. [6326]

**Mr. Plaskitt:** It is the actual amount of a tax credit award that is in payment that is taken into account when assessing entitlement to housing benefit and council tax benefit. There is, therefore, no retrospective reassessment of those benefits because a tax credit award has been overpaid during a past period.

The housing benefit or council tax benefit claim does, however, need to be reassessed if the amount of a tax credit changes because, for example, of an overpayment of the tax credit. This is to ensure that housing benefit or council tax benefit takes account of the actual amount of tax credit in payment.

No assessment has been made of the cost implications to local authorities of readjusting payments of housing benefit or council tax benefit because of the correction of an overpaid tax credit award. This is because such a change is only one of many that may mean a housing benefit or council tax benefit claim needs to be reassessed. However, local authorities have received additional administration subsidy in recognition of the ongoing costs to local authorities of administering claims which include tax credits.

# Written Answers to Questions

*Monday 18 July 2005*

## LEADER OF THE HOUSE

### New Members

**Chris Huhne:** To ask the Leader of the House if he will co-ordinate a series of Tuesday morning briefings for new hon. Members by each principal Government Department on its work, with the exception of the Foreign and Commonwealth Office. [12558]

**Mr. Hoon:** My right hon. Friends would obviously be more than happy to arrange briefing meetings at mutually convenient times with any new hon. Members on the work of their Department.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### GM Food

**Mr. Meacher:** To ask the Secretary of State for Environment, Food and Rural Affairs what help the UK Government plans to provide to *(a)* farmers and *(b)* milk retailers to ensure adequate supplies of important non-GM animal food. [11831]

**Mr. Morley:** The Government have no plans to provide specific help to farmers or milk retailers to ensure adequate supplies of imported non-GM feed for animals. This is a matter of choice, not safety, and market forces will operate to deliver feed derived from non-GM sources if there is sufficient demand from farmers and retailers. Legislation is already in place to ensure that animal feed derived from GM crops is labelled to enable farmers to make appropriate choices.

### Methane Energy

**Paul Flynn:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the amount of energy that will be generated from methane from *(a)* waste sites, *(b)* coal mines and *(c)* other sources in each of the next three years. [11318]

**Mr. Morley:** Estimates for energy generated from methane sources for the next three years are shown as thousand tonnes of oil equivalent (kTOE) in the following table:

| *Methane source* | *2006* | *2007* | *2008* |
|---|---|---|---|
| Operating deep mines | 18 | 17 | 14 |
| Abandoned mines | 30 | 43 | 45 |
| Landfill gas (electricity) | 1,338 | 1,441 | 1,545 |
| Landfill gas (heat) | 14 | 14 | 14 |
| Sewage gas (electricity) | 170 | 178 | 187 |
| Sewage gas (heat) | 64 | 72 | 79 |
| Anerobic digestion on farms | minimal | minimal | minimal |

*Notes:*
1. Estimates from coal mines are based on current generation and projections for mine closures. Number of mines generating is less than number of mines open.
2. Estimates of energy generation from landfill and sewage gas are derived by linear interpolation, consistent with the most recent projections published by the Department of Trade and Industry for 2005 and 2010.
3. The number of digesters currently used for anaerobic digestion on farms in the UK is thought to be very small.

### Nappies

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to date of the Environment Agency's Life Cycle Assessment on reusable and disposable nappies is; what estimate has been made of the cost of the further proposed LCA; when she expects the further LCA to be completed; and who will carry out the work. [11685]

**Mr. Bradshaw:** The cost of the Environment Agency's Life Cycle Assessment was £200,000, which, as well as the consultant and survey costs, includes Agency staff time.

The scope of the further work is currently being discussed with the Environment Agency and the Waste and Resources Action Programme (WRAP). Until this is determined in detail then it is not possible to determine the cost and who will carry out the work.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures she has put in place for assessing the *(a)* environmental and *(b)* economic effects of the WRAP Real Nappy Programme; and whether it will be (i) independently audited and (ii) made publicly available. [11717]

**Mr. Bradshaw:** From a waste management perspective, Government's view is that use of real nappies will help the UK to meet tough EU Landfill Directive targets, which are designed to reduce environmental damage and improve resource productivity by reducing reliance on landfill.

The Environment Agency's recently published Life Cycle Assessment has helped to provide an understanding of the environmental impact of disposables and the traditional type of re-usable nappy. The main conclusion of the study is that the overall environmental impact of disposable and reusable nappies is similar.

The study, carried out in 2002–03, showed that terry (towelling) nappies were the main type of reusable nappy used. However, this does not reflect recent increases in the proportion of other types of reusable nappies. Further work will be undertaken to look at the environmental impacts of more modern reusables.

WRAP reports annually on its overall progress in meeting targets, including work under the Real Nappy Programme. Future assessments will be based, for example, on information from funded schemes and from opinion research to be conducted at the end of the year.

### Poultry Industry

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what her policy

is in respect of the draft EU Directive on the welfare of broiler chickens, with particular reference to minimum space allocations per bird. [5886]

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to reduce the stocking densities of broiler chickens; and if she will make a statement. [6138]

**Mr. Bradshaw:** The European Commission has recently published proposals for a Council Directive laying down minimum rules, including a two-tier stocking density, for the protection of chickens kept for meat production.

The Government are looking forward to working, during the UK's presidency of the EU Council of Ministers, with the Commission and other member states to progress the proposed directive. We will be holding a full public consultation on the proposals shortly.

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the threat to the UK poultry industry from avian flu. [12109]

**Mr. Bradshaw** *[holding answer 14 July 2005]:* If there is an outbreak of disease in an exporting country Defra takes appropriate emergency safeguard action in accordance with Community legislation. This may include a ban on imports of animals and animal products from all, or parts, of that country.

Safeguard measures in relation to Avian influenza (AI) were put in place for affected Asian countries in January 2004 and have since been extended to 30 September 2005. Restrictions were placed on South African imports in August 2004 and have now been extended to 31 December 2005.

The assessment of risk to the UK poultry flock of Avian influenza began in 2004 and is continuously reviewed. When there is an outbreak in a country a specific risk assessment is carried out by DEFRA experts. These assessments are published in the Vet Record Quarterly and also on DEFRA's own public website http://defraweb/animalh/diseases/monitoring/).

In the event of an outbreak of Avian influenza in poultry in this country DEFRA would immediately invoke its exotic animal disease generic contingency plan, which sets out measures for the management of an outbreak of Avian influenza. The plan has been the subject of a formal public consultation exercise, in particular taking on board comments from the UK poultry industry.

## Rainforest

**Mike Penning:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate her Department has made of the loss of rainforest habitat in square miles in each year since 1997; and if she will make a statement. [11741]

**Mr. Morley:** Information on forest loss is published by the Food and Agriculture Organisation of the United Nations. The FAO estimate that the net percentage of forest cover lost worldwide between 1990 and 2000 was 2.37 per cent. This represents an estimated total worldwide loss in forest cover between 1990 and 2000 of 362, 834 miles[2].

This information is only available for all types of forest cover and in set assessment cycles. The last assessment cycle was to 2000, it is not possible to isolate figures from 1997, or just for rainforests.

Please see the table which summarises the current global data available for forest resources by region.

Forest cover date for individual countries may be found in the "Global Forest Resources Assessment 2000 Main Report". This is published by the FAO and is available online via the following web link:http://www.fao.org/forestry/fo/fra/main/index.jsp

*Forest resources by region*

*Note:*
Table taken from appendices to: "Global Forest Resources Assessment 2000—Main Report".

**Mike Penning:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on UK policy towards protection of rainforest habitat. [11742]

**Mr. Morley:** The UK Government are concerned about the loss of rainforest habitats, and we are working with rainforest countries to promote sustainable development around the world. We recognise the efforts of Brazilian and other Governments to address the problems in the Amazon region and are working together to promote sustainable forest management and the implementation of policies on the ground.

To that end, Defra is working closely in conjunction on this issue with the Department for International Development and the Foreign Office.

The UK Government are involved with a number of initiatives. In Brazil the Government have contributed £14 million to the multi-donor pilot programme for the preservation of Brazilian rain forests. In addition the UK is a major contributor to the global environment facility (GEF) that is creating and maintaining protected areas in the region through the Amazon region protected areas programme. The managers of the GEF have approved or endorsed funding for 29 projects in Brazil, with a value of approximately £150 million.

The UK continues to support projects in the Amazon through multilateral organisations, including the European Commission and the World Bank.

The UK Government also recognises the role that trade can play in promoting sustainable rainforest management. Within the EU Britain is taking a leading role in championing an action plan on forest law enforcement, Governance and trade, which is aimed at combating illegal logging and international trade in illegally harvested timber. And since 1976 Britain has been a signatory to the Washington Convention on International Trade in Endangered Species.

## Recycling

**Mr. Burstow:** To ask the Secretary of State for Environment, Food and Rural Affairs how much and what percentage of domestic waste was recycled in each London borough in each of the last five years. [11358]

**Mr. Bradshaw:** Results from the last five available years of tonnages of household waste collected for recycling and corresponding household waste recycling rates are from the joint Defra/Greater London Authority (GLA) Municipal Waste Management Survey.

The four London joint waste disposal authorities have been included in the following table:

| | *1999–2000* | | *2000–01* | |
|---|---|---|---|---|
| *London authority* | *Recycling (tonnage)* | *Recycling rate (percentage)* | *Recycling (tonnage)* | *Recycling rate (percentage)* |
| Barking and Dagenham | 2,226 | 3 | 2,532 | 4 |
| Barnet | 10,245 | 8 | 10,332 | 8 |
| Bexley | 18,398 | 18 | 18,305 | 17 |
| Brent | 6,165 | 6 | 7,122 | 7 |

n/a = not available

Further details regarding London waste and recycling issues are obtainable from www.capitalwastefacts.com.

**David Davis:** To ask the Secretary of State for Environment, Food and Rural Affairs how many recycling points there are in *(a)* the East Riding of Yorkshire council and *(b)* Kingston-upon-Hull city council per 1,000 population. [11542]

**Mr. Bradshaw:** Results from the 2003–04 Defra Municipal Waste Management Survey are listed as follows.

| | *(a) East Riding of Yorkshire* | *(b) Kingston-upon-Hull city council* |
|---|---|---|
| Recycling sites | 124 | 52 |
| Civic amenity sites | 10 | 1 |
| Total sites | 134 | 53 |
| Recycling sites per 1,000 population | 1.0 | 0.5 |

## Water Resources

**Lynne Featherstone:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 20 June 2005, *Official Report*, column 674W, on the Water Resources Treatment and Action Programme, if she will place in the Library her Department's response to the European Commission investigation into UK compliance with the provisions under Article 3(1) and Annex 1A and Articles 5(2), 5(3), 10 and Annex 1B of Council Directive 91/271/EEC concerning urban waste water treatment. [7663]

**Mr. Morley:** Following careful consideration, I regret to inform you that we have decided not to place a copy of the response in the Library of the House.

The information is being withheld as the Department considers its disclosure would have an adverse effect on international relations between the UK and the Commission and on the course of justice. This is because the information relates to open infraction proceedings and ongoing investigations. For the same reasons disclosure would not be in the public interest at this stage of the proceedings.

**Dr. Kumar:** To ask the Secretary of State for Environment, Food and Rural Affairs what long-term measures the Department is taking to tackle water shortages; and if she will make a statement. [11335]

**Mr. Morley:** The Environment Agency is the statutory body with a duty to manage water resources in England and Wales. As part of the Agency's management role it has national and regional water resource strategies which set out the pressures over the next 25 years.

Water companies have duties to maintain adequate supplies of water. They have 25 year water resource plans which complement the Agency strategies and seek to reconcile supply with anticipated demand. These water resource plans are produced voluntarily at present but will become a statutory requirement under the provisions of the Water Act 2003.

Each water company also has a drought plan which sets out how the company will continue to meet its duties to supply adequate quantities of wholesome water during drought periods with as little recourse as possible to drought orders and permits. These too are produced voluntarily at present but will become a statutory requirement as part of the implementation of the Water Act 2003 later this year.

## TRANSPORT

### Advertising

**David T.C. Davies:** To ask the Secretary of State for Transport how much the Department spent on advertising in each of the last five years. [10237]

**Ms Buck:** For details on the Department's advertising expenditure for the past three financial years, I refer the hon. Member to my reply to the hon. Member for Sutton and Cheam (Mr. Burstow) today (UIN 9498).

Figures for advertising expenditure for the prior two financial years could be provided only at disproportionate cost, due to departmental re-organisations.

**Mr. Burstow:** To ask the Secretary of State for Transport how much the *(a)* Department and *(b)* non-departmental bodies for which the Department is responsible has spent on advertising in the last three years, broken down by media type. [9498]

**Ms Buck:** The requested figures are set out in the table. The majority of advertising investment by my Department is in support of the THINK! road safety campaign. Among non-departmental bodies for which the Department is responsible, major advertising investment has been by the Driver and Vehicle Licensing Agency, most recently to explain changes to the car tax rules. These changes have resulted in 700,000 fewer unlicensed vehicles on our roads and have recovered £77 million of tax revenue.

### Carbon Dioxide Emissions

**Tom Brake:** To ask the Secretary of State for Transport (1) what assessment has been made of carbon dioxide emissions from traffic on the *(a)* A66/A174/A1053 Darlington to Teesport, *(b)* A69 (Newcastle to Carlisle), *(c)* A69 Carlisle to Newcastle, *(d)* M1 Junction 30 to end (A1) and M62 and *(e)* M1 Lofthouse to Bramham link road in the last year for which figures are available before construction works began; how many accidents occurred on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8756]

(2) what assessment has been made of carbon dioxide emissions from traffic on the *(a)* M1/M10 (London to M6, Junction 19), *(b)* M11 London to Cambridge, *(c)* M18 Goole to Rotherham, *(d)* M180 Thorne to Brigg and *(e)* M2 Junctions 5–6 to Bredgar Section in the last year for which figures are available before construction works began; how many accidents occurred on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely future levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8758]

(3) what assessment has been made of carbon dioxide emissions from traffic on the *(a)* A46 Leicester to Lincoln, *(b)* A47 Thorney Bypass, *(c)* A47/A12 Peterborough to Lowestoft, *(d)* A5 Weeford to Fazeley Improvement and *(e)* A5/A483/A458 Shrewsbury to Chester to Welshpool in the last year for which figures are available before construction works began; how many accidents occurred on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of the likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8762]

(4) what assessment has been made of carbon dioxide emissions from traffic on the *(a)* A50 from A6 Island to Main Street, *(b)* A50 Stoke to Derby link, *(c)* A50/A500 Nottingham to Stoke, *(d)* A500 City Road and Stoke Junction Improvement and *(e)* A556 Knutsford to Bowdon in the last year for which figures are available before construction works began; how many accidents occurred on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of the likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8764]

(5) what assessment has been made of carbon dioxide emissions from traffic on the *(a)* M20 Junction 10 Improvement, *(b)* M23 Hooley Junction Improvement, *(c)* M25 Heathrow Terminal 5, *(d)* M25 Junctions 12 to 15 widening and *(e)* M25 to Dover—M26/M20/A20 in the last year for which figures are available before construction works began; how many accidents occurred on each stretch of road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of the likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8766]

(6) what assessment has been made of carbon dioxide emissions from traffic on the *(a)* A66 Carkin Moor to Scotch Corner Improvement, *(b)* A66 Dualling Bowes Bypass, *(c)* A66 Dualling Cross Lanes to Greta Bridge, *(d)* A66 Dualling Stephen Bank to Carkin Moor and *(e)* A66 Greta Bridge to Stephen Bank Improvement in the last year for which figures are available; how many accidents occurred on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of the likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8767]

(7) what assessment has been made of carbon dioxide emissions from traffic on the *(a)* M62 Junctions 25 to 27 and *(b)* A259(T)/A2070 Hastings to Ashford in the last year for which figures are available before construction works began; how many accidents occurred on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of the likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed; [8769]

(8) what assessment he has made of carbon dioxide emissions from traffic on the *(a)* A34 Bicester to Winchester, *(b)* A38 Burton Bypass, *(c)* A419 Swindon to Gloucester, *(d)* A421 Great Barford Bypass and *(e)* A43/A45 (M40 Bicester to A14 Thrapston) in the last year for which figures are available before construction works began; how many accidents occurred on each road in that year; how many resulted in (i) fatalities and (ii) serious injuries; what forecast has been made of likely levels after construction works are completed; and when each scheme is due to (A) begin and (B) be completed. [8771]

**Dr. Ladyman:** A table has been placed in the Libraries of the House showing emission estimates for the Highways Agency road schemes where data is available.

A table has been placed in the Libraries of the House showing, for the Highways Agency road schemes where data is available, how many accidents occurred on each road in that year; how many fatalities and serious injuries occurred; and when each scheme is due to begin and be completed.

**Bob Spink:** To ask the Secretary of State for Transport what assessment he has made of carbon dioxide emissions from traffic on the *(a)* A13 between the M25 and Southend, *(b)* A127 between the M25 and Southend and *(c)* A130 from the A127 to its end on Canvey Island. [10948]

**Dr. Ladyman:** No such assessment has been made.

**Mark Durkan:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the UK's carbon dioxide reduction targets; and what her policy is on *(a)* disaggregating the targets between devolved regions of the UK and *(b)* devolving responsibility for meeting those targets to the devolved regions. [11310]

**Mr. Morley:** Estimates that were published in March 2005 show that the UK is on course to meet its Kyoto protocol commitment to reduce emissions of a basket of six greenhouse gases, including carbon dioxide, by 12.5 per cent. Below base level years by 2008–12. The data released in March also indicates that, even without the further action currently being considered under the review of the UK Climate Change Programme, the UK will be about 20 per cent. below base year levels in 2010. This is a significant achievement.

The UK have set itself an ambitious domestic goal to reduce carbon dioxide emissions by 20 per cent. below 1990 levels by 2010. Our most recent projections show that, on the basis of existing policies, emissions of carbon dioxide will fall by about 13 per cent. below the 1990 level by 2010. We therefore recognise that more needs to be done. Our review of the UK Climate Change Programme is examining how existing policies are performing and is considering additional measures that we could implement to put the UK back on track to achieving the domestic goal. The outcome of this review will be announced before the end of the year.

Many of the means by which emissions can be reduced have been devolved to the Scottish, Welsh and Northern Irish administrations, but the UK Government maintain overall responsibility for the Kyoto target and for ensuring that a programme is put in place for delivering it. The devolution legislation do contain powers that could be used to bind the administrations to the UK's international target but the Government do not propose to use these powers because it is confident that significant reductions can be, and are being, delivered through working in partnership.

The Scottish, Welsh and Northern Irish administrations are also committed to the UK's domestic carbon dioxide goal. The nature of the 20 per cent. goal is different, in that it is not a legally binding target, and the UK Government and the administrations aim to achieve it through a balanced, partnership approach rather than through a set of quantified, contributions from the different parts of the UK.

## Concessionary Travel

**Sarah Teather:** To ask the Secretary of State for Transport what estimate he has made of the cost of extending free travel to carers of people with disabilities. [12240]

**Ms Buck:** None. Local authorities will remain able to offer concessions to carers of people with disabilities. This will continue to be at their discretion, based on their judgment of local needs and circumstances and their overall financial priorities.

**Jim Cousins:** To ask the Secretary of State for Transport what factors were used to calculate the distribution of Government support for the half-fare concession for the over-60s; and if he will place in the Library the assessment of each relevant authority against those factors. [9874]

**Mr. Woolas:** I have been asked to reply.

The Government provides funding for concessionary fares through the Revenue Support Grant system.

Concessionary fares is one of the services covered in the district-level Environmental, Protective and Cultural Services Formula Spending Share formula. This formula looks at the relative need to spend by authorities on all services covered by the formula. It is not possible to disaggregate this formula.

Formula Spending Shares are neither the Government's assessment of how much an authority should spend on a particular service nor are they grant. Instead they are simply the formulae used to derive the amount of Formula Grant (i.e. Revenue Support Grant, Redistributed Business Rates and Police Grant, where appropriate).

Formula Grant supports authorities over a wide-range of services. It is not intended to entirely support any of those services as authorities can also raise income from council taxes. It is therefore not possible to work out how much grant an authority received with respect to concessionary fares.

Details of the 2005–06 calculations of formula grant are already available in the Library of the House.

### Consultants

**Mrs. Dean:** To ask the Secretary of State for Transport what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7030]

**Ms Buck:** I refer my hon. Friend to the answer of 27 June 2005, *Official Report*, column 1286W, given by my hon. Friend the Chief Secretary to the Treasury.

### Crossrail (Exeter and Plymouth)

**Linda Gilroy:** To ask the Secretary of State for Transport what assessment he has made of the potential impact of Crossrail on *(a)* reliability and *(b)* speed of train services to Exeter and Plymouth. [12983]

**Derek Twigg:** During normal operations on the great western main line into Paddington, Crossrail will operate on the northern pair of tracks, known as the relief lines. Crossrail services will not affect the southern pair of lines, known as the main lines, on which services to Exeter and Plymouth operate, and there is no intention of displacing existing traffic from the relief to the main lines.

### Departmental Bills

**Mr. Amess:** To ask the Secretary of State for Transport what Bills have been sponsored by his Department in each session since 1979. [10391]

**Ms Buck:** The Department for Transport was formed on 29 May 2002 since when it has been responsible for the following Bills:

*Session 2002–03*

Railways and Transport Safety Act 2003

*Session 2003–04*

Traffic Management Act 2004

*Session 2004–05*

Railways Act 2005

Road Safety Bill

Crossrail Bill

*Session 2005–06*

Road Safety Bill *[Lords]*;

Merchant Shipping [Pollution] Bill *[Lords]*;

Civil Aviation Bill;

Crossrail Bill

### Departmental Targets

**Mr. Amess:** To ask the Secretary of State for Transport if he will list the targets that each Executive Agency his Department is responsible for has set for itself during the next 12 months. [12270]

**Ms Buck:** Targets set by the Highways Agency are published in its business plan. The Maritime and Coastguard Agency's targets are published on its website. Targets for the Driver, Vehicle and Operator (DVO) Group Agencies are published in the DVO Group's Corporate Plan, which can be found on the Department's website.

### EU Contractors

**Mr. Davidson:** To ask the Secretary of State for Transport if he will list companies based in other EU member states that are providing *(a)* bus services, *(b)* train services, *(c)* maintenance services to Network Rail, *(d)* London Underground services and *(e)* London Underground maintenance services. [9367]

**Dr. Ladyman:** None.

### Foreign Hauliers

**Harry Cohen:** To ask the Secretary of State for Transport if he will make a statement on changes to charges imposed on foreign hauliers using UK roads. [11408]

**Dr. Ladyman:** I refer the hon. Gentleman to the statement made by my right hon. Friend the Secretary of State to the House on 5 July 2005, *Official Report*, columns 171–73.

### International Car Free Day

**Colin Challen:** To ask the Secretary of State for Transport what steps his Department is taking to support International Car Free Day on 22 September. [12105]

**Ms Buck** *[holding answer 14 July 2005]:* The Department sponsors the UK Co-ordinator of the "In Town, Without My Car!" campaign to oversee the process by which local authorities in England and Wales register to participate in International Car Free Day.

Each local authority have been sent a newsletter and information about European Mobility Week which will take place between 16 and 22 September and they have been invited to register to participate in the event.

Regional workshops are being held and information disseminated via the DFT website linked to the campaign. A Good Practice Guide is also available free of charge to members of the public.

The results of the campaign are registered on the website of www.22september.org and are used to monitor progress and the effectiveness of individual initiatives.

### Road Accidents (Horses)

**Mr. Gordon Prentice:** To ask the Secretary of State for Transport how many road accidents involving horses occurred in each year since 2000. [13060]

**Dr. Ladyman:** The numbers of personal injury road accidents in Great Britain involving at least one ridden horse are shown in the following table.

| | Fatal accidents | Serious accidents | Slight accidents | All personal injury accidents |
|---|---|---|---|---|
| 2000 | 2 | 29 | 121 | 152 |
| 2001 | 4 | 19 | 130 | 153 |
| 2002 | 1 | 25 | 123 | 149 |
| 2003 | 4 | 34 | 115 | 153 |
| 2004 | 2 | 30 | 106 | 138 |

### Tonnage Tax

**Mr. Hancock:** To ask the Secretary of State for Transport pursuant to the answer of 11 July 2005, *Official Report*, column 677W, on tonnage tax, what the final date is for companies to make returns for the year 2003–04; and what the penalties are for failure to make a return. [12439]

**Dr. Ladyman:** Regulations provide that companies/groups should make end of period adjustment returns within 30 days after the end of each relevant four month period. The returns for the last such period in 2003–04 should therefore have been made by the end of October 2004. A person commits an offence if, without reasonable excuse, he fails to make a return required by the regulations, and he is liable on summary conviction to a fine up to the statutory maximum and on indictment to a fine.

**Mr. Hancock:** To ask the Secretary of State for Transport pursuant to the answer of 11 July 2005, *Official Report*, columns 676–77W, on tonnage tax, (1) what the names are of the 19 companies and groups involved; what payments were made by each company and group; how the calculation was made in each case; and if he will make a statement; [12440]

(2) what the names are of the companies and groups which have been required to pay a surcharge on their payments in lieu of training; and what payments have been made by each. [12443]

**Dr. Ladyman:** Disclosure of the names of the companies and groups concerned is prohibited on tax confidentiality grounds under section 182 of the Finance Act 1989.

### Traffic

**Tom Brake:** To ask the Secretary of State for Transport (1) what the traffic levels were on the *(a)* M1/M10 (London to M6, Junction 19), *(b)* M11 London to Cambridge, *(c)* M18 Goole to Rotherham, *(d)* M180 Thorne to Brigg and *(e)* M2 Junctions 5–6 to Bredgar Section in the last year for which figures are available before construction works began; and what forecast has been made of likely levels after construction works are completed; [8757]

(2) what the traffic levels were on the *(a)* M20 Junction 10 Improvement, *(b)* M23 Hooley Junction Improvement, *(c)* M25 Heathrow Terminal 5, *(d)* M25 Junction 12 to 15 Widening and *(e)* M25 to Dover—M26/M20/A20 in the last year for which figures are available before construction works began; and what forecast has been made of likely levels after construction works are completed; [8759]

(3) what the traffic levels were on the *(a)* A46 Leicester to Lincoln, *(b)* A47 Thorney Bypass, *(c)* A47/A12 Peterborough to Lowestoft, *(d)* A5 Weeford to Fazeley Improvement and *(e)* A5/A483/A458 Shrewsbury to Chester to Welshpool in the last year for which figures are available before construction works began; and what forecast has been made of the likely levels after construction works are completed; [8761]

(4) what the traffic levels were on the *(a)* A50 from A6 Island to Main Street, *(b)* A50 Stoke to Derby link, *(c)* A50/A500 Nottingham to Stoke, *(d)* A500 City Road and Stoke Junction Improvement and *(e)* A556 Knutsford to Bowdon in the last year for which figures are available before construction works began; and what forecast has been made of the likely levels after construction works are completed; [8763]

(5) what the traffic levels were on the *(a)* A66/A174/A1053 Darlington to Teesport, *(b)* A69 Newcastle to Carlisle, *(c)* A69 Carlisle to Newcastle, *(d)* M1 Junction 30 to end (A1) and M621 and *(e)* M1 Lofthouse to Bramham link road in the last year for which figures are available before construction works began; and what forecast has been made of the likely levels after construction works are completed; [8765]

(6) what the traffic levels were on the *(a)* M62 Junctions 25 to 27 and *(b)* A259(T)/A2070 Hastings to Ashford in the last year for which figures are available; and what forecast has been made of the likely levels after construction works are completed; [8768]

(7) what the traffic levels were on the *(a)* A34 Bicester to Winchester, *(b)* A38 Burton Bypass, *(c)* A419 Swindon to Gloucester, *(d)* A421 Great Barford Bypass and *(e)* A43/A45 (M40 Bicester to A14 Thrapston) in the last year for which figures are available before construction works began; and what forecast has been made of the likely levels after construction works are completed. [8770]

**Dr. Ladyman:** A table has been placed in the Libraries of the House showing traffic levels for the Highways Agency road schemes where data is available.

### Transport (Under-16s)

**Mr. Amess:** To ask the Secretary of State for Transport what the price in *(a)* Essex and *(b)* the Metropolitan Police Area of London was of (i) a bus and (ii) a rail fare for a person under 16 years of age in each year since 1975. [12267]

**Ms Buck:** The information is not available. In general, detailed information on local bus and rail fares is not collected or held centrally. In London, children aged 5 to 10 currently travel free on buses, while those aged 11 to 15 currently pay a single fare rate of 40p.

### Transport Innovation Fund

**Tom Brake:** To ask the Secretary of State for Transport in what document the funding available for local authorities under the Transport Innovation Fund was announced; and where in the document the information is provided. [11824]

**Ms Buck:** The Transport Innovation Fund was announced in the "Future of Transport" White Paper (July 2004), showing the predicted budget profile (annex A) and outlining the aims of the TIF.

Further information on the Transport Innovation Fund was published on 5 July 2005 in a paper entitled "The Transport Innovation Fund" and a statement was made to the House on 5 July 2005, *Official Report*, columns 171–73.

The Transport Innovation Fund paper is available in the House Libraries and on the DfT website at www.dft.gov.uk

### Vehicle Tests

**Mr. Greg Knight:** To ask the Secretary of State for Transport how much of the fee for an MOT vehicle test goes to his Department; what such monies are utilised for; and what assessment he has made of the scope for reducing the amount being charged. [11291]

**Dr. Ladyman** *[holding answer 12 July 2005]:* The Vehicle and Operator Services Agency (VOSA) receive £1.44 from the fee for each passed test. These moneys are used to pay for the administration of the MOT Scheme including training and refresher training of garage Authorised Examiners and Nominated Testers, MOT computerisation and the enforcement of the Scheme.

The VOSA charge for pass certificates is regularly reviewed and is currently frozen pending full roll out of computerised services.

**Mr. Greg Knight:** To ask the Secretary of State for Transport what assessment he has made of the effects of the computerisation of the MOT vehicle test on *(a)* his Department, *(b)* MOT testing stations and *(c)* vehicle owners. [8716]

**Dr. Ladyman** *[holding answer 5 July 2005]:* Internal and external assessments have been conducted throughout the design and development of the MOT computerisation service.

## CABINET OFFICE

### Food Supplements Directive

**Chris Grayling:** To ask the Chancellor of the Duchy of Lancaster what action Ministers in the Cabinet Office have taken with the European Commission as a result of the statement by the Prime Minister on 26 May 2005 that the Food Supplements Directive is wholly out of proportion. [11764]

**Mr. Hutton:** Responsibility for the Food Supplements Directive rests with my right hon. Friend, the Secretary of State for Health. However, the Government believe that in all cases where the European Union (EU) regulates, it should do so proportionately and in the way which is least burdensome to stakeholders. My ministerial colleagues and I take every opportunity to emphasise the importance of better regulation at the EU level to the European Commission.

## CONSTITUTIONAL AFFAIRS

### ASBOs

**Mr. Hollobone:** To ask the Minister of State, Department for Constitutional Affairs if she will bring forward proposals *(a)* to simplify and *(b)* to speed up the enforcement proceedings associated with breaches in antisocial behaviour orders. [9752]

**Ms Harman:** There are no specific proposals to simplify or speed up enforcement proceedings for breaches of antisocial behaviour orders (ASBOs). The courts aim to deal with breaches of ASBOs as quickly as the interests of justice allow.

### Departmental Bills

**Mr. Amess:** To ask the Minister of State, Department for Constitutional Affairs if she will list Bills sponsored by the Department and its predecessor in each Session since 1979. [10545]

**Bridget Prentice:** A list of Bills sponsored by my Department, and its predecessor since 1997 is set out in the following table.

| *Session* | *Bills* |
|---|---|
| 1997–98 | Audit Commission (Consolidation) |
| | Human Rights |
| | Magistrates Courts (Procedure) |
| | Petroleum (Consolidation) |
| | Statute Law Repeals |
| | Supreme Court Offices |
| 1998–99 | Access to Justice |
| | Contracts (Right of Third Parties) |
| | Trustee Delegation |
| 1999–2000 | Powers of Criminal Courts (Sentencing) |
| | Trustee |
| 2000–01 | Commonhold and Leasehold Reform[1] |
| | Criminal Defence Service (Advice and Assistance) |
| 2001–02 | Commonhold and Leasehold Reform |
| | European Parliamentary Elections |
| | Land Registration |
| | Public Trustee (Liability and Fees) |
| 2002–03 | Courts |
| | European Parliamentary (Representation) |
| | European Parliament and Local Elections (Pilots) |
| 2003–04 | European Parliament and Local Elections (Pilots)[2] |
| | Constitutional Reform |
| | Gender Recognition |
| | Mental Capacity |
| | Statute Law Repeals |
| 2004–05 | Criminal Defence Service[1] |
| | Constitutional Reform[3] |
| | Mental Capacity[3] |
| | Inquiries |
| 2005–06 | Criminal Defence Service |

[1] The Commonhold and Leasehold Reform Bill fell in the 2000–2001 session and the Criminal Defence Service Bill fell in the 2004–2005 session due to lack of Parliamentary time.
[2] The European Parliament and Local Elections Bill was carried over from the 2002–03 session.
[3] The Constitutional Reform and Mental Capacity Bills were carried over from the 2003–04 session.

### Burial Grounds

**Mr. Walker:** To ask the Minister of State, Department for Constitutional Affairs (1) what the purpose is of the Home Office Burial Grounds Survey; and if she will make a statement; [12357]

(2) what assessment she has made of the adequacy of cemetery space; and if she will make a statement; [12358]

(3) what budget the Department has set aside to fund its Burial Grounds Survey; and if she will make a statement; [12360]

(4) how many responses she has received to the Home Office Burial Grounds survey; and if she will make a statement. [12400]

**Ms Harman:** The purpose of the survey is to obtain information on the location and capacity of existing and former burial grounds in England and Wales. It is part of a wider Government initiative to review burial law and practice, including the provision of burial space. The cost has been estimated as at £50,000.

As at 13 July, 8,787 completed survey forms have been received.

### Court of Appeal (Judges)

**Mr. Amess:** To ask the Minister of State, Department for Constitutional Affairs who is responsible for allocating judges to hear appeal cases in the Court of Appeal. [10544]

**Ms Harman:** Allocation of judges to hear appeal cases in the Court of Appeal is the responsibility of Lord Chief Justice, in respect of the Criminal Division, and the Master of the Rolls, in respect of the Civil Division.

### Court Service Computer System

**Mr. Greg Knight:** To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the practice in criminal court cases in Lincoln whereby witnesses are sent a text message when they are due in court; whether such a system has reduced the time witnesses spend waiting to give evidence; what effect it has had on witnesses attending on time; and if she will make a statement. [10736]

**Ms Harman:** Text messaging is one of the means by which XHIBIT (exchanging Hearing Information By Internet Technology) can communicate with witnesses. XHIBIT is being rolled out to all Crown courts across England and Wales by the end of March 2006. The new system was introduced at Lincoln Combined Court on 11 April 2005. XHIBIT also enables witnesses to track the progress of a case via public display screens in the court building or via the internet.

At this stage of the roll-out it is too early to make an assessment of the text messaging system and the impact on witness waiting times, that is specific to Lincoln. The results of an evaluation of efficiency improvements at the first 11 courts to receive XHIBIT have been very positive. A similar initial assessment is due to take place at Lincoln in late September.

### Immigration

**Mr. Hancock:** To ask the Minister of State, Department for Constitutional Affairs pursuant to the letter from the Immigrant Appellate Authority, to Bury Law Centre, dated 13 January, reference HX/02411/2003, which issues are repeatedly occurring and causing delays in determining cases; and in respect of which countries. [12416]

**Bridget Prentice:** The Immigration Appeals Tribunal (IAT) developed a system of country guidance cases to facilitate consistent decision making. This enabled the IAT to issue guidance cases on the circumstances and risks to certain groups in particular countries following a detailed assessment of the available country information. The IAT (and now Asylum and Immigration Tribunal (AIT)) nominates leader cases which contain issues consistently seen by Tribunal judiciary. These lead to other cases being identified as containing very similar issues to that of the leader case—known as follower cases—which are heard and determined once the leader case has been promulgated. The number of leader cases currently awaiting determination has caused some delays in listing the follower cases for hearing. There has been some further delay due to the commencement of the AIT on 4 April 2005, created by a merger of the Immigration Appellate Authority (IAA) and the IAT. The leader cases, which number approximately 100, are expected to be listed to be heard substantively in September and October of this year, and once these have been determined the follower cases, approximately 300 in number, will then be listed for hearing as soon as is practicable.

**Mr. Hancock:** To ask the Minister of State, Department for Constitutional Affairs how many cases are awaiting determination by the Immigration Appellate Authority (IAA); and what the average time between the receipt by the IAA of an appeal and a final decision being made was in the last period for which figures are available. [12417]

**Bridget Prentice:** The latest provisional information shows that by the end of March 2005 the Immigration Appellate Authority (IAA) had the following outstanding work: 25,304 Adjudicator appeals, 5,217 applications for permission to appeal to the Immigration Appeal Tribunal (IAT) and 4,783 substantive IAT appeal hearings. On 4 April 2005 the commencement of section 26 of The Asylum and Immigration (Treatment of Claimants, etc.) Act 2004 introduced a unified appeals system under the Asylum and Immigration Tribunal (AIT). All outstanding work from the IAA and the IAT was transferred to an equivalent appeal stage within the AIT process. Provisional information indicates that, for the period 1 January 2003 to 31 March 2005, the average time between the receipt by the IAA of an appeal and a final decision being made was 25 weeks.

### Magistrates Courts

**Mr. Oaten:** To ask the Minister of State, Department for Constitutional Affairs which magistrates courts have closed since May 1997, broken down by parliamentary constituency; and what the date of each closure was. [13209]

**Ms Harman:** Up until 1 April 2005 magistrates courts were the responsibility of locally managed magistrates courts committees. The magistrates courts that have closed since May 1997 broken down by parliamentary constituency are set out in the following table.

| Courthouse | Date | Constituency |
|---|---|---|
| *Magistrates courthouse closures from May 1997* | | |
| Bromsgrove | 31 May 1997 | Bromsgrove |
| Ledbury | 31 May 1997 | Leominster |
| Hebburn | 5 June 1997 | Jarrow |
| South Shields (Kepple Street) | 5 June 1997 | South Shields |
| Chippenham (Market Place) | 30 June 1997 | North Wiltshire |
| Ashton under Lyne (Manchester Road) | 31 August 1997 | Ashton-Under-Lyne |
| Duckinsfield | 31 August 1997 | Denton and Reddish |
| Thorne | 31 August 1997 | Doncaster North |
| Pontardawe | 9 October 1997 | Neath |
| Braintree | 31 December 1997 | Braintree |
| Stokesley | 31 December 1997 | Richmond (Yorks) |
| Clacton on Sea | 31 October 1997 | Harwich |
| Bargoed | 31 December 1997 | Caerphilly |
| Monmouth | 31 December 1997 | Monmouth |
| Pontlottyn | 31 December 1997 | Merthyr Tydfil and Rhymney |
| Pontypool | 31 December 1997 | Torfaen |
| *Magistrates courthouse closures in 1998* | | |
| Malton | 6 February 1998 | Ryedale |
| Marlborough Street | 31 March 1998 | Cities of London and Westminster |
| Bishop's Stortford | 31 March 1998 | Hertford and Stortford |
| Hatfield | 31 March 1998 | Welwyn Hatfield |
| Hitchin | 31 March 1998 | Hitchin and Harpenden |
| Market Rasen | 31 March 1998 | Gainsborough |
| Chertsey | 31 March 1998 | Runnymede and Weybridge |
| Farnham | 31 March 1998 | South West Surrey |
| Oxted | 31 March 1998 | East Surrey |
| Lutterworth | 31 July1998 | Harborough |
| Ripon | 1 August 1998 | Skipton and Ripon |
| Barnard Castle | 31 December 1998 | Bishop Auckland |
| Clerkenwell | 31 December 1998 | Islington South and Finsbury |
| Sheerness | 31 December 1998 | Canterbury |
| West Malling | 31 December1998 | Tonbridge and Malling |
| Lytham | 31 December 1998 | Fylde |
| Diss | 31 December 1998 | South Norfolk |
| Corwen | 31 December 1998 | Clwyd South |
| Felixstowe | 31 December 1998 | Suffolk Coastal |
| Haverhill | 31 December 1998 | West Suffolk |
| Saxmundham | 31 December 1998 | Suffolk Coastal |
| Stowmarket | 31 December 1998 | Bury St. Edmunds |
| Newmarket | 31 December 1998 | West Suffolk |
| March | 31 December 1998 | North East Cambridgeshire |
| Saffron Walden | 31 December 1998 | Saffron Walden |
| *Magistrates courthouse closures in 1999* | | |
| Christchurch | 31 March 1999 | Christchurch |
| Abingdon | 31 March 1999 | Oxford West and Abingdon |
| Henley on Thames | 31 March 1999 | Henley |
| Windsor | 31 March 1999 | Windsor |
| Morley | 31 March 1999 | Morley and Rothwell |
| Pudsey | 31 March 1999 | Pudsey |
| Stow on the Wold | 30 June 1999 | Stroud |
| *Magistrates courthouse closures in 2000* | | |
| Ampthill | 1 January 2000 | Mid Bedfordshire |
| Biggleswade | 1 January 2000 | North East Bedfordshire |
| Dunstable | 1 January 2000 | Mid Bedfordshire |
| Leighton Buzzard | 1 January 2000 | Bedfordshire South West |
| Lichfield | 31 March 2000 | Tamworth |
| Keighley | 1 April 2000 | Keighley |
| Keswick | 30 April 2000 | Workington |
| Windermere | 31 May 2000 | Westmorland and Lonsdale |
| Wigton | 31 May 2000 | Penrith and the Border |
| Appleby | 31 May 2000 | Penrith and the Border |
| Gravesend | 9 June 2000 | Gravesham |
| Wootton Bassett | 2 October 2000 | North Wiltshire |
| Abergele | 31 December 2000 | Clwyd West |
| *Magistrates courthouse closures in 2001* | | |
| Alfreton | 1 January 2001 | Amber Valley |
| Ashbourne | 1 January 2001 | West Derbyshire |
| Bakewell | 1 January 2001 | West Derbyshire |
| Matlock | 1 January 2001 | West Derbyshire |

| Courthouse | Date | Constituency |
|---|---|---|
| Leigh | 31 March 2001 | Leigh |
| Middleton | 31 March 2001 | Heywood and Middleton |
| Leek | 31 March 2001 | Staffordshire Moorlands |
| Worcester | 31 March 2001 | Hereford and Worcester |

| Stourbridge | 23 June 2004 | Stourbridge |

### Magistrates Courts (Running Costs)

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs (1) what the average running costs per day are of *(a)* the Community Justice Centre in Liverpool and *(b)* an average magistrates court; [12704]

(2) what steps she is taking to evaluate the cost-benefit of the Community Justice Centre in Liverpool. [12705]

**Ms Harman:** The information is as follows:

The Community Justice Centre will not be fully operational until September. The court is currently hearing cases in a courtroom of Liverpool magistrates court and the daily running costs are approximately the same as for the other courtrooms. The average cost of a magistrate's courthouse per day is £4,382 and a courtroom is £111 (figures for 2003–04). The cost of providing the multi agency problem solving team is £666 per day. The cost of this team is not currently borne by a mainstream magistrates court, as the function is performed to some extent elsewhere and is accounted for by the CJS agencies (eg Probation, YOTs).

The evaluation will compare the resources that are being used in the existing CJS agencies dealing with one courtroom with the cost of those based within the centre. The effectiveness of the existing CJS agencies framework against the joint approach of the centre will be measured in their outcomes. An example of this

would be a reduction in antisocial behaviour or the number of young people getting involved in crime. The evaluation will also measure qualitative benefits such as the level of victim and witness satisfaction.

### Marked Registers

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs (1) by what date Pickfords is expected to fulfil all orders received to date with regards to marked registers from the 2005 general election; [12453]

(2) if she will make a statement on the time taken by Pickfords to publish the marked registers from the 2005 general election. [12452]

**Ms Harman:** We have been informed by Pickfords Records Management that there are currently 444 requests outstanding for copies of the Marked Register. All of these have received holding letters and are currently being counted for charge letters to be sent out. 78 copies of the Marked Register have been completed and sent out.

Because in a number of cases the documents have not been presented to Pickfords in accordance with instructions, Pickfords have had to conduct searches and checks and contact Returning Officers to find them, which has had an impact on their process times and resources.

All the remaining counting and charge letters are expected to be sent out within the next three weeks.

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs if she will publish the service-level agreement between the Government and Pickfords in relation to the provision of marked registers. [12454]

**Ms Harman:** The service level agreement between the Government and Pickfords is expressed within the terms of the contract specification. An application can be made to my Department to view the relevant sections of the contract specification.

In addition, a Decision Report of the Clerk of the Crown in Chancery as to the public access to the marked registers and other documents returned after the 2005 general election will shortly be available from the House of Commons Library.

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs if she will publish marked registers from the 2005 general election electronically. [12455]

**Ms Harman:** Access to the marked electoral registers is the responsibility of the Clerk of the Crown. The marked register which is made available for inspection or copying is the paper copy of the register kept at the polling station, and marked by polling station staff. No electronic copies are compiled, and we have no current plans to provide for it. Paper copies may be purchased, as has been the case in previous elections.

### Remote Electronic Voting

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs what research the Government have conducted on remote electronic voting. [12456]

**Ms Harman:** The research into remote electronic voting is primarily conducted through pilots under S. 10 of the Representation of the People Act 2000. There have been 27 e-voting pilots in 2002 and 2003 and these were all evaluated by The Electoral Commission which reported on each of the pilots and also published a strategic evaluation.

In addition to piloting, research has been jointly commissioned by the Government and key stakeholders investigating the issues surrounding the implementation of electronic voting in the UK. This research was published in May 2002.

As part of the work being done on electoral modernisation there is on-going consideration of e-voting technologies used worldwide and their performance in pilots and elections.

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs what plans her Department has to conduct remote electronic voting pilots in the 2006 local elections. [12435]

**Ms Harman:** I refer the hon. Member to the reply I gave to the hon. Member for Meriden (Mrs. Spelman) on 7 June 2005, *Official Report*, column 483W. We are considering the options for electronic voting pilots in 2006.

### Voter Registration

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs if she will estimate the number of hours spent by officials in her Department in dealing with *(a)* postal ballot fraud and *(b)* voter under-registration in the last 12 months. [8949]

**Ms Harman:** Detailed information of hours spent by officials on specific areas of work is not kept. However officials in my Department spent a significant amount of time on issues relating to postal vote fraud including responding to press allegations and subsequent letters from interested parties over the course of the combined European parliamentary and local elections in June 2004 and in the run up to this year's general election.

Voter under-registration has also been looked at by officials through policy development and research but has taken up less time that that spent on responding to postal vote fraud.

## PRIME MINISTER

### Antisocial Behaviour Committee

**Mr. Allen:** To ask the Prime Minister what steps he is taking to invite ideas from hon. Members for consideration by the Ministerial Committee on antisocial behaviour of the Cabinet; and if he will make a statement. [9219]

**The Prime Minister:** We are always receptive to hearing the views of hon. Members on how to tackle antisocial behaviour. An inter-departmental steering group has been set up and is chaired by my right hon. Friend the Minister of State, Home Office (Hazel Blears). It will support the Ministerial Committee on

antisocial behaviour that I chair. The steering group will consider how it takes on ideas and proposals from hon. Members.

### Business Representatives

**Mr. Meacher:** To ask the Prime Minister if he will list the business representatives with whom he has had meetings *(a)* at Number 10, *(b)* within Parliament, *(c)* at Chequers and *(d)* elsewhere since 1 January; which organisation they represented in each case; and what the main topic for discussion at each meeting was. [13291]

**The Prime Minister:** I have meetings with a wide range of organisations and individuals on a wide range of subjects. Information relating to internal meetings, discussion and advice is not disclosed as to do so could harm the frankness and candour of internal discussion.

### Conferences

**David T.C. Davies:** To ask the Prime Minister how much his Office has spent on *(a)* organising and *(b)* sponsoring conferences in each of the last five years. [10249]

**The Prime Minister:** For accounting purposes my office forms part of the Cabinet Office. The information requested cannot be provided without incurring disproportionate costs.

### Gender Equality (Africa)

**Andrew George:** To ask the Prime Minister what discussions he had during the Gleneagles Summit regarding the Millennium Development Goal to promote gender equality in Africa. [13081]

**The Prime Minister:** At Gleneagles, G8 heads agreed a doubling of resource for Africa, in order to help make faster progress towards the Millennium Development Goals. On the gender equality goal, the need for urgent action is particularly stark.

We agreed to support African governments in ensuring that, by 2015, all children have access to and complete free and compulsory education of good quality. We also called on African countries to implement the African Charter on Human and People's Rights and its protocols, in order to encourage respect for the rights of ethnic minorities, women and children.

### Lords Lieutenants

**Mr. Amess:** To ask the Prime Minister if he will list the lords lieutenant with the dates of their *(a)* appointment and *(b)* expected retirement. [10469]

**The Prime Minister:** A list of Lord Lieutenants, individual dates of appointment and expected retirement has been placed in the Libraries of the House.

### Deputy Lords Lieutenants

**Mr. Hoyle:** To ask the Prime Minister if he will list the Deputy Lords Lieutenants; on what date each was appointed; and whether each is recorded as supporting a political party. [10992]

**The Prime Minister:** A list of Deputy Lieutenants, where available, has been placed in the Libraries of the House. Dates of their appointment, and information on membership of political parties, are not held centrally. Deputy Lieutenants are, of course, aware that their role is essentially non-political and impartial.

### Marine Environment

**Norman Baker:** To ask the Prime Minister how many representations he has received from members of the public in support of greater protection for the marine environment; and if he will make a statement. [12532]

**The Prime Minister:** The information is not available in the format requested. Given the volume of correspondence I receive covering a broad spectrum of issues, my office records letters by subject rather than by the view expressed.

Since 1997 I have received over 20,000 representations on the environment, including over 1,000 campaign cards on "a future for our seas?" in 2004.

### Public Appointments Commissioner

**Paul Flynn:** To ask the Prime Minister if he will ask the Office of the Commissioner for Public Appointments if he will investigate whether the words used by the Chair of the Medicines and Healthcare products Regulatory Agency regarding Seroxat published in the *New Statesman* on 20 June were consistent with the standards laid down for holders of a public appointment. [13226]

**Jane Kennedy:** I have been asked to reply.

The Commission for Public Appointments has no remit to investigate the conduct of the Chair of the Medicines and Healthcare products Regulatory Agency (MHRA). The MHRA is an Executive Agency of the Department of Health and its Chair is appointed by the Secretary of State for Health.

There is nothing in the quote from the Chair of the MHRA that would merit any such investigation.

### Second World War Anniversary

**Mr. Amess:** To ask the Prime Minister whether he was present in an official capacity at ceremonies to mark the 60th anniversary of the end of the Second World War; and if he will make a statement. [12738]

**The Prime Minister:** Yes. I attended the National Commemoration Day on Sunday 10 July 2005.

### Sickness Absence

**David T.C. Davies:** To ask the Prime Minister how many days his Office has lost due to sickness in the past five years for which figures are available. [11471]

**The Prime Minister:** For these purposes my office forms part of the Cabinet Office. I refer the hon. Member to the Cabinet Office report "Analysis of Sickness Absence in the Civil Service", copies of which are available in the Libraries of the House.

## DEFENCE

### Anthrax Vaccination

**Mr. Hancock:** To ask the Secretary of State for Defence what discussions he has had with the US Administration and its agencies on illnesses suffered by Service personnel and their families which they attribute to anthrax vaccinations. [11707]

**Mr. Touhig:** The Ministry of Defence has not held any formal discussions with the US Administration or its agencies on this subject and all information from the US on such matters has been drawn from published sources.

### Armed Forces (Sexual Assaults)

**Andrew Rosindell:** To ask the Secretary of State for Defence what steps his Department is taking to reduce the number of sexual assaults in the armed forces. [12565]

**Mr. Touhig:** Service training and instructions emphasise the vital importance within a disciplined force of mutual trust and respect, and of strict compliance with the law. All offences are investigated by the Service or civil police who will take the appropriate action.

The theme of respect for the individual is central to our Diversity Strategy, which states that we expect every one of our people to fulfil their personal responsibilities, one of which is to ensure that they do not harass, bully, abuse, alarm or distress others. Intimidation, humiliation, bullying or abuse will not be tolerated. Unified procedures for dealing with complaints of harassment and bullying were introduced on 1 April. On 23 June, my right hon. Friend the Secretary of State for Defence signed an agreement with the Equal Opportunities Commission based upon an action plan to confront sexual harassment in the armed forces.

### BAE Systems

**Mr. Hoyle:** To ask the Secretary of State for Defence how much current work has been placed by his Department with BAE Systems, broken down by site. [7616]

**Mr. Ingram:** The information requested is not held centrally and would be available only at disproportionate cost. However, the table sets out information from the Defence Bills Agency's database covering the total value of current contracts with BAE Systems as at 29 June 2005. This information is based on invoicing addresses and does not necessarily reflect the locations where the actual work is taking place. It does not include subsidiary companies with other trading names.

| *Contractor* | *Location* | *Value (£)* |
|---|---|---|
| BAE Systems Properties Ltd. | Aylesbury | 5,596,914 |
| BAE Systems Marine Ltd. | Barrow-in-Furness | 2,626,381,745 |

### Commonwealth War Graves (Equatorial Guinea)

**Bob Spink:** To ask the Secretary of State for Defence if he will make a statement on the upkeep of the Commonwealth war graves in Equatorial Guinea. [12194]

**Mr. Touhig:** There are 10 Commonwealth war graves in Equatorial Guinea, all in Malabo cemetery, which is situated on the island of Bioko off the coast of Cameroon. All are Commonwealth airmen from the second world war who are commemorated together in a row marked by Commonwealth War Graves Commission (CWGC) headstones.

These graves are visited periodically by CWGC staff from the United Kingdom. The last such visit was in 2003, when some maintenance was carried out with the assistance of the cemetery staff. The Commission has confirmed that the graves are well maintained for this part of the world. It is in the process of setting up an arrangement for more regular visits and reports from its honorary supervisor in the Cameroon.

### Construction Projects

**Daniel Kawczynski:** To ask the Secretary of State for Defence if he will take steps to train armed forces personnel to carry out construction projects for the armed forces. [11892]

**Mr. Touhig:** The armed forces already employs and trains engineering specialists in order to enhance operational effectiveness. These specialists are primarily employed to provide engineering and construction support on deployed operations where the operational conditions would preclude the use of commercial operators. It is possible that these engineers may be employed on construction projects for the armed forces, for instance in the UK, but only when it is sensible and cost-effective to do so and the training experience accrued will directly benefit their role on operations. Otherwise, the skills and expertise of the commercial sector is employed, allowing the armed forces to concentrate on military tasks.

### Corporate Branding (Costs)

**Mr. Hancock:** To ask the Secretary of State for Defence what costs were incurred by the *(a)* Medical Supplies Agency and *(b)* Warship Supply Agency in (i) corporate branding and (ii) external consultants used in set-up and continuing activities. [5890]

**Mr. Ingram:** A detailed breakdown of costs incurred by the Warship Support Agency (WSA) both during set-up and through-life, on corporate branding and external consultants, specifically in support of its agency status, is not held separately and cannot therefore be provided. External consultants were used prior to Agency formation to help determine the structure and working methods of the WSA Strategic and Executive Boards. The cost of these activities is not available; however, it is likely to have been minimal.

A detailed breakdown of costs incurred by the Medical Supplies Agency (MSA) both during set-up and through-life, on corporate branding, specifically in support of its agency status, is not held separately and cannot therefore be provided. Figures relating to the establishment of the Agency (in 1996) on external consultants are no longer available, due to the requirement to only retain historical financial accounts for seven years. However, external consultant figures relating to the MSA change programme, from financial year 1997–98 are provided in the table.

| | £000 |
|---|---|
| 1997–98 | 15 |
| 1998–99 | 16 |
| 1999–2000 | 17 |
| 2000–01 | 18 |
| 2001–02 | 147 |
| 2002–03 | 220 |
| 2003–04 | 358.5 |
| 2004–05 | 416.3 |

Payments during 2003–04 and 2004–05 were in respect of the medical supplies change programme, the benefit of which has been carried forward into the Medical Supplies Integrated Project Team.

### Darfur

**Mr. Ancram:** To ask the Secretary of State for Defence pursuant to the answer of 14 June 2005, *Official Report*, columns 332–33W, on Darfur, whether *(a)* NATO and *(b)* the EU will be in overall command of support for the African Union in its mission in Darfur. [6037]

**John Reid:** The African Union is leading the operation and managing offers of assistance. NATO and the EU continue to work closely together to coordinate their military offers. Neither has any operational command and control role.

### Defence Export Services Organisation

**Malcolm Bruce:** To ask the Secretary of State for Defence on how many occasions between April 2004 and December 2004 British-based staff from the Defence Export Services Organisation met BAE Systems to discuss the selection of agents. [12029]

**Mr. Ingram** *[holding answer 14 July 2005]:* We have found no record of any meeting in the United Kingdom between Defence Export Services Organisation officials and representatives of BAE Systems specifically concerned with the selection of agents. The subject will on occasion have been discussed, however, in the course of routine meetings covering a wider range of normal business.

**Malcolm Bruce:** To ask the Secretary of State for Defence pursuant to the answer of 5 July 2005, *Official Report*, column, 259W, on the Defence Export Service Organisation (DESO), whether BAE Systems has requested information from DESO on the selection of agents. [12081]

**Mr. Ingram** *[holding answer 14 July 2005]:* Instances of questions from companies, including BAE Systems, on the selection of agents are not centrally recorded. Such advice is given in the course of normal Defence Export Services Organisation business, both in the United Kingdom and overseas.

### Defence Training Review

**Mr. Hancock:** To ask the Secretary of State for Defence what stage has been reached by the Defence Training Review; and if he will make a statement. [12175]

**Mr. Touhig:** The Defence Training Review Programme issued Invitations to Negotiate to the short listed bidding Consortia in November 2004. The Ministry of Defence continues to work closely with the three bidders and stakeholders to ensure that industry develop training and estates proposals that are compliant, value for money, deliver betterment and preserve operational capability and military ethos. In parallel the MOD also continues to maintain a close dialogue with the trade unions updating them on progress. Bidders' proposals are due in October and November 2005. Evaluation of the proposals will follow immediately and conclude in spring 2006. The outcome will inform the decision on selection of a preferred bidder, which is due to be approved later in the summer in 2006.

### Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for Defence how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11507]

**Mr. Touhig:** The number of full-time equivalents (FTE) that have worked for the Department is shown in the following table. The numbers reflect the total number of permanent and casual staff together with the Royal Fleet Auxiliaries, trading funds and locally engaged civilians.

*Civilian personnel numbers at 1 April each year*

*Thousand: FTE*

| *Civilians*[1] | *Total* |
|---|---|
| 2001[2] | 118.2 |
| 2002 | 110.1 |
| 2003 | 107.6 |
| 2004 | 109.0 |
| 2005 | 108.5 |

[1] This table uses the revised definition of civilian personnel (see www.dasa.mod.uk for details).

[2] In 2001 the QinetiQ portion of the Defence Evaluation and Research Agency (approximately 8,000 FTE) was established as a private company.

### Establishments (Muslims)

**Andrew Selous:** To ask the Secretary of State for Defence what the total establishment is of *(a)* the Royal Navy, *(b)* the Army and *(c)* the Royal Air Force; and how many Muslims are serving in each. [12975]

**Mr. Touhig:** The following table shows the strength of UK armed forces at 1 June 2005:

| | *Total strength* | *Muslim strength* |
|---|---|---|
| *(a)* Naval service | 39,780 | 20 |
| *(b)* Army | 108,300 | 220 |
| *(c)* RAF | 51,380 | 70 |

UK regular forces includes nursing services and excludes full-time reserve service personnel, Ghurkhas, the home service battalions of the Royal Irish Regiment and mobilised reservists. They include both trained and untrained personnel.

All figures have been rounded to the nearest 10 to prevent disclosure of sensitive personal data. When rounding to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.

### EUFOR

**Mr. Prisk:** To ask the Secretary of State for Defence what UK military assets are deployed as part of EUFOR; and by what command and control arrangements they are managed. [1065]

**Mr. Ingram:** The United Kingdom has around 872 troops deployed as part of the European Union peacekeeping force in Bosnia and Herzegovina, Operation ALTHEA. This includes Major-General Leakey, who is currently the force commander for this operation; and also those UK officers serving in the force headquarters. The bulk of the UK contingent is based in Multi-National Task Force (North-West), and is currently centred on the 1st Battalion The Argyle and Sutherland Highlanders.

Operation ALTHEA operates under the political control and strategic direction of the EU. The force commander reports to the operation commander, General Sir John Reith, who also holds the NATO position of Deputy Supreme Allied Commander Europe. He in turn reports to the EU Political and Security Committee, which takes direction from the Council of the European Union and advice from the EU

Military Committee. All these bodies are made up of member state representatives and take decisions by unanimity.

In both EU and NATO operations the UK assigns troops to EU or NATO Operational control, but the UK ultimately retains command of all UK troops and assets involved in operations.

## Fijian Nationals

**Mr. Marshall:** To ask the Secretary of State for Defence how many Fijian nationals are serving in Her Majesty's forces. [13140]

**Mr. Ingram:** The following table shows the Fijian strength of UK armed forces at 1 June 2005:

| | *Fijian total* |
|---|---|
| Naval Service | 70 |
| Army | 1,950 |
| RAF | — |

*Notes:*

1. UK Regular Forces includes Nursing services and excludes Full Time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised Reservists. They include both trained and untrained personnel.

2. All data is obtained from a nationality field on the Armed Forces Personnel Record of Service. Figures represent those with a current nationality of 'Fijian'.

3. RAF nationality data is not held centrally.

4. All figures have been rounded to the nearest 10 to prevent disclosure of sensitive personal data. When rounding to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.

## Forces' Recruitment

**Mr. Hoyle:** To ask the Secretary of State for Defence from which *(a)* region and *(b)* county the highest percentage of personnel were recruited to the (i) Army, (ii) Royal Navy, (iii) Royal Air Force and (iv) Royal Marines in 2004–05. [12415]

**Mr. Touhig:** Recruiting data by region and county are not available centrally. The following estimates of enlistments for the financial year 2004–05 have been provided by the three services.

*Navy enlistment numbers for financial year 2004–05*

| *Region* | *Enlistments* |
|---|---|
| North East | 610 |
| North West | 740 |
| East Central | 300 |
| West Central | 240 |
| South West | 620 |
| South East | 350 |
| London | 200 |
| Wales | 180 |
| Scotland | 380 |
| Northern Ireland | 60 |

*Source:*

Directorate of Naval Recruiting

*Army enlistment numbers for financial year 2004–05*

| *Region* | *Enlistments* |
|---|---|
| North East | 1,720 |
| North West | 1,540 |
| East | 1,360 |
| West Midlands | 1,000 |
| Wessex | 780 |
| Home Counties | 470 |
| South East | 430 |
| London | 880 |
| Wales | 670 |
| Scotland | 1,140 |
| Northern Ireland | 260 |
| Commonwealth | 220 |

*Source:*

Army Recruiting Group

*RAF enlistment numbers for financial year 2004–05*

| *Region* | *Enlistments* |
|---|---|
| North East | 330 |
| North West and North Wales | 350 |
| East Midlands | 380 |
| West Midlands and South Wales | 290 |
| London and South East | 200 |
| South West | 230 |
| Wales | 140 |
| Scotland | 220 |
| Northern Ireland | 50 |

*Notes:*

Figures are based on location of armed forces careers office to which applicant applied not residence of applicant. Armed forces careers office regions do not align with Government office regions and differ between services; consequently, it is not possible to make meaningful comparisons across services or to population figures.

All figures have been rounded to the nearest 10. Due to the rounding methods used, figures may not always equal the sum of the parts. When rounding to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.

Army selection figures for London includes recruitment from Herford, Germany.

RAF Recruiting Services

## Future Aircraft Carriers

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what assessment he has made of the effect on the in-service dates of each of the future aircraft carriers if France participates in their construction on the basis *(a)* that two carriers are built for the United Kingdom and one for France and *(b)* that two carriers are built for the UK alone. [10821]

**Mr. Ingram** *[holding answer 13 July 2005]:* None. Though we continue to investigate the potential for co-operation with France on our respective carrier projects, it will be for industry to put forward proposals on French participation in the construction of the future aircraft carriers (CVF). These will be judged on their merits and in light of national policies.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence when the decision was taken to reclassify the 2012 and 2015 in-service dates for the two future aircraft carriers as target dates. [10822]

**Mr. Ingram** *[holding answer 13 July 2005]:* As with all projects in the assessment phase, in-service dates (ISDs) are not fixed until the main investment decision. The assessment phase is used to refine the timescale for projects including the future aircraft carrier (CVF).

### Future Rapid Effects System

**Ann Winterton:** To ask the Secretary of State for Defence what the estimated whole life cost is of the FRES vehicles ordered by the Department. [11814]

**Mr. Ingram:** The FRES programme is currently in the assessment phase and it is therefore too early in the programme to have placed orders for FRES vehicles.

Studies being conducted during the assessment phase are aimed at developing a series of options for meeting the requirement and the outcome of these studies will enable us to formulate reliable whole life cost estimates.

### Identity Cards

**Mr. Garnier:** To ask the Secretary of State for Defence what estimate he has made of the cost of equipping premises for which his Department has responsibility with identity card readers. [9889]

**Mr. Touhig:** We have been working with the Home Office to identify areas where the identity cards scheme could provide business benefits. Our assessment has indicated that the proposal for the introduction of identity cards would benefit the Ministry of Defence by aiding the identification of individuals who have a relationship with the Department, but are not direct employees. Examples include potential new recruits, past employees, members of the reserve forces, job applicants, visitors and contractors. On 28 June 2005, my right hon. Friend the Home Secretary placed in the Library of the House a paper containing the latest estimates of benefits of the identity cards scheme which shows that the benefits outweigh the costs once the scheme is fully operational. The cost of equipping premises will depend on the nature of the use of the identity cards scheme and the type of identity check(s) necessary to deliver the business benefits. The Ministry of Defence is in dialogue with the Home Office and we will judge the impact on our IT systems as details of the scheme emerge. As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit which will allow us to further refine our estimates of costs and benefits.

### Iraq

**Adam Price:** To ask the Secretary of State for Defence how many persons arrested in Iraq by UK forces have been transferred to the custody of the United States. [3087]

**Mr. Ingram** *[holding answer 13 June 2005]:* Following the end of hostilities in Iraq and the completion of the UK's prisoner release programme, a total of 358 prisoners taken into custody by the UK, for whom the UK remained responsible, were transferred to US custody at Camp Bucca. Between June 2003 and the opening of the UK's Divisional Temporary Detention Facility in December 2003, further individuals taken into custody by the UK were also transferred to US custody. All of these internees were either released, or transferred back to UK custody in December 2003.

Two individuals classified as High Value Targets were taken into custody by the UK and subsequently transferred to US custody. They were later transferred to the jurisdiction of the Iraq Special Tribunal, although they remain in US custody.

Four additional internees taken into custody by the UK during 2003 were transferred to the US and held at Abu Ghraib. All have since been released. During the Black Watch deployment to North Babil in November 2003, a further 12 internees were taken into custody by the UK, and transferred to the US. All but two were quickly released. The remaining two are held at Abu Ghraib.

**Mr. Streeter:** To ask the Secretary of State for Defence how many *(a)* detainees, *(b)* internees and *(c)* other prisoners in Iraq were (i) held by UK forces, (ii) brought into UK custody and (iii) transferred from UK to US custody in each week since 1 December 2003. [11407]

**Mr. Ingram:** Prior to December 2003, all persons taken into custody by United Kingdom forces were held by the US at Camp Bucca, in southern Iraq. During December those internees were transferred to the UK's divisional temporary detention facility (DTDF) at Shaibah logistics base in southern Iraq, and the figures given from January 2004 onwards refer to internees held at that location. However, during December, internees taken into custody by the UK may have spent a short period in Camp Bucca prior to transfer to the DTDF on or around 18 December 2003. From January 2004 to the present day, the only internees transferred to US custody were those taken during the course of the deployment of the Black Watch Battlegroup in November 2004. Two internees were transferred on 16 November 2004 and 10 were transferred on 26 November 2004. These internees are not included in the following information.

| *Date* | *Internees held* | *Internees taken into custody by UK* |
|---|---|---|
| As at 1 December 2003 | [1]109 | — |
| *Week ending:* | | |

[1] In US custody.

These figures are based on the best available data; it is evident that some theatre records contain inaccuracies.

**Sir Menzies Campbell:** To ask the Secretary of State for Defence what RAF aircraft participated in attacks by coalition aircraft on *(a)* an anti-ship missile system near Basra on 6 September 2002, *(b)* an anti-ship missile system near Basra on 13 January 2003, *(c)* a surface-to-surface missile system near Basra on 11 February 2003, *(d)* elements of surface-to-surface missile systems near Basra on 12 February 2003, *(e)* a mobile multiple-rocket system near Basra on 18 February 2003, *(f)* a surface-to-surface missile system near Basra on 25 February 2003 and *(g)* three surface-to-surface missile systems south of Mosul on 25 February 2003. [11373]

**Mr. Ingram** *[holding answer 14 July 2005]:* On the 11 February 2003, RAF Tornado GR4s dropped a total of five munitions during the course of the attack. The attack was conducted in self-defence in accordance with the appropriate rules of engagement for Operation Resinate (south), the operation to enforce the southern no-fly zone. The surface-to-surface missile system concerned had recently relocated to a position close to the Kuwaiti border, from which it posed a direct threat to the operating base for UK aircraft and other forces allocated to Operation Resinate (south).

No RAF aircraft were used in any of the other attacks mentioned.

### Maritime Forces

**Dr. Julian Lewis:** To ask the Secretary of State for Defence for what reasons the decision to reduce resource allocations to maritime forces has not previously been reported to Parliament. [9694]

**Mr. Ingram** *[holding answer 7 July 2005]:* The Royal Navy is expected to be able to fulfil its operational commitments during the current period of focussing logistic support on those ships undertaking high priority tasks or being held at high readiness for operations. Determining the most efficient and effective use of available resources is a routine element of departmental planning, and specific decisions are not normally the subject of special notification to the House.

### Mothballed Defence Bases

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will list his Department's bases which are mothballed. [12466]

**Mr. Touhig:** It is not the policy of the Ministry of Defence to 'mothball' sites against undefined future defence uses. The only exception would be in the case of Army Barracks, where a site might be vacant for a few months as a result of unit rotations to overseas locations. There are currently no sites in this category.

All possible alternate defence requirements will be considered for a site before it is declared surplus. Once declared surplus a site will be disposed of as quickly as possible to ensure it is bought back into productive use at the earliest opportunity.

Where disposal is anticipated to take some time, buildings may be wind and weatherproofed to minimise deterioration. It is also our policy, where possible, to encourage temporary commercial use of vacant sites pending disposal.

### Northern Ireland

**Mr. Peter Robinson:** To ask the Secretary of State for Defence how many Army personnel were stationed in Northern Ireland in each of the last 10 years. [11653]

**Mr. Ingram:** I refer the hon. Member to the answer I gave on 16 November 2001, *Official Report*, columns 955–56W, to the hon. Member for New Forest, West (Mr. Swayne). The number of armed forces personnel (Army, Navy and Air Force) stationed in Northern Ireland since then is set out in the following table:

| *As at 31 October* | *Number of troops* |
|---|---|
| 2002 | 13,810 |
| 2003 | 12,534 |
| 2004 | 11,047 |
| 2005[1] | 10,154 |

[1] The figure for 2005 is taken as at 30 June.

The General Officer Commanding Northern Ireland (GOC NI) also has under his command troops that are rear based in Great Britain that can be called forward to the Province as and when required. In addition, other troops can be made available to the GOC NI from Land Command if required, for example during the marching season.

### Regimental Strength

**Mr. Hoyle:** To ask the Secretary of State for Defence what the strength is of each regiment in the Army; and what percentage this is of the full establishment in each case. [13149]

**Mr. Touhig:** The following table shows the strengths and establishments of the full-time trained Army by arm/service and strengths of the individual infantry regiments.

Establishments of each infantry and armoured corps regiment have not been provided because they are not defined individually.

*Full-time trained strength of the Army (including full-time reserve service (FTRS)) as at 1 June 2005 compared to the liability*

| *Arm/service* | *Establishment* | *Strength* | *Percentage of establishment* |
|---|---|---|---|
| Staff | 830 | 830 | 100 |
| The Household Cavalry/Royal Armoured Corps | 5,300 | 5,670 | 107 |
| Royal Regiment of Artillery | 7,580 | 7,510 | 99 |
| Corps of Royal Engineers | 10,020 | 8,870 | 88 |
| Royal Corps of Signals | 8,580 | 8,780 | 102 |
| The Infantry | 24,420 | 25,090 | 103 |
| *Of which* | | | |
| Grenadier Guards | | 770 | |
| Coldstream Guards | | 780 | |
| Scots Guards | | 720 | |
| Irish Guards | | 630 | |
| Welsh Guards | | 600 | |
| Royal Scots | | 580 | |
| Royal Highland Fusiliers | | 600 | |
| Kings Own Scottish Borderers | | 580 | |
| Black Watch | | 660 | |
| Highlanders | | 610 | |
| Argyll and Sutherland Highlanders | | 590 | |
| Princess of Wales's Royal Regiment | | 1,330 | |
| Royal Regiment of Fusiliers | | 1,300 | |
| Royal Anglian Regiment | | 1,320 | |
| Kings Own Royal Border Regiment | | 620 | |
| King's Regiment | | 600 | |
| 1 Prince of Wales' Own Regiment | | 660 | |
| Green Howards | | 620 | |
| Queen's Lancashire Regiment | | 660 | |
| Duke of Wallington's Regiment | | 670 | |
| Devonshire and Dorset Regiment | | 620 | |
| Cheshire Regiment | | 580 | |
| Royal Welch Fusiliers | | 660 | |
| Royal Regiment of Wales | | 590 | |
| Royal Gloucestershire, Berkshire and Wiltshire Regiment | | 640 | |
| Worcestershire and Sherwood Foresters Regiment | | 620 | |
| Staffordshire Regiment | | 610 | |
| The Light Infantry Regiment | | 1,320 | |
| Royal Green Jackets | | 1,290 | |
| The Parachute Regiment | | 2,080 | |
| The Royal Irish Regiment (General Service) | | 660 | |
| Others | | 530 | |
| Army Air Corps | 2,160 | 1,930 | 89 |
| Royal Army Chaplains Department | 160 | 140 | 87 |
| The Royal Logistics Corps | 16,390 | 15,570 | 96 |
| Royal Army Medical Corps | 3,280 | 2,780 | 86 |
| Royal Electrical and Mechanical Engineers | 9,580 | 9,760 | 102 |
| Adjutant General's Corps (Provost Branch) | 2,020 | 2,020 | 100 |
| Adjutant General's Corps (Staff and Personnel Support Branch) | 4,400 | 4,570 | 104 |
| Adjutant General's Corps (Educational and Training Services Branch) | 330 | 340 | 103 |
| Adjutant General's Corps (Army Legal Service) | 120 | 90 | 72 |
| Royal Army Veterinary Corps | 200 | 190 | 94 |

*Full-time trained strength of the Army (including full-time reserve service (FTRS)) as at 1 June 2005 compared to the liability*

| *Arm/service* | *Establishment* | *Strength* | *Percentage of establishment* |
|---|---|---|---|
| Small Arms School Corps | 160 | 150 | 97 |
| Royal Army Dental Corps | 440 | 370 | 84 |
| Intelligence Corps | 1,840 | 1,430 | 78 |
| Army Physical Training Corps | 440 | 430 | 98 |
| General Service Corps | [1]— | [1]— | [1]— |
| Queen Alexandra's Royal Army Nursing Corps | 1,100 | 820 | 74 |
| Corps of Army Music | 920 | 980 | 106 |
| Long Service List | 480 | 610 | 127 |
| Unallocated | [1]— | 10 | [1]— |
| Total trained regular Army and FTRS | 100,770 | 98,940 | 98 |
| Ghurkhas | 3,400 | 3,320 | 98 |
| Full-time trained Army | 104,170 | 102,260 | 98 |

[1] Denotes zero or rounded to zero.

*Notes:*

FTRS figures include full, limited and home commitment.

Figures exclude home service battalions of the Royal Irish Regiment, Mobilised Reserves, Territorial Army and other reserves.

Figures are rounded to the nearest 10.

### Regimental Uniforms/Mascots

**Ann Winterton:** To ask the Secretary of State for Defence who meets the cost of the new uniforms and mess-dress of existing personnel up to the date of changeover for the future *(a)* Mercia, *(b)* Yorkshire and *(c)* Scottish regiments. [392]

**Mr. Touhig** *[pursuant to the reply, 24 May 2005, Official Report, c. 56W]:* I am now clarifying the information provided.

The answer I gave stated that officers received a tax-free allowance to enable them to maintain their uniform and dress. It has now come to my attention that officers in fact receive an annual tax-credit, known as "income tax relief for maintenance of uniform", rather than an allowance as such. This means that a certain proportion of their salary is not subject to income tax. For dismounted male officers below the rank of colonel, and therefore all personnel belonging to those regiments identified in your original question, this annual rate amounts to £589.29 of earnings against which income tax is not paid.

**Mr. Hoyle:** To ask the Secretary of State for Defence what the mascot of the *(a)* Queen's Lancashire Regiment and *(b)* King's Own Borderers is; and what the value of silverware held by each regiment is. [12420]

**Mr. Touhig:** Neither the Queen's Lancashire Regiment or the King's Own Royal Border Regiment have a mascot.

The silverware of the Queen's Lancashire Regiment and the King's Own Royal Border Regiment belongs to the regiments themselves. The funding for the purchase, maintenance and insurance of the silverware comes from non-public funds and is therefore a private matter for the trustees of the regiments.

### Small Arms Sales

**Chris Huhne:** To ask the Secretary of State for Defence what proportion by value of sales of arms by UK companies were identified as small arms in the latest year for which figures are available; and what proportion were sold to developing countries. [10430]

**Malcolm Wicks:** I have been asked to reply.

I refer the hon. Member to the Government's Annual Reports on Strategic Export Controls, which contain information on the Government's export licensing decisions. Since 2000, these reports have specified the number of items of military equipment in the UN Register of Conventional Arms categories, and also the number of small arms, covered by individual licences in the reporting period. The annual reports are available from the Libraries of the House. The Export Control Organisation does not however hold information on actual exports.

### TA/Cadet Forces

**Mike Penning:** To ask the Secretary of State for Defence if he will make a statement on the future of the reserve forces in Hemel Hempstead constituency. [11749]

**Mr. Touhig:** There are no current plans to make any changes to the Royal Naval Reserve and Royal Auxiliary Air Force units located near to Hemel Hempstead. A study is currently in hand which seeks to rebalance the Territorial Army so that it is aligned with changes to the Regular Army under the Future Army Structure work. This is a nationwide study that is not due to report until later in the year and it would be inappropriate to speculate on the outcome of the study at this time.

**Ann Winterton:** To ask the Secretary of State for Defence how many infantry private soldiers were on record in the Territorial Army at the onset of Iraq operations; and how many *(a)* are on record, *(b)* are available for Operation Telic 7 and *(c)* are expected to be available for Operation Telic 8. [12679]

**Mr. Touhig:** On 1 March 2003 there were some 4,000 Infantry Private Soldiers in the Territorial Army (TA). As at 1 June 2005 there were some 3,800 TA Infantry Private Soldiers, of this figure some 2,000 are available for Operation Telic 7 and we expect some 1,500 to be available for Operation Telic 8.

**Ann Winterton:** To ask the Secretary of State for Defence what the formation will be of the Territorial Army contribution to Operation Telic 7. [12680]

**Mr. Touhig:** Some 550 personnel from the Territorial Army are expected to contribute to Operation Telic 7. Of these, some 240 personnel will form two Force Protection Companies, the remainder will be employed in a variety of roles in support of 7 Armoured Brigade.

**Ann Winterton:** To ask the Secretary of State for Defence how many Territorial Army medical officers have been deployed since the start of Operation Telic; and how many of them worked in the NHS. [12682]

**Mr. Touhig:** In total, 754 Territorial Army medical personnel have deployed since the start of Operation Telic, all of whom worked within the NHS.

**Mr. Hoyle:** To ask the Secretary of State for Defence what the role of each unit of the *(a)* Territorial Army and *(b)* cadet forces in Lancashire is; and if he will make a statement. [12478]

**Mr. Touhig:** The information requested is shown in the following table.

| *Unit* | *Role* |
|---|---|
| *Territorial Army* | |
| Regimental Headquarters and Headquarters Company of the Lancastrian and Cumbrian Volunteers Regiment (LVC) | Infantry |
| A Company (an Assault Pioneer Platoon) LVC | Infantry |
| B Company LVC | Infantry |
| D Company LVC | Infantry |
| B Squadron 207 Field Hospital | Medical |
| C Squadron 208 Field Hospital | Medical |
| 5 General Support Medical Regiment | Medical |
| 29 Company 3 Military Intelligence (Volunteers) Battalion. | Intelligence |
| 93 Signals Squadron Royal Electrical and Mechanical Engineers (REME) Section | Engineering |
| 93 Signals Squadron | Signals |
| Lancaster University Officer Training Corp | Officer Training |
| *Army Cadet Force* | |
| Corunna Company | Armoured and Signals |
| Normandy Company | Infantry and Medical |
| Salerno Company | Engineers, Infantry and Armoured |
| Wingate Company | Armoured, Infantry and Logistics |
| Egypt Company | Armoured |
| *Sea Cadets* | |
| Accrington and District | The role of the Sea Cadets is to encourage valuable personal attributes and high standards of conduct, using a nautical theme based on the customs of the Royal Navy. |
| Burnley, Pendle and Rossendale | |
| Preston | |
| Morecambe and Heysham | |
| Chorley | |
| Blackpool | |
| Fleetwood | |
| Blackburn | |
| Lytham St. Annes | |
| *Air Cadets* | |
| Cumbria and North Lancashire WG HQ | The role of the Air Cadets is to encourage valuable personal attributes and high standards of conduct and to promote and encourage among young people a practical interest in aviation and the Royal Air Force. |
| 92 (Chorley) | |
| 177 (Blackpool airport) | |
| 206 (Thornton Cleveleys) | |
| 341 (Preston) | |
| 341 (Longridge) | |
| 345 (City of Lancaster) | |
| 455 (Morecambe and Heysham) | |
| 471 (Hesketh Bank and Tarleton) | |
| 967 (British Aerospace Warton) | |
| 1301 (Fleetwood) | |
| 2050 (Leyland) | |
| 2246 (Carnforth) | |
| 2376 (Bamber Bridge) | |
| 2454 (Warbreck) | |
| 2459 (Poulton-le-Fylde) | |
| 2486 (Lytham St. Annes) | |
| East Lancashire WG HQ | |
| 1035 (Accrington) | |
| 352 (Burnley) | |
| 11 04 (Pendle) | |
| 1262 (Blackburn) | |
| 1471 (Horwich) | |
| 1969 (Rossendale) | |
| 635 Volunteer Gliding School (Salmesbury) | |

**Robert Key:** To ask the Secretary of State for Defence if he will list each of the cadet units based in Salisbury constituency. [11562]

**Mr. Touhig:** All four cadet forces are represented in the Salisbury and South Wiltshire constituency. They are:

*Sea Cadets*

Sea Cadet Unit No. 296.
Churchill Way South,
Salisbury, Wiltshire.

*Army Cadet Force*

Arakan Company located at:

Childrens Corner, Downton, Wiltshire, SP5 3QE.

TA Centre, Portway, Old Sarum, Salisbury, Wiltshire, SP4 6BY.

Wishford Road, Wilton, Wiltshire, SP2 0JG.

*Air Cadet Organisation*

Dorset and Wilts Wing.

1010 Squadron (Salisbury), TA Centre, Portway, Old Sarum, Salisbury, Wiltshire, SP4 6BY.

1011 Squadron (Amesbury), Building No. 205, DERA Boscombe Down, Salisbury, Wiltshire, SP4 6BY.

*Combined Cadet Force*

Godolphin School,
Milford Hill,
Salisbury, Wiltshire,
SP1 2RA.

**Mr. Hoyle:** To ask the Secretary of State for Defence what buildings are used by the Territorial Army in Lancashire. [13148]

**Mr. Touhig:** The Territorial Army (TA) within the Lancashire county council administrative boundary (i.e. excluding Greater Manchester and Merseyside) regularly use the following buildings:

Alexandra Barracks, Caton Road, Lancaster

Kimberley Barracks, Deepdale Road, Preston

Lancaster House, Devonshire Road, Chorley

Sir Matthew Fell House, Parkinson Way, Blackpool

Somme Barracks, Moss Street, Blackburn

The Barracks, Canterbury Street, Blackburn

In addition they occasionally utilise the following sites:

Halton Training Camp, Lancaster

Fulwood Barracks, Preston

Weeton Camp, Preston

### Tritium

**Adam Price:** To ask the Secretary of State for Defence whether his Department has made *(a)* an estimate of the current rate of depletion of the stock of tritium held by the Government for military purposes, *(b)* an estimate of the total amount of the tritium currently held and *(c)* an assessment of when these stocks will need to be replenished with new sources of tritium if the UK's current nuclear capability is to be maintained. [10726]

**John Reid** *[holding answer 11 July 2005 ]:* Yes.

## TREASURY

### Child Trust Fund

**Mr. Laws:** To ask the Chancellor of the Exchequer how many child trust fund vouchers had been issued to parents and carers as at 30 June 2005; how many child trust fund accounts had been opened as at 30 June 2005; and if he will make a statement. [12086]

**John Healey:** I refer the hon. Member to the reply he received from the Economic Secretary to the Treasury on 6 June 2005, *Official Report*, columns 286–87W. Figures are published quarterly.

**Mr. Sheerman:** To ask the Chancellor of the Exchequer how many child trust funds have been established in *(a)* the UK, *(b)* the Yorkshire region and *(c)* Huddersfield. [12076]

**John Healey:** On the number of accounts opened in the UK I refer the hon. Member to the answer given by the Economic Secretary to the Treasury to the hon. Member for Yeovil (Mr. Laws) on 6 June 2005, *Official Report*, columns 286–87W.

The information requested in connection with the Yorkshire region and Huddersfield is available only at disproportionate cost.

**Mr. Sheerman:** To ask the Chancellor of the Exchequer what discussions he has had with banks about the take-up of child trust funds. [12077]

**John Healey:** The Government are continually engaged with a wide range of key stakeholders active in the child trust fund market and maintains close contact with providers and distributors to monitor activity.

Nearly one third of vouchers have already been used and awareness of the fund is virtually universal, with many parents now seeing the child trust fund as the primary savings vehicle for their child.

### Climate Change

**Norman Baker:** To ask the Chancellor of the Exchequer what steps he is taking to promote action to tackle climate change within *(a)* the World Bank, *(b)* the International Monetary Fund and *(c)* the Bank of International Settlement. [13041]

**John Healey:** The Prime Minister has made tackling climate change one of the twin themes of the UK's presidency of the G8 in 2005. Among the international financial institutions, the World Bank and the regional development banks play the lead role in addressing climate change through policy advice and through their financing operations. At the G8 pre-Summit Finance Ministers' meeting, chaired by the Chancellor, Finance Ministers called on the World Bank and multilateral development banks (MDBs) to increase dialogue with their major borrowers on energy issues and put forward specific proposals at their annual meetings in September that encourage cost-effective investments in lower carbon infrastructure. Building on this, World Bank President Paul Wolfowitz will co-chair a meeting in September with the UK as G8 presidency on the financing workstream within the 'Dialogue on Climate Change, Clean Energy and Sustainable Development', which was launched at Gleneagles. In addition, the

Bank and MDBs will also take forward work with others to create a new framework for mobilising investment in clean energy. The UK will work with the institutions to ensure that these initiatives are taken forward effectively.

### Debt Cancellation

**Tony Baldry:** To ask the Chancellor of the Exchequer (1) what conditions those sub-Saharan African countries which have yet to have total multilateral debt cancellation have to meet before they may achieve such debt cancellations; [11968]

(2) which sub-Saharan countries have had multilateral debt cancelled following the recent G8 meeting; and which sub-Saharan countries are yet to have multilateral debt cancelled. [11976]

**John Healey:** Under the G8 debt agreement 100 per cent. stock cancellation will be delivered by relieving post-completion point HIPCs that are on track with their programmes of repayment obligations. 18 completion point heavily indebted poor countries will become eligible for multilateral debt relief once the G8 debt agreement is approved by the boards of the World bank, IMF and African development bank, 14 of these countries are in Africa (Benin, Burkina Faso, Ethiopia, Ghana, Madagascar, Mali, Mauritania, Mozambique, Niger, Rwanda, Senegal, Tanzania, Uganda and Zambia). A further nine countries are expected to become eligible over the next two years as they reach completion point of the HIPC initiative, all of these are in Africa (Cameroon, Chad, DRC, Gambia, Guinea, Guinea-Bissau, Malawi, Sierra Leone and Sao Tome and Principe). A further 11 countries are pre-decision point in the HIPC initiative, but would also become eligible when they reach completion point. Of these 11, nine are in Africa (Burundi, CAR, Comoros, Congo, Cote D'ivoire, Liberia, Somalia, Sudan and Togo),

It is essential that the resources freed up by debt relief are used to support poverty reduction. For this reason, the G8 debt agreement provides debt relief only to those countries that have demonstrated their commitment to reducing poverty through implementing a successful poverty reduction strategy paper (PRSP). The countries that qualify for the G8 debt agreement will have reached completion point of the heavily indebted poor countries initiative and have demonstrated their commitment to poverty reduction and sound financial management.

Under the G8 initiative, non HIPC sub-Saharan African countries do not receive multilateral debt relief. However, the UK's continuing bilateral policy of paying the debt service from loans for the AfDB and IDA is open to all low-income countries that are eligible only for concessional IDA lending and are following policies of sound public expenditure management.

### Departmental Bills

**Mr. Amess:** To ask the Chancellor of the Exchequer what Bills were sponsored by his Department in each session since 1979. [10542]

**John Healey:** Details relating to the Sessions 1979–96 are not available. Information relating to primary legislation presented to Parliament by Treasury Ministers since 1997 is set out in the table. It does not include the Finance, Tax Law Rewrite and Consolidated Fund Bills, which are considered by Parliament on an annual basis.

| *Session* | *Bill(s) presented by Treasury Ministers* |
|---|---|
| 1997–98 | Tax Credits (Initial Expenditure) Bank of England |
| 1998–99 | Tax Credits |
| 1999–2000 | Financial Services and Markets Government Resource and Accounting |
| 2000–01 | Social Security Contributions (Share Options) 2001 |
| 2001–02 | European Communities (Finance) National Insurance Contributions Tax Credits |
| 2003–04 | Child Trust Funds National Insurance Contributions and Statutory Payments 2004 |
| 2004–05 | Commissioners for Revenue and Customs Child Benefit 2005 |
| 2005–06 | Regulation of Financial Services (Land Transactions) |

### Life Expectancy Rates

**Mr. Amess:** To ask the Chancellor of the Exchequer what the life expectancy rates for each year between *(a)* 1980 to 1985, *(b)* 1990 to 1995 and *(c)* 1999 to 2004 were for (i) males and (ii) females for (A) Scotland, (B) England, (C) Wales, (D) Northern Ireland and (E) the UK. [10881]

**John Healey:** The following table gives past and projected period expectations of life at birth for males and females in the UK and each of the constituent countries for the years 1980 to 1985, 1990 to 1995 and 1999 to 2004 inclusive.

The period expectation of life figures shown are based on the mortality rates experienced or projected by age and gender for the years stated and are the number of years people would be expected to live from birth if they experienced those mortality rates throughout their remaining lifetimes.

*Period life expectancy at birth by country and selected year*

*Years*

| | *Scotland* | *England* | *Wales* | *Northern Ireland* | *United Kingdom* |
|---|---|---|---|---|---|
| *Males* | | | | | |
| 1980 | 69.0 | 70.8 | 70.0 | 68.3 | 70.5 |
| 1981 | 69.1 | 71.1 | 70.5 | 69.3 | 70.9 |
| 1982 | 69.3 | 71.3 | 70.8 | 70.0 | 71.1 |
| 1983 | 69.7 | 71.6 | 70.8 | 70.0 | 71.3 |
| 1984 | 69.9 | 72.0 | 71.6 | 70.5 | 71.7 |
| 1985 | 70.1 | 71.9 | 71.2 | 70.6 | 71.7 |
| 1990 | 71.1 | 73.1 | 72.8 | 72.2 | 72.9 |
| 1991 | 71.4 | 73.3 | 73.1 | 72.5 | 73.1 |
| 1992 | 71.6 | 73.8 | 73.5 | 73.0 | 73.5 |
| 1993 | 71.4 | 73.7 | 73.1 | 72.7 | 73.5 |
| 1994 | 72.1 | 74.3 | 73.6 | 73.3 | 74.0 |
| 1995 | 72.1 | 74.2 | 73.5 | 73.3 | 74.0 |
| 1999 | 72.7 | 75.2 | 74.3 | 74.2 | 74.9 |
| 2000 | 73.2 | 75.7 | 75.1 | 74.9 | 75.4 |
| 2001 | 73.4 | 76.1 | 75.4 | 75.3 | 75.8 |
| 2002 | 73.4 | 76.2 | 75.8 | 75.5 | 75.9 |
| 2003 | 73.8 | 76.4 | 75.5 | 76.0 | 76.1 |
| 2004[1] | 74.2 | 76.8 | 76.0 | 76.1 | 76.5 |
| *Females* | | | | | |
| 1980 | 75.2 | 76.8 | 76.2 | 75.0 | 76.6 |
| 1981 | 75.4 | 77.1 | 76.4 | 75.9 | 76.9 |
| 1982 | 75.3 | 77.2 | 76.6 | 75.7 | 77.0 |
| 1983 | 75.7 | 77.5 | 76.8 | 76.4 | 77.2 |

*Period life expectancy at birth by country and selected year*

*Years*

| | *Scotland* | *England* | *Wales* | *Northern Ireland* | *United Kingdom* |
|---|---|---|---|---|---|
| 1984 | 75.9 | 77.8 | 77.5 | 76.9 | 77.6 |
| 1985 | 75.8 | 77.6 | 77.2 | 76.8 | 77.4 |
| 1990 | 76.9 | 78.7 | 78.7 | 77.9 | 78.5 |
| 1991 | 77.1 | 78.8 | 78.8 | 78.4 | 78.6 |
| 1992 | 77.3 | 79.2 | 78.9 | 78.9 | 79.0 |
| 1993 | 77.0 | 79.0 | 78.7 | 78.4 | 78.8 |
| 1994 | 77.7 | 79.5 | 79.2 | 78.8 | 79.3 |
| 1995 | 77.7 | 79.4 | 78.9 | 78.8 | 79.2 |
| 1999 | 78.2 | 80.0 | 79.4 | 79.2 | 79.8 |
| 2000 | 78.6 | 80.4 | 80.0 | 79.8 | 80.2 |
| 2001 | 78.8 | 80.7 | 80.1 | 80.3 | 80.5 |
| 2002 | 78.9 | 80.8 | 80.2 | 80.3 | 80.6 |
| 2003 | 78.9 | 80.7 | 80.2 | 80.6 | 80.5 |
| 2004[1] | 79.3 | 81.1 | 80.6 | 80.6 | 80.9 |

[1] Figures for years up to and including 2003 are based on actual data; figures for 2004 are based on projected data.

## Ministry of Defence (Funding)

**Andrew Rosindell:** To ask the Chancellor of the Exchequer what his plans for funding to the Ministry of Defence are over the next five years. [12567]

**Mr. Des Browne:** The Governments Spending Review 2004 published spending plans for the Ministry of Defence from 2004–05 to 2007–08. Spending plans for subsequent years will be published in the next Spending Review. The net additional costs of military operations are met in full from the Reserve.

## PFI Initiatives

**Adam Price:** To ask the Chancellor of the Exchequer pursuant to the answer of 11 July 2005 to question reference 11365, if he will list the private finance initiative schemes undertaken since 1997 which have been classed as on the public sector balance sheet. [12825]

**John Healey:** I refer to the answer given by the former Chief Secretary to the Treasury (Paul Boateng) to the Member for Arundel and South Downs (Mr. Flight) on 5 January 2004, *Official Report*, column 165W.

## Stamp Duty Returns

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer how many stamp duty land tax returns were made in the year ended 31 March 2005 in respect of transactions the value of which was below the stamp duty land tax threshold. [12024]

**John Healey:** The latest quarterly figures for the number of transactions in England, Wales and Northern Ireland in 2004–05, which were not liable to stamp duty land tax, on account of falling below the stamp duty land tax threshold, will be published on 21 July on the HMRC website at http://www.hmrc.gov.uk/stats/survey_of_prop/table16-5.pdf.

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer how many penalties for failure to complete stamp duty land tax returns correctly and on time have been issued since the form was introduced; and what percentage of those penalties have subsequently been rescinded. [12047]

**John Healey:** Approximately 67,000 late filing penalty notices have been issued. Over the same period over 2.6 million returns have been received. Penalty notices are issued where SDLT returns are received more than 30 days after the effective date of the relevant transaction.

A person can appeal against a late filing penalty if they believe that they have a 'reasonable excuse' for filing a return late. Guidance on HMRC's view of what constitutes a 'reasonable excuse' is contained in the leaflet 'Penalties for late land transaction returns' (SD7), which is available on the HMRC website at http://www.hmrc.gov.uk/leaflets/sd7.pdf. We issue a leaflet to each customer covering this information with their Penalty Notice. A figure for the number of cases where it is accepted that there is a 'reasonable excuse' is not available.

## Tax Credits

**Mr. Laws:** To ask the Chancellor of the Exchequer how many people were employed in the administration of tax credits for each quarter from 2003 Q1 to 2005 Q2; and if he will make a statement. [8571]

**Dawn Primarolo:** Information is not available on a quarterly basis.

The number of staff employed in 2003–04 can be found at paragraph 2.2 of the Comptroller and Auditor General's Report for 2003–04 which can be found in the Board's Annual Report at: http://www.hmrc.gov.uk/pdfs/report2004.pdf.

Around 8,200 staff were employed in 2004–05.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many tax credit interim payments were sent out in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; what their total value was in each case; and if he will make a statement. [8585]

**Danny Alexander:** To ask the Chancellor of the Exchequer how many emergency payments have been made by the Inland Revenue tax credits administration in each year since 2000; what the total value was of those emergency payments; and whether the payments were made by (i) cheque, (ii) direct payment and (iii) cash. [10277]

**Mr. Frank Field:** To ask the Chancellor of the Exchequer how many and what value of giro cheque payments made to tax credit claimants were not made via the tax credit computer in each month in *(a)* 2003–04, *(b)* 2004–05 and *(c)* April to June 2005. [11913]

**Dawn Primarolo:** For interim payments made in 2003–04 I refer the hon. Members to page 125 of the Report of the Comptroller and Auditor General 2003–04, which can be found in the Board's Annual Report at http://www.hmrc.gov.uk/pdfs/report2004.pdf.

A breakdown of the interim payments made in 2004–05 and 2005–06 could be made available only at disproportionate cost.

Emergency payments are made by girocheque either in person at a HMRC Enquiry Centre or by post to the taxpayer.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many Customs and Revenue staff were employed in dealing with tax credit *(a)* over-payments, *(b)* appeals and *(c)* complaints in each quarter from Q1 2002 to Q2 2005; and if he will make a statement. [9294]

**Dawn Primarolo:** Quarterly information for the period concerned is not available.

In respect of *(a)* , I refer the hon. Gentleman to my answer of 7 July 2005, *Official Report*, column 623W, to the hon. Member for Tatton (Mr. Osborne). For *(c)*, I refer to the answer I gave the hon. Gentlemen on 6 July 2005, *Official Report*, columns 436–7W. On *(b)*, the full-time equivalent of around 160 staff were working on tax credit appeals at 28 May 2005.

**Mr. Laws:** To ask the Chancellor of the Exchequer (1) what estimate he has made of the take-up rate of working tax credit; [12392]

(2) what proportion of working families with children are receiving tax credits; and if he will make a statement. [12407]

**Dawn Primarolo:** I refer the hon. Member to my reply to him of 4 July 2005, *Official Report*, column 95W. Please note, however, that the figure for the average number of families benefiting from child and working tax credits in 2003–04 given in that answer should have been 5.7 million and not 5.5 million.

### Tax Returns

**Dr. Cable:** To ask the Chancellor of the Exchequer what measures he has taken to encourage individuals to file their self assessment tax returns on time; and how much has been spent on such measures in each of the last five years for which figures are available. [12647]

**Dawn Primarolo:** HMRC (Inland Revenue to April 2005) has taken a number of steps to encourage individuals to file their self-assessment tax returns on time, including:

extensive media campaigns, involving TV, radio, billboards, railway/tube and newspaper advertisements;

advertising campaigns designed to promote e-filing;

increased press advertising in January, specifically aimed at the construction industry and self-employed;

national pro-active telephony campaign to remind those at highest risk of filing late about the deadline and pointing them towards help;

issuing reminder "inserts" with Class 2 NIC quarterly bills (October and January);

raising awareness among agents with publicity in the Department's Tax Bulletin publication;

using the Department's network of local radio broadcasters to promote the deadline message;

local newspaper press releases to advertise inquiry centre opening times around the filing deadline;

front-line staff reminding people about the deadline in day-to-day contact with customers.

On the cost of the measures for the years 2000 to 2004, I refer the hon. Member back to the answers given to him on 19 November 2003, *Official Report*, column 1093W, and to the hon. Member for West Dorset on 5 January 2004.

The figure for media costs for self-assessment for 2004–05 was £7.5 million, inclusive of VAT.

### Policy Costings

**Dr. Cable:** To ask the Chancellor of the Exchequer what costings of *(a)* Liberal Democrat and *(b)* Conservative party policies his Department has (i) undertaken, (ii) co-ordinated in the previous 12 months and (iii) advised upon in the previous 12 months. [7000]

**Mr. Des Browne:** I refer to the hon. Member to HM Treasury's website: www.hm-treasury.gov.uk/about/information/foi_disclosures/foi_disclosures_index.cfm

## HOUSE OF COMMONS COMMISSION

### Air Conditioning (Portcullis House)

**Norman Baker:** To ask the hon. Member for North Devon, representing the House of Commons Commission how much energy on average was used to power the air-conditioning in Portcullis House in the last period for which figures are available. [12644]

**Nick Harvey:** The electricity used for the mechanical ventilation in Portcullis House is not measured separately from other consumption in the building. Electricity is not used to power chillers.

### Lighting

**Norman Baker:** To ask the hon. Member for North Devon, representing the House of Commons Commission what percentage of *(a)* external and *(b)* internal lights within the House estate are (i) movement-activated and (ii) activated by a particular degree of darkness; [12643]

**Nick Harvey:** Around 10 per cent. of the internal areas in the House of Commons parts of the Palace of Westminster, the Norman Shaw buildings, 1 Canon Row, and 7 Millbank have movement-activated lights. In Portcullis House, 1 Parliament Street and 1 Derby Gate there are sophisticated time switch controls. External lights generally are on seasonally adjusted time switch control.

### Office Accommodation

**Mr. Andrew Turner:** To ask the hon. Member for North Devon, representing the House of Commons Commission what area of office accommodation is occupied by *(a)* hon. Members, *(b)* their staff and *(c)* each department of the House for each building of the Parliamentary estate. [12649]

**Nick Harvey:** The following table shows the information sought in relation to offices over the estate as a whole. I will write to the hon. Member with details broken down by each building when this information has been assembled.

| Office occupiers | Area (Sq m) |
|---|---|
| Members | 20,400 |
| Members' staff | 7,500 |
| Clerk's Department | 5,450 |
| Hansard | 1,600 |
| Department of Finance and Administration | 2,050 |
| Serjeant at Arms' Department | 7,950 |
| Library offices | 2,300 |
| Refreshment Department offices | 700 |

### Records

**Mr. Andrew Turner:** To ask the hon. Member for North Devon, representing the House of Commons Commission what records are kept of *(a)* use of security passes, *(b)* telephone calls made and *(c)* emails sent and received by (i) hon. Members, (ii) their staff and (iii) staff of the House; who has access to such records; for how long; and under what conditions such access is maintained in each case. [12648]

**Nick Harvey:** In respect of both Members and staff, the pass system is capable of supplying data on the electronic use of security passes. Such a report would only be produced at the request of the Serjeant at Arms or the Metropolitan police. The records are kept indefinitely. No record is kept of telephone numbers called. Email records are kept for three months after an item has been deleted. The policy on access to those to or from staff of the House is outlined in the Staff Handbook. Emails to and from Members would not normally be accessed and those to and from Members' staff only with permission of the Member concerned.

## TRADE AND INDUSTRY

### Arms Exports/Trade

**Andrew George:** To ask the Secretary of State for Trade and Industry what recent assessment he has made of whether the ultimate end destination of arms exported from the UK meets the provisions of the Export Control Act 2002. [9950]

**Malcolm Wicks** *[holding answer 5 July 2005]:* The Government are satisfied that all licences issued authorising the export from the UK of strategic goods are fully consistent with the provisions of the Export Control Act 2002. In line with Section 9 of that Act, all export licence applications are assessed against the consolidated EU and National Arms Export Licensing Criteria, which require specific consideration under Criterion 7 of the 'existence of a risk that the equipment will be diverted within the buyer country or re-exported under undesirable conditions'. When making our licensing assessment we take full account of the equipment's potential end-use and destination as well as the stated end-use and destination.

**Chris Huhne:** To ask the Secretary of State for Trade and Industry what proportion of UK exports of goods and services was made up from sales of arms in each of the last 10 years; and what proportion was made up of sales of arms to developing countries. [10431]

**Alan Michael:** Information on the proportion of UK exports accounted for by arms is given in the following table:

*UK exports of arms as a percentage of total exports of goods and services 1995 to 2004*

| | UK exports of goods and services | Total UK exports of arms including aerospace equipment | UK exports of arms developing countries[1] excluding aerospace equipment |
|---|---|---|---|
| 1995 | 100.0 | 2.3 | n/a |
| 1996 | 100.0 | 2.8 | n/a |
| 1997 | 100.0 | 2.9 | 0.9 |
| 1998 | 100.0 | 2.6 | 0.4 |
| 1999 | 100.0 | 1.8 | 0.2 |
| 2000 | 100.0 | 1.7 | 0.2 |
| 2001 | 100.0 | 1.5 | 0.1 |
| 2002 | 100.0 | 1.5 | 0.1 |
| 2003 | 100.0 | 1.6 | 0.2 |
| 2004 | 100.0 | n/a | 0.2 |

n/a = Not available.
[1] OECD definition of developing countries
*Source:*
National Statistics, Monthly Review of External Trade Statistics
Ministry of Defence, DASA

**Norman Lamb:** To ask the Secretary of State for Trade and Industry what *(a)* reports and *(b)* representations (i) he and (ii) his officials have received concerning the possible involvement of UK-based companies in the transportation of arms and ammunition from the Balkans and Eastern Europe to the Great Lakes region of Africa; and if he will make a statement. [10835]

**Malcolm Wicks:** I am aware of Amnesty International's recent report "Democratic Republic of Congo: Arming the East". The incidents described therein were first raised by Amnesty International in 2003, and were investigated by HM Revenue and Customs. Any new evidence of breaches of export controls would be a matter for them to pursue as appropriate.

**Norman Lamb:** To ask the Secretary of State for Trade and Industry if he will undertake an investigation into the activities in respect of the transport of arms to the Democratic Republic of Congo, by African International Airways, Italia Ltd. and Platinum Air Cargo; and if he will make a statement. [10836]

**Malcolm Wicks:** Investigations into alleged breaches of UK export controls are a matter for Her Majesty's Revenue and Customs (HMRC) as the investigating authority.

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry what plans he has to review his policy on the export of firearms. [11202]

**Malcolm Wicks:** None. The new controls introduced under the Export Control Act 2002 only recently completed their implementation, on 1 May 2004, and included new controls on the trafficking and brokering of firearms.

### BNFL

**Paul Flynn:** To ask the Secretary of State for Trade and Industry on what date the £575 million loan to BNFL was agreed; for what purpose it was made; and what conditions were set down for its re-payment. [10778]

**Malcolm Wicks:** As part of the balance sheet restructuring of BNFL, the company issued a £575 million debenture on 1 April 2005 to DTI under the direction of my right hon. Friend the Secretary of State made under the Energy Act. Its principal purpose is to provide a mechanism to return cash to the shareholder. The debenture pays 7.5 per cent. interest and interest payments start in December 2006.

**Paul Flynn:** To ask the Secretary of State for Trade and Industry what information he has received from BNFL about proposals for AMEC to buy its British Nuclear Group subsidiary. [10813]

**Malcolm Wicks** *[holding answer 12 July 2005]:* For reasons of commercial confidentiality, it would not be appropriate for me to reveal whether any company has or has not approached BNFL or the Department about acquiring British Nuclear Group.

### British National Space Centre

**Mr. Burstow:** To ask the Secretary of State for Trade and Industry what the main objectives are of the British National Space Centre (BNSC) and what assessment has been made of expenditure by the BNSC funding partners to achieve these objectives. [12542]

**Malcolm Wicks:** The UK Space Strategy 2003–06 prepared by the BNSC set out three objectives;

enhancing the UK's standing in astronomy, planetary and environmental sciences;

stimulating increased productivity by promoting the use of space in Government, science and commerce; and

developing innovative space systems, to deliver sustainable improvement in the quality of life.

The National Audit Office in its report on UK civil space activities published in March 2004 concluded that the BNSC partnership approach is cost effective and made recommendations on project funding, risk assessment and performance monitoring. BNSC have taken steps to implement these recommendations. The Public Accounts Committee also published its report on 9 June 2005. The Government will respond in due course by a Treasury Minute.

### Carbon Sequestration

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry what assessment he has made of the potential for carbon sequestration in the Scottish sector of the North sea as defined by the Civil Jurisdiction (Offshore Activities) Order 1987. [10977]

**Malcolm Wicks** *[holding answer 11 July 2005]:* No assessment has yet been made on the potential for carbon storage in the Scottish sector of the North sea although the British Geological Survey's estimate of storage in the UK sector as a whole is 755 Giga tonnes $CO_2$. More information can be found in the DTI's report "Review of the Feasibility of Carbon Dioxide Capture and Storage in the UK", published in September 2003 and available on the DTI website at

http://www.dti.gov.uk/energy/coal/cfft/co2capture/review.pdf.

### Correspondence

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry when he will reply to the letter dated 12 May from the hon. Member for Banff and Buchan regarding his constituent Mr. J. McGee of Peterhead. [10987]

**Alan Johnson** *[holding answer 12 July 2005]:* The letter from the hon. Member was misdirected within the Department.

The letter has now been redirected to the correct officials for advice and will be responded to as soon as possible. Please accept my apologies for the delay.

### Crude Oil Production

**John Hemming:** To ask the Secretary of State for Trade and Industry what estimate the Department has made of when global production of conventional crude oil will peak. [11302]

**Malcolm Wicks:** The Government's assessment of the remaining lifespan of global oil reserves is set out in the Energy White Paper 2003 "Our energy future—creating a low carbon economy" (http://www.dti.gov.uk/energy/whitepaper/index.shtml). Paragraph 6.15 of the White Paper notes that,

"Globally, conventional oil reserves are sufficient to meet projected demand for around 30 years, although new discoveries will be needed to renew reserves. Together with non-conventional reserves such as oil shales and improvements in technology, there is the potential for oil reserves to last twice as long".

This is consistent with the latest assessment by the International Energy Agency (IEA) in its 2004 World Energy Outlook. The IEA concludes that

"... global production of conventional oil will not peak before 2030 if the necessary investments are made."

The Government remain committed to working with producers, consumers and the international community to improve the conditions for investment in the international oil sector, as well as implementing policies to maximise the economic recovery of the UK's own oil (and gas) reserves and to ease the UK economy away from power supplied primarily through fossil fuel supply. We are also supporting efforts to promote greater transparency in reporting of global oil reserves.

### Departmental Expenditure

**David T.C. Davies:** To ask the Secretary of State for Trade and Industry how much the Department has spent on organising or sponsoring conferences in each of the last five years. [10247]

**Alan Johnson:** The Department does not maintain a central register of conferences organised or sponsored. Responsibility for such conferences rests with individual business units in DTI and therefore this information could be obtained only at disproportionate cost. The Department is therefore unable to provide the figures requested.

### Departmental Officials/Staff

**Mr. Amess:** To ask the Secretary of State for Trade and Industry if he will place in the Library the entry requirements for a *(a)* Range 3 and *(b)* Range 4 official in his Department. [10883]

**Alan Johnson:** The entry requirements for Range 3 and Range 4 officials in my department are: a minimum of five GCSE grade C passes or above including English Language and Mathematics, or equivalent qualifications, or NVQ Business Administration level 2 or an equivalent NVQ level 2 with relevance to office work and containing an assessment or examination in English language, or at least three years' work experience in a comparable position.

This information is published in the application process each time my Department recruits for Range 3 and Range 4 officials. It can also be found, together with additional information about employment terms and conditions, on my Department's website www.dti.gov.uk/opportunities

**David T.C. Davies:** To ask the Secretary of State for Trade and Industry how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11526]

**Alan Johnson:** I refer the hon. Member to table C of civil service statistics 2004 which is available on the internet at:

http://www.civilservice.gov.uk/management_information/statistical_information/statistics/publications/xls/report_2004/table_c.xls

This table shows the numbers of staff by department and agency between 1998 and 2004, on a full-time equivalent basis. Copies of civil service statistics are also available in the Libraries of the House.

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many staff in each Directorate, work at least one day per week from home, broken down by grade. [10526]

**Alan Johnson:** Our data is limited as many flexible working patterns, including working from home, are negotiated locally. However, our staff survey shows that 78 per cent. of staff state that their managers allow working patterns including working at home to help them balance work and home life.

The department introduced a flexible working policy in 2002, including full guidance for managers and staff to ensure that new ways of working (including home working) are available to all individuals in all Directorates and all grades, and that the benefits to stakeholders, customers, managers and staff are maximised.

## Energy Security

**Keith Vaz:** To ask the Secretary of State for Trade and Industry what his policy is on energy security. [11580]

**Malcolm Wicks:** Maintaining reliable supplies of energy is one of four main goals of energy policy set out in the Energy White Paper, published in February of last year.

The White Paper re-affirmed our commitment to a market-based system for maintaining security of supply. It also stated that the Government will not intervene in the market except in extreme circumstances, such as to avert, as a last resort, a potentially serious risk to safety.

Under section 172 of the Energy Act 2004, my right hon. Friend the Secretary of State is required to report annually to Parliament on security of supply. The first report will be published later this month.

## Export Control Organisation

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry with which private sector organisations ASE Consulting held exploratory discussions in relation to the business opportunity in running the Export Control Organisation. [11307]

**Malcolm Wicks:** ASE Consulting approached three organisations and held discussions with two. The Department does not hold information on which parties were approached.

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 4 July 2005, *Official Report*, column 54W, on the Export Control Organisation, which external organisations provided a view on an informal basis. [11615]

**Malcolm Wicks:** Informal discussions in relation to the Review were held with representatives from the Defence Manufacturer's Association, the Export Group for Aerospace and Defence and BAE Systems.

## Hiatt Handcuffs

**Miss Kirkbride:** To ask the Secretary of State for Trade and Industry whether Hiatt handcuffs have any current export licences for oversize handcuffs to *(a)* the US and *(b)* elsewhere. [10856]

**Malcolm Wicks:** This is commercially confidential information and as such is exempt from disclosure. Summary information on the goods licensed to each destination is however published in the Government's Annual and Quarterly Reports on Strategic Export Controls which are available from the Libraries of the House and the Export Control Organisation website www.dti.gov.uk/export.control respectively. The goods summary in question is "handcuffs".

Particular scrutiny is given to every application to export oversized handcuffs to assess the risk of there being use as leg irons.

## Hydro Power

**Mr. Gray:** To ask the Secretary of State for Trade and Industry how many micro generators using hydro power contribute to the main grid. [12664]

**Malcolm Wicks:** 239 small-scale (i.e. with a capacity below 5MW) hydro generators accounted for 184MW of installed generation capacity at the end of 2004. It is not clear how much of this capacity is exported to the distribution network, rather than consumed by the generator, as the number will change on a daily basis according to the level of demand by the generator themselves and the total electricity generated on a given day.

**Mr. Gray:** To ask the Secretary of State for Trade and Industry what electricity price is guaranteed to microgenerators using converted water mills; and for how long their price is guaranteed. [12666]

**Malcolm Wicks:** The levels of electricity generated by a converted water mill will vary according to the size of the installation, the flow of the water and other such factors. There is no price guarantee for the electricity exported to the distribution network. Any payment for this electricity will be subject to agreement between the relevant distribution network operator and the generator.

Electricity generated by converted water mills will be eligible under the Renewables Obligation allowing generators to claim Renewable Obligation Certificates.

**Mr. Gray:** To ask the Secretary of State for Trade and Industry what estimate he has made of the capital cost of converting a water mill to microgeneration. [12667]

**Malcolm Wicks:** The cost of converting a water mill to become a microgeneration station depends heavily on the site in question and the size of the scheme. A study by BSD Ltd. in September 2002 suggests that schemes typically cost anything between £1,000 and £3,000 per installed kW, and much more than this for small domestic scale schemes. My Department has recently put out a tender for some research that will look at the costs and benefits of all forms of microgeneration including micro-hydro.

**Mr. Gray:** To ask the Secretary of State for Trade and Industry if he will make a statement on the economic viability of microgeneration using converted water mills. [12668]

**Malcolm Wicks:** The economic viability of converted water mills acting as microgenerators depends on many different factors—the cost of the conversion, the generating capacity of the installation, the actual output of the generating station, agreement with the relevant distribution network operator on tariff for any electricity exported, etc.

My Department has recently put out a tender for some research to look at the costs and benefits of all forms of micro generation including micro-hydro. This study will feed into work on the Government's strategy for the promotion of microgeneration which will be published next year.

### International Trade Advisers

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry how many international trade advisers are employed by regional development authorities; and if he will make a statement. [10485]

**Ian Pearson:** International Trade Advisers are not employed by Regional Development Agencies. They are funded by UK Trade and Investment, which acts as the RDAs' International Trade arm, and are employed by local providers of business support services (mostly Business Link Operators). In the 2005–06 financial year, UK Trade and Investment is making funding available for a network of 282 International Trade Advisers across the nine English regions.

### Liquid Natural Gas (Equatorial Guinea)

**Bob Spink:** To ask the Secretary of State for Trade and Industry what assessment he has made of the potential for Equatorial Guinea to supply liquid natural gas to the UK. [12190]

**Malcolm Wicks:** We have not made a specific assessment of the Liquefied Natural Gas (LNG) potential in Equatorial Guinea, although we are aware that the development of the LNG sector offers greater opportunity for the export of such natural gas reserves. The sourcing of gas supplies from overseas is a matter for commercial operators who have every incentive to make their own assessment of the merits of supplies from different countries.

### Lost/Stolen Goods

**Mr. Amess:** To ask the Secretary of State for Trade and Industry if he will list the items reported within his Department as being lost or stolen, together with the approximate value of each item, in each of the last three years for which figures are available. [10520]

**Alan Johnson:** I refer the hon. Member for Southend, West to the answer given to the hon. Member for Tatton (Mr. Osborne) on 10 January 2005, *Official Report*, column 146W, for items reported lost and stolen each year until end 2005.

The latest figures reported for 2005 are:

| *Description* | *Number reported missing* |
|---|---|
| Laptop | 14 |
| Flat screen | 0 |
| Mobile phone | 11 |
| Handheld computers | 1 |
| Desk computer | 1 |
| Multimedia | 8 |
| Laptop accessories | 0 |
| Mobile phone accessories | 2 |
| Handheld computers accessories | 0 |
| Communication accessories | 0 |
| Computer peripherals | 2 |
| Consumables | 9 |
| Personal effects | 20 |
| Cash | 12 |
| Total | 80 |

The Department's records do not differentiate between items reported lost or stolen, or those belonging to the Department or individuals. The value of the reported losses for 2005 was not recorded.

### Luneside Link

**Geraldine Smith:** To ask the Secretary of State for Trade and Industry what the Luneside Link, as referred to in the context of the Northern Route (Heysham/M6 link) in the North West Development Agency Regeneration and Economic Development Assessment Final Report of January 2005, is. [12654]

**Alun Michael:** The Regeneration and Economic Development Assessment Final Report states that the Luneside link is a proposed new bridge across the River Lune, linking Morecambe Road and the quayside at Luneside West regeneration area. It also states that the link would provide a new river crossing, bypassing the railway 'barrier' and the residential areas to the east.

### Manufacturing

**Mr. Crabb:** To ask the Secretary of State for Trade and Industry what steps he is taking to prevent UK manufacturing jobs being relocated to countries where labour costs are lower. [12472]

**Alun Michael:** The Government want a successful manufacturing sector in this country and naturally we would like to keep as many jobs in the UK as possible. However it is not our policy to intervene in the location decisions of private companies. The Government's manufacturing strategy focuses on helping companies to meet the challenge from countries with low labour costs by moving to high value, high skill manufacturing. In addition UK trade and investment seeks to encourage foreign direct investment which in 2004 created/safeguarded over 38,000 manufacturing jobs.

### MG Rover

**Charles Hendry:** To ask the Secretary of State for Trade and Industry on what date his Department was first informed of the financial difficulties facing MG Rover; and on what date *(a)* Ministers and *(b)* officials in his Department first entered into discussions with executives at MG Rover. [5869]

**Ian Pearson:** From the time that BMW sold the company it was always clear that MG Rover would need to find a partner if it was to be successful in the long-term. From its regular contact with the company (primarily at official level), the Department was aware that the need was becoming more pressing as time went on.

MG Rover made a request for a bridging loan facility from the Government at a meeting on 21 February 2005.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry if he will make a statement on his Department's discussions with *(a)* MG Rover management executives and *(b)* representatives of the Shanghai Automotive Industry Corporation in the month of (i) January, (ii) February, (iii) March, (iv) April and (v) May. [9357]

**Ian Pearson** *[holding answer 4 July 2005]:* Clearly the period between January and April was one where important decisions were being taken by MG Rover's management and Shanghai Automotive Industry Corporation (SAIC). Consequently DTI Ministers and officials had a number of discussions with MG Rover management and SAIC although I can confirm the Department has had no discussions with either during May.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry pursuant to the answer to the hon. Member for Birmingham, Yardley (John Hemming) of 6 June 2005, *Official Report*, column 308W, on MG Rover, if he will list the strict criteria under which the bridging loan facility was to be provided. [9643]

**Ian Pearson** *[holding answer 4 July 2005]:* The fundamental points on which the Government would have required satisfaction before making a bridging loan facility available were confidence that the deal with SAIC would proceed and that the facility would have been repaid in full as a result. Any loan would have been secured against available assets and borne a commercial rate of interest.

The formulation of the detailed criteria was, however, integral to the policy making process and their release in full would not be in the public interest.

**Charles Hendry:** To ask the Secretary of State for Trade and Industry on what date the Government first received a request for a bridging loan to aid the completion of a commercial deal to help secure the future of MG Rover. [9677]

**Ian Pearson:** The Government received a letter from John Towers on 15 March 2005 formally requesting a loan until completion of the deal with SAIC. An oral request was made in a meeting between Kevin Howe and officials on 21 February.

### Miners' Compensation

**Paul Farrelly:** To ask the Secretary of State for Trade and Industry how much compensation has been paid so far to claimants from Newcastle-under-Lyme for coal mining industrial injuries. [9744]

**Malcolm Wicks:** As at 31 May 2005, £6 million had been paid for chronic obstructive pulmonary disease and £3.8 million for vibration white finger.

**Paul Farrelly:** To ask the Secretary of State for Trade and Industry how much has been paid by his Department in fees to each firm of solicitors dealing with coal mining industrial injury compensation under the British Coal Claims Handling Agreement; how many *(a)* claims have been made and *(b)* cases have been settled by each firm; and how much has been paid out in compensation through each firm. [9905]

**Malcolm Wicks:** A table containing the requested information entitled "Claim receipts, settlements, damages and costs paid (COPD/VWF) by solicitor" has been placed in the Libraries of the House.

**John Mann:** To ask the Secretary of State for Trade and Industry how many medicals for *(a)* chronic obstructive pulmonary disease, *(b)* vibration white finger and *(c)* hearing loss have taken place at the Union of Democratic Mineworkers' office, Berry Hill, Mansfield since 1999; and at what cost to his Department. [10459]

**Malcolm Wicks:** 7,714 medicals in total in relation to vibration white finger have taken place at Berry Hill, Mansfield since 1999. This figure excludes the pilot examinations that took place up to 1 September 1999. The Department's claims handlers do not record how many chronic obstructive pulmonary disease or hearing loss medicals have taken place at individual centres. The Department therefore is unable to assess the total cost of the medicals undertaken at Berry Hill.

**John Mann:** To ask the Secretary of State for Trade and Industry what processes are in place to ensure that deceased claims under the miners compensation scheme are submitted by genuine relatives. [10460]

**Malcolm Wicks:** The Department's Claims Handlers (Capita) will only issue settlement payments under the schemes once they are in receipt of the appropriate documentation (Grant of Probate/Letters of Administration)

showing the legal beneficiary of a deceased miner's claim. At the onset of a claim it is the responsibility of the solicitors registering the case to ensure the person they are representing will ultimately be the entitled beneficiary of any compensation.

**John Mann:** To ask the Secretary of State for Trade and Industry how many appeals to medical examinations have been *(a)* pursued and *(b)* accepted since 1999 under the Miners Compensation Scheme. [10492]

**Malcolm Wicks:** Since 1 January 1999, 44,154 appeals relating to respiratory disease medical examinations and 4,182 appeals relating to vibration white finger medical examinations have been lodged. The number of successful appeals is not recorded separately but incorporated into all claims in which revised offers have been issued. Therefore, this figure is not available.

**John Mann:** To ask the Secretary of State for Trade and Industry what verification process is used for the results of medical examinations under the Miners Compensation Scheme, for *(a)* the Government and *(b)* the claimant; and how often this process has been used. [10493]

**Malcolm Wicks:** For both chronic obstructive pulmonary disease and vibration white finger, the medical contractors have well developed clinical governance processes in place to assure the medical quality of the work undertaken. The quality of the reports is verified by trained medical auditors using a defined audit process of statistically valid sample cases. In addition, an independent Medical Reference Panel undertake a quality review, each month, on a number of completed medical reports. Members of the Medical Reference Panel are jointly appointed by the Department and the Claimants' Solicitor Group. Finally, a clerical audit is completed on every medical report. These quality assurance and verification processes safeguard both the claimant and the Department but the claimant also has redress through a disputes procedure.

**John Mann:** To ask the Secretary of State for Trade and Industry what the average settlement *(a)* to the claimant and *(b)* in solicitors' and medical fees was for coal health claims relating to deafness settled by his Department in the last year for which figures are available. [10723]

**Malcolm Wicks** *[holding answer 11 July 2005]:* Noise Induced Hearing Loss Claims are not handled under a specific scheme. There are two types of claim, one settled under the Iron Trade Tariff and the other through Common Law. The average settlement under the Iron Trade Tariff for claimants is approximately £1,500 with costs and disbursements ranging from £485 to £800 + VAT. Claims under Common Law have an average settlement of between £3,000 and £3,500. Costs paid are negotiated and can range from £2,000 to £4,000.

**John Mann:** To ask the Secretary of State for Trade and Industry which claims handlers have been referred by the Coal Health Claims Unit to the Corporate Governance Unit for investigation. [10724]

**Malcolm Wicks** *[holding answer 11 July 2005]:* No such referrals have been made.

**John Mann:** To ask the Secretary of State for Trade and Industry how many requests were made to his Department to investigate coal health claims handlers through the Department's Corporate Governance Unit in *(a)* 2003 and *(b)* 2004. [10725]

**Malcolm Wicks** *[holding answer 11 July 2005]:* No such requests have been received.

**John Mann:** To ask the Secretary of State for Trade and Industry if he will suspend payments of fees to the Union of Democratic Mineworkers and Vendside in respect of coal health claims; and if he will make a statement. [10794]

**Malcolm Wicks:** I refer my hon. Friend to my written statement to the House of 30 June 2005, *Official Report*, columns 66–68WS.

### National Gas Transmission System Reinforcements

**Mr. Roger Williams:** To ask the Secretary of State for Trade and Industry if he will publish the environmental impact assessment that has been made on the gas pipeline serving the National Gas Transmission System Reinforcements. [12132]

**Malcolm Wicks:** Under the Gas Transporter Pipe-line Works (Environmental Impact Assessment) Regulations 1999 the environmental impact assessment for a proposed pipeline is made available to the public by the developer. A copy of it is also made available for public inspection at the premises of the relevant local planning authority.

**Mr. Roger Williams:** To ask the Secretary of State for Trade and Industry what discussions he has had with colleagues in the National Assembly for Wales on the structure of planning decisions relating to the pipelines serving the National Gas Transmission System Reinforcements. [12133]

**Malcolm Wicks:** I have had no discussions with ministerial colleagues in the Welsh Assembly Government on the decisions making mechanism for these pipelines.

**Mr. Roger Williams:** To ask the Secretary of State for Trade and Industry if he will make a statement on the impact of the proposed National Gas Transmission System Reinforcements on the environment. [12134]

**Malcolm Wicks:** The environmental impact of a proposed gas pipeline is something to be properly probed in the consideration of any application for consent under the Gas Transporter Pipe-line Works (Environmental Impact Assessment) Regulations 1999.

### Non-polluting Energy Technologies

**Keith Vaz:** To ask the Secretary of State for Trade and Industry what steps he is taking to promote fuel-cell and other non-polluting technologies in tackling climate change. [11581]

**Malcolm Wicks:** Fuel cells are still mainly at the pre-commercial stage. Significant cost reductions and increased durability will be required in order for them to be competitive with existing technologies, particularly for transport applications. The Department supports industrial collaborative research and development of

fuel cells under the DTI Technology Programme. On 14 June 2005 I announced additional funding of £15 million over four years to cover fuel cell and hydrogen demonstrations, part of a £40 million package which also included carbon abatement technologies.

DTI also provides support for a range of other non-polluting technologies through the DTI Technology Programme and various capital grant programmes.

### North West Development Agency

**Geraldine Smith:** To ask the Secretary of State for Trade and Industry how many North West Development Agency vision boards there are in the North West Region. [10157]

**Alun Michael:** The North West Development Agency has encouraged the establishment of three local vision boards in the North West—Burnley, Lancaster and Preston.

An important function of the NWDA is to provide leadership and encourage partnership working in delivery of the Regional Economic Strategy (RES). Across the Region, partnerships' capacity to properly engage in this varies greatly, particularly in securing private sector input. In key urban areas facing change, these vision boards are intended to provide dynamic, innovative and visionary support and advice for the development of local economic growth plans with a strong private sector input. They work closely with their relevant local authority and the relevant Local Strategic Partnership.

**Geraldine Smith:** To ask the Secretary of State for Trade and Industry how much Government funding has been provided for the vision boards set up by the North West Development Agency. [10159]

**Alun Michael:** The North West Development Agency has encouraged the establishment of three local vision boards in the north-west Burnley, Lancaster and Preston.

The NWDA has contributed the following amounts to enhance the capacity of the vision boards to steer and influence the development of economic regeneration plans; to support master-planning and to research the local economy:

*Total 2005–06 to 2007–08*

| *Vision board* | *£000* |
|---|---|
| Preston | 207 |
| Lancaster | 200 |
| Burnley | 178 |

### Nuclear Power

**Mr. Ian Austin:** To ask the Secretary of State for Trade and Industry if he will publish the Board of Inquiry report on the Thermal Oxide Reprocessing Plant at Sellafield. [12620]

**Malcolm Wicks:** The internal Board of Inquiry report on the incident at the Thermal Oxide Reprocessing Plant (Thorp) was published by British Nuclear Group and is available on their website at www.britishnuclargroup.com.

**Norman Baker:** To ask the Secretary of State for Trade and Industry what assessment he has made of the likelihood of further plant failures at Thorp. [11266]

**Malcolm Wicks** *[holding answer 11 July 2005]:* The Nuclear Decommissioning Authority is preparing advice on the options for the future of Thorp. That advice will include an assessment of the likelihood of further failure of the plant.

### Patent Act

**Mr. Forth:** To ask the Secretary of State for Trade and Industry what the commencement date is for the part of the Patent Act 2004 relating to post-grant amendments. [11969]

**Alan Johnson:** The part of the Patents Act 2004 relating to post-grant amendment is one of several provisions which will bring UK patents legislation into line with the revised European Patent Convention ("EPC"). All such provisions will be brought into force at the same time as the revised EPC itself comes into force, which is desirable in order to maintain consistency between the UK and European patents systems. It is uncertain exactly when this will be, because the revised EPC takes effect 2 years after the 15th state has ratified or acceded, or (if earlier) three months after the final state has ratified or acceded. At present I understand that 14 states have done so, and therefore that the revised EPC, and the corresponding provisions in the 2004 Act, are very unlikely to take effect until mid-2007 at the earliest.

### Refurbishment Costs

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what the cost was of refurbishing 1 Victoria Street; and if he will make a statement. [10521]

**Alan Johnson:** The refurbishment of 1 Victoria Street is a key part of the Department's two roof programme to rationalise its central London estate and will allow the Department to reduce its accommodation by approximately 30 per cent. The cost of the recently completed phase 1 of the programme covering the majority of the building is approximately £12 million and has resulted in the release of accommodation in four other London buildings which will generate long term savings of £7.7million annually.

### Renewable Energy

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry (1) what consultation preceded the decision to allow large hydro generators to downrate their plant below 20 MW to qualify for accreditation for renewables obligations certificates where turbine refurbishment had taken place; and if he will make a statement; [12517]

(2) whether the decision on allowing new or refurbished hydro plant below 20MW to qualify for renewables obligations certificates was made *(a)* before and *(b)* after the end of the public consultation. [12277]

**Malcolm Wicks:** The decision to allow all new and refurbished hydro plant under 20 MW to be eligible for renewables obligation certificates (ROCS) was made after the Renewables Obligation Preliminary

Consultation, published October 2000 and was included within paragraph 2.17 of the Renewables Obligation Statutory Consultation, published August 2001 as:

"The majority of responses to the preliminary consultation supported the exclusion of large scale hydro stations, which were constructed under public ownership. However, concern was expressed by the industry over the age of current stations and the need to refurbish them, and there has also been concern that some potential new developments could not proceed without support. We therefore propose to exclude existing stations with a declared net capacity (DNC) of over 20MW from the Obligation, but to include any station first commissioned after the date of the Order is made, regardless of capacity. We believe that these measures will encourage the refurbishment of existing stations of up to 20MW and will support any future scheme if planning permission can be secured".

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry if he will commission research on the transmission charging regime for generators in Scotland to identify barriers to the development and implementation of renewable and carbon capture and abatement technologies in Scotland. [10300]

**Malcolm Wicks** *[holding answer 7 July 2005]:* Responsibility for approving a transmission charging methodology rests with the independent regulator, Ofgem. Ofgem approved National Grid Company's proposed methodology in February 2005, following extensive consultation with the industry, and a consideration of the environmental impacts of the proposals. The Department commissioned independent consultants to investigate the impact of transmission charges on renewable generation in Scotland. Their report will be published later this summer, alongside the Government's proposals for adjusting transmission charges for renewable generators in a specified area of the North of Scotland.

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry whether the review of the Renewables Obligation scheme has examined *(a)* hydro generators of over 20 MW capacity down-rating plant in order to apply for accreditation by Ofgem for renewables obligations certificates, *(b)* provision of renewables obligations certificates to hydro plant below 20 MW that upgrade to over 20 MW capacity, *(c)* the removal of the 20 MW limit for hydro plant receiving renewables obligations certificates and *(d)* the creation of a specific regime for hydro plant to encourage increases in output from this source. [12260]

**Malcolm Wicks:** I am able to confirm that the current review of the Renewables Obligation has not examined either hydro generators of over 20 MW capacity down-rating plant in order to apply for accreditation by Ofgem for renewables obligations certificates, provision of renewables obligations certificates to hydro plant currently below 20 MW that upgrade to over 20 MW capacity, the removal of the 20 MW limit for hydro plant receiving renewables obligations certificates or, the creation of a specific regime for hydro plant to encourage increases in output from this source.

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry if he will estimate the impact on output from hydro generators of the decision to allow down rating of plant to qualify for renewables obligation certificates; what the output from hydro in *(a)* the UK and *(b)* Scotland was in each year since 1997; and what the public subsidy for hydro per kw/h was in each year since 1997. [12276]

**Malcolm Wicks:** Output (generation) by natural flow hydro for the years 1997–2004 in gigawatt hours is:

| | *UK* | *Scotland* |
|---|---|---|
| 1997 | 4,169 | [1]— |
| 1998 | 5,117 | [1]— |
| 1999 | 5,335 | [1]— |
| 2000 | 5,085 | 4,665 |
| 2001 | 4,055 | 3,737 |
| 2002 | 4,788 | 4,455 |
| 2003 | 3,228 | 2,984 |
| 2004 | 4,930 | [2]— |

[1] Not available.
[2] Not yet available.

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry whether the review of the renewables obligation certificates is investigating the extension of the obligation in some form to cover *(a)* carbon capture and sequestration schemes, *(b)* carbon abatement retro-fit for existing coal and gas fired power stations and *(c)* plant which combines use of bio-mass with existing coal burning to reduce carbon emissions. [12278]

**Malcolm Wicks:** I can confirm that the current consultation of the Renewables Obligation is not looking at either carbon capture and sequestration schemes, carbon abatement retro-fit for existing coal and gas fired power stations or plant which combines use of bio-mass with existing coal burning to reduce carbon emissions.

### Royal Commission on Environmental Pollution

**Mr. Cox:** To ask the Secretary of State for Trade and Industry what account he took of the Royal Commission on Environmental Pollution's recommendation, in May 2004, that power-only generation should be excluded from Government funding on efficiency grounds in making his decision to support the WINBEG project proposed to be situated in Winkleigh, Devon; what evidence he has evaluated that demonstrates that WINBEG will meet the Department's efficiency criterion; and if he will make a statement. [11698]

**Malcolm Wicks** *[holding answer 13 July 2005]:* The Government responded to the RCEP Report in October 2004, rejecting the recommendation that power-only projects should be excluded from Government funding.

The decision to support the WINBEG project under the Bioenergy Capital Grants Scheme was made in 2003—before the publication of the RCEP Report.

The WINBEG application included an independent engineers report which covered a number of areas, including the conversion efficiency. The application was independently assessed against a published range of criteria.

### Royal Lancashire Show

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how much funding was given via the North West Development Agency (NWDA) to the Royal Lancashire Show in *(a)* 2003, *(b)* 2004 and *(c)* 2005;

what future allocations have been agreed for the Royal Lancashire Show by the NWDA; how the money has been spent; and what audit checks are carried out on the money paid. [13012]

**Alun Michael:** The North West Development Agency made a financial contribution to the Royal Lancashire Show in 2003 through the Rural Development Programme of the Lancashire Rural Recovery Partnership. The programme provided a grant of £32,578 towards marketing costs for the show; the staging of a Lancashire produce event; and supporting elements of additional infrastructure.

Final payment for the grant was not made until satisfactory information on outputs and certified invoices were received, by the Lancashire Rural Recovery Partnership, in March 2004.

The Agency has made no further financial contribution to the show beyond 2003 and no future funding allocations have been made.

### Royal Mail (Misdelivery)

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many complaints were made in each of the last five years to his Department by members of the public about the misdelivery of mail by the Royal Mail; and if he will make a statement. [12284]

**Barry Gardiner:** The Department receives complaints from the public, about Royal Mail services on a regular basis. The Department does not, however, break the correspondence down by type of complaint.

Postwatch is responsible for handling complaints from the public where the complainant is not satisfied with the response he or she has received from Royal Mail.

Postwatch's annual reports contain a detailed breakdown, by type, of the complaints that they receive. Copies of Postwatch reports can be found on their website www.postwatch.co.uk

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many staff employed by Royal Mail were *(a)* charged with and *(b)* convicted of failure to deliver post in each of the last five years for which figures are available. [12285]

**Barry Gardiner:** This is an operational matter for Royal Mail plc and the chief executive has been asked to reply direct to the hon. Member.

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many items of mail were delivered to the wrong address by the Royal Mail in each of the last five years; and if he will make a statement. [12286]

**Barry Gardiner:** This is an operational mater for Royal Mail plc. and the Chief Executive has been asked to reply direct to the hon. Member.

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many Royal Mail staff were *(a)* charged with and *(b)* convicted of theft of mail in each of the last five years. [12287]

**Barry Gardiner:** This is an operational matter for Royal Mail plc. and the Chief Executive has been asked to reply direct to the hon. Member.

### Security Breaches

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many staff in his Department have *(a)* received official warnings and *(b)* faced disciplinary procedures following breaches of security in each year since 1997. [10528]

**Alan Johnson:** The information is as follows:

| | *Number of warnings issued* | *Other disciplinary penalty imposed* |
|---|---|---|
| 2004 | 7 | 1 |
| 2003 | 11 | 0 |
| 2002 | 7 | 1 |
| 2001 | 8 | 1 |
| 2000 | 7 | 0 |

*Note:*
Figures for years prior to 2000 could be obtained only at disproportionate cost.

### Stadco

**Daniel Kawczynski:** To ask the Secretary of State for Trade and Industry what assistance his Department's Rover Task Force can provide to Stadco in Shrewsbury. [8698]

**Ian Pearson:** The Stadco Group has benefited from the wage replacement scheme established by the MG Rover Taskforce.

The Department and AWM are in discussion with the company but, as the Shrewsbury plant is located outside the assisted area, further assistance is limited by European State Aid rules.

### Stallion Military Vehicles

**Roger Berry:** To ask the Secretary of State for Trade and Industry whether the export of Stallion (4x4), Mark 3 and Mark 4, military vehicles manufactured by Ashok Leyland requires a licence; whether they are classified as category ML6A; and whether Ashok Leyland has ever applied for a rating for these vehicles from the technical assessment unit at the Export Control Organisation. [12030]

**Malcolm Wicks** *[holding answer 14 July 2005]:* From the information available on the company website, it appears these vehicles are specially designed for military use and therefore potentially require an export or trade licence under ML6a of the UK's Military Control list. An export licence would only be required if the goods were exported from the UK, and a trade licence would only be required for the transfer of the goods between third countries if there were some UK involvement, as defined in the relevant legislation. An actual rating and licensing decision will be made on a case by case basis.

It is not our practice to comment on inquiries to ECO by exporters as this is commercial confidential.

### Two Roof Strategy

**Mr. Amess:** To ask the Secretary of State for Trade and Industry if he will make a statement on his Department's two roof strategy. [10522]

**Alan Johnson:** The two roof programme is a ground breaking change programme to rationalise our central London estate and transform the way we use our workspace. This core element of the DTI's Efficiency Programme offers a new and radical approach to workspace utilisation and will allow the Department to reduce its accommodation by approximately 30 per cent. Starting in 1 Victoria Street, the accommodation is being remodelled as part of a wider change programme to support team based desking in a flexible, open plan working environment on the basis of providing on average eight desks for every 10 people to be accommodated. This has enabled us to increase the capacity of our main HQ building from 1,680 under the original, traditional approach to approximately 2,400 now and to release other buildings on the estate for reuse or disposal. This highly successful change programme will now be applied to the rest of our London accommodation.

### US-UK Technology Transfer

**Mr. Soames:** To ask the Secretary of State for Trade and Industry what steps he is taking to improve technology transfer between the US and the UK. [9391]

**Malcolm Wicks** *[holding answer 4 July 2005]:* DTI has supported the Cambridge Massachusetts Institute of Technology Institute (CMI) in a £65.1 million project which is developing models for university/business collaboration. The Department is committed to evaluating, CMI's work, and is working with CMI and its stakeholders to identify opportunities for CMI to compete for further funds to help sustain and develop its key activities, and to disseminate models for Knowledge Exchange.

In the DTI's Five Year Programme the Government announced its intention to provide £6 million to support new work with high-tech clusters in the US.

### Vision Boards

**Geraldine Smith:** To ask the Secretary of State for Trade and Industry how many vision boards have constitutions. [10158]

**Alun Michael:** The local vision boards established so far do not have a formal status, they are informal partnerships. They are expected to establish clear objectives, roles and responsibilities and simple governance and operational arrangements. This is a similar model to that which has successfully served many SRB and other informal partnerships over the years.

### Waste Electrical and Electronic Equipment Directive

**Peter Luff:** To ask the Secretary of State for Trade and Industry what definition of electrical waste he uses in relation to implementation of the Waste Electrical and Electronic Equipment Directive. [11755]

**Malcolm Wicks:** The Government expect to implement the definition of WEEE used in the Directive;

> "'WEEE' means electrical or electronic equipment (EEE) which is waste within the meaning of Article 1*(a)* of Directive 75/442/EEC, including all components, subassemblies and consumables which are part of the product at the time of discarding".

The Directive states that

> "'EEE' means equipment which is dependent on electric currents or electromagnetic fields in order to work properly and equipment for the generation, transfer and measurement of such currents and fields falling under the categories set out in Annex 1A (of the Directive) and designed for use with a voltage rating not exceeding 1,000 Volt for alternating current and 1,500 Volt for direct current".

The scope of EEE covered by the Regulations implementing the WEEE Directive will be as set out in Annex 1B of the Directive.

**Peter Luff:** To ask the Secretary of State for Trade and Industry whether batteries and battery-operated goods are within the remit of the Waste Electrical and Electronic Equipment Directive. [11756]

**Malcolm Wicks:** The Government do not consider that batteries are included in the scope of the WEEE Directive. However, a wide range of battery operated electrical and electronic equipment (EEE) is within the scope of the Directive. The Directive provides that where assemblies, such as batteries, are fixed inside EEE when it is discarded, they will be deemed to be part of the equipment.

**Peter Luff:** To ask the Secretary of State for Trade and Industry (1) whether retailers will be required to *(a)* maintain a register of all electronic and electrical items returned to their store and *(b)* insist on the consumer producing the old good before selling a new electrical or electronic product under the Waste Electrical and Electronic Equipment Directive; [11757]

(2) at what quantity retailers most dispose of their store of returned goods under the Waste Electrical and Electronic Equipment Directive; and whether this will involve the retailer *(a)* paying for the goods to be collected by a registered disposal firm and *(b)* depositing the goods at a registered collection point; [11759]

(3) what estimate he has made of the costs to retailers of complying with the EU Waste Electrical and Electronic Equipment Directive; [11760]

(4) whether his Department has carried out a small business regulatory impact assessment on the proposals for Environment Agency fees relating to the Waste Electrical and Electronic Equipment Directive; [11761]

(5) what discussions the Department has had with companies retailing electrical and electronic equipment on reducing waste arising from such equipment. [11762]

**Malcolm Wicks:** The WEEE Directive requires that retailers provide free take-back of WEEE they collect in-store. The Government are developing its implementation planning for the Directive in order to offer retailers several options for how they can take back the household WEEE they collect.

The Government obtained flexibility for UK retailers to discharge their obligations under the WEEE Directive. Retailers will have a choice to comply either

by (i) offering take-back services in-store to consumers; or (ii) by showing membership of an approved compliance scheme which will support an alternative national network of facilities for separate collection of household WEEE. This flexibility enables retailers to provide alternatives to the in-store take back provision set out in the Directive. In addition, the Government announced in March this year that it would delay implementation of the Directive to January 2006. The course the Government have taken will provide cost savings to retailers compared to the estimates from the British Retail Consortium (BRC) of £200-£500 million per annum for in-store take back. Ultimately the costs to retailers will depend on the retailer's choice of compliance and the volume of WEEE returned to them. The Government are proposing to implement the WEEE Directive with as little disruption as possible to current retailer practices, while achieving the environmental aims of the Directive.

The Government have had extensive discussions with many retailers on implementation of the Directive. It has encouraged the BRC to develop proposals for a retail compliance scheme to provide a national collection network, including funding upgrades to civic amenity sites' facilities for separate collection of WEEE. The BRC has proposed a fund for a retail compliance scheme of some £8.2 million over the three years to 2008 to upgrade all civic amenity sites in the UK, including funds to maintain the infrastructure over the same period.

Where retailers choose to comply with their obligation by offering in-store take back services, they will be expected to do this on a "one-to-one" basis, as the Directive requires. This means when selling new equipment they will have to take back equipment of a similar type or fulfilling an equivalent function as the new equipment being supplied.

It is not expected that there will be a requirement on retailers to register all items of WEEE collected in this way; or that retailers would have to store WEEE only up to a certain, stipulated quantity.

Retailers choosing to provide in-store take-back services would be expected to store WEEE they collect according to the requirements of the Directive to optimise its potential re-use or recycling and recovery. This should include providing for any necessary storage on hard standing and weather-proofing, as required by the Directive.

The Government published a Regulatory Impact Assessment with its consultation paper of 24 May 2005 on proposed Environment Agency fees related to the WEEE Directive. This is available at: http://www.dti.gov.uk/sustainability/weee/WEEE_fees_RIA.pdf

**Peter Luff:** To ask the Secretary of State for Trade and Industry whether, under the Waste Electrical and Electronic Equipment Directive, retailers will be required to store goods returned to them on site. [11758]

**Malcolm Wicks** *[holding answer 12 July 2005]:* The WEEE Directive requires that retailers provide free take-back of WEEE they collect in-store. The Government are developing its implementation planning for the Directive in order to offer retailers several options for how they can take back the household WEEE they collect.

The Government obtained flexibility for UK retailers to discharge their obligations under the WEEE Directive. Retailers will have a choice to comply either by (i) offering take-back services in-store to consumers; or (ii) by showing membership of an approved compliance scheme which will support an alternative national network of facilities for separate collection of household WEEE. This flexibility enables retailers to provide alternatives to the in-store take back provision set out in the Directive. In addition, the Government announced in March this year that it would delay implementation of the Directive to January 2006. The course the Government have taken will provide cost savings to retailers compared to the estimates from the British Retail Consortium (BRC) of £200-£500 million per annum for in-store take back. Ultimately the costs to retailers will depend on the retailer's choice of compliance and the volume of WEEE returned to them. The Government are proposing to implement the WEEE Directive with as little disruption as possible to current retailer practises, while achieving the environmental aims of the Directive.

### Wind Farm (Redcar)

**Vera Baird:** To ask the Secretary of State for Trade and Industry (1) who will make the final decision on the proposed development of an offshore wind farm at Redcar; what criteria will be used to make the decision; and what procedures will be followed; [11901]

(2) what account will be taken of objections registered to the proposed offshore wind farm at Redcar in the process of a decision being reached on whether to permit the proposed development; [11910]

(3) what opportunities the objectors to the proposed wind farm at Redcar will have to make representations to the authority responsible for deciding whether to proceed with the project prior to the decision being taken; [11911]

(4) whether the proposal to build an offshore wind farm at Redcar will be subject to a *(a)* public inquiry and *(b)* other public hearing. [11912]

**Malcolm Wicks:** The wind farm off Redcar will require a suite of statutory consents before it can be built, principally under the Electricity Act 1989, the Food and Environment Protection Act 1985 and the Coast Protection Act 1949. My right hon. Friend the Secretary of State for Trade and Industry will take decisions in respect of the consent application made under the Electricity Act: my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs will take the decisions about consent applications made under the Food and Environment Protection Act and the Coast Protection Act.

Both my right hon. Friend the Secretaries of State will consider carefully all the representations that have been submitted in respect of the application and they will also take into account national policy considerations, including the target to generate 10 per cent. of electricity by renewable sources in 2010.

No decisions have yet been taken in respect of the determination of the consent applications. The options under the Electricity Act will be to accept the application, to reject it or to call a public inquiry to consider the issues further.

### Working-time Regulations

**Mr. Hayes:** To ask the Secretary of State for Trade and Industry if he will make a statement on the impact of ECJ case C-484/04, 2005/C 31/16, of OJ C31 of 5 February, on voluntary opt-outs of the 48-hour week regulations, with particular reference to civil servants; and what representations he has received thereon. [9048]

**Mr. Sutcliffe:** Pursuant to my answer of 26 May 2005, *Official Report*, column 176W, to the hon. Member, the Infraction Case in question is still on-going so it would not be appropriate to make an assessment of the impact at this time. The Department receives many representations on the working time directive and related issues but I am not aware of any representations on this specific issue.

## WORK AND PENSIONS

### Child Support Agency

5. **Mr. George Mudie:** To ask the Secretary of State for Work and Pensions if he will make a statement on progress in the transfer of cases from the old Child Support Agency payment system to the new system. [12305]

**Mr. Plaskitt:** No bulk transfer has taken place yet. It can only do so once the case information on file is cleaned and the computer system is stable. Work to secure those conditions is in hand.

Of 680,000 new scheme applications, 260,000 are still to be cleared. There are in addition 78,000 old scheme cases, still to be cleared, down from 130,000 a year ago.

Both these issues—transfers and backlogs—underline the scale of the problems in the agency. This is why we asked the Chief Executive to carry out a strategic review. His findings will be presented to us over the coming months and we will report to the House in due course.

20. **Mr. Carmichael:** To ask the Secretary of State for Work and Pensions if he will make a statement on the operation of the Child Support Agency. [12320]

**Mr. Plaskitt:** The operations standard is not where we want it to be. The Chief Executive is reviewing the Agency's operations and structures. He will report his findings and set out his proposals to improve the Agency's performance to us over the coming months.

Despite all the well known problems, the agency's staff are working hard and doing a good job in difficult circumstances helping to give financial support to over half a million children. They are doing a tough job with sensitivity. They like us, and like the agency's clients want to see the CSA reach an acceptable operational standard.

**Mr. Amess:** To ask the Secretary of State for Work and Pensions if he will make a statement on the future of the Child Support Agency. [12317]

**Mr. Plaskitt:** The Chief Executive is reviewing the Agency's operations and structures. His work is advanced. He will report his findings and set out his proposals to improve the Agency's performance to us over the coming months. We will obviously report to the House in due course.

### Construction Industry

10. **Mr. Clapham:** To ask the Secretary of State for Work and Pensions what recent discussions he has had with the Health and Safety Executive on safety and health in the construction industry. [12310]

**Mrs. McGuire:** My noble Friend the Lord Hunt, has met with officials from HSE since his appointment in May this year, to discuss matters concerning the construction industry. My hon. friend also visited two Birmingham construction sites with an HSE Inspector on 10 June and is scheduled to visit the Constructing Better Health initiative in September.

### Pensions (Investment)

16. **Paul Flynn:** To ask the Secretary of State for Work and Pensions what plans he has to encourage people under 30-years-old to invest in their pensions. [12316]

**Mr. Timms:** We want people to be aware of the need for pension saving from an early age, so that younger people get into the habit of saving. We are supporting the Financial Services Authority's financial capability strategy, which includes a young adults working group, and the guidance published last week to encourage employers to practise auto-enrolment into good occupational schemes should also help younger employees.

18. **Mr. Hunt:** To ask the Secretary of State for Work and Pensions if he will make a statement on his Department's policy on compulsion in pension saving. [12318]

**Mr. Timms:** The Government have asked the Pensions Commission to examine the case for compulsory pension saving.

Our aim is to build a national consensus on a long-term solution to the challenge of adequate provision of income in retirement.

### Debt Management

21. **Miss McIntosh:** To ask the Secretary of State for Work and Pensions if he will make a statement on the reorganisation of his Department's debt management section. [12321]

**Mr. Plaskitt:** Debt Management was established in April 2001 to bring increased focus to the management control and recovery of benefit debt owed to the Department.

To enable this, work has been transferred from 127 sites across the country to the 10 dedicated debt centres. This has been completed within agreed timescales and to budget.

The new IT system that has been developed to support the organisation is currently being rolled out to the debt centres, completion expected by the end of July 2005.

The programme initially focused on overpayment debt for Jobcentre Plus and the Pensions Service, and is gradually expanding to take on Disability and Carer's Service debt and Social Fund recovery where the recipient is no longer in receipt of benefit. The extension into these areas is expected to be completed by February 2006.

The organisation also assists local authorities with the recovery of housing benefit and council tax benefit debt.

### Women's Pensions

22. **Margaret Moran:** To ask the Secretary of State for Work and Pensions what measures he intends to take to tackle pension inequality for women. [12322]

**Mr. Timms:** We have not ignored the issue of women and pensions since we came to office. Pension credit is contributing to tackling the legacy of inequality. Measures such as state second pension, improving opportunities for women in the work place and increasing options for pension flexibility have all contributed to increasing pension entitlement for women.

We want to continue to make progress. Fair outcomes for women and carers is one of our principles for pension reform and will be one of the key factors on which proposals for reform will be judged. To help this develop our thinking, we will be holding an event later this year to discuss how to make the pensions system work well for women. Prior to this event, to aid discussion we will publish our analysis of the pension position of women.

### Pension Protection Fund

23. **Tim Loughton:** To ask the Secretary of State for Work and Pensions when he last met the board of the Pension Protection Fund to discuss its operation. [12323]

**Mr. Timms:** I met the Board of PPF when I visited the PPF office in Croydon on 18 May 2005, as well as meeting on a number of occasions with the Chair and Chief Executive.

A Memorandum of Understanding between the Department, the PPF and the Pensions Regulator has been signed recently and establishes a framework for cooperation between the Department and the two new non-departmental public bodies. It clearly shows that while the Department has no responsibilities or direct involvement in the operational activities of the Pensions Regulator or the PPF—it does have a stewardship role in both bodies.

### Pension Fund Trustees

**Mr. Swayne:** To ask the Secretary of State for Work and Pensions what steps he is taking to support individuals who assume responsibility as trustees of pension funds. [12319]

**Mr. Timms:** Trustees do a vital job in the management of occupational pensions.

As a result of the measures introduced in the Pensions Act 2004 trustees will—for the first time—have access to support in their work through codes of practice issued by the Pensions Regulator. My predecessor asked the Pensions Management Institute to assist in co-ordinating a new trustees' Forum. I am looking forward to the first meeting of the Forum next week

**David T.C. Davies:** To ask the Secretary of State for Work and Pensions what measures his Department is taking to encourage more people to become pension fund trustees. [12324]

**Mr. Timms:** We want to encourage pension scheme members being actively involved in the running of their own pension scheme.

Legislation already gives members the opportunity to get involved in the running of their schemes through member-nominated trustees. From April 2006 all schemes will include one-third member-nominated trustees, as the employer's ability to opt out of these provisions will be removed.

## INTERNATIONAL DEVELOPMENT

### Former Soviet Union

**Mark Simmonds:** To ask the Secretary of State for International Development if he will make a statement on progress by G8 countries in assisting with the destruction of nuclear, biological and chemical weapons in former USSR countries. [11817]

**Dr. Howells:** I have been asked to reply.

The hon. Member can find a full report on the G8's Global Partnership Against the Spread of Weapons and Materials of Mass Destruction and its practical efforts to reduce the risks of proliferation of weapons of mass destruction, including progress on the various projects to date at the G8 website. This report can be found at

http://www.fco.gov.uk/Files/kfile/PostG8_Gleneagles_GPWGAnnualReport2005.pdf

and the annex with project data at

http://www.fco.gov.uk/Files/kfile/PostG8_Gleneagles_GPWGAnnualReportAnnex2005.pdf.

The UK's second annual report on its progress under the Global Partnership is available at http://www.dti.gov.uk/energy/nuclear/fsu/news/Second_annual_report.pdf.

### Infant Mortality

**Mike Penning:** To ask the Secretary of State for International Development if he will list the top five causes of infant mortality in the third world in the last five years for which figures are available; how many infants died from each cause a year on average in that period; and what estimate he has made of the average cost of treating one infant affected by each such cause. [11745]

**Mr. Thomas:** Specific data on infant mortality (first year of life) are unreliable given the lack of effective vital statistics systems. Data collection is further compromised by the fact that about half of the women in developing countries deliver at home, without links to the health system. However, data is much more robust on deaths of children under 5 years.

Each year, 11 million children under 5 years die of acute respiratory infections (19 per cent.); diarrhoea (18 per cent.); malaria (8 per cent.) measles (4 per cent.). However, 40 per cent. of all deaths in children under 5 years occur within the first 28 days.

Three quarters of these, 4 million neonatal deaths, occur within the first week of life. Three main causes are severe infections (26 per cent.) (including sepsis, pneumonia and meningitis); premature births (28 per cent.) and birth asphyxia (23 per cent.).

"Making every mother and child count" (The World Health Organisation 2005), provides costs for the provision of skilled attendants, support with the instruction of breastfeeding, vaccinations, combating diarrhoea, pneumonia, sepsis and malaria, as well as prevention and care for HIV. The report identifies a set of costings with differing assumptions and scenarios for the 75 countries that together account for almost 95 per cent. of global child deaths (refer to www.who.int/whr). The costing of saving a child's life differs by country and there is no global figure available.

Underlying causes of these child deaths include poverty, with malnutrition and lack of clean water accounting for at least half of the mortality. Weak health systems that cannot ensure access to reproductive health services, including skilled attendants at birth, impact on child health outcomes—we know that babies born to mothers who die in childbirth are unlikely to survive their first year. Poor health and nutrition of adolescent girls has significant long-term effects on their health and the survival of their newborns.

### Millennium Development Goals

**Mr. Heath:** To ask the Secretary of State for International Development what steps he plans to take *(a)* to raise the profile of disability in the Millennium Development Goals review and *(b)* to ensure that disabled people are specifically included in the implementation of Millennium Development Goals. [12938]

**Hilary Benn:** It is essential to recognise and address the rights and needs of disabled people in order to meet the Millennium Development Goals (MDGs).

The UK is committed to ensuring the Millennium Review Summit recognises the need for special attention to the human rights of excluded groups, such as disabled people. DFID will advocate an inclusive approach to development, which respects the rights of all and ensures that everybody can actively participate in development. The approach at the summit of bringing development and rights together in the same outcome document should help to highlight these issues.

DFID's focus on the MDGs helps disabled people as well as non-disabled people. However, targets are not sufficient and the implementation of the MDGs and development programmes must also work to shape more inclusive poverty reduction initiatives. DFID works with governments to develop their Poverty Reduction Strategies, and this provides the opportunity to address issues of exclusion and discrimination with partners. DFID also provides support to initiatives directly aimed at supporting disabled people in developing countries. DFID currently funds 23 disability focused projects and a £1.4 million Knowledge and Research programme on disability and development.

### United Nations Population Fund

**Mr. Amess:** To ask the Secretary of State for International Development what assessment he has made of the effects of the United Nations Population Fund on non-coercive approaches to family planning in China. [10560]

**Mr. Thomas:** The United Nations Population Fund (UNFPA) is the largest UN provider of reproductive health assistance to developing countries and countries in transition. It is an influential advocate for gender equality, women's empowerment and sexual and reproductive health and rights. In 2003, the UK was the fourth largest provider of core resources. For 2004–07 the UK has committed £80 million in core funding.

UK assistance for sexual and reproductive health anywhere in the world is provided in support of the principles of free and informed choice set out at the International Conference on Population Development in Cairo in 1994, and re-affirmed through various international fora since. These principles reject coercion in matters relating to childbearing and reproduction and support the promotion and protection of all human rights and fundamental freedoms. It is important that this work should continue and that all people be given access to modern services, and the chance to choose their family size. Apart from DFID providing core funding to the UNFPA globally, we are not providing direct or targeted support for family planning in China.

The UNFPA works in China to support change and reform. The programme is making a full range of client-oriented reproductive health services available in 32 counties on a voluntary basis. Birth targets and quotas have been abolished and abortion and sterilisation rates and maternal mortality have all dropped significantly in UNFPA counties. These findings were produced by independent research carried out by the University of Southampton and the China Population Information and Research Centre and paid for by DFID China. The UNFPA's programme in China will continue to promote reform and the adoption of a programme based on principles of voluntary choice and rights.

The UK believes the UNFPA deserves strong support to pursue these activities—thereby contributing to reaching the millennium development goals, particularly those related to HIV/AIDS, maternal health and child mortality.

## CULTURE, MEDIA AND SPORT

### BBC Broadcast/Trust

**Mr. Doran:** To ask the Secretary of State for Culture, Media and Sport what criteria she will apply in determining whether to approve the sale of BBC Broadcast to Creative Broadcast Services. [11546]

**James Purnell** *[holding answer 12 July 2005]:* My right hon. Friend the Secretary of State's assessment will be limited largely to determining whether the BBC has

followed the appropriate process in reaching its decision to sell BBC Broadcast, and in applying for ministerial approval.

**Mr. Hancock:** To ask the Secretary of State for Culture, Media and Sport if she will make it her policy to ensure that the proposed BBC Trust is *(a)* representative of the population, *(b)* democratically accountable and *(c)* transparent in its operations; and if she will make a statement. [11826]

**James Purnell:** The decision to establish a BBC Trust to replace the BBC Board of Governors was set out in the Government's Green Paper on the BBC Charter Review, published in March 2005. The public consultation on the Green Paper closed on 31 May 2005 and the results are currently being analysed; the findings will help to inform the Government White Paper on the BBC Charter Review, to be published later this year.

Specific questions were asked in the public consultation about the potential membership of the Trust; options to improve accountability to licence fee payers; and how to ensure openness and transparency in the Trust's actions. The Government will consider the responses to the consultation before making final decisions on the detail. However, greater accountability to licence fee payers and increased transparency in the BBC's systems of governance and regulation are key themes in the Charter Review Green Paper.

### Digital Reception (Rural Areas)

**Mr. Salmond:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to increase the availability of digital radio and television services in rural areas. [12518]

**James Purnell:** Digital terrestrial coverage at switchover will match existing analogue coverage—around 98.5 per cent. of households.

While the vast majority of households not currently covered by analogue services can already receive digital television via satellite, cable or DSL, there are still a few areas in which reception is very poor. Therefore, we are considering with Ofcom how to extend further the reach of digital television.

Currently BBC and commercial DAB radio broadcast to around 85 per cent. of the UK population. Ofcom are considering proposals for the allocation of three further local multiplexes that will provide coverage to almost all of the UK, as well as a digital platform for the remaining BBC regional and local services. The BBC have also committed to ensuring their national DAB networks will cover at least 90 per cent. of the population over the period of the next charter. Digital radio services are also available on all of the digital television platforms.

### English Heritage

**Tony Baldry:** To ask the Secretary of State for Culture, Media and Sport how many of the recommendations made to her by English Heritage for listing in the last three years she has *(a)* accepted and *(b)* rejected. [11965]

**Mr. Lammy:** A central record is not kept of the number of recommendations for listing that are rejected. In the last three years, English Heritage have made 1,820 recommendations to list buildings. It is possible that some of the buildings recommended for listing during this period are still being considered.

During the same period, 1,281 buildings have been added to the statutory list, although some of these may have been recommended for listing earlier.

**Tony Baldry:** To ask the Secretary of State for Culture, Media and Sport how many sites of *(a)* Roman interest and *(b)* significance to the period of the (i) second world war and (ii) the cold war English Heritage has asked to be listed in the last three years. [11966]

**Mr. Lammy:** In the past three years, English Heritage has recommended one building of Roman interest for listing.

No central records are kept of the number of buildings recommended that are of second world war or cold war interest. However, within the last three years English Heritage has completed a thematic review of military aviation buildings, which has led to 261 buildings being recommended for listing, many of which played a role during the second world war. During the same period, English Heritage has also completed a thematic review of cold war buildings, which has resulted in five buildings being recommended for listing.

### Licensing Act

**Mr. Moss:** To ask the Secretary of State for Culture, Media and Sport when she intends to lay the statutory instrument for the nomination of the second appointed day under the Licensing Act 2003 before Parliament. [9554]

**James Purnell:** We intend to lay the Order setting the second appointed day, following our recent commitment that this date will be 24 November, very soon.

**Mark Williams:** To ask the Secretary of State for Culture, Media and Sport what steps her Department has taken to ensure that public house licensees are aware of the 6 August deadline to re-apply for their licence to serve alcohol. [12091]

**James Purnell:** My Department is making every effort to make all affected individuals and businesses aware of their responsibilities under the Licensing Act 2003.

These efforts have included a regular newsletter which has been used as the basis for National Pubwatch articles since August 2004; an improved licensing section on my Department's website; a letter through the courts to all alcohol licence holders at renewal in 2004; and a trade and ethnic press campaign including 28 advertisements aimed at independent operators.

The publicity campaign is now being stepped up as the 6 August deadline approaches. Over the last week, my Department has sent out 180,000 leaflets for distribution through suppliers to the licensed trade, wholesalers, and cash and carries.

**Mr. Hollobone:** To ask the Secretary of State for Culture, Media and Sport what her latest assessment is of the impact on the viability of village halls of the introduction of the new licensing regime. [12103]

**James Purnell:** The reform of the licensing regime will benefit village halls in the long-term by removing the need to apply for several licences and permissions. This will allow them to offer a wide range of activities to local communities under a single licence. Costs and bureaucracy will also be reduced—not least, because village halls will only incur licence fees where events include the sale of alcohol. The vast majority of village halls will pay no more than £190 on initial application, and £180 as an annual fee.

I met representatives of Action with Communities in Rural England on 12 July to discuss the concerns of village halls. My Department will shortly issue a public consultation document on the limit for temporary event notices allowed per year, and I fully expect the Independent Fees Review Panel to consider the concerns of village halls in detail.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the effects of people not applying for licences on time under the Licensing Act 2003. [12237]

**James Purnell:** The latest available estimates show that 33 per cent. of the total of licence holders expected to apply have already done so. This percentage is rising rapidly as the 6 August deadline for conversion approaches.

All premises operating under the Act must have a licence granted by 24 November which is the second appointed day. My Department together with LACORS and the LGA are making every effort to ensure that licence holders are made fully aware of their responsibilities, and I remain confident that organisations will respond.

**Mrs. Spelman:** To ask the Secretary of State for Culture, Media and Sport what guidance the Government have issued to councils, relating to the Licensing Act 2003, on councillors considering licensing applications that originate from their own ward; and if she will make a statement. [13066]

**James Purnell:** Central Government have not issued any advice to councils on councillors considering licensing applications that originate from their own ward. There is nothing in the Licensing Act 2003 or the guidance that we issued under section 182 of the Act or the associated regulations that prevents a ward councillor from sitting on a licensing sub-committee considering representations in respect of premises in his or her own ward. However, like all of us who have been elected to public office, councillors do have to promote and maintain high standards of conduct, ethics and propriety. Any advice that councillors receive on this issue would come from their own internal advisers and standards committees. The advice will generally be identical to that which applies to all committees carrying out local authority functions. Ultimately, the decision as to whether any councillor should disqualify himself or herself from participation in any individual case would be a matter for him or her. Such decisions would normally be subject to scrutiny by the local authority's standards committee.

**Mrs. Spelman:** To ask the Secretary of State for Culture, Media and Sport what discussions the Government have had with the Standards Board for England in relation to the implementation of the Licensing Act 2003. [13067]

**James Purnell:** None. Issues about propriety and the ethical behaviour of members of licensing committees are governed by the same standards as any other local government committee.

### Listed Buildings/Sites

**Mr. Davey:** To ask the Secretary of State for Culture, Media and Sport what guidance she has issued on the *(a)* conservation, *(b)* restoration and *(c)* use of listed buildings. [12018]

**Mr. Lammy:** Government policy in relation to the historic environment is set out in planning policy guidance note 15 (Planning and the Historic Environment) and planning policy guidance note 16 (Archaeology and Planning). Further information in relation to listed buildings is available on the DCMS website www.culture.gov.uk

**Mr. Davey:** To ask the Secretary of State for Culture, Media and Sport what representations she has received on improper use of listed buildings in *(a)* Kingston and Surbiton, *(b)* South West London, *(c)* London and *(d)* England. [12020]

**Yvette Cooper:** I have been asked to reply.

The Office of the Deputy Prime Minister is not aware of any representations regarding the improper use of listed buildings.

**Mr. Davey:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of listed buildings in *(a)* Kingston and Surbiton, *(b)* South West London, *(c)* London and *(d)* England; and how many in each case are in use. [12021]

**Mr. Lammy:** There are 153 list entries in relation to properties within the Royal borough of Kingston-upon-Thames, 2,550 for properties in South West London, 18,515 for properties in Greater London, and 372,130 for properties in England. Each list entry may include more than one building. No records are held centrally of whether listed buildings are in use.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport how many *(a)* buildings, *(b)* sites and *(c)* parks in Chorley are listed; and if she will list those assessed as requiring (i) restoration and (ii) conservation. [12444]

**Mr. Lammy:** There are 54 list entries relating to listed buildings in Chorley, 11 scheduled ancient monuments, and five registered parks and gardens. Each list entry may relate to more than one building.

The following four listed buildings in Chorley appear on the Buildings at Risk Register:

Buckshaw Hall, off Euxton Lane, Euxton, Chorley

Bank Hall, Liverpool Road, Bretherton, Chorley

Lower Burgh Hall, Coppull New Road, Chorley

Great Barn West of Hoghton Tower, Chorley

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport how many swimming pools in England are listed; and what the process is for listing swimming pools. [12459]

**Mr. Lammy:** There are 94 list entries relating to swimming pools and swimming pool related buildings in England.

The criteria for listing buildings under the Planning (Listed Buildings and Conservation Areas) Act 1990 are set out in Planning Policy Guidance Note 15: Planning and the Historic Environment (PPG15).

### Olympics 2012

**Norman Baker:** To ask the Secretary of State for Culture, Media and Sport what steps she plans to take to minimise the carbon footprint of the 2012 Olympics. [12553]

**Tessa Jowell:** Achieving a sustainable games was a strong element of London's bid for the 2012 Olympics. A key part of London 2012's plans, as set out in Theme 5 of their Candidate File, was for a "low carbon" games.

Venues will be designed to optimise energy efficiency and to make use of low carbon and renewable energy sources. All spectators will travel to the games by public transport, or by cycling or walking. The vehicles for the Olympic family will comply with strict low-emission standards.

There will also be a comprehensive carbon-offset programme to "neutralise" all the unavoidable carbon emissions caused by overseas participants travelling to the games in 2012, as well as the organisation's own staff travel during the preparation phase, by supporting the installation of renewable energy projects in developing countries.

**Chris Huhne:** To ask the Secretary of State for Culture, Media and Sport whether security costs were included in the estimates made for the London Olympic bid; and if she will make a statement. [12557]

**Tessa Jowell:** Security costs were included in the financial estimates made as part of the bidding process. £23 million has been allocated to the London Organising Committee of the Olympic Games (LOCOG) budget—as laid out in table 6.6.1 of London 2012's candidate file. This amount includes funding for the equipment, planning, co-ordination and training and law enforcement resources.

A further allowance of £190 million has been made from the stakeholders funding package of £2.375 billion for the wider security costs required to address security needs when we stage the games in 2012.

**Dr. Cable:** To ask the Secretary of State for Culture, Media and Sport if she will publish a full economic cost benefit analysis for the UK of the successful London Olympic bid. [11894]

**Tessa Jowell** *[holding answer 13 July 2005]:* We have commissioned such an analysis and shall publish it in due course.

**Robert Key:** To ask the Secretary of State for Culture, Media and Sport what plans she has to seek changes in the law to permit the ownership and use of certain types of handgun to permit the full range of competition at the London Olympics 2012; and if she will make a statement. [11945]

**Tessa Jowell:** The Home Office do not propose to repeal the ban on the private possession of handguns. Special arrangements will be put in place to allow pistol shooting events at the 2012 Olympics as happened at the 2002 Commonwealth games. These arrangements will include a warm up event if this is deemed necessary.

**Mr. Davey:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of skilled construction workers required to work on preparations for London 2012. [12017]

**Tessa Jowell:** The outline planning application for the Olympic park estimates that 7,000 construction workers will be needed to help deliver the 2012 Olympic and Paralympic Games. We expect the major construction work in the East End of London in the run up to 2012 to provide the stimulus for a long-term positive impact on the construction industry in the UK.

## FOREIGN AND COMMONWEALTH OFFICE

### Afghanistan

**Linda Gilroy:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the programme to build capacity in the justice sector in Afghanistan; and what impact this is having on United Kingdom efforts to counter narcotics and related crop growing. [13131]

**Dr. Howells:** The creation and consolidation of a national Afghan government and institutions, including those for justice, will be the key to establishing long-term stability and security. After nearly three decades of war, these institutions needed to be created from scratch.

The UK is the G8 lead nation on counter narcotics and is working in support of the Afghan Government's eight pillar 2005 implementation plan, of which criminal justice is a key pillar.

Sustainable drug elimination strategies take time—particularly when the challenges are as severe as those in Afghanistan.

### Departmental Bills

**Mr. Amess:** To ask the Secretary of State for Foreign and Commonwealth Affairs what Bills were sponsored by his Department in each Session since 1979. [10564]

**Mr. Straw:** Providing information for the entire period requested would incur disproportionate costs.

Since 1997, the Foreign and Commonwealth Office has been responsible for the following legislation (Bills that have been enacted are described as Acts):

*2005*

International Organisations Act

European Union Bill

*2003*

Arms Control and Disarmament (Inspections) Act

European Union (Accessions) Act

*2002*

British Overseas Territories Act

Commonwealth Act

European Communities (Amendment) Act

*2001*

International Criminal Court Act

*1998*

European Communities (Amendment) Act

Nuclear Explosions (Prohibition and Inspections) Act.

### Burma

**Miss McIntosh:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of whether Burma possesses *(a)* uranium and *(b)* antimony deposits; and whether processing of Burmese (i) uranium and (ii) antimony takes place in (A) Burma, (B) China, (C) North Korea, (D) Russia and (E) elsewhere. [12409]

**Dr. Howells:** According to reputable public sources, there are both uranium and antimony deposits in Burma.

Uranium is processed in China, North Korea and Russia, as well as in a number of other countries, but not in Burma.

Antimony has a range of commercial applications, and its processing and use is not under any form of international control. As far as we are aware, antimony is mined but not further processed in Burma, and is processed in China, North Korea and Russia, as well as in a number of other countries.

### Correspondence

**Adam Price:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter from the hon. Member for Carmarthen, East and Dinefwr of 15 June on ministerial circulation of legal advisers' briefings. [12827]

**Dr. Howells:** As the hon. Member requested, we are considering the question under the Freedom of Information Act. A letter has been sent to the hon. Member confirming that we will reply to his question by 29 July. This is an extension of 10 working days beyond our original target date for replying to him. This extra time is needed in order to make a determination as to the public interest in releasing the information requested.

### Departmental Advertising

**David T.C. Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Department spent on advertising in each of the last five years. [10252]

**Mr. Straw:** Our records show that advertising costs in the last five financial years are as follows.

£

| | Recruitment advertising | Diversity advertising | Other | Total |
|---|---|---|---|---|
| 2001–02 | 803,745.38 | 203,050 | 13,794.52 | 1,020,589.90 |
| 2002–03 | 587,936.18 | 183,109 | 39,786 | 810,831.18 |
| 2003–04 | 391,674.91 | 156,844 | 62,460.37 | 610,979.28 |
| 2004–05 | 226,458.35 | 227,095 | 24,331.63 | 477,884.98 |
| 2005–06 (to date) | 112,106 | 91,915 | Nil | 204,021 |

The Foreign and Commonwealth Office's overseas posts and its non-departmental public bodies (NDPB) also incur costs. Collating this information would involve contacting each individual overseas posts and individual sponsoring departments of NDPBs. Sponsoring departments would then have to contact each NDPB for details. This information could be provided only at disproportionate cost.

### Developing Countries

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what progress is being made with the promotion of best practice in parliamentary scrutiny in developing countries. [12461]

**Ian Pearson:** Work to strengthen parliamentary institutions is a significant element of the UK's foreign policy, including in developing countries. Legislative assemblies have a key role in overseeing the action of Governments. We have supported work in this area in many countries, including Uganda, where the UK has supported an Office for Parliamentary Development; in Nigeria, where the UK is supporting a broad-based package aimed at strengthening the National Assembly; and support to parliamentary oversight bodies, e.g. Public Accounts Committees, in, among others, Sierra Leone and Malawi.

### Equatorial Guinea

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs when a UK Government Minister last visited Equatorial Guinea; and when the next such visit is planned. [12170]

**Ian Pearson:** We have no record of any visit by a UK Government Minister to Equatorial Guinea. There are no present plans for a visit.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent estimate he has made of the number of UK workers in Equatorial Guinea; and in which sectors they are working. [12171]

**Ian Pearson:** We estimate that there are approximately 400 British workers currently employed in Equatorial Guinea, the majority engaged in support to companies in the oil and gas sector.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects Equatorial Guinea's ambassador to the UK to be presented. [12182]

**Ian Pearson:** The Equatorial Guinean ambassador presented his credentials on 14 July 2005.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the most recent elections held in Equatorial Guinea. [12189]

**Ian Pearson:** The most recent elections in Equatorial Guinea were the municipal and legislative elections in April 2004. An EU statement was made following these, which the UK supported. This document can be found at http://europa.eu int/abc/doc/off/bull/en/200406/p106022.htm.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to meet Equatorial Guinea's ambassador to the United Kingdom. [12195]

**Ian Pearson:** The Equatorial Guinean ambassador presented his credentials on 14 July 2005. He has not yet sought an appointment with Ministers. We will consider each request on its merits.

## Iran

**Andrew Mackinlay:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 4 July 2005, *Official Report*, column 183W, on Iran, whether the information received has now been verified; and if he will make a statement. [12482]

**Dr. Howells:** The Foreign and Commonwealth Office and the British embassy in Tehran have both made efforts to verify claims of the disappearance of Ebdal Karimi. We have not been able to do so because we do not have sufficiently detailed information. We note that the original information was provided by an Iranian opposition group that is often not a reliable source. Without further information we are unlikely to be able to verify the claims.

## Iraq

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports of the mistreatment and torture of detainees by Iraqi security forces; and if he will make a statement. [10013]

**Mr. Straw:** We condemn all forms of abuse. Where we have suspicions or evidence of abuse by Iraqi security forces we take immediate action to raise our concerns at the highest level with the Iraqi Government. They have said that they will not tolerate abuse and that they will investigate anyone suspected of abuse and prosecute where evidence substantiates those suspicions.

## Israel

**Richard Burden:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 16 June 2005, *Official Report*, column 650W, on Israel, whether the Government of Israel has informed him that it has withdrawn demolition orders already issued in respect of Silwan Village in east Jerusalem. [9109]

**Dr. Howells:** No such information has been received from the Israeli Government. However, we understand that the demolitions have been put on hold. UK officials in Tel Aviv and Jerusalem continue to monitor developments.

**Dr. Starkey:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to establish an international monitoring presence in the occupied territories to ensure that both Israelis and Palestinians are fulfilling their obligations to the road map; and if he will ensure that plans for such a presence have *(a)* an explicit human rights component and *(b)* a timetable for implementation. [11658]

**Dr. Howells:** The international community is well aware of the failings on both sides in implementing their roadmap commitments. In particular, Israel has not frozen settlement expansion and the Palestinian Authority has not adequately tackled terrorism. No international presence could ensure better implementation without the full support of both sides.

The international community is however closely involved in disengagement, with the parties agreement. Quartet (UN, US, EU and Russia) Special Envoy for Disengagement James Wolfensohn is working in co-ordination with the parties and with US security co-ordinator General William Ward, and with the support of the international community.

Israeli withdrawal of all settlements from Gaza and of four from the northern West Bank, plus reformed Palestinian institutions, should help enable both sides to make continued progress in meeting their roadmap commitments.

**Sir Michael Spicer:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the government of Israel for the release from house arrest of Mordechai Vanunu. [12936]

**Dr. Howells:** My right hon. and noble Friend the former Minister of State at the Foreign and Commonwealth Office (Baroness Symons of Vernham Dean) raised our concerns with the Israeli Chargé d'Affaires following Mr. Vanunu's release in April 2004, as did our ambassador in Tel Aviv with the Israeli Government. We have since raised the issue with the Israeli Government on numerous occasions

We are aware that Mr. Vanunu was indicted on 17 March for violating the terms of his release from prison and that this has resulted in a further year's extension of the restrictions previously imposed on him. We recognise that Israel has a right to protect its national interest but we are concerned that the restrictions may be excessive and punitive. Our embassy in Tel Aviv will continue to monitor his case closely.

## Management Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's total spending on management consultants has been in each of the last three years. [13063]

**Mr. Straw:** I refer my hon. Friend to the reply I gave him on external consultancy in general on 25 May 2005, *Official Report*, column 134W. Expenditure specifically on management consultancy is not categorised separately and could be provided only at disproportionate cost.

## Middle East

**Mr. Clappison:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether he expects that aid promised by the G8 summit to the Palestinian Authority will be received by *(a)* Hamas-led

administrations and *(b)* Hamas mayors, with particular reference to the Hamas mayors in (i) Kalkiya, (ii) Hebron, (iii) Bethlehem, (iv) Rafah and (v) Beit Lahia. [12058]

**Dr. Howells:** The G8 summit announced support for the quartet-appointed (UN, US, EU and Russia) special envoy for disengagement James Wolfensohn's intention to stimulate a global financial contribution of up to $3 billion per year over the next three years. Mr. Wolfensohn has indicated that the aid would be spent on a range of infrastructure and job creation schemes in the Gaza strip and northern west bank, to help revitalise the Palestinian economy following the Israeli withdrawal from those areas. The details of how this aid would be distributed have not been finalised. There are no plans for the aid to go directly to Hamas-governed municipalities.

The Mayor of Bethelehem represents the Popular Front for the Liberation of Palestine.

The Mayors of Rafah, Beit Lahia and Hebron represent the Fatah party.

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he plans to take to carry forward the promotion of peace, stability and reform in the Middle East during the UK's presidency of the EU. [12672]

**Dr. Howells:** On the Middle East Peace Process, the EU will continue to play, through the Quartet (UN, US, EU and Russia), a key role in supporting the Palestinian Authority's efforts at institutional reform and Prime Minister Sharon's disengagement plan. Stronger Palestinian institutions and a successful disengagement are necessary for Roadmap implementation. For the EuroMed region, November's Euro@Med Tenth Anniversary Summit will be a critical opportunity to help the EU's Mediterranean Partners to meet the challenges of the 21st century, including in education, economic reform and good governance. The EU stands ready to support a representative Lebanese Government in carrying out political and economic reforms and calls on Syria to take action to promote regional stability. And we will promote reform and security through our relations with other countries in the region, including through the EU Strategic Partnership with the Mediterranean and the Middle East.

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken to bring about the disarmament of Hezbollah forces in Southern Lebanon, in compliance with UN Security Council resolution 1559. [12673]

**Dr. Howells:** The disarmament of non-Lebanese and Lebanese militias, including Hezbollah, as required by United Nations Security Council resolution (UNSCR) 1559, is a complex issue that will take time to implement. The Government believes that the process of disarming the militias in Lebanon needs to be Lebanese-led, and once the new government of Lebanon is formed we will be discussing with it how the UK and our international partners can assist with the full implementation of UNSCR 1559.

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest estimate is of the threat posed by Hamas to *(a)* Israeli and *(b)* Palestinian security. [12674]

**Dr. Howells:** Terrorism has caused many innocent casualties, and Hamas has been responsible for numerous attacks. Such actions undermine the efforts of the Israeli Government and the Palestinian Authority to make progress on the Middle East peace process. They also undermine Palestinian President Abbas' authority and the Palestinian Authority's ability to meet its commitments on security, and economic and political reform made at the London meeting.

The UK notes the commitment made by Hamas, and other Palestinian groups to President Abbas in Cairo in March to adopt a conditional cease-fire until the end of 2005. The UK calls for Hamas to go further and renounce violence, choosing participatory politics as the only means of working towards a lasting peace in the Middle East.

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest estimate is of the progress made by the Palestinian Authority in reforming its security services in line with commitments made at the London meeting in March. [12686]

**Dr. Howells:** Following the pledges made at Sharm el Sheikh on 8 February and the London meeting on 1 March, the Palestinian leadership has made some progress with security reform, but more needs to be done both in order to provide a climate of law and order for the Palestinian people, and to prevent appalling crimes such as the suicide bombing in Netanya. We welcome the progress that has been made, eg the reshuffling of Palestinian Authority (PA) security chiefs in April and the streamlining of the security forces, and we are encouraged by Abu Mazen's commitment to security reform. But much more remains to be done.

Security co-operation continues with frequent co-ordination meetings between the Israelis and Palestinians. It is vital that this co-operation continues in the run-up to Israel's withdrawal from Gaza and parts of the North West Bank.

The United States is leading in the efforts to assist the PA in achieving its goals. General William Ward is working with Palestinian officials and we are actively supporting him. We will continue to work to ensure that this reform programme is successful in the longer term.

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effects of Iran's nuclear programme on future stability in the Middle East following the results of the Iranian Presidential elections. [12687]

**Dr. Howells:** The proliferation of nuclear weapons and their means of delivery is a serious threat to international peace and security, in the Middle East and elsewhere. Following an agreement reached in Paris in November 2004, the UK, France and Germany, supported by the EU High Representative, have been in discussion with Iran about long term arrangements for its nuclear programme. These should provide objective guarantees that Iran's nuclear programme is exclusively for peaceful purposes. The new Iranian President elect, Mahmoud Ahmadinejad, has said the talks will go on. We remain fully committed to the Paris agreement. We continue to honour our commitments, and expect Iran to do likewise.

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest assessment is of progress made by Israel with its disengagement plan. [12688]

**Dr. Howells:** Israeli disengagement from Gaza and part of the West Bank is due to start in mid-August. There has been some co-operation between the Israeli Government and the Palestinian Authority, but there have only been limited agreements so far, e.g. to demolish settler housing inappropriate for the Palestinian population. While this is positive, it is essential that the two sides step up their co-ordination in the coming weeks.

We welcome the appointment of James Wolfensohn as the Quartet's (UN, US, EU and Russia) Special Envoy for Gaza Disengagement. He is already working with the parties. His goals are the economic revitalisation of Gaza and the West Bank, and to assist with further Palestinian governance reform. G8 leaders on 7 July 2005 endorsed his approach and supported his intention to stimulate a financial contribution of up to $3 billion annually for the next three years from the international community.

## North Korea

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of food supplies in the Democratic People's Republic of Korea and the decision of the World Food Programme to consider suspending its food aid operations there. [2570]

**Ian Pearson:** The Democratic People's Republic of Korea (DPRK) Government cut the daily food ration in January so that it now constitutes approximately half the daily energy requirement. Two thirds of the DPRK population remain dependent on this public distribution system. The World Food Programme (WFP) aims to provide food aid for 6.5 million people it considers to be in need. This is roughly a quarter of the population. There have been a number of breaks in the supply of food aid, due mainly to fluctuating support from major donors. WFP has not managed to assess the impact of these breaks. Because of DPRK Government restrictions on information sharing, it is difficult to be certain of data on the food situation. As far as we are aware, the WFP has no plans to suspend its food aid operations in the DPRK.

## Organisation for the Prevention of Chemical Weapons

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 6 July 2005, *Official Report*, columns 486–87W, on the organisation for the prevention of chemical weapons (OPCW), whether the award to Mr. Bustani following the review requested by the OPCW was made for material damages only. [11978]

**Dr. Howells:** The original judgment from the International Labour Organisation Administrative Tribunal (ILOAT) in July 2002, awarded Mr. Bustani, as former Director-General of the Organisation for the Prohibition of Chemical Weapons (OPCW), moral as well as material damages.

In the subsequent review of this award, the OPCW did not request a review of the moral damages element of the award but only of the material damages. The ILOAT clarified that material damages must only compensate for loss actually suffered and that therefore net earnings from other sources, i.e. including that related to any new employment, had to be deducted from the payment to Mr. Bustani. In consequence the overall payment of damages to him was reduced.

## School Fees

**Andrew Mackinlay:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on school fees in each of the last three years; who is entitled to claim the cost of fees; what the maximum amount payable per claimant is; and if he will make a statement. [11548]

**Mr. Straw:** Foreign and Commonwealth Office (FCO) expenditure on school fees during the last three financial years was as follows:

| | £ |
|---|---|
| 2002–03 | 15,990,618 |
| 2003–04 | 17,273,000 |
| 2004–05 | [1]17,200,000 |

[1] Estimate—final figures are not yet available

In the last academic year, the maximum amount payable per claimant was £6,695 for school fees per term.

It is a condition of employment that members of the diplomatic service must be prepared to serve anywhere in the world at any time during their career, sometimes at very short notice. Those with children have the legal obligation as parents to ensure that their children receive a full-time education from the age of five years. The FCO's provisions for children's education are intended to help staff meet these potentially conflicting obligations.

Children who accompany their parents on postings overseas are expected to use free state schooling if it is available locally and suitable. If suitable schooling is not available free of charge locally but is available at fee-charging schools, fees are refunded to enable children to receive the education they would be entitled to in the UK.

With staff moving every 12–48 months and education facilities at posts' locations overseas varying, continuity of education can be problematic particularly during the important exam years and in preparation for these years. The FCO's provisions address this problem by enabling children to board at school in the UK while their parents remain subject to the world-wide mobility obligation.

## Structural and Cohesion Funds

**Dr. Fox:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his statement of 15 June 2005, *Official Report*, column 279, on European affairs, what assessment he has made of the effects of the Government's proposals for reform of structural and cohesion funds in the EU on *(a)* the UK's net and gross

contribution to the EU budget and *(b)* the UK's abatement on its contributions; and if he will make a statement. [6222]

**Mr. Straw:** The exact impact of the Government's reforms for the Structural and Cohesion Funds (SCF) on the UK's net and gross contributions and on its abatement will depend on the size and shape of the budget to which it is applied.

The Government's proposal is to focus the Community funding of EU Regional Policy on the poorest member states. If agreed, they would:

reduce the UK's gross contributions, by lowering the overall size of the budget;

decrease the UK's net contribution, as the UK is a net contributor to the SCF budget; and

reduce the size of the UK abatement, by reducing the difference between the UK's gross contribution and its receipts.

### Turkey

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Turkey regarding the article in the Turkish Penal Code which criminalises any mention of the Armenian genocide. [11863]

**Mr. Douglas Alexander:** I refer the hon. Member to the reply given by my right hon. Friend the then Minister for Europe (Mr. MacShane) to my hon. Friend the Member for Hendon (Mr. Dismore) on 16 November 2004, *Official Report*, columns 1340–41W. The answer makes clear that it is the non-binding guidance to Article 305 of the Turkish Penal Code and not the code itself that advises that when receiving material benefits from a foreign individual or organisation

"a citizen who declares that the Armenian genocide took place during the First World War, can be pursued by virtue of this article."

The European Commission has made it clear to Turkey that they expect the language not to be taken into consideration when interpreting Article 305.

Our embassy in Ankara discussed the Penal Code, including this guidance to Article 305, with the Turkish Parliament ahead of its entry into force on 1 June 2005, and continue to work with the European Commission to ensure that Turkey meets its international legal obligations, including those concerning freedom of expression under the European Convention for the Protection of Human Rights.

**John Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of Turkey regarding recognition of the Armenian genocide. [11866]

**Mr. Douglas Alexander:** None—neither this Government nor previous British Governments have judged that the evidence is sufficiently unequivocal to persuade us that these events should be categorised as genocide as defined by the 1948 UN Convention on Genocide.

### United Nations Compensation Commission

**Harry Cohen:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the outcome of the United Nations Compensation Commission (UNCC) meeting on 28 to 30 June was; whether it resolved all outstanding claims; what reparation payments have been made to date; what the total of reparations will be once all outstanding claims are met; what the timescale for outstanding claims is; what costs to date the UNCC has charged to reparations; what the estimated total cost of the UNCC itself charged to reparations upon the completion of all claim payments is; how much interest included within original claims has been paid to date; what the estimated interest on total claims for reparation payments is; what position the UK Government's representative at the UNCC took on matters before this meeting; and if he will make a statement. [10415]

**Dr. Howells:** All outstanding claims have now been resolved by the United Nations Compensation Commission (UNCC).

A total of approximately US$52.5 billion has been awarded in respect of approximately 1.5 million eligible claims. Approximately US$19.2 billion has been paid so far to Governments for distribution to claimants.

Current revenues received by the Fund are approximately US$1 billion per year. The next round of payments is expected this month when US$200 million will be made available for payment. It is likely that all individual claims will be paid by 2007, or earlier under the current payment mechanism.

The Secretariat of the UNCC state that since 1991 total administrative costs up to May 2005 were US$362.6 million.

The Governing Council at their meeting in March 2005 took the decision not to take any further action on the issue of interest. This effectively means that interest will not be paid by the UNCC to claimants on top of their principal awards. This decision was reached by consensus after careful consideration. The decision affects all claimants in the same way.

The UK continues to support the UNCC.

## NORTHERN IRELAND

### Altnagelvin Hospital

**Mark Durkan:** To ask the Secretary of State for Northern Ireland if he will make a statement on the recent closure of the high dependency unit at Altnagelvin hospital. [11308]

**Mr. Woodward:** The high dependency unit at Altnagelvin was closed temporarily from 5 pm on Saturday 25 June until 11 am on Monday 4 July. The closure was due to difficulties with nurse staffing levels associated with compassionate leave, maternity leave and sick absences.

The same group of nursing staff work in both the intensive care unit (ICU) and high dependency unit (HDU) and when there is a higher than usual demand for ICU beds, nurses are redeployed from HDU to ICU.

Given the unpredictability of the demand for ICU beds, the situation is monitored by the trust on a day-by-day basis.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many *(a)* full-term neonatal deaths and *(b)* stillbirths there were at Altnagelvin hospital in each week of 2001. [11804]

**Mr. Woodward:** This information is not readily available and could be provided only at disproportionate cost.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many post mortems were conducted into neonatal deaths during 2001 at Altnagelvin Hospital. [11805]

**Mr. Woodward:** There were no post mortems conducted into neonatal deaths during 2001 at Altnagelvin hospital. All paediatric post mortems are carried out at the Royal Victoria hospital in Belfast.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what investigations have been conducted into full-term neonatal deaths during September 2001 at Altnagelvin hospital. [11806]

**Mr. Woodward:** Altnagelvin Health and Social Services Trust advise that there were three routine blood tests carried out following full-term deaths at Altnagelvin hospital during September 2001. The Royal Group of Hospitals have advised that they carried out one paediatric post mortem following a referral from Altnagelvin hospital on 28 September 2001.

### Anaesthetists

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what his assessment is of the extent to which theatre managers and clinical directors are fulfilling their obligations to provide adequately trained staff to assist anaesthetists within the Province. [11771]

**Mr. Woodward:** Across trusts, theatre managers and clinical directors have fully considered the need to provide trained assistance of a high standard to anaesthetists. A range of measures is in place which includes: the recruitment and selection of appropriately qualified staff; in-house training and induction programmes; further professional training including diploma/degree level courses; specialist practice courses for nurses; and the supernumerary treatment of nurses undergoing anaesthetics training until deemed competent to practice.

### Anastrozole

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what research has been carried out by his Department into the effectiveness of Anastrozole in treating breast cancer. [11225]

**Mr. Woodward:** The Department has not conducted any research into the effectiveness of Anastrozole. However, the Department is aware of research undertaken elsewhere, especially the results of the Anastrozole, Tamoxifen, alone or in combination trial (ATAC). Evidence emerging from such studies will be kept under review.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many people are being treated with cancer drug Anastrozole in each NHS health authority area in Northern Ireland. [11228]

**Mr. Woodward:** The Department do not record the numbers of patients receiving a particular drug. However in 2004–05, 9, 213 prescriptions for Anastrozole were issued in the community in Northern Ireland.

The number of Anastrozole prescriptions issued per board area in 2004–05 was as follows:

| *Board* | *Number* |
|---|---|
| Northern | 1,863 |
| Eastern | 4,411 |
| Western | 1,588 |
| Southern | 1,358 |

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will make a statement on the availability of the cancer drug Anastrozole on the NHS in Northern Ireland. [11231]

**Mr. Woodward:** The cancer drug Anastrozole is widely available for prescription in Northern Ireland.

### Asbestos

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland if he will make a statement on the disposal of asbestos within Northern Ireland; what sites have been approved by the Government; and when each was approved. [11112]

**Angela E. Smith:** There are two ways in which asbestos is legally managed. One is by disposal to a landfill site with a dedicated cell which receives only asbestos waste. The other is by contained storage in waste transfer stations where asbestos is kept until it can be transported to Great Britain for disposal in landfill in an economically viable manner.

Asbestos can also be illegally disposed of by depositing on unlicensed sites or mixing it with other wastes to disguise its appearance.

Currently three facilities in Northern Ireland are licensed to receive asbestos. These relate to one landfill site (which is currently completing engineering works before asbestos can be received) and two waste transfer stations. The landfill site was issued with a licence on 4 January 2005 while the waste transfer stations were licensed on 3 September 1984 and 19 April 2005.
